

## Alternate 611

Chapter 611! destroying the lake to obtain the treasure

The moment the two foreign cultivators disappeared, more figures flew over.

The leading Holy master was at the forefront. He glanced at the blood Lake that was still rippling with waves. A stern look flashed in his eyes, but it disappeared in the blink of an eye. He only looked at Tang Zhen with a complicated expression.

It was only at this moment that he suddenly realized why he had been so puzzled.

From the beginning to the end, this human cultivator had been setting up a trap to kill the two King level cultivators!

This was the only reason that could explain Tang Zhen's abnormal behavior earlier. Why did he give up the location of the treasure so easily and even turn a blind eye to the provocation of the two foreign race cultivators?

A two-star King tier being afraid of two one-star King tiers? this was simply a joke. Moreover, they still had the advantage!

It turned out that he had this goal in mind. He wanted to use the monsters in the blood Lake to kill the two people who had provoked him!

If the two foreign cultivators had been more cautious, they wouldn't have been fooled so easily.

It was a pity that these two fellows were too arrogant and were used to acting like kings in this region. As such, they actually dared to provoke Tang Zhen after witnessing his ability. They truly deserved to die.

What the two cultivators didn't know was that Tang Zhen could easily kill them. However, he didn't even bother to do it himself. That was why he used the blood Lake monster to set up a trap and kill them.

Since Tang Zhen was not involved in this matter, he was afraid that he would not be able to find a sufficient reason even if he wanted to seek an explanation for them.

At the thought of this, the Holy master cursed "idiot" in his heart again. Did those two not realize that even he, who had discovered Tang Zhen's hidden cultivation level, had started to stay away from him?

Or could it be that these two fellows really didn't notice the change in Tang Zhen's cultivation, so they didn't put Tang Zhen in their eyes and were easily fooled?

The Holy master's heart turned cold when he thought about how Tang Zhen had casually killed two King level cultivators. He didn't know if he was part of Tang Zhen's plan.

If that was the case, he would have to be extra careful in the following exploration process!

Situ Yuezhi and the others didn't think too much about it and just treated the monster's attack as an accident. They were all looking serious.

The monster in the blood Lake was definitely not simple. Otherwise, it wouldn't be able to kill two King level cultivators with one strike!

Looking at the rolling blood-colored lake water, everyone subconsciously dodged to avoid another sneak attack from the monster.

"City Lord Tang, what should we do next?"

Situ Yuanzhi turned his head and asked Tang Zhen. When the rest of the cultivators heard this, they also turned their gazes towards him.

Along the way, Tang Zhen's performance had made them look at him in a new light. Therefore, they also paid extra attention to his opinion at this moment.

The corner of the leading Holy master's mouth twitched as if he wanted to say something, but he did not speak in the end. He only looked at Tang Zhen with a cold gaze.

Tang Zhen faintly smiled when he heard this. He pointed to the blood Lake and said, "The things we want are all in this Blood Lake, but it's too big and too deep. There are also monsters in it, so it's not easy to get the treasures.

This Tang thinks that we should pull the carpet out from under the pot and drain the blood Lake completely. That way, whether it's the monster or the treasure in the lake, they will all appear in front of us!"

As soon as Tang Zhen finished speaking, the leading Holy master beside him said, "you make it sound easy, but this is the body of a giant. It's almost impossible to drain the blood!

Tang Zhen glanced at the Holy master and a smile appeared on his face. "I do have an idea, but I'll need your cooperation."

When the other cultivators heard this, they nodded slightly. They felt that it wasn't a big deal to cooperate. After all, the benefits should be shared equally.

Now that three of the Holy Masters had died, the remaining three would get a share of the 45% profit. This was an agreed upon matter. Even if Red Shield and the others wanted to change the distribution method, they would not agree.

Therefore, they should be more active than Red Shield and the others in this matter.

However, when the leading Holy master heard this, a trace of vigilance rose in his heart. He looked at Tang Zhen and asked, "Mr. Tang, you might as well tell me in detail what the method is!"

Tang Zhen chuckled when he heard this. He glanced at the Holy master and then said in a tone that made it difficult to tell whether he was happy or angry, "I have an item in my hand that should be able to blast a hole in the giant's body from the inside.

However, if we do that, the giant will be awakened by the pain and stop us from moving."

A ruthless expression flashed across Tang Zhen's eyes when he said this. He coldly said, "Therefore, there is no need for the giant tower to exist. What we need to do is to take advantage of the giant's deep sleep and kill it directly!

Later, we can split into four groups. This Tang will lead one person to deal a heavy blow to the giant, and the other three groups will take this opportunity to behead the giant!

With three heads thrown away, it's hard for this giant, who's already at the end of his life, to not die!"

Tang Zhen explained his plan in detail. The cultivators also listened attentively and nodded from time to time.

The Holy master analyzed every step of the operation and felt that Tang Zhen should not be scheming against them. Therefore, he was slightly relieved. However, he still maintained a trace of vigilance in his heart.

After they were divided into their respective groups, the cultivators immediately soared into the sky and flew out of the flesh tunnel.

At this time, the giant was still in a deep sleep. It was not much different from being unconscious. It was obvious that he would not wake up for a while.

In fact, Tang Zhen had discovered that this giant was overdrawing its life force a long time ago. In the beginning, he thought that it was because of the disturbance from the cultivators and the inability to sleep.

However, after discovering the secret of the giant's Tower, Tang Zhen realized that things were not as simple as he had imagined.

It was obvious that the giant's energy had been used for other purposes, and even its internal organs were now beyond recognition.

Even if Tang Zhen and the others did not kill it, this giant would not be able to endure for long. It would die from the exhaustion of life force in its body sooner or later!

After flying out of the flesh tunnel, everyone immediately flew toward the head. However, a group of foreign cultivators who were plundering the building made them frown.

The disappearance of the defensive light curtain allowed anyone to enter the giant tower. This also caused the nearby cultivators and Wanderers to swarm over, laughing wildly as they put away the valuable items in their bags.

Although the treasures in the residential area were nothing compared to the treasures in the treasure room, the king level cultivators still felt uncomfortable when they saw these guys taking advantage of them.

That's right, this group of King level cultivators was so overbearing that they had already taken everything in the giant tower as their private property!

this group of greedy guys actually came here to take advantage of the situation. They're simply courting death!

The leading Holy master, who had been holding back his anger, snorted and immediately flew toward the group of cultivators. In the blink of an eye, there were screams and a bloody mist.

From the ferocious expression on his face, it seemed like he was going to release all the depression in his heart without holding back at all!

The other King level cultivators looked at each other and followed suit. They started to kill without mercy!

Tang Zhen coldly glanced at the terrified foreign cultivators as if this matter had nothing to do with him. He then said to Situ Yuanzhi, "Ignore them. You and I still have things to do!" Wang Chong said.

Situ Yuanzhi had lived for a few hundred years and could be said to be a shrewd man. At this moment, he had also faintly come to a realization. He seemed to have guessed that the two foreign cultivators who were enemies with Tang Zhen did not die in an accident.

He then looked at the Holy master's appearance, which confirmed his suspicions.

The Holy Dragon City Master beside him was far more decisive and ruthless than he had imagined, to the point that it made people feel a chill in their hearts!

#### Chapter 612 Bombarding and awakening

Almost all the cultivators in the city had spent their entire lives in life-and-death battles!

No matter if it was fighting against cultivators, killing monsters to obtain their brains, or invading other worlds, blood and slaughter were inevitable, so their minds were unusually tough.

They were cruel to their enemies and themselves, but they were extremely protective of their family, friends, and even their own cities.

Tang Zhen's actions showed that he was a qualified cultivator of Loucheng. He would never show mercy to the enemies who deserved to be killed!

This was especially so when he was facing enemies from other races. Tang Zhen's ruthlessness and cruelty would sometimes even cause his companions to feel fear.

Even so, there was still no one who opposed him. In fact, they were even willing to act as his battle blade. This was because Tang Zhen had never mistreated his own people in the slightest!

It was the same for Situ Yuanzhi, who was beside him. After he thought through Tang Zhen's actions, he even agreed with it.

He didn't have a good impression of most foreign cultivators either. When he was young, he fought in the business world and countless foreign enemies died at his hands.

Therefore, not only did Situ Yuanzhi not have any resentment towards Tang Zhen's actions, but he also agreed with it. He also had a better understanding of Tang Zhen's decisiveness and ruthlessness.

According to what his descendant had said, the Holy Dragon City Master was not friendly to the foreign tribes, but he was somewhat tolerant of the human tribe.

In fact, it was precisely because of this that situ Yuanzhi had the intention to further befriend Tang Zhen and invited him to participate in this exploration so that he could take the opportunity to observe and understand more.

However, when he recalled the experience he had with Tang Zhen over the past few days, situ Yuanzhi could not help but sigh. At the same time, he secretly warned himself to treat Tang Zhen with sincerity and never do anything to scheme against him.

Otherwise, once Tang Zhen turned hostile, not only would he be in danger, but even heaven battling city behind him might also be implicated by Tang Zhen's anger and suffer unbearable losses!

After all, the things he had done after establishing the Holy Dragon City were enough to make countless people dumbfounded.

And if Tang Zhen did not fall, the Holy Dragon City that he had built with his own hands would have limitless potential in the future. Even heaven battling city would have to show some respect to it!

In fact, before meeting Tang Zhen, situ Yuanzhi still had some pride as a top-notch elder and did not think too highly of Tang Zhen.

However, with the passage of time, after constantly experiencing Tang Zhen's abilities, he had long since adjusted his attitude and treated Tang Zhen honestly. He even had a faint trace of respect.

In the world of loucheng, the strong were respected. Tang Zhen's strength was there. Even if situ Yuanzhi had a respected status and could decide the life and death of countless people with a word, he naturally placed Tang Zhen in a higher position than himself.

Tang Zhen didn't know what situ Yuanzhi was thinking, but he had noticed the change in his attitude recently and could vaguely guess the reason.

This old man's identity was not simple. He looked amiable, but he held great power in heaven battling city, enough to influence every decision made by the Holy Dragon city's ruler.

The Holy Dragon City was not considered strong at the moment. To be able to have another top-notch city as an ally and cooperate with each other in certain aspects was naturally something that Tang Zhen could not ask for more.

As these thoughts flashed through their minds, the two of them had already arrived above the giant's head, and then landed near one of the giant's heads.

"Wait for me here, I'll be back soon!"

Tang Zhen had just finished speaking when he activated the teleportation and disappeared without a trace.

Situ Yuanzhi's heart skipped a beat, and his slender brows furrowed slightly. He subconsciously stroked his long beard.

He actually did not discover any spatial fluctuations earlier, yet he did not know where Tang Zhen had gone. This kind of ability made him both envious and puzzled.

Although King level cultivators could teleport for a short distance, the way Tang Zhen disappeared just now had nothing to do with teleportation!

this might be another secret skill of a continent-level city. It's truly unfathomable!

Now, situ Yuanzhi had an additional habit. Whenever he saw something that he could not understand from Tang Zhen, he would subconsciously attribute it to the non-existent continent-level building behind him. However, it seemed to make sense!

Just as situ Yuanzhi was secretly guessing, Tang Zhen had already returned to the original world and appeared at the military base near the desert tower of the Asian Alliance.

Seeing Tang Zhen's sudden appearance, the guards at the door immediately saluted and waited for Tang Zhen's instructions.

The higher-ups had already given orders to satisfy Tang Zhen's requests as much as possible. The approval process was also shockingly fast, almost as if he was giving in to his desires.

Therefore, when Tang Zhen asked for a large batch of the latest military explosives, it didn't take long for a message to come and ask him to go to an arms warehouse to get them.

Tang Zhen did not take the helicopter. Instead, after he asked for the exact location of the firearms warehouse, he soared into the sky and flew straight towards the target.

When the soldiers on the ground saw this, their faces were full of envy. Some of the elite soldiers who were going to the world of loucheng to participate in the battle were so excited that their faces turned red!

Ten minutes later, Tang Zhen returned to the world of loucheng with a full load.

Situ Yuanzhi was still waiting at the same spot. When he saw Tang Zhen appear, he immediately went up to him.

Next, the two of them began to place the boxes one by one on the giant's neck. Then, Tang Zhen installed a remote detonator.

It was obvious that situ Yuanzhi could see through Tang Zhen's intention as well. Hence, he asked a few questions out of curiosity. At the same time, he revealed that he wanted to buy such a powerful explosive.

However, Tang Zhen didn't nod and agree. He only said that the production was insufficient and couldn't be sold at the moment.

When situ Yuanzhi heard this, he didn't say anything else.

For the cultivators of loucheng, although explosives were powerful, there were many restrictions when it came to using them, so they weren't of much help to heaven battling city.

Even King level cultivators weren't afraid of this kind of explosion at all. This was because they could teleport away at the same time as the explosion occurred, and also support a protective shield to protect themselves!

It was only effective when used against Sleeping Giants!

It didn't take long for the two of them to complete their arrangements and slowly fly into the distance.

After Red Shield and the others received the signal, they stopped driving the foreign cultivators away. They followed Tang Zhen's instructions and hid not far from the giant, ready to attack at any time.

Tang Zhen suddenly pressed the remote control in his hand at this moment!

An earth-shattering boom rang out as a fiery light erupted from the neck of the giant. At the same time, countless pieces of flesh and blood that were visible to the naked eye scattered across the sky.

From a distance, the sky seemed to be covered by a layer of blood mist!

Contrary to Tang Zhen's expectations, the effect of this explosion was surprisingly good. At this moment, the two heads of the giant had actually drooped down after the explosion. Only a little bit of skin and flesh remained, and it seemed as if it would break off at any time.

The head in front was the toughest, but it was still dripping with blood and had its skin torn open!

Tang Zhen knew that this new type of explosive was extremely powerful. However, it was simply unable to achieve such a destructive effect. The reason why such a situation had occurred was because the giant had indeed reached the point of being completely exhausted!

Its originally impenetrable body had turned from steel to rotten wood due to the disappearance of its energy. It was now vulnerable!

It was obvious that the mastermind behind the scenes had seen that the situation was not good, so he quickly extracted the energy from the giant's body and activated his final technique!

At the same time as the explosion, the giant, who had his eyes closed, suddenly opened his eyes. His face was filled with pain!

It instinctively struggled to get up, but it didn't expect that it couldn't do it at all, because the last trace of strength in its body had been extracted by the guy that was parasitizing it!

However, at this moment, a trace of sobriety suddenly appeared in its eyes, which were originally in pain and confusion. However, this gaze was a little strange, completely different from the sobriety in its eyes when it was killing wantonly.

The giant's eyes had been filled with madness and killing intent when it had been awake, but now, there was a trace of ancientness in its eyes, as well as a deep sorrow.

"Dead Yingluo, the children are all dead. What's the point of the existence of the suffering Yingluo?"

A strange and obscure language came out of the giant's mouth, which sounded like thunder.

When the cultivators heard this, their expressions changed!

Chapter 613 The giant's sorrow (1)

The giant suddenly spoke, causing the cultivators to immediately become nervous. They quickly made preparations for battle!

Two of the giant's three heads had been blown off, and the remaining one was covered in wounds. It probably wouldn't last long.

As long as they attacked together, the giant would definitely die!

As for what the giant was saying, the cultivators were all confused because they couldn't understand it at all.

Only Tang Zhen, who had been activating most of the auxiliary applications at the side, including the [ universal language translator ], understood the meaning of this sentence.

Tang Zhen seemed to have thought of something in his heart. He actually stepped out from the crowd and flew in front of the giant with a bloody head.

The mountain-like giant's eyes were filled with sorrow. He seemed to completely ignore Tang Zhen. Instead, he stared blankly at the distant sky and seemed to have sunk into deep thought.

the residents of loucheng are all dead, and they were killed by the thing in your body. Don't you want to take revenge on it? "

Under the shocked gazes of all the cultivators, a language that was extremely similar to the giant's low groan was slowly being emitted from Tang Zhen's mouth.

Relying on the sound amplification, Tang Zhen's words were deafening as they continuously reverberated in everyone's ears.

The giant, who originally had a deathly grey expression, slowly turned his head to look at Tang Zhen. His mountain-like face revealed a trace of surprise.

you can speak our hometown language. You're good. I want revenge, but I can't do it!

The way this giant spoke was very special. However, it did not affect the communication between both parties. After Tang Zhen heard the giant's words, he asked, "Who is that guy? what did he do in your body?"

Hearing this, the giant revealed a pained expression and said slowly, " my home has been invaded by a child. A vengeful spirit has possessed my child, and the child has taken control of my body to take revenge. I'm nurturing my fellow countrymen!

Tang Zhen's brows furrowed tightly as he listened. He linked these sentences together and thought for a while before faintly understanding the cause and effect of the matter.

It turned out that the person controlling the giant's body came from the same world as the giant!

After the giant tower invaded and destroyed this world, the controller of the vengeful spirit behind the scenes waited for an opportunity to possess the body of a resident of the tower. He came to the tower world through some unknown means, but he was not killed by the laws!

This vengeful spirit had experienced the destruction of the world and was a spirit body formed from vengeful energy. Its consciousness was already in a state of illness.

It had a deep hatred for Lou Cheng and its cultivators, and it seemed to be determined to destroy all the buildings!

That was why it immediately lost control of its emotions when it saw the tower. Like a mad demon, it wanted to destroy the tower it saw at all costs!

After coming to the world of the tower and entering the giant tower, the vengeful spirit actually used an unknown method to control the giant's body because it had the same roots as the giant from his hometown.

Then, it transformed the giant's body and continuously extracted the giant's vitality. It even killed millions of residents in the city and turned them into nutrients, using the giant's body to cultivate a two-headed and four-armed monster!

Once the vengeful spirit that was determined to destroy the city got what it wanted, it would be no less than a catastrophe for the buildings in this area!

Just like the residents of Loucheng that The Spiritual Brain Zombie King had cultivated, although these guys didn't have brains and looked exactly like the Loucheng natives, they were still monsters in essence!

However, compared to the spirit brain Zombie King, this vengeful Spirit's method was more advanced, and it had directly bred a King-tier monster!

Of course, a large part of the reason for this was that the vengeful spirit had extracted the energy from the giant's body and the essence of the qi and blood of the residents of the building. That was why such a perverted monster had been cultivated!

The only thing that surprised Tang Zhen was that the giant in front of him actually had such deep feelings for the city's residents. Because of their death, he also had the intention to die!

In fact, this was not difficult to understand. After all, when the giant appeared in the tower world after its death, it was no longer related to its home.

Even when it became a city, it actually represented a new life and began to live with the residents of the city all day long!

In the endless years, it had witnessed the birth, aging, illness, and death of generations of residents in the city, and it had gradually upgraded itself to become an indomitable existence today.

When the city had advanced to a certain level, its Spirit's mind was almost the same as an ordinary person's, and it also had its own joy and sorrow.

Unknowingly, the giant had already regarded the residents of the City Tower as his own children, his own family, as if they were his own flesh and blood.

Therefore, when it saw its children invading its former home, the giant's heart must be filled with pain and entanglement. When it found out that all its children had been killed, the giant felt that there was nothing left to live for.

Perhaps the one who suffered the most in this disaster was actually the dying giant in front of him!

A trace of understanding flashed across Tang Zhen's eyes. He then said to the giant, I can help you get rid of that guy, but you have to give me the foundation stone of the tower!

The giant shook his head. His face, which was covered in blood and flesh, was filled with determination.

"Don't build a city, don't want to experience pain again, Wuwu"

Tang Zhen took a deep look at the giant when he heard this. He secretly sighed in his heart.

Obviously, this giant was used to seeing life and death. Now, he felt that his existence was meaningless, so he refused to rebuild the tower and go through another reincarnation!

"I have a way to completely wipe out the seed of intelligence that you have in the foundation stone of the tower and make you fall into a deep sleep forever. I can also help you kill that vengeful spirit.

If you still don't agree, then I'll have to use other methods. Although it's more troublesome, I can still find the foundation stone of the tower!"

This time, the giant was silent for a few minutes before he raised an arm with great difficulty and slowly approached one of his eyes.

"Pfft!"

The giant's fingers dug into his eyes, and when his palm left, only a bloody black hole was left.

in its palm, there was a ferocious blood-red eyeball!

The giant shook his huge head and used his remaining eye to look at Tang Zhen. He suddenly crushed the eyeball that he had removed, revealing the foundation stone of the building that was flickering with light.

The cultivators who had been watching from the side all held their breaths, especially the leading Holy master, who was eager to make a move.

However, at this moment, situ Yuanzhi and the other three jumped out. They surrounded Tang Zhen and looked at the other three with killing intent.

An unconcealed killing intent burst out from the four of them!

The Holy master was a little stunned when he saw this. He looked at situ Yuanzhi and the other three, who were sneering, and a hint of doubt and fear flashed in his eyes. Finally, he snorted coldly with a dark expression and turned to look elsewhere.

A killing intent flashed in Tang Zhen's eyes. He kept the Tower Foundation stone into his storage ring and cupped his hands toward situ Yuanzhi and the other three.

thank you, four noble people. I will definitely thank you in the future!

you're too kind, Mayor Tang! Red Shield and the others immediately replied. no matter who wants to lay their hands on you, they'll have to ask the four of us first!

Although the other three didn't say anything, they had already expressed their attitude with their actions.

In fact, the moment the giant took out the tower's foundation stone, the four of them were also tempted. However, when they noticed that the foreign Holy master had the same expression, they were shocked and chose to protect Tang Zhen without hesitation.

Although they also knew that this building foundation was priceless, it was far from the benefits of taking the opportunity to make friends with Tang Zhen. After all, countless resources and energy had to be invested in this building in order to have the possibility of getting a return.

However, once they reached the king level, they would pursue a higher realm. Running the city had become a hindrance to their cultivation, making them unable to focus on improving their cultivation.

This was also the reason why once a cultivator reached the king level, there was a 99% chance that he would become an elder of Lou city. It was because they didn't want to waste their energy on becoming a city Lord!

On the other hand, befriending the powerful Tang Zhen with a deep background would not only allow them to borrow the various abilities that he had mastered, but they could also purchase items that would aid in their cultivation from him, making their cultivation path even smoother.

Therefore, Red Shield and the others could clearly see what to do in this matter!

#### Chapter 614 Promise and annihilation (1)

Situ Yuanzhi and the other three had a clear stand. Their actions seemed unexpected, but they were also reasonable.

Therefore, Tang Zhen's face did not reveal any surprised expression after seeing this scene. It was as if he had already expected them to make such a choice.

As he had the protection of Situ Yuanzhi and the other three, Tang Zhen no longer paid any attention to the foreign Holy master, who had an ugly expression on his face. He turned his head and continued to look at the giant, who could die at any moment after taking out the tower's foundation stone.

"Although it's cruel, I still hope that you can help me one last time before you die!"

The giant's eyelids drooped and his expression was dispirited. He glanced at Tang Zhen with great difficulty and said in a deep voice, "No problem, you tell me, I'll do it!"

Tang Zhen inhaled a deep breath of air when he heard this. He said to the giant, tear apart your body and let the souls of your residents return to the earth. At the same time, cut off the life force of the monster growing in your belly!

Hearing this, the one-eyed giant's lips curled into a sinister smile. He mumbled, "although they're monsters, they're just like our clansmen. It's a pity that they're not our clansmen. It's good!"

Tang Zhen cupped his hands together when he heard this. He immediately called everyone to swiftly withdraw!

Since he had handed over the foundation stone of the tower, the giant was already dead without a doubt. Therefore, Tang Zhen's request seemed unreasonable, but the giant still did not refuse. It was obvious that he wanted to use his sincerity to exchange for Tang Zhen to fulfill his promise.

This kind of madness before death was enough to shock anyone, and even make them feel a faint respect!

The giant took a deep breath, and his huge body suddenly stood up from the ground.

Under the watchful eyes of the cultivators, a faint bloody mist suddenly burst out from the giant's body. His aura suddenly became extremely powerful, making people feel fear at first glance.

It turned out that the giant's remaining life force had been gathered together at this moment and completely erupted!

With a loud roar, the giant tore off the armor on his body that was used as his residence and threw him far away.

With the removal of the armor, the giant's iron-like and extremely strong body was revealed. It seemed to be filled with endless power.

At this moment, the giant's six arms waved at the same time and directly clasped its own chest and abdomen. The palm with sharp nails pierced into its body.

"Ah!"

With a loud roar, all six arms exerted force at the same time. With a "Chi la" sound, the giant's body was torn apart by itself!

At the same time, from the giant's chest, a large amount of sticky blood poured down like a waterfall, mixed with countless bones and remains.

From its abdomen, countless balls of flesh connected by blood vessels rolled out and fell to the ground.

crackling " cracking sounds rang out continuously. The meatballs exploded the moment they touched the ground, revealing the two-headed, four-armed monsters that were squirming inside. Their bodies were of different shades of color!

Some of the darker-colored monsters didn't die from the fall. Instead, they crawled out of the meatball covered in mucus and kept letting out shrill roars, revealing their brutal nature.

The giant, whose chest had been completely torn apart, was slowly kneeling on the ground, holding the remains of the City Tower's residents in his hands. A trace of warmth appeared in his huge eye, and then he slowly closed his eyes.

The aura of life completely dissipated from its body!

When the giant was alive, he was indomitable. Even after death, he was still like a mountain, making people not dare to profane him.

All the cultivators at the side fell silent at the same time. They stared at the giant's corpse in a daze, and an inexplicable emotion flickered in their eyes.

Although they could not understand the conversation between Tang Zhen and the giant, they could guess that the giant had finally chosen to sacrifice his broken body to take his final revenge on the vengeful spirit hidden within his body!

Just by looking at the blood-colored mucus that poured down and the countless pieces of meat that fell into pieces, it was clear that its sacrifice had not been in vain.

Tang Zhen's body was suspended in the air. He quietly glanced at the giant's corpse. After which, he turned around and looked at the blood lake's water that was still pouring down from the sky like an intense waterfall!

"Everyone, I just made a promise to this giant. I will definitely kill the vengeful spirit that is living in its body and avenge the residents of this giant's building!

I'm a man of my word, so I won't participate in the search operation. Please forgive me!

The battle between me and the vengeful spirit will be quite intense, so I hope you don't enter the giant's body. Otherwise, if you are caught in the battle, this tang can only express his regret!"

As Tang Zhen spoke up to this point, he cupped his hands towards the group of cultivators. After which, he flapped his wings and streaked across the sky like a bolt of lightning, charging towards the mountain-like giant corpse.

However, when he turned around to leave, he looked at situ Yuanzhi and the other three with a profound look in his eyes!

Situ Yuanzhi and the others looked at each other and then at the foreign Holy master, who had an uncertain expression on his face. After a moment of silence, they seemed to have made a decision!

As expected, they did not head towards the giant's corpse. Instead, they headed straight for the armor tower that the giant had thrown out. They had actually given up on the treasure at the bottom of the blood Lake just because of Tang Zhen's words!

The foreign Holy master had a complicated expression on his face. He looked at the two remaining foreign cultivators beside him and gritted his teeth. "That human cultivator's words are pleasant to hear, but he actually wants to take all the treasures under the blood Lake for himself. Does he really think we're fools?

Let's not care about them, our previous cooperation ends here, we'll search alone!

If these people dare to have any ill intentions, we'll fight and see who will die in the end!"

After the foreign Holy master finished speaking, he turned into a stream of light and rushed toward the giant's corpse. The two foreign cultivators followed closely behind.

At this moment, Tang Zhen had already arrived under the giant's corpse. He turned his head and looked at the giant, who only had one eye left. It seemed like the giant had died with a grievance as he gently shook his head.

In the next instant, Tang Zhen's figure had already appeared within the giant's body and was hovering above the blood Lake that had almost dried up.

At the bottom of the lake, millions of residents of the giant Tower City had died!

As far as the eye could see, there were skeletons corroded by the blood-red mucus everywhere. The belongings of countless residents of the city were scattered at the bottom of the lake, most of which had been completely corroded.

At the bottom of the blood Lake, there were countless tentacles. Now that the blood Lake had been drained, they fell limply to the bottom of the lake and twitched from time to time.

The tendrils were used to absorb nutrients from the lake water formed by the flesh and blood to nurture the monster embryos hidden in the abdomen of the giant!

Tang Zhen's gaze swept over those fleshy tentacles before finally stopping on a small blood-colored Lake.

As Tang Zhen's gaze stopped there, a set of subtitles suddenly popped up in front of his eyes. [ Blood Lake vengeful spirit, three-star King. After the soul from another world entered the loucheng world, it underwent an unknown mutation. Possesses extremely strong mental control. Weakness unknown! ]

Tang Zhen snorted softly as he glanced at the notification from the [ monster detector ]. A trace of killing intent flashed in his eyes.

This vengeful Spirit's heart was twisted, and its desire for revenge was extremely strong. It was already close to becoming a demon!

If he didn't take this opportunity to get rid of it, this vengeful spirit would grow in strength sooner or later. At that time, it would be extremely difficult to kill it.

According to the nature of this vengeful spirit, Tang Zhen and the others, who had once besieged it, would definitely become its target for revenge. If this vengeful spirit relied on its cultivation and mutation ability to create trouble and attack, it would definitely be impossible to guard against!

Therefore, he got rid of this vengeful spirit not only because of his promise to the giant, but also because he didn't want to leave any future trouble for himself!

#### Chapter 615 The blood lake's vengeful spirit

Even if he didn't want the treasures in the towers, he had to get rid of this vengeful spirit completely. Otherwise, there would be endless trouble.

It was precisely because of this reason that Tang Zhen decided not to show any mercy. His consciousness swept through his storage ring and directly took out a cantaloupe-like metal object.

This was a planet-destroying mother-child bomb made by the terobo people. Once the bullet exploded, it could easily turn the nearby area into ruins.

As for the vengeful spirits at the center of the explosion, they could not avoid being severely injured or even killed directly!

However, this thing also had a side effect. After the explosion, it would form a powerful negative energy, which was especially suitable for the survival of spirits. It would turn this place into a ghost's domain filled with a special gray fog!

The reason why the warship ruins were filled with gray fog and spirits was that a cultivator had detonated the same bomb when he was fighting against the soul-gnawing beasts. This caused the gray fog, which only existed in a small area, to completely envelop the Super ruins!

From then on, the ruins had become a paradise for spirit bodies. Even before Tang Zhen appeared, it was a forbidden area in the eyes of the Wanderers!

Since he had obtained the cornerstone of the giant's Tower, he would do him a favor and allow the millions of souls in the giant's Tower to take form. Then, he would send them into the reincarnation mirror!

In that illusory world, their souls could complete their own reincarnation and continue to live in another way.

Many thoughts flashed in Tang Zhen's mind. He suddenly threw out the bomb and directly activated the teleportation.

The moment before he disappeared, he saw the foreign Holy master who had just rushed into the giant's body and was watching him disappear with a dumbfounded expression.

"You're really insatiable. Since you're seeking your own death, don't blame me!"

Tang Zhen coldly snorted before he disappeared without a trace!

It was also at this moment that an indescribably terrifying power suddenly spread from the metal bomb floating in the air.

There was no fire or sound, but it was enough to destroy everything!

This power was terrifyingly dark, like countless invisible waves of Mercury radiating out. After covering the entire Blood Lake, it spread out again.

Anything that was affected by this power was instantly crushed into particles and then turned into dust!

"Damn it, he's really scheming against me. I must kill him!"

The moment the explosion occurred, the foreign Holy master's face immediately contorted as he roared. He had completely forgotten that he had ignored Tang Zhen's warning and thus incurred his death.

From his point of view, Tang Zhen was scheming against him and wanted to kill him!

At this moment, his heart was filled with endless hatred and endless fear. As he cursed, he turned around and fled without hesitation.

The other two King-class cultivators behind him also screamed with pale faces when they felt the danger. They teleported again and again, trying to avoid the wave of death.

Layers of protective barriers burst out on the surface of their bodies. All kinds of defensive methods were used in order to save their lives from the terrifying shock waves of the explosion.

However, under the impact of this terrifying energy, even if they had used all their trump cards, they still could not stop the arrival of death!

The two foreign cultivators didn't manage to escape in the end. They were instantly turned into ashes and completely disappeared from the world!

Although the foreign Holy master was extremely fast, he was also affected by the energy. Before he died, he let out an angry roar with a face full of hatred, and his body was also reduced to dust. No one knew where he was eventually blown to!

The three king-level non-human cultivators died in this place.

It was just a not-so-dangerous exploration of the tower, but they had encountered such an ending. They had never expected it!

As for situ Yuanzhi and the others, they did not enter the giant's body because they had listened to Tang Zhen's advice.

In the end, when the bomb exploded, they were inside the building, far from the center of the explosion, and they took countermeasures in time, so they were lucky enough to survive!

Other than the four of them, there were no other living beings in this area!

Fortunately, there were no buildings in this area because it was close to the dead land, so there were not many creatures affected.

There were only a few greedy fellows who were watching from afar earlier. They tried to wait for Tang Zhen's group to leave before they continued to explore. In the end, their bodies instantly disappeared from the world under the impact of this energy.

The shock wave from the explosion came and went quickly. In the blink of an eye, everything was calm!

When the energy calmed down and the gray fog started to gather, situ Yuanzhi and the others were completely stunned by the scene in front of them!

The giant's huge body had completely disappeared, as if it had never existed!

Dust to dust, earth to earth. The bomb that Tang Zhen detonated not only killed three king level cultivators but also prevented the giant's body from being exposed in the wilderness and being devoured by the monsters!

All the plants and animals around situ Yuanzhi and the others had been turned into powder. Looking from the sky, not a single blade of grass could be seen in the area affected by the explosion!

Even the buildings that they had dodged from the blast just now were now damaged beyond recognition, as if they had been exposed to the wind and rain for countless years. There were holes and marks everywhere.

If it was made of ordinary metal, it would have been completely destroyed by the shock wave of the explosion!

The four of them looked at each other. They suddenly recalled Tang Zhen's advice and the three foreign cultivators who ignored the warning because of their greed and suspicion. Their backs immediately became drenched in cold sweat.

Only now did they know that Tang Zhen actually possessed such a terrifying attack that was sufficient to destroy the heavens and earth!

At this moment, the four of them were also secretly rejoicing. Fortunately, they were Tang Zhen's companions. Moreover, they had maintained a friendly attitude after learning of his ability.

It was also because of this that Tang Zhen had warned them and used his eyes to hint.

Otherwise, they would have died in the terrifying explosion, just like the three unlucky foreign cultivators, without a sound!

"This Holy Dragon City Master really can't be offended!"

After a long time, the red Shield sighed and turned around to continue searching for the items inside the tower.

Situ Yuanzhi and the other two looked at each other and nodded gently. It was obvious that they had the same thought.

It was also at this moment that a human figure flashed and appeared from the gray fog that filled the sky. It was Tang Zhen who had just been teleported back.

He glanced at the giant that had completely disappeared and frowned slightly. He spread out his spiritual power in an instant and covered the entire area.

It didn't take long for his expression to change slightly, and his figure appeared in a low-lying area in an instant.

After the explosion, a thick layer of dust had accumulated here, and on the surface, it looked no different from any other place.

However, Tang Zhen was able to sense a faint aura from this place. It was obscure and cold, and seemed to be filled with endless resentment!

The instant Tang Zhen's body came to a stop, a blood-red figure suddenly flew out from the dust and pounced towards Tang Zhen with lightning speed!

"You're looking for death!"

Tang Zhen furiously roared. The soul annihilating saber instantly appeared and fiercely slashed at the blood-colored figure.

"If you die, all the cultivators in Loucheng will die!"

The blood-red figure was the vengeful spirit that had taken control of the giant's body and killed the residents of the million buildings!

Out of Tang Zhen's expectations, this vengeful spirit was actually a two-headed and four-armed woman. The appearance on its two heads was extremely beautiful, but it was distorted beyond recognition. Its eyes were blood-red and frightening!

At this moment, it was baring its fangs and brandishing its claws. The hair on its two heads fluttered in the wind, and its face was filled with an irrepressible, ferocious killing intent!

Chapter 616 Sent into the reincarnation mirror \_It was also at this moment that the vengeful spirit and the soul destroying saber collided!

Ordinary weapons were unable to harm a spirit body at all. However, Tang Zhen's soul annihilating saber was similarly engraved with demon annihilating runes. Therefore, it had an extremely great deterrent and killing effect on a spirit body like a vengeful spirit!

Blocked by the demon annihilating rune on Tang Zhen's soul annihilating saber, the vengeful spirit that was already severely injured in the explosion immediately let out a blood-curdling screech and was directly sent flying!

The clothes of the vengeful spirit fluttered in the air. Its four arms continued to swing as its blood-red eyes stared intently at Tang Zhen.

Another sharp howl was emitted. The blood colored hair that was dancing on the head of the vengeful spirit actually shot directly toward Tang Zhen's body.

"Return my child, return my family, return my senior brother!"

The vengeful Spirit's voice was as shrill as an owl's. As it roared, its face became more and more distorted, and the aura around its body began to grow stronger!

I'm going to destroy all the buildings in this world. I'm going to bury all the living beings in this world with my family. You all have to die!

The vengeful spirit roared madly. Its two heads immediately looked up to the sky and howled, crying blood. Then, it laughed wildly and charged directly at the tip of the soul destroying saber.

The vengeful spirit was unmoved when it saw the soul destroying saber pierce through its body and a large amount of black smoke flew up. Instead, it grabbed Tang Zhen's body.

Tang Zhen's expression changed. As his body rapidly retreated, he continued to blast out talismans that could attack the spirit body, causing the vengeful spirit to cry out in pain!

you destroyed that traitor's body and the child I raised painstakingly. I'll make you pay with your life!

The vengeful Spirit's dark and cold voice had just sounded when its entire body immediately scattered. It actually directly charged into Tang Zhen's embrace!

Tang Zhen was caught off guard. The vengeful spirit had actually directly entered his body. His body turned cold, and his expression also changed abruptly.

The power of this vengeful spirit was beyond his expectations!

However, the more it was like this, the stronger Tang Zhen's determination to kill it was. Otherwise, there would be endless trouble if he kept it alive!

"Do you think I can't do anything to you just because you entered my body?"

Tang Zhen coldly snorted and entered The Dark World without the slightest hesitation. After which, he glanced at his body.

The vengeful spirit that had completely disappeared after entering Tang Zhen's body had actually reappeared in the dark World.

At this moment, its hands were wrapped around Tang Zhen's neck and waist, overlapping with Tang Zhen's body.

"Let's see where you can run to, get lost!"

With a cold snort, Tang Zhen pulled with all his might. The vengeful spirit immediately let out a blood-curdling screech and was thrown to the ground by Tang Zhen.

"Your body hasn't completely turned into energy yet, but you can actually enter The Dark World where only spirits can enter. Who are you?"

The vengeful spirit floated up from the ground. It roared at Tang Zhen with an unwilling expression and pounced over again.

"I don't care who you are, I want you dead!"

A cold glint immediately flashed in Tang Zhen's eyes when he saw the vengeful spirit pouncing over once again. His entire body immediately turned into an incomparably scorching fireball.

This was a cultivator skill application that he had downloaded. It had currently evolved to its limit, and once activated, it could trigger a high temperature of over ten thousand degrees!

"You're the one who's dead, get lost!"

The vengeful spirit that was approaching Tang Zhen was affected by the flames. It immediately let out a blood-curdling screech and hurriedly dodged backwards.

"You can't run, go to hell!"

Following Tang Zhen's furious roar, his body suddenly teleported over. At the same time, a huge flaming blade slashed horizontally at the vengeful spirit.

The vengeful spirit, which was already seriously injured, was unable to Dodge Tang Zhen's attack at this moment. It was directly cut into two by this Flame Blade.

Tang Zhen's actions did not pause after his attack succeeded. The blade light flashed and connected together, cutting the vengeful spirit into pieces before burning it into ashes!

I'm not willing to accept this! I want you all to die!

As the last unwilling roar disappeared, the vengeful spirit had been burned to ashes by the flames, not even a trace of dust was left!

Tang Zhen sighed in relief when he saw this scene. The flames on his body slowly disappeared, but there was still a trace of fear in his eyes.

This vengeful Spirit's cultivation was higher than Tang Zhen's. If it was not for the fact that it had been seriously injured in the explosion earlier and that it only knew how to act rashly due to its delirious state, Tang Zhen would not have been able to kill it in a short period of time!

Although this vengeful spirit had died, Tang Zhen still felt a little uncomfortable. He did not understand what exactly was going on.

"This vengeful Spirit's methods are strange. It can actually avoid the restrictions of the laws and enter the world of buildings. It even forcefully changed the inside of the giant's body, turning it into a hotbed for the hatching of monsters!

If it was any other time, I would really be reluctant to kill it. No matter what, I would have to learn its abilities!

However, since I've already killed that vengeful spirit, why do I feel so uneasy?"

These thoughts flashed across Tang Zhen's heart. However, he still felt a little uneasy. He carefully checked his body again.

"Something's wrong. This vengeful spirit must have done something to me!"

Tang Zhen's heart was startled. He was planning to carefully examine it again when he felt his body sink. His consciousness also started to become drowsy.

It was as if he was gradually losing control of his body and was being controlled by another cold and crazy consciousness.

At the same time, the vengeful Spirit's voice actually sounded in Tang Zhen's mind. He seemed to have seen the blood red vengeful spirit laughing wildly within his body.

It turned out that during the battle earlier, that vengeful spirit had actually split off a trace of consciousness and entered the depths of Tang Zhen's soul!

"Hehehe, so you're not a cultivator from Lou Cheng. Like me, you're from another world!

But so what, I'm still going to kill you!

I also want to control your body and invade your world, just like that damn traitor. I can't do anything as I watch my own people being slaughtered and the entire world being destroyed!"

The vengeful spirit laughed wildly. Its face was filled with madness as its blood-red robe and hair fluttered in the wind!

At this moment, Tang Zhen's expression was so gloomy that it was frightening. When he heard the maniacal laughter of the vengeful spirit, he felt his body turn numb. However, the corner of his mouth revealed a trace of a cruel smile.

"At first, I felt a little guilty for killing you. After all, you were a pitiful person. But now it seems that I was too soft-hearted!

Since that's the case, then you can die!"

Following a low growl, an item suddenly appeared in front of Tang Zhen. Three bright mirrors were projected out of thin air.

This item was the mysterious reincarnation mirror that came from the ancient tomb!

After the reincarnation mirror appeared, Tang Zhen's figure flashed and directly smashed one of the mirrors. Then, his body directly fell to the ground and seemed to have fallen unconscious.

It was also at this moment that Tang Zhen's soul appeared in an empty space within the world within the mirror. He violently slapped his body!

A blood-curdling screech was transmitted over. The vengeful spirit that had been hiding within Tang Zhen's soul earlier flew out and heavily fell onto the ground.

"Damn it, how did you do it? Where was this place? I'm going to kill you!"

That vengeful spirit screamed as it crawled up and attempted to continue charging towards Tang Zhen. However, at this moment, eight chains as thick as an arm appeared out of thin air. They locked its hands, feet, and head, before directly hanging it in midair!

What is this? let me go! I'm going to kill you!

The vengeful spirit kept repeating the same sentence as it tried to break free from the chains 'control, but it was in vain.

"You dare to be so arrogant in my territory, you really don't know what's good for you!"

Tang Zhen snorted coldly. He ignored the vengeful spirit that was writhing and screaming wildly in the air. He waved his hand to the side, "Come out, I have a mission for you!"

As soon as he finished speaking, a black shadow appeared beside him. In an instant, it condensed into a man with the head of a deer and the eyes of a rat. He was wearing the Holy Dragon city's armor.

This fellow was the overseer of the reincarnation mirror world and had already been subdued by Tang Zhen.

"City Lord, what are your orders?"

The man had a flattering expression on his face as he swept his gaze over the vengeful spirit that was suspended in the air. After licking the corner of his mouth, he nodded and bowed to Tang Zhen as he asked.

"From now on, I don't care what method you use, but you must get everything out of this vengeful spirit!

If you do this well, I'll send a large number of souls into this world and let you have your fun!"

When the guard heard this, his eyes immediately lit up. He patted his chest with all his might and guaranteed that he would exceed the task!

After saying that, he immediately laughed hideously and conjured a barbed whip, which fiercely rushed towards the vengeful spirit hanging in the air.

Chapter 617 Returning to the Wildlands \_This overseer was incomparably respectful in front of Tang Zhen. However, in front of that vengeful spirit, he appeared extremely ferocious!

It had lived in this world for an unknown amount of time and had seen countless spirits that were even more brutal than the vengeful spirit, so it did not show any fear in the face of the vengeful Spirit's crazy actions. Instead, it was extremely excited.

It licked its tongue and looked at the vengeful spirit hanging in the air with bright eyes. From time to time, it would let out a "Keke" laugh, which sounded quite terrifying.

It was fine for the vengeful spirit to be a little crazed. In fact, it even hoped that the vengeful spirit would be even crazier.

Because the more fierce a horse was, the more sense of accomplishment it would be to conquer it!

Moreover, other than Tang Zhen, it was the only master in this world. As long as it had sufficient spiritual strength, it could do whatever it wanted!

No matter how crazy the vengeful spirit was, it would not be able to last long.

Tang Zhen finally felt at ease as he looked at the vengeful spirit that continued to screech miserably under the overseer's whip and the overseer who had an increasingly excited expression.

It was obvious that the overseer had been bored to death in the reincarnation mirror. Otherwise, he wouldn't have repeated the same scene when the souls of Xiao Li and the others were trapped and had so much fun.

Now that Tang Zhen had sent the vengeful spirit over and even allowed the overseer to do as it pleased, it should be able to obtain the things it wanted from the vengeful Spirit's mouth with its methods!

Tang Zhen swept a glance at the vengeful spirit that was madly roaring and the overseer who was changing all kinds of torture tools and had a perverted smile on his face. He then turned around and left the reincarnation mirror.

Now that he was the owner of this strange mirror, he could come and go as he pleased!

Tang Zhen floated out from the mirror. He glanced at his own body and swiftly entered it.

Although this feeling of his soul leaving his body was quite interesting, Tang Zhen still did not dare to stay for too long in case something happened to his body.

This time, he had chosen to enter the reincarnation mirror with his soul in order to get rid of the vengeful spirit hiding in his soul. The next time he entered the reincarnation mirror, he only needed to enter with his real body!

Tang Zhen's body was in the dark World. He swept his eyes over the countless number of spirit bodies that were gradually gathering in the gray fog. After being silent for a moment, he directly withdrew.

The giant tower no longer existed, and he had gained a lot from this trip. He only had to wait a few more days to collect all the spirits here into the reincarnation mirror, and then he could return to the Holy Dragon City.

Not long after, Situ Yuanzhi and the other three arrived. It seemed like they had gained a lot.

Seeing that Tang Zhen did not mention what had happened earlier, the four of them did not ask any further. After chatting with each other for a while, they began to search for origin stones that were buried in the ashes.

Other treasures could be destroyed in the explosion, but origin stones were an exception. They could only be melted by mental strength and could not be destroyed by other methods!

Therefore, as everyone searched, origin stones were found one after another, which made everyone happy.

After all, this was a national treasure vault. Even though most of it had disappeared, the remaining part was still terrifying!

The sun rose and the moon set, and in the blink of an eye, several days had passed.

Tang Zhen used half a day's time to absorb all the spirits that were condensed in the gray fog into the reincarnation mirror, allowing them to start a special journey in life.

Previously, in order to prevent accidents from happening, Tang Zhen had hidden two super bombs in the tower. However, they did not have the opportunity to detonate in the end.

After that, the group left the area and found a City Tower nearby. They then barged into the city Tower in an overbearing manner.

When the city Lord saw this scene, not only did he not dare to get angry, but he also had to be polite, afraid that Tang Zhen and the others would slaughter the city in anger!

After all, they were all King level cultivators. In the eyes of ordinary cultivators, they were no different from gods.

After saying goodbye to each other, everyone activated the teleportation one after another and returned to their respective towers.

.....

In a certain Valley in the Wildlands, Tang Zhen's figure was revealed after a burst of light flashed.

He looked at the surrounding environment and remembered the location. Then, he flew in a certain direction in the Wildlands.

He had gained a lot this time. Not only did he get a large number of origin stones, but he also got all kinds of precious items from the giant's Tower. He even got the tower's foundation stone.

As for the other miscellaneous things, it was simply impossible to calculate!

Before he left, Tang Zhen even removed a few small pieces of the broken giant armor and sent them to his original world for research.

Of course, Tang Zhen's so-called small piece was actually the size of a house. When he took it out back then, the group of researchers were dumbfounded.

During this time, he had not lost contact with the Holy Dragon City, but had been remotely controlling it, so he knew everything that happened in Lou city, big or small.

With planes and cannons paving the way, as well as the assistance of various weapons from the original world, the Holy Dragon City had already occupied most of the Wildlands. Now, they only needed a small area to completely control the Wildlands!

The direction that Tang Zhen was currently heading in was the unconquerable region near the Wildlands. It was very close to the dog-headed people's Tower area.

Under the Holy Dragon city's destructive attack, although the defeated forces were no match for them, they were not willing to admit defeat. As a result, with the help of the kobolds, they gathered together and formed an alliance to fight against the Holy Dragon City.

Their total number exceeded one hundred thousand, occupying an area and preparing for the final battle with the Holy Dragon City!

As more and more towers were captured by the Holy Dragon City, all kinds of information about the Holy Dragon City was placed on the tables of the various forces. While they were envious and amazed, they also felt a strong sense of danger from the bottom of their hearts.

This was especially so for the kobolds who were the closest to Holy Dragon City. Their sense of danger was the strongest!

The hatred between this race and the Holy Dragon City was so deep that it was irreconcilable. Thus, seeing the Holy Dragon city's power growing stronger and stronger, they began to feel restless.

Once the Holy Dragon City took control of the Wildlands, the kobolds, who were the closest to their sphere of influence, would be the first to be threatened. Anyone with a clear mind would be able to tell.

The dog-headed people, who knew that the teeth would grow cold if the lips were gone, had already begun to persuade the forces of the towers to fight against the Holy Dragon City when the Holy Dragon city's Army had set out.

Before the start of this final battle, the kobolds had even taken the initiative to provide weapons and rations. At the same time, they had also received all sorts of information about Holy Dragon City. It could be said that they had done their best.

The reason why they were so proactive was that they intended to use these defeated soldiers to wear down Holy Dragon City, and thus achieve the goal of containing Holy Dragon City.

The defeated soldiers also understood this, but so what?

Now that they had almost nothing left, it wouldn't be an exaggeration to describe them as stray dogs. At this time, someone actually took the initiative to send them the materials they needed. This was simply a good thing that fell from the sky.

Even if the dog-headed people did not provide them with supplies, their battle with the Holy Dragon City could not end. Therefore, both sides hit it off and were now smugly and actively preparing for battle!

The Holy Dragon City had already received detailed information. After a detailed discussion, they decided to use this battle as the final battle to control the Wildlands.

In order to cooperate with this battle, the original world had made active preparations. During the time when Tang Zhen left, nearly 200000 combatants were teleported in one breath!

In addition to a large number of soldiers, there were also a large number of officers and auxiliary troops among these transmigrators. They were all elites who had been strictly selected. It could be said that one of them could fight against ten!

After a simple rest and adaptation in the Holy Dragon City, they immediately got into the car and went to their respective battlefields!

Chapter 618 The world in the reincarnation mirror

Half of this batch of combatants would participate in the final battle, while the other half would go to various areas of the Wildlands to be responsible for defense and suppression.

Although the security in the controlled area was much better than before, there were still small groups of enemies that had to be eliminated as soon as possible.

The various materials needed for the battle had already been prepared and were waiting for Tang Zhen to bring them to the tower world to send them to the Army gathering point.

Currently, Tang Zhen's storage ring was filled with the largest storage card. The items stored inside were the majority of the resources needed for this final battle.

As he galloped along, a boundless plain appeared in Tang Zhen's sight roughly an hour later.

The plain was green and full of colorful flowers, and a winding river flowed slowly across the plain.

This kind of scenery was rare in the Wildlands, which was why the foreign races had built towers here.

However, the tower had already changed hands and became the Holy Dragon city's Army's base!

Around the tower, there were many tents and busy people, making it very lively.

Tang Zhen's figure had just appeared when it immediately attracted the attention of the Sentry guards. Countless of defensive weapons, both in the open and in the dark, were all aimed at his position.

However, someone quickly recognized his identity and quickly informed the others. The alert was lifted.

After Tang Zhen slowly descended from the sky, a group of soldiers immediately walked out from the building and greeted him with a loud smile.

Tang Zhen swept his gaze over the dozens of people who had welcomed him. He discovered that he was only acquainted with a small portion of them. The remaining were all new faces. Clearly, they were his other business partners.

After greeting a few military officers that he was familiar with, these military officers took the initiative to introduce the commanders sent by their partners to Tang Zhen. They chatted with each other for a while.

After which, Tang Zhen took out his storage card and passed it to the Army members who had been eagerly waiting for it!

They had been waiting for these resources during this period of time. However, Tang Zhen was exploring the giant tower and could not return in time. Therefore, the final battle had not been launched.

With the arrival of the supplies, the final battle was about to begin!

Tang Zhen did not participate in the discussion and decision-making of these military officers. Instead, he chose a clean and spacious room and began to handle his own matters.

In fact, as the battle continued, the number of times Holy Dragon city's residents participated in the battle became less and less. Even 90% of Holy Dragon city's cultivators had already returned to the Holy Dragon City and started to prepare for the Holy Dragon city's upgrade to a level 6 city.

The Holy Dragon city's residents that had been recruited from the original world had already adapted to life in this world and were gradually integrating into the Holy Dragon City.

The number of residents in Holy Dragon City had finally broken through the 200000 mark, and this number was still rising.

Among these two hundred thousand residents, a hundred thousand of them belonged to the Holy Dragon Holy Dragon City Army. This didn't include the cultivator battle teams and the Special Forces.

It could be said that the current sacred Dragon Legion was no longer the same as before. Their combat strength had increased by more than several times!

Although the Army in front of them was also called the sacred Dragon Legion, they did not actually belong to Tang Zhen. Instead, they took orders from their partners in the original world.

Tang Zhen had no objection to this because this was something that had been discussed during the cooperation.

The two sides shared the large cake of the world of loucheng. While they benefited from each other, they could also clearly distinguish some things.

The partners in the original world wanted a land with rich resources, which could help them colonize other worlds and obtain countless resources and wealth.

What Tang Zhen wanted was a powerful city that was far away from the earth and suspended above the blue sea and sky!

There was no conflict between the goals of both parties. This was because as Tang Zhen had enough residents and started fighting overseas, his reliance on his original world would become smaller and smaller.

When the Holy Dragon City finally advanced to a national level and opened the Otherworld battlefield, this kind of dependence on the original world would become even more dispensable!

However, before the material transmission experiment was successful, Tang Zhen would still maintain this kind of cooperation and help his partner to completely gain a foothold in the world of loucheng.

After all, the original world was where his Foundation was. No matter what heights he had reached, he would never forget this!

Tang Zhen retracted his scattered thoughts and casually waved his hand, taking out the reincarnation mirror.

A bright mirror appeared out of thin air and projected itself onto the empty space in front of Tang Zhen.

With a casual wave of his hand, the mirror immediately melted, revealing a dark and deep passage.

Tang Zhen slowly walked in. Not long after, he saw a strange city built in the mirror world.

The buildings in this city were different from those in the world of towers. It was full of exuberance, with small bridges, flowing water, and an ancient path of the setting sun. There was a strong sense of life everywhere.

On the edge of the city, there were mountains and rivers, as well as villages where even dogs and chickens could hear.

Groups of souls that were very similar to the residents of the giant city were shuttling back and forth in the city, working hard to make a living.

These souls did not realize that everything they had experienced was made up by using their soul power.

And now, they looked no different from ordinary humans.

It was unknown when the guard had appeared in front of Tang Zhen. After he bowed respectfully, he also looked at the scene in the city silently. There seemed to be some kind of emotion flickering in his eyes.

Tang Zhen swept his eyes over the overseer and said indifferently, "Do you have any explanation for this world you've set up?"

The guard immediately replied, "I don't know why such a place was set up either. Perhaps this scene should be the home in my memories. Although I don't know how long it has been, it still feels as good as new.

As he said this, the Guard's ugly face actually revealed a faint look of reminiscence, and the wretched feeling also dissipated a lot.

Tang Zhen laughed softly when he heard this. He spoke to the reincarnation mirror's overseer, you don't have to make yourself look so ugly just to set me off. I don't buy it. Quickly return to your original appearance!

When the guard heard this, he immediately laughed. His face seemed to be shrouded in mist, and he instantly turned into a handsome young man.

Tang Zhen nodded and said to the overseer, "Come with me to the city. I'm very curious about it!" He said.

Soon after, Tang Zhen lifted his leg and his body disappeared from his original spot. In the next instant, he had entered the small river in the city.

Although his surroundings were filled with people passing by, and fish would occasionally leap up from the river, Tang Zhen still felt that this place was very unreal. It was as if he was watching a movie and was unable to truly integrate into it.

"A fake will always be a fake, it can never be treated as real!"

After the guard heard Tang Zhen's words, he immediately explained in a soft voice, "You're entering with your main body, so it's natural that you'll feel unreal. However, if you enter in the form of a soul, it's actually not much different from the real world.

The spirit bodies that lived here also needed to eat and sleep. They also had joy and sorrow. Naturally, they also had to live, grow old, get sick, and die!

After they died, they would be converted into energy to maintain the mirror world. This would allow the mirror world to become more complete and create more Mirror Worlds!

Or start a new cycle and continue living in another mirror world!"

Tang Zhen nodded when he heard this. He asked the overseer, to keep the mirror world running, a large amount of spiritual energy is needed. Is there any way to reduce this consumption? "

The overseer shook his head and explained to Tang Zhen, "In fact, the consumption of spiritual energy is extremely slow. In fact, under certain special circumstances, the spiritual energy will slowly increase!

However, this situation is extremely rare, and I've only experienced it once or twice!

Most importantly, to the souls living in this world, anything they can't see doesn't exist!"

A trace of curiosity immediately rose in Tang Zhen's heart when he heard this. He began to tilt his head and listen.

## Chapter 619 The true goal of the decisive battle

Seeing Tang Zhen's curious expression, the guard hurriedly continued to explain.

"In fact, the things that appear in front of these souls are always the things that they touch with their five senses. When they need to touch things that don't exist, they will use soul energy to construct the corresponding scenes and connect them with the scenes of the entire world!

In short, these souls all existed, but they were independent. The scenes that needed to be constructed by the soul energy at all times were only the things around them that the souls could sense.

Therefore, although the number of souls is not small, the consumption of soul energy is not much!"

Tang Zhen gently nodded his head after hearing the overseer's explanation. However, he was becoming more and more curious about the origin of this reincarnation mirror in his heart.

What kind of powerful existence could create such a magical item?

by the way, where is the giant's soul? I want to see it.

Tang Zhen asked the guard. After which, he saw the other party point in front of him, indicating that it was in that direction.

Then, the two of them walked slowly on the street, passing by the souls of the residents of the giant building. They watched as they lost their memories of their previous lives and lived in a new world.

Tang Zhen looked at the scene before him and did not speak for a long time. No one knew what he was thinking in his heart.

It didn't take long for the two to reach the end of the street and see a slightly old blacksmith shop.

The clanking of metal came from the smithy. A half-naked man stood next to the stove, sweating like rain. He was constantly hammering the red iron on the anvil.

A few children were playing at the side. They would call out "daddy" from time to time, which made the man smile and occasionally scold them.

A virtuous and gentle-looking woman, dressed in plain cotton clothes, brought a bowl of water to the man and wiped the sweat off his face.

Tang Zhen quietly watched the scene before him as a trace of emotion surfaced in his eyes.

This man's appearance was exactly the same as the giant's, but he no longer had the appearance of three heads and six arms. He looked no different from an ordinary person.

Perhaps this was the life it had been dreaming of, which was why it had been reborn in this illusory world with such an image!

After seeing Tang Zhen and his partner standing in front of the door, the man gave a simple and honest smile. He used a dirty towel to wipe his face and said, "What do you two want to fight for? I guarantee that I won't cheat you and that it'll be of good quality and cheap!"

Tang Zhen was silent for a moment. He waved his hand, took out a piece of paper, and handed it to that man.

A three-headed, six-armed giant was drawn on the blueprint. At this moment, the giant was roaring at the sky.

What made people feel puzzled was that the six arms of the giant were clasping his body tightly, as if they were going to tear his body apart!

follow the content of this painting. The height should be about two meters, or the higher the better!

The man took the piece of paper and looked at the contents. When he saw how similar the giant looked to him, he was slightly stunned.

this item, Pixiu, is a little difficult. It can also be made into Pixiu, but it's a little more expensive!

When the man spoke, there was a hint of confusion in his tone. However, he had no idea that this was the special way he spoke when he was alive.

Tang Zhen nodded and extended his hand to the guard beside him. The other party immediately understood and took out a thick stack of silver notes.

To the two people who controlled this world, they could have as many of these things as they wanted. They were all illusory items.

However, to the spirit bodies that lived in this world, these silver notes that were casually condensed by the guards were real gold and silver!

Tang Zhen nodded his head in satisfaction when he heard this. He directly handed the silver notes to the man.

When the other party saw the denomination of the silver Note, he immediately jumped in shock and hurriedly waved his hand, "I don't need that much, please take it back quickly!"

The denomination on the silver Note was extremely large. Just the denomination of a Silver Note was a number that he could not earn in his entire life. Therefore, the man did not dare to take it at all.

"Take it. I once borrowed something from your senior, but I never had the chance to thank him.

Now that I've met you, I naturally have to repay this favor, or else this Tang will feel uneasy!"

Tang Zhen's eyes were focused on the man's face when he said these words. His tone carried a trace of unwillingness.

That man originally wanted to refuse. However, after seeing Tang Zhen's eyes, he was slightly stunned. After that, he received the stack of silver notes as if he was possessed by a ghost or God.

please wait a moment, esteemed guest. I'll definitely hurry up and finish this statue!

Tang Zhen nodded and said to the strong man, "I'm not in a hurry, you can just take your time!"

The man replied and immediately got to work. The woman also bowed to Tang Zhen and the other man before leaving to find help.

After all, the size of the sculpture that Tang Zhen wanted to make was not small. It also involved quite a lot of craftsmanship. It was impossible for him to complete it in a short period of time by himself.

The Tang Zhen duo were naturally not in a hurry. Instead, they turned around and left this world after they agreed on a time.

The reason why he asked the giant to make the statue was that the giant's appearance at the last moment of his life had been deeply imprinted in his mind and could not be removed.

That indomitable figure and the determination that erupted at the last moment were enough to move anyone!

Therefore, Tang Zhen decided to let the giant personally create a three-headed and six-armed sculpture for himself. After that, he would rely on the function of the mobile phone application to carve it without any error.

After the sculpture was completed, Tang Zhen would place it in his city Lord's Hall as a special decoration!

The world within the reincarnation mirror had a similar flow of time as the real world. Therefore, Tang Zhen would need to wait for a few more days if he wanted to obtain this sculpture.

After instructing the guards to look after the giant family, Tang Zhen walked out of the reincarnation mirror.

In the next few days, Tang Zhen had been counting his gains this time around. Moreover, he had tried to use the origin stone to comprehend the faint and mysterious traces of the laws.

Although Tang Zhen did not gain anything in the past few days, he was not the least bit discouraged.

After all, after comprehending the laws, it was equivalent to indirectly controlling the power of heaven and earth. With a raise of the hand, wind, rain, and Thunder could be summoned. How could it be something that was so easy to comprehend?

Some King level cultivators spent their entire lives without gaining anything. The cultivators who had truly comprehended and mastered the power of the laws were the true Almighty beings in the world of loucheng!

Tang Zhen knew that this kind of thing could not be rushed. It required luck and painstaking effort. Hence, he was not the least bit concerned even if he did not make any progress in his comprehension.

The sacred Dragon Legion had already entered the final preparation stage. All their weapons and equipment were already in place, ready to move at any time.

Meanwhile, the Holy Dragon city's foreign tribe enemies had made their preparations, vowing to fight the Holy Dragon Legion to the death!

However, from Tang Zhen's point of view, this motley crew was simply unable to withstand a single blow. In fact, the sacred Dragon Legion did not even treat them as enemies.

Their true target was actually the supporters of this motley crew, the dog-headed people who had been jumping up and down!

Compared to the Wildlands, the area occupied by the dog-headed people was definitely considered a rich land. Unfortunately, it was a bit of a waste in the hands of the dog-headed people.

Now, with the changes in the situation in the original world, the major forces had gradually joined the war chariot to open up the world of towers. The Wildlands could no longer satisfy their appetites.

There were more wolves than meat, how could a Savage Land be enough to share?

Therefore, the dog-headed people who were jumping up and down immediately entered the vision of the upper echelons of the original world. The fertile land made them drool.

Therefore, this so-called decisive battle was just a cover-up. In fact, the real target of the attack was the dog-headed people's City Tower area!

As for the motley crew that had gathered together and might cause trouble for the sacred Dragon Legion, they were similarly unable to escape a fatal blow!

Among the resources that Tang Zhen had brought from the original world, there was a batch of weapons of mass destruction that would be used to deal with any unexpected situations that might occur.

War was not child's play, so it was natural that they would use all means possible. Therefore, it was very normal for these weapons to appear in the world of loucheng.

Of course, unless it was a last resort, these weapons would not be used easily.

After all, the world of loucheng was completely different from his original world. The king level cultivators here were like human-shaped nuclear weapons!

Using these special weapons against cultivators and monsters wouldn't be like using a cannon to kill mosquitoes.

After all, what they wanted was a complete and rich area, not a wasteland that was destroyed by war!

Another three days passed. On this day, the sacred Dragon Legion was finally fully mobilized. Tens of thousands of soldiers, with the cooperation of aircraft and tanks, slowly began the prelude to the final battle.

#### Chapter 620-sword pointed at the dog-headed man's Tower (1)

Due to the difference in technology, the combat style of the original world was very different from the world of loucheng.

The large-scale battle in the world of loucheng was still at the level of a sea of people. Most of the time, it was won by numbers.

The battle between the top-tier towers perfectly displayed this style, with tens of thousands of soldiers participating in the battle at every turn.

Taking heaven battling city as an example, it had a large number of towers of various sizes and occupied a very large area, so the total number of residents in these towers alone had already exceeded ten million!

Due to the special rules of the world of loucheng, the residents of the world could exchange points and brains for food and weapons. Therefore, there was no such thing as many people working but only being able to support one soldier. It was not an exaggeration to say that the entire population was a soldier.

It was precisely because they had enough combat personnel that when heaven battling city fought for and defended territory with the surrounding enemies, large-scale battles often occurred. Sometimes, in order to fight for an area, tens of thousands of people would even be involved in a battle!

Although such a war was very enjoyable to fight, the losses were extremely shocking. Regardless of whether the two sides won or lost, they actually felt quite pained.

The two sides fought and won and lost, and countless years passed.

However, when they looked back, they found that neither of them could do anything to the other. Instead, they had paid countless resources and the lives of their soldiers.

If all these resources and soldiers were invested in the overseas battlefields, their territory would have expanded by several times over the years!

Therefore, just thinking about this matter gave him a headache!

This kind of loss-making business naturally couldn't continue, so heaven battling city and those foreign races finally came to a tacit understanding.

That was, a huge war would occur every 100 years, and in the remaining time, there would only be small-scale conflicts. There would definitely not be a battle of more than 10000 people.

In fact, the battle between the two sides had nothing to do with benefits. It was more because of the complicated feud between the residents of Lou city!

To put it bluntly, this was a mess, and it had already begun when these buildings were still Level 4 or 5.

Let's not talk about the other cities for now and focus on the Holy Dragon city's fighting style.

For the Holy Dragon City Army, which had a large number of equipment from the original world, this kind of human wave tactic was too outdated. They preferred over long-range precision attacks, or relying on the advantage of equipment to crush the enemy.

Sometimes, with the help of these special equipment, only a few dozen people were needed to complete an intense local war.

The Holy Dragon Legion's expedition team at this moment perfectly reflected this point!

Hundreds of specially modified war chariots that could perfectly adapt to the terrain of the Lou Cheng world were lined up in a long line on the grassland, constantly roaring in the direction of the dog-headed people's Lou Cheng.

This special alloy tank was not only fast, but its attack power was also extremely powerful. In front of enemies who used swords as weapons, this tank was simply a killing machine!

Other than these special war chariots, there were also mechanical beasts that looked like metal crabs beside the soldiers who were participating in the battle. They were slowly following the main force.

The inspiration for this imitation of the mechanical beast came from the Holy Dragon city's half-mechanical beast and the terobo people's combat weapon.

Its advantage was that it could carry a large amount of ammunition, was extremely lethal, and could adapt to all kinds of terrain.

However, it also had a weakness, which was that it required the operator to control it with brain waves. Once it was set to automatic mode, its ability to fight alone was very poor.

Although this type of mechanical beast had many disadvantages, its disadvantages did not overshadow its advantages. It could still provide powerful firepower support for the soldiers at all times.

Because it was an all-terrain support force, and its firepower was indeed abnormal, it was deeply loved by the soldiers.

In addition, there were many special weapons and equipment in the advancing team. They were all appearing in the world of loucheng for the first time, and some were still in the stage of combat testing.

Hence, the current sacred Dragon Legion's equipment was so luxurious that it was simply freakish to the point that it made one's hair stand on end!

This was only the equipment for the Army. As for the additional weapons and equipment for the Air Force, there was only an increase, but a lot of them were not displayed.

Compared to the loucheng natives who were good at fighting, the biggest advantage of the humans in the original world was that they were good at studying and learning. At the same time, they had the ability to integrate and integrate.

This was a terrifying ability, and as time passed, this advantage would become more and more obvious!

When the ground forces set off for the dog-headed people's city, the Air Force had already set off and launched an air raid on The Motley crowd.

He believed that it wouldn't take long for those guys to be beaten until they cried for their parents and fled in all directions.

However, he didn't know how many of his enemies would be able to survive after this battle.

There were rows of transport trucks among the troops, and they were filled with fully armed soldiers.

Just as the Warriors from the original world were talking to each other and were still curious about the world of loucheng, they noticed that there was a very Special Vehicle among the vehicles that were moving forward. There was no cover on the surface of the vehicle.

A group of cultivators in black armor and all kinds of equipment were sitting silently on the seats of the car, exuding a faint murderous aura.

Sometimes, when the black-armored cultivators glanced at them, the new soldiers would feel their bodies stiffen and cold sweat drip down their backs.

It was as if after being seen by this gaze, they were immediately placed in a mountain of corpses and a sea of blood. Even their bones were emitting cold air.

"My God, what a heavy killing intent!"

One of the soldiers who had just arrived from the original world was the same. He wiped the cold sweat off his forehead, and asked another soldier beside him, "Class monitor, who are those guys in black armor? why do they look so ferocious?"

The squad leader next to the new warrior was a veteran. He had come to the world of loucheng at the beginning of the teleportation and had participated in many battles, big and small.

He glanced at the 'recruit' and said in a deep voice, " "Brutal? That's because you didn't see them fighting. That's what true brutality is!

Don't think that we've been attacking cities all the way and forcing the enemies to flee, that's only because of our equipment.

If they joined the battle, even the two of them together might not be able to defeat the young warriors in the loucheng, let alone the soldiers!

I remember that one time, when we were attacking a foreign clan's city, we were ambushed by them and were trapped in a Valley.

Good Lord, there were more than 2000 monsters gathered together at that time and they were driven up by the cultivators of the building. That scene was truly shocking. Those who were timid would have peed their pants!

I don't know about the others, but my soldiers and I were so scared that we even forgot to shoot!"

The old squad leader glanced at the black-armored cultivator in the car and sighed with respect. "At this critical moment, the ten Holy Dragon City cultivators who had followed us without saying a word, while everyone else was scared silly, actually charged directly at those monsters.

I'll never forget that scene for the rest of my life. Facing countless monsters and foreign cultivators, those ten Holy Dragon City cultivators were like rocks that were resisting the waves. They held their sabers and fought those monsters fearlessly.

It seemed as if they had already been swallowed by the wave of monsters. However, if one were to look closely, they would realize that they were still fighting, trying to stop the monsters from approaching our convoy.

You will never be able to imagine the scene at that time, especially when we saw the Holy Dragon City cultivators fighting with their lives on the line just to provide us with some buffer time. All of our brothers "eyes immediately turned red!"

At this point, the old soldier sighed and said to the soldiers around him who were focused, " "When the battle ended, three out of the ten Holy Dragon City cultivators died on the spot. The remaining seven were all seriously injured and had to return to Holy Dragon City to recuperate!

Although the Holy Dragon city's methods were magical and those dead cultivators would definitely come back to life, their cultivation would no longer exist.

To the cultivators of the Holy Dragon City, who worked hard to improve their strength and cultivated non-stop every day, this might be worse than killing them.

However, it was because of their sacrifice that my brothers and I were able to survive!

Therefore, whoever dares to disrespect them in the future, I will be the first to not forgive him!"

When the other soldiers saw the serious expression on their squad leader's face, they shivered slightly. When they looked at the Holy Dragon City cultivators, their eyes were also filled with a faint respect.
