

Am I A God 791

Chapter 791: Kill and Transformation

“Boss you are so smart, you want to change materials to overcome the electromagnetic power?” Headless answered. “However, judging by the strength of his electromagnetic field, normal weapons will be useless. It is best to install a anti-magnetic engine.”

“I know.” There were countless high speed cables running and million of blueprints flashing. Doll said, “I am designing a new armor. Help me prepare the relevant materials.”

Headless reminded him, “We only have enough carbon nanotubes for one armor.”

“It is enough.”

Doll added. “And, help me find Kun Wu. It is best if you can contact her... I have intel for her.” His vision fell onto the surveillance monitor and Project X’s back was seen in it.

“Project X... Is not easy to deal with.”

“We were too naive to think we could deal with him in one fight.”

...

In the frozen world, Zhao Yao was staring at Project X and he threw a stone at Project X.

He saw the stone hit Project X’s head, shattered into pieces, then froze in the air.

“No reaction?” Zhao Yao thought. “Was the attack just now a sort of reaction that can break through the restraints of time? Or is he pretending?”

Zhao Yao also could no longer feel the sudden malice.

He narrowed his eyes and looked at the Paralysis Ring on his finger. “If he really can move under Time Freeze conditions then he will be attracted to the Paralysis Ring.”

In Time Freeze, Zhao Yao could still use all his equipment.

However, Time Freeze was of higher priority than Paralysis Ring so under Time Freeze the target could not react to the Paralysis Ring. Therefore, Zhao Yao thought of this test. If Project X was pretending to be frozen, he would be attracted to the Paralysis Ring.

Zhao Yao raised his hand and pointed it to the ground in front of Project X.

The red light lit up and the paralysis sound traveled constantly into Zhao Yao’s ears. Zhao Yao stared at Project X warily and Project X remained immobilized, like the Paralysis Ring was ineffective against him.

“No effect? So he subject to Time Freeze?” Although he had not understood why Project X could attack, Zhao Yao decided to try again.

Then, he flew in front of Project X and slashed the Murasama Blade towards his head.

He felt the strong malice again. It made all his hair stand.

Project X’s gaze swept across the dimension and saw the guy in black attacking him. He was shocked. “There are supercats on this planet that can control time?”

Zhao Yao retreated again. His original position was pierced with metal spikes again. If he was slower, he would have been pierced through. Furthermore, he felt a strong disruptive field and he fell to the ground.

Zhao Yao was not thinking of this. He kept searching for a reason and suddenly he thought of it.

“Distance!” Zhao Yao thought. “This guy can reciprocate supercat’s or apostle’s powers within a certain distance? So if I approach him, he can move again. If I maintain a certain distance away from him, he will be still again.”

“If distance is the key, then under Time Freeze, I have to attack at a far range.”

“If it is far ranged attack...”

Now, Zhao Yao was fighting in Time Freeze and the only attacks he could cast was through his equipment and Ares Sword.

The Murasama Blade did not have long ranged attacks, if he threw the blade, he was not confident of killing Project in one throw.

“Unless I use the Cat Princess Dress.” Zhao Yao was calculating. “But, there is a time limit to the Cat Princess Dress. Each time I activate it, I need five diamonds. Because of Nanako’s intel, I have been saving up diamonds but I only have 12 of them. I only can use it twice. Should I use it now?”

Zhao Yao thought about it and decided to use it. After all he had just figured out how dangerous Project X’s powers were. He could not defeat him only with Time Freeze.

Hence, Zhao Yao was covered in a bright flash as he redeemed the Cat Princess Dress. He activated the Deflective Field and with some silver flashes, the Murasama Blade had slashed through Project X’s body with the help of the Deflective Field.

Zhao Yao walked into the Extradimensional Belly and threw Dust Ball, Roly Poly, and Sheriff through the Dimension Portal into Cat Wonderland.

Then, he used the Murasama Blade to slice across Coffee and Shadow.

He was stunned when he saw the broken robot but he still sliced it apart.

After doing all of this, Zhao Yao stood far away and threw the three cats and the robot that was cut into the Extradimensional Belly.

“Then, I shall change it to...”

Zhao Yao changed his powers from Time Freeze + Deflective Field to Time Freeze + Extradimensional Belly.

He looked at the three cats and the robot who was in Extradimensional Belly and activated ten times the gravity. He closed the Dimension Portal going to the Cat Wonderland and closed all the Dimension Portal.

After returning to the Extradimensional Belly and closing the Dimension Portals, he only had seven seconds left.

Zhao Yao thought to himself. "It should be fine now right? If not I have to activate the next plan."

To deal with Project X, Zhao Yao had a series of detailed plans. The first was to activate Time Freeze, deal a fatal damage then throw him into the Extradimensional Belly.

As long as Project X is controlled in the Extradimensional Belly, then Zhao Yao would go to Cat Wonderland and asked the cats and people ambushed in the Cat Wonderland to attack the Extradimensional Belly.

"It has ended."

He stopped the Time Freeze.

When time flowed again, Coffee and Shadow felt a tremendous pain in their bodies and their vision was covered in blood as their mind went blank.

Before they died, they saw each other cut into pieces and the silvery Project X.

"Did I succeed?" Zhao Yao was excited. He opened the five one way Dimension Portals in the Cat Wonderland and shouted, "Attack! Attack at your full force!"

All the cats were attacking in the direction of the Dimension Portal. Sphinx cat, Bai Quan and Zhao Xue had their steel javelins ready and shot them towards the Dimension Portal.

That moment, the cats, who were already in pieces, were engulfed by the numerous attacks. They were in a situation where they could only be attacked and could not attack back.

Zhao Yao heaved a sigh of relief. “Did I succeed? In such disadvantaged situation, even I would die.”

...

When time started flowing again, for the prison cats, it was a blur and Project X, Coffee, and Shadow had disappeared.

Before they could figure out what had happened, the shadow of where Project X was standing, started distorting.

The shadow was under Project X’s feet. When, Zhao Yao had moved Project X, the shadow did not move. It was normal to Zhao Yao as in Time Freeze, many things do not obey the laws of physics.

However, when time started flowing again, the shadow did not disappear. In fact, it started wiggling, then a cat crawled out from the shadows. It was the blue Project X.

Project X smiled cruelly and thought. “Are those Time Freeze powers? Looks like my metallic fake body has been destroyed. But... I have caught you too.”

Project X had been hiding in the metallic body’s shadows with his shadow powers. He manipulated the fake body from the shadows.

With his powers, why would he need a metal armor?

Now that he had left his shadow form, he looked towards Cat Wonderland.

“Now, it is my turn to ambush.”

The upper hand was with Project X now.

Chapter 792: Pondering and Guess

As Project X emerged from the shadows, all the prison cats wanted to take this chance and escape. The noise from the fight was getting closer. It was apparent that Momo could no longer stop the official apostles.

Project X smiled and spoke softly, "Look at me..."

As he activated his gravitational ability, all the supercats were forced to look at Project X. When the cats made eye contact, the hypnosis powers were activated and they fell into a daze.

"Prepare for war..." Project X's melodious voice rang through their minds. "Do not be afraid. Do not fear. I have granted you with eternal life..."

All the supercats' eyes starting glowing with fanaticism and the thirst for blood.

When Project X saw this, he smiled and sank back into the shadows.

Soon, there was a loud explosion from the supernatural prison. All the supercats rushed out and fought with the official apostles.

...

Meanwhile in Cat Wonderland, Zhao Yao and the cats were attacking the Dimension Portal like crazy.

After a period of time, they finally stopped and all the supercats looked at the other side of the Dimension Portal curiously.

"Is he dead? Is he?" The brick in Zhao Yao pocket was screaming.

Roly Poly said at the side. "Stop screaming. We are observing. However, he is so far. We can't see properly. Does anyone want to go in and check if he is dead?"

After Roly Poly spoke, all the cats turned and looked at him.

Zhao Yao stroked Roly Poly's head and said, "Roly Poly, you gave a brilliant suggestion. Why not you go in and check if they are dead?"

"What!" Roly Poly cursed in his heart and fell to the ground unconscious.

Zhao Yao tugged the corners of his mouth. "Acting dead? I knew you were unreliable. Lucifer go and check it out."

Roly Poly sat up again. "It's so strange. I suddenly felt dizzy just now. Looks like I have been eating too little. My sugar level is low."

Lucifer said excitedly, "You guys can't do this to me! You guys are forcing me to give my life away! I will die! Hahaha"

Zhao Yao rolled his eyes and kicked Lucifer in. Lucifer flew into the Dimension Portal and fell beside Coffee.

All the cats squeezed their heads to look into the Dimension Portal. The brick in Zhao Yao's pocket shouted, "What just happened? Is Roly Poly dead?"

No one bothered to reply to Matcha. All of them were staring at the Extradimensional Belly and they saw Lucifer crawl up, took a look at Coffee and he screamed. Then, Lucifer fell to the floor.

"Seriously?" Zhao Yao was in disbelief. "He passed out from fear? Really?"

Elizabeth said, "It may be real. The cats have been bombarded into pieces. It's too gory."

"Then let's wake him up." Zhao Yao thought about it and activated the illusion.

Lucifer stood up instantly and answered, "Stop it. I am a cat. I don't eat poop." He walked in front of Coffee and looked carefully. "He should be dead?"

Then, he looked at Slaughter and Shadow. “They should be dead too.”

When he walked in front of Doll, he said out of bewilderment, “This is a robot? But he looks damaged.”

When he walked in front of Project X, he was confused and went through the pieces of metal in the floor. He asked, “There is some problem. Why are there only metal pieces?”

Zhao Yao changed his powers to Time Freeze and walked into the Extradimensional Belly.

Since the other cats were confirmed dead, he walked behind Lucifer and looked at Project X in bewilderment.

The pieces of Project X on the floor were corroded, burnt, and broken. It was obvious that these were pieces of pure metal, there were no signs of flesh and blood.

“What? Why?” Zhao Yao grabbed the metal pieces and used Rice Cake Blade to cut them open. They were still metal and not flesh and blood.

Lucifer suggested, “Maybe he turned himself into a metal with some kind of metallic powers.”

Zhao Yao shook his head. “But don’t you think that it is weird? In this metal form, he would just be a statue. If he really was in this form, he would not be able to move. Furthermore, if he is dead, why haven’t the powers deactivated?”

“Maybe it is the unique part of his powers.” Lucifer said, “Afterall, who can be certain about powers?”

The brick in Zhao Yao’s pocket was unsatisfied. “What is going on? Let me see! It is so dark here. I can’t see anything!”

Zhao Yao frowned and felt that something was amiss. “Let’s temporarily close the Extradimensional Belly. No person or cat is allowed into the Extradimensional Belly.”

After making this decision, Zhao Yao left the Extradimensional Belly and returned to the Cat Wonderland. He received a phone call from Uncle Ho.

“Zhao Yao! There is a riot in the supernatural prison! A group of supercats broke out and they are coming in your direction. They may be coming for Cat Wonderland.”

Uncle Ho said, “You need to be careful. Although we are in full chase, there is too much uncertainty in powers. There are at least 50 supercats running in your direction.”

After hanging up the phone, numerous pictures flashed past Zhao Yao’s mind.

Broken metal body, the riot in supernatural prison, the supercats that were coming for him and the intel from Sang Biao...

“According to Sang Biao’s intel, Project X can take away other supercat’s powers by contact. The stronger the powers, the longer the time needed.”

“Furthermore, he has a choice to take away their powers and intelligence and turn the target into an ordinary cat.”

“Or he can leave the cat with their intelligence and power. However, the supercats whose powers have been taken can no longer improve their powers.”

“Other than that...” Zhao Yao thought. “It would be the passive power that was discovered by me. Other than taking away powers, he can duplicate powers passively. As long as within a certain distance, he can obtain the same powers.”

“The powers he owns that I know that he has are gravity, Sang Biao’s evolution, Sang Biao’s laser, Shadow’s shadow powers, metallic powers, Nanako’s sound and Kaede Hattori’s Divine Ray of Terror...”

Chapter 793: Seeing Through the Aura

Zhao Yao’s eyes widened, “Wait a minute. Shadow?”

He looked back at the piece of metal in the Extradimensional Belly. It dawned on him at that moment, “So this metal body is fake? His real self is actually casting the Shadow ability and hiding in the shadows?”

“It’s not impossible.”

Thinking about the supercats that broke out of the prison during the mob, an ominous glint flashed in Zhao Yao’s eyes. “Is that you, Project X? Even if he’s not dead yet, how did he manage to find me?”

“Wait, did he see my appearance when he managed to get the power of Time Freeze?”

“Why did I think that I wouldn’t need to conceal myself during Time Freeze? Did Project X recognise me from his intel about all the apostles and supercats in Jianghai? This spells trouble...”

He looked back at Project X and all the other cats in the Extradimensional Belly as he thought of all kinds of scenarios in his head.

At this point, Zhao Yao felt an impending danger. It was different from his past experiences of doing surprise attacks on the other party. This time, his identity was exposed, whereas Project X lurked in the dark.

“There is no superpower that is undefeatable in this world. All abilities have unimaginable effects.” Zhao Yao looked at his cats and formulated a plan in his mind. “So in a superpower battle, the first to strike gains a huge advantage...”

...

“In a superpower battle, the first to strike gains a huge advantage.”

Opposite Cat Wonderland, Project X lurked in the shadows, staring maliciously at the shopping mall opposite him. “There is no such thing as an undefeatable superpower in this world. The one who strikes first gains the upper hand. Even a very insignificant existence would be able to defeat a god-like power.”

As he said that, his upper body slowly emerged from the shadows. His body swelled and contorted as three big tumors grew out of his body. The tumors looked like fruits as they grew larger and larger.

This was Sang Biao's physical evolution power, where one's physique could change in unimaginable ways at one's will to adapt to all kinds of dangerous battles.

Now, Project X was using this power to do something else.

After the three tumors formed completely, they fell to the ground. The three tumors vibrated for a while before they split apart, revealing three cats.

The cats looked exactly like Coffee, Slaughter, and Shadow.

However, these cats had a blank look on their faces and showed no signs of self-awareness. Project X just used Sang Biao's power to create these cats. In fact, the cats were soulless and mere copies of the original three cats.

As Project X retreated into the shadows and hid beneath the legs of the three cats, their eyes fluttered and sparkled as if they came to life.

By creating doppelgangers of these three cats, Project X could hide in their shadows and unleash their superpowers as he controlled their bodies. It was as if the three supercats had revived.

Gaping at the ingenuity of his powers, fear flashed in her eyes as she asked in a submissive tone, "Project X, what do I do next?"

"Follow the plan."

As he said that, Project X watched as the supercats that had broke out from the prison charged into the Cat Wonderland. The three doppelganger cats smiled as they jumped down the building together and charged towards Cat Wonderland as well.

Project X hid behind the supercats from prison as he infiltrated the Cat Wonderland. He spotted the main hall in no time and saw a man, a woman and a cat in battle. They were Zhao Xue, Bai Quan

and Sphinx cat respectively. Zhao Yao stood behind them with his arms folded across his chest, as if he was watching a show.

Bai Quan and the trio were able to defend against the onslaught of attacks from the prison cats with just their immense physical capabilities. A few kicks and punches were enough to extinguish the flames and receive bolts of lightning with ease, knocking out the hypnotized supercats one by one.

Slaughter and Coffee hid in the dark while Project X and Shadow hid amongst the shadows. They shook their heads as they stared at Bai Quan and his trio, “These three guys don’t look easy to deal with.”

After that, Project X turned and stared at Zhao Yao, “This man, is he the one who activated Time Freeze? That means he opened this Cat Wonderland. I heard rumors that he’s good friends with the Headless Horseman and that this Cat Wonderland is owned by the Headless Horseman. But seeing how he’s able to activate the power of Time Freeze, he might just be the Headless Horseman himself.”

Thinking about it, Project X’s eyes rounded as he activated his power... the Aura Eye.

This was a power he robbed from another cat. It could generate the target’s personality, abilities and capabilities to form an accurate image of the target in the user’s eyes. By looking at the image, one would be able to tell the target’s innate qualities and from there, get a rough sense of the target’s capabilities and abilities.

Project X cast the Aura Eye and first took a look at Bai Quan. His body was radiating with blood flames which protected his body like a solid armor.

Next, he turned his gaze to Zhao Xue. She had turned into a strange figure with cat ears, a tail and a body bulging with muscles all over.

“The images of these two reflect the abilities they display. They are most likely the close combat type that rely on enhancing their physical prowess for power but their powers are not very strong. But that woman, why is she in such an ugly form?”

Project X shook his head and turned to look at Sphinx cat. He saw a golden armor with golden fur appear at the back of Sphinx cat, making him look like a fighting-god in the form of a giant cat.

“Hmm, they are all close combat types. This guy must be the strongest of the trio.”

Finally, Project X looked in Zhao Yao’s direction. However, he could no longer see Zhao Yao. Under the Aura Eye, the only image of him was that of an immobile dried fish which lay on the ground.

Project X stared at the image before him thoughtfully.

“... What... does this mean?”

“This guy... he’s weaker than the other three? But he could activate Time Freeze?” Project X was lost in thought. “Why is his image shown to be so much weaker than the other three under the Aura Eye if he has the power of Time Freeze?”

However his confusion only lasted for a moment. Project X quickly shook off his thoughts, “No matter what, I will just kill this Zhao Yao since he has the power of Time Freeze. After that, I will just need to kill the strongest: Sphynx cat. The rest should not be a problem.”

At the next moment, just as the battle reached its peak, the three doppelganger cats struck at the same time.

Slaughter’s laser beam blasted through Zhao Yao’s body in an instant, followed by Shadow’s blade and the invisible gravitational force.

Unleashing these three abilities at the same time would be enough to blast a person into dust. However, to Project X’s astonishment, Zhao Yao merely groaned as he suppressed the onslaught of attacks. His scorched, stabbed, and compressed body began to undergo Ultra Rapid Regeneration.

“Ultra Rapid Regeneration?” Project X smirked. “What a fool. You gave up Time Freeze to use this ability. You’re just seeking your own death.”

The moment the three cats struck, Bai Quan and Zhao Xue charged towards Slaughter and Coffee, who unleashed the laser beams and gravitational attacks respectively.

Project X thought to himself, “Yes, that’s right, come and attack my doppelganger. Show me your true abilities.” As for Zhao Yao, Project X could not be bothered with him anymore. A fool who only had the power of Ultra Rapid Regeneration was nothing to be concerned about.

Afterall, as far as Project X knew, an apostle could only borrow a specific power at any one time. Under the Aura Eye, Zhao Yao turned into a piece of dried fish. Now, he even used the power of Ultra Rapid Regeneration.

These actions corresponded to the intel Project X had. Hence, Project X no longer viewed Zhao Yao as a threat.

To him, Sphynx cat’s ability was certainly the strongest in the field. He seized a chance during the intense battle to sneak into the other party’s shadow.

“Good. At this distance, I should be able to replicate his powers.”

“Next, I can just rely on the immense physical strength of his body to rob him of all his abilities and intelligence.”

Chapter 794: A String of Attacks and Counterattacks

Looking at Sphynx cat’s well-built physique, Project X smiled to himself as appeared out of Sphynx cat’s shadow and bit down on Sphynx cat’s neck in a flash.

“Success!” Project X’s eyes lit up, “What a strong power this is. I can feel it. Absorbing this ability requires at least 20 seconds. But given my enhanced physical capabilities now after creating the doppelgangers coupled with Sang Biao’s physical evolution powers, I will definitely be able to hold out for that long.”

Right at the moment when Project X bit on Sphynx cat’s neck, the flesh and blood on his body started vibrating intensely. One by one, tentacles shot out from his body and reached to entrap Sphynx cat’s body. It was his way of wrapping Sphynx cat completely in his grasp for him to snatch his superpower.

On the other hand, Sphinx cat quickly reacted to the situation when he felt the bite on his neck. He turned and saw Project X on his back and scoffed, "It's exactly as Zhao Yao guessed. This guy was actually hiding amongst the shadows?"

Sphinx cat looked at the tentacles wrapped around him and scoffed again. His body vibrated before it erupted with power in the next moment, exploding Project X's tentacles into countless chunks of flesh and blood that spurting out in all directions.

"How is this possible?" Seeing how Sphinx cat easily broke out from his control, Project X was shocked beyond words. "His powers should have been suppressed by me! Why is he still able to counterattack with his physical body so easily?"

Just as Project X was thinking about that, his vision turned black as Sphinx cat's paw smacked down on his face like a mountain crashing down on him. With just one blow, Project X was completely burst into pieces in midair.

Zhao Xue was elated at the sight, "Did we succeed?"

"No!!" Zhao Yao, who was still undergoing regeneration, screamed. "Those three cats! They might just all be Project X! Quick attack them!"

Zhao Xue was stunned while Bai Quan immediately acted on his orders. Using the power of Ultra Rapid Regeneration, Bai Quan stared straight into the high-energy laser beams as he charged forward roaring.

Sphinx cat's reaction was even faster. After blasting Project X with a paw, his body flashed before his paw landed again on Coffee's head, smacking him down to the ground like a fly as his body disintegrated into a pool of blood.

In that instant, the situation on the battlefield changed dramatically. Originally, Project X's body was split into Project X, Coffee, Slaughter, and Shadow. However, in the blink of an eye, Project X was destroyed by Sphinx cat in one blow and Coffee suffered severe injuries as well. Slaughter was defeated by Bai Quan while the remaining prison cats were suppressed by Zhao Xue.

The only thing that remained unharmed and unaffected was Project X's shadow, as he had been hiding amongst the shadows all along.

However in Project X's eyes, even though the odds were clearly against him, he was totally undaunted and his heart was as calm as a river.

"Hehe," Project X gloated. "I shall play with you guys for another round."

The moment Sphinx cat struck and killed both cats, Project X who was hiding in the shadows finally made his move and counterattacked.

At his will, a mad surge of gravitational force assaulted every inch of space in the main hall. Everyone lost their balance in that instant and was dragged upwards by an immense, upward force.

The whole main hall in Cat Wonderland had its centre of gravity reversed in a flash.

At that moment, even with Sphinx cat's strength, it would be difficult for him to move at supersonic speed.

Next, Project X controlled the Slaughter doppelganger to emit rays of white light and directed it upon everyone at the scene.

Zhao Xue was shocked and immediately covered her face with her hand. Yet, she realized that the light that shone on her body did not seem to have any burning effect at all.

"This is not laser? Then why is he shining it on us?"

Sphinx cat turned to look behind him and cursed immediately in his heart.

On the wall behind them, the shadows of all the cats and humans present were reflected on the wall, like targets to be hit.

The shadow tentacles that Project X controlled crept across the wall as they pierced through everyone's shadows on the wall.

Shadow's shadow attack power could injure a target's body just by attacking its shadow. This power affects everyone and anyone regardless of their physical strength and defense capabilities.

Even the machine cat that Doll controlled previously was damaged by through this attack.

At that moment, if Sphinx cat's shadow was attacked, his body would definitely be injured. Furthermore, he did not have the same regeneration powers as Zhao Xue and Bai Quan. With his body stranded in midair, it would be too difficult for him to block the far-range shadow attack aimed at his own shadow.

"Project X has far more experience in battles," Sphinx cat sighed in his heart. "If I were the only cat here, I might be severely wounded from this series of gravitational force, laser beams and shadow attacks.

But luckily..."

Just as Sphinx cat sighed in his heart, Zhao Yao, who was floating in the air, screamed out, "Hey! Project X, you dare to come over here?"

"This idiot. What nonsense is he saying. I'm not a fool. Why should I look over just because he asked me to?" Just as Project X had that thought, a red light flashed across in front of him, attracting his gaze over.

The red light swept over in an instant and landed on Catherine.

At that moment, Catherine was covered in the Deflective Field. Behind her was Ares, Roly Poly, Dust Ball, Fish Ball, Noodle, Elizabeth and many other supercats. They were all invisible under Roly Poly's power.

With Roly Poly's invisibility and the protection of the Deflective Field, Zhao Yao was able to mask the supercats from sight, sound, and smell, concealing them perfectly so that they could come to his aid in the nick of time.

As the sounds "Para-! Para-!" rang out from the ring, Project X locked eyes with Catherine. His vision turned black as he dropped out from the shadows and crashed to the ground.

Zhao Yao had long guessed Project X's shadow powers, hence he came up with this plan to thwart his opponent's survival tactic.

Indeed, the plan was a success.

However, Project X's physical abilities were not weak. The moment he crashed to the ground he woke up from his nap and tried to return to hiding in the shadows.

Zhao Yao immediately shouted telepathically, "Elizabeth!"

Elizabeth, who was concealed within the Deflective Field, flashed red beams in her eyes as she aimed right at Project X.

Project X was half-shadow half-cat when his body froze on the spot before it he slowly reverted into his physical form.

However, even though the shadow of Project X was subdued, the Slaughter doppelganger controlled by Project X was not restrained by anything. He too was attracted to the red light and Catherine, collapsing on the ground. However, he woke up right away and shot laser beams at the crowd.

Elizabeth could only control a single target at any on time. The shadow of Project X and Project X's Slaughter doppelganger had developed their own brains and organs using the ability of physical evolution so they were able to fight independently and even become separate lives.

Hence, even though Elizabeth controlled the shadow of Project X, it was like controlling one of King of Death's puppets. She could not control Project X's other doppelgangers at the same time.

Yet, at the same time when Slaughter awoke, Bai Quan, Zhao Xue and Sphynx cat awoke as well. They all went through the same process of being attracted to the red light, falling into a nap and awakening almost immediately.

Bai Quan, who was the nearest to Slaughter charged forward in a flash and managed to block the other party and received the full impact of the high-energy laser beams. As the smell of burnt meat wafted out, he bellowed in rage as he rushed to Slaughter and smashed his fist ruthlessly on Slaughter's head.

The transparent supercat screamed in agony as it flew and smashed into the wall the next moment, his body splattering into different pieces.

After Elizabeth gained control of Project X's shadow, she was no longer worried and managed to cast her power of illusion on all the prison supercats, knocking them unconscious.

When he saw this, Zhao Yao heaved a sigh of relief as he squatted down and thought to himself, "It's finally settled."

Chapter 795: Hiding and Switching Around

Zhao Xue walked over to the immobilised Project X as she asked curiously, "Did we succeed? So he's the mastermind behind all this?"

Bai Quan, on the other hand, had collapsed on the floor. It was not out of pain. It was actually out of pleasure. He burst into spasms as 80% of his whole body was scorched.

Matcha and Roly Poly rushed out excitedly. Matcha pushed Project X to the floor and stamped on his face as he shouted, "Are you scared now? Foolish cat, let's see how you're going to make a ruckus again. You want to fight against me, Matcha? You're just asking for death!"

Roly Poly was busy taking photos of the immobilized Project X with his phone. Matcha shouted, "Hey, Roly Poly! Don't forget to include me in the photos." As he said that, he posed with his paw pressing on Project X's head, as if he was the one who defeated Project X.

"You stupid cats! Project X isn't dead yet." With a flick of his hand, Zhao Yao controlled Project X using the Deflective Field as he forced him into a seated position.

Ah! This move made Matcha and Roly Poly scream in fright and scramble off with their tails between their legs. They hid behind Zhao Yao, each hugging one of his calves and peeking out from behind as they stared at the immobilized Project X.

Sphinx cat walked behind Project X as he stretched out his paw and said, "Zhao Yao, let's just kill him. He's too dangerous."

Zhao Yao stroked his chin in deep thought. He intentionally sealed the Extradimensional Belly, concealed the supercats, and used himself, Sphinx cat, Zhao Xue, and Bai Quan as targets to lure

Project X out. Following that, he had used Catherine together with the Paralysis Ring to catch Project X from the shadows.

He guessed that Project X would hide in the shadows but he never expected him to use Sang Biao's physical evolution powers to 'recreate' Coffee, Slaughter, and Shadow.

"The cats, Coffee, Slaughter, and Shadow in the Extradimensional Belly are definitely real. So are these cats. This means that between the two groups of cats, one of them would have been created by Project X using Sang Biao's physical evolution powers. Thereafter, he cast the powers of each of the three cats through their bodies."

Zhao Yao frowned, "If Project X can use his superpowers to create doppelgangers, how can we be sure that the Project X that we are controlling now is the only real physical form of him left?"

"This!" Zhao Xue was stunned, "This can't be. If that's the case, this cat would be too good at hiding."

"You don't say," Zhao Yao replied. "In a superpower battle, the one who is better at hiding gets the upper hand. It is a continuous process of exchanging ultimatums."

The ones who fight head on ultimately lose and die. The weeds on their graves have grown to three meters by now. The ones who can hide it out until the end are the strongest fighters. Project X seems like the strongest of the strong. His hiding skills are on par with mine so he's likely to have many tricks up his sleeves."

Zhao Xue was speechless.

Zhao Yao continued, "Even Sang Biao did not show such a strong degree of control over his own body. However, since it's his power, he should know a thing or two about it. There must be some weakness to it. Otherwise, Project X could just split himself infinitely and take over the whole world. There would be no need for pulling these petty battle tactics."

However, earlier, when Zhao Yao emptied and sealed the Extradimensional Belly for safety, he had locked Sang Biao on the Cat Island and removed the dimension portal for it.

Hence, he had to enter the Cat Island again to dig out information about the weakness of the physical evolution power from Sang Biao.

Zhao Yao thought to himself, "I have to go to the Cat Island? No, I can't go. Project X might just be lurking somewhere nearby, waiting for a chance to strike. I must ask someone else or some other cat to go."

Zhao Yao looked around before he said, "Cheese, go to the Cat Island now and ask Sang Biao to explain his powers clearly and in detail. Ask him if there are any limitations or counter-tactics to tackling Project X's physical doppelgangers."

Immediately, Cheese flew up to the sky in a storm of dust and sand as he headed towards the Cat Island.

...

Xiao Yu and her cat, which had turned into spirit form, looked around Cat Wonderland for Zhao Yao. They glanced at the shaking building as they heard the explosion from afar. Xiao Yu wondered aloud, "What's going on?"

"Let's go and take a look, Nekomata!"

...

Outside the Cat Wonderland, Kun Wu, who had been spying on the scene, widened her eyes as she exclaimed, "Amazing, Headless Horseman and his comrades are all so powerful. They actually managed to subdue Project X."

It turned out that she was able to watch the whole battle that happened just now through Project X's vision sharing.

"But at this rate we are never going to win." Kun Wu stared at the Cat Wonderland worriedly for awhile before she came to a decision. "I must go in and tell them..."

...

At the same time, countless spirits were floating around, surrounding each level of the Cat Wonderland on the exterior of the building.

They were spraying the word 'demolish' all over the exterior of the building.

At the center of the rooftop of Cat Wonderland, another Project X stood unharmed as he frowned, "We lost contact? Have all four doppelgangers been killed?"

"But I managed to collect quite a lot of intel on their superpowers."

The intel Project X gathered flashed across his mind. Bai Quan's strong physique and power of regeneration, Zhao Xue and Sphynx cat's physical capabilities as well as the inability to snatch away Sphynx cat's power.

The ring that shone a red spot of light and Catherine, who could induce sleep with just one look...

It was exactly as Zhao Yao had guessed. Project X, who could control the physical evolution of his body to create growth beyond his body, had never revealed his true physical form throughout the battle. He had been using his doppelgangers to fight the whole time while he collected superpower intel through them. He hid somewhere else to formulate plans to fight.

"The sleep-inducing cat and the red spot of light is truly bizarre. But since I know of it now, I will just avoid it using my own powers. However, the brute strength of that Sphynx cat is seriously too strong. He could kill two of my doppelgangers at once."

Project X stroked his chin and thought to himself, "What's up with that Sphynx cat's abilities? Why is that I could not replicate his abilities even though I was in close proximity to do it? Could it be..."

Just as Project X was thinking about that, Momo, who was floating beside him, interrupted his thoughts as she said, "It's done, Project X. The spirits have sprayed all eight directions in all six storeys of the mall with the word 'demolish'."

"Oh, not bad Momo. You did well."

Project X smiled as he pressed both paws on the floor beneath his feet.

“Fortress Nightmare... activate!”

The moment Project X activated this power, every person and cat in the Cat Wonderland felt their sense of direction be reversed and distorted.

The next moment, everyone’s vision turned black before they realized they were no longer standing in their original positions.

Cat Wonderland, which had stood out tall on the streets had turned into a fully black castle that rose to hundreds of meters in height. The castle was blurred, as if it was in a parallel universe.

...

Sphinx cat’s vision was a series of black and white flashes. He experienced a loss of gravity before he found himself in a strange main hall.

Black veined patterns adorned the whole main hall coupled with marble beads. Only a few small torches lighted the place. It was ominously dark.

In the centre of this strange hall stood Project X, perfectly unharmed and staring curiously at Sphinx cat.

The moment he saw Project X, Sphinx cat instinctively crouched down, sinking his paws into the floor to lock his body in the ground.

“Welcome to my palace.” Project X laughed. “You must be strongest out of all those guys there. Once I figure out your powers, I can finish them off one by one.”

Project X thought to himself, “As long as I can combine this guy’s abilities with Sang Biao’s physical evolution abilities, the others will be no match for me.”

As Project X thought of that, numerous other Project X’s emerged from the shadows and converged into the body of the Project X in the center of the main hall.

“You gathered all your doppelgangers?” Sphynx cat scoffed. “So if I kill you now, even if you don’t die you will probably be severely wounded right?”

“You can try.” Project X started laughing. “If you can kill me, you would be the strongest on this planet. You would have a greater right to live than I do.”

Chapter 796: An Intense Battle and the Encounter

Looking at Project X, Sphynx cat’s muscles tensed up. He gathered all the power he had in his body before expelling it all at once.

Bam!

Sphynx cat flew out like a cannon ball as he flared up all the muscles in his body. However, when he was nearing Project X, his whole body swerved against his will as he flew off on a tangent away from Project X.

Project X said calmly, “It’s no use. Under the influence of the gravitational ability, I just need to exert a little bit of force for you to go off track and move away from me.”

However, in the next moment, Sphynx cat blazed across with a trail of shadows behind him as he brushed past Project X and slammed head-first into the wall on the opposite end.

Right before his body came into contact with the wall, Sphynx cat’s upper-body muscles coordinated with his lower-body strength as he flipped his body around like a spinning football. His feet banged against the wall as he curled, compressed, and shot off!

A loud explosion boomed across the main hall as Sphynx cat charged through the air again, brushing past Project X’s body amidst the howling air.

He watched as Sphynx cat sped up, knocking down walls, tearing up the ground, and destroying the ceiling. Project X frowned.

“Is he using his powers and strength to move around at supersonic speed, breaking down walls so that he cannot be caught by my gravitational force?”

Project X discovered the rationale behind Sphynx cat’s moves. Sphynx cat had exceptionally strong physical capabilities but no flying abilities. All his powers relied on his quick reaction time and sheer strength. Once he lost contact with a surface and became stranded in midair, he would not be able to unleash even a tenth of his fighting power.

However, Project X did not immediately lift Sphynx cat into midair and cut off his points of contact. Sphynx cat could rely on his superior strength, speed, and explosive powers to bounce off the walls. No matter how Project X manipulated the gravitational force, he could only change the direction Sphynx cat was heading in. He could not stop Sphynx cat from flying head-first into a wall, before reversing and bouncing off again with his sheer strength and quick reaction speed.

“If I want to stop him from moving around so fast, I have to reverse the gravitational force right when he’s leaping in midair and reduce his speed to zero once he comes into contact with the wall. But this is easier said than done...”

Project X watched as Sphynx cat zoomed back and forth amidst sounds of booming explosions. Sphynx cat moved at a such great speed that he quickly turned into a thin line. Project X frowned, “His speed has already exceeded my reaction time. Furthermore...”

Bam! A partition wall burst into pieces after Sphynx cat crashed head-first into it. He crashed his way back in through another wall.

“Not just supersonic movement, this guy is also destroying the surroundings, limiting the effects of my gravitational force. On top of that, he created more barriers for him to hide and leap about. He’s creating a favorable battlefield for himself.”

At the thought of this, Project X chuckled. “So you’re trying to counter my power after receiving a blow from me? You really know how to seize that little bit of leeway I gave you.

This guy’s fighting intuition is very powerful. Next, he will surely find a chance to strike me...”

As Sphynx cat’s speed increased, Project X found it increasingly difficult to react in time.

Finally, a tearing sound was heard as Project X stared in shock at Sphynx cat finally found a chance to overcome the gravitational force and slam right into Project X's back. With that, he easily ripped Project X into two.

...

“Ah!”

Matcha covered his head as he stared at the pitch-black surroundings. He looked at the dark, winding corridor, where not a single cat or human soul was to be found, and screamed in agitation again.

He clutched his head as he paced back and forth anxiously.

“What shall I do? What shall I do?”

“Everyone's missing!”

“I'm the only cat here!”

“I'm doomed!”

Matcha collapsed on the floor and immediately covered his mouth, “No, I can't scream and shout now. What if I attract the enemy's attention?”

“But I'm really very scared!”

Looking at the pile of orange fur he shedded, Matcha quickly licked himself a little to calm himself down.

“No, Matcha, calm down. If you act like this, what will become of the other cats?” Matcha licked his fur for a while and felt himself calm down. He started thinking to himself, “Was everyone dispersed in the battle and sent here?”

“Does that mean the others are being attacked now? Are they trying to eliminate us one by one?”

“Should I go and save them?”

Staring at both ends of the pitch-black corridor, Matcha tried to take a step out but immediately retracted. “Or should I just stay where I am and wait for help?”

“But what if the enemy finds me first?”

As he thought of that, Matcha started shedding fur again. He clutched his head in despair with both paws as he thought, “Dead, dead, I’m so powerful they will definitely attack me first! What am I supposed to do?”

Matcha clutched his head and thought for a long while. He decided to put down his bag and took out his phone as he thought, “Forget it. I can’t think of anything anyway. Let me play a round of Mobile Legends first.”

However, when he unlocked his phone, what he saw on the screen made him shake in anger.

“There’s no internet here? What kind of lousy place is this?”

At the thought of this, Matcha put the phone back into his bag. He carried his bag as he strode towards the dark end of the corridor. “No, I must find a place where I can connect to the internet, so I can contact Zhao Yao and the rest.”

As he talked to himself, Matcha had already broken into a small run as he charged into the dark corridor with his tail swishing behind him.

Matcha continued walking. Just as he felt more and more tired and that the corridor stretched on endlessly, he saw a corner turn in front of him. However, his ears suddenly twitched and the next moment, he felt his body be immobilized on the spot.

Sounds of heavy panting reverberated from the other side of the corner. Matcha’s heart pounded faster and faster as he hid at the corner spot, shrieking internally, “Ah! What do I do! Someone’s coming!”

“What do I do what do I do what do I do?”

Matcha was about have a mental breakdown as his fur shedded crazily. The panting sound came nearer and nearer before a black shadow leapt across the corner and appeared in front of Matcha.

“Ah!” Seeing the black shadow that suddenly appeared, Matcha screamed in alarm and instinctively activated Time Freeze at that moment.

Matcha observed the black shadow that had come to a standstill under Time Freeze. He measured its size roughly and was surprised. “It’s not that big? This black substance wouldn’t be anything good anyway. Humph, I’ll beat the shit out of you first.”

At the thought of this, Matcha put down his bag while still under Time Freeze and took out a small hammer. He started whacking the shadow with it.

After much bashing, Matcha suddenly gasped as he took a closer look. “This guy looks like Lightning.”

Matcha plucked some fur from the other party with his paw. The small hammer in his mouth dropped when he saw the fur. “It’s really Lightning.”

When time resumed its flow, Lightning suddenly felt intense pain all over his body and collapsed on the floor. He was just about to scream in pain but a shrill and even more agonizing scream assaulted his ears.

Lightning raised his head and saw Matcha lying beside him, clutching his head as he screamed, “So painful! Who’s attacking me?”

Chapter 797: Ambush and Space

Lightning asked, “Matcha?”

Matcha exclaimed, “Lightning? Someone hit me. Psychokinesis, it must be psychokinesis! Run!”

When Lightning saw Matcha stand up and hobble into the distance, he panicked and caught up with Matcha despite the pain.

“Wait for me Matcha! Don’t leave me alone!”

The two cats ran for a long distance then Matcha stopped and started panting. “I think those guys did not catch up.”

Lightning fell to the floor and laid there like he was dead. “It is so painful. Who attacked us? I feel like I have been hammered.”

“I don’t know.” Matcha said seriously. “However, if he can attack the both of us at the same time and injure us this badly, he must be highly skilled.”

Bam! Suddenly, a small hammer fell out from Matcha’s bag.

To Lightning’s bewilderment, Matcha explained, “Don’t be nervous. This is the hammer I keep for self defense. It is small and not heavy, perfect for cats. Do you want one?”

“No... It’s okay.” Lightning said, “What should we do now? Where are we? Where is Zhao Yao and the rest?”

Matcha picked up the hammer and threw it back into his bag then he said solemnly. “I don’t know where are we but, most likely, the rest of them have been sent over too. Project X wants to separate us then attack us one by one.”

“What?” Lightning was worried. “Then what should we do?”

“Don’t worry.” Matcha answered, “We should work together to find other cats and people. The more we find, the better the situation gets. Of course, it would be best to find Zhao Yao.”

“Yes.” Lightning nodded his head. “Although normally Zhao Yao feels unreliable, stingy, and cold-blooded at times like this I still want to be with him.”

The two cats looked at each other and sighed.

Then, Lightning patted Matcha on the shoulder and pointed to the corner.

They saw a cat's shadow growing longer under the light. There was a cat walking towards them and he had light behind him.

Lightning chatted privately. "How, what should we do Matcha? There is a cat coming!"

Matcha shook his paws and said, "Don't panic. When he comes over, I will activate my Time Freeze and hit him with my hammer. After you see him on the floor, send your lightning bolts. I don't believe that he won't die!"

Lightning's gaze changed and asked, "Matcha, did you attack me just now with Time Freeze?"

"What?" Matcha replied, "I can't hear you properly. The signal is not great! There must be a power interfering."

When Matcha saw that Lightning was about to speak, he covered Lightning's mouth and said, "Don't! He is coming!"

The shadow grew longer and longer as the cat came closer. A thought struck Matcha as he said, "Lightning! Strike him now!"

"What?" Lightning looked at his fur and hesitated.

Matcha said, "Do you want to live or die?"

Lightning clenched his teeth and released blue lightning bolts. As the static electricity exploded, Lightning turned into a sea urchin and was screaming.

Upon hearing Lightning's screams, the shadow stopped and Matcha activated Time Freeze.

He charged over and saw Coffee floating in the air. Coffee was a few meters away from them and there was a torch beside him for illumination.

“This is the cat that controls gravity? Or is Project X?” Matcha hesitated and realized that he was still frozen in mid air. He understood immediately. “He did not learn my Time Freeze so this guy isn’t Project X, he is the real Coffee?”

Matcha was shocked. “Then the two Coffees that Zhao Yao killed were transformed by Project X?”

Matcha shook his head. “It is not the time to think of this now.” He picked up his hammer and let out an evil grin while he looked at Coffee, who was in the air. “Humph, since you don’t have Time Freeze then you can’t blame me.”

He rushed up and jumped. He attacked Coffee with his hammer without stopping.

Then, he walked back panting. He used his hammer and moved the Lightning under Coffee.

“This should be enough.”

Matcha wanted to resume time but he looked at the distance between him and Coffee. “I should be further.”

He backed up off for about hundred meters then ended his Time Freeze.

Then, he saw Coffee tremble and let out a yell. As the power exploded above him, Coffee fainted and fell to the ground.

He fell onto Lightning and Coffee let out a louder scream. He turned into a sea urchin too and jumped towards the sky.

“Ahhh!!!” Coffee floated in mid air with the help of his powers. His face was covered in blood and his body was in pain. He looked at Matcha and Lightning as he yelled, “You guys are dead! I am going to kill you!”

Lightning was caught by the raging gravity and he cried, “Matcha! Save me!”

However, Matcha had escaped.

Matcha was running and thinking. “How is he not dead yet? I did not give mercy.”

...

Zhao Yao opened his eyes.

“Foreign ceiling.”

“A stench from cats.”

“There must have been many cats here and no one cleaned it up.”

Zhao Yao stood up and observed his surroundings. His ears twitched and frowned. “No longer in Cat Wonderland?”

He tried to communicate with the Extradimensional Belly and realized it failed. He could not even open the Dimension Portal or self devour.

Zhao Yao frowned deeply. “I have lost connection with Extradimensional Belly? Unless, this is not reality but another dimension?”

He touched the black walls beside him and activated the Deflective Field to attack the walls.

Although the walls were very solid, under attack from a power equivalent to hundreds of tonnes, the wall was still broken. A corridor was revealed at the other end of the wall.

Zhao Yao crashed through the walls one by one and tried to leave this building. After ten minutes, he realized he was back at the first wall he had broken through.

“This place... this is not a normal building. There is something wrong with this dimension.”

Chapter 798: Disappearance of Supercats (1)

Zhao Yao felt that there was something amiss with the dimension around him and started to get anxious.

There must have been a reason why Project X sent them to this place. He could be hunting down the other supercats right now.

Thinking of this, Zhao Yao could no longer endure it. He activated the Power Up card.

Golden light rays shot out from his body and turned into various invisible force as it shot towards the building. He crushed all the walls within ten meters.

Zhao Yao continued to walk forward while crushing through the walls. He was trying to find the border of this peculiar building or other supercats.

...

Bam!

As Sphynx cat managed to hit Project X's body and tore him apart, Project X's body shrank and was attached to Sphynx cat's body.

Sphynx cat was alarmed. "This... is gravity? He is the gravitational source now?"

The violent power was raging in Sphynx cat's muscles as he shook Project X's flesh off his body.

But it was a satellite that was attracted to the Earth, the flesh of Project X was dragged back by the gravitation and stuck onto Sphynx cat. In fact, many gravels and sand stuck onto Sphynx cat too.

“No...” Sphynx cat was surprised. “This guy’s gravitational ability was stronger than before. Is it because he had merged with his other apparitions? Even after the merge, he has been hiding his abilities, he only exploded when I used my ultimate attack.”

Thinking of this, Sphynx cat was accelerating around at high speed. He tried to throw off the chunk of flesh on his body.

“I can’t do it... other than gravitation, there is...”

Sphynx cat looked and saw a shadow stitching the flesh together.

“He hid the shadows in his flesh. This fellow... he has been waiting for me to attack him... No matter if he was hiding his strength, using himself as the source of gravitation or using shadows to stitch himself back... He has been waiting for me...”

Thinking of this, Sphynx cat was alarmed. However, he held himself together and crashed towards the wall with Project X on his body.

“If I can’t get rid of you, I will kill you completely!”

As Sphynx cat was thinking of that, Project X’s voice entered his mind.

“The strongest point is also the weakest.” Project X said slowly. “If you kept moving around at such high speed, it would have been troublesome. But, if you can kill me, it is the time for me to kill you too.”

Bam!

Sphynx cat’s chest trembled and a huge wound opened. Blood gushed out of it.

Meow! Sphynx cat yelled and pressed down on his chest in disbelief.

Then, he started running around at high speed again.

“What attack was that?”

“Where is it from?”

“How is it possible? His shadow weapon or gravity shouldn’t be able to break through my defense... wait...”

Shadow cat, who was moving at high speed, looked onto the floor. As they were together, their shadows overlapped each other.

No matter how fast he moved, as long as Sphynx cat was carrying Project X, his shadows would never leave Project X’s shadows.

Then, Project X’s shadow slashed Sphynx cat’s shadow again.

Blood splashed out from Sphynx cat.

Meowu!! Sphynx cat opened his mouth and started chewing on Project X’s flesh.

Project X said calmly. “Trying to eat me?”

As the shadow attacked Sphynx cat’s shadow, there were more and more bloody holes appearing on his body. There were also more shadows coming out from his body and engulfed his body slowly.

“The strongest moment is also the weakest moment. The nearer you are to victory, the more you have to be careful of potential danger.”

“When you did not run off the first moment you saw me, you lost... Young cat, you are too naive.”

Project X’s body merged back together under Sang Biao’s powers. There was a shadow sewing his body back together.

“The nearer to victory, the more I have to be careful of potential danger?” Sphynx cat sighed, “I’ve lost.”

He laid beside Project X and was bleeding profusely. “How much strength did you use?”

“How much strength?” Project X laughed. “If I have to name it, it would probably be like a human toying with a cat.”

Sphynx cat smiled and there was more blood flowing out from his mouth. “One day someone will toy with you.”

“A loser’s lament is an ugly sight.” Project X reached out his paws and pressed on Sphynx cat’s head. “Now, let me look at your powers.”

After a half a minute, Project X opened his eyes and was in joy. “Workout? In this case, even without intelligence and power, you still have very strong combat powers. Furthermore, with such a developed brain, even without powers and intelligence, you are a threat...”

He looked at Sphynx cat and laughed. “Then, I shall leave you with your intelligence and powers but I will need something else...”

“Your life.”

Then, a shadow cut across Sphynx cat’s neck and Sphynx cat collapsed onto the ground.

“This is much more pleasing to the eye.” Project X looked at his paw and all the blood in his body started to fluctuate.

“Workout powers plus Sang Biao’s evolution powers are a perfect combination.”

Project X’s body was shaking and his entire body was contracting and expanding.

“The workout powers accelerated the evolution process. With a bit of improvement, Sang Biao’s power will be able to spread through my whole body and will even control the progress of my powers.”

Project X was excited and his body flashed across the air like lightning. He charged outside and accelerated faster and faster.

A few minutes after Project X left, Sphynx cat opened his eyes.

“The last attack... I was immune?” He breathed out heavily and Sphynx cat was very grateful to Zhao Yao for leveling up the immunity ability to 7%.

Sphynx cat crawled up from the floor and thought. “I have to contact Zhao Yao quickly. Project X has terrifying powers. We have to kill him before he grows to his full potential.”

Then there was a flash in the air and it cut across Sphynx cat’s shadow.

Sphynx cat fell to the floor.

He looked at Project X and his pupils dilated.

“You... you can...”

Project X smiled and nodded. “Yes, I can see.”

Countless shadows pierced through Sphynx cat’s shadows and Project X left smiling.

As Project X left, in the darkness, there was a beep. In the piles of rubble, Sphynx cat’s phone had exited videoing mode due to insufficient power.

Chapter 799: Disappearance of Supercats (2)

Zhao Yao was stunned as he looked at his Book. Sphynx cat’s portion on the Book had turned grey, this has never happened before.

“What is going on?” Zhao Yao’s heart sank as he tried to add experience points for Sphynx cat. He looked at the row of words that appeared and fell silent.

He was silent then Zhao Yao looked up and wiped his eyes. “So that’s why...”

A distant light shone over him and Slaughter looked at Zhao Yao in surprise. “Look what I found?”

“A small bug?”

Slaughter thought to himself. “According to Project X, this guy is one of the weakest. Besides, there is no need to take his powers, I can just kill him. Looks like I am in luck.”

Slaughter raised his finger and a laser beam that was as thick as an arm shot towards Zhao Yao.

The high heat melted Zhao Yao’s flesh bit by bit, however, Zhao Yao stood still in his place and Ultra Rapid Regeneration healed his wounds constantly.

Slaughter laughed, “What a great target! I am a bit reluctant to kill you now.”

Zhao Yao looked at the data on the Book and chose to level up the Book.

The moment he leveled up the Book, he felt the like the veins in his body expanded. It was an indescribable feeling. It was not pain but the feeling of growth.

Bam! Zhao Yao’s muscles shrank and expanded uncontrollably and his knees fell to the ground. His hands hit the ground and cracked the floor into large pieces of rubble. His veins popped out and were trembling.

Slaughter laughed out loud. “Are you begging me? Even if you beg me, it’s useless!” He shot out the high energy laser beam that had shot down Doll.

The thick laser beam engulfed Zhao Yao completely and the floor, ceiling and pillars around him vaporized.

When Slaughter thought Zhao Yao was dead, a huge shadow walked out from the high energy laser beams. He walked nearer and nearer against the laser beam until he reached Slaughter.

“What is this?” Slaughter screamed, “How is this possible?!”

A large palm reached out the column and grabbed onto Slaughter’s head.

“You guys... you guys pissed me off.”

Bam! Slaughter’s body flew out like meteorite and crashed through several walls. At the end, he disappeared into the air.

Zhao Yao walked out and only his shirt was damaged. He only had pants left. His body was exposed. It looked like it had been sculpted to perfection. Looking at his body gave the impression of unimaginable powers.

“Project X!!!!!!”

Distorted waves that were visible to the eye came out of Zhao Yao’s mouth as he yelled. The waves turned into rumbling sound waves and spread out towards the darkness.

Mission: Kill

Mission Objective: Kill Project X

Reward: 50000 experience points

Mission Penalty: Nil

“No one replied? It is so huge in here?” Zhao Yao’s ears twitched as he took a deep breath. “Smell... Smell... Anyone of them will do...”

...

“What?” Bai Quan raised his head and asked in bewilderment. “Roly Poly? Did you hear something?”

He looked down at Roly Poly, who was in his arms. Roly Poly shook his head and started meowing.

Bai Quan was speechless. “Can you type? I can’t hear anything like this.”

Roly Poly pulled out his phone and typed. “Your hearing is much better than mine. Why are you asking me? Don’t stop! Go and look for Zhao Yao! It is so dark and scary here!”

Bai Quan stroked Roly Poly’s head and laughed. “It’s okay. I will protect you...”

Then, Bai Quan jerked around and looked towards the darkness. All the hair on his body stood up.

Roly Poly typed and asked, “What is it Bai Quan?”

“There is something coming over here.” Bai Quan said and couldn’t help but started trembling. “It is so strong, so strong, so strong, so strong... Before we even meet, I can feel like we can’t defeat him... It is terrifyingly strong.”

“Hey! Are you serious!” Roly Poly was anxious. “If you can’t defeat him then why are you still standing here! Run!”

Bai Quan nodded and squat down hurriedly. His thigh muscles contracted and then the floor under his leg started crumbling as he flew out like a cannon.

Roly Poly was in his arms and was blown by the wind til his face was contorted.

Bai Quan did not have time to care about this. The malice behind him was like a knife resting on his neck. The person in pursuit did not bother to cover up his evil intentions. Nor did he bother to hide. It was like a cat toying with a mouse.

When Roly Poly saw that Bai Quan was running faster and faster until he broke out in cold sweat, Roly Poly scratched Bai Quan’s chest crazily. Bai Quan stopped and asked, “What is it Roly Poly! If we don’t run, it’s going to be too late! Endure it!”

Roly Poly typed, “Can we even escape?”

Bai Quan frowned and looked at the black corridor in despair. “We probably can’t escape. I don’t think the distance between us increased. It is like someone is blowing at my neck constantly.”

“Then, let’s hide.” Roly Poly let out a solemn look. “I can make the both of us invisible, maybe...”

Bam!

Bai Quan disappeared after an explosion. There was only a deep black hole left. It seemed like something had smacked him away.

Roly Poly looked at this scene in shock. Then, he felt a paw press against his head.

“Child, what is your power?”

Bai Quan leap out from the black hole and attacked Project X viciously. However, Project X swept his tail and Bai Quan flew off again.

Project X continued to press onto Roly Poly’s head like nothing happened and licked Roly Poly’s face. “What a cute little male cat.”

Roly Poly was trembling and mastered his courage to say, “I... I don’t want to die. Can... can you don’t... Please...” Roly Poly’s tears rolled down his cheeks.

“Shh, I am just taking back my own stuff.” Project X said slowly. “Invisibility? Never mind, it’s better than nothing.”

“Zhao Yao!!”

Bai Quan crawled out from the hole and he saw Roly Poly on the floor meowing at him. Then, Roly Poly walked up and started licking his arm.

“Roly Poly!” Bai Quan looked at the cat in front of him in shock. His hands trembled as he stroke Roly Poly’s head. Roly Poly immediately cuddled against his palm.

Upon seeing this, Bai Quan was grief-stricken.

Chapter 800: Finding the cats

“Project X... is gone? He never bothered taking our lives.”

Bai Quan looked down at Roly Poly, whose intelligence and powers had been taken, Bai Quan was in great grief.

He hugged Roly Poly and walked away quickly.

“I have to find Boss.”

“If I find Boss, maybe there will be a way...”

...

Coffee was running down the never ending corridor. He was dragging along Lightning, who looked like a sea urchin.

In front of them, Matcha was sprinting and panting. His bag had been thrown onto the floor and he was completely out of breath. He looked like he was about to die.

“Run!” Coffee raged, “Run further! I thought you could run really well?”

He activated his gravity power and tripped Matcha. Matcha fell to the ground and stood up to move forward immediately.

Ha! Ha! Ha! Matcha was slowing down while he panted harder and harder. Then, a gravitational force grabbed his hind leg. No matter how hard he struggled, it was fruitless. He flipped over and laid on the floor with his tongue hanging out.

Coffee slowly hovered above Matcha and laughed coldly. “Not running anymore?”

Matcha was panting and shouting, “This is enough! If you want to kill me, just do it! Stop insulting me!”

Humph! Coffee slapped Matcha on the face. “What a tough cat. Not afraid of death? But, I am not going to kill you, if you...” Of course he could not kill the supercats, these supercats needed to be brought to Project X.

Bam! Matcha knelt onto the floor and looked at Coffee sincerely. “Grandpa! Please don’t kill me.”

Coffee started laughing loudly and stroked Matcha’s head. “Good boy.”

Then, Matcha turned and peed on Coffee.”Go and die sea urchin!” Then, he activated his Time Freeze in Coffee’s angry gaze.

In the still world, Matcha heaved a sigh of relief and then he ran towards his bag. He picked up his hammer and hammered Coffee again.

“Stupid cat!”

“Watch me hammer you to death!”

Matcha used all his strength to hammer Coffee.

When, time started flowing again, Coffee let a ear piercing yell and fell unconscious to the floor.

Matcha, heaved a sigh of relief and collapsed on the floor.

...

Meanwhile, Project X was invisible while he swept through the corridor like a cool breeze. Project X proceeded to his next target.

“The two closest cats to me are the two ragdoll cats?”

“Yeah, before that they had controlled my body and made me sleep,” He thought.

“It is such a troublesome power. I should just attack while I am invisible, knock them unconscious, and take their powers.”

As Project X was thinking, he halted and turned to look behind him.

“Coffee has failed? The orange cat’s power is...”

“Time freeze?”

Project X’s mouth curled up and he sped towards Matcha like lightning.

“I shall take back Time Freeze.”

“As for the Ragdoll cats... Is Shadow nearby?”

...

Elizabeth was panting as she laid on the floor motionless. She stuck her tongue out and her nose was red.

Catherine was by her side panting too. She kicked Elizabeth and said, “Hurry up, why did you stop?! We have to find the other cats and gather together.”

“I can’t run anymore...” Elizabeth was unhappy. “It is the summer and I have to wear such a thick coat to run around in thirty degrees Celsius. There isn’t even air con! No, I feel like I’m about to get a heat stroke.”

Catherine was in despair. “If you stay here you may be ambushed.”

“Whoever who wants to come can come.” Elizabeth was unhappy. “That’s fine. I can unleash my anger on them. I won’t run anymore.”

“This child!” Catherine looked at Elizabeth who was lying on the floor motionless and wanted to beat her up.

“Then, pluck some fur out. If you have less fur it would be cooler.”

“I don’t want to!” Elizabeth was shaking her head. “I will look ugly with too little fur.”

The two cats did not notice that underneath them, their shadows were expanding.

...

Zhao Yao was sniffing the air as he chose a fork in the road and continued to run. He would stop from time to time and try to identify the scent in the air.

After leveling up the Book, Zhao Yao had merged with Sphynx cat’s powers. Hence, now he had the powers of six cats. His strength, speed, vision, smell, and instincts, they had been strengthened to an incredible extent. He was even stronger than Sphynx cat.

Now, he was picking up on Slaughter’s scent and followed Slaughter in hopes of finding Project X.

Although the dimension and structure of this place was strange, he believed that if he found where Slaughter came from, he would be able to discover some things.

Then, his ears twitched and his gaze grew solemn. He slowed down and walked forward slowly.

After a turn, a huge space appeared in front of him.

It was a hall that was several hundred meters tall and thousands of meters wide. The walls around the hall was filled with many many exits that was like the one Zhao Yao had came from. They were deep and no one knew where they led to.

It was like a gigantic hive.

In the middle of the hall, a huge cage was placed there. In it were Dust Ball, Husky, Ares, and Lucifer.

In the other cage, there was Zhao Xue with ragged clothes, looking like refugee.

Outside the cage were several supercats patrolling. Evidently they were there to guard the supercats.

Zhao Yao looked carefully and realized that all these cats were the ones that had escaped from the supernatural jail. They were sent into this strange space like Zhao Yao and the rest.

“Ares and the others have been caught?” Zhao Yao frowned. “They still have their powers and intelligence, it means that when Project X’s cats caught them, they imprisoned them here for Project X to take their powers.”

“But, what happened to Zhao Xue?” Zhao Yao narrowed his eyes and what was thousands of meters away became clear. He saw the ragged clothes and saw that there were blood stains.

Upon seeing this, Zhao Yao understood. “It is because of the Ultra Rapid Regeneration that they can’t kill her, hence they captured her instead?”
