

Elon's P.O.V.

I am staring at Ewan as he tells me that the Council asked for our presence at a hearing tomorrow. I ask him why they want us there and he says "Silas and Hayden are getting a review on their sentence. The Council thinks we need to be there and I have to agree, it will be good to see if they have changed for the better.

Also if their sentence gets cut in half, I will be asked if they will be welcomed back in to the Pack." I look at him and shake my head, because I don't want them anywhere near me.

We still don't know where my Daughter is, the only thing we know for sure is that she broke the bond to the Pack and if it hadn't been for Ewan I would have lost my mind.

He keeps me busy, as do Harlan and Dario and the only good thing in my life right now is Tullia. Tullia has become a close friend, she is there when I need someone to talk to.

I was there for her when she got rejected by her Mate, a Warrior from a neighboring Pack. She had been devastated by it and for a while I feared that she would not survive.

Ewan pulls me from my thoughts when he says "Of course they are not welcome. They may not have known about their Mother's last plan, but they knew about all her other plans." I sigh in relief and he tells me to prepare for departure.

I am deep in thought as I walk back to the house and I don't see Tullia on the front porch until I am right in front of her. "Where the heck were you? I called out your name three times." She says as she steps to the side.

As I open the door I tell her about my conversation with Ewan and I can feel her becoming angry. "Tullia, they will not be coming back here. But Ewan is right, we need to know it if they get released early." I pull her in to my arms to calm her down.

As I hold her in my arms, I feel the same strange feeling I've been having for the last few months. I know something has changed between us, but I am not sure if I should act on it.

I don't want to scare away the only friend I have and I am not sure if she feels the same about me. "Elon, are you okay?" She asks softly.

I look in to her eyes and in that moment I decide to take a chance, I slowly lower my head to give her the chance to pull away. She keeps looking in to my eyes and as our lips touch a sigh escapes her.

I devour her lips and pull her closer to my body. I gently bite her lower lip and when she gasps I deepen the kiss, with my hands I grab her ass to lift her up. Her legs wrap around my waist and I push my rock-hard cock against her slit.

A moan escapes her lips and I walk her back against the wall, all the while I grind my hips towards her. My cock is pressing against her pussy harder and harder, soon we

are both breathing heavily and I break the kiss to look in to her eyes.

"Tullia, tell me to stop or you will be mine by morning." My Wolf growls and as I look in to her lust filled eyes, I know she will not stop me. She wants this as badly as I do and she starts grinding her hips.

I rip her clothes off and soon I am holding her naked in my arms. "This is going to be hard and fast, Baby." I grumble in to her ear and she pushes her hips forward again, while she whispers "Please."

I slide my left hand towards her pussy, the moment I run my finger through her wet slit she cries out and her pussy opens up to my probing fingers. They slide in and she feels so warm, wet and tight around my fingers.

My eyes drift to her breasts and I lower my head to suck a nipple in to my mouth and with the tip of my tongue I flick it before I gently bite down on it. I feel her juices running down my fingers as they keep sliding in and out of her.

I pick up the pace and she is moaning loudly, she keeps whispering "Please" as I slam my fingers in to her soaking wet pussy harder and harder. She is rolling her hips to meet the strokes of my fingers and as I bite down on her nipple once more, she shatters on my fingers.

"Elon" she screams as I push her over the edge and I love the look on her face as she comes on my fingers. I hold her close to me as she is catching her breath and I keep placing kisses all over her face and neck.

Once she has her breathing under control, I make my way up the stairs to my bedroom and I can't wait to sink my cock in to her, to make her mine in every sense of the word.

I gently place her on my bed and I quickly get rid of my clothes, her eyes widen as she stares at my cock. I grab the base of my shaft and start stroking it, slowly up and down.

She wets her lips and I almost lose control of my Wolf. "Baby, that is a dangerous thing to do, unless you want me to take you hard and fast." The moment I finish speaking I see a mischievous look in her eyes and suddenly I see her tongue running over her lips.

My Wolf pushes forward, he grabs her hips and pulls her towards the edge of the bed. I am able to push him back enough to keep most of the control, but I will take her hard and fast.

I let the head of my cock glide through her soaking wet slit, all the way to her clit. Remembering how her pussy felt around my fingers, my cock twitches and I realize that she is still a virgin.

But I know that I can't control myself anymore, I put my cock at her entrance and as I slowly push my cock in, her pussy spreads out around the thickness of my cock.

The slick walls of her pussy feel so good and I sink deeper in to her folds, I take it slow so she can get used to my cock. Then I feel the resistance of her hymen and I lean forward to kiss her, I deepen the kiss as I slam my

cock in to the hilt.

The moment I feel her body relaxing, I pull my cock out until only the head is still inside her and then I slam back in to her core. I keep slamming every inch of my cock back in to her pussy, over and over again.

It feels as if she getting tighter the more I slam in to her and the way her pussy walls grip my raging hard cock feels amazing. I start running circles on her clit with my thumb and her breathing becomes labored.

I put more pressure on her clit as I slam harder in to her and I hear her whisper "Please, make me come." I grab her clit between my thumb and index finger and pinch it harder with every thrust in to her core.

My balls tighten and my cock starts to twitch as I am nearing my orgasm, I lower my head to find her marking spot. I feel her lips in my neck and I know that we will both come hard as we mark each other.

The moment I feel her canines pierce through my skin, I slam my cock all the way in and come with a roar. As my cock shoots its load in to her, I bite down on her marking spot and make her come all over my cock.
