

Kaiden's P.O.V.

I watch Anna as I see the Moon rising to its highest point from the corner of my eyes. I see her eyes widen as her head snaps up to mine and I hear her whisper "Mate" as my Lycan growls "Mine."

The only thing I am aware of is the woman on the other side of the table and before she can say anything else I throw her over my shoulder, making a run for the room they assigned to me.

It takes me less than a minute to get to the room and as I put her on her feet I open the door. She looks up at me and I devour her mouth as I walk her backwards in to the room, kicking it closed with my foot.

Her hands hesitantly touch my back as I grab her hips and pull her close to my body, making sure she can feel my rock-hard cock. She moans as I push my hips forward and I almost lose control to my Lycan.

"You're mine." My Lycan growls and she shivers in my arms at his voice. I lift her in my arms and slowly walk over to the bed, I sit down on the bed with her straddling me.

"Tell me to stop if we do something you are not comfortable with, Beautiful." I whisper in her ear before I let my lips trail down her neck. I suck on the spot where she will soon bare my mark and she moans as I suck a little harder.

"Kaiden, Please." She whispers as she grinds her core on

my cock and I groan as my cock twitches in the confinement of my jeans. I slide her off my lap on to the bed as I kneel down between her legs.

I take her face in my hands and as I look in to her eyes I lock my lips with hers. I slide my tongue over her lower lip and she allows me entrance to her mouth, our tongues tangled together.

I let my hands glide up her back and as I run one hand down her front my other hand pulls the zipper on her dress down. I quickly remove the dress that is hiding the body of my Mate and as soon as the dress is gone I let my eyes roam over her body.

Anna lowers her eyes and head towards the floor and for a moment I feel her fear, but before I can say anything my Lycan pushes forward. "Look at me, Beautiful." He whispers in a low voice and slowly she lifts her face and eyes towards us.

"We will never hurt you, we will protect you, keep you safe. We will love you with everything we are, don't ever doubt that. Please, don't ever look away from us." He whispers as he cups her face in his hands.

He releases control back to me and I place my head to her forehead just breathing in her scent, giving her time to relax. I see her hands move towards my body and I sit very still, because I don't want to scare her.

She tugs at the hem of my shirt and I let her take it off as she pulls it over my head. Her hands slide down my body towards the waistband of my jeans and I feel my cock

growing harder in anticipation.

She unbuttons my jeans as I slowly place her on her feet, I lift my hips so she can remove my jeans and boxers. She gasps as my huge cock springs free from its confinement.

Once my clothes are out of the way I put her back on my lap and I slowly kiss her lips, asking for entrance as I run my tongue over her lower lip. Our hands are roaming the other's body as I deepen the kiss and I know I will never get enough of my Mate.

Anna moans as I cup her breasts while running circles around her nipples with my thumbs and she pushes her core down on my cock, which twitches at the contact. "Fuck." I mutter as she moves her hips again.

I slowly flip us so she is on her back and I am kneeling between her legs, sniffing the scent of her arousal. I lean forward to take one of her nipples in my mouth, while my hand caresses the other one.

My other hand is gliding down her stomach as I pinch her nipple and I love the sound of her breathy moan that escapes her mouth. She tries to close her legs as my hand is reaching her core, but with me between her legs that is not an option.

My mouth starts to kiss down her chest and stomach as I run a finger down her soaking, wet clit. I gently push my finger against her entrance as my mouth reaches her core.

Anna's P.O.V.

I feel his finger at my entrance as he places kisses on my stomach and I hold my breath as his lips reach my core, I feel the heat in my body building higher as I anticipate his actions.

I cry out the second his lips suck on my clit and I feel like I am going to explode soon, he keeps sucking as he slowly pushes his finger in to my pussy. He pulls his finger out as he gently bites my clit, my hips buck up at their own accord and he pushes two fingers hard in to me.

I moan loudly as his fingers start moving in and out of me, he picks up the pace a little more as he keeps sucking and licking my clit. "Kaiden, harder." I moan and he slams his fingers in to me and he picks up the pace even further as I start to breath heavily.

I feel the heat consuming my body and it is as if Kaiden knows exactly what I need, because he starts pounding my pussy as he is biting on my clit continuously. I scream his name as I come undone at his ministrations and as I catch my breath he slows down his actions.

He pushes me further on to the bed as soon as I get my breathing under control, he crawls on top of me as he spreads my legs wide open and he lines up his cock with my soaking wet pussy.

I put my hand at the back of his neck to pull him towards me as he slowly pushes his cock in to my core, making me cry out in pleasure. He pulls out slowly, but I don't

want slow, I want him to make me come again.

I never thought it could feel this good, but I had been in for a surprise as he made me come with his fingers and mouth. As he pushes his cock back in to me my hips buck up, it feels so damn good and it all he needs to lose control.

He puts his arms under my knees, spreading me even wider as he pounds in to my pussy, pumping harder and deeper. His head lowers towards my breast and I love the feeling as he gently pulls on my nipple with his teeth.

The harder he pounds in to me the wetter my pussy becomes and I know that I am close to coming again. He seems to feel it as well, because he slows down and I whimper at his actions.

Only to start moaning again as his lips trail kisses up to my collarbone towards the crook of my neck and I know what will happen next. I put my face in his neck, trailing kisses until I reach the spot where I will mark him.

We pierce the other's skin at the same time and I come hard on his cock, he slams in to me a few more times before he shoots his load deep in to my pussy. I lick his mark clean as he cleans mine and we slowly steady our breathing.

He slowly pulls out of me, laying down next to me and he pulls me closer to him. I place my arm over his stomach and my head on his chest, closing my eyes with a smile on my face.

"I love you, Anna." Is the last thing I hear before I lose my battle with sleep.
