

Ancient 1511

Chapter 1511 Sound transmission chaos in the sea of stars

When Ye Feng and Bai Susu walked out of the underground cave, they saw that there was not a single flying demon in the entire demon cave under the abyss.

Bai Susu's eyes were surprised and she couldn't help but said: "Maybe they were all killed by the Taixu Fire Emperor."

Ye Feng shook his head and said: "There is no smell of blood at all. It is impossible for all the millions of flying demons to be killed. I prefer that those millions of flying demons were captured by Taixu Fire Emperor." "

Bai Susu immediately couldn't help but asked in surprise: "Why did Taixu Fire Emperor capture so many flying demons?"

Ye Feng's tone had a hint of inexplicable meaning, and he said: "Sister Su Su, you have to know that the current Taixu Fire Emperor is no longer the human emperor of the past, but an alternative existence, an immortal being. Rigor mortis, do you think his values are still the same as before?"

When Bai Susu heard what Ye Feng said, her eyes flashed slightly and she said: "Brother Ye Feng, you mean that the Taixu Fire Emperor captured millions of flying demons, maybe to help him establish his own great power. ?"

Ye Feng nodded slightly and said: "That should be the case. I dare to conclude that there will be no fluctuations in the northern star field for the time being, but once the Taixu Fire Emperor silently accumulates enough power, he will definitely tell the world. By that time, There will be a big shake in the entire northern star field."

Bai Susu said loudly: "In any case, this is nothing we can worry about. Let's return to the Northern Divine Seminary as soon as possible. Do we want to inform the upper echelon of the seminary about this news?"

Ye Feng shook his head and said: "Needless to say, we are involved as soon as we say it, so we can just pretend that we don't know everything."

"That's right."

Bai Susu nodded.

Uh-huh!

Uh-huh!

The two of them jumped and soon disappeared under the abyss.

They leapt toward the exit of the hell battlefield.

Along the way, what shocked the two of them was that the entire hell battlefield was empty.

Even the powerful darkness before

The monarch's breath has disappeared.

It seems that Taixu Fire Emperor has captured all these hell creatures and used them as his coolies.

After all, the hell creatures are all naturally strong and good slaves who do hard work and build buildings.

At this time, Ye Feng and Bai Susu didn't say anything and flew directly out of the hell battlefield.

The two passed through the black hole and came to the starry sky area outside.

"Ye Feng!"

"Clan leader!"

Behind a meteorite not far away, Bai Xiaohua's petite figure immediately flickered over.

She was very happy and said: "You all came out safely, great! I have been waiting outside for a long time, and I am almost worried about you."

Bai Susu touched Bai Xiaohua's head and said with a smile: "If Xiaohua hadn't received my transmission note this time, I'm afraid I would have really fallen into that ferocious hell battlefield this time."

Bai Xiaohua's eyes looked a little horrified at this time and said: "By the way, I saw a very shocking scene just now. An unparalleled strong man tied millions or even tens of millions of hell demons with countless iron chains. , flew out of the black hole and disappeared deep into the starry sky in the east. "

"East?"

Ye Feng looked in that direction and murmured: "That's the direction of the Chaos Star Sea. It seems that the Taixu Fire Emperor is preparing to quietly develop and establish his own power in a chaotic place like the Chaos Star Sea where no one cares."

Ye Feng thought in his heart, and then suddenly took out a transmission talisman and said: "Brother Shen, if you meet a person who calls himself Taixu Fire Emperor, you must not be hostile to him. You must make friends with him. Well, even surrender to him, that's a scary ancient figure, believe me, that's right."

At this time, Ye Feng finished speaking and immediately threw out the transmission talisman in his hand.

Uh-huh!

The transmission note instantly penetrated the starry sky and flew towards the chaotic star sea.

The person Ye Feng notified at this time was naturally Chairman Shen, the richest man in Luan Xinghai whom Ye Feng had met before when he was on a mission.

Ye Feng still had a good impression of President Shen.

Ye Feng said these words at this time, naturally to help President Shen secretly.

After all, Ye Feng felt that maybe he would come to Chaos Star Sea in the future.

Behind the behemoth of the Northern Divine Academy, there are many major silver forces. In addition to Shangguan Haotian's Shangguan family, there are also several other major silver forces, all of which are very powerful.

Ye Feng thought that if one day he might offend these big silver forces and they pressured him in public, he would finally have a way out in Chaotic Star Sea.

Ye Feng understands the principle behind the cunning rabbit's three burrows very well.

Just as you can't put eggs in one basket, if one basket is broken, all the eggs will be broken.

"Let's go."

At this time, after Ye Feng threw out the transmission talisman, he, Bai Susu, and Bai Xiaohua flew towards the Northern Divine Academy.

...

Three days later, Ye Feng, Bai Susu and Bai Xiaohua returned to the Northern Divine Academy.

Bai Susu told Ye Feng again to take part in the inner court trial as soon as possible. After becoming a disciple of the inner court, Bai Susu left first and went back to Sunu Mountain.

Ye Feng and Bai Xiaohua returned to the No. 6 training tower they shared.

Ye Feng was going to go back to his room to practice and gain a good understanding of what he had gained from going to the hell battlefield.

"Ye Feng!"

But before Ye Feng walked into his room, Bai Xiaohua suddenly called him.

Ye Feng turned around and looked at the graceful figure not far away. He couldn't help but asked with some doubts: "Xiao Hua, what's wrong?"

Bai Xiao drew this

Shi Xuebai's face seemed a little nervous as he said, "This time, thank you Ye Feng for saving the clan leader."

Ye Feng laughed and said: "I thought you were going to say something. Sister Su Su and I are like siblings. If Sister Su Su is in trouble, I will save her myself. You don't need to say thank you, it seems too intrusive. "

Bai Xiaohua suddenly continued: "Ye Feng, you...do you have anyone you like?"

Ye Feng couldn't help but froze when he heard this, and said, "What do you mean? You want to introduce someone to me?"

"No no no."

Bai Xiaohua immediately shook his head, his face slightly red, and said: "What I mean is... Oh, I'm just asking. If you don't want to answer, forget it."

After saying that, Bai Xiaohua immediately stamped his feet, turned around and trotted away.

Ye Feng looked at the disappearing figure and couldn't help scratching his head, "What happened to Xiao Hua?"

After saying that, Ye Feng shook his head, walked into his room, and closed the door.

In the room, Ye Feng sat cross-legged and began to comprehend the various experiences and fighting experiences of going to the hell battlefield.

"Buzz!"

At this time, Ye Feng took out a pitch-black halberd. On the halberd, there were also mysterious lines of hell clan spells engraved on it.

This is one of Ye Feng's biggest gains from this trip. The Divine Demon Halberd is a treasure handed down from the ancestor of a flying demon king.

This kind of euphoria, which is as heavy as a mountain, is suitable for Ye Feng's powerful physique. In Ye Feng's hands, it can burst out with terrifying brute force, which is in line with Ye Feng's martial arts fighting skills.

"By the way, it's better to hurry up and continue to understand the secret technique of the hell tribe's clones. At present, I can only separate two clones. It's too bad. Continue to understand!"

At this time, Ye Feng withdrew the God and Demon Halberd, and then began to activate the soul gem, activate his own power of demon comprehension, and began to continuously analyze and understand the secrets of the hell clan's clone secrets.

Suddenly, clones that were exactly the same as Ye Feng appeared in the room one after another, and the scene looked very strange.

Chapter 1512 The Real Hell

For half a month, Ye Feng stayed in his room practicing the hell clan's secret technique of clone.

This secret technique of avatar is very useful and can be very confusing to the enemy.

"Clone!"

Suddenly at this moment, Ye Feng gave a cold shout.

Uh-huh! Uh-huh! Uh-huh! Uh-huh...

Eight clones immediately appeared around him. .??.

These eight clones, whether in appearance, demeanor, or aura of cultivation, are all exactly the same as Ye Feng's original self, and no deviation can be seen at all.

"Although the other eight clones do not have any attack power, the cultivation aura, demeanor, etc. displayed on the surface are exactly the same as my own. This is enough to confuse the opponent. It is not only a good means of offensive and sneak attacks, but also It's a good way to escape."

Ye Feng thought of a scene at this time.

That is, if you encounter a very powerful enemy in the future and have no choice but to escape, then you will directly separate into eight clones, together with the original body, a total of nine identical selves, and run away in nine directions at the same time, fearing that the enemy There is no way to tell which one is the real me.

Ye Feng thought to himself, and then stood up in the room.

After mastering the hell clan's secret technique of cloning, Ye Feng became more confident in the inner court trial.

Even if Shangguan Haotian used some shameful means to harm himself in the inner court trial, Ye Feng was no longer afraid.

"Uh-huh!"

At this moment, a transmission note flew from outside the No. 6 training tower and flew directly outside Ye Feng's room.

"Bang! Bang! Bang..."

The door of Ye Feng's room suddenly sounded like it was hit.

"Who?"

Ye Feng's eyes moved, and he immediately rushed to the door and opened the door.

But the next moment, he saw a transmission note floating outside the door.

Obviously, the knock on the door just now was the door that this transmission note collided with.

"Uh-huh!"

Ye Feng stretched out his hand, pinched the transmission note floating in front of him, and began to listen.

It came out immediately inside

An old voice said: "All qualified disciples of the outer court are asked to gather at the White Jade Square outside the Dengtian Palace as soon as possible. Three days after the inner court trial, we will set off and enter the hell battlefield. Through the junction of the hell battlefield, we will go to the real hell interface. Trial."

The real hell interface?

When Ye Feng heard the elder's voice in the transmission notes, he couldn't help but his expression changed slightly.

Unexpectedly, this time the inner court trial would be chosen directly in the real hell interface.

The Hell Realm is a high-end interface that can rival the Ancient Dragon Realm, the Heavenly Demon Realm, the Immortal Realm, etc.

But Ye Feng knew that this was not directed at him alone.

All the disciples of the outer court who participated in this trial of the inner court, like me, will enter the hell realm.

"It may be a remote place in the hell world. It is impossible to test directly in the central area of the hell world. In the central area of the hell world, there are countless powerful and terrifying lords of hell, gods of demons, etc., even if the North The most powerful dean of the Domain Divine Academy probably wouldn't dare to set foot there easily."

After Ye Feng murmured, he held the transmission note and walked out of the No. 6 training tower.

Soon Ye Feng passed through the layers of buildings and came to the White Jade Square outside the Dengtian Palace.

At this time, many people were already standing densely in the entire huge white jade square.

At a glance, Ye Feng saw that there were probably tens of thousands of disciples in the outer courtyard, and most of them were at the tenth level of the Broken Realm.

There are also dozens of disciples whose cultivation aura is very powerful. Like Ye Feng, they are in the realm of heaven and human.

It has to be said that the background of the Northern Divine Academy is very terrifying.

But even so, Ye Feng's current level of cultivation at the third level of Heaven and Human Realm is already considered top-notch among the tens of thousands of people who participated in this trial.

"Tap tap tap..."

Ye Feng walked to a corner of the White Jade Square without revealing his powerful cultivation aura.

Instead, he chose to hide himself silently.

After all, in the inner court trial

Before, being too ostentatious was not a good thing.

I waited for three days and three nights.

A dozen or so powerful inner dean elders finally walked out of the Dengtian Hall.

Most of the cultivation levels of these dozen inner dean elders are at the tenth level of the Heavenly Realm and the Great Perfection. .??.

Even the cultivation aura of the inner dean elders standing in the middle has surpassed the realm of gods and humans.

Astonishingly, he is a super master at the level of the God Realm above the Heavenly Realm!

The dozen or so inner dean elders were very powerful. The moment they appeared, the aura and pressure of the dozen or so people overshadowed the aura of the nearly 100,000 disciples on the field.

The inner dean elder standing in the middle, carrying a dark ancient sword on his back, is a powerful person in the divine realm, unfathomable.

At this time, he spoke up and said: "Three days have passed, and the disciples of the outer courtyard who have not come yet are disqualified from participating in this trial of the inner courtyard."

After finishing speaking, the inner dean elder who was carrying a dark ancient sword suddenly stretched out his hand.

Wow!

A huge palace immediately appeared in his palm.

"boom!"

The palace suddenly flew high into the sky and turned into a palace that was a thousand feet tall. It was very majestic and majestic, giving people an extremely strong visual impact.

The elder of the divine realm who carried the dark ancient sword on his back said: "All disciples who participated in this trial in the inner courtyard, enter the Chaotian Palace immediately, and I will take you to the trial place."

"Yes, elder!"

"Yes, elder!"

"..."

At this time, all the disciples were excited and yelled.

They were very excited. If they could pass this inner court trial, they would become more distinguished inner court disciples.

As long as you become a disciple of the inner courtyard, you will not only be able to enjoy more cultivation resources from the upper level of the seminary every month, but you will also be able to choose a place of residence that is exclusive to you in the base camp of the northern region seminary where every inch of land is precious, and you can move it around. When you come to the mountain, you can also spend a lot of money to build palaces, pavilions, etc., that's all.

Uh-huh! Uh-huh! Uh-huh!

\u003c

br\u003e At this time, the disciples from the outer courtyard flew towards the huge palace high in the sky.

Ye Feng also jumped and flew into the huge palace.

There are also many elders from outside the palace, dozens of them, who seem to be leading the team.

"Huh? Ye Feng? It's you!"

Just when Ye Feng entered the palace, a voice that seemed to be joking came from inside.

Ye Feng looked over and happened to see a familiar figure.

It turned out to be Elder Mo!

This Elder Mo is the scoundrel of the Shangguan family who tried to bring Shangguan Haotian and Bai Susu together before. He has a cultivation level of half a step to the heavenly realm.

When Ye Feng took over the mission of the temple in the side hall of Dengtian Temple, Elder Mo felt sorry for him. If an elder from Dengtian Temple hadn't stopped him at that time, I'm afraid Ye Feng would have been suppressed on the spot by Elder Mo. .

Previously, in Ye Feng's eyes, elders like Elder Mo, who were half-stepping into the heavenly realm, were very powerful and extremely powerful masters.

But now, Ye Feng treats him like an ant.

But Elder Mo didn't know that Ye Feng was already very strong now.

In Elder Mo's eyes, Ye Feng is still the weak outer courtyard disciple.

So at this moment, Elder Mo walked towards Ye Feng with a trace of teasing in his eyes, his expression was like a cat playing with a mouse, he spoke condescendingly: "Boy, we meet again, this time you are very unlucky to meet this elder, and I will take good care of you during the inner trial."

Elder Mo said the word "take care of" in a strong voice. Apparently Elder Mo wanted to teach Ye Feng a lesson in the inner court trial.

After Elder Mo finished speaking at this time, he was eager to see the fear in Ye Feng's eyes.

But I'm afraid he won't be able to see it anymore.

Because Ye Feng's face was completely calm at this time, there was no so-called fear at all, but he smiled indifferently and said: "Elder Mo, if you have the guts, come and trouble me. If you don't come, then you have nothing to gain." "

"you.....!"

When Elder Mo heard what Ye Feng said, he immediately turned pale with anger.

Chapter 1513 Arrival

Seeing Ye Feng's calm look at this moment, Elder Mo was very angry.

But he doesn't dare to take action now.

Of course it wasn't because he was aware of Ye Feng's true cultivation.

It's because there are other elders supervising the palace at this time.

In the public setting of the Northern Territory Seminary, he is still very fair.

No matter how powerful the elder is, he cannot openly bully his disciples. ??

Elder Mo's expression was gloomy, he stared at Ye Feng fiercely, and said: "Boy, you have offended Master Shangguan Haotian, you are definitely dead, but before you die, this elder still won the trial in the inner courtyard. I will teach you a lesson and let this elder vent your anger."

At this time, Elder Mo's words were full of huge threats.

When Ye Feng heard this, his eyes were indifferent, his expression did not waver at all, and he walked directly towards the other side of the palace, not bothering to pay attention to Elder Mo's so-called threat.

After all, in Ye Feng's eyes now, a Half-step Heavenly Realm elder like Elder Mo is just a clown.

If Elder Mo dares to cause trouble during the inner court trial, he will be the first to die.

"snort!"

Seeing Ye Feng ignore him and leave, Elder Mo's expression became even more ferocious and cold.

But in the end, he just snorted coldly, stared at Ye Feng's back fiercely, turned and left.

In this inner court trial, each team of outer court disciples will be led by an ordinary elder.

Because the place where this inner court trial takes place is the real hell realm.

Although it is only a remote corner of the vast interface of hell, it is still a huge risk.

Therefore, the upper level of the seminary sent ordinary elders such as Elder Mo to help these outer courtyard disciples lead the team.

In addition, the elder of the inner courtyard who was carrying the dark ancient sword and a strong man in the divine realm will also follow everyone to prevent the dark creatures of the hell tribe from the strongest level from appearing in the hell world.

Although this time there is a huge risk, if the trial can be ended perfectly, the group of outer court disciples who have gone through the baptism of hell will usher in incredible transformation.

At this time, many outer courtyard disciples were flying towards the palace in the sky one by one.

The god-level elder carrying the pitch-black ancient sword was chatting with a dozen other enigmatic inner-dean elders around him.

"Elder Black Sword, it is said that this time the upper levels of the temple have temporarily decided to enter the hell realm for a trial. They want to go to such a dangerous high-level interface, where dark creatures live. I don't know what the upper levels of the temple are thinking. If In a crisis, these disciples may be wiped out

No ah. "

At this time, someone among the dozen inner dean elders spoke up, with a tone that seemed to contain a hint of complaint.

The elder who was carrying the black ancient sword, the elder of the black sword, looked a little solemn at this time and said: "Because the upper level of the seminary invited a great fortune teller to help our seminary estimate the future world trend, the result was that the seminary failed. The upper echelons are shocked that the crisis of the Hades era seems to be coming again. By then, not to mention our entire northern star field, but also our entire human race's universe, will be affected. Maybe our entire era will have to experience it again. A dark turmoil in the ancient times."

"What?"

"Senior Brother Black Sword, do you really mean what you said?"

"Did the dean say it himself?"

At this time, after hearing what Elder Black Sword said, the expressions of all the other elders changed drastically.

What can make the expressions of these tenth-level heavenly beings and even the strong ones in the divine realm change, is naturally the seriousness of these words.

Elder Black Sword nodded slightly at this time and said: "That great fortune teller comes from the most prosperous and vast Central Star Territory. His prediction should be correct. It is said that many major forces in the Central Star Territory are already actively planning and preparing for war. , as the support of the human race in the entire Northern Star Territory, our Northern Divine Academy naturally needs to prepare in advance. No matter what the future destiny is, we need to be fully prepared, so now our entire Divine Academy has more and more requirements for disciples. Gao, even did not hesitate to drag all these top outer court disciples to the hell world for trial, just to hone the real elites in the blood and fire. If there can be a few, even a peerless genius Hengkong If he is born as stunningly talented as Baili Piaoxue in our Northern Divine Academy, then the upper levels of the academy will be relieved. "

"A hundred miles of snow falling?"

When a group of other elders heard this, they couldn't help but shake their heads and said: "A peerless genius like Baili Piaoxue is probably rare to come across in ten thousand years. Now in our entire Northern Divine Monastery, we can catch up to Baili Piaoxue in terms of cultivation qualifications." Piaoxue, the chief disciple, is probably the only one secretly cultivated by the few great silver powers behind our Northern Divine Academy."

Elder Heijian smiled slightly and said: "Not only can peerless geniuses be born from super powerful forces, real dragons and phoenixes can also fly out from poor families. The Bai Susu in the inner courtyard seems to be the reincarnation of a great figure in the fairy world, the 'Lord of Judgment' She will probably stand shoulder to shoulder with Baili Piaoxue in the future and become a pillar of our Northern Territory Seminary."

...

Just when a group of more than a dozen inner dean elders were discussing secretly.

The huge palace released by Elder Black Sword was already filled with disciples from the outer courtyard.

Down below, the white jade square in front of the Dengtian Palace is now deserted.

"Set off!"

Elder Black Sword shouted loudly and stretched out his hand. The hand instantly grew in size in the sky and became the palm of a giant, covering more than a thousand miles.

Buzz!

Elder Black Sword grabbed the entire majestic palace, and with a dozen other elders from the inner circle around him, he rushed directly out of the floating continent where the Northern Temple was located, and flew towards a certain direction in the starry sky.

That direction was the hell battlefield where Ye Feng went in to rescue Bai Susu.

If you want to enter the real hell realm, you must pass through the hell battlefield, the junction of the northern star field and the hell realm.

When a group of strong men entered the hell battlefield, they all looked surprised. ??

Because in the entire hell battlefield, although the demonic energy was soaring into the sky, there was not a single hell clan left.

"what happened?"

"Could it be that a group of hell demons are hibernating underground?"

Many disciples and even elders couldn't help but talk about it.

Only Ye Feng, who was standing in a corner of the palace, knew what was going on at this moment.

However, he remained calm, closed his eyes, and silently operated the technique, without wasting any time to practice.

The huge palace shuttled across the vast land of the Hell Battlefield, and finally came to the end of the Hell Battlefield.

Ye Feng also opened his eyes at this moment and looked outside.

Ye Feng did not reach the real depths of the hell battlefield last time.

At this time, at the end of the hell battlefield ahead, there was a huge dark whirlpool, which looked like countless black holes spinning rapidly. It was as black as ink and looked very scary and scary.

"boom!"

But at this time, Elder Black Sword and a group of more than a dozen inner elders showed no fear and rushed directly into the dark vortex with the palace containing hundreds of thousands of disciples and hundreds of ordinary elders.

Buzz!

In the next moment, the space changes.

Everyone saw that they had arrived at a vast and vast land.

As far as the eye can see, the sky is dark and the earth is dark, and the corroding air of hell is surging. At the end of the earth are endless black mountains, with all kinds of strange black plants growing there, which look very strange.

This is the real hell!

Many people inexplicably felt a sense of boundless majesty the moment they arrived.

The power of the interface is pressing on himself.

Obviously, the will of the interface in the hell world is the will of hell, and it is very repulsive to outsiders like the Northern Divine Academy.

But this will of hell seems to have no subjective thoughts and will not directly obliterate everyone. It is just a natural rejection.

The corrosive air of hell is surging everywhere.

Invisibly rejecting the will of hell that exerts pressure.

This undoubtedly makes this inner court trial even more difficult.

And what worries a group of disciples the most is that they are afraid that before the trial is over, the divine crystals, elixirs, spiritual stones, etc. used to replenish their mana and energy will be exhausted.

Because other races cannot absorb the energy in the aura of hell at all, and the aura of hell is very corrosive. Instead, these human disciples need to expend their energy to resist it.

Even a group of inner dean elders, who had descended into the real hell world at this moment, were illuminated by circles of protective divine light, resisting the terrifying corrosive air of hell.

"Is this the real hell? What a terrible feeling!"

"I've only heard that evil people go to hell after death, but I didn't expect that this time I actually went to hell myself."

"We should only come to a corner of the vast interface of the hell world, but there must be powerful dark creatures of the hell clan. I don't know if we can persist until the end of the trial."

...

At this time, the disciples of the outer courtyard in the palace, although they are all the top beings in the outer courtyard, can't help but feel a little scared when they look at the vast and endless dark land.

Ye Feng's eyes were extremely bright, because of his own skills, he could swallow the huge and rich hell energy as much as he wanted.

"But I have to find a way to leave this group, otherwise I won't be able to show off some of my skills."

Ye Feng thought secretly in his heart.

He knew that this time in the inner court trial, the teams would be divided and ordinary elders would lead the teams to ensure the safety of the entire team.

Ye Feng naturally did not want to follow the team.

Because in the eyes of other disciples and elders, the terrifying world of hell is, in Ye Feng's eyes, a natural paradise where he can be as unbridled as he wants.

"By endlessly killing the dark creatures of the hell clan, I can get enough energy to transform my body and martial arts! If I encounter evil spirits from hell, I can use the Soul Emperor Seal to kill and devour them, which will even increase my soul power. !"

Just as the disciples from the outer courtyard walked out of the palace with trembling bodies, Ye Feng was also trembling all over, but the trembling was not fear, but the uncontrollable desire to kill and excitement!

Chapter 1514 It's my turn

"Click..."

As the palace gate opened, the outer disciples of the Northern Divine Seminary jumped down one after another.

Uh-huh!

Ye Feng jumped up, flew out of the palace, and landed on the ground.

"Crunch!"

Stepping on the hard and dark ground, Ye Feng immediately felt a huge interface power surging throughout the entire earth.

"That is the pulse of the earth in the hell world. It can also be called the will and power of the interface." Xiaoyao's voice sounded in Ye Feng's mind.

Ye Feng nodded slightly. He did feel a very strong majestic energy and will, surging throughout the hell world.

Ordinary people cannot detect this energy at all, but Ye Feng, who has a powerful soul, can clearly feel it, which is very strange.

While Ye Feng was thinking secretly, ordinary elders were already choosing their own team members.

Most of these ordinary elders are half-step into the realm of heaven and human beings.

There are also a small number of people who are truly in the heaven-human realm.

Therefore, under the leadership of these ordinary elders, the safety of the entire outer courtyard disciples participating in this trial will be greatly improved.

"Ye Feng, I choose you to join this elder's team."

Suddenly a voice sounded.

It was Elder Mo.

Elder Mo stared at Ye Feng with a hint of sneer on his face.

Obviously, he deliberately chose Ye Feng.

Because when the time comes, Elder Mo feels that he can torture Ye Feng to death at will.

Ye Feng's eyes were stunned. He didn't expect that Elder Mo would take the initiative to choose him.

A plan suddenly appeared in Ye Feng's mind.

Ye Feng smiled, looked at Elder Mo, and said, "Okay, since Elder Mo invited me to join your team, I have to give him face."

At this time, many disciples around saw this scene, and their eyes showed surprise.

They had seen it with their own eyes before. In the palace, Ye Feng and Elder Mo seemed to be in tit-for-tat.

But he didn't expect that Ye Feng would really dare to agree to Elder Mo's invitation.

Doesn't this mean seeking death?

"Maybe he is an arrogant boy. Newborn calves are not afraid of tigers. It is normal."

Many disciples couldn't help but shake their heads and smile.

They seemed to have expected that Ye Feng would be treated badly by Elder Mo next.

At this moment, as the disciples were assigned one by one, everyone set off following their leader.

Most of the disciples in Elder Mo's team that Ye Feng belongs to are not strong in strength and cultivation, and they are basically at the ninth or tenth level of the Broken Realm.

After all, Elder Mo is only half-stepped into the Heavenly Realm. Those truly powerful top disciples will naturally not choose Elder Mo's team.

When Ye Feng chose Elder Mo's team, in addition to Elder Mo's "invitation", there was also the fact that Ye Feng wanted to take this opportunity to leave the group and the team. He wanted to go on a trial alone and hunt down the hell tribe.

The rules of this inner court trial are very simple. The major disciples are not required to hunt down many hell clans, as long as they can survive in this dangerous hell world for three months.

But for Ye Feng, he doesn't just want to survive, he also wants to hunt down the hell clan and devour the power of the hell clan.

After walking for several days, the team came to a remote place.

At this point the entire team suddenly stopped.

The hundreds of disciples chosen by Elder Mo all looked at Ye Feng in the team, with evil smiles on their faces.

Ye Feng looked calm and said, "What do you mean?"

Ye Feng's original plan was to ask the elder to go out to a secret place for a duel, kill him, and then

Walk away.

But now it seems that I don't have to take the initiative.

In this desolate area, Elder Mo stared at Ye Feng with a hint of sneer in his eyes and said sarcastically: "Ye Feng, you don't understand at all how serious the consequences will be if you offend this elder. "

Ye Feng smiled slightly, without any fear on his face, and just said: "Elder Mo, I would like to see how serious the consequences are."

"court death."

Elder Mo smiled coldly, and then said to the hundreds of disciples around him: "I have just informed you that this boy named Ye Feng is a thorn in my side and a thorn in my flesh. This elder thinks that this Ye Feng is very Not happy, now each of you go up and give him a sword. This elder promises to give you some precious cultivation resources, and even takes the initiative to lead you to find various heavenly materials and earthly treasures in this corner of the hell realm. Although the hell realm grows The treasures of heaven and earth cannot be used normally by us human warriors, but they can be taken out and sold to the alchemists and weapon refiners in the Northern Territory Temple at a high price, which is of great value. "

When Elder Mo finished speaking, hundreds of disciples from the outer courtyard couldn't help but their eyes lit up and they became extremely excited.

Elder Mo stared condescendingly at Ye Feng across from him, as if looking at a clown, as if he was saying: "Look, I am in control of everything here now. If you go against me, you will only end up dead." "

Elder Mo had a deep mockery on his face at this time, and he immediately said: "Everyone, hurry up and take action. I want to see with my own eyes how this kid died in pain in front of my eyes."

Uh-huh!

A disciple of the eighth level of the Broken Realm, holding a golden spear in his hand, immediately stepped out from the surrounding crowd and said as if asking for credit: "Dear Elder Mo, I, Mu Qin, Be the first to take action and serve as a guide for other senior brothers and sisters."

The seemingly elegant words were spoken with a bloody and cold murderous intent.

\u003e

Uh-huh!

This disciple who called himself Mu Qin immediately charged towards Ye Feng.

The hundreds of disciples around, all disciples of Elder Mo's camp, looked at Ye Feng at this moment. There was no pity or sympathy in their eyes, and some were just joking. It seemed that they saw a weak junior brother being tortured to death, which made them feel a little... A strange feeling of pleasure and excitement.

"Boy, let me pierce one of your arms first, and leave the other parts to you, brothers and sisters, for your enjoyment."

Mu Qin smiled coldly, holding the golden spear in his hand, and flashed in front of Ye Feng.

The golden spear, with its extremely sharp tip, pierced one of Ye Feng's arms.

"Hey, boy, are you so frightened that you just stand there and don't move."

Seeing that Ye Feng was motionless, Mu Qin's eyes immediately revealed a sinister smile.

"when!"

But at the next moment, the golden spear pierced Ye Feng's arm, as if it were pierced on a copper wall and an iron wall, and it made a huge and harsh roar, extremely loud.

The golden spear pierced a piece of clothing on Ye Feng's arm, but did not leave even a small mark on Ye Feng's skin.

"What?"

Mu Qin instantly cried out in horror: "My spear is a seventh-grade Taoist god-level magic weapon! It can severely damage even a half-step Heavenly Realm expert, let alone a new disciple like you in the outer courtyard!"

Ye Feng suddenly grinned and said, "Are you done? It's my turn."

boom!

Ye Feng flicked his finger, and a huge force burst out instantly. The golden spear in Mu Qin's hand instantly shattered inch by inch, turning into golden fragments all over the sky.

"boom!"

When Ye Feng punched out again, Mu Qin didn't even have time to let out a miserable howl. His whole body was shattered and turned into a mist of blood.

Chapter 1515 Beyond imagination

"What?"

"Junior Brother Mu was directly killed by that Ye Feng's punch?"

"How can this be?"

At this moment, all the hundreds of disciples around him exclaimed.

They never thought that this junior brother in black, who looked ordinary, could be so powerful.

One punch killed an eighth-level master of the Broken Realm.

Moreover, it was directly blasted into blood mist, and the scene was very bloody and terrifying.

"I'm going to teach this kid a lesson!"

An unusually burly disciple came out, holding a huge ax in his hand that looked like a huge ax that opened the sky. The cultivation aura exuding from his body was the cultivation aura of the tenth level of the Broken Realm.

This is a truly strong master with extremely terrifying combat power.

"Creation of heaven and earth!"

At this moment, the burly disciple holding a giant ax suddenly performed a terrifying martial arts move.

This move has extremely terrifying power.

Above the giant ax, an extremely terrifying blade of light surged out.

It's like being able to tear apart everything in the world.

There is a terrifying destructive force that no one can resist.

"Senior Brother Tu takes action, that kid is dead!"

"Yes, Senior Brother Tu is one of the top ten strong men among us. His cultivation and combat power are comparable to other ordinary elders."

...

At this time, many disciples around were talking about it.

But the moment the giant ax struck down.

Ye Feng suddenly stretched out a hand and slapped the front.

"Snapped!"

Accompanied by a huge roar.

Brother Tu, who was considered one of the top ten masters by everyone, did not even utter a scream. His whole body, including the giant ax in his hand, was all smashed to pieces in an instant.

Metal fragments, mixed with Brother Tu's flesh and bones, scattered on the ground, which was shocking and had a great visual impact.

"ah!!"

Many female disciples who were not determined were immediately frightened and pale when they saw this scene.

"What? So powerful?"

Countless disciples finally felt a kind of fear at this moment.

Ye Feng still slapped him and defeated another master.

And he is also one of the top ten masters among everyone, Senior Brother Tu.

"How strong is he?"

"That's right! It seems that we haven't realized what Ye Feng's true cultivation level is now? We just think that he is ordinary and doesn't look powerful."

At this time, many disciples around him were talking in low voices.

"Why is this boy so powerful..."

Elder Mo is undoubtedly the one with the most ugly eyes at this time.

He thought he could easily kill Ye Feng.

But now, Ye Feng's power is beyond imagination.

"Buzz!"

And as if specifically to stimulate Elder Mo again, Ye Feng's body suddenly surged with a true aura of cultivation that belonged to him.

boom!

A violent and majestic momentum surged out from Ye Feng's body, spreading in all directions, filled with infinite energy and momentum.

At this moment, Elder Mo's expression suddenly changed.

He couldn't help but exclaimed:

"Third level of heaven and human realm?!!"

That's right!

The huge martial arts aura surging out of Ye Feng's body now is the third level of heaven and human realm!

The cultivation of the third level of heaven and human realm is full of unparalleled powerful control, making everyone present feel a deep sense of depression and heaviness.

At this moment, the expressions of countless disciples changed drastically.

"What? The third level of heaven and human realm!"

"It's amazing! It's so powerful!"

"It's over, it's over! We've hit an iron plate!"

...

Each of the disciples didn't care at all at this time and fled quickly and crazily around them.

"Come back quickly!"

When Elder Mo saw hundreds of disciples running away like crazy, he immediately yelled anxiously.

call!

But suddenly at this moment, a cold wind suddenly blew around Elder Mo.

Elder Mo shuddered instantly, looked around, and immediately saw Ye Feng appearing next to him.

"no, do not want....."

Elder Mo was about to speak out.

"boom!"

But Ye Feng's punch had already exploded.

"ah!!"

Elder Mo's entire body was immediately shattered into pieces and completely disintegrated.

Ye Feng blew the blood off his fist, looked at Elder Mo's torn body, and smiled coldly.

This clown-like elder was finally dead.

At this moment, Ye Feng looked at the hundreds of disciples running away like crazy around him, and instantly shouted: "Light of Great Destruction!"

Boom!

Infinite energy of destruction burst out from Ye Feng's hands in an instant and spread towards the surroundings.

"ah!"

"ah!"

...

Along with a series of miserable howls, the bodies of all the disciples who had just watched the show ruthlessly were destroyed by the light of destruction.

"Rumble..."

Even the surrounding ground was affected, and the ground was shattered inch by inch. The scene was very horrifying.

"All of them become my nourishment!"

Ye Feng laughed loudly, killed as much as he wanted, and released the Devouring Domain, beginning to devour the energy and blood of these ruthless people.

"Buzz!"

In an instant, Ye Feng's skill increased rapidly and skyrocketed. "What?"

"Junior Brother Mu was directly killed by that Ye Feng's punch?"

"How can this be?"

This is a truly strong master with extremely terrifying combat power.

Ye Feng laughed loudly, killed as much as he wanted, and released the Devouring Domain, beginning to devour the Qi and blood skills of these ruthless people.

"Buzz!"

In an instant, Ye Feng's skill increased rapidly and skyrocketed.

Chapter 1516 Central Area

There are hundreds of Broken Realm disciples, plus Elder Mo, and a few half-step Heavenly Realm disciples, their skills are very powerful and huge.

Along with Ye Feng's devouring, Ye Feng's skill cultivation is rapidly growing.

At this moment, the corpses on the ground around them were originally extremely fresh, but as the energy of essence and blood disappeared, they eventually became extremely shriveled.

"boom!"

Suddenly at a certain moment, a huge and boundless martial arts momentum burst out from Ye Feng's body.

That is exactly the momentum of a breakthrough in cultivation!

"The fourth level of Heaven and Human Realm!"

Ye Feng's hair moved without wind, and his whole body was filled with huge and boundless aura.

However, the blood energy has not yet been completely refined.

"Buzz buzz..."

Rivers of bloody blood were still flowing from the surrounding corpses, converging towards Ye Feng.

"boom!"

Ye Feng opened his mouth wide and swallowed it all.

A huge and powerful energy exploded in his body again.

"Fifth level of heaven and human realm!"

Ye Feng once again burst out with a huge martial arts aura.

That was the momentum of another breakthrough!

At this moment, Ye Feng immediately felt powerful and abundant power, surging through his entire body.

This time, with the help of the abundant energy and skills of so many people, Ye Feng broke through two heavens in a row and entered the fifth heaven of the heaven and human realm.

Uh-huh!

At this time, Ye Feng grabbed it with his big hand, and with strong suction force, he immediately sucked all the storage rings and storage bracelets on the corpses around him into his hand.

"Buzz!"

Under the exploration with his spiritual sense, Ye Feng immediately found a lot of treasures, which were stored in storage rings.

These disciples who can participate in the inner court trial are all the top outer court disciples in the Northern Territory Seminary, so they all have a lot of wealth.

Ye Feng can be regarded as making a small fortune this time.

Uh-huh!

Next, Ye Feng wasted no time, jumped directly, and quickly left this area.

Not long after, a team of hell demons wearing pitch black armor and holding steel forks arrived here.

This demon team seems to be a team of the nearby demon army.

They had sensed the energy fluctuations on this side before, so they rushed in this direction.

However, all they saw at this time were the hundreds of shriveled corpses of human warriors on the ground.

"hiss!"

Even if it was such a group of hell demons, seeing this scene on the field at this moment, looking at the shriveled corpse, and the fearful eyes before death, many demons couldn't help but take a breath of air.

"How come there are vampire demons in our hell who have disappeared for endless years?"

Many demons couldn't help but scream in fear.

The vampire demons seemed to make the hell demons, who were also dark creatures, feel a deep fear.

...

And just when a group of hell demons were secretly guessing and fearing.

Ye Feng was alone, and finally broke away from the team and entered the extremely dangerous land of hell.

"Little Ye Zi, this queen feels the strong aura of hell, which is stronger than before on the hell battlefield. Where are you?"

Suddenly at this time, Xiaoyao spoke up.

"I am in the real hell world, participating in the inner court trial of our Northern Divine Academy."

Ye Feng replied.

At this time, Ye Feng was speaking and releasing his spiritual thoughts. He was sensing the entire hell land around him, trying to find the powerful hell demons in the hell world to hunt, or to find various rare treasures growing in the hell world, or ancient ruins. .

For Ye Feng, a big oven, he can hold any energy. Even if it is the martial arts inheritance from hell, Ye Feng can also practice it.

This is an advantage and expertise that others cannot achieve.

After all, even Bai Susu, the reincarnation of the Lord of Immortal Judgement, cannot directly practice the inheritance of the Hell Clan.

When Ye Feng taught Bai Susu the hell tribe's clone technique before, as soon as Bai Susu used it, the energy in her meridians flowed backwards and she spat out a mouthful of blood.

So Ye Feng was in hell at this time, and he directly regarded himself as a local resident of the hell clan, and began to wander around wantonly, looking for opportunities.

Buzz!

Xiaoyao flew out of the queen's picture and transformed into a cute little girl with pink light all over her body. Like an elf, she was only the size of a palm and sat on Ye Feng's shoulder.

At this moment, Ye Feng turned his head slightly, looked at the elf-like Xiao Yao on his shoulder, and couldn't help but ask: "Xiao Yao, what's wrong with you?"

Xiaoyao smiled and said: "I have been to the hell world once before, and in the end I was almost wiped out by the will of the hell interface. Now that the ancient era has passed and we have entered a new era, I am afraid that even the will of the hell interface will not be recognized. It feels so good to be out of here."

Xiaoyao looked at the surrounding hell scenery with a smile at this time, as if she was on an outing. She didn't see the slightest fear and acted extremely relaxed.

Ye Feng has a look in his eyes

With a questioning look, she said: "Xiao Yao, where should I go to find opportunities and fortune now? Wandering around like this is not an option at all."

Ye Feng knew that this inner court trial only lasted three months.

For other outer court disciples, what they have to think about is how to survive for three months.

As for Ye Feng, what he has to think about is how to make good use of these three months to improve and strengthen his cultivation and various magical methods as much as possible.

At this time, Xiaoyao heard Ye Feng's question, couldn't help but think about it, and then said: "But most of the areas in the hell world that I know are in the central area of the hell world. There are many powerful demons living there, and there are also It may be very dangerous if there is an army of hell demons stationed there."

Ye Feng couldn't help but flash his eyes when he heard this, and then said: "It seems that I need to go to the central area of the hell world. I have the ability to create, and I can transform my own original skills and energy into the power of various attributes in the heavens and the world. , I think I can disguise myself as a hell demon and sneak into the central area of the hell world. Even the

most powerful Demon King will not be able to detect my abnormality, because I am not simulating being a hell demon, but can actually Turn my own original skill and original power into a real devil."

At this moment, Xiaoyao couldn't help but stare at Ye Feng with her big, watery eyes, and said: "Xiao Yezi, you are the most terrifying existence I have ever seen. I think that after you have cultivated to the end, you are no longer a human being, but a human being." This is a great existence of another higher level that transcends the human race, transcends the demon race, and transcends the myriad races in the universe."

Ye Feng smiled and did not express any opinion on this issue. He just said: "But before I pretend to be a hell clan and enter the central area of the hell world, I need to temper and temper my spiritual soul power. My soul power is tempered." Using the 'Hell Buddha Contemplation Method', in this real hell realm, the efficiency will be greatly improved."

Chapter 1517 Blood River Monarch

Hell, a corner of the dark land, in a dark forest.

Ye Feng's figure was sitting cross-legged in an open space.

Buzz!

Buzz!

In the void behind him, there is a golden Buddha and a ferocious troll floating.

Ye Feng's forehead was covered with cold sweat, and large beads of sweat rolled down his cheeks and dripped on the ground.

Obviously, Ye Feng was under terrible pressure at this moment.

"boom!"

At this moment, Ye Feng suddenly opened his eyes, his pupils were red.

A huge wave of soul power suddenly spread from his body.

After half a month of practicing the Buddha's Concept of Hell, Ye Feng's soul power has been greatly improved, directly rising to a full fifty levels.

At this time, Ye Feng's overall soul power was at one thousand five hundred and fifty levels.

It is getting closer and closer to the standard two thousand level soul power required to enter the divine ruins world exclusive to soul masters.

"It is better to directly devour the soul power of evil spirits from hell to improve it, but evil spirits from hell are very rare. I haven't found a few in the past half month."

Ye Feng stood up.

Although his soul power increased by fifty levels, Ye Feng felt that it was too slow.

You must know that the last time Ye Feng devoured a wave of hell evil spirits in the hell battlefield, Ye Feng's soul power suddenly increased by more than a hundred.

But evil spirits from hell are very rare.

It can be encountered but cannot be sought.

Ye Feng can only practice now.

"It's time to head to the center of this hell realm."

Ye Feng thought to himself.

The central area that Ye Feng went to at this time was not the central area of the entire hell world.

Rather, it was a small center in the corner area of the hell realm where he was currently.

But even in such a small center in the corner area, there are very powerful hell demons living there.

The central area that Xiaoyao knows is the real central area of the entire hell world, just like the central star field of the human universe.

With Ye Feng's current cultivation strength, naturally he would not dare to go there rashly.

Xiaoyao curiously asked in the Queen's picture: "Little Yezi, what kind of hell tribe are you going to become?"

Ye Feng said: "I

I once practiced Jiuyou Tongtianmu and wanted to disguise myself as the Nine Nether Demon Clan. However, the origin of the Nine Nether Demon Clan is in the Demon Realm. Although they are both dark creatures like the Hell Clan, they are not actually in the Hell Realm, so I still pretended to be a blood demon. Demon clan, the blood demon clan has disappeared in the hell world for a long time now, but the origin of the blood demon clan is indeed in the hell world. I have also searched for relevant ancient classics in the library of the Northern Divine Temple to obtain evidence. , and I have refined the source of blood demons and can transform into the sea of blood demons. This is the oldest and most original inheritance ability of the blood demon clan. No one can doubt my identity. "

Xiao Yao was quite excited and said: "Blood Demon Clan? Okay, okay! The Queen will think of a very domineering name for you, Xiao Zi. In the hell world, as long as the hell clan is somewhat famous, they all have their own names. name."

Ye Feng looked surprised and said: "Name? Do you need to create your own name when you are living in the hell world?"

Xiaoyao nodded vigorously and said: "Of course you need a name! Little Yezi, you have become a blood demon, so you can call yourself Blood River Ancestor!"

"Ancestor of Blood River?"

When Ye Feng heard this, the corners of his mouth twitched slightly.

"Are you dissatisfied? Ancestor Blood River does sound a bit old-fashioned, so I'll replace him with a younger one."

Seeing Ye Feng's helpless look, Xiao Yao thought about it again, then her big eyes lit up and said: "Master Blood River! No, no, this is too unimpressive... Well! I thought of it, Lord Blood River! This Okay! Very impressive!"

Seeing Xiao Yao's excitement, Ye Feng couldn't help but shook his head, smiled hoarsely, and said: "Okay, okay, just follow what you said, I will call you Blood River Lord. I am indeed living in this hell world, yes I need a title of my own to prevent other hell creatures from doubting my identity."

With that said, Ye Feng began to use the power of creation, transforming the skills and energy in his body, including the deepest cells, into blood demons.

Moreover, Ye Feng once refined a blood demon source into his body.

So at this time, Ye Feng directly turned on the energy aura of the Blood Demon Source.

"Buzz!"

At this moment, patches of blood-red aura immediately appeared outside Ye Feng's body, burning like blood-colored flames outside Ye Feng's entire body.

At this moment, Ye Feng has completely become a creature of the Blood Demon Clan.

Even if it is

No matter how powerful the hell creatures are, they may not be able to discover Ye Feng's clues.

Because at this time, Ye Feng has completely become a creature of the Blood Demon Clan from the beginning to the end, from the surface to the inner level of life.

Ye Feng asked Xiaoyao, "What is the general form of the blood demon clan?"

Xiao Yao smiled and said: "There is no need to change any form. In the truly prosperous demon capital of the hell world, many demons, whether male or female, will transform themselves into handsome men and beautiful women for the sake of beauty. "

After Ye Feng heard this, he nodded and felt relieved.

Uh-huh!

Ye Feng rushed quickly in a certain direction at this moment.

In the past half month, Ye Feng has not only practiced the soul tempering method, but also secretly explored the surrounding area.

Ye Feng has already discovered that the central area of this corner place is controlled by a hellish demon called the "Green Devil Corps".

The Green Devil Corps is equivalent to a dynasty in the human race. It has built a huge devil's capital, devil's imperial capital, major devil's cities, etc. in the central area, and it is prosperous.

The controller of the Green Goblin Corps is a Green Goblin with ancient green blood. He is a noble among demons and is very powerful.

However, Ye Feng did not sense the specific cultivation level of the green demon, but it was indeed very powerful. As soon as Ye Feng's perception was released, he quickly retracted, fearing to scare the snake.

Uh-huh!

Ye Feng's speed was very fast, and he disappeared at the end of the earth in a blink of an eye.

Three days later, Ye Feng came to the gate of a huge dark golden steel city.

He exudes a strong aura of the Blood Demon. His long hair is tied up, his white clothes are fluttering, and he holds a folding fan in his hand. He has the feeling of a wanderer and scholar.

The reason why Ye Feng dressed up like this was because he saw many powerful men from the hell clan dressed like this along the way.

Either it is the image of a graceful scholar in the human race, or it is the image of a beautiful woman in palace clothes.

So Ye Feng dressed up like this to make himself less noticeable.

However, what Ye Feng turned into was the blood demon clan that had disappeared among the dark creatures for a long time.

At this time, after he walked into the steel city of the Green Devil Corps in front of him, he immediately attracted the attention of many hell demons in the city.

"Huh? It turns out to be the aura of the Blood Demon clan that has disappeared for a long time?"

"What is the origin of this young demon?"

In the Demonic City, many demons from the hell realm couldn't help but speak out and started talking about it.

Their language is a mixture of human and demon language, and Ye Feng can still understand it a little bit.

Ye Feng's face was calm at this time, walking on the street in the Demon City.

What surprised Ye Feng was that there was such a harmonious development within the demon clan that he thought was extremely chaotic.

In this steel city, there is a trading square, a large chamber of commerce, a weapon-making shop, a material pavilion, etc., and everything you need.

But all of them are various training materials and transactions that only hell demons need.

Ye Feng is naturally very interested in these training materials. After all, his body is like a big oven and can be used for anything.

The cultivation materials produced in the Hell Realm are probably very abundant, so I don't have to go looking for them myself.

Ye Feng came to a large shop, took out a piece of divine crystal, and prepared to buy some body refining materials.

He planned to continue to refine and improve his third-level chaotic body, and see if he could activate the third-level bloodline talent as soon as possible.

But the moment Ye Feng took out the divine crystal, countless eyes on the street focused on him.

It concentrated on the piece of divine crystal in Ye Feng's hand.

That kind of gaze was like seeing a peerless treasure, fiery and exciting.

"what's the situation?"

Ye Feng was stunned for a moment.

He felt very confused when he saw the eyes of countless demons on the street, all focused on the divine crystal in his hand.

Isn't this just a very ordinary divine crystal?

Why do these hell demons seem to have seen a peerless treasure?

Are these demons so poor?

"It's not that these demons are poor."

Xiao Yao's voice sounded in the Queen's Picture: "Xiao Yezi, you have to know that this is a hell demon city in the hell world, but I have never seen anything from the human race, and things from the human race, for this group of people living in hell For the demons in the deep areas of the world, they are all rare things, and things are rare and valuable. Little Ye Zi, I thought of a way to make money with high returns, and that is to use all kinds of rare things from the human race on you to go In exchange for the rich training resources in the Demon City!"

Chapter 1518 Setting up a stall

At this time, looking at the fiery gazes of the many hell demons around him, Ye Feng immediately became happy.

Xiaoyao was right. Things like the divine crystals on her body were very common in the vast universe of human territory and could be seen at any time.

But in this hell world, it never appears.

The pure power emanating from the divine crystal made many demons feel a sense of spiritual refreshment.

Divine Crystal, this kind of crystallization of divine power from the legendary God Realm, is something that can be used by all living beings in the world.

Maybe this thing is not too precious in the human territory, after all, everyone has it.

But in the depths of this hell realm, it is very rare.

At this time, Ye Feng immediately held the divine crystal in his hand and said with a smile: "Everyone, this is something called the divine crystal that I got when I was in the human territory. It is very precious. I brought it back this time. , I didn't expect everyone to be so interested, I can let you get some of it, but you need equivalent resources in exchange."

Ye Feng announced his home at this time, which made many hell demons on the streets of Demon City light up.

"He must have many other treasures on him."

Several demons with fierce eyes came over.

Although these demons are in human form, they have a long ferocious tail like an iron whip behind their backs.

These are several lizard demons, born killers with terrifying power.

At this moment, several lizard demons immediately said: "Boy, where did you come from as a demon? Don't you know the rules of our demon city? If you want to do business here, you need to hand over some of the money in your hands. This treasure is called the Divine Crystal, so please hand it over now."

"Snapped!"

But the next moment, Ye Feng slapped him directly.

A huge surge of energy

, all of a sudden blasted away all the lizard demons in front of him.

"ah!"

"ah!"

In an instant, several lizard demons were blown away, blood spurted from their mouths, and they hit the buildings not far away.

"What?"

At this moment, countless demons on the street couldn't help but scream in surprise.

They never expected that the three half-step celestial lizard demons, known as the three hegemon of the city, would be defeated in an instant and blasted away, spurring out blood and looking extremely embarrassed.

"Buzz!"

At this time, Ye Feng's body suddenly surged with a huge and boundless martial arts aura.

That is a powerful cultivation level at the fifth level of the Heavenly Realm!

At the fifth level of the Heavenly Realm, even in this demonic city in the Hell Realm, he is considered an extremely powerful cultivation base.

So at this time, Ye Feng released his cultivation aura, and all the demons present showed fear in their eyes.

"He turned out to be a true strong man in the Heavenly Realm!"

"I didn't expect that in our small demon city on the edge, a master of the Heavenly Realm would appear."

"This young master of the Blood Demon clan who calls himself Lord of the Blood River, I guess he may come from an ancient great demon family that is hidden in the world."

...

At this moment, a group of demons around them all screamed in surprise.

At this time, no one dared to disrespect Ye Feng anymore.

Because the cultivation strength shown by Ye Feng is really too powerful.

Again

No one dares to covet the divine crystal in Ye Feng's hand.

At this time, Ye Feng glanced at the three lizard demons not far away who were killed by him, and said calmly: "If you want to get the divine crystal from me, or other rare things in the human territory, then use your bodies. In exchange for resources and wealth, don't think about robbing them openly, because there will only be one end, and that is death."

After Ye Feng finished speaking, there was no sound in the entire field, and they all fell into silence.

Obviously, all the demons were afraid and did not dare to show any intention of fighting.

At this moment, Ye Feng simply sat on the spot, took out the rare things from the human race from his storage ring, and placed them all on the ground in front of him.

A large demonic man wearing brocade and satin stepped over, followed by two demonic guards wearing black armor.

Obviously, the identity of this demonic man is absolutely extraordinary. Being able to lead his subordinates, he is definitely a noble in the hell world.

The aura of cultivation exuded from the big demon man was at the sixth level of the Heaven and Human Realm.

But he was extremely polite to Ye Feng and said: "Monarch of Blood River, I want to buy a hundred divine crystals, and I am willing to trade them with the steel skeletons of a hundred ancient steel trolls."

The ancient steel troll is a powerful ancient demon in the hell world. Its bones are like the ancient hell iron, which is of great value. ??

If it were auctioned outside, I am afraid that the steel skeleton of an ancient steel troll could be auctioned for thousands or tens of thousands.

But now this demonic man has used the steel skeletons of a hundred ancient steel trolls in exchange for a hundred divine crystals.

Because, so far, only Ye Feng can become a demon and mix into this kind of demon.

In the Castlevania pool, and carrying so many rare things among humans.

Ye Feng's eyes lit up at this time, and he said secretly in his heart: "I can use the steel skeleton of the steel troll. It is an extremely precious living material in the hell world. There are one hundred steel skeletons. If I can extract them with the gods' gloves, I will definitely be able to use them." It greatly increases the strength of my body and allows my chaotic body to undergo tremendous transformation and improvement."

At this time, Ye Feng immediately laughed and said: "Okay, one hundred divine crystals in exchange for your one hundred steel troll steel skeletons!"

This deal is really a bargain!

"good!"

The demon man also felt that he had made a profit, and immediately handed a storage ring in his hand to Ye Feng, and said with a smile: "Lord of the Blood River, please check it."

Ye Feng's spiritual thoughts investigated and immediately saw a hundred tall figures like steel standing quietly in the huge space where the spiritual ring was stored.

That is exactly the skeleton of a hundred steel trolls!

Although there is no flesh and blood, the huge and majestic steel skeleton still exudes the terrifying aura of the ancient troll.

"Good stuff!"

When Ye Feng saw these things in the storage ring, his eyes showed undisguised joy.

At this time, many other strong men from the hell tribe came over and started curiously searching for things in the human world that they were interested in in front of the stall set up by Ye Feng.

After all, there are too many types of items placed on the ground in front of Ye Feng. In addition to divine crystals, there are also various weapons and armors forged in the human world. These things may only be seen in the human race. Some are relatively low-level, but in the hell world, they are like handicrafts, making a group of hell demons very curious and fascinated.

Chapter 1519 Altar of God

In one transaction after another, Ye Feng used very cheap human items to exchange for extremely precious resources from the hands of demons.

For example, the black mandala that can only grow in the hell world, the ancient demon sculpture that contains the original power of hell, the corpse of the hell monster as huge as a starry sky beast, the strange blood-colored ruby, and so on.

Once each of these things spreads to the cosmic practice world in the human territory, it will definitely cause countless waves in an instant.

But in Ye Feng's case, he exchanged it for very cheap things.

It can only be said that Ye Feng really has business acumen.

Of course, this is inseparable from Xiaoyao's reminder.

Therefore, after Ye Feng obtained many sculptures of ancient demon gods, he gave Xiao Yao a lot of demon powers.

For Xiao Yao, the power of these demons is still very useful.

Although it is the divine power of the demon god, it is still divine power after all. After Xiaoyao swallowed it, her own strength and the grade of the Queen's figure were restored and improved a lot.

In any case, Ye Feng gained a lot this time, and it could even be called a bumper harvest.

When Ye Feng finished his day's trading, he already had dozens of storage rings in his hands.

These storage rings are all resources and wealth obtained by the powerful men of the hell clan who purchased various human items from him.

At this time, the sky was completely dark, and there were very few figures on the entire street.

At this time, Ye Feng was going to find an inn to stay in the demon city, count all the gains he had made today, and use the gods' gloves to extract the resources of the dark creatures of the hell that could enhance the body's strength.

Soon Ye Feng found an inn and spent some demon crystals. Ye Feng got a room where he could stay temporarily.

In the room, Ye Feng did not hesitate to take out the storage ring containing the steel skeletons of a hundred steel trolls.

He directly activated the storage ring

entrance, then put on a god's glove with one hand, stretched into the inner space of the storage ring, and then pressed it on a steel frame.

"Toughness attribute extraction."

"Troll attribute extraction."

"Extraction of the power of the ancient demon god."

"Advanced life skeleton attribute extraction."

...

At this time, a steady stream of various original attribute powers were transmitted from the steel skeleton, extracted by the God Clan gloves, and then fused with Ye Feng's body.

"Buzz buzz..."

Throughout the process, Ye Feng's body strength rapidly increased.

Along with this process, the several thousand meters tall and towering steel troll skeleton in the storage spirit ring space is rapidly softening.

Because the power of the immortal attributes in the steel skeleton was absorbed by the Gods' gloves, it began to become soft and even turned into fly ash.

"Next!"

After the attribute power of a steel troll skeleton was extracted, Ye Feng continued to extract the next one.

A steady stream of attribute power, mainly toughness attributes and advanced life-skeletal attributes, were integrated into Ye Feng's body.

The whole process lasted for an hour, and all one hundred steel troll skeletons had been extracted.

And Ye Feng's body strength has been raised to a whole new level.

His chaotic body skyrocketed from the ninth level in the early stage of the third heaven to the sixth level in the middle stage of the third heaven!

This speed of growing the tempered body is already very fast and terrifying.

Ye Feng could feel at this moment that his body

The brute strength of the body is getting more and more terrifying.

At any time, Ye Feng could hear the blood surging in his body like a long river.

At this time, Ye Feng suddenly seemed to sense something and stood up suddenly.

At this time, the space in front of him began to fluctuate violently.

This violent fluctuation is the precursor to the awakening of bloodline talent. .??.

"Is the bloodline talent of my third-level Chaos Body finally about to awaken?"

"The first level of heavenly bloodline talent is the hand of time."

"The second heaven is the God Clan Glove."

"The Chaos Heavenly Emperor Technique comes from the powerful Gu Clan Divine Kingdom where my mother lives. It is indeed very extraordinary."

"I am half of the royal family of the Kingdom of God. I wonder what kind of heaven-defying ability the third bloodline talent will be?"

Ye Feng's eyes were full of expectation.

Because the two bloodline talents that were awakened before were beyond my imagination, and their abilities were very miraculous.

Buzz!

At this time, Ye Feng stared at the trembling position in the space in front of him.

Suddenly, a huge dark golden altar appeared.

"altar?"

Ye Feng's eyes moved.

Is this altar my third bloodline talent?

Just when Ye Feng was thinking about the purpose of this dark gold altar.

"Buzz!"

An extremely mysterious message was instantly transmitted from the depths of Ye Feng's bloodline to his mind, letting him know the identity of the altar in front of him.

"Altar of God: Kill and sacrifice the extremely evil demon, and you can get various powerful treasures from God."

After Ye Feng received this message, his eyes immediately lit up with joy.

"It's actually the legendary altar to God?"

Ye Feng once read the records about the Altar of God in the library of Beiyu Divine Temple.

Legend has it that the Altar of Heaven was the most precious treasure of the ancient human emperor.

In ancient times, the entire universe was filled with extremely vicious monsters and evil beasts, causing harm to the human world.

Therefore, the ancient human emperor spent a huge price to collect the sacred stones that had been blessed by the gods in the divine world and cast them into an altar called the Altar of Heaven.

As long as you kill the big demons and sprinkle the blood of these extremely evil creatures on the altar of God, you can offer sacrifices to God, let God send down auspiciousness and treasures, and protect the prosperity of the entire human race.

However, the ancient altar had long since disappeared and perished in ancient times billions of years ago.

Ye Feng never expected that his third bloodline talent would awaken into the Altar of Heaven.

"As long as I kill the extremely ferocious demons that cause harm to the world, and sprinkle their blood on the altar of God, I will be rewarded by God, which may be peerless warriors, god-level elixirs, etc. "

Ye Feng's eyes were very excited.

If you have the chance, you must test your own altar to God.

However, Ye Feng also knows that the altar of God involves too much and cannot be exposed to the world.

"Buzz!"

At this time, Ye Feng hid the altar of heaven into his own bloodline.

Then he saw that it was still early in the sky, so he continued to practice the hell Buddha contemplation and worked hard to improve his soul power.

Practicing this kind of soul tempering method in the real hell world is simply getting twice the result with half the effort, and Ye Feng naturally doesn't want to waste time.

"Dong-dong-dong-dong."

However, before Ye Feng could practice for long, there was a knock on the door of the inn where he was staying.

Chapter 1520 The Green Demon Lord's Invitation

"Huh? Who will come to me at this time?"

Ye Feng's eyes moved slightly and he exited the cultivation state.

He walked behind the room door and opened it.

At this time, a tall demon stood outside the door. He had a human head, but his body was covered with dense black scales.

And behind this tall demon, there is a long tail like an iron whip.

"It's the lizard demon from before."

Ye Feng's heart moved.

He looked at the tall demon in front of him and said, "What? What do you do for a living?"

Although this tall demon looked ferocious, his eyes showed a trace of respect at this moment, and he spoke very politely: "Your Majesty the Blood River Lord, I am under the command of the Green Demon Soldier Lord. This time, I am here to serve under the Soldier Lord. I want to invite the Blood River Lord to the palace of our Green Devil Corps. The Green Devil Soldier has important matters to discuss with you, the Blood River Lord."

In the central city in this relatively remote corner of the hell world, although Ye Feng is considered a master at the fifth level of heaven and human realm, he is not considered a top powerhouse.

So Ye Feng was very confused at this time. His cultivation strength would not allow the leader of the Green Devil Corps to send his subordinates to invite him so politely, right?

At this time, he seemed to see the doubt in Ye Feng's eyes, and the tall demon in front of him immediately explained: "My Lord, Blood River Lord, please don't think too much. Your Highness, the Green Devil Soldier Lord of our Corps, has learned that Blood River Mr. River Lord, you seem to have traveled in the territory of the human race for many years, and you are very familiar with the culture and things of the human race. Therefore, our Highness, the Green Demon Soldier Lord, invites you, Mr. Blood River Lord, to discuss an issue related to the ancient times of the human race. The matter of the Tomb of the Strongest."

"The tomb of the most powerful ancient human being? Is it nearby?"

Ye Feng's eyes flashed slightly, as if he didn't expect that there was still a tomb of the most powerful ancient human race in this hell world.

At this time, Xiao Yao said in her mind: "In the last Hades era, the entire universe was in turmoil and chaos. At that time, the most powerful people of the human race entered the hell world, and the hell world The Lord of Hell fights, so although the tomb of the most powerful ancient human race appears in the hell interface, it is not impossible. "

Ye Feng heard Xiaoyao's explanation in his mind at this time and couldn't help but nodded slightly.

At this time, he looked at the tall demon standing outside the door, smiled and said: "Since the Green Demon Soldier Master personally invited me, I will naturally go to help His Highness the Soldier Master."

When the tall devil heard what Ye Feng said, he immediately became very tall.

Xing, he quickly cupped his hands and said: "Then I will take you, Lord Blood River Lord, to the palace of our Green Devil Corps now."

Ye Feng's eyes were surprised and he couldn't help but said: "Are you going now? Are you in such a hurry?"

The tall demon gave a bitter smile and said: "Lord Blood River Lord, these days our Lord of War has always been given a headache by the protective formation of the tomb of the most powerful human being in ancient times. This time, it was not easy for you, Lord Blood River. I have traveled to the land of the human race and seem to be very familiar with everything about the human race, so I specially asked you to invite you, Lord of the Blood River."

Ye Feng heard the words and nodded slightly, "The ancient formation of the human race? Maybe I really have a way to do this, so let's get on our way now. I am also very curious about the tomb of the most powerful ancient human race."

The tomb of the most powerful ancient human being who had entered the hell realm must have been created by great opportunity. Without even thinking about it, Ye Feng definitely wanted to go and see the situation after hearing the news.

If you can drink some soup behind a Green Goblin Corps, it will definitely be a profit.

After all, not everyone can enter the tomb of the most powerful person in the ancient human race.

I am afraid that only the powerful and huge Green Devil Corps has enough strength to break into the tomb of the most powerful person in ancient times.

At this time, Ye Feng followed the tall demon and left the inn directly.

They walked towards the depths of the Demon City and soon came to a brilliant building area.

Most of the buildings here are huge dark gold castles with very monotonous designs.

The middlemost castle is entirely made of black gold and is the most majestic castle.

This should be the so-called palace of the Green Goblin leader in the Green Goblin Corps.

"I have to say that the design aesthetics of these demons in the hell realm are really very different from the many buildings of very different styles in the human territory, just like the gap between the palace in the sky and the huts in the dilapidated mountain villages."

Ye Feng looked at the dark castle that looked like a crater, and couldn't help but secretly complain.

At this time, the tall demon who was leading the way said respectfully: "Lord Blood River Lord, this is the important place in the palace where our Green Demon Soldier Lord lives. Your Highness is now discussing with the officials inside to attack the ancient human race." As for the Tomb of the Strong, Lord Blood River can just go in directly."

Ye Feng nodded slightly and said, "Okay."

After the words fell, Ye Feng waved his sleeves, exuding the strong demonic aura of the Blood Demon Clan, without any stage fright, and walked directly towards the palace and castle. "Huh? Who will come to me at this time?"

Ye Feng's eyes moved slightly and he exited the cultivation state.
