Chapter 3251: Subdued

Uh-huh!

But at this moment, Ye Feng put all the Demon Ore into his storage ring.

The young man in golden robe caught him at this time and caught nothing.

At this time, Ye Feng smiled coldly and said: "It is impossible to want my Demon Ore."

"you....."

The eyes of the young man in golden robe suddenly became extremely ugly.

At this moment, the young man in golden robe stared at Ye Feng, his eyes became extremely cold, and said: "How dare you disobey my decision? Even if you are the true disciple of the ancient elder, I will teach you a lesson !"

boom!

Almost at the next moment, the young man in golden robe directly displayed an extremely powerful secret skill of the Black Demon Sect. In an instant, a majestic demonic energy burst out from his whole body, and a huge statue condensed directly behind him. Black gas giant.

Like an ancient troll.

"The true form of the troll!"

At this time, many other Black Demon Sect disciples in the surrounding hall showed deep surprise in their eyes.

This is a very terrifying inheritance in the Black Demon Sect, and it is very powerful.

"This golden-robed senior brother seems to be a master among the core disciples. He is actually able to cultivate the true form of the troll!"

"Although the young man in white is a disciple of the ancient elder, his cultivation is not very strong. He seems to be a new disciple. Now he is miserable."

At this time, many Black Demon Sect disciples around them spoke out one after another.

"boom!"

But the next moment, Ye Feng just punched out with an ordinary punch.

"Boom!!"

Suddenly a terrifying roar sounded.

The next moment, under the shocked eyes of countless people on the field, Ye Feng's ordinary fist suddenly burst out with terrifying destructive power.

It directly shattered the giant demon's true body condensed by the young man in gold robe.

"What?!"

Seeing this scene, not to mention the many Black Demon Sect disciples watching around, even the young man in gold robe could not help but widen his eyes at this time, as if he did not expect Ye Feng to have such terrifying attack power.

Because Ye Feng's cultivation level is lower than him by a whole level!

The cultivation level of this golden-robed man is at the first level of the Ten Thousand Tribulations Realm, while Ye Feng is at the third level of the Heaven-Suppressing Realm.

The gap in cultivation level was really too big, so the young man in gold robe felt that he had unleashed his true form as a troll. This powerful martial arts inheritance would definitely be able to suppress Ye Feng in an instant.

Unexpectedly, Ye Feng's simple fist directly shattered the powerful troll body he had condensed.

This kind of combat power is really terrifying to the extreme.

"This guy is weird!"

At this moment, the young man in gold robe suddenly understood that the ordinary-looking boy in white in front of him was definitely the kind of extremely terrifying super genius, even more terrifying than their core disciples.

Uh-huh!

So at this time, the young man in golden robe suddenly looked extremely ugly, and he quickly prepared to retreat and leave here.

But at this time, Ye Feng smiled coldly and said: "You have offended me, and now you are ready to leave without doing anything? You are too

That's too rude. Just stay. "

Boom!

Almost at that moment, Ye Feng stretched out a hand and grabbed the young man in gold robe.

Suddenly a big black hand appeared in mid-air, filled with endless dark power, and directly imprisoned the young man in gold robe.

The huge dark hand was condensed from the powerful power released by Ye Feng. Although it looked like dark energy on the surface, inside it contained Ye Feng's purest chaotic energy, which was very strong and indestructible.

Even though this young man in golden robe is a powerful being in the first level of the Myriad Tribulation Realm, no matter how hard he struggles at this time, he can't break free from the grasp of this dark uncle.

The young man in the golden robe turned pale, and immediately shouted at the dozen other core disciples behind him: "You all come together and suppress this kid!"

At this time, the young man in golden robe could only resort to the crowd tactics.

Almost as soon as the golden-robed young man finished speaking, the dozen or so other core disciples who followed him nodded, and then rushed towards Ye Feng in an instant, hoping to defeat Ye Feng using the human sea tactic.

But they overestimated themselves and underestimated Ye Feng.

"Everyone get out of here!"

Ye Feng shouted coldly at this time, stretched out his other hand casually, and turned into a big dark hand, bombarding towards more than a dozen core disciple members, and immediately blew away more than a dozen people. , they hit the ground one after another, spurting out a mouthful of blood, unable to get up at all.

"This kind of cultivation strength is too powerful!"

When many Black Demon Sect disciples in the surrounding hall saw this scene, their eyes

Showing deep awe.

In a demonic cultivation sect like the Black Demon Sect, strength is definitely the most important thing.

Although Ye Feng doesn't seem to be famous, and he seems to be a new disciple.

But the power that Ye Feng unleashed at this moment was so eye-catching that even these dozen core disciples were no match for Ye Feng alone.

So at this time, Ye Feng almost took just a few seconds to prove his reputation as an untouchable.

To become famous, one battle is enough!

"Spare me! Spare me! I am blind!"

At this time, the young man in gold robe who was caught by Ye Feng finally gave in and quickly begged for mercy in front of Ye Feng.

Because he was really afraid that Ye Feng would kill him directly.

After all, everyone in the Black Demon Sect is a practitioner of the demonic path, and their mentality is extremely ruthless.

Unlike other righteous cultivation sects, which have many sect rules, the Black Demon Sect has almost no rules.

It means that the strong are respected, the weak eat the strong, and there are not too many sect rules.

At this time, Ye Feng stared coldly at the young man in golden robes begging for mercy in front of him, and said slowly: "If you want to save your life, you have to show enough sincerity, and all the cultivation resources in you will be used." Take it all out, and if it satisfies me, I may be able to spare your life."

"Yes Yes Yes!"

At this time, the young man in golden robe quickly took out pieces of Demon Ore from his storage ring and said loudly: "These are mined by our team in the mineral veins of the Demon Realm all year round. Moreover, there are many beast cores of Warcraft, all of which are very good cultivation resources, and now they are all dedicated to you, senior brother!"

Chapter 3252 Super large mineral veins

At this time, Ye Feng looked at the pieces of demon ore that the young man in gold robes in front of him took out, with a hint of surprise in his eyes.

Because the amount of Demon Ore that this young man in golden robe took out from the storage ring was still very large, much more than what he got from the counter.

This is undoubtedly a good fortune.

And it can provide Ye Feng with very pure and advanced demonic energy. .??.

Let Ye Feng's skill be greatly improved.

Ye Feng's eyes showed a look of joy at this time, and he directly collected all these demonic ores into his storage ring, waiting for the next refining.

At this time, seeing the joyful look on Ye Feng's face, the young man in gold robe finally breathed a sigh of relief in his eyes.

Because he knew that the resources he donated satisfied Ye Feng.

However, the young man in golden robe also felt a little painful.

Because he used all the cultivation resources accumulated during this period.

It can be said that he is suddenly poor now.

At this time, Ye Feng collected all the training resources and prepared to leave here directly.

"Wait a moment."

But at this time, the young man in golden robe behind him suddenly spoke up.

"Um?"

There was a hint of coldness in Ye Feng's eyes. He turned around to look at the young man in gold robe and said, "What? Do you still want to be beaten?"

The young man in golden robe immediately shook his head, and then said loudly: "Of course not, I just want to invite you, senior brother, to go with us to a very large mine in the Demon Realm to search for cultivation resources."

When Ye Feng heard what the young man in gold robe said, there was a trace of surprise in his eyes.

, couldn't help but ask: "One second you were provoking me, and the next second you want me to be your coolie?"

Hearing what Ye Feng said, the young man in gold robes immediately gave a wry smile and said: "Brother, you misunderstood. Our team found a very large mineral vein in a very hidden place in the Demon Realm. There are not only It stores a large amount of Heavenly Demon Ore, and there may even be the existence of the legendary Heavenly Demon Holy Stone. The Heavenly Demon Holy Stone is a demonic mineral vein resource that is even more advanced than the Heavenly Demon Ore. If it can be obtained, each one is priceless, regardless of the price. Whether you practice it yourself or sell it to others, it is of great value, but that super large mine is guarded by many powerful monsters from the Demon Realm. Our team is simply not strong enough to fight against it, so I want to invite you, senior brother, to cooperate with us. , go and search for that super-large mineral vein."

When Ye Feng heard what the young man in gold robe said, his eyes suddenly showed a look of surprise.

I didn't expect that this young man in gold robe would really climb up the pole and want to cooperate with me.

However, Ye Feng is still very interested in that kind of super-large mineral veins. After all, what he needs now is huge resources.

If the energy of that super-large mineral vein can be obtained, Ye Feng's cultivation will undergo incredible transformation and improvement.

It should be of great help to fight against this vicious old man like Elder Gu in the future.

At this time, Ye Feng immediately nodded and said: "I'm quite interested in what you said, but I have other things to do for the time being. We can meet outside the sect in three days. You can take

me there." Super large mineral veins, you can go and explore the situation first. If the strength of those monsters is too terrifying, then I will definitely not take action, if conditions permit.

, then you can take action and see if you can gain control of that super-large mineral vein. "

Hearing what Ye Feng said, the young man in gold robe immediately nodded excitedly and said loudly: "That's great!"

Ye Feng suddenly asked at this time: "Why don't you find other teams to cooperate, but find a stranger like me?"

The young man in golden robe gave a helpless smile and said: "If we look for other hunting teams, it will probably be of no use, because their strength is similar to that of our team. If they go there, they will die. But senior brother, you are different. You are so powerful that even I feel deeply in awe, and you are the true disciple of the ancient elder. If we really encounter any danger in the mine, maybe the ancient elder will come to help us. "

When Ye Feng heard what the young man in golden robe said, he immediately understood. It seemed that the other party not only saw his own strength, but also thought that the ancient elder behind him might provide some help.

However, Ye Feng knew that Elder Gu would not come to help him. ??

Moreover, it was impossible for Ye Feng to let this kind of thing reach the ears of the ancient elder.

After all, if he wants to swallow the entire super-large mineral vein and improve his skills, he must not expose it.

But Ye Feng didn't say much at this time. He just nodded slightly and said: "Anyway, let's go and investigate the situation first. Elder Gu is in deep retreat now. It's best not to disturb him." , otherwise the consequences will be quite serious."

The young man in golden robe nodded immediately and said loudly: "Okay, everything will be according to your arrangement, senior brother. By the way, my name is Zhu Wudao. I don't know what my senior brother is called?"

Ye Feng said aloud: "My name is Ye Feng."

Uh-huh!

After saying that, Ye Fengzhi

Then he turned around and left the central hall.

The core disciple named Zhu Wudao looked at the dozen or so members behind him and said excitedly: "This time we can show off such a powerful being. It seems that we can seize control of that super large mine. There is hope."

A core member couldn't help but said: "But Senior Brother Zhu, even if the powerful Senior Brother Ye Feng is willing to help us, most of the resources of the super large mine will probably be taken away by this Senior Brother Ye Feng."

When Zhu Wudao heard what this core member said, he immediately said: "That's for sure, but as long as we can get a small part of the resources of the super-large mineral vein, that will be enough. It's better than what we are doing now." It's better not to have it."

When more than a dozen core members heard what Zhu Wudao said, they all nodded in agreement, and then left the central hall one after another and went back to prepare.

At this time, Ye Feng was walking towards the back mountain area of the Black Demon Sect.

According to the ancient elder, the back mountain area of the Black Demon Sect is where elixirs are grown.

And they are cultivating the dark Ganoderma lucidum that Ye Feng is very interested in.

Dark Ganoderma, a special elixir that can increase the power of blood, is of great help to Ye Feng.

Even ordinary dark Ganoderma lucidum is of great help to Ye Feng now.

So Ye Feng was still very interested.

At this time, Ye Feng did not waste any time on the way to the back mountain area of the Black Demon Sect.

He quickly devoured all the demon ores he obtained in the storage ring.

Boom! !

Suddenly, waves of majestic and high-level dark energy were directly injected into Ye Feng's body, rapidly increasing Ye Feng's power!

Chapter 3253 Senior Sister's Reminder

"Boom boom boom..."

You know, Ye Feng got a lot of demon ore this time.

These Heavenly Demon ores are all mined from the real Heavenly Demon Realm, and they are extremely pure ores from the Heavenly Demon Realm.

The energy contained in it is very high-level, it is the energy of the demon world in the demon world, and the reserves are also very abundant.

So at this time, after Ye Feng absorbed all the Demon Ore, he immediately received a huge improvement, and his skill suddenly increased a lot.

At this moment, Ye Feng's cultivation aura suddenly began to rise.

"boom!"

The fourth level of the Heaven-Suppressing Realm!

"boom!"

The fifth level of Heaven-Suppressing Realm!

At this moment, Ye Feng suddenly broke through two very powerful auras.

He actually broke through two heavens in a row!

This made Ye Feng's eyes suddenly reveal a hint of excitement.

I didn't expect that these demonic ores would contain such terrifying energy for improvement.

You know, Ye Feng's initial expectation was that after devouring these demonic ores, he might just break through to the first level.

But he didn't expect to break through two heavens in a row.

You know, Ye Feng's current cultivation level is very high, so the energy required for each breakthrough is very huge.

But even so, after Ye Feng devoured these demonic ores, he still broke through the second level of heaven.

This made Ye Feng suddenly become very interested in this very special Demon Ore.

Because the energy contained in this ore really allows Ye Feng's skill to improve very quickly.

At this moment, Ye Feng thought of the cooperation plan mentioned by Zhu Wudao, the core disciple of the Black Demon Sect, that is, the young man in gold robe.

Ye Feng didn't care much about it at first, but now that he realizes how precious this kind of demonic ore is, Ye Feng actually cares about Zhu Wu.

I am becoming more and more interested in the super-large mineral vein in the Demon Realm that Dao mentioned.

Because if you can really get all the Demon Ore in that super large mine, then for Ye Feng, it will be no less than devouring all the power of a super strong man.

Ye Feng is looking forward to this very much.

So at this moment, Ye Feng thought about taking a look at the dark Ganoderma lucidum in the medicinal fields in the back mountain area.

Then three days later, go find Zhu Wudao again.

At this moment, even if Zhu Wudao didn't want to go, Ye Feng would pull him there.

Because this kind of demonic ore is so precious that it is simply not available in the outside world.

I'm afraid it can only be obtained from places like the Black Demon Sect that are connected to the Heavenly Demon Realm.

And Ye Feng is also very curious about what kind of place the Demonic World is.

According to the information Ye Feng received before, the Heavenly Demon Realm is a small world attached to the Star Territory where countless demons live.

It seems that the area near this Black Demon Sect has a world passage that connects to the Heavenly Demon Realm.

Otherwise, it would be impossible for the sect to have so many various cultivation resources from the Demon Realm.

At this moment, Ye Feng was thinking secretly in his heart, and then walked directly towards the back mountain area.

In less than half an hour, Ye Feng had arrived at the back mountain area of the Black Demon Sect.

"It's so vast."

Ye Feng immediately saw that there were no buildings in the back mountain area, and there were no vast stretches of dark forest or mountains.

Some are just very vast and flat medicinal fields.

All kinds of elixirs are grown in these medicinal fields.

Estimate all

They are all special elixirs cultivated by the Black Demon Sect themselves, and they must all be elixirs with demonic attributes, which can provide great help to demonic practitioners.

In this regard, Ye Feng naturally refused to accept anyone who came.

No matter what attribute it is, Ye Feng can devour it and improve his power.

It has to be said that although the strength of the Chaos Body is about to reach its peak, it is increasingly unable to keep up with Ye Feng's use. Ye Feng begins to take precautions and prepares to find opportunities to awaken the Hongmeng bloodline.

But Ye Feng still uses many of the talents awakened by the Chaos Body very well.

In particular, the swallowing ability can be said to have provided tremendous help to Ye Feng's practice. It is simply a magical tool for practice, one of a kind.

At this time, Ye Feng held the identity token of the ancient elder in his hand and began to walk in the surrounding medicine fields, looking for the place where Dark Ganoderma was grown.

Uh-huh!

Suddenly at this moment, a stern woman in black appeared in front of Ye Feng.

This woman looked very cold, as cold as ice, making people afraid to approach her.

At this moment, Ye Feng immediately showed a trace of surprise in his eyes, and couldn't help but ask: "Senior sister, what do you do for me?"

The stern woman in black said coldly: "This is the important medicine field of our Black Demon Sect. There are extremely precious elixirs everywhere. No one can get close to it."

When Ye Feng heard this, he immediately took out the token of the ancient elder and said: "I am the true disciple of the ancient elder. This time I came to get some dark ganoderma. I need the dark ganoderma to enhance the power of my bloodline." "

"Elder Gu?"

The cold look on the face of the stern woman in black softened slightly. She glanced at the ancient elder's token in Ye Feng's hand, and a look of surprise appeared in her eyes: "The ancient elder actually accepted another disciple?"

"Are you accepting disciples again?"

Ye Feng was a little surprised and asked: "What? Does the ancient elder have any particular requirements for accepting disciples?"

The stern woman in black looked at Ye Feng's seemingly innocent expression. She hesitated for a moment, and then said slowly: "The disciples of the ancient elder basically disappear for no reason after a while. I don't know what happened, so for a long time, no one dared to become the disciple of the ancient elder, because everyone was afraid of disappearing for no reason. Of course, these are just what I heard. Don't talk about it everywhere, and don't think too much about it. "

When Ye Feng heard this, his pupils immediately shrank slightly.

Every generation of disciples of the ancient elder disappear inexplicably every once in a while?

Sure enough, this ancient elder is a vicious person!

However, Ye Feng didn't show anything at this moment. He just smiled and said, "Thank you, senior sister, for the reminder."

The stern woman in black nodded slightly, and then said aloud: "Since you are the disciple of the ancient elder, you are indeed privileged to get a certain amount of Dark Ganoderma. I will take you to a place where Dark Ganoderma is specially grown."

After the stern woman in black finished speaking, she walked directly in a certain direction around her.

Ye Feng quickly followed.

At this time, Ye Feng's desire to improve his strength became stronger and stronger.

Because he felt a deep threat from the words of the cold woman in black.

This ancient elder is indeed a very difficult guy.

However, Ye Feng still needs to rely on Elder Gu's identity token to dominate.

Therefore, Ye Feng's only approach for the time being is to use all his contacts and resources as much as possible to quickly improve his strength.

As long as he is strong enough, even if this ancient elder is a sinister old guy, there is no threat.

Because any conspiracy and conspiracy will be pale and powerless if it is strong enough!

Chapter 3254 Medicine Field Trainer

Half an hour later, Ye Feng followed the stern woman in black to a huge and vast medicinal field.

Ye Feng's eyes suddenly lit up.

In this huge medicinal field, all the dark ganoderma plants are planted.

These dark Ganoderma lucidum grow very vigorously and are obviously well cultivated.

The stern woman in black looked at the endless dark medicinal field, with a rare smile on her cold face, and said: "This entire medicinal field is all cultivated by me. The secret recipe of Dark Ganoderma is in the hands of my master. I have inherited this secret recipe, so I can cultivate so many Dark Ganoderma."

When Ye Feng heard what the stern woman in black said, his eyes immediately moved, and he couldn't help but have some thoughts of his own.

Because this dark Ganoderma can continuously improve one's bloodline.

Even if there is no Dark Ganoderma King, if there are enough ordinary Dark Ganoderma, it should be able to give a huge improvement to one's bloodline.

Ye Feng suddenly wanted to get this secret recipe for cultivating dark Ganoderma lucidum.

If you can get this secret recipe for cultivating dark Ganoderma, you can be self-sufficient in the future, grow your own Dark Ganoderma, consume it continuously, and achieve sustainable development.

At this moment, after Ye Feng had this idea in his mind, he couldn't help but look at the stern woman in black next to him, and said loudly: "Senior sister, in fact, I am interested in cultivating this dark Ganoderma and cultivating medicinal fields. I am also very interested. I don't know if I have the qualifications to join my senior sister's master and become a glorious medicine field cultivator."

When the stern woman in black heard what Ye Feng said, she suddenly showed a trace of surprise in her eyes and said, "Are you also interested in becoming a medicine field cultivator? Since you regard medicine field cultivator as a glorious profession, then It means that you have a very high respect for the medicine field cultivator. In this aspect, you are indeed qualified to become a medicine field cultivator, but

If you want to become a real medicine field cultivator, you need special qualifications. Even I don't know how to test this qualification. Only my master can test it. If you are really interested, I can do it later. I will take you to see my master and let him see if you have the qualifications. My master is also very willing to accept disciples. After all, he also recently wants to expand the cultivation of Dark Ganoderma, so he is in urgent need of manpower. "

Hearing what the stern woman in black said, Ye Feng suddenly became a little excited and said quickly: "Okay, then Senior Sister Lao will take me to see Master."

At this time, the stern woman in black looked at Ye Feng, and her eyes became a little softer.

It can be seen that this stern woman in black really has a pious heart for the medicine field trainer.

When she heard that Ye Feng was very interested in the medicine field cultivator, she immediately felt that Ye Feng and himself were the same type of person.

So at this time, the stern woman in black's attitude towards Ye Feng has changed a lot.

After the stern woman in black finished speaking, she led Ye Feng directly into the vast dark Ganoderma field.

At this time, the stern woman in black spoke out: "My name is Leng Bingling. From now on, you can just call me Senior Sister Leng."

Ye Feng immediately said: "Okay, Senior Sister Leng."

At this moment, Leng Bingling nodded slightly, and then said aloud: "Although you are the disciple of Elder Gu, holding the identity token of Elder Gu, you have the privilege to get some dark Ganoderma, but you can't get too much. After all, the darkness The quantity of Ganoderma lucidum is limited, and the cultivation of Dark Ganoderma lucidum is very troublesome, but you have very high respect for the medicine field cultivators, which I appreciate very much, and I can give you some more Dark Ganoderma lucidum."

Uh-huh!

At this time, Leng Bingling said, she reached out and grabbed nearly a thousand dark Ganoderma lucidum at once, and then piled them in front of Ye Feng, and said loudly: "More than a thousand dark Ganoderma lucidum is enough for you to use." It took half a year to refine."

"Half a year?"

Hearing what Leng Bingling said, Ye Feng smiled bitterly in his heart.

Although these more than a thousand dark lingzhi trees are indeed a lot for ordinary warriors, for someone with the ability to devour them, they may only be enough for a few days.

However, Ye Feng was very happy to be able to get more than a thousand dark Ganoderma lucidum for free. .??.

At this time, Ye Feng stretched out his hand and collected more than a thousand dark Ganoderma lucidum into his storage ring.

Ye Feng then immediately hugged Leng Bingling and said, "Thank you, Senior Sister Leng."

Ye Feng knew that if Leng Bingling hadn't made the decision, he would have only been able to get a few hundred dark lingzhi.

At this moment, Leng Bingling said aloud: "You come with me, I will take you to see my master and let him test whether you are qualified to become a medicine field cultivator, but I will tell you in advance , don't be too happy, because it is very difficult to become a medicine field trainer. It can be said that it is only one in a million. So far, there are so many disciples of our Black Demon Sect, and there are only a few people who can really become medicine field trainers. "

Hearing what Leng Bingling said, Ye Feng immediately smiled and said: "No matter what, I will try it first. If it doesn't work, there is nothing I can do. Anyway, I want to thank Senior Sister Leng for helping me."

"It doesn't matter."

Seeing that Ye Feng had such a good attitude and was a loyal person, Leng Bingling immediately softened her attitude and couldn't help but smile and said: "You are a good newcomer. If you really

Being able to become a medicine field cultivator is also of great benefit to our medicine field training department, because our medicine field training department is very short of medicine field cultivators. "

While the two were talking, Ye Feng followed Leng Bingling, silently devouring the more than a thousand dark Ganoderma lucidum he had just obtained in the storage ring.

The thing contained in the dark Ganoderma lucidum is not the energy that can improve the skill, but the special medicinal power that can transform and improve the blood.

So at this time, with Ye Feng's devouring, Ye Feng's skill has not increased.

But Ye Feng could feel that the power of his blood was rapidly and continuously improving.

The most obvious manifestation of the improvement in the power of blood is that the strength of the Chaos Body is constantly increasing.

However, what makes Ye Feng feel a little disappointed is that the strongest bloodline hidden in the deepest part of his blood, the Hongmeng bloodline, seems to have no movement, only the Chaos Body bloodline is constantly improving.

Emperor Chu suddenly spoke in his mind at this time: "Ye Feng, perhaps only after your Chaos bloodline has been developed to the extreme, and your Chaos body has entered the tenth heavenly consummation, can your Hongmeng bloodline be activated and awakened. , your Hongmeng bloodline has been unable to awaken, perhaps because most of the nutrients are forcibly absorbed by your awakened chaos bloodline, so I guess that only your chaotic body has entered the tenth heavenly perfection, completely Only after the development is completed can we continue to develop the strongest Hongmeng bloodline. Of course, this is all my guess, but it is estimated that this is the real situation. "

Hearing what Emperor Chu said, Ye Feng also nodded slightly and said in his mind: "Maybe it is really possible. Anyway, the Chaos bloodline can be improved and transformed, which is of great use to me. Hongmeng bloodline is actually of great use to me. For me, it's still too far away, so I'll take my time. Maybe I'll be lucky enough to find the Dark Ganoderma King, and I'll be able to activate the Hongmeng bloodline in advance."

Chapter 3255 Holy Monument

At this moment, as Ye Feng devoured more than a thousand Dark Ganoderma lucidum trees, he immediately felt that his Chaos bloodline had been improved.

The strength of the Chaos Body is also rapidly changing, becoming stronger, becoming more advanced and solid.

"boom!"

The second level of the middle stage of the eighth heaven of the Chaos Body!

"boom!"

The third level of the middle stage of the eighth heaven of the Chaos Body!

"boom!"

The fourth level of the middle stage of the eighth heaven of the Chaos Body!

...

"boom!"

The seventh level of the middle stage of the eighth heaven of the Chaos Body!

At this time, the improvement of the Chaos Body finally stopped, and the more than a thousand dark Ganoderma lucidum obtained by Ye Feng were all consumed.

Ye Feng still had joy in his eyes at this time. He didn't expect that these more than a thousand dark Ganoderma lucidum would raise his Chaos Body to seven levels at once.

You must know that it is very difficult for Ye Feng to improve his Chaos Body. He can only be improved if he gets some good luck.

But at this moment, just swallowing these dark spiritual wisdom makes the chaotic body improve rapidly. The dark spiritual wisdom is indeed a good thing for me.

Ye Feng felt that if he was given enough dark Ganoderma lucidum, he might be able to elevate and transform the chaotic body to the Great Perfection state.

But in fact, Ye Feng was just thinking about it.

After all, there are actually only more than 10,000 dark Ganoderma lucidum in the entire dark medicine field, which is not as many as I imagined.

It seems that the cultivation of Dark Ganoderma is still very difficult.

In a sect as big as the Black Demon Sect, there are only more than 10,000 trees left after cultivation to this day.

So Ye Feng knew that his next main task was to see if he could find the legendary

The king of dark spirits.

After all, the Black Demon Sect has been establishing the sect for many years. Maybe they can really cultivate the Dark Ganoderma King, but they just won't announce it to the public.

The reason why Ye Feng followed Leng Bingling and wanted to learn to be a medicine field cultivator was that in addition to hoping to obtain the secret recipe for cultivating Dark Ganoderma, another important reason was to take a sideways look to see if there was a Dark Ganoderma King.

And just when Ye Feng was silently thinking about his little thoughts, Leng Bingling in front suddenly said: "We are here."

Ye Feng looked forward and immediately saw a black mountain.

There is a small thatched house standing on the mountain, which looks very simple.

Uh-huh!

Uh-huh!

At this time, the two of them jumped directly to the top of the mountain.

When Ye Feng arrived at this small thatched house, he immediately smelled a very complex medicinal fragrance, which contained the smell of many elixirs.

Obviously, the owner of this thatched house is constantly cultivating various elixirs every day and researching the formulas of various elixirs.

At this time, Ye Feng saw an old man with gray hair sitting inside the thatched house, looking at an ancient book in his hand, seeming to be in a deep state of understanding.

At this time, Leng Bingling, who was standing beside him, said to Ye Feng: "Master is studying the secret technique of a spiritual medicine. We can wait for a while and don't disturb him yet."

Ye Feng immediately nodded and said with a smile: "I'm not in a hurry. I'll wait until the seniors finish reading all the books."

enough

After waiting for nearly an hour, the white-haired old man in the thatched hut finally closed the book in his hand, then looked at the two young people standing outside the thatched hut, and said aloud: "Bing Ling, what's the matter??"

Leng Bingling hurriedly took a step forward and said: "Master, this junior brother I just met wants to learn the art of medicinal field cultivation and become a glorious medicinal field cultivator, so I brought He came to you, Master, and asked Master to see if he has the qualifications to learn the art of cultivation in the medicinal field."

The white-haired old man stood up, looked at Ye Feng who was standing next to Leng Bingling, nodded slightly, and said aloud: "Since he has such a strong desire to learn, I will help him test it and see. Do you have talent in this area? If so, it will be a good thing for our pharmaceutical field training department to have another member. "

At this time, the white-haired old man said and walked directly in a certain direction outside the thatched house.

Leng Bingling looked at Ye Feng beside her and said, "Junior Brother Ye Feng, let's follow."

"good."

Ye Feng walked quickly in the direction of the white-haired old man.

Leng Bingling was also following, obviously very curious about whether Ye Feng could become a qualified medicine field cultivator. .??.

Because if you want to become a medicine field cultivator, you need innate qualifications, and you cannot become a medicine field cultivator just by studying.

Just like an alchemist, you need to test your innate aptitude.

For Leng Bingling, she still very much hopes that Ye Feng can become a medicine field cultivator.

After all, she had a good impression of Ye Feng.

And all this time, Leng Bingling has been cultivating the medicine field alone, very lonely.

So if

If she can have one more partner, it will also be of some help to her boring daily life.

Soon, the white-haired old man led the two of them to the southwest of this mountain.

The next moment Ye Feng saw a huge ancient stone tablet, standing at the top of the mountain, it looked very tall.

Like a huge stone tablet in the divine realm, standing between heaven and earth, it has a majestic and vast momentum.

After getting closer, Ye Feng discovered that this huge stone tablet was densely engraved with ancient characters.

These ancient characters are incomprehensible, as if they are characters from another world.

At this time, Leng Bingling suddenly whispered in Ye Feng's ear: "Junior Brother Ye Feng, I heard Master said that this stone tablet fell from the endless sky. I don't know if it fell from a higher place." What falls from the realm still falls from the extraterrestrial world outside the origin world. It is precisely because of this mysterious stone tablet that the origin of the Yaotian cultivator comes. Master has many things to do about Yaotian cultivation. The master's insights, including the secret recipe for cultivating Dark Ganoderma, were gained from this stone tablet. Moreover, this stone tablet can also detect whether a person possesses the innate talent of a medicinal field cultivator. The master calls it the 'holy tablet'."

Hearing what Leng Bingling said, Ye Feng suddenly nodded.

Ye Feng was originally very doubtful as to why a small Black Demon Sect had a method to cultivate something as rare and precious as Dark Ganoderma.

It turns out that it came from this ancient stone tablet. This ancient stone tablet definitely has an extraordinary origin!

At this time, the white-haired old man in front suddenly turned around, looked at Ye Feng behind him, and said loudly: "Stand over here, and sense each other with this ancient holy monument with your heart."

Chapter 3256 Selection of Holy Monument

When Ye Feng heard what the white-haired old man said, he immediately nodded, walked forward, and stood in front of the ancient holy monument.

At this time, the white-haired old man said: "Press your palm on this ancient holy monument, and then feel it with your heart. If you have the qualifications to become a medicine field cultivator, this holy monument will respond. of."

"Okay, thank you senior for your advice."

Ye Feng immediately nodded, then stretched out a hand and pressed it directly on the ancient stone tablet in front of him.

Almost at this moment, Ye Feng immediately felt the vast energy contained in this ancient stone tablet.

Although from a distance, this stone tablet seems to be very unremarkable and ordinary.

But the moment you touch the stone monument, it feels like you are touching a mysterious and vast world.

It is as if there is a huge world contained in this stone tablet, which makes people feel small, as if the whole person has been sucked into it.

"Buzz!"

At this moment, the entire stone tablet began to emit light.

In the middle of the stone tablet, a huge word "medicine" appeared. The whole body was composed of light, which looked very magical.

"Junior Brother Ye Feng has actually been recognized by the Holy Monument, which means that Junior Brother Ye Feng can completely become a qualified medicine field cultivator!"

At this time, Leng Bingling, who was watching not far away, spoke happily.

Originally, Leng Binling brought Ye Feng here just to give it a try, but she actually didn't have much hope.

After all, it is too difficult to get the recognition of the Holy Monument.

This can be seen from the fact that the Black Demon Sect has hundreds of thousands of disciples, but only a few have become medicine field trainers.

"good."

The white-haired old man couldn't help but nodded at this moment, and seemed quite satisfied.

satisfy.

Because good seedlings that can become medicine field cultivators are not common.

"Buzz!!"

But at this moment, the light on the holy monument became stronger and stronger.

Then the entire holy monument rose up from the ground with a "boom", quickly shrank, and entered Ye Feng's dantian.

"What?!"

Seeing this scene, the white-haired old man and Leng Bingling present had deep horror in their eyes.

This medicine field holy monument has stood in the back mountain area of the Black Demon Sect for many, many years, estimated to be tens of thousands of years.

But I didn't expect that this cold medicine field holy monument would suddenly undergo such a change and directly enter Ye Feng's dantian.

At this moment, Ye Feng opened his eyes, feeling very confused and at a loss, and said, "What's going on?"

Uh-huh!

The white-haired old man flashed in front of Ye Feng in an instant, stretched out an old palm and pressed it on Ye Feng's dantian.

At this time, the white-haired old man saw that in the space of Ye Feng's dantian, the sacred tablet of the medicine field was rising and falling in it.

Ye Feng quickly asked: "Senior, this..."

"No need to explain."

The white-haired old man shook his head and said: "This matter has nothing to do with you. As a young man, you cannot have the strength to steal the holy monument into your body. It is the independent choice of the holy monument."

The white-haired old man seemed to have high respect for this sacred tablet of the medicinal field. After all, everything he learned about cultivating a medicinal field was learned from this sacred tablet of the medicinal field.

So gray hair

The old man respects the Holy Monument's own choice.

The white-haired old man said: "Since this is the Holy Monument's own choice, I won't say anything more. Ye Feng, I announce that from now on, you can directly become a formal member of our medicine field cultivation department. You can Open up a medicinal field in the surrounding back mountain area and plant various elixirs. You can harvest half of the elixirs you grow. "

"Can I harvest half of it myself?"

Ye Feng's eyes suddenly lit up with joy.

Using the resources and seeds of the sect, you can harvest half of the harvest if you plant them.

This is a huge benefit.

Ye Feng couldn't wait to start farming immediately.

However, Ye Feng still has one more thing to do now, and that is to inquire about the Dark Ganoderma King.

But Ye Feng naturally would not ask the white-haired old man directly, so as not to arouse the old man's suspicion.

Ye Feng and Leng Bingling walked towards the distance at this time, preparing to select a medicinal field and start planting. ??

On the way there, Ye Feng pretended to be unintentional and asked: "By the way, Senior Sister Leng, before I came to the Black Demon Sect, I heard a legend. It is said that our Black Demon Sect has a legendary...Dark Ganoderma King. It is said that it takes hundreds of thousands of years to cultivate, which is very rare."

There was a twinkle in Ye Feng's eyes, and he seemed a little nervous, because he was afraid that Leng Bingling would doubt his purpose.

But when Leng Bingling heard what Ye Feng said, she didn't seem to be surprised. She just said casually: "There is indeed this legend, and there have even been many super strong men from other sects who came to our black The Demon Sect wants to obtain part of the legendary Dark Ganoderma King to activate the ancient god-level bloodline for future generations."

When Ye Feng heard this, his eyes immediately showed curiosity and asked: "Have those super strong people asked for it?"

"Of course not."

Leng Bingling smiled and said: "Because the Dark Ganoderma King is just a legend. Think about it, how could the Dark Ganoderma King, which takes hundreds of thousands of years to be born, exist? Anyway, I think this is just a legend, and I I have never heard Master say anything about the Dark Ganoderma King."

After saying that, when Ye Feng heard it, there was a hint of disappointment in his eyes, because Ye Feng's main purpose of coming to the Black Demon Sect in the first place was to find the Dark Ganoderma King.

Although he is doing well now, what Ye Feng hopes most is the Dark Ganoderma King.

But at this time, Leng Bingling suddenly seemed to have thought of something, and said loudly: "Oh no! I suddenly remembered that when I was young, I seemed to have heard my master vaguely

mention that in our Black Demon Sect, Deep in the back mountain area, there is a very scary place, called the Forbidden Demon Land. In the Forbidden Demon Land, there lives a very terrifying existence. It is said that that terrifying existence is the darkness that has become a spirit. King Lingzhi, it's just that Master has only mentioned it once in these decades."

Hearing what Leng Bingling said, Ye Feng's originally disappointed eyes suddenly shone again.

Because even if it is just a legend, it still represents a hope that maybe the Dark Ganoderma King can really be found.

However, Ye Feng would definitely not rush to that forbidden land of magic at this time.

Because it must be very scary.

Only when his strength reaches a very powerful level will Ye Feng go looking for it.

And if you think about it, you know that if the dark Ganoderma lucidum, which has been growing for hundreds of thousands of years, really becomes a spirit, its own strength will definitely be very terrifying.

Without enough strength, it is impossible to suppress and conquer.

So Ye Feng knows that now he should honestly improve his strength.

Chapter 3257 Is this an illusion?

Half an hour later, Ye Feng followed Leng Bingling to a certain location in the back mountain area.

This is a deserted land outside the medicine field area.

Leng Bingling pointed at the large deserted land around her and said, "Junior brother Ye Feng, this is where you need to open up wasteland next. Here you can plant all kinds of elixirs at will, including dark Ganoderma lucidum. , you can get the seeds you need directly from the central hall of our Black Demon Sect, just take the identity token of our medicine field cultivator."

When Ye Feng heard what Leng Bingling said, he looked at the desolate land around him with a hint of surprise in his eyes.

I didn't expect that I would need to open up wasteland for the Black Demon Sect. .??.

But if you want to get it, you definitely need to pay.

After all, there is no such thing as a free lunch.

Ye Feng immediately nodded and said, "Okay, Senior Sister Leng, I understand."

Uh-huh!

At this time, Leng Bingling directly threw a token to Ye Feng and said loudly: "Your medicine field trainer identity token is still being produced. You can use my token first. "

Ye Feng immediately clasped his fists and said, "Thank you, Senior Sister Leng."

Leng Bingling nodded slightly, and then said aloud: "Then I'll leave here first. The process of land reclamation is included in the introduction manual. If you have any questions that you don't understand, or you feel a little bored, you can go to the southwest at any time. Look for me in the direction, I am responsible for the management and cultivation of the medicinal fields in the southwest."

Ye Feng nodded immediately and said loudly: "Okay, I understand."

Uh-huh!

Leng Bingling also nodded slightly at this time, then glanced at Ye Feng, then jumped and left here.

At this moment, Ye Feng was looking towards the large area of desolate land around him.

Ye Feng doesn't think it is difficult to open up wasteland.

Because you must know that Ye Feng once awakened a very special chaotic body bloodline talent.

That is the sixth talent of the sixth heaven of the Chaos Body, the spring water of evolution!

Ye Feng can generate evolutionary spring water by consuming his soul power.

Irrigating seeds and seedlings allows these elixirs to grow quickly.

Evolution spring water is simply an artifact for cultivating elixirs!

Therefore, Ye Feng is very confident about his next land reclamation.

Moreover, quickly cultivating Dark Ganoderma can also quickly and continuously improve Ye Feng's Chaos Body.

After all, the white-haired old man said before that as long as he can cultivate various elixirs, he only needs to contribute half to the sect, and the remaining half can be kept for himself, which is equivalent to a 50-50 split.

The seeds of Dark Ganoderma can be obtained continuously for free in the central hall of the Black Demon Sect.

However, Ye Feng knew that if he wanted to generate evolutionary spring water, he would need to consume a lot of his soul power.

"Fortunately, my soul power has been greatly enhanced during this period, which should be enough for me to use in a short period of time."

Ye Feng couldn't help but murmured at this time.

However, Ye Feng knew that this was not a long-term solution after all.

Because it is impossible for him to stay in the Black Demon Sect forever.

It seems that I still need to carefully explore the sacred monument that entered my Dantian before.

On the holy monument, not only the secret recipe for cultivating Dark Ganoderma is recorded, but also many other elixirs, which are definitely very extraordinary treasures.

"But I don't know why this holy monument suddenly entered my Dantian, and it seems to be the choice of the holy monument itself?"

At this time, Ye Feng asked aloud in his mind: "Emperor Chu, do you have any ideas?"

Emperor Chu was silent in his mind for a moment, and then said aloud: "I'm not sure about this, because when this holy monument entered your Dantian, nothing in your body seemed to have any fluctuations, so I don't know what to do now. I'm not sure what the reason is for letting this holy monument enter your Dantian, but in any case, this is a good thing. This holy monument has no responsibility for you.

He's influence, on the contrary, records countless knowledge about elixirs. You can slowly understand in the future that this stone tablet should be an artifact-like existence from outside the territory. "

Hearing what Emperor Chu said, Ye Feng's eyes were a little surprised, but he didn't expect that Emperor Chu didn't know.

"Well, it seems we can only wait and explore slowly later."

Ye Feng could only give up at this time, and stopped thinking about this matter for the time being, but quickly flew towards the central hall of the Black Demon Sect.

When Ye Feng arrived at the central hall, he took out Leng Binling's identity token without any hesitation, and then asked for tens of thousands of Dark Ganoderma seeds.

Ye Feng did not take the seeds of other elixirs, because Ye Feng was not interested in other elixirs now.

The only thing Ye Feng is interested in now is the dark Ganoderma lucidum that can enhance his bloodline ability.

As long as Ye Feng can grow enough Dark Ganoderma, even if he only shares half of it, it will be a huge wealth and can greatly improve the Chaos Body.

At this time, Ye Feng is looking forward to cultivating Dark Ganoderma more and more. After all, this kind of thing can quickly improve his chaotic bloodline and allow his chaotic body to evolve quickly.

So at this time, all the seeds Ye Feng got were dark Ganoderma seeds.

When Ye Feng returned to the medicine field area, he came to a deserted place where he grew elixirs.

Wow!

At this moment, Ye Feng directly sprinkled all the tens of thousands of dark Ganoderma seeds on the ground.

If it were an ordinary medicine field cultivator, he would slowly release his own power at this time to nourish these seeds, and create formations to cultivate the seeds so that they could germinate and grow quickly.

The entire process is estimated to take several months.

But at this moment, Ye Feng did nothing. He just quickly stimulated his sixth talent of Chaos Body, Evolution Spring Water.

"Buzz buzz!"

At this time, as Ye Feng quickly consumed his soul,

With such force, a spring of water surged out of Ye Feng's mind and sprinkled on the ground.

What's amazing is that the moment Ye Feng's evolutionary spring water was sprinkled on the ground, the entire barren land seemed to be filled with infinite vitality.

Those seeds had just been sown on the ground, and at this moment they began to sprout, then grow, and gradually grew into the form of dark Ganoderma lucidum.

If other people saw this scene, their eyes would probably be shocked.

Because this is so amazing.

Ye Feng's evolutionary spring water can infinitely shorten the time for seeds to grow into dark Ganoderma lucidum.

If it were anyone else, it would probably take several months or even half a year to grow tens of thousands of Dark Ganoderma.

But now, it only took Ye Feng a few minutes for tens of thousands of Dark Ganoderma to appear!

I have to say, this is absolutely amazing.

But in Ye Feng's hands, it can be realized.

However, Ye Feng cultivated and grew tens of thousands of dark Ganoderma lucidum at this time, which also consumed a lot of his soul power.

This made Ye Feng feel a little dizzy.

But even though he felt a little over-spent, Ye Feng still had a happy smile on his face.

Tens of thousands of dark Ganoderma lucidum trees!

Even if half of it needs to be handed over to the sect.

Then I can harvest nearly 10,000 dark Ganoderma lucidum trees!

"Junior Brother Ye Feng, I just forgot to tell you the basic cultivation method of Dark Ganoderma..."

At this time, the voice of senior sister Leng Bingling suddenly sounded not far away.

But when Leng Bingling came to the area where Ye Feng was and looked at the dark Ganoderma lucidum all over the mountains and plains, a trace of dullness suddenly appeared in her beautiful eyes.

"Is this... is this an illusion?"

Leng Bingling said a little dumbfounded.

Chapter 3258 Crazy improvement

At this time, Ye Feng's eyes showed a trace of astonishment. He did not expect that the senior sister Leng Bingling would come back suddenly.

Seeing the confused expression of the other party, Ye Feng immediately explained: "I have a kind of magical spring water, which I got when I was training in an ancient ruins. This kind of spring water can give birth to seeds and grow quickly. for a mature state."

"And this magical spring water?"

Leng Bingling's eyes showed deep horror for a moment, and then he was filled with huge surprise. He quickly said: "In just a few minutes, tens of thousands of dark Ganoderma lucidum trees can be matured in an instant. Junior Brother Ye Feng, You are simply amazing!"

At this moment, Leng Bingling said that she couldn't help but walked up to Ye Feng, her beautiful eyes were full of surprise, and she seemed to want to give Ye Feng a big hug immediately.

But Leng Bingling held back. After all, she and Ye Feng had only known each other for a short time, so this seemed a bit rude and a bit abrupt.

At this time, Ye Feng said aloud: "Senior Sister Leng, where do I need to hand over half of the Dark Ganoderma to the sect now?"

"Wait a minute."

Leng Bingling suddenly spoke up: "Junior Brother Ye Feng, please don't hand it over to the sect yet. Handing it in so quickly will definitely arouse the suspicion of those who are interested in the sect. If they discover your evolutionary spring water, , that will definitely cause huge disasters. This magical spring water will probably make the entire Black Demon Sect go crazy. Junior Brother Ye Feng, please accept all these dark Ganoderma lucidum yourself. Our sect stipulates that it only needs to be uploaded within three months. Just pay it once."

Hearing what Leng Bingling said, Ye Feng immediately looked at the other party very deeply.

I didn't expect that Senior Sister Leng would think about me like this immediately.

Ye Feng understood that the other party was definitely a close friend.

Ye Feng immediately said: "Okay! Thank you, Senior Sister Leng, for the reminder!"

Leng Bingling nodded and said solemnly: "Master, I will keep this matter a secret. Don't talk about it everywhere, otherwise, it is very likely to attract other people's attention."

Coveted by others. "

When Ye Feng heard this, he immediately nodded solemnly.

Then Ye Feng seemed to have thought of something, and immediately produced a large jar of evolutionary spring water and placed it in Leng Bingling's hand in front of him.

Leng Bingling couldn't help but said in surprise: "Junior Brother Ye Feng, what do you mean?"

Ye Feng smiled slightly and said: "This is a little thought from my junior brother. Thanks to senior sister Leng's care during this period, I can plant medicinal fields here so smoothly."

Hearing this, Leng Bingling immediately said: "These are what I should do. Your magical spring water should also be limited. The more you use it, the less it will be. I can't have it."

"Take it."

Ye Feng grinned and said very generously: "Senior Sister Leng specializes in cultivating medicinal fields, and occasionally needs this evolutionary spring water. I am not a person who repays kindness without repaying it. This is my feeling for Senior Sister Leng, Senior Sister Leng You are welcome."

"this....."

Seeing Ye Feng's sincere expression, Leng Bingling nodded slowly and collected the large jar of evolutionary spring water.

At this moment, Leng Bingling's cold and beautiful face still had a deep look of joy.

Because Leng Bingling, as a medicine field cultivator, deeply understands how magical this evolutionary spring water is.

For the growth of elixirs, it is simply a magical tool.

At this time, Leng Bingling Weiwei nodded, and then said loudly: "Then I won't disturb you, Junior Brother Ye Feng."

Uh-huh!

After finishing speaking, Leng Bingling knew that Ye Feng must refine these dark Ganoderma lucidum, so she left the scene directly without wasting Ye Feng's time.

Ye Feng stared at this time

Leng Bingling's beautiful back retreated, and she immediately began to turn around and look at the tens of thousands of dark Ganoderma lucidum growing in the deserted land.

Leng Bingling was right. If he handed over half of the Dark Ganoderma to the sect so quickly, then there would definitely be important people in the Black Demon Sect paying attention to him, and the consequences would definitely be very troublesome.

"Swallow!"

At this moment, Ye Feng did not hesitate and directly released his Devouring Domain.

Buzz!

In an instant, the devouring power of infinite darkness spread out from Ye Feng's body, covering the entire medicinal field planted by Ye Feng. .??.

"Crash!"

Immediately, all the special medicinal power in the Dark Ganoderma was absorbed and injected into Ye Feng's limbs and bones, quickly increasing Ye Feng's chaotic bloodline.

"Buzz!"

Ye Feng could immediately feel that his chaotic bloodline was undergoing rapid transformation and improvement.

The strength of the chaotic body began to increase rapidly at this moment.

"boom!"

The eighth level of the middle stage of the eighth heaven of the chaotic body!

"boom!"

The ninth level of the middle stage of the eighth heaven of the chaotic body!

"boom!"

The tenth level in the middle of the eighth heaven of the Chaos Body!

"boom!"

The first level of the late eighth heaven of the Chaos Body!

...

Half an hour passed.

Ye Feng's Chaos Body quickly accumulated transformations and actually broke through to the late tenth level of the eighth heaven of the Chaos Body!

There is only one step left to transform into the eighth level of heavenly perfection.

"so amazing!"

Even Ye Feng's own eyes were filled with deep excitement. \u003c

br\u003e

Because this special dark Ganoderma has a great effect on improving your bloodline.

For the next few days, Ye Feng quickly consumed his soul power, spawning evolution springs, planting dark Ganoderma lucidum, and then devouring and absorbing the special medicinal power that could evolve his bloodline.

In just a few days, Ye Feng's Chaos Body bloodline was directly promoted to the tenth level of Chaos Body Dzogchen by Ye Feng!

It's just one step away from breaking through to a whole new level.

But Ye Feng suddenly discovered that he had become resistant to Dark Ganoderma because he used too much Dark Ganoderma in a short period of time.

In other words, within a short period of time, Ye Feng continued to use Dark Ganoderma, which had no effect on him.

This made Ye Feng slightly dumbfounded. After all, Ye Feng originally wanted to rush directly into the ninth level of the Chaos Body in one go, allowing his Chaos Body to undergo qualitative transformation and awaken a powerful Chaos Bloodline talent.

But I didn't expect that because I took too many medicines in a short period of time, I developed resistance to Dark Ganoderma.

However, in just a few days, Ye Feng's chaotic body has made a huge breakthrough, and his physical strength has increased by an unknown number of times.

Ye Feng was also very satisfied.

At this time, Ye Feng went to the central hall to get a lot of Dark Ganoderma seeds, planted them, and watered them with some evolutionary spring water to let the seeds grow slowly.

Then, Ye Feng walked directly towards the entrance of the Black Demon Sect.

Ye Feng was going to find core disciples like Zhu Wudao to explore the super-large mineral vein in the Demon Realm.

In the past few days, Ye Feng has been absorbing Dark Ganoderma like crazy, and the strength of his Chaos Body has directly reached the tenth level of the Eighth Heavenly Perfection. Ye Feng's body strength has improved by an unknown amount compared to before, and his overall combat power has naturally made a huge leap forward.

Therefore, Ye Feng also gained a lot of confidence in exploring the dangerous super-large mineral veins in the Demon Realm.

Chapter 3259 Falcon Team

For Ye Feng, the most important thing now is still improving his skills and cultivation.

Half an hour later, Ye Feng arrived at the entrance of the Black Demon Sect.

The first thing he saw was Zhu Wudao and a group of core disciples of the Black Demon Sect, waiting at the entrance of the sect.

The faces of these core disciples all have a trace of anxiety, and they have obviously been waiting here for a long time.

At this moment, Ye Feng suddenly remembered that the time he had agreed with this group of people was three days.

But Ye Feng forgot about this time because he was too crazy about cultivating dark Ganoderma and increasing his blood energy.

It is estimated that a full four or five days have passed now.

So this group of people waiting here seemed a little anxious.

However, what surprised Ye Feng was that Zhu Wudao and a group of core disciples did not leave after waiting for him for so many days, which showed that the other party really wanted to explore the super-large mineral vein and get benefits from it.

Ye Feng thought of this, walked over directly, and said loudly: "It seems that you have been waiting for a long time."

"Senior Brother Ye Feng!"

Seeing Ye Feng appear, Zhu Wudao and other core disciples of the Black Demon Sect showed deep surprise in their eyes.

After waiting here for so many days, they finally found the rightful owner.

Because these core disciples of the Black Demon Sect knew very well that if Ye Feng did not go with them, they would not be able to covet that super large mine.

Because their strength is simply not enough to compete with the many terrifying monsters guarding the mines.

At this time, Ye Feng came over, and Zhu Wudao showed a hint of surprise in his eyes.

Because he could sense keenly that Ye Feng seemed to be much stronger than before, but the cultivation aura of Ye Feng was still at the fifth level of the Heaven-Suppressing Realm.

"What on earth is going on? Senior Brother Ye Feng has not achieved a breakthrough in cultivation, but it gives me the feeling that he is much stronger than before, like a humanoid wild beast. It is really terrifying, Ye Feng What changes have happened to senior brother?"

At this time, Zhu Wudao couldn't help but feel secretly horrified in his heart.

However, he did not ask anything directly face to face, because he knew very well that Ye Feng's body had definitely undergone incredible changes, but it was not something he could ask casually.

However, Zhu Wudao was still happy in his heart. Ye Feng's strength had been inexplicably improved, which would also be of great benefit to their subsequent exploration of the super-large mineral vein.

At this moment, Zhu Wudao immediately spoke out: "Senior Brother Ye Feng, since you are here, let's set off directly to the super large mineral vein in the Demon Realm to avoid long nights and dreams."

"good."

Ye Feng also nodded at this time and said loudly: "Then let's set off directly. I am also very interested in that super large mine, but don't worry, since this time we are cooperating to develop that super large mine, If we can really succeed in killing all the monsters guarding the mineral veins and obtain the mineral resources in the super-large mineral veins, I will definitely give you some of them, which is what you deserve."

Hearing what Ye Feng said, Zhu Wudao and a group of other core disciples couldn't help showing expressions of joy on their faces.

They had always been afraid that Ye Feng would kill the donkey when the time comes, but now Ye Feng has spoken out directly and will allocate part of the resources to them. That will be stable, and they don't have to worry about anything. They can be sincere. of cooperation.

The reason why Ye Feng said this was to stabilize the emotions of these core disciples, so that they could cooperate well and strive to successfully obtain the super-large mineral vein.

And it is impossible for Ye Feng to do something like killing a donkey. After all, although Ye Feng feels that he is not a good person who is willing to help others every day, he is not a bad person either. He still has his own moral standards and will not do something unfaithful or unjust.

At this time, Ye Feng, followed by Zhu Wudao and a group of core disciples of the Black Demon Sect, jumped directly, a protective light appeared on his body, flew to high altitude, faced the sharp wind, and headed towards someone outside the Black Demon Sect. Flying quickly in one direction.

Not long after everyone left, another group of people suddenly appeared in the entrance area of the Black Demon Sect.

This group of people are all very young, and their cultivation aura is very powerful. Their overall strength is even much stronger than that of Zhu Wudao and other core disciples.

In particular, the young man in green robes headed by this group of people had an aura of cultivation that was even more unfathomable and much more powerful than Zhu Wudao.

This person is called Ying Changkong, and he is also a powerful figure among the core disciples of the Black Demon Sect. The group of core disciples he leads is the "Falcon Squad", which is much stronger than Zhu Wudao's squad in terms of overall strength.

At this time, a member of the Falcon Team said to the leader Ying Changkong: "Senior Brother Ying, is the place they went to the rumored super-large mine vein?"

A cold smile appeared on Ying Changkong's face, and he said aloud: "One hundred percent yes, I have bribed a core disciple under Zhu Wudao in the past few days, and I have determined that the place they are going to this time is that precious... Incomparably large mineral veins, but this time they are said to have hired a master, who should be the young man in white they met just now, but the aura of cultivation on that young man in white is a whole level lower than mine, I guess I am also a Those flashy guys, we just need to follow them secretly, and when they fight the guardian

beast in that super-large mine, we will both lose, and then we will come out from the darkness and reap the benefits, hahaha.”

"Senior Brother Ying is wise!"

The dozens of core members of the Falcon team around him were all excitedly clasping their fists and saying respectfully at this moment.

...

At this time, a group of core disciples such as Ye Feng and Zhu Wudao had completely left the Black Demon Sect's base camp and came to the depths of the dark forest.

Ye Feng asked aloud: "Are we going to pass through some passage to enter the world of demons?"

"Need not."

What surprised Ye Feng was that Zhu Wudao actually shook his head, and then said with a smile: "The end of the dark forest near our Black Demon Sect is already connected to the edge of the interface with the Heavenly Demon Realm. We can directly Pass through the dark forest and enter the realm of the dark devil."

"What?"

When Ye Feng heard what Zhu Wudao said, there was a hint of surprise in his eyes.

Unexpectedly, the land on the edge of the interface of the Demon Realm is actually connected to the Star Territory, right at the end of this dark forest! For Ye Feng, the most important thing now is still improving his skills and cultivation.

Half an hour later, Ye Feng arrived at the entrance of the Black Demon Sect.

The first thing he saw was Zhu Wudao and a group of core disciples of the Black Demon Sect, waiting at the entrance of the sect.

The faces of these core disciples all have a trace of anxiety, and they have obviously been waiting here for a long time.

Ye Feng thought of this, walked over directly, and said loudly: "It seems that you have been waiting for a long time."

"Senior Brother Ye Feng!"

Seeing Ye Feng appear, Zhu Wudao and other core disciples of the Black Demon Sect showed deep surprise in their eyes.

However, he did not ask anything directly face to face, because he knew very well that Ye Feng had definitely undergone incredible changes, but it was not something he could ask casually.

However, Zhu Wudao was still happy in his heart. Ye Feng's strength had been inexplicably improved, which would also be of great benefit to their subsequent exploration of the super-large mineral vein.

At this moment, Zhu Wudao immediately spoke out: "Senior Brother Ye Feng, since you are here, let's set off directly to the super large mineral vein in the Demon Realm to avoid long nights and dreams."

"good."

Ye Feng also nodded at this time and said loudly: "Then let's set off directly. I am also very interested in that super large mine, but don't worry, since this time we are cooperating to develop that super large mine, if we can really succeed in killing all the monsters guarding the mineral veins and obtain the mineral resources in the super-large mineral veins, I will definitely give you some of them, which is what you deserve."

Hearing what Ye Feng said, Zhu Wudao and a group of core disciples couldn't help showing expressions of joy on their faces.

They had always been afraid that Ye Feng would kill the donkey when the time comes, but now Ye Feng has spoken out directly and will allocate part of the resources to them. That will be stable. They don't have to worry about anything and can be sincere. of cooperation.

The reason why Ye Feng said this was to stabilize the emotions of these core disciples, so that they could cooperate well and strive to successfully obtain the super-large mineral vein.

And it is impossible for Ye Feng to do something like killing a donkey. After all, although Ye Feng feels that he is not a good person who is willing to help others every day, he is not a bad person either. He still has his own moral standards and will not do anything unfaithful or unjust.

At this time, Ye Feng followed Zhu Wudao and a group of core disciples of the Black Demon Sect and jumped directly. A protective divine light appeared on his body. He flew to high altitude, faced the sharp wind, and headed towards someone outside the Black Demon Sect. Flying quickly in one direction.

Not long after everyone left, another group of people suddenly appeared in the entrance area of the Black Demon Sect.

This group of people are all very young, and their cultivation aura is very powerful. Their overall strength is even much stronger than that of Zhu Wudao and other core disciples.

Especially the young man in green robes who led this group of people had an aura of cultivation that was even more unfathomable and much more powerful than Zhu Wudao.

This person is called Ying Changkong, and he is also a powerful figure among the core disciples of the Black Demon Sect. The group of core disciples he leads is the "Falcon Squad", which is much stronger than Zhu Wudao's squad in terms of overall strength.

At this time, a member of the Falcon Team said to the leader Ying Changkong: "Senior Brother Ying, is the place they went to the rumored super-large mine vein?"

A cold smile appeared on Ying Changkong's face, and he said aloud: "One hundred percent yes, I have bribed a core disciple under Zhu Wudao in the past few days, and I have determined that the place they are going to this time is that precious... Incomparably large mineral veins, but this time they are said to have hired a master, who should be the young man in white they met just now, but the aura of cultivation on that young man in white is a whole level lower than mine, I guess I am also a Those flashy guys, we just need to follow them secretly, and when they fight the guardian beast in that super-large mine, we will both lose, and then we will come out from the darkness and reap the benefits, hahaha."

"Senior Brother Ying is wise!"

The dozens of core members of the Falcon team around him were all excitedly clasping their fists and saying respectfully at this moment.

...

At this time, a group of core disciples such as Ye Feng and Zhu Wudao had completely left the Black Demon Sect's base camp and came to the depths of the dark forest.

Ye Feng asked aloud: "Are we going to pass through some passage to enter the world of demons?"

"Need not."

What surprised Ye Feng was that Zhu Wudao actually shook his head, and then said with a smile: "The end of the dark forest near our Black Demon Sect is already connected to the edge of the interface with the Heavenly Demon Realm. We can directly Pass through the dark forest and enter the realm of the dark devil."

"What?"

When Ye Feng heard what Zhu Wudao said, there was a hint of surprise in his eyes.

Unexpectedly, the land on the edge of the interface of the Demon Realm is actually connected to the Star Territory, right at the end of this dark forest!

Chapter 3260 Spy

Next, Ye Feng didn't ask any more questions, but followed Zhu Wudao and a group of core disciples through the entire dark forest.

When they came to the end of the dark forest, Ye Feng suddenly saw a shocking scene.

I saw that the entire sky and the earth were connected together.

This is where the two interfaces meet!

There are turbulent voids everywhere, which looks very chaotic, but it also has a shocking beauty.

Zhu Wudao couldn't help but look at Ye Feng beside him, and said aloud: "This interface intersection is full of various space cracks and space turbulence. We must be careful when traveling through this interface intersection. , if you are not careful, you may be swallowed by the turbulence of the void, or cut into countless fragments by the space cracks, so be careful."

Zhu Wudao knew very well that Ye Feng probably came here for the first time.

So he wanted to remind Ye Feng.

Zhu Wudao felt that although Ye Feng was very strong, it was certainly not enough to compete with the space cracks and void turbulence at the intersection of such terrifying interfaces.

"okay, I get it."

Ye Feng just nodded slightly at this time, with a look of indifference on his face.

This made Zhu Wudao couldn't help but smile bitterly, feeling that Ye Feng must have underestimated the dangers of space cracks and void turbulence at the intersection of these interfaces.

But Ye Feng really doesn't care, because Ye Feng owns the space gem, so he doesn't have to be afraid of the so-called space cracks or void turbulence of this space attribute.

"ah!"

Suddenly at this moment, a core disciple not far away accidentally entered a field of void turbulence and was sucked into it, causing him to scream in agony.

Uh-huh!

Ye Feng subconsciously flew over to save him, but Zhu Wudao suddenly changed his face and said: "Brother Ye Feng, please do not rescue. Once someone is sucked into the void turbulence, it will definitely be a dead end. This It's an iron law. If you try to save him, you will be sucked into the

turbulent flow of the void and die instantly. We are not cruel, because this is an iron law, and everyone must obey this iron law..."

But at the next moment, what made Zhu Wudao's face show deep astonishment was that Ye Feng actually flew into the void turbulence and successfully rescued the core disciple.

Those extremely dangerous void turbulences at the intersection of the two interfaces seemed to have no effect on Ye Feng at all.

"How can this be!"

At this moment, everyone present, including Zhu Wudao, were dumbfounded for a moment. They did not expect Ye Feng to have such a magical method.

At this time, in the minds of Zhu Wudao and a group of core disciples, Ye Feng became increasingly mysterious and unfathomable.

At this time, Zhu Wudao suddenly understood why Ye Feng had a careless expression on his face when he reminded Ye Feng to be careful about the space cracks and void turbulence.

It turns out that Ye Feng really doesn't care about these void cracks and void turbulence, and there seems to be no threat to Ye Feng at all.

"How on earth did he do it?"

Zhu Wudao had deep doubts in his heart at this time, and at the same time, he admired Ye Feng so much.

"Thank you, Senior Brother Ye Feng, for saving me!"

The core disciple who had been sucked into the void turbulence before quickly clasped his fists respectfully at Ye Feng and said gratefully.

Because if it weren't for Ye Feng, he would definitely die.

Because the Black Demon Sect has such an iron law, that is, whoever is sucked into the void turbulence at the intersection of the two interfaces will definitely die and cannot be saved at all. Whoever saves will die.

But Ye Feng broke this iron law.

While this core disciple was extremely grateful, he also had a deep respect for Ye Feng.

Because in his heart, Ye Feng already had that unfathomable feeling.

Ye Feng didn't know that his casual attack would establish an unfathomable and awe-inspiring image in the hearts of Zhu Wudao and other core disciples of the Black Demon Sect.

However, Ye Feng felt that he had just done a small thing, nodded slightly, and then said loudly: "Let's move on."

"Um?"

But suddenly at this moment, Ye Feng seemed to notice something. He glanced behind him suddenly, and then turned around quickly.

Then, Ye Feng whispered to Zhu Wudao beside him: "Does your team have any enemies?"

"Enemy?"

Zhu Wudao's eyes showed doubts, and he didn't know why Ye Feng suddenly asked this.

Ye Feng explained: "At that moment, I suddenly felt the aura of other people following us. I hadn't sensed it before, but the power of space where the interface intersected was very strong, which made me My perception has also been greatly expanded and extended. I feel that there is a large group of very powerful beings behind me, and they are following us secretly. If it weren't for the space where the interface meets,

The power has increased my perception. Maybe I haven't discovered yet, the master who can hide my normal perception. The one who can do this is probably the core disciple of the Black Demon

Sect, and it's Bi Zhu Wudao and you. You also need strong core disciples, so I asked you if you have any enemies or have you offended anyone? "

When Zhu Wudao heard what Ye Feng said, he was immediately startled. Unexpectedly, there was a large group of masters following them secretly behind them, and they were inconspicuous, indicating that their purpose was very simple, that is, to follow them. Go to that super large mine and reap the benefits.

Zhu Wudao is not a fool, it is easy to think of this.

Then he thought quickly, and then suddenly his eyes moved, and he said fiercely: "Could it be the Falcon Squad? When we were in an ancient ruins, I had some conflicts with the captain of the Falcon Squad, Ying Changkong, over the competition. A treasure. At that time, there was only one person in Ying Changkong, and I was leading my team, so under the human sea tactics, I got that kind of treasure, which made Ying Changkong hold a grudge. Ying Changkong's Falcon team, as a whole The strength is indeed much stronger than that of our team. I have always been surprised why Ying Changkong has not directly found trouble with me in the sect after returning to the sect. Could it be that he has already learned that I will go to a hotel in the near future? The secret of a super large mine, and then you want to follow me secretly and kill me at a critical moment? "

At this moment, Zhu Wudao said, feeling more and more that this was possible.

He suddenly broke out in a cold sweat.

Because if Ye Feng hadn't noticed in advance, it meant that Ying Changkong's Falcon Team had really succeeded, then they would have been completely wiped out and made wedding dresses for others. ??

At this moment, Zhu Wudao suddenly glanced at his entire team, and then secretly said to Ye Feng in a voice that only two people could hear: "I will go to the super-large mine in the Demon World in the near future. This secret Except for the core members of our team, no one knows at all. If it is really the Falcon Team that is following us, it means there is a spy in our team."

When Ye Feng heard what Zhu Wudao said, his eyes flashed slightly, and then he nodded and said, "If you want to know if there are spies, it's actually very simple. You just need to use some methods and test it."

Zhu Wudao asked: "How to test?"

Ye Feng smiled slightly, then suddenly turned around and said to the dozen or so core disciples in the audience: "I just discussed with your senior brother Zhu Wudao that we will go to the super large mine in the Demon Realm this time. It's very dangerous, so the two of us decided not to go there for the time being. We'll go back to the sect first, continue to practice for a while, and improve our strength before going over."

"What?"

When the dozen or so core disciples present heard what Ye Feng said, their expressions suddenly changed slightly.

However, Ye Feng now has a deep image of awe in everyone's mind.

So at this time, many core disciples did not say anything, but said respectfully: "Everything depends on the arrangements of Senior Brother Ye Feng and Senior Brother Zhu Wudao."

Ye Feng nodded slightly and said: "We have been on the road for so long and it is already dark now. We will camp nearby to rest for the night and return to the sect tomorrow."

When Zhu Wudao heard what Ye Feng said, he suddenly understood what Ye Feng was going to do, and immediately said: "We will stay here tonight. Let's prepare the materials for the camp."

"good."

Many core disciples nodded one after another, and then took out various camping materials from the storage rings and began to arrange them on site, preparing to stay here for one night.

night.

The moon and stars are sparse.

In the dim camp, everyone had fallen asleep in their tents.

But at this moment, suddenly a tent door opened.

A core disciple sneaked out and seemed ready to run in a certain direction outside the camp.

But just at the moment he opened the tent door.

Uh-huh! Uh-huh!

Two figures were already standing in front of him.

It was Ye Feng and Zhu Wudao!

Ye Feng smiled slightly, stared at the core disciple who sneaked out, and said loudly: "In the dead of night, you sneaked out and ran in a distant direction. Are you planning to send a message to someone?"

Zhu Wudao could no longer bear it at this time, and directly stretched out his hand to grab the core disciple's collar. In the panic expression of the core disciple, he said angrily: "Shen Wushuang! It's my fault for my ordinary life." I still treat you like a brother, but you are actually a spy! Are you the one who sneaked out at night to report the news? "

This core disciple was already livid with fear. He seemed to have never expected that he would be caught by Ye Feng and Zhu Wudao when he came out to report the news in the dead of night.

The core disciple immediately said with a trembling voice: "Yes...it's the Falcon Team."

"hateful!"

Zhu Wudao yelled: "Why? Why did you betray me?"

This core disciple was frightened to tears and said tremblingly: "Senior Brother Ying... he gave too much..."
