Chapter 3741 Mental Power Mine

I have to say that this old orc is very shameless.

He was afraid of death and wanted to escape, but he even asked his tribe to help resist Ye Feng's attack.

But this old orc man probably did a particularly good job at brainwashing.

So after the old orc man finished speaking, all the orcs in the orc tribe shouted: "Chief, run away quickly, we will die for you!"

boom! boom! boom.....

After finishing speaking, all these orcs rushed towards Ye Feng crazily, not afraid of death at all.

Seeing this scene, Ye Feng's eyes showed a hint of surprise.

I didn't expect that the orcs in this group of orcs would be so loyal to this old orc.

But this doesn't make any sense.

Because Ye Feng would never let this old orc escape.

Boom!

At this moment, Ye Feng frantically activated the terrifying power of the Skyfire Alchemy Furnace.

Wow!

Streams of terrifying molten lava all rushed out from the Skyfire Alchemy Furnace, burning crazily the orc masters rushing around.

These orc masters were unable to withstand the power of the molten metal in the Sky Fire Alchemy Furnace, and they were all burned to ashes.

Then Ye Feng directly released the Devouring Domain and began to devour the extremely powerful spiritual fragments of these orcs.

These spiritual fragments can replenish Ye Feng's soul power.

So at this moment, with Ye Feng's devouring, Ye Feng's six million level soul power suddenly began to grow continuously.

In the end it grew directly to level 6.5 million!

I have to say, this is a very big breakthrough.

At this moment, all the orcs in the tribe were killed by Ye Feng.

At this time, Ye Feng sensed that the old orc man had fled to

In the mountains in the distance.

Ye Feng didn't hesitate and rushed directly in the direction where the old orc man escaped.

Because if this old orc man is kept, he will be a hidden danger after all.

In addition, Ye Feng also wanted to find out from this orc old man those special and incomparable spiritual power gems that can directly swallow and increase spiritual power.

So at this time, Ye Feng used the power of the space gem and quickly shuttled through the wormhole in the void, and suddenly came to the back of the old orc.

"impossible!"

When the old orc man saw Ye Feng suddenly appearing behind him, he immediately turned pale with fright.

He quickly knelt on the ground with a plop, and shouted loudly: "My lord, I was wrong, my lord, I was really wrong! I shouldn't have provoked your lord."

Ye Feng stared at the old orc at this time and said loudly: "I saw you rewarded your men before. Where did you get those ores that can enhance mental power after eating them?"

Hearing Ye Feng's question, the orc old man immediately said: "Those spiritual ores are all dug out from the spiritual mineral veins deep in our primitive forest, but our tribe does not control the spiritual mineral veins. Because that special mineral vein is controlled by some of the top tribes in the primitive jungle, the spiritual ores I obtained were obtained by exchanging some resources in the tribe with other top tribes. "

Hearing what the old orc man said, Ye Feng immediately nodded slightly, then stretched out his hand, crushed the old orc man's head to pieces, and killed him directly.

At this moment, Ye Feng swallowed up the spiritual power of the old orc man. Immediately, Ye Feng's soul power increased greatly, directly rising to six hundred.

Level 600,000.

At this time, Ye Feng took the orc old man's storage ring into his hand, explored it, and found that there was a piece of spiritual power ore the size of a human head in the orc old man's storage ring.

At this moment, Ye Feng did not hesitate and began to absorb the energy in this spiritual ore.

This special ore cannot improve the practitioner's magic power or skill, but it can enhance the practitioner's spiritual power, which is really strange.

It has to be said that in all the worlds, even some ordinary interfaces may give birth to special things that are not available in the origin world.

No wonder the Wanjie Chamber of Commerce can indeed obtain many different types of goods by doing business throughout the world.

At this time, with the absorption, Ye Feng's soul power directly increased from level 6.6 million to level 6.61 million.

At this moment, Ye Feng's eyes lit up immediately.

This is just a spiritual ore the size of a human head. After absorbing the energy in it, it can actually increase one's soul power by ten thousand levels.

This is a very incredible thing.

Because Ye Feng has never seen a resource that can improve his soul power so quickly.

At this moment, Ye Feng thought of what the old orc man said, and he suddenly wanted to go to those big tribes to find the veins that stored this kind of spiritual ore.

Because Ye Feng knew very well that his first mission came to this orc interface, and he would probably leave after the mission was completed.

If you don't take advantage of this opportunity to plunder as many veins of this spiritual ore as possible, then you may not have the chance to come to this interface in the future.

So at this time, Ye Feng no longer hesitated and left here directly, flying quickly towards the depths of this primitive forest.

\u003e

On the way, Ye Feng exuded his huge soul power and wanted to see if he could find some veins of spiritual power that had not yet been mined.

Ye Feng is a soul master among the human race, so if he encounters those unexploited spiritual power veins, he should be able to sense them.

But Ye Feng didn't feel it.

Three full days later, Ye Feng met a top tribe.

This tribe has even formed a very powerful cultivation civilization and built towering city walls. It no longer looks like a primitive tribe.

Ye Feng did not get close to this top tribe, because Ye Feng could sense the super strong people in this top tribe, and their mental power was very terrifying.

Ye Feng used the Divine Eye of Creation to even see a huge spiritual storm covering an area of more than 100,000 meters, spinning invisibly throughout the area of this top tribe.

This shows that there must be very terrifying spiritual powerhouses in this top tribe, which Ye Feng cannot currently fight against.

Even if Ye Feng owns the Heavenly Fire Alchemy Furnace, he still can't fight against the top spiritual powerhouse.

Therefore, Ye Feng did not directly enter this top tribe for the time being, but lurked around, hoping to see if he could find an opportunity to contact the tribesmen in this top tribe and see if he could get the location of the surrounding spiritual power veins. Where exactly.

Ye Feng never thought about digging up all the spiritual power veins in the entire primeval forest.

Because that's unrealistic.

Now Ye Feng would be satisfied as long as he could obtain a spiritual power mine, which would definitely give his soul power a huge boost.

So Ye Feng was temporarily lurking around this top tribe, trying to find an opportunity to get in and see if he could get any information about the spiritual power mine controlled by this top tribe.

Chapter 3742 Miners

Ye Feng has been lurking around this top tribe for nearly half a month, but to no avail.

Because he has no contact with the people in this tribe at all.

This top tribe seems to have little contact with outsiders, and almost no members come out alone.

Even if they come out, there are still many extremely powerful spiritual powerhouses gathered together.

Ye Feng wanted to investigate, but there was no chance.

So in the end, Ye Feng gave up hiding. He might as well give it a try and directly transform into a member of this top tribe and blend in.

When he thought of this, Ye Feng immediately started to implement this plan.

When Ye Feng was lurking around, he had already seen members of this top tribe coming out.

Therefore, it is very simple for Ye Feng to transform into a member of this top tribe.

In addition, Ye Feng himself is a soul master with strong soul power, which makes Ye Feng's mental power also very powerful.

So pretending to be an ordinary member of this top tribe is more than enough.

Buzz!

At this time, Ye Feng's aura changed, and he had completely disguised himself as a member of this top tribe.

At this moment, Ye Feng smiled slightly, pretending to be very calm, and walked directly towards this top tribe.

When Ye Feng came to the door of this top tribe, Ye Feng immediately saw the four characters "Shenjun Tribe" written on the plaque on the gate of this tribe.

When Ye Feng saw this plaque, his eyes showed surprise.

When Ye Feng was lurking around, he had already heard from the tribe members who came out one after another that there were many top tribes in this primitive jungle, and there were many extremely powerful spiritual orcs living in them.

These strong orcs who specialize in cultivating spiritual power are also divided into levels.

The most powerful spiritual person will be called the "God King".

Therefore, only tribes with top spiritual powerhouses at the level of divine monarchs can be called divine monarch tribes.

The top tribe that Ye Feng wanted to sneak into at this time was a tribe with powerful men at the level of gods.

So at this time, although Ye Feng changed and became a member of the Shenjun tribe and wanted to blend into this tribe, Ye Feng was still very careful.

Because a spiritual powerhouse at the level of a god is absolutely terrifying, and is definitely much higher than his current soul power realm.

And if he is just an ordinary practitioner, no matter how powerful his cultivation is, Ye Feng is not that afraid.

After all, Ye Feng owns the space gem and can

time to escape.

But when facing a super strong person at the spiritual level, one must be more cautious.

Because this kind of strong person can lock your mental power instantly.

Even if Ye Feng owns the space gem, once his mental power is locked, he cannot move.

After all, attacks on the spiritual level are instantaneous, and they are much faster than a battle between warriors.

So now Ye Feng naturally has to carefully blend into this top tribe.

At this moment, Ye Feng did not hesitate, took a deep breath, and then walked directly into the Shenjun tribe.

The moment Ye Feng walked into it, he was immediately shocked by the building in front of him.

I saw that every building in this tribe was very huge, very tall, very majestic, reaching through the clouds into the sky, and it was extremely spectacular.

Obviously, this Shenjun tribe is worthy of being a top tribal force with spiritual powerhouses at the level of a Shenjun. It has a very strong foundation. No wonder it can control an entire spiritual power mine.

At this time, Ye Feng got in and wanted to go to the central area of the tribe to get some news.

But just when Yin Yin had left not long ago, suddenly a large group of orc soldiers wearing black iron armor rushed over from a certain direction not far away.

The moment these orc soldiers saw Ye Feng, they immediately said: "This tribesman looks very young, and his mental power fluctuations are not very strong. He is probably a tribesman with no future. Take him to the mines." Be a coolie."

After finishing speaking, these orc soldiers came directly in front of Ye Feng, surrounded Ye Feng, and said loudly: "Now our tribe has discovered a new super-large spiritual power vein, and we need to increase manpower to mine it. Your kid's mental power is so weak that it has no other use in our tribe. Your only role now is to mine for our tribe. Only in this way can you contribute your life and your time. Don't try to resist. "

Hearing what these orc soldiers said, Ye Feng's eyes suddenly froze.

Unexpectedly, I gave him a pillow when I felt sleepy.

I was just about to go to the central area of the tribe and find out where the spiritual power mine controlled by this top tribe was, but I didn't expect that I would be arrested for hard labor.

From what these orc soldiers said, the ore vein they were about to be arrested for mining seemed to be a very large vein that had just been discovered, and it was estimated that not much had been mined yet.

Ye Feng immediately

Just started to smile.

There was no resistance at all and he was simply dragged away by these orc soldiers.

On the way being dragged away, these orc soldiers saw the happy look on Ye Feng's face and couldn't help but shook their heads and said loudly: "I didn't expect that this kid is still a fool. He just works as a free coolie. It's also good to contribute some labor force to our tribe."

While these orc soldiers were talking, Ye Feng followed these orc soldiers through a large jungle, and finally came to an area deep in the primeval forest.

Here, a huge mountain appeared in the distance.

There are many tribesmen wearing animal skin clothes, holding shovels in their hands, and they are constantly digging.

At this moment, the orc soldiers who escorted Ye Feng over immediately stared at Ye Feng and said loudly: "Hurry up and dig. You can dig one hundred kilograms of ore every day. You will have completed your task. Wait." After a month, all of this super-large mineral vein has been mined, and the Lord God of our tribe will naturally reward you hard-working miners one by one."

Hearing what these orc soldiers said, Ye Feng immediately smiled and said: "Yes, my lords, I will definitely dig hard, and I will never let you or the entire tribe down."

After saying that, Ye Feng ran directly forward and soon joined the mining team.

Seeing Ye Feng being so proactive, these orc soldiers couldn't help but shook their heads, with a trace of sadness and a trace of ridicule in their eyes. They stared at Ye Feng's busy back and said loudly: " This kid is really a fool. With his small body, I estimate that he won't be able to work for a month before he will die of exhaustion in this mine. But there is no way. Our tribe wants to develop quickly. Mining ore veins can only sacrifice these ordinary people. "

These orc soldiers spoke without any mercy in their tone, turned around and left the land of mineral veins.

This newly discovered super-large mineral vein was discovered by the top experts in their tribe. Only members of their tribe can come here to mine the mineral vein. The news has not been revealed, so there is not much powerful spiritual power. The strong ones are here to watch.

Just as the orc soldiers left, Ye Feng glanced at the backs of the orc soldiers leaving, with a hint of sneer in his eyes.

These orc soldiers actually wanted to squeeze their own labor force, so Ye Feng had to let them know how serious the consequences would be if they brought him to this super large mine.

Ye Feng was thinking in his mind at this time and did not immediately start to take action. After all, there were still people around him.

Many orc miners from other tribes were mining, and there were some soldiers wearing silver armor guarding them.

So at this time, Ye Feng was ready to wait until everyone rested at night before taking action.

Time passes quietly through your fingertips like quicksand.

Night fell in a blink of an eye.

There are eighteen full moons in the night sky in the orc interface.

So it's very bright even at night.

After midnight, all the miners in the orc tribe began to rest and fell into a deep sleep. After all, they were too tired from working during the day.

At this time, Ye Feng woke up secretly, and then flew quickly towards the mine where he worked during the day.

"stop!"

But just when Ye Feng was halfway there, a cold voice suddenly sounded: "Boy, why are you going to the mine if you don't sleep at night?"

The one who spoke at this moment was an orc soldier wearing silver armor. He seemed to be on patrol, and his mental power fluctuated very powerfully.

Ye Feng's eyes showed a gloomy look. What he wanted was to swallow up this super large mineral vein quietly, but he didn't want to provoke the mentally powerful people in these top tribes, so as not to cause more trouble.

But the next moment, Ye Feng turned his head, had a flash of inspiration, and immediately said: "Tell me, sir, I don't want to rest. I will keep working hard to mine and contribute my small strength to our tribe. I know that I am weak and cannot fight bloody battles for the tribe, but I still have some brute strength and can stay up late mining and burning my life for the tribe!"

Hearing what Ye Feng said, the orc soldier's eyes immediately froze.

It seems that he never expected that the young tribesman in front of him would actually say such words and be so enlightened.

The orc soldier immediately couldn't help but patted Ye Feng's shoulder, and said happily: "Okay, since you have such enthusiasm, then you can stay up late to mine, and the tribe will remember your achievements. of."

After finishing speaking, the orc soldier said nothing more and continued to patrol elsewhere.

Uh-huh!

At this moment, Ye Feng didn't hesitate at all and just ducked into the mine.

At this moment, the mine was pitch black and there was no one around.

Ye Feng's eyes were shining in the darkness at this time, it was a greedy light.

Next, without any hesitation, Ye Feng directly released the Devouring Domain, covering the entire mine, and began to absorb the majestic energy in the entire super-large mental power vein.

Chapter 3743 Divine Lord

"Rumble..."

At this time, as Ye Feng devoured it, a huge amount of energy was immediately absorbed by Ye Feng, and was quickly injected into Ye Feng's body from the super large mineral vein.

This energy is not ordinary mana or the power of heaven and earth, but a very special spiritual power.

After this kind of spiritual power was swallowed and absorbed by Ye Feng, it was rapidly strengthening Ye Feng's soul power.

Ye Feng could feel at this moment that his soul power was growing extremely fast.

In the end, Ye Feng's soul power directly increased from level 6.61 million to a full 10 million level.

Buzz!

At this moment, Ye Feng immediately felt that his soul level had undergone a huge transformation.

When the soul power reached 10 million levels, Ye Feng could feel that everything was different.

It is very different from the previous transformation from level five million to level six million.

When the soul power reaches ten million levels, it is equivalent to a qualitative transformation.

Ye Feng only felt that his soul power had reached a very terrifying level.

At this moment, Ye Feng discovered that all the spiritual power contained in the ores in the entire super-large mineral vein had been absorbed by him.

At this time, Ye Feng immediately walked out of the mine and wanted to leave here directly.

After all, he has absorbed the energy of an entire mineral vein, which has greatly increased his mental power. So at this time, Ye Feng is ready to leave here directly and go to the Empire of Beasts in the orc interface to meet the one who is doing the mission this time. Business leader Gu Tianhao meets.

But suddenly, the moment Ye Feng walked out of the mine, several guards around him gathered around him.

These guards in silver armor immediately stared at Ye Feng, and then couldn't help but said: "What happened in the mine? We can feel it."

It should be noted that the energy in the entire mineral vein is rapidly shrinking to the point where now, no energy fluctuations can be felt at all? "

When Ye Feng heard these guards wearing silver armor say this, he suddenly showed a trace of surprise in his eyes.

Ye Feng never thought that these silver-armored guards could sense that the energy of the entire mineral vein was quickly disappearing.

It seems that these orcs practice spiritual power and have a very sensitive perception of energy fluctuations in mineral veins that store huge amounts of spiritual power.

At this moment, Ye Feng just smiled slightly and said, "I don't know what happened."

After saying that, Ye Feng was about to fly in a certain direction in the distance.

"stop!"

But at this time, a silver armored guard immediately shouted loudly.

He stared at Ye Feng for a moment and said loudly: "I know you. You were the same person who sneaked into the mine in the middle of the night. You said you wanted to selflessly dedicate yourself to mining, but I didn't expect you." They actually did some tricks inside, and even wiped out all the energy in the entire super-large mineral vein. Come on, who are you? "

Swish, swish, swish!

After finishing speaking, these silver-armored guards from the orc tribe immediately rushed towards Ye Feng, trying to release their spiritual chains and control Ye Feng.

But at this moment, Ye Feng laughed out loud: "My spiritual power has now reached a full ten million level, and you guys want to block me? Get out of here! "

Boom!

At this moment, Ye Feng burst out with terrifying soul power.

A total of ten million levels of soul power, suddenly

A soul storm erupted from Ye Feng's body, and all of a sudden the orc guards rushing around were blown away.

"What?"

"Is this spiritual power at the level of a god?"

Almost at this moment, these guards flew out upside down, with extremely horrified expressions on their faces.

At this moment, Ye Feng just smiled faintly and said: "Don't mess with me, otherwise you will die ugly."

After saying that, Ye Feng left here directly and flew quickly in the direction outside the mine vein.

"Friend, you used special methods to plunder the spiritual energy of our entire mineral vein, and now you just leave. Doesn't it mean that you don't take me seriously?"

Almost at this moment, a majestic voice suddenly sounded.

I saw a middle-aged man wearing a red robe appearing in the direction not far away.

This middle-aged man in a red robe also holds a white scepter in his hand, looking very sacred and noble.

The fluctuations of mental power emanating from his body were actually greater than Ye Feng's 10 million-level soul power.

Ye Feng sensed that the mental power fluctuations emitted by this middle-aged man were definitely approaching fifteen million levels.

This is a very terrifying state of mental power!

Ye Feng couldn't help but said immediately: "Who are you?"

The middle-aged man in red robe said loudly: "I am the Lord God who controls this mineral tribe."

Hearing what the middle-aged man said, Ye Feng's eyes suddenly froze.

Unexpectedly, this middle-aged man in red robe was the divine king of the top tribe.

Ye Feng's face was very calm at this moment, and he said loudly: "This kind of heaven and earth talent

Whoever discovers the source and plunders it first belongs to whomever. Although your mental power is much stronger than mine, we are both god-level beings. If you want to fight with me, you will not fall behind. Good ending. "

Hearing what Ye Feng said, the middle-aged man in red robe suddenly smiled faintly and said loudly: "It's just a small super-large mineral vein, so why not give it to you? After all, you have now become a god-level figure, and I am a being on the same level, so I come to you not to fight with you, but to discuss cooperation with you."

"Talk about a cooperation?"

Hearing what the middle-aged man in red robe said, Ye Feng suddenly showed a hint of surprise in his eyes and asked aloud: "What kind of cooperation do you want to discuss with me?"

When the middle-aged man in red robe saw that Ye Feng didn't seem to be in a hurry, he immediately smiled, then flew towards Ye Feng and said loudly: "We don't have any grudges in the first place. There is no need to get hurt just because of a mineral vein." Our harmony, Your Excellency's spiritual power is so powerful, you are the most powerful young orc I have ever seen. You must be a descendant of a large hidden tribe in our primitive forest, right?"

When Ye Feng heard what the Red-robed Divine Lord said, he immediately smiled and said, "So what?"

When the red-robed god heard what Ye Feng said, he seemed to think that he had guessed it right. He immediately couldn't help but said: "The cooperation I want to talk about with you naturally has huge opportunities, but it requires someone at the level of a god." Only with the highest level of spiritual power can you be qualified to cooperate with me. In addition, I have also united with several other powerful gods from the surrounding top tribes. When the time comes, we will explore the most mysterious forbidden area in this primeval forest, called 'God'. "Devil's Nest", only a sufficient number of divine monarchs unite together can open the sealing barrier of the "Devil's Nest", but the existence of divine monarch level is too rare. I didn't expect that I met a young divine monarch again. Although you We have just touched the level of the God Lord, but it is enough, so are you willing to join us to explore the lair of gods and demons?"

Chapter 3744 The Weakest

"The lair of gods and demons?"

Hearing what the red-robed lord in front of him said, Ye Feng's eyes showed a hint of curiosity.

Because for Ye Feng, the ancient ruins that such powerful men at the level of gods united to explore must be very extraordinary, and naturally have great appeal to Ye Feng.

At this moment, Ye Feng thought for a while, then looked at the red-robed divine king in front of him, and said slowly: "Okay, I am also very interested in this lair of gods and demons. I have never heard of the virgin forest. There is such a magical and special place deep down."

Hearing what Ye Feng said, the red-robed divine monarch immediately smiled and said: "This nest of gods and demons is a secret passed down by our top tribes. This time I specially unite the divine monarchs from all the top tribes. The strong men must look for this nest of gods and demons and open the sealing barrier of the nest of gods and demons. However, there are too few strong men at the level of gods and kings in our primitive forest. I have only found seven so far, but this The barrier of the Nest of Gods and Demons requires a total of nine spiritual masters of the God Lord level to open, so I couldn't find the last God Lord master, because there are only so many top tribes in our primitive forest. I didn't expect that I I am so lucky to meet you, a young and powerful person like Ye Feng."

At this time, the red-robed divine king spoke, his eyes showing deep joy.

Because Ye Feng directly agreed to his request.

For this red-robed divine king, he can explore the lair of gods and demons.

This nest of gods and demons is very ancient and extraordinary. It is said that it contains huge resources left by ancient gods and demons. It is also of great help to powerful gods and demons like them. .??.

If they can get huge opportunities in the Nest of Gods and Demons, their spiritual power level will once again rise to a very high level.

at this time,

The Red-robed God is very happy that Ye Feng can participate in their cooperation.

Because if there is a new god-level spiritual powerhouse like Ye Feng, then the nine god-lords unite and they can completely open the sealing barrier of the Nest of Gods and Demons.

In this way, they can enter the Nest of Gods and Demons, a very special ancient ruin, and look for opportunities and fortunes within it.

At this time, Ye Feng seemed to have thought of something, and couldn't help but said: "By the way, when will you open this nest of gods and demons? Because I have other things to complete, and I can't delay too long."

Ye Feng did not forget that when he came to this orc interface, the most important thing was to complete the tasks in the Wanjie Martial Arts Academy.

After all, this is your first mission, so you can't mess it up.

If you mess up, your credibility will be reduced.

When the time comes for the other two tasks that I take over, it is very likely that the employer will not let me do the tasks.

Therefore, Ye Feng could not stay in this primitive forest for too long, because he had already been delayed for a long time.

When Ye Feng heard what Ye Feng said, the red-robed god immediately smiled and said: "As long as you are willing to join us, then we have gathered nine god-level spiritual powerhouses, and we can immediately Go to the Nest of Gods and Demons and open the sealing barrier."

Hearing what the red-robed god said, Ye Feng immediately nodded with a smile and said, "That's okay. If you go to investigate right away, it shouldn't take me long."

At this moment, the two of them were talking and flying quickly in the direction of the top tribe.

After returning to the top tribe, Ye Feng enjoyed extremely high treatment because he was now a partner of the red-robed god.

Before, Ye Feng had to disguise himself to enter this top tribe, but now Ye Feng was directly and politely welcomed into the luxurious hall in the center of the tribe, enjoying the highest treatment.

The red-robed divine monarch spoke out at this time: "Ye Feng, you stay here for a while. I will now contact the powerful divine monarchs from other top tribes around and ask them to gather here as soon as possible."

Ye Feng immediately nodded and said, "Okay, then go ahead and notify."

After finishing speaking, the red-robed divine monarch immediately nodded and said, "If you need anything, just tell me."

After finishing speaking, the red-robed divine king did not walk out of the hall directly. Instead, he used the messenger talisman to notify the top experts in other tribes one by one.

Soon, Ye Feng sensed several extremely powerful mental power fluctuations, and instantly descended on this top tribe.

Ye Feng and the red-robed Divine Lord walked out of the hall, and immediately saw seven other spiritual powerhouses at the Divine Lord level, both male and female, descending from high in the sky.

Their auras are very powerful, and their temperaments are very noble. They are obviously noble beings among the top tribes.

At this moment, the moment these powerful spiritual powerhouses of the divine monarch level arrived, they saw Ye Feng beside the red-robed divine monarch, and their eyes suddenly showed surprise.

A goddess in a white dress immediately couldn't help but said: "Red-robed Divine Lord, is this the latest powerful person at the level of a god that you have found? I feel that his mental fluctuations have just been touched. At the level of a god king, is it really possible for such a low-level god king?"

The red-robed divine monarch immediately smiled and said: "Of course, the sealing barrier of the Nest of Gods and Demons, as long as it can reach the level of the divine monarch, it can help us open the sealing barrier together."

Hearing what the Red-robed Divine Lord said, a group of mentally strong men present nodded their heads without saying anything more.

After all, what they want now is to open the sealing barrier of the Nest of Gods and Demons as soon as possible.

Although Ye Feng's mental power fluctuation is the weakest among them, after all, it has touched the level of the divine king, so there should be no problem.

As for Ye Feng's mental power being the lowest among them, many gods from other tribes didn't care at all.

Because as long as they can open the sealing barrier of the Nest of Gods and Demons, they can enter the Nest of Gods and Demons and look for various opportunities and fortunes.

On the contrary, the lower the fluctuation of Ye Feng's mental power, the easier it will be for them to snatch it if they encounter any important opportunity.

Because now they seem to be in a cooperative relationship, but if they enter the lair of gods and demons, it is likely to become a hostile relationship.

After all, the chance creations in the Nest of Gods and Demons are all very high-level, and they will definitely cause competition when the time comes.

So now everyone is happy to see Ye Feng, the last god-level figure, whose mental power is much lower than them.

After all, Ye Feng will definitely not pose any threat to them.

While everyone was talking, the red-robed God Lord said aloud: "Then let's go directly to the entrance of the Nest of Gods and Demons, hurry up and open the sealing barrier of the Nest of Gods and Demons, don't waste any more time, I have been preparing for this moment for hundreds of years, and it has been too long, and now I am finally going to open the Nest of Gods and Demons. "

Chapter 3745: Seize the time

At this moment, after everyone had discussed everything, they flew directly in the direction of the lair of gods and demons.

The entrance to the Nest of Gods and Demons is in the deepest part of this primeval forest, said to be in the middle of two ancient sacred mountains.

When Ye Feng came to the depths of the primeval forest, he immediately saw two majestic and boundless ancient sacred mountains, standing on the earth in the distance.

There are many towering trees growing around, which look very primitive and ancient. There is an ancient and wild atmosphere flowing in the air.

At this time, Ye Feng stood among the crowd, looking at the two ancient sacred mountains in the distance with surprise in his eyes.

Unexpectedly, there are still such ancient mountains in the primitive forest of this orc interface.

At this moment, the Red-robed Divine Lord, as the initiator of this cooperation, stood at the front and immediately led everyone to fly to the two ancient sacred mountains. ??

At this time, the red-robed divine monarch stared at the two ancient sacred mountains in front of him, with awe in his eyes, and said loudly: "Hundreds of years ago, when I first came here, I was shocked. I didn't expect that our original There are actually two ancient sacred mountains in the depths of the forest, and in the middle of these two ancient sacred mountains, there is the entrance to the lair of gods and demons. Whether it is these two ancient sacred mountains or the lair of gods and demons, they should come from another place. The advanced interface dropped by us cannot be nurtured by the ordinary interface of our orc interface."

At this time, the red-robed lord of gods was speaking, and some other powerful lords of the top tribes standing around nodded their heads one after another and said loudly: "Our orc interface is indeed unable to produce such a wonder, it must be a more advanced world. It fell down from some high-level interface."

The red-robed divine king spoke out at this time: "Without further delay, let's take action directly."

After finishing speaking, the red-robed divine monarch took out nine tokens from the storage ring and handed them to the nine divine monarchs present.

Then the nine gods are all flying

Arriving in front of the ancient sacred mountain.

The red-robed God Lord spoke out at this time: "Input your God Lord-level spiritual power into these nine tokens, and you will be able to open the sealing barrier of the Nest of Gods and Demons."

"good."

Many powerful divine kings present, including Ye Feng, all nodded at this moment, and then began to input their huge spiritual power into the token in their hands.

boom! boom! boom.....

At the moment when many powerful gods input their spiritual power into the tokens, waves of extremely powerful energy light burst out from each token, impacting out in an instant.

A total of nine energy light waves united together at this time, forming a huge light pillar, which instantly hit the middle area of the two ancient sacred mountains in front.

boom!

"Crack!"

Almost at this moment, a gap suddenly opened in the space in the middle area of the Ancient Sacred Mountain.

When the red-robed god saw this scene, he immediately said with great joy: "A crack has been opened in the sealing barrier. Let's hurry in. Otherwise, when the crack disappears, we will not be able to enter."

After saying that, the red-robed divine king bore the brunt and rushed directly into the entrance of the sealing barrier.

Several other divine monarchs saw the red-robed divine monarch running in early, and they all followed anxiously.

Ye Feng was taking his time at this time, following behind many strong men.

Because Ye Feng was afraid that this was a conspiracy.

So he had to wait until all the strong men entered before Ye Feng entered.

into it.

Now it seems that it is not a conspiracy, this is really an ancient ruins.

Of course, for Ye Feng, the Nest of Gods and Demons was just an unexpected opportunity, and it was not the main place where Ye Feng came to the orc interface to explore.

So as long as he can find good things from the Nest of Gods and Demons, it is enough for Ye Feng.

Ye Feng didn't think about taking all the chance creations in the Nest of Gods and Demons as his own, because that was unrealistic.

After all, sometimes people can't put too much pressure on themselves.

Sometimes when the pressure is too great, people really need to maintain a romantic attitude and think that living is not a bad thing.

And at the moment when many powerful divine kings entered this sealing barrier one after another, Ye Feng also flew in.

Buzz!

The next moment Ye Fengfei entered, he immediately saw an independent small world appearing in the sealing barrier.

This small world is still very big, the world is very vast, and it is surrounded by a deserted area.

Ye Feng immediately saw at this moment that all the other powerful gods who entered it scattered around, each looking for their own opportunity.

After all, they worked together to open this nest of gods and demons.

Now that the entrance to the Nest of Gods and Demons has been successfully opened, the powerful gods and kings of the top tribes will naturally no longer unite together, but each will look for their own opportunities.

Even in the end, it is possible that for some precious chance, the major gods will even fight each other to the death.

After all, in the spiritual world, there are no permanent friends, only eternal interests.

At this time, Ye Feng looked around and found that

Almost all the gods from the top tribes have disappeared, apparently looking for their own opportunities.

Ye Feng was quite happy about this.

Because if he and these high-level god-kings were to plunder each other and fight each other for life and death due to some chance, Ye Feng might really not be able to defeat these ancient high-level god-kings.

After all, the mental power of these high-level gods is much stronger than mine. Although I also have martial arts skills, the battle on the mental level is too dangerous, and I will fall if I am not careful.

So at this time, all the major gods went to other places in the small world of the Nest of Gods and Demons to find their own opportunities. This gave Ye Feng time to grow.

If Ye Feng is given enough time to grow up, in the end, if he really encounters these high-level divine kings, he might have the confidence to fight against them.

So at this time, Ye Feng's first thought was to find an opportunity that could improve his mental level.

At this moment, Ye Feng exuded his soul power and explored the surroundings.

Ye Feng knew that he would not have much advantage in exploring this lair of gods and demons this time.

If you were looking for various ancient ruins in the past, then you are a soul master, and everyone else is a warrior. You can release your soul power and quickly find those secret opportunities that ordinary warriors cannot find.

But this time, those who entered the Nest of Gods and Demons were all extremely advanced spiritual powerhouses.

They can also release their mental power to search for various hidden opportunities.

So Ye Feng must hurry up now.

Otherwise, it would be too tragic if all the chance creations in the Nest of Gods and Demons were searched and plundered by those high-level gods.

Chapter 3746 Improving Luck

Buzz!

At this time, Ye Feng exuded his majestic soul power and covered the surrounding area.

However, Ye Feng did not find any luck along the way, because this desolate land was so huge that he could not find anything in a short time.

This made Ye Feng's eyes reveal a hint of helplessness.

Because for Ye Feng, this time the Nest of Gods and Demons is also a very critical opportunity for the improvement of his soul power.

If you can't get any good things from this nest of gods and demons, then for Ye Feng, it will be a long time wasted.

So at this time, Ye Feng felt quite anxious.

After all, this time is different from exploring other ancient ruins in the past.

The people who entered it this time were all special beings at the level of high-level gods with extremely powerful mental powers.

Therefore, if Ye Feng does not seize the time to find various opportunities, it is very likely that all the resources in this nest of gods and demons will be robbed.

But just when Ye Feng was anxious, the Demon Ancestor suddenly spoke out: "Ye Feng, where did you enter? I sensed a familiar aura."

Hearing what Demon Ancestor said, Ye Feng's eyes immediately lit up and he couldn't help but ask: "Demon Ancestor, I remember you said you had been to the primitive forest area of this orc interface and fought with the owner of the Skyfire Alchemy Furnace. But, have you ever entered this lair of gods and demons before?"

Hearing what Ye Feng said, Demon Ancestor immediately widened his eyes and couldn't help but said: "You kid actually entered the Nest of Gods and Demons? How did you enter the Nest of Gods and Demons? The entrance to the Nest of Gods and Demons But it is very difficult to find, and to open the entrance, you need a lot of top mental power experts to open it. At that time, I found the entrance to the Nest of Gods and Demons, but I could not enter because I did not practice mental

power and used force. That kind of ancient seal cannot be broken through force, which makes me feel very sorry."

Hearing what Demon Ancestor said, Ye Feng immediately said: "I cooperated with several spiritual powerhouses from the top tribes to open the nest of gods and demons and entered it. Demon Ancestor, you said you didn't have it back then. If you enter this nest of gods and demons, you probably don't know where some of the precious opportunities are created in this nest of gods and demons. It's really terrible.

What a pity. "

At this time, Ye Feng suddenly felt a little downcast when he heard that the Demon Ancestor had not entered the lair of gods and demons.

But just after Ye Feng finished speaking, Demon Ancestor chuckled and said: "Although I did not enter the lair of gods and demons back then, I had a map of the lair of gods and demons in my hand. Because I found the map of the Nest of Gods and Demons, I wanted to enter the Nest of Gods and Demons to find various opportunities. "

"What? The map of the lair of gods and demons?"

Hearing what Demon Ancestor said in his eyebrows, Ye Feng couldn't help but show surprise in his eyes immediately, and then his face showed deep surprise, and he said loudly: "Demon Ancestor, then hurry up and take out the map. , I want to plunder all the opportunities and creations in this nest of gods and demons, and I must not let such a great opportunity go to waste. "

For Ye Feng, if the Demon Ancestor had the map of the Nest of Gods and Demons in his hand, then Ye Feng would be far ahead of those spiritual masters at the level of the God Lord.

At this time, Ye Feng suddenly felt that although the Demon Ancestor's cultivation strength seemed not to be very good in ancient times, it had benefited many places in the world and was very familiar with many places. For Ye Feng, Has a huge effect.

At this moment, Demon Ancestor did not hesitate at all, and immediately used the power of his spiritual thoughts to trace the map of the lair of gods and demons that he had obtained back then, and then placed it in Ye Feng's mind.

Ye Feng immediately saw a virtual map appearing in his mind. There were many marked locations on it, which should be places where the lair of gods and demons contained various opportunities and creations.

But before Ye Feng could be happy, Demon Ancestor suddenly said: "Actually, I bought this map from a second-hand merchant. I don't know if this map is real, and this map The places marked in the map are not marked with specific information, but are just marked with a red dot. Therefore, the person who drew this map at that time specially marked so many places. What is the meaning? We are not sure about this. Maybe The map I got, the places marked are probably gods and demons

Of course, the forbidden area of the Nest may also be a place where chance and fortune are hidden, but this is not clear. "

Hearing what Demon Ancestor said, Ye Feng immediately stared blankly and couldn't help but say: "In other words, no one knows whether the location marked on this map is a forbidden area of the lair of gods and demons, or a forbidden area for gods and demons. The nest contains the place where chance creates good fortune?"

"right."

Demon Ancestor nodded and said aloud: "That's what happened."

Ye Feng suddenly showed a thoughtful expression on his face, and then said aloud: "In any case, it is better to have a map than not to have a map. Let's go to the nearest marked location and take a look. I hope my luck will be better."

After saying that, Ye Feng followed the map in his mind and immediately flew towards the nearest mark so far, full of expectations in his heart.

Half an hour later...

"Run!"

Ye Feng yelled and ran away frantically, in a very embarrassing state.

At this time, he was being quickly chased by a golden unicorn covered with golden scales.

This golden unicorn roared loudly, as if it could shatter the sky and the earth, it was very terrifying.

At this moment, Ye Feng immediately couldn't help shouting: "Demon Ancestor, this map of yours is really a scam! The first place marked turned out to be the dormant place of an ancient golden unicorn. This ancient golden unicorn is really... It was so terrifying, the roar just now almost shattered my spirit."

After saying that, Ye Feng quickly used the space gem to open up space wormholes, and finally escaped from this place completely.

Ye Feng looked behind him at this moment, with lingering fear.

He felt that even if his cultivation level improved several realms, he probably wouldn't be able to defeat this ancient golden unicorn, which was really terrifying.

At this time, Demon Ancestor also said a little embarrassedly in the space between his eyebrows: "Young man Ye Feng, you can't blame me for this. I have told you before that there is no one in the place marked on this map. I know what is hidden, it may be a forbidden place, or it may be a place created by chance."

When Ye Feng heard what Demon Ancestor said, he could only

He nodded rather dejectedly.

"correct!"

Then Ye Feng seemed to have thought of something, his eyes flashed fiercely and he said: "After my Hongmeng Immortal Body broke through to the fifth level, the Luck Crown I awakened can directly improve my luck. If I use Wearing the Crown of Luck on your head and going to a certain marked place on this map, you might be able to get some luck. "

After Ye Feng finished speaking, he immediately started experimenting.

Buzz!

He directly consumed his mental power and condensed a crown emitting golden light, which floated above his head.

Then Ye Feng randomly selected a certain mark on the map of the Nest of Gods and Demons in his mind and flew away quickly.

On the way to fly, Ye Feng kept underestimating, "The Crown of Luck bless me, the Crown of Luck bless me..."

Ye Feng knew that the Crown of Luck was a bloodline talent awakened by the Hongmeng Immortal Body entering the fifth level. It should not be so deceptive, and it might really improve his luck.

And when Ye Feng finally flew to the marked location he randomly selected, he was immediately shocked by the scene in front of him.

Wherever I saw this mark, a huge mine appeared.

This mine is all exuding the light of the soul.

Ye Feng immediately couldn't help but said with surprise: "The Luck Crown is indeed useful. It can invisibly improve my luck and allow me to invisibly choose a place marked by chance. It's great. This is a whole It's a huge mental power mine. If I absorb it, my mental power will skyrocket. Even if I encounter other powerful gods, I won't be afraid anymore! Hahaha!"

When the Demon Ancestor in the eyebrows saw this scene, his eyes widened and he couldn't help but said: "Is there really something like this in this world that can change people's luck invisibly? It's really magical! After all, luck is a very mysterious thing. Even a big figure at the dominance level probably cannot figure out such a mysterious thing as 'luck'. I have traveled all over the world in the past, and I have never encountered such a magical thing in so many years. Your talent, Ye Feng, is truly the most powerful genius I have ever seen!"

Chapter 3747 Ancient Ancestral Dragon

At this time, Ye Feng did not hesitate at all, and directly began to release the Devouring Domain, covering the entire spiritual power mine in front of him in his extremely dark Devouring Domain.

Boom!

Almost at the next moment, a huge amount of spiritual energy was immediately absorbed by Ye Feng from the mine, and then injected into Ye Feng's mind.

Ye Feng could sense at this moment that his soul power was rapidly and continuously improving.

Because mental power and soul power are interconnected, Ye Feng's absorption of this huge amount of mental power at this time can naturally increase his soul power greatly.

After Ye Feng's soul power has grown tremendously, Ye Feng's mental power will also quickly become stronger at the same time.

At this moment, Ye Feng's ten million-level soul power suddenly began to increase rapidly.

At the end.

"Boom"!

A terrifying mental fluctuation erupted from Ye Feng's body.

After Ye Feng's soul power devoured an entire spiritual power mine, it directly increased from level 10 million to level 13 million!

"Very good!"

With thirteen million level soul power, Ye Feng's face suddenly showed a look of deep surprise.

You must know that the spiritual power of the gods of several other top tribes is estimated to be around 15 million or 17 million levels.

In this case, the gap between Ye Feng and these top divine kings will become smaller and smaller.

At this moment, Ye Feng did not hesitate and continued to observe the map in his mind, wearing the Crown of Luck, and randomly selected the next mark.

Maintaining the Luck Crown requires a huge amount of mental and soul power, but Ye Feng's soul power has now directly exceeded 13 million levels, which is enough to maintain the Luck Crown for a long time.

Uh-huh!

At this moment, Ye Feng continued to fly quickly towards the next mark.

On the way, Demon Ancestor couldn't help but said in the center of his eyebrows: "If the next mark can still allow you to find a chance to make a fortune, then your luck crown will really be the number one god in eternity. Yes, because even the most powerful master cannot completely control such things as luck, because everyone has his own luck, which is not something he can decide, but is determined by the world. But now, Ye Feng, you are able to use your own methods to improve your luck, which is really unbelievable."

Demon Ancestor couldn't help but exclaimed in surprise at this time, his tone full of shock.

Because for an ancient big shot like Demon Ancestor, it was really incredible to see Ye Feng being able to forcibly improve his luck.

At this time, Ye Feng was actually muttering in his heart, wondering if the Crown of Luck could continue to maintain itself.

Good luck.

Just half an hour later, Ye Feng finally came to the next mark he randomly selected.

"That is....."

At this time, Ye Feng saw an oasis in the desert.

In this oasis, a long rolling river flows.

Apart from that, there is nothing else.

Ye Feng saw this scene, his eyes were filled with doubts, and he said loudly: "There seems to be neither danger nor luck here, but why is it specially marked on the map?"

At this time, Demon Ancestor was also observing the surroundings in his eyebrows, and said aloud: "Boy Ye Feng, go and explore the long river in this oasis. I feel that there seems to be something extraordinary in the rolling river. Of course, it is possible. It's dangerous, so you have to be careful."

Ye Feng immediately nodded, wearing the Crown of Luck on his head, and flew quickly towards the rolling river in the oasis.

When Ye Feng came to the edge of the rolling river, suddenly Ye Feng seemed to see something strange.

Ye Feng saw that there seemed to be a golden light shining in the long river. This golden light was very dazzling. Ye Feng immediately jumped into the long river with a "plop" and then dived quickly.

And just when Ye Feng dived into the long river, Ye Feng suddenly saw an extremely shocking scene.

I saw a giant dragon covered with golden scales as big as the mouth of a bowl, lying in the long river.

The body is hundreds of thousands of meters long and looks very shocking, as if it is made of golden divine iron.

Very scary!

Seeing this huge golden dragon full of visual impact, lying in the long river, Ye Feng immediately held his breath.

Because Ye Feng had been chased by the ancient golden unicorn before, so at this moment he saw this extremely terrifying golden dragon lying on the bottom of the river, which made Ye Feng even more frightened, and he quickly wanted to activate the space insect. hole, hurry up and escape from here.

Because this giant golden dragon seems to be still sleeping, you must not wake up this ferocious behemoth.

It seems that the Luck Crown sometimes cannot forcibly improve one's luck.

Ye Feng couldn't help but murmured at this time.

But just when Ye Feng was about to leave, Emperor Chu in his mind suddenly spoke: "Ye Feng, don't leave yet. This golden dragon doesn't seem to be a living creature, but a huge golden sculpture. , carved in this river bottom."

"What?"

Hearing what Emperor Chu said, Ye Feng's eyes immediately moved, and then he looked towards

Looking down.

At this moment, Ye Feng released his soul power and checked, and sure enough, he did not sense any life breath from this golden dragon.

Ye Feng immediately couldn't help but said: "This really seems to be a sculpture, carved in the long river. I was shocked just now and didn't explore it properly."

After finishing speaking, Ye Feng couldn't help but asked aloud in his mind: "Such a majestic golden dragon sculpture exists at the bottom of this river. Is there an ancient building at the bottom of the river?"

Ye Feng knew that the sculpture of such a majestic golden dragon must mean that there are very extraordinary ancient ruins under the river. That's why such a shocking golden dragon sculpture was carved to decorate this place.

At this time, Emperor Chu nodded slightly in his mind and said aloud: "Ye Feng, continue on and see what exists at the bottom of the river. Maybe it is really a place of ancient ruins left by an

ancient civilization. It is very interesting. It may be related to the ancient dragon clan. This golden dragon sculpture seems to be the iconic building of the ancient dragon clan. "

Ye Feng nodded slightly, then continued to dive, diving quickly towards the bottom of the long river, wanting to find out what exactly existed under the bottom of the river?

If it is really an ancient ruins related to the ancient dragon clan, then Ye Feng will really make a lot of money.

At this time, Ye Feng didn't hesitate at all. He immediately increased his strength and lurked under the long river.

At this moment, Ye Feng exuded his huge soul power, covering the very huge golden dragon sculpture around him, and wanted to explore where the entrance to the ancient ruins of the ancient dragon clan under the river bottom was.

With Ye Feng's careful search, Ye Feng finally discovered the entrance to this ancient ruins, where the dragon's head of the golden dragon sculpture was located.

At this time, Ye Feng stepped directly onto the head of the golden dragon sculpture.

The next moment, he suddenly saw a rotating space vortex in the golden dragon's bloody mouth.

Uh-huh!

Ye Feng rushed in immediately.

The next moment, Ye Feng suddenly fell into an underground space.

This underground space looks very dark, there is no water around, and the air is very dry.

Ye Feng immediately saw at this moment that there was a huge tomb on the ground in the distance.

There is a huge stone tablet in front of this ancient tomb, with the four characters "Ancient Ancestral Dragon" written on it.

Seeing this scene, Ye Feng's eyes suddenly showed a look of deep surprise, and he couldn't help but said: "Could this be the first generation of the Ancient Dragon Clan's Ancient Ancestor?"

The place where the dragon is buried, right? Why is the ancient ancestral dragon in the lair of gods and demons? "

Emperor Chu did not speak, but the Demon Ancestor in his eyebrows had a hint of excitement in his eyes at this time, and he couldn't help but said: "The Nest of Gods and Demons means that this is the lair of gods and demons. In ancient times, powerful beings at the level of gods and demons chose a place to rest in their old age. Therefore, it is not surprising that the tomb of an ancient beast such as the ancient ancestral dragon appears in the lair of gods and demons. I didn't expect that you, Ye Feng, would find it. Look. Your Luck Crown can really improve your luck. It's really enviable. If I had your Luck Crown back then, I probably wouldn't have been so unlucky and ended up with both body and soul destroyed. , only a remnant of the soul is left, lingering. "

After Demon Ancestor finished speaking, Ye Feng's eyes lit up and he immediately walked quickly towards the huge tomb in front of him.

This is the tomb of an ancient ancestral dragon, it must be very extraordinary.

After all, the ancient ancestral dragon is the most powerful ancestral dragon-level existence among the ancient dragon clan. It is a terrifying creature comparable to ancient gods and demons, with earth-shattering power.

At this time, Ye Feng walked to the tomb of this ancient ancestral dragon and wanted to investigate.

"Buzz!"

But suddenly at this moment, a very terrifying golden light burst out from the originally peaceful tomb, and then a huge shadow of an ancient ancestral dragon condensed directly above the tomb.

The two eyes were like two suns, emitting dazzling golden light, staring at Ye Feng.

The shadow of the Ancient Ancestral Dragon spoke slowly: "Destined person, the fact that you are able to come here means that you have great luck and may have a secret relationship with our Ancient Dragon Clan. As long as you pass my test, you can get my inheritance, but even if you get my inheritance, you still need to help fulfill my last wish, which is to go to the ancient dragon world, find the descendant I left behind in the world, Long Qianxue, and help her awaken the ancestral dragon bloodline, let her embark on the path of spiritual practice. Do you accept this condition? If you accept it, then the test will begin. If you do not accept it, you can leave here directly. "

"The Ancient Dragon Realm?"

When Ye Feng heard this ancient ancestral dragon say this, his eyes suddenly froze.

Because the second high-level mission of the Wanjie Martial Arts Academy that Ye Feng took over was to go to the Ancient Dragon Realm.

Help the young master of a dragon blood family from the Ten Thousand Realms Chamber of Commerce to go to a place called the 'Dragon King Desert' in the ancient dragon world to help the young master of the dragon blood family awaken the legendary dragon blood warrior physique.

Ye Feng never thought that such a coincidence would happen.

At this moment, Ye Feng naturally nodded immediately and said: "I am willing to accept your conditions, Senior Ancestral Dragon. I will go to the Ancient Dragon Realm soon. I will be able to help Senior Ancestral Dragon fulfill your last wish." , let's start the test directly."

Chapter 3748 Heaven and Earth Dragon God Technique

Hearing what Ye Feng said, the shadow of the Ancient Ancestral Dragon immediately nodded without any hesitation.

Then he stretched out a huge dragon claw and enveloped Ye Feng.

"Boom!"

Almost at this moment, a very terrifying energy frenzy suddenly hit Ye Feng.

Ye Feng immediately felt that his spirit and soul, including his entire body, were under tremendous pressure.

At this moment, Ye Feng didn't hesitate at all, and directly burst out the extremely powerful Hongmeng Immortal Body.

Boom!

A stream of terrifying brute force suddenly burst out from Ye Feng's body, quickly resisting the energy frenzy released by the phantom of the ancient ancestral dragon.

At this moment, the phantom of the Ancient Ancestral Dragon suddenly spoke up and said: "Your body, mind and soul are both very strong and very good. You are qualified to inherit my inheritance."

Buzz!

After saying that, the Ancient Ancestral Dragon retracted its claws directly.

The energy shock wave on Ye Feng also disappeared instantly.

"Is this the end of the test?"

There was a look of surprise in Ye Feng's eyes.

I didn't expect that the test of the Ancient Ancestral Dragon would be so simple.

"Do you think my test is very easy?"

The shadow of the ancient ancestral dragon smiled faintly and said: "That's because your body and spirit are very strong, so you can easily withstand the energy light waves I just released. If you are an ordinary genius, even if they are in the same realm as you, they will probably be shattered by the energy light wave I just released in an instant. "

After finishing speaking, the shadow of the ancient ancestral dragon looked at the tomb behind him, then turned around and continued to speak: "Since you have passed the test, you are qualified to accept my inheritance. I hope you will practice here. After my inheritance, I went to the Ancient Dragon Realm and helped me find the descendant I left behind in the world, Long Qianxue, and then pass on the inheritance I gave you to her and activate her ancestral dragon bloodline. I hope you can do it."

After saying that, the shadow of the ancient ancestral dragon suddenly turned into a point of light, and then entered the center of Ye Feng's eyebrows.

Buzz!

This light spot enters Ye Fengmei

In an instant, the heart immediately turned into a huge chapter of inheritance, exuding bright golden light.

This inheritance chapter is the inheritance of the ancient ancestral dragon, called "Heaven and Earth Dragon God Art"!

The moment this set of Heaven and Earth Dragon God Techniques entered Ye Feng's mind, Ye Feng immediately sensed a vast and masculine energy aura, surging throughout his mind.

This made Ye Feng feel as if his whole body had been purified at this moment.

At this moment, Ye Feng didn't hesitate at all, and immediately began to comprehend this set of Heaven and Earth Dragon God Techniques.

For Ye Feng, this set of Heaven and Earth Dragon God Art, although it is the inheritance of the ancient ancestral dragon, is very difficult to understand.

But you must know that Ye Feng's comprehension ability is very terrifying, so in just half an hour, Ye Feng has successfully comprehended this set of Heaven and Earth Dragon God Techniques.

At this moment, Ye Feng used it casually, and a brilliant golden light suddenly burst out from his body.

Buzz!

This golden light united with the entire heaven and earth, and then formed a huge golden dragon, just like the ancient ancestral dragon was reborn, which could help Ye Feng fight against the enemy.

Ye Feng looked at the golden ancestral dragon above his head that was condensed with the power of heaven and earth, with deep surprise in his eyes.

This set of Heaven and Earth Dragon God Technique combines one's own dragon energy with the power of the entire heaven and earth, and then condenses an ancient golden ancestral dragon composed entirely of the energy of heaven and earth, with very terrifying attack power and destructive power. .

At this time, Ye Feng looked at the tomb in front of him and suddenly found that the tomb was cracked.

Uh-huh!

The next moment, a dragon ball emitting golden light flew out.

Then the majestic voice of the ancient ancestral dragon sounded throughout the tomb: "This dragon ball is the most precious thing left after I was seriously injured and passed away. It contains the essence of my ancient ancestral dragon. , after you absorb it, it can help you greatly improve your skills, and it can also help you increase the power of the Dragon God Art of Heaven and Earth, because you have absorbed this one

The quintessence of energy in the Ancestral Dragon Balls gives you a part of the Ancestral Dragon's energy in your body. Once you cast the Heaven and Earth Dragon God Art, this Ancestral Dragon energy can increase the damage done by your Heaven and Earth Dragon God Art. force. "

After the majestic voice fell, the ancient ancestral dragon completely disappeared.

At this time, Ye Feng was very grateful and clasped his fists around the entire tomb and said loudly: "Senior Zulong, don't worry, I will wait for the first task to be completed and then go to the Ancient

Dragon Realm to complete the second task. , I will definitely help you find your descendant Long Qianxue who was left in the ancient dragon world, and I will definitely fulfill your last wish."

After Ye Feng finished speaking at this time, his eyes had a determined look.

"Uh-huh!"

Then without any hesitation, Ye Feng opened his mouth and swallowed the dragon ball left by the ancestral dragon in front of him.

Boom!

Almost at this moment, a terrifying dragon energy burst out from the dragon ball, surging through Ye Feng's body.

Buzz!

At this moment, Ye Feng's entire body began to emit bright golden light, looking very sacred, as if he was about to soar on the spot.

The essence of the ancestral dragon left in this dragon ball was very terrifying and very advanced, which immediately gave Ye Feng an unparalleled improvement in his skills.

Ye Feng's cultivation aura immediately began to rise.

boom!

A glimpse into the seventh heaven!

boom!

Peep into the eighth level of heaven!

boom!

Peep into the ninth level of heaven!

boom!

Glimpse into the tenth level of heaven and achieve great perfection!

boom!

Half step to the illusory realm!

boom!

The first level of the Fantasy God Realm! !

At this time, after Ye Feng had absorbed the energy from the entire Ancient Ancestral Dragon's Dragon Ball, his cultivation level suddenly exceeded so much.

Directly breaking through to the Fantasy God Realm above the Sky-Peeping Realm!

Illusion God Realm, but a very powerful one

An advanced realm of cultivation.

At this time, if Ye Feng's cultivation level returns to the Ten Thousand Realms Martial Arts Academy, he may be able to instantly become a senior student in the Ten Thousand Realms Martial Arts Academy, comparable to the strength of many veteran disciples.

At this time, Ye Feng's face was full of happiness.

This time, I really got a huge opportunity.

Not only has his cultivation strength been improved, but he has also obtained the ancient and powerful terrifying inheritance of the Heaven and Earth Dragon God Art.

At this moment, Ye Feng finally clasped his fists at the surrounding graves, and then left the place where the ancient ancestral dragon lived.

After Ye Feng left the resting place of the ancient ancestral dragon, he passed through the entire long river and once again came to the oasis on the long river.

At this moment, Ye Feng looked at the map of Demon Ancestor in his mind and prepared to go to the next marked place.

Buzz!

But suddenly at this moment, a very terrifying and huge spiritual power suddenly descended from high in the sky and enveloped the entire oasis.

Almost at the next moment, a young man wearing a white robe and looking like an awe-inspiring fairy descended down. ,

"Um?"

Ye Feng recognized it immediately. This young man in a white robe was one of the other top tribes' gods that the red-robed god had found. He was called the White Dragon God, and he was the god of the White Dragon tribe. grown ups.

The fluctuations in the mental power of this White Dragon God Lord are very terrifying, with a level of 15 million, which is a full 200 levels higher than Ye Feng's current mental power.

Buzz!

At this moment, the White Dragon God Lord released his terrifying and boundless spiritual power, directly covering Ye Feng, and said coldly: "Have you already plundered all the ancient dragon clan's inheritance land under the river? ? How did you find this place? I thought this place was the biggest secret passed down by our White Dragon clan. I didn't expect that you got there first. But now that I have met you, be obedient. Hand over all the inheritance and wealth of the ancient

dragon clan in your hands, and I can spare your life. You are just a young boy that the red-robed lord came to make up for. You can't compete with the veteran lords like us. Don't even think about trying to resist me, otherwise I will. It will make your death ugly."

Chapter 3749 The message from the Red-robed God King

At this moment, the White Dragon God Lord was speaking in a very arrogant and supreme tone. It was obvious that he did not take Ye Feng into consideration at all.

After all, when Ye Feng and the gods from these top tribes joined forces to open the sealing barrier of the Nest of Gods and Demons, all the gods from the top tribes regarded Ye Feng as someone who had just entered the level of a god. The young boys are simply not as good as these veteran high-level gods.

So at this time, after the White Dragon God Lord met Ye Feng, he naturally had deep disdain in his eyes.

Ye Feng didn't have any fear in his eyes at this time, but said with a very calm face: "The fate of heaven and earth is always first come first served. Whoever gets what belongs to whom, you'd better not provoke me. Otherwise, it's hard to say who will die."

Hearing what Ye Feng said, the White Dragon Divine Lord immediately couldn't help but shouted: "How presumptuous! You are so arrogant. You dare to say such bold words in front of me, so I have to teach you a lesson." Teach you a lesson."

Boom!

After saying that, a terrifying wave of mental power suddenly erupted from the White Dragon God Lord.

That was a total of 15 million levels of mental power fluctuations!

A spiritual vortex was directly formed, covering the entire surrounding oasis area, preventing Ye Feng from escaping here.

Buzz!

At this moment, Ye Feng did not hesitate at all and released his entire thirteen million level soul power.

"What?"

Sensing the spiritual and soul power released from Ye Feng, the White Dragon Lord suddenly showed a look of astonishment on his face, and couldn't help but said: "When I entered the Nest of Gods and Demons a few days ago and opened the sealing barrier, the fluctuation of your spiritual power has just reached the 10 million level, how come you have directly increased to the 13 million level in just a few days? This is impossible! When I was practicing, every level increased. Level one is very difficult and requires several years of hard work. But I didn't expect that in just a few days, you were able to reach a level of three million. This is incredible! Did you rise from the bottom of the river? In the inheritance place of the ancient dragon clan, you have received unparalleled opportunities to raise your spiritual power to such a high level? "

After the White Dragon God Lord finished speaking, Ye Feng just smiled indifferently and said: "How I improve my mental power, I don't need to explain to you at all."

"That's so arrogant!"

When the White Dragon God Lord heard what Ye Feng said at this moment, he didn't hesitate at all and immediately shouted: "Boy, although your mental power has been raised to thirteen million levels, you are not as good as an experienced God Lord like me. In comparison, you are still far behind. I must kill you completely and snatch away all the good fortune from you. Then I will be able to become the most powerful god in the primitive forest! Hahaha!"

\u003c

br\u003e "Spiritual vortex!"

Almost at the moment when the White Dragon God Lord finished speaking, he immediately burst out with a terrifying wave of mental power, directly forming thousands of vortexes and rushing towards Ye Feng.

At this moment, Ye Feng immediately felt that his spirit and soul were being swept into the spiritual vortex, and he felt that he was about to faint.

"boom!!"

Ye Feng did not hesitate at this moment. He also burst out his mental and soul fluctuations crazily, and then released the extremely powerful revenge soul spear he had obtained before.

Boom!

At this moment, Ye Feng's mind suddenly blasted out a revenge soul spear emitting green light, directly shattering the devouring vortexes.

When the White Dragon God saw this scene, he immediately said with bright eyes: "You actually have such a powerful spiritual attack weapon on your body? Psychic attack weapons are very rare. It seems that I will kill you." You can really make a fortune after that."

White Dragon Soul!

At this moment, the White Dragon God Lord once again released an extremely powerful spiritual power inheritance.

He saw that his countless mental power directly condensed a white dragon soul, and bombarded Ye Feng.

Ye Feng felt that his spiritual soul was about to be shattered by this white dragon soul.

At this moment, Ye Feng did not hesitate and directly released the Heaven and Earth Dragon God Art he had just obtained.

The shadow of the ancient ancestral dragon condensed by the Heaven and Earth Dragon God Art is also very terrifying and can attack the soul level.

Buzz!

At this moment, Ye Feng's body suddenly erupted with golden light, which merged with the surrounding world. Suddenly, there was a majestic golden dragon shadow with a height of more

than 100,000 meters. It was condensed directly and suspended above Ye Feng's head, exuding the ancient and towering terrifying aura.

The white dragon soul condensed by the White Dragon God Lord was simply pitiful in front of the hundreds of thousands of meters long golden ancestral dragon shadow.

"How is this possible? This is the will of the legendary ancient ancestral dragon? How can you, the boy, be able to condense it?"

The White Dragon God was immediately frightened at this time, and couldn't help but scream in horror.

But at this time, Ye Feng didn't hesitate at all. He directly used the most powerful attack of the Heaven and Earth Dragon God Art to condense the phantom of the hundreds of thousands of meters long ancient ancestral dragon.

All of a sudden, he pressed towards the White Dragon God Lord in front.

"Click, click..."

At this moment, the white dragon soul condensed by the White Dragon Divine Lord was just like an ordinary dragon clan meeting the emperor of the dragon clan. It was trembling all over and was suddenly overwhelmed by the giant dragon shadow of the ancient ancestral dragon. Crushed instantly.

Boom! !

Then the phantom of the ancient ancestral dragon bombarded the body of the White Dragon God. The White Dragon God immediately screamed and couldn't help but spit out a mouthful of blood. He fell from the sky with a pale face. In an instant, he was bleeding from all his orifices, and he died immediately. .

"So powerful!"

Seeing that the White Dragon God was killed instantly, Ye Feng's eyes suddenly showed ecstasy.

The set of Heaven and Earth Dragon God Techniques given to him by the ancient ancestral dragon is indeed a supreme inheritance, with very terrifying destructive power and attack power.

Not only can it attack the physical body, but it can also attack the spiritual level of the soul.

At this moment, Ye Feng did not hesitate and fell directly from the sky, and then quickly swallowed the spiritual fragments of the White Dragon God Lord.

"Gululu..."

At this moment, a stream of terrifying spiritual energy was immediately injected into Ye Feng's mind, quickly increasing Ye Feng's spiritual power.

Ye Feng's soul power level was once again rapidly improved at this moment.

In the end, it was directly upgraded from level 13 million to level 16 million!

Definitely comparable to the veteran gods in the top tribes!

Not to mention that Ye Feng still has so many powerful inheritances, and his overall strength is absolutely terrifying now.

This time Ye Feng is really not afraid of those so-called top gods.

"This White Dragon God Lord is worthy of being a top-level God Lord. The soul fragments left behind after his death actually increased my soul power by three million levels, from thirteen million to one thousand six hundred." Level 10,000, it's so cool!"

Ye Feng couldn't help but murmur at this time.

Next, Ye Feng followed the map of Demon Ancestor and flew quickly towards the next marked place.

Half an hour later, Ye Feng arrived at the next marked place.

But at this moment, Ye Feng saw this marked place, full of terrifying undead wandering around.

If you go in rashly, you will definitely be hunted down in an instant.

Even if Ye Feng's mental power has been raised to a very high level now, he probably won't be able to fight against those thousands of undead.

But at this moment, Ye Feng suddenly thought of

Now, I still have the Yin Soul Recruiting Flag on my body, and I can also summon enough Yin Soul Undead from the advanced interface of the underworld.

At this moment, Ye Feng couldn't help but ask in his mind: "Demon Ancestor, this marked place seems to be a place where the undead sleep. Do you think this is a dangerous place, or is it a place blessed by chance?"

At this time, Demon Ancestor suddenly said: "Don't go in. I sensed the terrifying aura of the Lord of the Undead. That kind of terrifying existence is comparable to gods and demons. The Lord of the Undead and the Lord of the Underworld are probably on the same level." The existence of Ye Feng will probably wipe out your spirit in an instant."

Hearing what Demon Ancestor said, Ye Feng immediately nodded slightly and said loudly: "Actually, I also sensed a terrifying aura. If you put it this way, the place guided by the Luck Crown this time is a dangerous place."

Demon Ancestor said aloud: "Maybe all the remaining marked places on this map are dangerous places, so the Luck Crown has lost its effect, because the Luck Crown only improves your luck and does not We cannot turn a dangerous place that existed before into a place of opportunity."

When Ye Feng heard what Demon Ancestor said, he immediately nodded, feeling that it made sense.

And just when Ye Feng was thinking about whether to leave the Nest of Gods and Demons directly, suddenly a spiritual talisman emitting red light came from a certain direction not far away.

Uh-huh!

This talisman seemed to be a teleportation note, floating in front of Ye Feng, and in an instant, a very familiar voice sounded from it.

It was the caller who entered the Nest of Gods and Demons this time, the voice of the red-robed Divine Lord: "Dear Lords, if you have nothing particularly urgent to do at the moment, please come to me immediately. I have discovered the biggest opportunity in the Nest of Gods and Demons. In the land of creation, there is a huge wealth left by the legendary 'Lord of Gods and Demons'. However, if you want to open the habitat of the Lord of Gods and Demons, you must have several strong men at the level of gods and kings to join forces, so if you have time Lord God, after hearing my message, he immediately rushed towards me. I need your help. When the time comes, I will open the habitat of the Lord of Gods and Demons. We can also share the huge wealth together. This is a rare opportunity. It may be a once-in-a-lifetime opportunity. Come here quickly. This transmission note will guide you in the direction to come to me. "

Uh-huh!

The moment the voice of the transmission talisman fell, it flew quickly in a certain direction in the distance.

When Ye Feng saw this, his eyes flashed slightly and he immediately followed.

Anyway, now Ye Feng's comprehensive strength has been improved unparalleledly, and he is many times stronger than when he first entered the Nest of Gods and Demons.

As the saying goes, people with good skills are bold, so Ye Feng naturally wanted to take a look.

Chapter 3750 Behind the Bronze Door

According to what was said in the red-robed divine monarch's transmission notes, the place created by chance he discovered was the habitat of the Lord of Gods and Demons.

The Lord of Gods and Demons must be a very earth-shattering existence from ancient times. Otherwise, it would be impossible to be called the "Lord of Gods and Demons". It must be very terrifying, even more terrifying than the various inheritances that Ye Feng has found during this period. .

So Ye Feng naturally wanted to participate.

If something good can be found from the habitat of the Lord of Gods and Demons, it will definitely greatly improve Ye Feng's overall strength again.

However, Ye Feng also knew that the place where such a terrifying and earth-shattering powerhouse lived might be extremely dangerous.

But Ye Feng wears the Crown of Luck on his head, which can usually turn bad luck into good luck, making Ye Feng's luck very good.

In addition, Ye Feng has received many opportunities and blessings during this period in the Nest of Gods and Demons. Not only has his spiritual soul been greatly improved, his cultivation level has also skyrocketed, and he has also received the powerful inheritance of the ancient ancestral dragon. , Heaven and Earth Dragon God Art.

Therefore, Ye Feng knew that his current comprehensive strength was many times stronger than when he first entered the Nest of Gods and Demons.

This naturally gave Ye Feng great confidence.

Therefore, even if he encounters any particularly terrible danger in the habitat of the Lord of Gods and Demons, Ye Feng has the ability to fight against it.

Uh-huh!

At this time, Ye Feng followed the messenger talisman and soon arrived at his destination.

At this moment, Ye Feng suddenly saw a huge bronze door appearing in the wilderness not far away.

This bronze door is very majestic and towering, tens of thousands of meters tall, towering between heaven and earth, like an ancient sacred mountain, standing on the earth in the distance, giving everyone a very shocking visual impact. .

When Ye Feng came here, he discovered that in front of this huge bronze door, in addition to the convener of the red-robed divine monarch, there were several other divine monarchs who came here.

Apparently, like Ye Feng, they all received the communication talisman from the Red-robed God Lord and came here, wanting to share the inherited wealth of the Lord of Gods and Demons.

At this moment, Ye Feng hid his mental power fluctuations and suppressed them to the level of 10 million when he first entered the Nest of Gods and Demons.

In this way, you can confuse other divine kings and make them feel that you are still very weak.

At the critical moment, it can play a huge role.

For Ye Feng, when the White Dragon God Lord wanted to rob him of his wealth, Ye Feng understood that when the Lords of these top tribes encountered opportunities, they could definitely take advantage of them because of their greed. The partner next to him killed him instantly.

So Ye Feng naturally had to take precautions.

at this moment

Ye Feng flew over and directly joined the crowd.

When the red-robed Divine Lord saw Ye Feng flying over, there was a look of surprise in his eyes. It seemed that he did not expect that Ye Feng, a young man who had just stepped into the level of the Divine Lord, would have such courage and really dare to come here to explore the Divine Lord with them. The Demon's Nest is the habitat of such earth-shattering ancient figures.

At this moment, many other gods around saw Ye Feng flying over. After a casual glance, they stopped paying attention to Ye Feng.

Because in their eyes, Ye Feng is still the young boy who has just touched the level of the God Lord. He is simply an insignificant young junior to them, so no one is paying special attention to Ye Feng.

Ye Feng is actually happy to do this. It's good that no one pays attention to him. In this case, he will save a lot of trouble.

So at this time, Ye Feng didn't say much and just stood silently among the crowd.

At this moment, there were a total of five divine monarchs who came after receiving the message from the red-robed divine monarch.

Counting Ye Feng, there is also the red-robed Divine Lord as the convener.

There were seven divine kings present.

There are a total of nine divine kings entering the Nest of Gods and Demons.

At this moment it can be said that we are almost halfway there.

However, the red-robed divine monarch still seemed a little dissatisfied, and couldn't help but said: "There are two other divine monarchs, I don't know why they haven't come yet?"

Hearing what the Red-robed Divine Lord said, another Divine Lord present couldn't help but said: "I know the Phoenix Divine Lord, she should be receiving the inheritance in the Phoenix Nest now, and she won't be able to come here in a short time, but White Dragon I contacted Shenjun yesterday, but I don't know why he has disappeared and I can't sense his aura."

Hearing what the Divine Lord said, Ye Feng's eyes flashed slightly, but he didn't show anything strange. After all, the White Dragon Divine Lord was killed by Ye Feng.

At this moment, the red-robed divine monarch immediately said: "Time is running out, so we won't wait for the two of them. Let's open this bronze door directly and enter the inheritance place of the Lord of Gods and Demons."

After finishing speaking, the red-robed divine monarch immediately took out the damaged fragments one by one from the storage ring, handed them to each divine monarch present, and then said aloud: "Input your powerful spiritual power, and enter these pieces in your hands. Among the

fragments, in this case, you can open the bronze door in front of you. I cannot activate all the fragments with my own strength, so I called you all over to share the inherited wealth of the Lord of Gods and Demons with you. "

Hearing what the red-robed Divine Lord said, a group of Divine Lords present, including Ye Feng, nodded one after another, and then input their spiritual power into the broken pieces in their hands.

Inside the film.

Uh-huh! Uh-huh! Uh-huh!

Almost at the next moment, when many divine monarchs input their spiritual power, the fragments in their hands, including the fragments in the hands of the red-robed divine monarch, all flew up, and then immediately flew to the huge bronze door in front, embedded in it. In the grooves on the surface of the bronze door.

Rumble...

Almost at the next moment, under the eyes of everyone with great expectation, this bronze door that had been sealed in dust for countless years finally slowly opened.

Buzz! ??

An ancient and vicissitudes of ancient atmosphere suddenly emanated from the space behind the bronze door.

"That is....."

Almost at the next moment, many gods immediately saw a huge bronze sacred tree appearing behind the bronze door.

On top of this bronze sacred tree, there are countless bronze chains, which trap a figure covered with pitch-black scales.

This figure covered with pitch-black scales was completely shriveled, but it exuded a very sinister and evil aura. It was unclear whether he was dead or alive.

At this moment, seeing the scene in front of him, Ye Feng in the crowd suddenly felt a bad feeling, took half a step back slightly, and quietly retreated behind the crowd.

At this moment, a divine king standing at the front couldn't help but said: "This place of inheritance of the Lord of Gods and Demons, how do I think it looks like a sealed place where an ancient evil spirit is trapped?"

After the god king finished speaking, the red-robed god king who had a kind smile just now suddenly showed a cold and stern look in his eyes, and suddenly burst out his entire 20 million mental power, instantly destroying all the surrounding god army. They were all enveloped, pushing them directly to the bronze sacred tree in the bronze gate.

"Red-robed Divine Lord, what are you doing??"

Before these gods could make a horrified sound, the ancient evil spirit trapped in the bronze sacred tree suddenly opened its eyes, its pupils emitting scarlet light.

"Pfft!"

"Pfft!"

"..."

Black metal barbs suddenly grew out of his body, and all of a sudden the bodies of all the divine monarchs who were pushed in front of him by the red-robed divine monarch were pierced.

"ah!"

"ah!"

"ah!"

Almost at this moment, a series of shrill screams suddenly sounded on the field.

The spiritual power in each of the gods' heads and the vitality in their bodies are rapidly being absorbed by the sealed ancient evil in front of them.

The vitality of these gods is rapidly increasing

Disappeared, and the body gradually became dry and suffocated.

They couldn't help but scream in horror: "Red-robed Lord, you are so ruthless, you hide so deeply! You want to catch us all, what exactly do you want to do?"

The red-robed God Lord smiled slightly at this time and said aloud: "This is not the inheritance place of the Lord of Gods and Demons at all, but the sealing place of the great Lord of Evil Demons. I have a trace of the Bloodline of the Lord of Evil Demons in my body. , The reason why I have tried every means to summon you into the Nest of Gods and Demons this time is to use you as nourishment to resurrect the great Lord of Demons. "

The red-robed divine king was speaking at this time, with a look of successful conspiracy on his face.

But suddenly at this time, the evil master who was locked on the bronze divine tree, after absorbing all the life force of all the divine monarchs in front of him, made a hoarse and ancient voice: "Red-robed divine monarch, this person you summoned The vitality of several divine monarchs is not enough to get me out of trouble. I need at least the vitality of one divine monarch. The boy behind you, grab him quickly and let me absorb his vitality, so that I can break away from the shackles of the bronze sacred tree. Sleepy."

After the evil lord finished speaking, the red-robed divine monarch suddenly stared blankly and looked behind him.

He suddenly discovered that there was another divine king who was not pushed into the bronze gate by him at that time.

This divine king is none other than Ye Feng, the weakest among them all!

The red-robed god stared at Ye Feng and couldn't help but said: "I didn't expect that a young man like you would be smarter and more sophisticated than those veteran gods. You didn't know when you were hiding at the back."

Hearing what the Red-robed Divine Lord said, Ye Feng's face was very calm and he said loudly: "I didn't expect you to be such a ruthless person."

The red-robed Divine Lord immediately laughed out loud: "As long as the great Lord of Evil can be resurrected and freed from the blockade of the Bronze Divine Tree, then I will also be able to receive the reward from the Lord of Evil. By then, I will become the leader of the entire Commander of the primeval forest!"

At this moment, the red-robed God Lord was speaking, his tone full of ambition, which was completely different from the kind look he had when he summoned everyone before.

As expected, he knows people, faces but not hearts.

At this time, the red-robed divine monarch immediately stared at Ye Feng, who was not far away, and said loudly: "Everyone you can't escape today will become the nourishment of the Lord of Evil."

boom!

After saying that, the red-robed divine monarch immediately burst out with boundless 20 million-level mental power, heading towards Ye Feng. ,

In the eyes of the Red-robed Divine Sovereign, Ye Feng is just a young junior who has just stepped into the role of Divine Sovereign. The Red-robed Divine Sovereign naturally does not take Ye Feng into consideration and thinks that he can catch Ye Feng in one fell swoop.

The red-robed god laughed loudly: "No matter how smart you are, you will not be able to escape the fate of death in the face of absolute strength."
