Chapter 4961 Convocation Order

Boom!

The terrifying thunder lightsaber slashed down with a bang, making Ye Feng immediately feel a huge pressure and destructive power.

But at this moment, Ye Feng didn't have any fear. He stretched out a hand in an instant, and that hand suddenly turned into a majestic and boundless golden hand, full of monstrous power and solidity. With a "click", the thunder lightsaber was crushed into pieces.

"What? Such a powerful body power?"

At this moment, the senior brother of Thunder Sword Villa suddenly widened his eyes. It seemed that he had never thought that Ye Feng, a seemingly ordinary boy, could have such powerful power. He could use one hand to wield his Thunder Light Sword. Crushed. .??.

This kind of strength is really too strong!

The senior brother from Lei Jian Villa instantly stared at Mu Qingqing next to Ye Feng, and couldn't help but said with an ugly face: "What a Fire Cloud Sect, I will remember you, I am unlucky today, wait until next time If I encounter you, I will cut you two men and women who secretly attack into pieces!"

Uh-huh!

After saying that, the senior brother from Lei Jian Villa knew that the situation was over and immediately turned around and fled from here.

"Buzz!"

But at this moment, Mu Qingqing fiercely raised the fiery red bow in his hand and pulled the bow string fiercely.

boom!

A huge crimson arrow, completely composed of fire energy, condensed on the bowstring instantly, full of terrifying burning power and penetrating power.

"Pfft!"

As a core disciple of the Fire Cloud Sect, Mu Qingqing's cultivation is a whole level higher than that of Ye Feng, and his strength should not be underestimated. This can be seen from the fact that Mu Qingqing instantly shot and killed the black-robed protector.

So at this moment, without saying a word, Mu Qingqing shot out a flaming arrow, and with a "pop", it pierced the senior brother of Lei Jian Villa who was running away and turned around.

"Sneak attack on me again!"

Brother Lei Jian Villa seems not to have

Thinking that Mu Qingqing would suddenly kill him, he immediately turned around in anger.

But at this time, Ye Feng had already rushed over, and he cooperated very well. He directly used the Ancient Ten Thousand Demons Art, and in an instant, thousands of big demon clones rushed out of his body, directly attacking Lei, who was severely injured by the flame arrows. Brother Jianshanzhuang was killed in an instant and was completely killed. He didn't even have time to scream.

Mu Qingqing stared at the body of senior brother from Lei Jian Villa, smiled coldly, and said, "Since we have offended him, we must eradicate the root cause and not leave this scourge behind."

Ye Feng nodded slightly, stretched out his hand and put the body of this senior brother from Lei Jian Villa into his storage ring.

Then Ye Feng threw the Thunder Sword and the storage ring of Brother Lei Jian Villa to Mu Qingqing beside him, and said loudly: "You deserve this, King Medicine, I will accept it, I need this very much." A medicine king."

Mu Qingqing nodded and agreed to Ye Feng's assignment.

At this moment, Ye Feng secretly devoured the skills of senior brother Lei Jian Villa who had been included in his storage ring.

"Buzz!"

A pure energy of thunder attribute was immediately injected into Ye Feng's dantian.

"boom!"

Ye Feng's cultivation level suddenly broke through, directly reaching the fourth level of the Lord Realm!

"Ye Feng, did you suddenly break through again?"

Mu Qingqing, who was beside her, sensed the change in Ye Feng's cultivation aura and immediately widened her eyes slightly.

She suddenly discovered that every time Ye Feng fought, it seemed that Ye Feng could have an epiphany on the spot and achieve a breakthrough.

When Ye Feng heard this, he grinned and did not explain anything more, but carefully observed the golden tree in his hand.

This golden tree is the so-called King of Medicine.

But Ye Feng discovered that the medicinal power and energy contained in this golden tree did not seem to be as strong as imagined.

Ye Feng couldn't help but ask: "Are you the King of Medicine?"

Hearing Ye Feng's question, this golden tree with its own spiritual wisdom immediately said: "Sir, please forgive me, I am the Medicine King Shen Kucao, but I have not fully matured to become a real Medicine King, Sir." If you eat me now, it won't have much effect. It's better to plant me first. In the future, when I become a true mature King of Medicine, you don't need to eat me. I can take the initiative to transfer to you a steady stream of the power of the King of Medicine. , thereby achieving sustainable development."

"Um?"

Hearing what the golden tree said, both Ye Feng and Mu Qingqing beside him couldn't help but have a hint of surprise in their eyes.

Mu Qingqing stared at the golden tree in Ye Feng's hand and couldn't help but said: "I didn't expect it to be an immature medicine king. Its use value is very small. It will take a lot of time to cultivate it and mature it into a real medicine." King, that has a huge effect. It can indeed continuously output a huge amount of medicinal power to the user, which can quickly and continuously replenish energy and restore injuries during battle. "

Ye Feng couldn't help but nodded when he heard this, and said with a smile: "Then I will plant you temporarily."

After saying that, Ye Feng directly pulled the golden tree and planted it in his Dantian space. He can use his huge power and energy to warm and cultivate this golden tree, allowing it to mature as soon as possible, so as to grow into a real The King of Medicine can continuously replenish his own strength.

At this moment, after Ye Feng had just finished all this, an old man wearing a skeleton robe suddenly flew over not far away.

This old man in a skeletal robe was naturally the one who had fought against the brothers and sisters of Lei Jian Villa before.

The elder of the Five Poison Sect.

The elder of the Five Poison Sect just now, after being resisted by the terrifying destructive power produced by the explosion of the junior sister of Lei Jian Villa, finally flew over.

But what made the elders of the Five Poison Sect look ugly was that in the end, the medicine king in their Five Poison Sect territory was obtained by Ye Feng, an outsider.

Moreover, the elders of the Five Poison Sect also saw just now that Ye Feng and Mu Qingqing cooperated and were extremely powerful, killing the powerful senior brother of Lei Jian Villa in an instant.

So at this time, the elder of the Five Poison Sect hesitated for a moment, wondering whether he should take action directly and attack the two combinations in front of him that were more powerful than the brothers and sisters of Lei Jian Villa just now.

At this moment, the elder of the Five Poison Sect stared at Mu Qingqing and said coldly: "That Medicine King, the treasure that originally belonged to our Five Poison Sect was snatched away by you foreign sects. Aren't you afraid of causing trouble?" Are our sects going to fight? This is something that a small core disciple like you can't bear."

When Mu Qingqing heard this, a sarcastic smile appeared on her beautiful face, and she said: "If you can't defeat us, are you going to threaten us at the sect level? Fortunately, you are still the elder of the Five Poison Sect, so this trick will not work on us."

Ye Feng stared at the elder of the Five Poison Sect with a cold face and said, "If you want to fight, then fight."

"you.....!"

Seeing how tough the two of them were, the elder of the Five Poison Sect immediately turned pale.

Uh-huh!

Suddenly at this moment, the elder of the Five Poison Sect threw out a token. The token exploded in the sky, revealing a gorgeous skull fireworks.

"It's the summoning order from the Five Poison Sect!"

Mu Qingqing's expression changed, she grabbed Ye Feng fiercely, and said loudly: "Ye Feng, let's get out of here quickly! This place is very close to the Five Poison Sect's base camp, and a large number of Five Poison Sect's strong men will arrive soon!"

Chapter 4962 A way

At this time, Mu Qingqing's face looked very ugly.

Because she never thought that this elder of the Five Poison Sect actually carried the summoning order of the Five Poison Sect.

Mu Qingqing couldn't help but said: "It seems that this elder of the Five Poison Sect is a core elder of the Five Poison Sect. Otherwise, it is impossible to carry the summoning order of the Five Poison Sect with him, because the summoning order of the Five Poison Sect is Only the core figures of the Five Poison Sect with very high status can possess and use it. Once the summoning order of the Five Poison Sect is used, many powerful people from the Five Poison Sect will come here soon."

Hearing what Mu Qingqing said, Ye Feng immediately nodded and prepared to leave here with Mu Qingqing as soon as possible.

This elder of the Five Poison Sect is two levels higher than Ye Feng's current cultivation level. It is probably very difficult for Ye Feng to fight against him, not to mention that there may be other powerful members of the Five Poison Sect around him later. The reporter rushed over.

So at this time, Ye Feng felt that he should give it up as soon as possible. Anyway, he had already obtained the King of Medicine.

At this moment, Ye Feng and Mu Qingqing immediately ran away quickly in a certain direction.

But at this time, the elder of the Five Poison Sect not far behind him immediately said with a cold smile: "I have already sent out the summons. You can't escape this valley of ten thousand poisons."

At this moment, the elder of the Five Poison Sect immediately rushed towards Mu Qingqing and Ye Feng, as if he wanted to interfere with their escape time.

Seeing this scene at this time, Ye Feng instantly used the talent he had awakened when he entered the fourth stage before entering the fourth stage of his immortal body, the space wormhole.

Buzz!

The next moment, Ye Feng opened a space wormhole directly in front of him, and then Ye Feng and Mu Qingqing immediately entered the space wormhole and disappeared instantly.

"Um?"

When the elder of the Five Poison Sect who was chasing the two people saw this scene, his eyes suddenly showed a hint of astonishment, and he couldn't help but said: "It turned out to be a boy with void power. Sure enough, this boy is better than I imagined. The hit was much more powerful. Fortunately, I didn't confront this kid directly at that time, but released the summoning order. However, even if the two of you can stay away from here through the means of void teleportation, you still can't escape from the entire Ten Thousand Poison Valley. , the entire Ten Thousand Poison Valley is extremely huge, I have sent out the summoning order, and many strong men must have descended on the headquarters of the Five Poison Sect, guarding the edges of the surrounding Ten Thousand Poison Valley, you can't escape."

And just after the elder of the Five Poison Sect finished speaking, Ye Feng and Mu Qingqing passed through the space wormhole and arrived somewhere in the distance.

At this moment, Ye Feng looked around, and suddenly there was a hint of ugliness in his eyes, and he said loudly: "We seem to have been quickly surrounded. I can feel that even if I use a space wormhole to escape, But there are still many super powerful people from the Five Poison Sect lurking around."

At this moment, Ye Feng could clearly sense that there were many strong men from the Five Poison Sect around him who were two or three realms higher than himself in cultivation, and there were even some who were four realms higher than him.

This made Ye Feng's eyes suddenly show a look of surprise. It seemed that among these big forces on the edge of Zhongzhou, there were indeed many super strong people, and their background was much deeper than he imagined.

Hearing what Ye Feng said, Mu Qingqing couldn't help but say

"It seems that this time it will be really difficult for us to escape from this poisonous valley."

Ye Feng thought for a while and said: "Now our only chance is to escape separately. Mu Qingqing, I will cause a huge commotion in the Ten Thousand Poison Valley and attract all the Five Poison Sect strongmen to chase me. Then you Look for the right moment and rush out of the Ten Thousand Poison Valley from the weakly surrounded area. I hope you can bring the strong men of your Fire Cloud Sect to rescue me."

"What?"

Hearing what Ye Feng said, Mu Qingqing immediately shook her head and said, "No! This is too dangerous for you, Ye Feng. If you take the initiative to lure those super powerful people from the Five Poison Sect, they will definitely find you." It will tear you into pieces, so we might as well break through the obstacles together and maybe there is a chance of survival."

Ye Feng immediately shook his head and said loudly: "No, in this case, there is absolutely no possibility of escaping. Even if the two of us unite together, it is impossible to withstand the encirclement and attack of the strong men of the Five Poison Sect, so now we can only One way is for me to help you escape, and you go to your Fire Cloud Sect to find strong men to support me. Don't worry, these strong men from the Five Poison Sect can't kill me in a short period of time. I There are still many means on his body."

Hearing what Ye Feng said, Mu Qingqing could only nod, because this was indeed the best way now.

Mu Qingqing immediately stretched out her small white hand, grabbed Ye Feng's palm, and said loudly: "Ye Feng, don't worry, you must hold on a little longer, I will definitely take our Fire Cloud Sect's The strong ones are here to rescue you."

When he said this, Mu Qingqing immediately took out a fiery red token from his storage ring, handed it into Ye Feng's hand, and said loudly: "When the time comes, I will use this token of my Command sign to sense your position."

Uh-huh!

After saying that, Mu Qingqing immediately turned around and flew quickly out of the Ten Thousand Poison Valley.

Mu Qingqing was not an indecisive person. She knew that Ye Feng's current plan was the best plan, so she did not waste any time and immediately flew towards the distance.

At this moment, Ye Feng saw Mu Qingqing's retreating back, flying in the opposite direction.

Then Ye Feng immediately made a huge voice: "Strong men of the Five Poison Sect, aren't you going to cut me into pieces? The King of Medicine is in my body, come and get it if you have the guts!"

After finishing speaking, the strong men from the Five Poison Sects immediately sensed the direction of Ye Feng's voice, and they all said angrily: "This kid is so arrogant! He didn't just lurk in it and escape, but he even took the initiative to provoke us. , It seems that this kid has lost his mind. Find this kid quickly and cut him into pieces!"

Swish, swish, swish!

At this moment, all the powerful men from the Five Poison Sects gathered in the direction of Ye Feng.

Mu Qingqing was ignored.

Soon, Mu Qingqing successfully left the Ten Thousand Poison Valley. She glanced anxiously at the depths of the Ten Thousand Poison Valley, and then quickly rushed towards the Fire Cloud Sect's base camp, wanting to go to the Fire Cloud Sect's base camp to summon The strong man came to save Ye Feng.

At this moment, Ye Feng was quickly traveling through the mountains in the Ten Thousand Poison Valley.

Because he sensed it, after he roared, many powerful people from the Five Poison Sect surged towards him. The situation was extremely critical! At this time, Mu Qingqing's face looked very ugly.

Because he sensed it, after he roared, many powerful people from the Five Poison Sect surged towards him. The situation was extremely critical!

Chapter 4963 Medicinal Materials

Uh-huh!

Ye Feng was fleeing in the dense forest in the Ten Thousand Poison Valley. Suddenly, an arrow impregnated with black poison shot from a certain direction behind him, directly piercing Ye Feng's back.

Poof!

A string of skin membranes was pierced, and a pool of golden blood came out.

Ye Feng was in pain, glanced behind him with an ugly expression, and then fled the scene instantly.

Uh-huh!

At this moment, a burly old man wearing a skeleton robe was holding a large black bow more than ten meters long in his hand, staring at Ye Feng's escaping back with a hint of surprise in his eyes.

This burly old man is an extremely powerful being in the Five Poison Sect. He is an old monster in the Five Poison Sect. His cultivation is four levels higher than Ye Feng!

This burly old man is the inner sect elder of the Five Poison Sect. Due to his unpredictable cultivation, he was the first to discover Ye Feng and was able to track Ye Feng's existence.

Originally, in the eyes of the great elder of the Five Poison Sect, hunting down a young boy like Ye Feng was simply an extremely simple matter.

But unexpectedly, it turned out that since the moment when the inner sect elder of the Five Poison Sect chased Ye Feng, a whole day and night had passed, and he still had not succeeded in hunting Ye Feng. Although he used the poisonous big bow in his hand to hurt Ye Feng, He arrived at Ye Feng, but could not catch up with Ye Feng.

At this moment, the inner sect elder of the Five Poison Sect flew to the place where Ye Feng was injured just now, and took a look at the golden blood on the ground, with a deep greed in his old eyes.

He has been chasing Ye Feng until now, but he has not notified the other five powerful men of the Five Poison Sect to jointly besiege Ye Feng, just to devour Ye Feng for himself.

Because not only did Ye Feng possess a Medicine King, but Ye Feng himself also made the inner sect elder of the Five Poison Sect feel the great value of utilization.

"Maybe using this kid with golden blood as a medicine guide, we can really refine the legendary Heaven and Earth Longevity Pill. By then, I will not only be able to live for another thousand years, but I will even be able to regenerate my withered body. A transformation, new vitality..."

At this moment, the great elder of the inner sect of the Five Poison Sect murmured, his tone full of coldness.

Obviously, with the pursuit, the inner sect elder of the Five Poison Sect not only did not ignore Ye Feng, but also valued Ye Feng more and more.

Of course, this emphasis is not a positive one, but an emphasis on greed.

Because the golden blood that flowed out after Ye Feng was injured was like a precious raw material given to him by God to the inner sect elder of the Five Poison Sect.

Once he can obtain Ye Feng, the great elder of the inner sect of the Five Poison Sect can use Ye Feng as raw material to refine the peerless elixir he dreams of, helping him to change his destiny, revive, and even transform his life and body. .

Therefore, the great elder of the inner sect of the Five Poison Sect was frantically chasing Ye Feng, tirelessly, and did not notify other powerful men of the Five Poison Sect.

Ye Feng also understood this, so he naturally fled quickly. Otherwise, if he fell into the hands of the elder of the inner sect of the Five Poison Sect, his end would be very miserable.

However, what made Ye Feng breathe a sigh of relief was that the great elder of the inner sect of the Five Poison Sect wanted to occupy this precious "medicine refining material" for himself alone, so he did not notify the other strong men of the Five Poison Sect of his whereabouts.

.

Otherwise, all the five powerful men from the Five Poison Sects would unite to besiege him, and no matter how powerful Ye Feng was, he would not be able to continue running away.

Because these powerful men from the Five Poison Sect were much stronger than Ye Feng had imagined before.

Ye Feng originally thought that the cultivators in Zhongzhou seemed to be very ordinary. After all, Ye Feng had killed several so-called masters in Zhongzhou before.

But those people were minor characters, so Ye Feng could easily deal with and kill them.

Nowadays, almost all the powerful men of the Five Poison Sects are dispatched for a medicine king, which is naturally extremely terrifying.

Especially the Inner Sect Elder of the Five Poison Sect, who is currently being closely pursued, is four realms higher than Ye Feng's current fourth level Lord Realm, and his strength is simply terrifying.

If he was only two realms higher than Ye Feng, then Ye Feng might be able to fight back if he tried his best.

But it was a full four realms higher, and it was really ridiculously powerful. No matter how powerful Ye Feng was in combat, and no matter how many methods he had, it was simply impossible to face off against the inner sect elder of the Five Poison Sect.

Therefore, since he was chased by the elder of the Five Poison Sect, for a whole day and night, Ye Feng never thought about confronting this old monster head-on. Instead, he ran away as much as possible and thought of other ways.

Now Ye Feng feels that even if Mu Qingqing comes with the powerful men from the Fire Cloud Sect, he probably won't be able to save him for a while.

So Ye Feng knew that he still had to find a way on his own. After all, no one expected that the Five Poison Sect would even mobilize an old monster like the Great Elder of the Inner Sect for a medicine king. Moreover, this old monster also wanted to fight because of his golden Blood regards itself as a raw material for refining medicine that is rare in a century, and it can be said that it is determined to kill him. It can only be said that Ye Feng is really unlucky this time.

This is the first time Ye Feng has encountered such a dangerous situation since he stepped into the land of Zhongzhou.

At this moment, Ye Feng was quickly thinking of ways to escape.

But now Ye Feng doesn't have any good ideas. After all, the entire Ten Thousand Poisons Valley can be said to be almost the territory of the Five Poisons Sect. There are strong men from the Five Poisons Sect sitting and guarding the edges of the entire Ten Thousand Poisons Valley. There is even a protective formation.

"The only way now is to run as deep as possible into the Ten Thousand Poison Valley."

At this time, Ye Feng was galloping in the mountain forest and quickly ran towards the depths of the Ten Thousand Poison Valley.

Because Ye Feng knew very well that in the deepest part of the Ten Thousand Poison Valley, although it was extremely dangerous, there were no strong men from the Five Poison Sects.

So for now, the more dangerous the natural environment, the safer it is for Ye Feng.

At this moment, seeing Ye Feng looking more and more into the depths of the Ten Thousand Poison Valley, the Inner Sect Elder of the Five Poison Sect who was chasing behind him suddenly showed a deep sneer in his old and sinister eyes. With a look on his face, he said loudly: "Young man, there is no use in running to the deepest part of the Ten Thousand Poison Valley. The gap between you and me in cultivation is too big. You will eventually be caught by me and become my master in refining the peerless medicine." Medicinal."

Ye Feng turned around and cursed: "You old fool!"

Ye Feng's scolding had no motivating effect on the elder of the inner sect of the Five Poison Sect who was deep in the city. The old monster had a plain face and followed Ye Feng in an orderly manner, as if he was like a cat playing with a mouse. Waiting for Ye Feng to make a slight mistake in escaping, and then catch Ye Feng instantly and make it his own. Uh-huh!

Ye Feng was fleeing in the dense forest in the Ten Thousand Poison Valley. Suddenly, an arrow impregnated with black poison shot from a certain direction behind him, directly piercing Ye Feng's back.

If he was only two realms higher than Ye Feng, then Ye Feng might be able to fight back if he tried his best.

But it was a full four realms higher, and it was really ridiculously powerful. No matter how powerful Ye Feng was in combat, and no matter how many methods he had, it was simply impossible to face off against the inner sect elder of the Five Poison Sect.

Therefore, since he was chased by the elder of the Five Poison Sect, for a whole day and night, Ye Feng never thought about confronting this old monster head-on. Instead, he ran away as much as possible and thought of other ways.

Now Ye Feng feels that even if Mu Qingqing comes with the powerful men from the Fire Cloud Sect, he probably won't be able to save him for a while.

So Ye Feng knew that he still had to find a way on his own. After all, no one expected that the Five Poison Sect would even mobilize an old monster like the Great Elder of the Inner Sect for a medicine king. Moreover, this old monster also wanted to fight because of his golden Blood regards itself as a raw material for refining medicine that is rare in a century, and it can be said that it is determined to kill him. It can only be said that Ye Feng is really unlucky this time.

This is the first time Ye Feng has encountered such a dangerous situation since he stepped into the land of Zhongzhou.

At this moment, Ye Feng was quickly thinking of ways to escape.

But now Ye Feng doesn't have any good ideas. After all, the entire Ten Thousand Poisons Valley can be said to be almost the territory of the Five Poisons Sect. There are strong men from the Five Poisons Sect sitting and guarding the edges of the entire Ten Thousand Poisons Valley. There is even a protective formation.

"The only way now is to run as deep as possible into the Ten Thousand Poison Valley."

At this time, Ye Feng was galloping in the mountain forest and quickly ran towards the depths of the Ten Thousand Poison Valley.

Because Ye Feng knew very well that in the deepest part of the Ten Thousand Poison Valley, although it was extremely dangerous, there were no strong men from the Five Poison Sects.

So for now, the more dangerous the natural environment, the safer it is for Ye Feng.

At this moment, seeing Ye Feng looking more and more into the depths of the Ten Thousand Poison Valley, the Inner Sect Elder of the Five Poison Sect who was chasing behind him suddenly showed a deep sneer in his old and sinister eyes. With a look on his face, he said loudly: "Young man, there is no use in running to the deepest part of the Ten Thousand Poison Valley. The gap between you and me in cultivation is too big. You will eventually be caught by me and become my master in refining the peerless medicine." Medicinal."

Ye Feng turned around and cursed: "You old fool!"

Ye Feng's scolding had no motivating effect on the elder of the inner sect of the Five Poison Sect who was deep in the city. The old monster had a plain face and followed Ye Feng in an orderly manner, as if he was like a cat playing with a mouse. Waiting for Ye Feng to make a slight mistake in escaping, and then catch Ye Feng instantly and make it his own.

Chapter 4964 Frozen Pool

In the following days and nights, the Inner Gate Great Elder of the Five Poison Sect had been persevering in the process of hunting down Ye Feng.

Even if Ye Feng used various means of space wormholes to escape quickly, he was still no match for the Inner Gate Great Elder, who had been staring at Ye Feng.

It must be said that the cultivation level of the Inner Gate Great Elder of the Five Poison Sect was worthy of being four realms higher than Ye Feng.

His divine consciousness was so huge that it was extremely terrifying, and he could lock Ye Feng's whereabouts anytime and anywhere.

So at this time, Ye Feng finally gave up the idea of escaping from the Inner Gate Great Elder of the Five Poison Sect, and thought of other ways.

Ye Feng finally came up with an excellent way, which was to use a powerful external enemy to fight against the Inner Gate Great Elder of the Five Poison Sect.

In this regard, Ye Feng has a lot of experience.

Moreover, Ye Feng has a unique advantage, that is, he has a huge soul power, and can perceive various situations that even the inner sect elders of the Five Poison Sect cannot perceive. ??

So in the following time, Ye Feng released his soul power, and wanted to find very powerful and terrifying creatures in the dense jungle of the Ten Thousand Poison Valley.

In fact, only a small part of the outer area of the Ten Thousand Poison Valley belongs to the territory of the Five Poison Sect.

In the deep inner area of the Ten Thousand Poison Valley, there are still many very terrifying creatures and monsters.

So even the inner sect elders of the Five Poison Sect, who chased Ye Feng to the end, began to become alert to the surroundings.

He looked at Ye Feng who was running away in the distance and threatened him: "Young man, you'd better be my raw material for refining medicine. If you continue to flee inside, there are many terrible and cruel monsters living in the inner area of the Ten Thousand Poison Valley. If you fall into the hands of these monsters, you will die miserably and painfully. In my hands, I will definitely give you a quick death. Instead of dying painfully, it is better for me to kill you quickly. In this way, you will feel better." Hearing the words of the inner door elder of the Five Poison Sect behind him, Ye Feng's eyes suddenly showed a hint of coldness, and he said aloud: "You old immortal, even if I die, I will not die in your hands." After that, Ye Feng continued to run away. Seeing Ye Feng's resolute words, even the inner door elder of the Five Poison Sect, who was very cunning, began to lose patience after chasing for such a long time. He immediately revealed a deep anger in his eyes, and said: "Boy, I don't want to waste any more time. This time, even if I have to sacrifice some of my original essence, I will catch you completely. As long as I catch you and refine you into a peerless treasure, all my expenses will be worth it."

After saying this, the inner elder of the Five Poison Sect shouted: "Blood Shadow Method!"

Swish!

Almost at the moment when the inner elder of the Five Poison Sect performed this set of inheritance, blood flashed on his body.

Although the inner elder of the Five Poison Sect seemed to have consumed a lot of original essence to perform this set of inheritance, his speed suddenly became ten times faster.

Swish!

At this moment, the inner elder of the Five Poison Sect instantly rushed to not far behind Ye Feng, almost catching up with Ye Feng.

"What? The speed has become so fast?"

When Ye Feng saw this scene, his eyes immediately showed deep surprise.

This elder of the inner sect of the Five Poison Sect is indeed an old monster, and he really has many tricks.

Ye Feng knew that he would be caught up soon.

Things have reached the most critical moment!

At this moment, Ye Feng did not hesitate at all, and immediately continued to expand his soul power and explore the surroundings, trying to find the monsters in the depths of the extremely powerful Ten Thousand Poison Valley as much as possible.

Buzz!

Suddenly, Ye Feng sensed a very terrible breath, lurking in a pool of water deep in the valley.

At this moment, Ye Feng's eyes immediately showed a crazy look.

Under that pool, there must be a very terrifying monster living.

Ye Feng did not know what the monster was, but now Ye Feng had no choice, because the elder of the inner sect of the Five Poison Sect, who was performing the Blood Shadow Method behind him, was about to catch up with him.

So at this moment, Ye Feng could only take a gamble, betting that his luck was good and he would not be noticed by the terrible monster under the pool in advance.

At this moment, Ye Feng did not hesitate at all, and immediately rushed forward frantically, and soon came to the pool where the terrible monster he sensed lived.

At this moment, Ye Feng saw a huge pool of water in the valley not far ahead.

The whole pool looked ordinary and very calm, and the surroundings were very quiet and peaceful, as if it was very safe here.

But Ye Feng knew that there was a very terrible monster living under this pool.

At this moment, Ye Feng did not hesitate at all, and immediately pounced from the sky and rushed into the pool

.

The next moment, Ye Feng saw it immediately. The monster under the pool turned out to be a giant golden centipede tens of thousands of meters long. It was very ferocious and was sleeping under the pool!

Seeing this scene, Ye Feng immediately held his breath and buried himself deeply in the mud of the pool.

At this moment, high in the sky, the Inner Sect Elder of the Five Poison Sect, who had chased Ye Feng here, saw Ye Feng rushing into the small pool below. He immediately laughed and said: "I want to Is it impossible to escape from my pursuit through water escape?"

After saying that, the elder of the inner sect of the Five Poison Sect obviously did not realize that Ye Feng was so courageous and dared to enter the habitat of a very scary monster.

He thought Ye Feng just wanted to escape through some means of water attribute power.

So at this moment, the great elder of the inner sect of the Five Poison Sect, without even thinking, stretched out a hand and released a blast of ice, freezing all the water pools underneath.

The Great Elder of the Inner Sect of the Five Poison Sect immediately burst out laughing and said: "You didn't expect that I am not only proficient in poison, but I also practice the power of ice attributes. I froze this entire pool. , let's see where else your kid can run!"

Buzz!

But almost at the moment when the Great Elder of the Inner Sect of the Five Poison Sect froze the entire water pool into ice, before the face of the Great Elder of the Inner Sect of the Five Poison Sect showed a look of joy, the entire water pool suddenly cracked. .

boom!

A terrifying monster aura instantly burst out from the ice under the pool and shot straight into the sky. The great elder of the inner sect of the Five Poison Sect immediately changed his expression and couldn't help but shout: " No! It's a monster overlord! This guy is trying to trick me!"

Chapter 4965 Lost

"Crack! Click!"

Boom!

Almost at the moment when the inner sect elder of the Five Poison Sect finished speaking, the entire underground frozen water pool suddenly exploded.

The next moment, a very shocking scene appeared.

A large golden centipede that was tens of thousands of meters long, very ferocious, and its entire body seemed to be made of metal, rushed out from under the pool in an instant.

Originally, this ferocious big centipede was in a deep sleep. Even if Ye Feng rushed into the pool, because Ye Feng's cultivation aura was relatively weak, it did not attract the attention of the golden big centipede, and it was still sleeping.

But the Great Elder of the Inner Sect of the Five Poison Sect froze the entire pool into ice.

This violent fluctuation naturally made the sleeping golden centipede wake up immediately, and it became violent all of a sudden.

This golden centipede is definitely a terrifying poisonous insect monster that has been cultivated deep in the Ten Thousand Poison Valley for thousands of years, or even tens of thousands of years.

So the moment this big golden centipede appeared, even if the elder of the inner sect of the Five Poison Sect was extremely powerful, his face changed drastically at this moment, and he shouted that Ye Feng was trying to trick him.

But at this time, the inner sect elder of the Five Poison Sect had no time to regret.

Because what he did completely aroused the hostility of the golden centipede.

At this moment, the big golden centipede didn't care at all, and directly determined that the elder of the inner sect of the Five Poison Sect wanted to provoke it, so this big golden centipede, this terrifying monster poisonous insect, suddenly headed towards the Five Poison Sect. The great elder of the inner sect rushed away.

The body of the golden centipede, which was tens of thousands of meters long, was like a giant golden dragon. It was shocking, and it instantly collided with the great elder of the inner sect of the Five Poison Sect.

Although the elder of the inner sect of the Five Poison Sect yelled at Ye Feng for being shameless, he still had to resist this golden centipede at this time.

s attack.

Moreover, there is no way to explain the inner sect elder of the Five Poison Sect and this extremely terrifying monster, because this golden centipede has not yet developed its spiritual intelligence at all.

So at this time, the golden centipede regarded the elder of the inner sect of the Five Poison Sect as his biggest enemy, and launched a crazy attack.

The great elder of the inner sect of the Five Poison Sect could only curse loudly and quickly use his power to fight against this big golden centipede.

Ye Feng buried himself deeply in the mud at this moment. Looking at everything in front of him, a look of surprise suddenly appeared in his eyes.

It seemed that his plan was successful.

However, Ye Feng did not continue to watch directly here, because Ye Feng knew very well that there would definitely be no winner between the inner sect elder of the Five Poison Sect and the golden centipede for a while. If he stayed here all the time, if If the great elder of the inner sect of the Five Poison Sect takes time out to deal with him, he will not be able to escape.

Ye Feng was temporarily unsure whether this golden centipede could seriously injure the inner elder of the Five Poison Sect, so Ye Feng chose to escape from here directly.

After all, his goal has been achieved.

Buzz!

At this moment, Ye Feng directly operated the space wormhole, ignoring the curses of the inner sect elder of the Five Poison Sect, and instantly stayed away from here.

When Ye Feng was completely away from that place of dispute, he finally breathed a sigh of relief.

This time, I was really smart and came up with this method to use the extremely powerful monsters from the outside world to deal with the inner sect elder of the Five Poison Sect.

Mainly because this time I was really lucky and discovered that there was a very strange person under this pool.

The very scary golden centipede, otherwise it would not be possible to realize this strategy of driving away tigers and devouring wolves.

However, Ye Feng also knew that it was unrealistic for him to rely on this golden centipede to kill the Inner Sect Elder of the Five Poison Sect and completely solve the scourge of the Inner Sect Elder.

After all, this elder of the inner sect of the Five Poison Sect is an old monster among the Five Poison Sect, and is still very scary.

The golden centipede may only be able to temporarily resist the Inner Sect Elder of the Five Poison Sect.

So at this time, Ye Feng naturally flew quickly towards the outside area of Ten Thousand Poison Valley, wanting to completely escape from here.

As long as he leaves the Ten Thousand Poison Valley and escapes the siege of the Five Poison Sect strongmen, Ye Feng will be free from now on.

But the next moment, Ye Feng suddenly discovered that he had come to the deepest jungle area of the Ten Thousand Poison Valley because he was being chased by the Great Elder of the Inner Sect. Therefore, Ye Feng did not recognize all the roads around him for a while.

In other words, Ye Feng actually got lost.

"this?"

At this moment, looking at the dense jungle and towering trees around him, Ye Feng's eyes suddenly revealed a look of deep astonishment.

I was so anxious to escape just now that I forgot the route I came from.

After all, the situation was very critical just now. The Inner Sect Elder of the Five Poison Sect used the Blood Shadow Technique and almost caught up with him. Therefore, Ye Feng almost lost his previous route in order to quickly find a monster that could resist the Inner Sect Elder.

At this moment, Ye Feng could only bravely wander around, trying to leave the deep area of the Ten Thousand Poison Valley as soon as possible.

But what made Ye Feng feel very speechless was that Ye Feng wandered around for a whole afternoon without completely leaving this deep jungle. Moreover, the surrounding trees were getting taller and taller, and there were more and more mountains. .

Ye Feng only felt that he

I am afraid that not only did I not stay away from the deep area of the Ten Thousand Poison Valley, but I moved towards a deeper direction.

Uh-huh!

So at this time, Ye Feng could only fly high into the sky quickly, wanting to stand on the highest altitude and identify the direction around him.

But just when Ye Feng came to the top of the tree canopy, a poisonous eagle covered with spikes rushed towards Ye Feng in an instant, almost tearing Ye Feng's whole body to pieces.

This caused Ye Feng to drop quickly.

It seems that the risks at high altitudes are also very high.

This is the deep area of the Ten Thousand Poison Valley, full of terrifying poisonous creatures.

At this moment, Ye Feng could only bite the bullet, identify a random direction, walk quickly, and see if he could try his luck and leave this deep area.

Time passes quickly, like running water without leaving a trace.

It was already night in a blink of an eye.

Ye Feng felt that there was probably no way to get out of the deep area of the Ten Thousand Poison Valley tonight.

Ye Feng could only find a safer cave in the surrounding area and spend the night peacefully.

After all, night is the time when poisonous insects and poisonous things are most active. If Ye Feng walks in the middle of the night, he might be eaten by some terrible poisonous insects or poisonous things.

At this moment, Ye Feng wanted to find a safer place to stay.

But at this moment, Ye Feng suddenly discovered that there was a trace of fire not far away.

"Um?"

This made Ye Feng's eyes suddenly show surprise.

Who is so bold?

How dare you light a fire in the deepest jungle of the terrifying Poison Valley, which is densely populated by poisonous insects and rampant poisons?

Are you really not afraid of death?

Chapter 4966 The Venomous Old Man

At this time, Ye Feng's eyes showed deep surprise.

Someone is so bold and dares to light a fire in the deepest jungle of this poisonous valley where poisons are rampant. This shows how confident the other party is.

Ye Feng was curious, who was so bold?

At this time, Ye Feng was naturally very curious and quickly approached in the direction of the fire.

When Ye Feng came to the place where the fire was shining, he immediately saw a beautiful figure appearing among the tangled grass in front of him.

This is a young woman who looks very beautiful and noble. She is wearing a light blue robe, which gives people a sense of nobility, but also makes me feel pity for her.

At this time, Ye Feng saw that this beautiful and noble woman in blue robe was lighting a fire and roasting a black scorpion. She seemed to eat the palm-sized black scorpion as food.

This made Ye Feng's eyes suddenly look astonished.

This woman really has unique taste.

At this moment, Ye Feng was preparing to leave. After all, he didn't know the other party, so there was no need to say anything more.

But just when Ye Feng turned around, the beautiful young woman in a blue robe immediately looked in the direction of Ye Feng and said loudly: "It is a kind of surprise to meet him in such an inaccessible jungle. Fate, come and have something to eat together."

Hearing the other party's invitation, Ye Feng's eyes suddenly showed a look of surprise.

It seems that this beautiful young woman in a blue robe is a rather enthusiastic person and is not as cold and unkind as she seems.

Ye Feng nodded slightly. Since everyone invited him and there was no conflict with him, he would reluctantly go and eat something. After all, Ye Feng hadn't eaten for several days.

Being hunted down very hard these days, Ye Feng was also hungry.

Although cultivators can draw vitality from heaven and earth,

There is no need to eat, but it is a pleasure to satisfy your appetite occasionally.

At this moment, Ye Feng came directly to sit next to this mysterious and beautiful young woman wearing a blue robe.

Ye Feng saw that there were not only black scorpions roasting on the fire, but also various other poisonous insects and poisons, such as arm-long silver centipedes, colorful poisonous snakes, and human-faced spiders the size of a human head. It was grilled on this fire.

Moreover, this mysterious woman in blue robe didn't know what seasoning she had sprinkled on it, but it smelled delicious, which gave Ye Feng some appetite.

At this time, this mysterious and beautiful woman pulled half of the arm-long silver centipede that had been grilled and gave it to Ye Feng. She said loudly: "Don't think these are poisonous insects. After being grilled with my secret sauce, Not only does the toxicity disappear, but it is also very delicious. Eating it can also prolong life, which is of great benefit to practitioners. The poisonous insects I am looking for for food and barbecue are all poisons with special blood. Not only are they not Any poison will be of great benefit to cultivation and can also enhance physical fitness after eating it."

Hearing what this mysterious woman in blue robe said, Ye Feng's eyes revealed a look of surprise.

It seems that the identity of the other party is very unusual, and he actually knows so much.

Ye Feng immediately nodded at this time. Anyway, he was not afraid of all kinds of poisons, so he started eating directly.

"Um?"

When Ye Feng took a bite, his eyes suddenly lit up. It tasted really good, and after eating it, Ye Feng could really feel that his physique had really been enhanced.

It seems that these poisonous insects were specially selected and captured by this mysterious and beautiful woman.

Otherwise I wouldn't waste time making such delicious food.

At this moment, Ye Feng asked curiously while eating: "It is indeed a fate to meet in such a barren mountain. I don't know which sect you come from. You have such strength. In Being able to navigate the depths of the Ten Thousand Poison Valley must be very extraordinary and very powerful."

At this time, Ye Feng discovered that he could not sense the other party's cultivation aura. This was very rare. After all, Ye Feng was a soul master and his perception was very powerful. This was enough to show that the other party must be very extraordinary.

When Ye Feng heard this question, the mysterious and beautiful woman in a blue robe smiled and said: "Since we are so destined to meet here, it means that this is God's arrangement. are destined, so is it really necessary to know their respective identities?"

Hearing what this mysterious and beautiful woman said, Ye Feng's eyes suddenly showed a look of surprise. He didn't expect that the other party would say such philosophical words.

Ye Feng nodded, smiled and said: "The girl is right. Since we meet and become friends by fate, there is no need to know the identity of the other party. It will make my motives impure."

Seeing Ye Feng's generous appearance, the mysterious and beautiful woman sitting next to him immediately smiled, then stretched out her plain white hands and said loudly: "Although there is no need to tell our identities, I I think I still need to know my name. Hello, my name is Su Qingmo." ??.

"Su Qingmo?"

At this time, Ye Feng immediately stretched out his hand, shook the opponent's plain little hand slightly, and then said with a smile: "My name is Ye Feng."

"Ye Feng?"

The mysterious and beautiful woman in front of her named Su Qingmo muttered something, and then seemed to have never heard of this name before, she smiled and said: "

Ye Feng, why did you come to this extremely dangerous Valley of Ten Thousand Poisons? Is it also to find the cave of the legendary Old Man Poison? "

Ye Feng immediately shook his head and said loudly: "I don't know what Old Man Wandu is. I was just being chased by the great elder of the inner sect of a sect called the Five Poison Sect around me. I came here and I just escaped from it." I was in a dangerous situation and was about to leave this dangerous place, but I didn't expect that I got lost in the jungle."

"be lost?"

Su Qingmo seemed quite unbelievable when he heard Ye Feng say such words.

Because the aura of cultivation exuded by Ye Feng is still very powerful among the younger generation, I didn't expect that such a powerful young genius as Ye Feng would get lost in the deep jungle of the Ten Thousand Poison Valley.

Su Qingmo didn't expect this.

Su Qingmo suddenly chuckled and said aloud: "You are really an interesting person, more interesting than many people I have met before, and I feel that you are different from others, there is something special about you temperament."

When Ye Feng heard this, his eyes showed a look of surprise, and then he asked curiously: "What special temperament do I have?"

Su Qingmo shook his head and said aloud: "I don't know, it's just my feeling in the dark, so the first time I saw you, even if I didn't know you, I invited you to come over for something to eat. If you want You know, others don't have this kind of treatment, and the things I make with my own hands are very precious."

Hearing Su Qingmo say this, Ye Feng couldn't help but smile and shake his head. This mysterious and beautiful young woman is indeed different from all the people he has met before. This is a very interesting story. A girl with a mysterious origin and very mysterious strength.

Ye Feng seemed to have thought of something and couldn't help but ask: "By the way, you said you came here to find the cave of Old Man Wandu, did you find it?"

Chapter 4967 In one fell swoop

Hearing Ye Feng's question, Su Qingmo hesitated for a moment, then shook his head and said loudly: "I just relied on a damaged map to get here. I haven't found the place where Old Man Wandu's cave is yet. Although I am not weak, there are many poisonous insects and poisons living in the deep areas of the Ten Thousand Poison Valley. Many poisonous insects and poisons are not something I can deal with. There are some more dangerous places that I have not yet explored. "

Hearing this, Ye Feng couldn't help but nodded, and said loudly: "This place is indeed quite dangerous. There are many very scary poisonous insects, poisons and monsters living there."

When he got here, Ye Feng couldn't help but said: "I've finished eating, so it's time for me to say goodbye and leave."

Seeing what Ye Feng said, Su Qingmo immediately nodded, with a faint smile on her beautiful face, and said, "Okay, I hope we can meet again in the future."

Ye Feng did not hesitate at this time and stood up directly, preparing to leave here directly.

After all, he and this mysterious Su Qingmo just met by chance, so it was enough to have a barbecue together.

After all, he and the other party just met by chance, and there was no interest or other relationship between them.

So at this time, both parties had their own things to do, and there was no nonsense for a long time. Ye Feng was directly preparing to leave here.

Su Qingmo didn't hold back anything. After all, maybe she didn't want to share the cave of the poisonous old man with Ye Feng, a person who met by chance.

Moreover, the cave of Old Man Du has not yet been found, and it may be full of great dangers.

Therefore, no matter what the considerations were, Su Qingmo did not take the initiative to go with Ye Feng to find the cave of Old Man Du, and Ye Feng did not bring up the matter. After all, he was not related to the other party and did not want to be moral. To kidnap the other party, you must take yourself to find the cave of Old Man Du.

So at this time, Ye Feng was ready to leave here directly.

When Ye Feng left the fire, he flew quickly in a certain direction, wanting to leave this dangerous place as soon as possible.

This Su Qingmo is a mysterious and powerful woman, so Ye Feng is not worried about her safety, and it has nothing to do with him. The two of them just met by chance, and they may not have the chance to meet again in the future.

As Ye Feng kept walking, Ye Feng finally discovered that he seemed to have been lost and still couldn't get out of the deepest area of the Ten Thousand Poison Valley.

This made Ye Feng frown slightly. There was no way to go on like this. He couldn't keep wandering around in the deepest part of the Ten Thousand Poison Valley. By then, all the powerful men from the Five Poison Sect would be surrounding him. Then he would be able to There is really no escape.

While Ye Feng was thinking secretly, a very weak energy fluctuation suddenly came from not far away.

"Um?"

Ye Feng's eyes suddenly moved and he immediately lurked in that direction.

Soon Ye Feng sensed that this energy fluctuation seemed to be the power fluctuation emanating from a strong man.

Ye Feng immediately continued to approach in that direction.

When Ye Feng arrived at his destination, his eyes suddenly revealed a

An inexplicable look.

Because Ye Feng saw that in a swamp not far away at this moment, an old figure was sitting there cross-legged, with serious injuries on his body.

But at this time, poisonous insects and poisonous substances of various shapes emerged from the mud of the surrounding swamp, and they all crawled onto the old man's body in dense numbers.

And the next moment, when these poisonous insects crawled onto the old man's body, these poisonous insects seemed to have been sucked out of all life energy at once, and instantly became dry and withered.

Obviously, these densely packed poisonous insects were attracted and sucked all the life energy out of the old man, thereby restoring the old man's severely lost life and strength.

And the old man Ye Feng saw sitting cross-legged in the swamp was none other than Ye Feng's current nemesis, the inner sect elder of the Five Poison Sect!

After seeing this scene, Ye Feng suddenly showed a deep and inexplicable look in his eyes.

Unexpectedly, the enemy's road was narrow, and I was wandering around in the deep jungle of the Ten Thousand Poison Valley, and I unexpectedly ran into the Inner Sect Elder of the Five Poison Sect who was secretly healing here.

At this moment, it can be said that Ye Feng did not hesitate at all. He immediately used the power of space and sneakily approached the inner sect elder of the Five Poison Sect who was concentrating on healing.

If it was the inner sect elder of the Five Poison Sect who was at his peak, Ye Feng would definitely not dare to provoke him. After all, the other party was four realms higher than himself.

But now Ye Feng saw that the injuries on the inner sect elder of the Five Poison Sect were very serious. It could be said that there were wounds everywhere, and his strength had also dropped significantly.

Ye Feng guessed that the golden centipede that he had designed before had caused huge damage to the elder of the inner sect of the Five Poison Sect, so he was seriously injured and even resorted to such cruel methods. , by absorbing the vitality of these poisonous insects, to restore one's own injuries and lost strength.

At this moment, Ye Feng knew that he could not just ignore the situation and had to take action, because this was a great opportunity to sneak attack and completely eliminate this mortal enemy.

After all, Ye Feng is in the dark now, and the inner sect elder of the Five Poison Sect is in the light.

Therefore, Ye Feng felt that he might seize this opportunity and kill the opponent directly.

At this moment, Ye Feng held his breath and concentrated on seizing this great opportunity, because this opportunity was unique and very rare.

If he could not seize this opportunity, then Ye Feng might be endlessly hunted by the inner sect elder.

There is only one chance, Ye Feng must seize it.

So at this moment, Ye Feng deeply restrained all the energy fluctuations in his body and sneakily approached the inner sect elder of the Five Poison Sect.

Moreover, Ye Feng gathered all his power in one place, and then began to secretly activate his most powerful weapon, the Holy Tower of Hundred Demons.

At this moment, Ye Feng was accompanied by the Inner Sect Elder who was approaching the Five Poison Sect who was silently healing in the swamp. It can be said that the atmosphere was extremely tense.

Because success or failure depends on this! Hearing Ye Feng's question, Su Qingmo hesitated for a moment, then shook his head and said loudly: "I just relied on a damaged map to get here. I haven't found the place where Old Man Wandu's cave is yet. Although I am not weak, there are many poisonous insects and poisons living in the deep areas of the Ten Thousand Poison Valley. An inexplicable look.

Because Ye Feng saw that in a swamp not far away at this moment, an old figure was sitting there cross-legged, with serious injuries on his body.

But at this time, poisonous insects and poisonous substances of various shapes emerged from the mud of the surrounding swamp, and they all crawled onto the old man's body in dense numbers.

And the next moment, when these poisonous insects crawled onto the old man's body, these poisonous insects seemed to have been sucked out of all life energy at once, and instantly became dry and withered.

Obviously, these densely packed poisonous insects were attracted and sucked all the life energy out of the old man, thereby restoring the old man's severely lost life and strength.

And the old man Ye Feng saw sitting cross-legged in the swamp was none other than Ye Feng's current nemesis, the inner sect elder of the Five Poison Sect!

After seeing this scene, Ye Feng's eyes suddenly showed a deep and incomprehensible look.

Unexpectedly, the enemy's road was narrow, and I was wandering around in the deep jungle of the Ten Thousand Poison Valley, and I unexpectedly ran into the Inner Sect Elder of the Five Poison Sect who was secretly healing here.

At this moment, it can be said that Ye Feng did not hesitate at all. He immediately used the power of space to sneak towards the inner sect elder of the Five Poison Sect who was concentrating on healing.

If it was the inner sect elder of the Five Poison Sect who was at his peak, Ye Feng would definitely not dare to provoke him. After all, the other party was four realms higher than himself.

But now Ye Feng saw that the injuries on the inner sect elder of the Five Poison Sect were very serious. It could be said that there were wounds everywhere, and his strength had also dropped significantly.

Ye Feng guessed that the golden centipede that he had designed before had caused huge damage to the elder of the inner sect of the Five Poison Sect, so he was seriously injured and even resorted to such cruel methods. , by absorbing the vitality of these poisonous insects, to restore one's own injuries and lost strength.

At this moment, Ye Feng knew that he could not just ignore the situation and had to take action, because this was a great opportunity to make a sneak attack and completely eliminate this mortal enemy.

After all, Ye Feng is in the dark now, and the inner sect elder of the Five Poison Sect is in the light.

Therefore, Ye Feng felt that he might seize this opportunity and kill the opponent directly.

At this moment, Ye Feng held his breath and concentrated on seizing this great opportunity, because this opportunity was unique and very rare.

If he cannot seize this opportunity, then Ye Feng may be endlessly hunted by the inner sect elder.

There is only one chance, Ye Feng must seize it.

So at this moment, Ye Feng deeply restrained all the energy fluctuations in his body and sneakily approached the inner sect elder of the Five Poison Sect.

Moreover, Ye Feng gathered all his power in one place, and then began to secretly activate his most powerful weapon, the Holy Tower of Hundred Demons.

At this moment, Ye Feng was accompanied by the Inner Sect Elder who was approaching the Five Poison Sect who was silently healing in the swamp. It can be said that the atmosphere was extremely tense.

Because success or failure depends on this!

Chapter 4968 Split in half

At this time, Ye Feng can be said to have fully activated his void attribute, hiding himself deeply in the deep void. In this way, he can seal off all the life and energy fluctuations in his body.

No matter how strong the inner sect elder of the Five Poison Sect is, he cannot feel Ye Feng's power fluctuation in the void.

And not to mention, the current elder of the inner sect of the Five Poison Sect, who was probably seriously injured after being attacked by the terrible monster golden centipede, is concentrating on using the poisonous insects and poisons in the swamp to restore his own health. He was injured, so he didn't have time to notice the changes around him.

After all, the inner sect elder of the Five Poison Sect probably never expected that in this short period of time, Ye Feng would accidentally encounter him secretly healing his wounds here again.

At this moment, Ye Feng felt in his heart that this was his once-in-a-lifetime opportunity to get rid of the powerful enemy of the Inner Sect Elder of the Five Poison Sect.

After all, the scene of Ye Feng being chased before is still vivid in my mind. The inner sect elder of the Five Poison Sect is an extremely greedy and ruthless person. He actually wants to refine Ye Feng into a pill, so Ye Feng It can be said that he has the intention to kill this inner sect elder of the Five Poison Sect.

It's just that the previous elder of the inner sect of the Five Poison Sect had a cultivation level four levels higher than that of Ye Feng. Therefore, even if Ye Feng unleashed all his means and power, it would be impossible to fight and kill this Five Poison Sect. The great elder of the inner sect.

But things are different now.

The great elder of the inner sect of the Five Poison Sect was badly deceived by Ye Feng's tactics. Now he is seriously injured and is in a deep state of recovery from his injuries. It is a good opportunity to kill him with one strike.

Ye Feng was slowly advancing in the void at this time, approaching the inner sect elder of the Five Poison Sect.

Soon, Ye Feng had arrived at the edge of the swamp.

Ye Feng was hidden in the void, his gaze revealing

Crossing the void, he stared at the inner sect elder of the Five Poison Sect.

At this moment, the great elder of the inner sect of the Five Poison Sect was still sitting cross-legged on the ground, attracting the poisonous insects and poisonous things in the swamp to crawl onto his body, and then draining the vitality of these poisonous insects and poisonous things to restore his own injuries.

At this moment, Ye Feng is quickly injecting all his power into his most powerful weapon, the Hundred Demon Holy Tower.

You must know that this Hundred Demons Holy Tower is a peerless magic weapon among the demon clan. It is said that it was once the demon god's magic weapon. So if Ye Feng wants to make a sneak attack now, he will naturally have to use his strongest attack method, which is The Holy Tower of Hundred Demons.

Buzz!

At this moment, Ye Feng was in the void while injecting power into the Hundred Demons Holy Tower. The Hundred Demons Holy Tower instantly emitted a terrifying wave of destruction.

Ye Feng tried his best to suppress this fluctuation and not let the elder of the inner sect of the Five Poison Sect, who was recovering from his injuries in the swamp not far away, notice it.

When Ye Feng poured almost all of his power into the Hundred Demons Holy Tower, he finally took action completely.

Boom! !

At this moment, Ye Feng immediately burst out from the void, and then directly used the Holy Tower of Hundred Demons in his hand.

Buzz!

I saw that the entire Holy Tower of Hundred Demons instantly changed from the size of a palm to as towering and heavy as a mountain, with the weight and destructive power of a god. It was suddenly heading towards the Five Poison Sect not far away. The great elder of the inner sect bombarded away.

The Great Elder of the Inner Sect of the Five Poison Sect is concentrating on recovering from his injuries. He never thought that in this extremely peaceful jungle, there would be such a terrifying power.

It burst out in the air.

So at this moment, the inner sect elder of the Five Poison Sect immediately changed his expression, and quickly retreated crazily, trying to stay away from the attack of the Hundred Demons Holy Tower.

But the next moment, he was already too late. After all, Ye Feng had deliberately planned a sneak attack and attack.

Therefore, the great elder of the inner sect of the Five Poison Sect could not avoid Ye Feng's deliberate sneak attack. In an instant, his whole body was hit by the Holy Tower of Hundred Demons.

Although Ye Feng's cultivation is four levels lower than that of the Great Elder of the Inner Sect of the Five Poison Sect, the Great Elder of the Inner Sect of the Five Poison Sect is now seriously injured, and Ye Feng still attacks sneakily, not to mention Bai Yao The Holy Tower is inherently a very powerful weapon.

So at this moment, when the Tower of Hundred Demons, as majestic as a mountain, hit the great elder of the inner sect of the Five Poison Sect, earth-shattering destructive power immediately burst out. Half of the elder's head was shattered by the blast, and half of his shoulders collapsed.

"ah!!"

At this moment, the great elder of the inner sect of the Five Poison Sect immediately let out an earth-shattering scream.

It was obvious that he was hit hard and seriously injured in an instant.

But at this time, the elder of the inner sect of the Five Poison Sect was not completely dead. After all, this was an extremely terrifying old monster with a very strong cultivation base, so he was not successfully killed by Ye Feng for a while. .

But Ye Feng's goal has been achieved.

This sneak attack had completely injured the Inner Sect Elder of the Five Poison Sect even more seriously, even half of his head was broken into pieces.

At this moment, the Great Elder of the Inner Sect of the Five Poison Sect stared at Ye Feng behind the Hundred Demons Holy Tower, and immediately yelled in horror and anger: "What?

What? ? It's actually you, this kid? ? You kid actually dares to sneak attack on me. You are so audacious. I must kill you! "

When Ye Feng heard what the Inner Sect Elder of the Five Poison Sect said at this time, he immediately burst into laughter and said loudly: "Old Immortal, you were seriously injured to begin with, and now you are attacked by me with the Hundred Demons Holy Tower. The injury has become more serious. Your cultivation strength and true combat effectiveness are probably no longer one percent of the peak state. You still want to kill me? I should kill you!"

boom!

After saying that, Ye Feng naturally beat the drowned dog, and suddenly released his most powerful inheritance, the Ancient Ten Thousand Demons Art!

boom! boom! boom!

At this moment, thousands of the big devil's clones rushed out of Ye Feng's body.

Thousands of big demons rushed towards the inner sect elder of the Five Poison Sect. They surrounded the seriously injured elder of the Five Poison Sect and beat him wildly.

The great elder of the inner sect of the Five Poison Sect immediately roared angrily and said: "Toxic Domain!"

Boom!

At this moment, an extremely poisonous field burst out from the body of the Inner Sect Elder of the Five Poison Sect, which instantly poisoned thousands of big demons around him until their whole bodies began to melt. stand up.

When Ye Feng saw this scene, he rushed forward instantly, and a golden sword appeared in his hand, which was the battle sword turned into by the God's Ring.

Ye Feng slashed hard at the elder of the inner sect of the Five Poison Sect in the air. The sword of the gods burst out with bright golden light and condensed a huge sword light, which directly cut the entire poisonous field into two. Half, and then with a "plop" sound, the inner sect elder of the Five Poison Sect was instantly split into two halves.

The great elder of the inner sect of the Five Poison Sect, died!

Chapter 4969 I am willing

"This old guy is finally dead!"

At this time, Ye Feng looked at the dead elder of the inner sect of the Five Poison Sect, and naturally breathed a sigh of relief.

After all, when Ye Feng compromised just now, he actually didn't have much confidence.

After all, this old monster is an extremely terrifying existence among the Five Poison Sects, so his cultivation strength is very terrifying, and he may have various trump cards.

But Ye Feng finally discovered that, apart from having a very high level of cultivation, this elder of the inner sect of the Five Poison Sect didn't seem to have any particularly powerful trump cards.

The only so-called highly poisonous field, under Ye Feng's physique that is not afraid of poisons and the slashing of the God's Sword, was of no use. It was directly split into two halves, unable to protect the inner gate of the Five Poison Sect. Great elder.

So at this time, Ye Feng completely killed the inner sect elder of the Five Poison Sect. Naturally, he was completely relieved and very happy.

Finally, this powerful enemy was completely killed.

There is nothing to fear from the other strong men of the Five Poison Sects.

At this time, Ye Feng did not hesitate and directly released the Devouring Domain. Naturally, there would be no waste at all. He completely gave all the blood, energy and skills of the Inner Sect Elder of the Five Poison Sect to Devoured in an instant.

Buzz!

At this moment, a huge amount of energy was immediately injected into Ye Feng's dantian, causing Ye Feng's cultivation aura to immediately begin to surge at an incredible speed.

boom!

The fifth level of the Lord Realm!

boom!

The sixth level of the Lord Realm!

boom!

The seventh level of the Lord Realm!

boom!

The eighth level of the Lord Realm!

boom!

The ninth level of the Lord Realm!

boom!

The Lord's Realm of the Tenth Heavenly Perfection! !

At this time, Ye Feng's cultivation finally completely broke through to the tenth level of the Lord Realm, the Great Perfection.

In one fell swoop, he broke through nearly six heavens!

This extremely rapid improvement is simply crazy.

If someone else saw it, they would definitely be shocked and their eyes would fall down.

Because even in such a glorious place as Zhongzhou, no matter how terrifying the cultivation talents of the top geniuses among the super sects are, it is impossible for them to achieve so many breakthroughs like Ye Feng in just a few seconds.

At this time, Ye Feng's eyes suddenly revealed a look of deep surprise.

The great elder of the inner sect of the Five Poison Sect did not disappoint me. He was so much higher than himself, and due to his serious injury, his cultivation skills had also dissipated a lot. However, even so, the inner sect of the Five Poison Sect had not let him down. The remaining skill and blood energy of the elder of the sect was still enough for Ye Feng to obtain such a huge amount of energy after swallowing it, and to break through so much at once.

At this moment, Ye Feng clenched his fists and could feel the turbulent power like the ocean surging throughout his body.

Ye Feng knew that his combat effectiveness had definitely improved a lot this time.

At this time, Ye Feng immediately took the storage ring on the body of the great elder of the inner sect of the Five Poison Sect who had been swallowed up into ashes, and then carefully explored the storage ring to see if there was anything good. .

As the great elder of the inner sect of the Five Poison Sect, which is a pretty good first-class power, he has a very high status and his wealth accumulation is quite good.

However, after Ye Feng searched carefully, he found that there was no so-called practice.

The resources are not what I expected.

However, Ye Feng thought about it for a moment and understood that it was probably the inner sect elder of the Five Poison Sect who suffered serious injuries when fighting the terrifying poisonous insect overlord, the Golden Centipede, so he put his cultivation resources and All kinds of good things are probably used to restore one's own power.

But Ye Feng finally found two good things.

The first one is an ancient book. What is recorded in it is the powerful inheritance and extremely poisonous domain practiced by the great elder of the inner sect of the Five Poison Sect.

Once this poisonous field is deployed, the surrounding heaven and earth space can be filled with violent toxins, and ordinary living beings will definitely be poisoned to death in an instant.

The reason why Ye Feng can fight against the poisonous field so easily does not mean that the poisonous field is very weak, but because Ye Feng has a strong innate physique and tenacious vitality, so he is not afraid of poisonous fields.

But that may not be the case for others.

Even a strong person who is several realms higher than Ye Feng, if he really encounters the elder of the inner sect of the Five Poison Sect, he will definitely be poisoned to death by the poisonous domain in an instant.

So at this time, Ye Feng still attaches great importance to the inheritance of the poisonous field.

At this moment, Ye Feng directly opened this set of inheritance and imprinted all the secrets of the inheritance into his mind. In this way, he can continue to understand and successfully practice the poisonous field. .

Moreover, you must know that Ye Feng had previously obtained the most precious Medicine King Divine Dry Grass in the Ten Thousand Poison Valley.

Divine withered grass is a kind of violent poison that can greatly enhance the power of the poison field.

At this moment, the second precious good thing Ye Feng searched was a very mysterious black token.

This black token has the word "poison" written on it.

Obviously, this is the identity token of the Great Elder of the Inner Sect of the Five Poison Sect. As long as you have this token, you can have various rights of the Great Elder of the Inner Sect.

Ye Feng was holding the token at this time, his eyes flickering, and he suddenly had a plan in his heart.

That is, maybe I can use this identity token to return to the Five Poison Sect and get the good things from the Five Poison Sect.

After all, the Five Poison Sect has been chasing Ye Feng for so long, forcing Ye Feng into a state of embarrassment. Ye Feng naturally wants to get some benefits, otherwise, Ye Feng will naturally not be reconciled.

So Ye Feng got the identity token of the great elder of the inner sect. Perhaps he could use the art of disguise to disguise himself as the great elder of the inner sect of the five poisons sect, return to the five poisons sect, and use this identity token to escape from the five poisons sect. He secretly obtained a lot of cultivation resources to strengthen himself.

"The Five Poison Sect, the Five Poison Sect, you hunted me down so embarrassingly, and I am only willing to trick you so that I can benefit myself."

Ye Feng murmured at this time, and then put the token on himself.

After that, Ye Feng decided to follow his own plan and prepare to disguise himself as the elder of the inner sect of the Five Poison Sect, break into the interior of the Five Poison Sect, and gain benefits secretly.

But just when Ye Feng was about to leave, suddenly, a figure not far away flew over in an instant.

"Um?"

Ye Feng took a closer look and saw that it was the mysterious and beautiful woman he had accidentally met before, Su Qingmo.

But at this moment, Su Qingmo saw Ye Feng not far away, and immediately couldn't help but said nervously: "Ye Feng, hurry up and get out of here! I encountered something in Old Man Wandu's cave. A very scary poisonous monster is chasing you. Let's escape quickly! I'm sorry, I didn't expect that that scary monster was brought to you. I really didn't know you were here."

Chapter 4970 The poisonous hedgehog

At this time, seeing Su Qingmo running over anxiously and saying such words, Ye Feng had a look of surprise in his eyes, but there was no fear.

Because Ye Feng had just devoured the entire inner sect elder of the Five Poison Sect, his cultivation aura had been improved to an unprecedented level, and he had directly reached the tenth heavenly perfection of the Lord Realm.

So Ye Feng is now many times more powerful than when he first met Su Qingmo.

Su Qingmo obviously didn't notice the change in Ye Feng's cultivation aura. After all, she was being chased by a very scary monster.

So at this time, she just quickly reminded Ye Feng to get out of here.

But at this moment, Ye Feng smiled slightly and said, "I want to see what kind of monster it is and whether I can kill it directly."

"Um?"

Hearing what Ye Feng said, Su Qingmo's beautiful eyes showed a look of surprise, as if she didn't expect Ye Feng to be so confident.

But the next moment, Su Qingmo seemed to sense something, and immediately couldn't help but said in surprise: "What? Ye Feng, the cultivation aura on your body is actually the tenth level of the Lord Realm, the Great Perfection? Could it be Ye Feng?" Feng, when you first met me, you deliberately concealed your cultivation aura, why did you suddenly become so powerful?"

It had to be said that even though Su Qingmo's identity was mysterious and her origins were extraordinary, she was still shocked by the speed at which Ye Feng's cultivation improved.

So she thought Ye Feng was deliberately hiding his cultivation level before.

Ye Feng smiled and said, "After I left you, I received a huge opportunity. That's why my cultivation level improved so much all of a sudden. It's not that I deliberately concealed my cultivation level before."

Hearing what Ye Feng said, Su Qingmo's beautiful figure finally came to Ye Feng.

Su Qingmo did not continue at this time.

He ran away, but said a little eagerly: "I didn't expect Ye Feng that you would get such a huge resource, and your cultivation level would suddenly rise to the sixth level, and you would step into the tenth level of the Lord Realm. Dzogchen, in this case, maybe the two of us can really fight the monster that is chasing me."

When he said this, Ye Feng asked curiously: "Have you found the cave of Old Man Du?"

Su Qingmo nodded, and then said helplessly: "But Old Man Wandu's cave is too dangerous. I haven't fully entered it to explore the luck and luck in it. As a result, I was trapped at the entrance of Old Man Wandu's cave. I was chased by a terrifying poisonous monster. This monster was actually not that powerful, but it was full of poison, so I didn't dare to confront it head-on. I prepared to escape first and lure it away completely. , and then I returned to the cave of Wandu Old Man, but this monster was not only highly poisonous, but also seemed to have very powerful spiritual thoughts, and it kept locking on me, making me a little embarrassed. "

Hearing what Su Qingmo said, Ye Feng immediately nodded.

In fact, Ye Feng was quite strange at first. After all, Su Qingmo was an extremely powerful being, perhaps one or two realms stronger than Ye Feng's current cultivation level.

Such a top genius should not be so miserable as to be chased by a monster.

But now Ye Feng understood that the monster living in the Ten Thousand Poison Old Man's Cave was a very terrifying and poisonous monster, so Su Qingmo did not dare to confront it head-on.

Because even if Su Qingmo is stronger than this monster, once he gets close to this monster, he will definitely be poisoned to death by the monster's poison.

Before this point, the Five Poison Sect

The Inner Sect Elder also used this method when dealing with Ye Feng. Unfortunately, Ye Feng was immune to all poisons, so Ye Feng was able to easily kill the seriously injured Inner Sect Elder of the Five Poison Sect.

Otherwise, even if a strong person who is several levels higher than Ye Feng's cultivation skills confronts the seriously injured Inner Sect Elder of the Five Poison Sect, he will most likely be exploited by the Inner Sect Elder of the Five Poison Sect to use the extremely poisonous field. Killed back.

After all, poison is so terrible that ordinary creatures cannot bear the terrifying poison.

So at this time, Ye Feng did not flee directly, but kept Su Qingmo behind, saying that the two of them could kill the monster directly by joining forces.

At this time, Su Qingmo still said a little worriedly: "That monster is full of poison. It is impossible to get close to it at all. It is difficult to kill it."

Ye Feng just smiled and said: "When the time comes, I will attack at close range. Miss Su, just assist me in attacking from a distance. You don't need to get close to that monster to avoid getting poisoned."

Hearing what Ye Feng said, Su Qingmo immediately said worriedly: "But that monster is the Ten Thousand Poison Old Man's cave. The monsters in the cave are different from ordinary poisons. I'm afraid, Ye Feng, you won't be able to bear that kind of thing." Very poisonous."

Ye Feng laughed loudly and said: "I have been dealing with the Five Poison Sect for such a long time. I have learned the peerless inheritance and the poisonous field among the Five Poison Sects. So not only am I not afraid of poisonous poisons, but I You can also confront this monster head-on."

Buzz!

After saying that, in order to make Su Qingmo believe in him, Ye Feng directly used the poisonous field on the spot.

Uh-huh!

At this moment, Su Qingmo quickly retreated because she saw an area surrounded by poisonous gas surrounding Ye Feng.

But Ye Feng was not affected at all by the poison.

.

When Su Qingmo saw this scene, he couldn't help but said in surprise: "Ye Feng, you are really the most amazing genius I have ever seen! And you said you have no sect. It seems that your cultivation His talent is so incredible, otherwise, he wouldn't have been able to get where he is today with his own strength."

When Su Qingmo said such words, he obviously regarded Ye Feng as someone who valued him very much.

She and Ye Feng met by chance before, and she thought Ye Feng had a good temperament, so she invited Ye Feng to have barbecue together and chatted for a while.

But now in Su Qingmo's eyes, Ye Feng has become synonymous with mystery and power.

Therefore, Su Qingmo's emphasis on Ye Feng's heart has naturally increased to a higher level.

And seeing that Ye Feng seemed to have really succeeded in cultivating the unique inheritance of the Five Poison Sect, the poison field, and he didn't seem to have any fear of poison.

So at this time, Su Qingmo was naturally relieved. She immediately nodded heavily and said loudly: "Okay, then let's work together to kill the monster that is chasing me. It should be coming

soon. If we can really successfully kill this monster, we can safely enter the cave of Old Man Wandu. This time I will take you Ye Feng into it, look for opportunities, and share them together, because you helped A huge favor for me.”

And just when Su Qingmo was talking.

Boom!

In the jungle not far away, a huge monster finally broke through. It was the poisonous monster that was chasing Su Qingmo.

This poisonous monster has a very ferocious shape, with sharp black metal thorns all over its body, making it look like a giant hedgehog.

But this big hedgehog is full of poison. It is a very rare poisonous big hedgehog. It is very scary!
