Chapter 5301 Two or three days

At this time, everyone followed the master of the Demon King's Palace and soon arrived at the deep area of the Great Demon God Sect.

This is already an area closer to the middle of the Great Demon God Sect.

Ye Feng could immediately sense that there were many extremely powerful auras in the surrounding buildings.

Ye Feng immediately understood that this should be the important place of the Great Demon God Sect. Otherwise, there would not be so many powerful beings in the surrounding buildings, which made Ye Feng feel the same for a moment. Death threats.

This is enough to show that the number of powerful people in the core area of the Great Demon God Sect is beyond the imagination of ordinary people. Once they are all dispatched, they will definitely be able to kill all the invading enemies in an instant.

At this time, Ye Feng did not hesitate at all and immediately followed closely beside the master of the Demon King Hall. ??

Mo Wudao and other young geniuses from the Demon King's Palace also had deep excitement in their eyes at this moment.

Because they never thought that this time they would actually get the opportunity to enter the Demon God's Space.

At this moment, the master of the Demon King's Palace stopped in front, pointed to a golden hall not far away, and said with a smile: "If you want to enter the Demon God's Space, you must enter that hall, the Demon God's Space. It is an independent small world, and the teleportation formation into the Demon God's space is within that golden hall, guarded by many sect elders in our Great Demon God Sect."

At this moment, after the master of the Demon King's Palace finished speaking, he led everyone directly to the entrance of the golden hall below.

At this time, the master of the Demon King's Palace walked in directly.

Ye Feng, Mo Wudao and a group of young geniuses from the Demon King's Palace also walked in.

The next moment, everyone immediately saw that in this golden hall, there were more than a dozen ancient formations imprinted on the ground.

Each formation is running slowly at this moment, exuding very strong spatial fluctuations.

In other words, these dozen space formations lead to independent small worlds, not just the Demon God Space.

Seeing this shocking scene, Mo Wudao, the three young masters of the Demon King's Palace, couldn't help but whisper: "Our Great Demon God Sect has a really strong foundation. It actually has so many independent small worlds, which can allow its subordinates to The disciples go in to practice, and the Demon God Space seems to be just one of them."

Ye Feng glanced at the dozens of formations engraved on the ground of the golden hall, and immediately nodded, saying loudly: "That's right, each of these formations may lead to an independent small world, Demon God Space is just one of them."

At this moment, while everyone was talking about it, the master of the Demon King's Palace took out his identity token and came to a teleportation formation.

Looking at an elder of the Great Demon God Sect standing next to the teleportation formation, the master of the Demon King's Hall smiled and said: "Deduct one thousand points from my master's points, and I will let my disciples enter the Demon God's space for two to Three days to practice."

After the Master of the Demon King's Palace finished speaking, the elder standing next to the teleportation array nodded slightly. Without saying anything more, he just took out a stone-like artifact and asked the Master of the Demon King's Palace to tell him his identity. Just swipe the card on it and it's straight away

#Every time verification appears, please do not use incognito mode!

One thousand Palace Master points were deducted.

This is the price to pay for entering the Demon God's Space.

In other words, if you want to enter the Demon God's Space, it is useless to rely on your status as a disciple. You must be a palace master level figure to be qualified to allow others to enter the Demon God's Space to practice.

If Ye Feng, Mo Wudao and others had not won the battle with the top geniuses of the Demon King's Palace this time, it would have been impossible for them to receive such treatment, and it would not have been possible for the master of the Demon King's Palace to spend so many points. They entered the demon's space.

Because the points at the Palace Master level are very precious and can be exchanged for a lot of cultivation resources in the sect for the Palace Master level experts.

It can also be seen from this that the master of the Demon King's Palace is really happy this time.

Because this time the victory of a group of young geniuses such as Ye Feng and Mo Wudao brought huge bargaining chips to the future promotion of the master of the Demon King's Palace to become the master of the Demon King's Palace, that's why the master of the Demon King's Palace was so generous. .

At this time, after the master of the Demon King's Palace swiped the points in his identity token, he immediately looked at the group of young geniuses behind him and said loudly: "You can directly enter the Demon God's Space now. In two or three days, you will will be automatically transferred out, and I will be waiting for you here. Of course, there is a premise. I want to say that the Demon God Space not only contains opportunities and creations, but also great dangers, and if you encounter a life or death crisis and It's dangerous, but there are no strong men in the sect to protect you. Everything depends on you, so you must consider whether you really want to enter the devil's space."

Hearing what the master of the Demon King's Palace said, the group of young geniuses present were not afraid at all.

Because for them, being able to obtain huge resources and good fortune is more important than life and death.

Because in a giant force like the Great Demon God Sect, if you can't keep up with the pace of others' practice and can't become stronger quickly, you will be eliminated. The result of being lost to everyone is even more uncomfortable than death.

Therefore, this group of young geniuses, including Mo Wudao and Ye Feng, did not think or hesitate at all. They just stepped into the teleportation array and disappeared.

Buzz!

At this moment, accompanied by an extremely violent space fluctuation, Ye Feng opened his eyes again and found that he was standing on a withered black land. The surrounding sky was extremely dark, giving people a very depressing feeling. feeling.

Ye Feng looked around and found that Mo Wudao and the previous group of geniuses from the Demon King's Palace were not there.

Ye Feng immediately understood that teleportation into the small world of Demon God Space was random, and not everyone would be teleported to the same place.

At this time, Ye Feng looked around and found that the surroundings were empty and extremely silent.

This place was like a desolate and desolate place. Ye Feng walked around, looking at everything around him, looking at the dim sky, the withered earth, and the empty area around him. There were even floating floating objects in the sky. There are many dilapidated buildings, it seems that terrible battles took place in ancient times, forming such a dilapidated scene.

Ye Feng couldn't help but murmured, "Is this the Demon God Space in the legend of the Great Demon God Sect? I don't know what kind of chance it is. I hope I have good luck. After all, the time is only two or three days, which is too short." At this time, everyone followed the master of the Demon King's Palace and soon arrived at the deep area of the Great Demon God Sect.

This is already an area closer to the middle of the Great Demon God Sect.

Chapter 5302 Volcanic Energy Crystal

At this time, Ye Feng did not waste time. He immediately released his soul power and covered the surroundings, wanting to find the possible cultivation resources in this demon god space as soon as possible.

This time, Ye Feng disguised himself as the ninth young master of the Demon King's Palace and got the opportunity to enter the demon god space. Then Ye Feng naturally had to seize this opportunity and bring the greatest benefits to himself as much as possible.

Because Ye Feng knew very well that it was not his original intention to disguise himself as the ninth young master of the Demon King's Palace and come to the Great Demon God Sect. He originally wanted to go to another giant force in the southern area of the heaven, the Changsheng Immortal Sect.

But at present, Ye Feng felt that he was doing well in the Great Demon God Sect, so he was not in a hurry to go to the Changsheng Immortal Sect for the time being.

At this moment, Ye Feng thought secretly in his heart and quickly leaped towards the surroundings.

When Ye Feng passed through a large area of charred land, he suddenly saw a series of volcanoes in front of him.

In each volcano, there was magma gushing out, sprinkling on the surrounding land, emitting a smell of heat and sulfur.

At this time, Ye Feng instinctively wanted to avoid such a harsh environment.

Boom!

Crack!

But suddenly at this moment, a volcano exploded, and the next moment, a giant dragon covered with red scales flew out of the volcano, opened its huge red wings, and flew towards another volcano.

This dragon is not the traditional dragon in the eyes of practitioners, but is similar to a big lizard, with two pairs of huge red wings on its back.

At this moment, this fire lizard dragon immediately flew towards another volcano, and directly fell into the inner space of another volcano, disappearing.

"Huh?"

Seeing this scene, Ye Feng's eyes moved, and he immediately flew over.

Ye Feng sensed this fire lizard dragon, and the power of cultivation was very strong.

Every time verification appears, please do not use the invisible mode!

It is four or five realms higher than Ye Feng's current level, but Ye Feng is not afraid, but Ye Feng does not want to conflict with it, because he may not be able to beat it.

After all, the ancient evil beasts living in such an ancient land as the Demon God Space may have very strong combat power.

The reason why Ye Feng flew to this volcanic area was because he saw this fire lizard dragon, which seemed to be looking for something in every volcano.

Ye Feng walked to the volcanic area that had just exploded, and immediately saw that the entire internal space of the volcano had been hollowed out, and the magma had disappeared.

Seeing this scene, Ye Feng's eyes immediately lit up. This fire lizard dragon should be constantly swallowing the things inside the magma in each volcano.

After swallowing, this volcano lost its energy supply, and it was completely exhausted and exploded.

And what can be swallowed by this fire lizard dragon, Ye Feng naturally needs it very much, because it represents a huge amount of energy.

At this moment, Ye Feng avoided the volcano that the fire lizard dragon had just fallen into, and flew quickly towards another volcano.

Soon, Ye Feng landed in another volcano and came to the crater of this volcano.

At this moment, the crater of this volcano was still spewing out red magma.

Ye Feng took a deep breath and jumped directly into the volcano from the huge crater of this volcano.

When Ye Feng entered the interior of this volcano, he immediately saw that under the interior of this volcano, among the countless magma rushing, there appeared a lot of red crystals that looked like they were born naturally by heaven and earth.

"This is a pure volcanic energy crystal!"

At this moment, Ye Feng's eyes suddenly showed a hint of surprise, and he quickly flew under the internal space of this volcano, landed in front of this volcanic energy crystal, and began to devour it directly.

"Boom!"

Almost at the moment when Ye Feng devoured, a huge stream of flame energy was immediately injected into Ye Feng's Dantian.

Ye Feng immediately received a very terrifying injection of flame energy, which made Ye Feng's cultivation aura begin to break through rapidly and continuously.

Boom! ??

The eighth level of Tiangang Realm!

Boom! ??

The ninth level of Tiangang Realm!

Boom! ??

The tenth level of Tiangang Realm!

At this moment, Ye Feng's cultivation broke through three small levels at once, and he directly broke through from the previous seventh level of Tiangang Realm to the tenth level of Tiangang Realm.

It must be said that the volcanic energy crystal in this volcano really contains a huge amount of flame energy, which made Ye Feng gain huge benefits after swallowing it.

At this time, Ye Feng was extremely happy, and it seemed that his judgment was right.

The flame lizard dragon kept shuttling in this volcano, and it was also to swallow the flame energy crystals produced in these volcanoes.

At this moment, Ye Feng did not hesitate at all, and flew out of this volcano directly and flew quickly towards another volcano.

On the land of this volcanic area, there are more than a dozen volcanoes, but half of them have been swallowed by the flame lizard dragon just now.

But Ye Feng was not in a hurry.

Because this flame lizard dragon devoured the volcanic energy crystals in these volcanoes very slowly, which was definitely not as fast as Ye Feng's devouring speed.

So at this time, Ye Feng quickly rushed towards another volcano.

#Every time verification appears, please do not use incognito mode!

When Ye Feng came to the inner space of the second volcano, it turned out that the inner space of this volcano still produced thousands of tons of volcanic energy crystals.

Ye Feng was overjoyed and continued to release the Devouring Domain and began to devour it crazily.

Boom!

Another huge amount of flame energy was absorbed by Ye Feng and injected into his body, allowing Ye Feng's cultivation aura to rapidly and continuously break through again.

boom!

The eleventh realm of Tiangang Realm!

boom!

The twelfth realm of Tiangang Realm!

boom!

The Thirteenth Tiangang Realm!

boom!

The fourteenth realm of Tiangang Realm!

The volcanic energy crystals bred in this volcano were richer and larger than the previous volcano, allowing Ye Feng to directly break through four small realms and step into the fourteenth realm of Tiangang Realm.

Ye Feng himself was very amazed at this terrifying breakthrough speed.

This also means that even if the Tiangang Realm has thirty-six small realms, it cannot stop the breakthrough speed brought about by Ye Feng devouring the volcanic energy crystals in the volcanoes.

As long as he continues to devour the remaining volcanic energy crystals in the volcano, Ye Feng will soon be able to completely break through the Tiangang realm.

Ye Feng naturally did not hesitate at all and continued to fly towards the third volcano quickly.

But just when Ye Feng was halfway through the flight.

Suddenly, an extremely angry voice came from not far away: "Who stole the volcanic energy crystals from the volcanoes in this territory? How audacious!"

This voice was the voice of the flame lizard dragon just now.

Apparently he discovered that someone was secretly stealing volcanic energy crystals from the surrounding volcanoes.

Chapter 5303: Beyond the Small World

At this time, hearing the extremely angry voice not far away, Ye Feng's eyes suddenly showed a look of surprise.

I didn't expect to be discovered by this ancient fire lizard dragon so soon.

But at this time, Ye Feng didn't hesitate at all, and flew quickly to the distance, wanting to leave here.

After all, this ancient fire lizard dragon is a very terrifying creature, and it is also a native creature in this demon god space, so its cultivation strength is very strong.

And just now Ye Feng also sensed that the cultivation realm of this ancient fire lizard dragon is four or five realms higher than his own!

If it is only two or three realms higher, then Ye Feng may not be afraid at all.

But it is four or five realms higher at once, and Ye Feng feels that it is still very difficult to deal with this terrifying ancient creature.

Ye Feng's training time in the demon god space this time is only two to three days.

So Ye Feng doesn't want to fight with it, otherwise, if he suffers serious injuries or delays his time, it will be too much of a loss.

So Ye Feng's first reaction was to leave here directly, anyway, he had already gained a lot of benefits.

Boom!

But in the next moment, a huge red dragon claw grabbed down from the sky, and Ye Feng was directly covered by this huge red claw.

And at this time, the huge dragon claw of this ancient fire lizard dragon was still burning with blazing flames, which not only had terrifying destructive power, but also had a very terrifying burning power.

So at this time, under this huge dragon claw, Ye Feng felt that his whole body was about to burn.

Seeing that the other party had come directly to his door, Ye Feng was no longer polite, but said coldly: "What do you mean by your territory? Whoever discovers the resources of heaven and earth first, whoever gets them first, who stipulates that all the volcanoes in this area are yours?"

Hearing what Ye Feng said, the ancient fire lizard dragon immediately said coldly and ruthlessly: "I said this piece of land is mine, then it is mine. If you dare to steal the volcanic energy crystals in this volcano, you are robbing my wealth. I must kill you directly to set an example."

Boom!

Almost at this moment, the huge dragon claws of this ancient fire lizard dragon became even more ferocious, and slammed towards Ye Feng, as if to wipe Ye Feng out in an instant.

But at this moment, Ye Feng burst out the power of the immortal body of the god with all his strength, and Ye Feng also punched out fiercely.

Ye Feng's fist immediately turned into a golden fist at this moment, with a terrifying impact force.

You know, Ye Feng's current immortal body has entered the third level of the seventh stage, so Ye Feng's body strength and the strength of the immortal body are no longer as weak as before.

Ye Feng's golden fist directly hit the claws of the ancient fire lizard dragon.

Boom!

The whole field suddenly erupted with a huge roar, like two towering mountains colliding together, the sound and sound waves rolled, shaking the surrounding earth into pieces.

br\u003e The next moment, Ye Feng couldn't help but retreat more than ten steps.

The ancient fire lizard dragon on the other side showed deep surprise in his eyes and said: "What? How is this possible?? An ant-like human boy, whose cultivation is so much lower than mine, and whose body is extremely weak, could actually compete with my dragon claws. You were not killed by my dragon claws in an instant? What kind of body do you have? It's incredible."

At this time, Ye Feng's eyes were a little low. Sure enough, the strength of this ancient fire lizard dragon was much stronger than he had imagined. Even with his full-strength burst of the immortal body of the god, he couldn't resist it and couldn't help but retreat more than ten steps.

It must be said that this ancient fire lizard dragon is worthy of being a native creature in the demon god space. It is indeed terrifying.

At this moment, Ye Feng naturally did not hesitate at all and directly displayed the Demon King's True Body Technique that he had practiced.

Buzz!

At this moment, a surge of dark demonic energy immediately surged out of Ye Feng's body, and directly condensed a huge ancient demon king's true body in the void behind Ye Feng. It was several thousand meters tall, looked majestic and boundless, and had an extremely heavy sense of oppression.

At this time, Ye Feng immediately controlled this huge demon king's true body and rushed quickly towards the direction of the ancient fire lizard dragon in front, trying to compete with this ancient fire lizard dragon.

At this moment, seeing Ye Feng display a huge demon king's true body, the ancient fire lizard dragon could not help but say in surprise: "In this small world, there is absolutely no young man with such a strong cultivation like you in the local area, and your inheritance is so strange, you should come from outside the small world, right?"

Hearing what the ancient fire lizard dragon said, Ye Feng was too lazy to respond or say anything nonsense. He directly urged the huge and boundless body of the Demon King's true body to press directly towards the ancient fire lizard dragon.

In addition, Ye Feng also took out the Giant Spirit Axe he had obtained before and chopped at the ancient fire lizard dragon in front of him.

This Giant Spirit Axe was obtained by Ye Feng from a low-level interface, but it is a sacred object of the ancient giant spirit clan after all, so even in the heavens, or in the extremely high-level small world of the Demon God Space, it has a powerful destructive power.

Boom!

Ye Feng held the Giant Spirit Axe in his hand and chopped at the ancient fire lizard dragon fiercely.

At this moment, under the dual attack of the Demon King's true body and Ye Feng, the Ancient Flame Lizard Dragon felt a threat even though it looked down on Ye Feng, a human boy with low cultivation, and said directly: "Okay, since you want to fight me to death, then I will fulfill your wish. Today, either you die or I die!"

Boom!

After that, the Ancient Flame Lizard Dragon immediately opened its bloody mouth and roared: "World-destroying Dragon Flame!"

Boom!

Almost at this moment, a red flame beam rushed out of the bloody mouth of the Ancient Flame Lizard Dragon, and it collided fiercely with Ye Feng's attack.

The whole field immediately erupted with a terrifying chaotic energy frenzy, sweeping across the eight wastelands, and the entire sky and earth around it seemed to be completely destroyed. At this time, hearing the extremely angry voice not far away, Ye Feng's eyes suddenly showed a look of surprise.

I didn't expect to be discovered by this ancient fire lizard dragon so quickly.

Chapter 5304: Soul Search

At this time, along with a terrifying roar, both Ye Feng and the ancient flame lizard dragon felt a terrifying impact, which was transmitted to their bodies, making both of them unable to help but quickly of retreat.

At this time, the ancient flame lizard dragon looked at his retreating steps and couldn't help but said in horror: "What? How is this possible? I didn't expect that an extremely weak human boy like you could release such an extremely powerful weapon. The power can compete with this world-destroying dragon flame."

At this time, Ye Feng looked ahead and found that the true form of the Demon King that he had condensed, that majestic and huge body, had been bombarded by the World-Destroying Dragon Flame just now, and many cracks appeared. It seemed that the next moment it would be destroyed. To be completely broken.

And in addition, the Giant Spirit God Ax in Ye Feng's hand also had cracks at this time, and it seemed that it was about to be completely broken.

Seeing this scene, Ye Feng couldn't help but show deep surprise in his eyes.

After all, the Giant Spirit God's Ax was definitely among the top among Ye Feng's many weapons, but he didn't expect that there were cracks here.

In other words, the Ax of the Giant Spirit God is considered scrapped.

At this moment, Ye Feng stared at the ancient flame lizard dragon not far ahead, and couldn't help but said: "It seems that if I don't teach you a lesson today, you don't know how powerful I am."

At this moment, Ye Feng also risked his life and instantly took out the huge black sword that he had obtained before.

This black giant sword was obtained by Ye Feng and Leng Yue in a small world of experience in a higher-dimensional practice world.

Therefore, this black giant sword comes from a high-level cultivation dimension, which is more advanced than the heaven.

When Ye Feng uses this weapon at this moment, he is absolutely letting go of his shackles and wants to fight to the death with this ancient flame lizard dragon.

Boom!

At this moment,

#Every time verification appears, please do not use incognito mode!

Ye Feng unleashed his Immortal God Body with all his strength. Ye Feng's whole body was covered with golden light. He seemed to have turned into a golden god. He held the black giant sword in his hand and slashed forward in an unpretentious manner.

At this moment, this ancient flame lizard dragon naturally did not hesitate at all. He laughed loudly and said: "Just now I just casually sprayed out a mouthful of world-destroying dragon flames. Now I want to spray out more." The World-Destroying Dragon Flame will definitely kill this kid like you."

At this moment, I saw this ancient flame lizard dragon opening its bloody mouth, once again wildly stimulating the powerful dragon power in its body, and sprayed out a total of nineteen flame light pillars in an instant.

Each flame beam has extremely terrifying burning and destructive power, and it attacks Ye Feng crazily.

Facing a total of nineteen flame beams, Ye Feng did not hesitate or flinch. He took the black giant sword in his hand and slashed forward crazily.

At this moment, Ye Feng held the black giant sword in his hand and slashed hard at the flame beam that was the first to hit.

Wow!

The next moment, the black giant sword in Ye Feng's hand was like a knife cutting tofu, directly splitting the flame beam into two halves and cutting it in the middle.

"What??"

Seeing this scene, the ancient flame lizard dragon not far away couldn't help but said in shock: "Why are the weapons in your hands more powerful than the other? Your extremely powerful ax of the giant spirit god just now, It was directly destroyed by my World-Destroying Dragon Flame and was directly scrapped. I didn't expect you to come up with such a terrifying weapon. How many magical weapons do you still have in your hands? And what is your identity? ? How could it be possible to have it?

So many powerful weapons. "

At this moment, Ye Feng was too lazy to talk nonsense or respond at all. He held the black giant sword in his hand and continued to chop forward.

Click! Click!

Every red flame beam sprayed out by this ancient flame lizard dragon was split in half by the black giant sword in Ye Feng's right hand.

And at this time, the black giant sword in Ye Feng's hand showed no damage at all, not even a trace was left.

Seeing this scene, Ye Feng was very surprised in his heart. Sure enough, the black giant sword he got was indeed a weapon from the advanced spiritual world, and it was indeed powerful.

And unlike the Sword of the Gods, the Sword of the Gods cannot exert the power of a weapon and can only cut hard objects.

But the black giant sword in Ye Feng's hand, Ye Feng injected his own magic power, can activate the weapon content in it, and can erupt into a black sword light that is tens of thousands of meters long, as if it can cut the sky and split the earth. everything.

In the end, Ye Fengru entered the uninhabited land and split all the flame beams in half, and then slashed hard on the head of the flame lizard dragon, trying to remove the opponent's head. Just cut it down.

At the critical moment, this giant flame lizard dragon turned its head and protected its head with its huge wings covered with red scales on its back.

"Pfft!"

But the next moment, the wings covered with crimson scales on the back of this ancient flame lizard dragon were not enough to withstand the black giant sword in Ye Feng's hand. One of its wings was cut off and fell to the ground.

"ah!"

At this moment, the flame lizard dragon immediately howled in pain.

He couldn't help the pain

#Every time verification appears, please do not use incognito mode!

He shouted loudly and said: "How is this possible?? The dragon scales growing on my wings are the strongest scales on my body. Even some magical weapons cannot break a scale, let alone break it. My whole wing was cut off. Boy, what kind of existence is this black giant sword in your hand? How can it be so terrifyingly sharp? "

Hearing what the flame lizard dragon said, Ye Feng immediately smiled coldly and said: "You don't have to worry about this. You just need to know that if you take the initiative to provoke me today and want to kill me, then I will definitely use it to A person's way will be treated by his body."

boom! !

After saying that, Ye Feng continued to explode his huge mana, holding the black giant sword in his hand, and quickly charged towards the flame lizard dragon, intending to continue to kill it.

But at this moment, the flame lizard dragon finally felt the fear of death, and couldn't help shouting in horror: "Wait! Wait! As long as you don't kill me, I can follow you Share a secret about the vastness of this demonic space."

But the moment the flame lizard dragon finished speaking, Ye Feng flashed in front of him, swung the black giant sword in his hand, and cut off its head with a "plop".

Snap!

The huge head fell down, and the flame lizard dragon completely perished.

Ye Feng didn't hesitate at this moment. He stretched out his hand, spread his fingers, grabbed the severed head of the flame lizard dragon, and directly used the soul master's method to search for the soul.

Ye Feng smiled coldly and murmured to himself: "You don't need to share it in person. I will search the soul directly and I will know what the secret you are talking about is."

This flame lizard dragon has murderous intentions towards Ye Feng, and it is an extremely cunning ancient evil beast, so Ye Feng will naturally not show mercy and directly eliminate the roots to avoid future troubles.

Chapter 5305 Twelve Demon Gods

At this time, under the continuous search of Ye Feng's Soul Searching Technique, Ye Feng finally understood that the secret mentioned by this ancient flame lizard dragon was actually about the "Fire Demon God" in this demon space. A place of sitting and transformation.

The reason why this small world is called the Demon God Space is because in ancient times, this small world was controlled by twelve ancient demon gods with different attributes.

However, after twelve demon gods with different attributes encountered huge disasters and all fell, this small world was abandoned.

At this time, Ye Feng thought that the founder of the Great Demon God Sect ran to the heaven from this Demon God's space, and then created such a huge foundation.

Ye Feng even suspected that the founder of the Great Demon God Sect might be one of the twelve demon gods.

However, this guess is quite crazy, and Ye Feng is not sure yet.

But Ye Feng wasn't interested either.

Because Ye Feng entered the Great Demon God Sect mainly to use the identity of the Ninth Young Master Demon Wushuang to obtain various benefits for himself.

Therefore, Ye Feng was actually not very interested in the origin of the Great Demon God Sect and just made a casual guess.

At this moment, Ye Feng learned that the flame demon god among the twelve demon gods was seated in the lava in the deepest area of the volcanic zone.

The reason why this flame lizard dragon has never gone to the lava land to find the place where the Flame Demon God rests is because the formation left behind by the Flame Demon God was very terrifying.

Back then, this ancient flame lizard dragon once broke into the resting place left by the Flame Demon God, but encountered a terrible attack in that formation and had to withdraw, silently devouring the volcanic energy inside these volcanoes. Jing Shi, strengthened his own strength and wanted to try again.

Unexpectedly, this time he encountered Ye Feng and took action against Ye Feng, trying to kill Ye Feng, but he was killed by Ye Feng instead.

#Every time verification appears, please do not use incognito mode!

.

At this moment, after Ye Feng learned all this through the Soul Searching Technique, he was naturally very happy.

I didn't expect that I would accidentally get such a huge secret.

After all, in this small world from ancient times called Demon God Space, there are twelve ancient Demon Gods. Although I don't know if they are real gods, they can be called "Demon Gods". In any case, they must have been in those days. A very earth-shattering super strong man.

If they could obtain the wealth or inheritance left behind by the place where they were incarnated, it would definitely be of unparalleled help to Ye Feng, whose current cultivation base was not enough.

Buzz!

At this time, without any hesitation, Ye Feng directly released the Devouring Domain and began to devour the blood energy contained in the body of this ancient flame lizard dragon.

"Boom!"

Almost at this moment, huge amounts of blood energy were immediately injected into Ye Feng's body.

You must know that this ancient flame lizard dragon is an ancient evil beast at the overlord level in this area, so the blood energy contained in its body is very terrifying. After all, it can compete with Ye Feng.

In the end, if Ye Feng hadn't used the extremely powerful black giant sword from the advanced cultivation dimension to finally break through the defense of this ancient flame lizard dragon, I'm afraid Ye Feng really wouldn't have been able to defeat this ancient flame lizard dragon.

"Buzz!"

At this moment, as the blood energy of very huge ancient evil beasts was injected into Ye Feng's body, Ye Feng's cultivation aura immediately began to break through quickly and continuously.

boom!

The fifteenth level of Tiangang Realm!

boom!

The sixteenth realm of Tiangang Realm!

boom!

The 17th Tiangang Realm!

boom!

The 18th Tiangang Realm!

boom!

The nineteenth realm of Tiangang Realm! !

At this time, Ye Feng's cultivation level suddenly broke through five small realms in a row!

Directly from the previous 14th level of Tiangang Realm, he broke through to the 19th level of Tiangang Realm!

It has to be said that the blood energy that this ancient evil beast brought to Ye Feng was truly terrifying and huge, allowing Ye Feng to achieve an unprecedented rapid breakthrough in his cultivation.

At this time, Ye Feng looked at the remaining volcanoes, and the excitement in his eyes became even more intense.

You know, without the hindrance of this ancient flame lizard dragon, Ye Feng can devour the volcanic energy crystals bred in the next volcanoes without restraint.

Next, Ye Feng devoured volcanoes one after another, swallowing all the volcanic energy crystals produced in the remaining volcanoes.

In the end, Ye Feng's cultivation relied directly on the help of so many volcanic energy crystals, and he completely broke through from the 19th Tiangang Realm he had just broken through to the Great Perfection state of the 36th Tiangang Realm!

As long as he breaks through another major bottleneck, Ye Feng can completely transcend the great realm of Tiangang Realm and step into a new realm of cultivation above Tiangang Realm.

However, it is still very difficult to cross the final bottleneck of Tiangang Realm, but Ye Feng now has a chance.

Because Ye Feng used the soul search method to search the head of this ancient flame lizard dragon about this demon god.

#Every time verification appears, please do not use incognito mode!

A huge secret in the world.

That is the place where the Fire Demon God, one of the twelve Demon Gods in this Demon God Space, sat and passed away, in the deepest magma of this volcanic area.

Swish!

At this moment, Ye Feng naturally did not hesitate at all, and immediately flew quickly towards the deepest area of this volcanic area.

Because Ye Feng knew that the greatest opportunity here was hidden in the deepest magma of this volcanic area.

As for the terrifying guarding formation in the memory of this ancient fire lizard dragon, Ye Feng did not care at all.

Because Ye Feng has the Eye of Heaven and Earth, he can see through the veins and structure of any formation between heaven and earth, and Ye Feng can easily pass through any so-called very terrifying and dangerous formation under the sky.

As Ye Feng flew, he soon arrived at the deepest area of this volcanic area.

Sure enough, a huge river appeared here.

But this long river is a magma river.

What is surging in the long river is not the river water, but the rolling magma, and the air is filled with a sulfuric acid smell.

Obviously, the environment here is very bad, so bad that ordinary people would never come here.

Ye Feng even saw that in the distance of this long river of magma, there were even many fire demon giants. Obviously, this is where the fire demon giants live.

However, Ye Feng did not provoke the fire demon giants living in the distance, but jumped directly into this long river of magma, wanting to find the place where the fire demon god among the twelve demon gods in the memory of the ancient fire lizard dragon sat as soon as possible.

Perhaps this opportunity and good fortune can allow Ye Feng to completely break through the final bottleneck of his current Tiangang realm and step into a new realm of cultivation.

Chapter 5306 Ancient Civilization Relics

At this moment, Ye Feng naturally did not waste any time and immediately lurked towards the deep area of this long river of magma.

Although Ye Feng was in the lava, he did not feel any hot breath.

Obviously, this magma is just ordinary magma and will not cause any harm to the now extremely powerful Ye Feng.

Moreover, you must know that Ye Feng's Immortal Body of the God is extremely powerful, so Ye Feng does not need to release his body-protecting divine light at all. He can completely rely on his body strength to withstand the flames in the molten magma. power.

And just when Ye Feng had just lurked in the middle area of the magma river, Ye Feng saw a huge formation in the distance, covering the entire bottom of the magma river.

Seeing this scene, Ye Feng nodded slightly.

It seems that the information previously collected from the memory of the flame lizard dragon is still very complete.

All the scenes under this long river of lava, including that terrifying formation, are the same as those in the memory of the ancient flame lizard dragon. .??.

At this time, Ye Feng used the Eye of Heaven and Earth to quickly approach the formation below.

Soon, Ye Feng saw through the entire formation's operation, and directly passed through the entire formation, trying to enter the space at the bottom of the molten river.

But just when Ye Feng passed through this formation, the entire molten river suddenly shook rapidly.

boom!

Under the bed of the long lava river, a huge gap suddenly opened. The next moment, a big flaming hand grabbed it from the bed of the long lava river, possessing terrifying power. Ye Feng was directly caught and instantly transferred into the inner space under the long river of molten lava.

"Oops!"

At this moment, Ye Feng felt that he could not resist the power of this big flaming hand, and his expression immediately changed wildly.

Because Ye Feng immediately had a guess that this was not the seat of the Flame Demon God at all, but perhaps the place where the Flame Demon God resided.

Because the big flaming hand that suddenly stretched out from under the river bed just now was probably the palm of the Flame Demon God.

In other words, the Flame Demon God did not die or fall at all, but has always been lurking in the inner space under this long river of molten metal.

Unexpectedly, he passed through this formation and attracted the attention of the Fire Demon God. He was directly imprisoned by the opponent and captured into the inner space under the river bed.

The next moment, Ye Feng opened his eyes and found that he was already in the underground space under the bed of the long magma river.

The surrounding area is very dark, like an underground cave.

In the deepest part of this underground cave, Ye Feng saw an old man who looked very old, sitting cross-legged on the ground not far away, looking very sacred and majestic.

However, although this old man seemed to be somewhat virtuous, his hair was sparse and his skin was pale, giving him a sickly feeling.

This old man with thinning hair looked nothing like an earth-shattering figure like the legendary Fire Demon God.

Ye Feng couldn't help but walked over and came out

#Every time verification appears, please do not use incognito mode!

He asked loudly: "Senior, is he the Fire Demon God?"

At this moment, Ye Feng knew that the other party did not kill him directly, and he definitely wanted to say something to him.

And sure enough, when Ye Feng came over and asked such a question, the old man with thin hair immediately opened his eyes, smiled slightly, and said, "Yes, I am the legendary Fire Demon God."

"Um?"

Hearing what the old man said, Ye Feng's eyes suddenly revealed a look of surprise. He seemed to be unable to believe that the old man in front of him, who looked very sloppy and had sparse hair, was actually the Fire Demon God among the legendary Twelve Demon Gods. An earth-shattering big shot.

As if seeing the confusion in Ye Feng's eyes, the old man with thin hair couldn't help but said: "Do you think I don't look like the legendary Fire Demon God? Because the Flame Demon God gives people the impression of He has a very powerful and majestic image, while I am a shabby-looking old man."

Hearing what the sparse-haired old man in front of him said, Ye Feng's eyes suddenly showed a look of embarrassment, and then he couldn't help but said: "No matter what, the feeling senior gives me is unfathomable. Even if senior is not the Flame Demon God, It was definitely an extremely terrifying existence from the ancient times. I wonder what a super powerful person like my predecessor, who possesses the power of heaven, would do if he grabbed me out of the lava? "

Hearing what Ye Feng said, the thin-haired old man couldn't help laughing and said: "The reason why I suddenly arrested you is not to harm you, but because you and I are sure You are a destined person, because you can travel through the ancient formation outside at will, and let me tell you clearly, don't look at me like such a bad old man, I am really the Flame Demon God back then."

At this moment, hearing the thin-haired old man say this, Ye Feng suddenly showed a look of surprise in his eyes.

Sure enough, just as I guessed, the legendary Fire Demon God did not die. This is not the place where the Fire Demon God is seated, but the place where the Fire Demon God lives.

But since the Fire Demon God said that he could save him, it means that this is not the place where the Fire Demon God lives, because the Fire Demon God cannot leave this area.

Ye Feng couldn't help but said: "Is Senior Flame Demon God trapped in here now?"

The Flame Demon God immediately nodded and said loudly: "Yes, back then I was here wholeheartedly exploring the remains of a mysterious civilization under the long lava river bed, but I didn't expect that this ancient civilization would be triggered. The self-protection mechanism of the ruins, so I am trapped in the outer area of this ancient civilization ruins. Many, many years have passed, and it is almost so old that I can no longer remember it. "

Hearing what the Flame Demon God said at this time, Ye Feng immediately showed a look of surprise in his eyes and couldn't help but said: "Senior, what you mean is that there is an ancient civilization at the bottom of this river bed. Relics? And this civilized ruins can trap a mysterious and terrifying existence like you, Senior Flame Demon God. It's incredible how advanced this uncivilized ruins are."

Hearing what Ye Feng said, the flame demon couldn't help but smile mysteriously, and said aloud: "I wonder if you, a young man, have ever heard of the higher-dimensional cultivation world, the ruins of the ancient civilization I explored, That is, the underground space under our feet now contains the remains of an ancient civilization from the world of advanced cultivation dimensions."

At this moment, Ye Feng naturally did not waste any time and immediately headed towards this long river of lava. The deep area quickly lurks away.

Chapter 5307 Container

Hearing what the Flame Demon God said at this time, Ye Feng's eyes immediately showed a hint of expectation, and he said loudly: "If there are really ancient ruins from the world of advanced cultivation dimensions under my feet, then I definitely hope that they can Let's investigate and find out if there is any huge opportunity, even if the big share goes to you, Senior Flame Demon God, I can drink some soup and share a piece of the pie, then it will be a great benefit to me."

"Um?"

Hearing what Ye Feng said, the Flame Demon God immediately showed a look of approval in his eyes and said loudly: "You, this young man, are a talent."

The reason why the Flame Demon God said this was because he felt that Ye Feng was very aware of current affairs and would not directly use this as a blackmail. If he was rescued, all the wealth would be taken away.

Ye Feng would not do this, but only said that he would share a piece of the pie with the Flame Demon God. This corrected his position and attitude. It was a very fair and friendly attitude, not the kind of arrogant young man.

At this moment, seeing Ye Feng's attitude being so fair and just, the Flame Demon God also looked serious and said loudly: "Since you can pass through the ancient formation outside without suffering any harm, it is enough to prove that you are the destined person I am waiting for who can rescue me and is qualified to explore the ruins of ancient civilization with me, so next we can explore the ruins of ancient civilization in the world of advanced cultivation dimension under the long river of magma. If you get We can share any good thing, and after you rescue me, I can grant you a wish, as long as it is within my ability."

Hearing what the Flame Demon God said, Ye Feng immediately showed a hint of surprise in his eyes and said: "Okay, since senior is so sincere, then I will definitely help senior pass through that formation safely."

At this time, after Ye Feng finished speaking, he continued to speak: "Senior Flame Demon God, can we now directly explore the ruins of the ancient cultivation civilization under our feet?"

r\u003e

The Flame Demon God nodded and said, "Since you can pass through the formation outside, you should also be able to see through the formation under our feet that covers the ruins of the ancient civilization."

Ye Feng nodded, looked at his feet, smiled and said, "Senior, you are testing me."

The Flame Demon God immediately smiled and said, "Try it and see if you can enter the ancient civilization practice ruins."

Ye Feng nodded and directly activated the Eye of Heaven and Earth, seeing through all the formation structures under his feet.

Uh-huh!

At this moment, Ye Feng suddenly stretched out his finger and touched a certain area on the ground under his feet.

Boom!

The next moment, the entire ground suddenly emitted a violent roar.

Along with this violent roar, the entire ground under the feet immediately cracked from the middle, and a metal-cast staircase appeared, which seemed to be full of a sense of ritual of a high-level cultivation civilization.

At this time, Ye Feng immediately walked quickly towards the bottom of the metal stairs with the Flame Demon God.

When they reached the bottom of the metal stairs, they immediately saw a very shocking scene.

I saw that the bottom of this metal staircase was connected to a huge underground space.

This underground space is entirely made of metal.

Ye Feng couldn't help but asked with some confusion: "Senior Flame Demon God, we have arrived inside a container in the ruins of the ancient cultivation civilization.

Bar? "

Hearing Ye Feng's question, the Flame Demon God immediately smiled, glanced at Ye Feng approvingly, and said: "You are indeed very smart. Where we are now, it is the ancient cultivation civilization that came to this Demon God's space. The inside of the container carried by the small world, this container is called a 'spaceship' in this ancient spiritual civilization."

"spacecraft?"

Hearing what the Flame Demon God said, Ye Feng suddenly showed a look of surprise in his eyes, and said loudly: "You mean this ancient cultivation civilization came from the starry sky in the universe? So they created a container that can travel through the starry sky in the universe. That is, the spaceship you are talking about has landed in this small world. "

The Flame Demon God immediately nodded and said, "But when I was exploring that year, this ancient cultivation civilization didn't know what happened to it, and it was all extinct. Only such a spaceship was left, and I wasted no time. It took a lot of effort to enter the interior of this spaceship, but I was unable to break through some of the seals and restrictions left by the ancient cultivation civilization inside this spaceship. However, you, a young man, have special research in formations. , and can easily see through the obstacles of any formation. Maybe you can join forces with me to crack all the seals inside this spaceship. Then we can get all the wealth of the ancient cultivation civilization contained in this spaceship. , and we can even control this spacecraft to our own advantage."

Hearing what the Flame Demon God said, Ye Feng immediately nodded expectantly.

At this moment, the Flame Demon God and Ye Feng walked directly into the internal space of this huge spaceship and came to the first metal door.

At this time, the Flame Demon God said: "This

#Every time verification appears, please do not use incognito mode!

I had cracked the first metal door that year. "

After finishing speaking, the Flame Demon directly stretched out a hand and pressed it on the metal door.

Then his five fingers quickly clicked on the metal door in a very mysterious trajectory.

With the click of the flame demon, something seemed to be activated. The metal door immediately vibrated quickly and then opened directly.

Ye Feng and the Flame Demon passed through the first metal door and came to the first room of the spaceship. Ye Feng saw that it was empty inside.

The Fire Demon God smiled slightly and said: "When I entered this first room, it contained a lot of magical blue liquid specially created by that ancient cultivation civilization, and it was packed in glass tubes. , those blue liquids can greatly enhance the physical strength of the practitioner, so I have drank all the liquid in those glass tubes, and my demon body has evolved as a result. If I hadn't been trapped by the formation If I am trapped by the law, maybe I will become the strongest among the twelve demon gods in this small world. "

At this time, Ye Feng couldn't help but said: "The twelve demon gods in this small world have all disappeared long ago. I don't know whether they died or went somewhere. The great demon sect of the heaven where I come from , as far as I know, it was established by a super strong person who came out of this small world of the demon god space. I don't know if it is one of the twelve demon gods alongside you. "

Hearing what Ye Feng said, the Flame Demon God became interested and couldn't help but said: "You can use your inheritance and let me see. I will sense the original power of your inheritance. Is it the same as ours back then?" A legacy created by one of the twelve demon gods."

Chapter 5308: Protective Treasure

Hearing what the Flame Demon God said at this time, Ye Feng also became interested, and immediately nodded, and then directly used the inheritance of the Nine Young Master Demon Wushuang, the Demon King's True Body Art, that he had learned.

This set of Demon King True Body Techniques is also a very powerful peerless inheritance in the Great Demon God Sect. It is very powerful when practiced to the extreme.

At this moment, Ye Feng used the Demon King's Real Body Technique, and directly condensed a huge ancient Demon King's real body with a majestic tens of thousands of meters behind him, which looked full of deep oppression.

Seeing this scene at this time, the Fire Demon God standing aside suddenly showed a look of surprise, and then his face also showed a look that seemed to be recalling and thinking. ??

Apparently, the Flame Demon God seemed to have seen the inheritance displayed by Ye Feng before.

But at this time, the Flame Demon God finally shook his head and said aloud: "Although many years have passed, the inheritance you are running seems to be different from the other eleven Demon Gods I know. The same original attribute power, but it may also be a powerful inheritance of another attribute re-created by one of the twelve demon gods."

Hearing what the Flame Demon God said at this moment, Ye Feng nodded.

The Flame Demon God continued to speak: "But this time after we finish exploring the spaceship of this ancient cultivation civilization, you take me away from here, and I will follow you to the Great Demon God Sect to take a look. Maybe we can actually meet it." My old friend."

Hearing what the Flame Demon God said, Ye Feng nodded, and then continued walking towards the second room of the spaceship.

When they came to the door of the second room, the Fire Demon God said aloud: "I did not break the ancient seals and restrictions set on the metal door of the second room."

Hearing what the Flame Demon God said, Ye Feng nodded and said, "Let me take a look."

Buzz!

At this moment, Ye Feng directly turned his eyes of heaven and earth and looked towards the metal door of the second room in front of him.

The next moment, Ye Feng saw through the context of the seal on the metal door.

At this moment, Ye Feng smiled slightly and walked forward. Then he quickly stretched out his fingers and clicked a few times on the second metal door, clicking on a few special places.

Almost at the next moment, the second metal door immediately "clicked", the seal was broken, and it opened automatically.

"Um?"

Seeing this scene, the Flame Demon God standing next to him immediately widened his eyes and couldn't help but exclaimed in amazement: "You are such an amazing young man. You are so capable of this kind of formation." Terrifying research, you know, it took me decades to crack the first metal door, but this second metal door may have a stronger seal, and you only spent a short time. It took just a few seconds to crack it, which is incredible."

At this moment, even an ancient figure like the Flame Demon God was shocked when faced with Ye Feng's incredible ability, because it was so amazing.

Even the Fire Demon God has never seen such a magical ability.

Ye Feng just smiled slightly at this moment and said aloud: "I have awakened a very powerful talent innately, which can see through the context and structure of any formation, so I only need to see through the essential context of each formation or seal. and structure, I can change its structure and crack it. This is why I can pass through this long river of lava so easily and safely.

Sealed secrets. "

Hearing what Ye Feng said, the Flame Demon God took a good look at Ye Feng for the first time and said loudly: "You are so talented. You are really a rare talent. By the way, I still don't know your name?"

Ye Feng smiled slightly at this moment, and naturally said the name of the ninth young master of the Demon King's Palace that he was currently pretending to be, and said aloud: "My name is Mo Wushuang, from the Great Demon God Sect in the southern region of the heaven. I am from the Demon King's Palace. Ninth Young Master."

Hearing what Ye Feng said, the Flame Demon God nodded slightly. He actually didn't care much about Ye Feng's identity. He just cared that Ye Feng had great potential.

If it were an ordinary young genius, perhaps he wouldn't even take a second look at an ancient figure like the Flame Demon God.

Because the Flame Demon God is a figure from the ancient era, he already has his own aloofness and vision.

But everything Ye Feng showed made the Flame Demon God attach great importance to Ye Feng, a young man of the younger generation, even solemnly.

At this moment, after Ye Feng opened the second metal door, the two of them walked in directly.

The moment they walked into the second room, they immediately saw that in the second room of the spaceship, there were very ancient-looking compasses placed there.

Each compass has different nodes marked on it, which seems to represent a different area.

Seeing this scene, the Flame Demon couldn't help but said: "In the ancient times, I once heard that there were many powerful cultivation civilizations that liked to conquer one world after another. Perhaps what is marked in these compasses The point is that this ancient cultivation civilization conquered worlds one after another. However, after they came to this small world where I was, they seemed to have encountered something terrible, so all the distant objects on the entire spaceship

#Every time verification appears, please do not use incognito mode!

The strong men of the ancient cultivating civilization were all extinct, with not even a trace left. "

Hearing what the Flame Demon God said, Ye Feng said with some worry: "Since this spaceship is so evil, will there be huge dangers if we continue to explore?"

For Ye Feng, although exploring this spacecraft is also very important, his own life is more important.

After all, Ye Feng's current cultivation strength cannot be compared with the Flame Demon God. If he is not careful, he will be instantly killed by some terrible thing left by this terrifying ancient cultivation civilization.

It's not that Ye Feng is timid, but that Ye Feng is cautious enough and will not easily try opportunities that are beyond his own strength.

When Ye Feng said this, the Flame Demon God smiled slightly and said: "Don't worry, I will give you a guardian token. Once you encounter danger, this guardian token will immediately activate a layer of flame light. The shield is enough to withstand attacks from strong men like me."

When he said this, the Flame Demon God reached out and opened it, and a crimson token immediately appeared in his palm and placed it in Ye Feng's hand.

When Ye Feng heard what the Flame Demon God said at this moment, his eyes suddenly lit up as he stared at the red token.

This flame token is definitely a rare super treasure for the current Ye Feng.

You know, Ye Feng's current cultivation strength is much worse than that of a strong man from ancient times like the Flame Demon God.

The cultivation realm of an ancient superpower like the Flame Demon God may be dozens or even hundreds of realms higher than Ye Feng's current level.

Now, the token given to Ye Feng by the Flame Demon God can inspire him to withstand the attack of a super powerful person like the Flame Demon God. This is definitely a treasure of protection! Priceless!

Chapter 5309 Energy Core

Ye Feng was naturally very happy after getting this protective token at this time.

Because once the power in this protective token is stimulated, the flame shield formed is enough to withstand the attack of a super powerful person like the Flame Demon God.

Although Ye Feng didn't know how many times he could use the energy in this token, it was definitely a priceless treasure.

It will be of great help to Ye Feng as he continues to explore the ruins of this ancient civilization and encounter dangers.

At this moment, Ye Feng holds this guardian token in his hand, and can inspire the power in it to protect himself at any time.

At this time, Ye Feng became more confident.

At this moment, the Flame Demon God was searching in the second room and said loudly: "In this second room, except for these compasses that seem to be used for positioning, there is nothing else."

Ye Feng nodded and continued walking towards the metal door of the third room.

Soon, with the crack of Ye Feng's Eye of Heaven and Earth, the metal door of the third room was instantly opened by Ye Feng.

Seeing this scene, even though he knew that Ye Feng had a natural ability to crack formations, the Flame Demon God stood aside and was still shocked when he saw Ye Feng's operation. He couldn't help but praise him repeatedly and said: "You are really a talent!"

At this moment, Ye Feng and the Flame Demon God walked into the third room of the spaceship, and immediately saw several ancient skeletons lying on the ground. Their dead bodies looked quite strange.

At this time, seeing these ancient skeletons, Ye Feng couldn't help but said: "These should be the corpses of members of the ancient cultivating civilization in this spaceship."

Hearing what Ye Feng said, the Flame Demon God immediately nodded and said, "It should be so. All these corpses are inside this spaceship. Except for the members of the ancient cultivation civilization, no one else is. Maybe we were the first people to enter the interior of this spaceship. It seems that they died in their own spaceship, which is similar to what I guessed. My guess is that they arrived in the spaceship back then. After this small world, before they were ready to conquer this small world, they were all killed by some very scary and mysterious things in this small world, and were directly extinct. Therefore, their conquest plan was shelved, and all the ancient people. Members of the cultivating civilization also died mysteriously in their own spaceships."

Hearing what the Flame Demon God beside him said, Ye Feng felt an inexplicable sense of crisis enveloped his heart.

Because there must be something extremely terrifying in this spaceship, these powerful members of the ancient civilization died in mysterious circumstances in their own spaceships, without ever leaving the spaceship.

God knows what they went through back then.

Moreover, the culprit who caused the death of members of the ancient cultivating civilization in these spaceships may still be in this spaceship today, which makes people worried and frightened.

But now that he's already here, Ye Feng won't back down anymore.

Ye Feng nodded, clenched the guardian token given to him by the Flame Demon God in his hand, and said loudly: "Let's explore this third room carefully to see if there is anything good.

West. "

The Fire Demon God nodded and did not pay attention to the corpses of the members of the ancient cultivating civilization on the ground. Instead, he rummaged through the many boxes and cabinets in the third room to see if he could find anything of great value.

At this time, Ye Feng suddenly sensed that there seemed to be some very secret energy fluctuations hidden among the corpses of members of the ancient cultivating civilization lying on the ground.

"Um?"

Ye Feng's eyes suddenly lit up, and he squatted down to carefully examine the corpses of these members of the ancient cultivating civilization.

Most of the corpses of members of these ancient cultivating civilizations have completely decayed and turned into skeletons, without any blood energy at all.

But Ye Feng searched carefully and suddenly dug out a crystal stone emitting emerald blue light from the chest of their skeletons.

These crystal stones were bred from the bodies of members of these ancient cultivating civilizations.

"Um?"

This made Ye Feng's eyes suddenly show surprise.

Because as we all know, in the world of cultivation, only monsters or ancient evil beasts can give birth to this kind of crystal-like energy core.

Unexpectedly, this ancient cultivation civilization was a group of creatures similar to the human race, but it had given birth to its own energy core.

It seems that this ancient cultivation civilization really came from a mysterious place deep in the universe. Otherwise, it would not be so different from the human practitioners in the heaven.

Ye Fengke had never seen a human cultivator in the heaven being able to breed something similar to the core of a monster in his chest.

It seems that the members of the ancient cultivating civilization in this spaceship are not simply human race, but similar to human race. They are a very mysterious cultivating civilization, but now they are all extinct, and only this spaceship is left. It seems that Still telling about their past.

At this time, Ye Feng naturally did not hesitate at all and simply took out all the energy cores from the corpses of several members of the ancient cultivating civilization on the ground, and then devoured them on the spot.

The energy stored in these energy cores is very pure and powerful, making Ye Feng very happy.

Because of absorbing these energy cores, Ye Feng's current skills will definitely continue to grow tremendously.

Boom!

At this time, as Ye Feng devoured them, the ice-blue energy from the energy cores bred in the bodies of these members of the ancient civilization was immediately injected into Ye Feng's Dantian, rapidly increasing Ye Feng's power.

Previously, Ye Feng's cultivation level had been promoted to the Great Perfection state of the 36th Tiangang Realm.

boom!

At this time, having obtained the energy core in the body bred by so many ancient cultivating civilizations, Ye Feng's cultivation level suddenly broke through, breaking through the Great Perfection bottleneck of the 36th Tiangang Realm, and rushed directly into Tiangang Realm. Half a step above the spiritual realm!

At this moment, Ye Feng could clearly feel that his skill reserves and combat effectiveness had skyrocketed, and he was many times stronger than before, because this was a huge leap across a whole realm! Ye Feng was naturally very happy after getting this protective token at this time.

Because once the power in this protective token is stimulated, the flame shield formed is enough to withstand the attack of a super powerful person like the Flame Demon God.

Although Ye Feng didn't know how many times he could use the energy in this token, it was definitely a priceless treasure.

Most of the corpses of members of these ancient cultivating civilizations have completely decayed and turned into skeletons, without any blood energy at all.

But Ye Feng looked carefully and suddenly dug out a crystal stone emitting emerald blue light from their skeleton chests.

These crystal stones were bred in the bodies of the members of these ancient cultivation civilizations.

"Huh?"

This made Ye Feng's eyes suddenly show surprise.

Because it is well known that in the cultivation world, only monsters or ancient evil beasts can breed this kind of energy core similar to crystals.

But unexpectedly, this ancient cultivation civilization is a group of creatures similar to humans, but it has bred its own energy core.

It seems that this ancient cultivation civilization really came from a mysterious place deep in the universe, otherwise, it would not be so different from the human cultivators in the heavens.

Boom!

At this time, along with Ye Feng's swallowing, the ice-blue energy in the energy cores bred in the bodies of these ancient cultivation civilization members was immediately injected into Ye Feng's Dantian, rapidly strengthening Ye Feng's skills.

Before, Ye Feng's cultivation had been upgraded to the great perfection of the 36th realm of Tiangan Realm.

Boom!

At this time, Ye Feng had obtained the energy cores of the bodies of so many ancient cultivators, and his cultivation had broken through the bottleneck of the 36th level of the Tiangan Realm, and directly rushed into the half-step earth spirit realm above the Tiangan Realm!

At this moment, Ye Feng could clearly feel that his skill reserves and combat effectiveness had soared straight up, and he was many times stronger than before, because this was a leap across a whole realm!

Chapter 5310 Special Medicine

At this time, the changes in Ye Feng's cultivation aura attracted the attention of the Fire Demon God who was rummaging through boxes not far away.

The Flame Demon God immediately couldn't help but said: "Why did you suddenly break through in your cultivation, and break through to a big realm?"

Hearing the question from the Flame Demon God, Ye Feng smiled slightly and said, "I don't know why, maybe there is some special aura in this spaceship that made me realize it unintentionally, so I had a breakthrough in my cultivation. "

Hearing what Ye Feng said, the flame demon couldn't help but have a look of astonishment in his eyes. It was the first time he saw the existence of a breakthrough in cultivation while exploring ancient ruins.

At this time, the Flame Demon couldn't help but look at Ye Feng carefully, and couldn't help but say: "You are really a talent."

At this time, Ye Feng couldn't help but asked: "Senior Flame Demon God, did you find anything good in the third room just now?"

The Flame Demon God nodded immediately, and suddenly stretched out his hand with a smile on his face.

At this time, he held six glass tubes in his palm, each of which was filled with light blue liquid.

Seeing this scene, Ye Feng's eyes suddenly lit up and he said loudly: "This is the special blue liquid that Senior Flame Demon God you mentioned before that can enhance the body strength of a practitioner. It is the blue liquid in this spaceship. A medicine specially refined by ancient cultivation civilization?"

Hearing what Ye Feng said, the Fire Demon God immediately nodded and said: "Yes, I discovered these glass tubes filled with blue liquid back then. After drinking all the blue liquid, my The body of the demon god has been greatly improved, making my strength become almost the highest among

the twelve demon gods. Now, although so many years have passed, I have lost a lot of power, but now I have

#Every time verification appears, please do not use incognito mode!

I found a total of six glass tubes containing these light blue liquids. It seems that my strength can be completely restored. Of course, each of us is half. "

When he said this, the Flame Demon God did not bully the small, but directly handed half of the six tubes and three tubes into Ye Feng's hands.

Ye Feng was not pretentious at this time. After all, it was the two of them who worked together to enter the spaceship.

You know, although this flame demon is very powerful in his own cultivation, he cannot crack the metal doors in every room. He can only rely on Ye Feng to quickly enter every room in this spaceship and explore the good things in it. .

So now that I have found something good, it is natural that Ye Feng has a share.

But what Ye Feng didn't expect was that the Flame Demon God was still a very good person. He didn't rely on his old age to show off his old age, but directly gave him half of it.

After all, in Ye Feng's original vision, he could only get a share of the pie.

In other words, of these six pipes, it would be pretty good if the Flame Demon God could give himself one pipe.

But he didn't expect that the other party would share it equally with him.

What Ye Feng didn't know was that the Flame Demon God really thought so. He only gave Ye Feng a small part and he took the majority. After all, he was the one who discovered the spaceship, and he was the most powerful.

But as he got along with Ye Feng, he discovered that Ye Feng's cultivation talent was getting stronger and stronger, and he was simply a monster.

The Flame Demon God was even sure in his heart that as long as Ye Feng did not die midway, he would definitely become an extremely terrifying existence in the future.

Even beyond him, the Fire Demon.

Therefore, the Flame Demon God naturally has a much better attitude towards Ye Feng now, and will give Ye Feng more wealth. In this way, Ye Feng will become very powerful in the future, and he may be able to remember his old feelings and pull him by his side in times of crisis. Bundle.

Although an older figure like the Flame Demon God is cunning, he also has his own unique understanding of the future in his heart. Therefore, he realized that Ye Feng is an extraordinary person and will definitely become an earth-shattering existence in the future, so he fawned over Ye Feng in advance.

At this moment, Ye Feng didn't show any pretense and directly accepted the three tubes.

Then Ye Feng saw the Flame Demon and opened the three glass tubes on the spot and swallowed them.

The next moment, Ye Feng suddenly saw that the entire body of the Flame Demon God was emitting light blue light.

At this moment, it was obvious that the flame demon's life breath was much stronger than before.

Obviously, the blue liquid in these three tubes really allows the Flame Demon to greatly enhance his life essence energy and physical strength.

At this time, Ye Feng didn't hesitate at all, and just imitated the Flame Demon God, opened all three glass tubes, and then swallowed all the blue liquid in the three tubes.

Seeing this scene at this moment, the Flame Demon couldn't help but said in surprise: "You are really brave. I am because of my very strong physical strength and very high cultivation level. I dared to directly swallow the blue liquid in these three tubes to improve my own physical strength.

But I didn't expect that you, the boy, also imitated me and swallowed all the blue liquid in the three tubes. It's very dangerous for you to do so. It is possible that it will lead to

#Every time verification appears, please do not use incognito mode!

Death from explosion. "

However, at this time, Ye Feng smiled slightly and said: "Flame Demon God Senior, although my current cultivation is far inferior to yours, my physical strength is also quite strong. It should not be a big problem to bear the blue liquid in the three tubes."

When he said this, Ye Fengzi began to concentrate on refining the blue liquid in the three tubes.

At this time, Ye Feng discovered that the blue liquid in the three tubes was a very special medicine, which did not contain a very powerful medicinal energy to improve his cultivation.

All the blue liquids stored were special things that could only improve physical strength, which were somewhat similar to divine substances, but not divine substances.

Ye Feng could clearly feel that the physical strength of his entire body was rapidly improving.

Although the immortal body of the god has not evolved, Ye Feng can clearly feel that his bone strength has been strengthened and become more resilient, his muscle strength has also been greatly improved, and he has become more explosive. In addition, the fiber degree of his various bones, muscles and tendons has also been greatly enhanced, which has greatly improved his mobility and combat effectiveness in an instant.

After sensing all this, Ye Feng immediately showed a deep surprise in his eyes. He couldn't help but look at the Flame Demon beside him and said aloud: "Senior Flame Demon, this cultivation civilization from the universe is really a magical cultivation civilization. Although the special medicine they invented cannot directly improve the cultivator's skill, it can transform the cultivator's body into a stronger and stronger one. This is a bit similar to the physical cultivation in our cultivation world. Only the body is cultivated, not the soul and skill, and finally the flesh shell becomes holy and immortal."
