Chapter 5501 Do it yourself

At this time, looking at the long river of black energy rushing over, Ye Feng also felt the terror of this long river of energy.

I have to say that Senior Liu, the protector next to Princess Honglian, is still very powerful, and he is worthy of being a powerful elder in the Dark Empire.

So at this moment, Ye Feng didn't hesitate at all, and immediately used the peerless inheritance of the dark race that he had learned before, the dark emperor technique of the first generation dark emperor.

Buzz!

At this moment, a shadow of the Dark Emperor immediately formed behind Ye Feng.

But this time, the shadow of the Dark Emperor condensed by Ye Feng was much more solid than the last time, becoming more like a substance, and it must be much more powerful.

boom!

At this moment, Ye Feng exploded with his most powerful power and bombarded directly forward.

Along with punch after punch, the phantom of the first-generation Dark Emperor condensed behind Ye Feng was also punched out with one punch after another.

"Click, click!"

The fist as huge as a mountain actually shattered the long river of black energy condensed by Senior Liu into pieces in an instant.

"What? It has such a powerful power?"

At this time, Senior Liu was completely panicked.

He never thought that he had already used his extremely powerful inheritance to carry out long-range attacks, but he still couldn't resist Ye Feng.

At this time, Senior Liu couldn't help but said in horror: "What kind of existence are you, a young man? Not only is your body so terrifying, but your skill reserve is also so huge? Even if you have practiced the first generation The inheritance of the Dark Emperor can bless your combat power, but it cannot bless you so much. "

At this moment, Senior Liu can be said to be a little doubtful about life.

After all, in his eyes, Ye Feng was five or six levels below his cultivation level, and it was impossible to fight against him. He could silently kill an ant like Ye Feng in an instant.

Unexpectedly, Ye Feng, an ant in his eyes, could not only crush him with physical strength, but also be able to shatter his strength into pieces with this kind of magical confrontation and long-range attack. This is really incredible.

At this time, Senior Liu couldn't help but look at Princess Honglian beside him and said loudly: "Your Highness, let's leave here quickly. This young man's strength is too evil. I can't kill him." "

At this moment, Princess Honglian's eyes widened, her face full of disbelief. She seemed to have never thought that Ye Feng's strength was so strong. Even the old masters of the Dark Empire she brought here were... There was no way to deal with Ye Feng, even if Ye Feng had the advantage, he beat Senior Liu back steadily, and even Senior Liu couldn't help but want to escape.

But before Princess Honglian could react, Ye Feng rushed over in an instant. The image of the first-generation Dark Emperor condensed behind him had extremely terrifying power. He directly stretched out a hand and struck fiercely. It hit Senior Liu hard.

boom!

A terrifying great power suddenly burst out, blasting Senior Liu in half and killing him instantly.

"What??"

At this moment, watching Senior Liu, a powerful protector, die in front of her, Princess Honglian could be said to be stunned to the extreme, and then frightened to the extreme. Fleeing wildly in the distance.

But at this time, Ye Feng instantly stretched out a hand and caught Princess Honglian in front of him.

At this moment, Princess Honglian immediately stared at Ye Feng, and screamed in horror: "You can't kill me!! I am the princess of the Dark Empire and the most orthodox blood descendant of the royal family, you kill me After that, you will definitely be punished by the entire Dark Empire, and you will die without a burial place!"

Hearing what Princess Honglian said, Ye Feng just smiled indifferently and said: "As you said before, I killed you in this wilderness. Who knew it was me?"

But at this time, although Ye Feng said so, he did not directly kill Princess Honglian. Instead, he looked at the little princess next to him and said, "You should do it yourself."

At this moment, the little princess looked at Princess Honglian who had been targeting her and even wanted to kill her. Naturally, without any hesitation, a cold smile appeared on her face and she took out a long black sword.

"Pfft!"

The sword in the little princess's hand flashed, and Princess Honglian's beautiful head fell from her neck to the ground, and she was instantly killed by the little princess.

Seeing this scene at this time, Ye Feng, who was standing aside, nodded.

This little princess is still very decisive in killing.

In fact, Ye Feng was just testing whether the little princess was determined to deal with the enemies who wanted to kill her.

If the little princess hesitated just now, or couldn't bear it, and wanted to let Princess Honglian go, then Ye Feng would definitely leave here immediately, feeling that the little princess was not worth following him anymore.

But now seeing how resolute the little princess is, Ye Feng is naturally very satisfied.

At this time, Ye Feng did not hesitate at all, and directly released the Devouring Domain that he was looking forward to, and began to devour the cultivation skills of Princess Honglian and the guardian Liu just now.

For Ye Feng, the most anticipated thing is naturally the energy of Senior Liu. After all, he is the protector of Princess Honglian and a very rare old-generation strongman in the Dark Empire. His cultivation power is very huge, so Ye Feng swallowed it all together.

"Boom!"

At this moment, a huge amount of dark energy and power was swallowed by Ye Feng and directly injected into Ye Feng's Dantian, rapidly strengthening Ye Feng's power.

At this moment, Ye Feng could immediately feel that his power reserve was rapidly growing.

And Ye Feng's cultivation aura also began to increase rapidly.

Boom!

The eighth level of the God Realm!

Boom!

The ninth level of the God Realm!

Boom!

The tenth level of the God Realm is perfect! !

At this time, Ye Feng's cultivation realm suddenly broke through to the tenth level of the God Realm, which immediately increased Ye Feng's power.

At this time, Ye Feng could feel that his combat power was also greatly enhanced.

This made Ye Feng very satisfied.

This Senior Liu provided the most energy, and he was indeed a powerful elder in the Dark Empire.

At this moment, the little princess hurriedly said, "Ye Feng, let's leave here quickly. If others find out that we killed Princess Honglian and such a precious senior of the Dark Empire, we will be in a lot of trouble."

Ye Feng nodded, and he and the little princess quickly left the scene and flew quickly towards other mountains around the Demon Mountain Range.

Chapter 5502 Young Marquis

At this time, Ye Feng and the little princess left the scene and flew directly to other mountains.

At this moment, the little princess was very happy, with a smile on her beautiful little face. She couldn't help but said loudly: "This time, I finally completely killed the hateful guy Princess Honglian. I will do it again in the future." No one bothers me anymore."

Hearing what the little princess said, Ye Feng nodded and said: "When this Princess Honglian was in the Imperial City Restaurant, I had long wanted to kill her on the spot, but due to her identity , so she didn't take action directly. This time in this wilderness, she actually dared to come directly to trouble us. If she wanted to kill the two of us, she could only treat her in the same way as others. They were killed on the spot, and no one in this demonic mountain range knew it was them."

The little princess nodded, looked at Ye Feng, her beautiful eyes were full of brilliance, and said loudly: "Ye Feng, your cultivation strength has improved so fast, even if you are like this next to Princess Honglian, The elders are no match for you, and not only can they not defeat you, but you can also kill them on the spot. This improvement in strength is really fast. It seems that our status in the palace of the Dark Empire will be improved in the future. Very fast."

Hearing what the little princess said, Ye Feng nodded slightly and said with a smile: "The faster my strength improves, the more help I will have to you, little princess."

The little princess nodded and said, "That's why I specially applied for an extra spot for you this time and brought you to experience in this demonic mountain range, because I know very well that this kind of demonic mountain range is the most beneficial to Ye Feng." This place not only gave birth to a lot of opportunities, but also many powerful demons and beasts lived in it."

At this moment, the little princess was talking, suddenly looking in a certain direction, and said loudly: "It seems that someone is coming, let's get out of here quickly."

Ye Feng said aloud: "It doesn't matter if someone comes here. We have now left the place where we killed Princess Honglian. Even if someone comes to the mountain where we are, if they dare to provoke us, we will fight back."

Hearing what Ye Feng said, the little princess's eyes suddenly moved, she couldn't help but nodded, and said loudly: "My subconscious behavior is to run away. I didn't expect you, Ye Feng, to be so courageous, but now your cultivation level The strength is indeed very powerful, even comparable to that of the younger generation of guardians. There is really no need for us to be frightened."

At this moment, while the two were talking, a group of people really flew over not far away.

Among this group of people were several young men and women.

The little princess took a look at these young men and women and couldn't help but said to Ye Feng beside her: "They are not the royal heirs in our royal family, they seem to be the heirs of some nobles and marquises. They also brought with them the strong men of the older generation. , but these powerful elders are not even as good as Senior Liu next to Princess Honglian."

Hearing what the little princess said, Ye Feng nodded slightly and said loudly: "As long as they don't provoke us, we don't need to care about them."

At this moment, Ye Feng and the little princess were about to turn around and leave here, looking for opportunities elsewhere in this mountain.

But at this time, among the group of people, the young man at the head was wearing a blue gown. He immediately looked at Ye Feng and the little princess, and couldn't help but said: "You two

should be looking for opportunities here, why not You can cooperate with us. We have found a very secret underground cave, which seems to contain ancient secrets. However, we have never dared to go down because there are not enough manpower, so this time I summoned many other princes and heirs of nobles. , the cultivation strength of the two of them is very powerful among the younger generation. We can sense that the cultivation aura of the two of them is quite powerful, so we would like to invite you to join our team and explore the ancient secrets in the underground cave. , By the way, I haven't introduced myself yet, I am the young prince of the Champion House."

"Um?"

At this moment, when the young man wearing a blue gown said this, the little princess next to Ye Feng suddenly had a look of surprise in his eyes, and couldn't help but stare at the young man wearing a blue gown. , said aloud: "I didn't expect that you are the young prince of the Champion House. The champion is in our Dark Empire, and he is the most noble one among the princes, because he once followed the Dark Emperor to conquer the entire territory of the Dark Empire. "

Hearing what the little princess said, the young prince of the Champion House immediately smiled and said aloud: "Ashamed, that is my father's achievement, I am just enjoying his dividends."

Hearing what the young prince from the champion prince's mansion said, the young princess immediately nodded and said with a smile: "The young prince himself is also extremely talented and is famous in our dark empire. There is no need to be so humble. It is said that the young prince is extremely talented. I have been under the command of the champion, fighting the dark beasts outside the territory of our dark empire, and have made many achievements. I am a rare general among the younger generation. "

Hearing what the little princess said, the young prince of the Champion House also showed a look of surprise in his eyes, and immediately said: "Your Excellency knows me so well, he should be a young man with a high status in our dark empire. Bar."

Hearing what the young marquis said, the young princess immediately smiled and said, "My father is a prince in the Dark Empire. Of course he is not a famous prince."

"Is it a prince's daughter?"

At this moment, hearing the young princess say this, whether it is the young marquis of the Champion Marquis's Mansion or some other young people around him, they all showed surprise in their eyes, as if they did not expect that they would actually meet a prince's daughter.

A prince's daughter is definitely more precious than the offspring of these nobles or marquises.

Even if this prince is not famous, his daughter is definitely a princess-level existence.

At this time, the young marquis of the Champion Marquis's Mansion immediately clasped his fists slightly and said aloud: "It turns out to be a princess."

The young princess smiled and said aloud: "Not a famous princess."

Hearing the young princess say this, everyone couldn't help but nodded, and found that this young princess was quite approachable, not so high and mighty.

At this moment, the young marquis of the Champion Marquisate suddenly looked at Ye Feng standing next to the young princess and asked, "Which prince's son is this brother?"

Obviously, the young princess said that she was the daughter of a prince, which made others think that Ye Feng, who could stand so close to the young princess, must also be the son of a prince, otherwise, he would definitely not be qualified to stand with the young princess.

But at this time, the young princess smiled and said, "His name is Ye Feng, he is my captain of the guards, and this time he came to the Demon Mountain Range with me for the trial."

"Captain of the guards?"

At this moment, hearing the young princess say this, everyone showed a look of astonishment in their eyes, as if they had not expected that a small guard could stand with the honorable princess, and it seemed that they had a very close relationship.

Even the young marquis of the Champion Marquisate showed a look of surprise in his eyes.

It's not that these people look down on Ye Feng, but they are all descendants of nobles or marquises. In the royal family of the Dark Empire, there is a natural division of status and class, so they subconsciously feel that the status of a guard is definitely a class lower than the descendants of nobles like them.

However, since the little princess and Ye Feng seem to have a very good relationship, no one said anything.

The young marquis of the Champion Marquis's Mansion also smiled and said: "The captain of the guard who can be so appreciated by the princess must have great talent and strength. They are all good men of our Dark Empire."

It must be said that the young marquis of the Champion Marquis's Mansion is still very good at adjusting the atmosphere.

At this time, the young marquis of the Champion Marquis's Mansion looked at the little princess again and said with a smile: "Speaking of this, I wonder if the little princess is interested in exploring the ancient secrets in the underground nest with us. If we find any opportunities, we can discuss and share them equally."

Chapter 5503: Working together

At this time, when she heard what the young prince from the Champion House said, the young princess glanced at Ye Feng beside her, as if she was asking for Ye Feng's opinion.

"Um?"

Seeing this scene at this time, everyone present showed deep surprise in their eyes.

It seemed that she did not expect that the princess, a princess like her, would ask for the opinion of her captain of the bodyguard.

When everyone saw this scene, they immediately understood that this seemingly low-level guard captain was definitely a very remarkable person. Otherwise, a noble princess would not have been able to rely on him so much or even look at him. Act with a face.

At this time, Ye Feng smiled slightly and said: "Since the young prince of the Champion House has warmly invited us, let's go there. Anyway, we are running around in this mountain, looking for opportunities. The efficiency of creation is also very low. It is better to follow the young prince of the Champion House to the underground lair, maybe you can really find a very good ancient chance creation. "

Hearing what Ye Feng said, the little princess immediately nodded, looked at the little Marquis of the Champion House not far away, and said with a smile: "Okay, since Ye Feng agrees, let's join. "

Hearing what the little princess said, the young prince of the Champion House immediately nodded very happily.

After all, he has now seen that Ye Feng is definitely an unfathomable young man.

Being able to make this princess so obedient is enough to show that Ye Feng's ability is very strong.

The joining of such a powerful young talent naturally makes the young prince of the champion house very happy, because their team has grown a lot.

At this moment, the little princess couldn't help but said: "Little Marquis, do we still want to find other members to join?"

The young prince of the Champion House looked around, shook his head and said loudly: "Now the number of people is almost the same. We have gathered more than a dozen young people here, plus some older people. I think we are fully capable of going there." We have explored the underground lair, and if we continue to look for other members, it may waste too much time. By then, the location of the underground lair is discovered by others and someone gets there first. That would be a big loss. Let's not waste time now. Okay, go directly to the direction of the underground lair."

At this moment, after the young prince of the champion house finished speaking, he immediately led everyone to fly quickly in a certain direction.

Ye Feng and the little princess also quickly followed.

On the way, the little princess couldn't help but look at Ye Feng beside her and asked: "Ye Feng, do you think there is anything good in this underground cave?"

Ye Feng shook his head and said aloud: "I'm not sure, but the fact that the young prince of the Champion House can so solemnly invite so many partners to explore together shows that the underground lair must be a very dangerous place. But the more dangerous the place, the more likely it is that there will be huge opportunities."

Hearing Ye Feng's words, the little princess couldn't help but nodded immediately, smiled and said: "Anyway, I'm not afraid as long as you are here, Ye Feng."

Nowadays, the little princess is relying more and more on Ye Feng and trusting him more and more.

Because the combat effectiveness and strength Ye Feng has shown all the way really surprised the little monarch.

Ye Feng's strength improved very quickly, even comparable to some ordinary elders among the royal family of the Dark Empire.

However, the little princess did not tell Ye Feng's strength, because after all, these people were just temporary partners. When the time comes that they really find some good fortune in that underground lair, they will most likely turn against each other and compete with each other. This is normal.

Therefore, the little princess will naturally hide Ye Feng's true strength to protect herself.

At this moment, everyone followed the young prince from the champion house at the front and flew quickly in a certain direction not far away.

Standing next to the young marquis in the champion marquis's mansion was an old man wearing black armor.

This old man wearing black armor looked very thin, as if he was as skinny as a stick, giving people a feeling of frailty.

But those eyes are extremely deep, like two abyss. One can tell at a glance that this skinny old man who seems to be frail is definitely an extremely powerful old man.

At this moment, this old man in black armor looked at the young prince of the Champion House next to him, and couldn't help but said: "Young Master, that underground lair is an ancient picture that we accidentally discovered. There may be various dangers marked on the map, do we really want to go there to explore? "

This old man wearing black armor is obviously the protector beside the young prince of the champion house.

But even he, a strong old man, was quite worried about entering that underground lair.

At this moment, the young prince of the champion house couldn't help laughing and said: "Mr. Qian, since it is a place specially marked on that ancient map, it is enough to show that there must be something in this underground lair. There is something very different, maybe it is the fate of nature, maybe it is some ancient ruins, no matter what it is, I am very much looking forward to unlocking the secrets. "

At this moment, the young prince of the Champion House was speaking, his tone full of adventure.

Obviously, like his father, he is a person who is not afraid of danger and loves to take risks.

At this moment, hearing the young marquis of the Champion Marquisate say this, the old man in black armor standing beside him could only smile and nodded, and said: "No matter what, when you enter the underground nest, you must stay by my side. If there is really any unstoppable danger, I can protect you at any time. "

Although the young marquis of the Champion Marquisate is a very powerful young genius, he is definitely not as powerful as the old man next to him.

At this moment, the young marquis of the Champion Marquisate nodded immediately, and then suddenly smiled and said: "Old Qian, don't worry, this time I came to the Demon Mountain Range for training, my father gave me all his amulets. If I really encounter any irresistible danger, under the protection of my father's amulet, I will not be in danger of my life."

Hearing the young marquis of the Champion Marquisate say this, the old man standing beside him nodded immediately, and said nothing more.

Next, in less than half a day, the young marquis of the Champion Marquisate who was leading the way finally stopped.

Everyone looked around and found that this place was already very deep in the Demon Mountain Range. There were clouds and mist everywhere, and the shadow of the entire mountain range could not be seen clearly. Everything was hazy, just like coming to a mysterious place.

At this moment, the little princess followed behind everyone, took a look around, and couldn't help but said: "Ye Feng, this is a very deep place in the Demon Mountain Range. I didn't expect that the underground nest would be here. I wonder if there are very scary monsters living in it."

Ye Feng smiled slightly when he heard the little princess say this, and said: "If there are really monsters, the more the better."

Hearing Ye Feng's seemingly teasing words, the little princess had to shake her head helplessly.

She knew that Ye Feng actually really hoped that all kinds of powerful monsters would appear. In this way, if the monsters could be killed, Ye Feng would be able to obtain rich energy and strengthen his cultivation.

At this time, the young marquis of the Champion Marquisate who was leading the way looked at the group of more than a dozen people behind him and said with a smile: "Everyone can land now. The underground nest I mentioned is here. However, everyone must be careful when entering the underground nest. I have never explored it. It is just marked on an ancient map, so there may be some terrible dangers. But as long as everyone unites and works together, there will be no problem."

Chapter 5504 Genius

At this moment, after the young prince of the champion house finished speaking, he immediately led everyone to land directly on the ground.

When everyone landed on the ground, they saw a huge hole on the ground not far away.

Moreover, there is a very strong demonic aura surrounding this huge pothole.

After seeing all this, everyone immediately understood that this underground lair must be a very dangerous place.

Among the crowd, there was a young woman wearing golden armor, who should be the descendant of a noble or prince in the Dark Empire. She couldn't help but asked: "Little prince, is there someone living in this underground lair?" A very powerful demon race?"

Hearing what the woman in golden armor said, everyone around them nodded.

Obviously, they feel that if there is a very powerful demon race living in this underground lair, then they will definitely not be able to go down. Otherwise, they will be blocked in this underground lair and they will not be able to escape.

But at this time, the young prince of the Champion House immediately smiled and said very confidently: "Don't worry, everyone, before I discovered this underground lair, I had already released a remotely controlled puppet and entered it to explore. Ichiban, there are no traces of life in it, only traces of the survival of some ancient demon races. In other words, in this underground lair, there may have been a certain demon race living in it in ancient times, but after so many years, , these demons have disappeared long ago, leaving only this underground lair that is difficult to find."

Hearing what the young prince from the Champion House said, everyone nodded in surprise.

The young woman wearing golden armor just now smiled and said loudly: "As expected of the young prince of the champion prince's house, he is indeed very considerate in his work."

At this moment, the little princess standing in the crowd couldn't help but glance at Ye Feng beside her, and asked in a low voice: "Ye Feng, your perception is powerful, can you sense if there is anything in this underground lair?" The fluctuations of life."

Ye Feng immediately spoke out at this time: "When I stood next to this underground lair, I had already sensed it instantly. There was indeed no fluctuation of life in it, but this underground lair seemed to be very deep. I didn't know the deepest part. I can't sense it, but I don't know if a powerful demon exists."

Hearing what Ye Feng said, the little princess also nodded and said aloud: "Although the little prince of the Champion House released a puppet and entered it to explore, it is estimated that this puppet will not be able to complete the investigation. There may also be omissions in the entire underground lair space."

Ye Feng smiled slightly and said aloud: "With so many young geniuses and some strong elders gathered together, there should be no monsters that can resist us, and if you want to find some ancient opportunities, you have to take some risks. Dangerous."

After Ye Feng finished speaking, he walked directly into the underground lair with everyone, and the little princess quickly followed.

At this time, the little princess followed Ye Feng very close, because the little princess knew very well that Ye Feng's current strength was definitely comparable to those of the elders, so the little princess felt that staying by Ye Feng's side would be very safe.

At this moment, everyone entered the underground lair and immediately saw that the space under the underground lair was not as narrow and dark as everyone imagined, but the passage was quite spacious.

Moreover, there are some radiant moon stones inlaid on the surrounding passage walls.

These stones have no other function, they just emit light.

Seeing this scene, many young people in the crowd couldn't help but said: "It seems that a powerful race really lived in this underground lair back then. Otherwise, it would be impossible for these walls to be inlaid with such a powerful race." Many moon stones are specially used for lighting. No one will be idle with so many moon stones here. "

At this time, the young Marquis of the Champion Hou Mansion, who was standing at the front, had always been very steady and confident. He smiled and said loudly: "Everyone should be careful, because in this underground lair, even if there is no ancient demon clan, there are people living here, but there are probably other dangers, such as some ancient demon formations left behind, or some traps used by the demon clan to protect their place of survival, etc. "

At this moment, everyone nodded when they heard the young prince of the champion house say this.

No one said anything next, but moved forward slowly, always checking to see if there was anything good around them, and getting ready to go.

Because for them, gathering together in this underground lair this time is just cooperation between each other. If there is any chance, everyone will definitely fight for it without hesitation.

As everyone walked, the group had walked a long distance in this underground lair.

And just when they were halfway to the underground lair, everyone suddenly discovered that there was a huge stone tablet halfway into the underground lair.

This huge stone tablet is like a copper wall and an iron wall, directly blocking everyone's way.

"What?"

Seeing this scene, everyone present couldn't help but have a look of surprise in their eyes.

The young marquis of the Champion Marquisate could not help but show a look of doubt in his eyes, and said aloud: "The middle road of the entire underground nest was suddenly cut off by this ancient stone tablet. Could it be that a terrible battle had taken place here in the past, and this stone tablet was left by an ancient strongman."

Hearing what the young marquis of the Champion Marquisate said, everyone could not help but nodded and said aloud: "In any case, destroy this stone tablet. We have not entered the deepest part of this underground nest. I think the opportunities and secrets in this underground nest should be behind this huge stone tablet."

Boom!

At this moment, everyone released their own power and bombarded this huge stone tablet.

Along with the attack of everyone, cracks appeared on the surface of this ancient stone tablet.

But suddenly at this moment, Ye Feng, who was standing at the back of the crowd, seemed to have sensed something, and immediately couldn't help but say: "Everyone retreat quickly, there is a terrible danger behind this stone tablet!"

Almost at the moment when Ye Feng's voice fell, the little princess could be said to trust Ye Feng very much, and immediately retreated with Ye Feng.

But everyone felt that Ye Feng was just a guard, and even if his cultivation talent was a little stronger, many people would not take his words seriously.

So the moment Ye Feng's voice fell, only Ye Feng and the little princess retreated, and everyone seemed to be a little indifferent, including the young marquis of the Champion Marquis Mansion who was standing in the front.

Boom! !

Crack!

And the next moment Ye Feng's voice fell, the entire huge stone tablet in front of him shattered.

And at the moment when the entire stone tablet was shattered, before everyone present could cheer happily, suddenly a dense and overwhelming black arrow flew out from behind the stone tablet, instantly piercing the bodies of several young people standing in the front.

"Puff!"

No matter how powerful the young marquis of the Champion Marquis's Mansion was, he didn't react in a moment and was pierced by one arm.

However, the protector beside him immediately released a huge shield to protect the young marquis of the Champion Marquis' Mansion.

At this moment, seeing that several geniuses of the younger generation had died on the scene, the young marquis of the Champion Marquis' Mansion suddenly looked a little ugly.

At this moment, Ye Feng and the young princess, who retreated at the beginning, did not encounter any arrows and avoided the damage.

At this time, many people looked at Ye Feng behind them at once, because Ye Feng had already warned them in advance, but everyone didn't take it seriously.

If they listened to Ye Feng earlier and retreated quickly, it is estimated that the arrows that suddenly appeared and flew out would not be able to hurt so many people.

At this moment, even the young marquis of the Champion Marquis' Mansion looked at Ye Feng behind him, with surprise in his eyes.

He suddenly understood why a distinguished princess had so much trust in this young guard. He was definitely a hidden genius.

Chapter 5505 Corpse King Bug

At this time, the little princess also looked at Ye Feng beside her with a look of joy in her eyes.

She knew that if she hadn't listened to Ye Feng's reminder just now, the little princess might have been pierced by the arrows that suddenly flew out, even if she wasn't too strong, and she might even have been killed on the spot.

So at this time, the little princess believed in Ye Feng even more.

After everyone glanced at Ye Feng, they didn't say much. After all, they didn't listen to Ye Feng just now, and they couldn't blame Ye Feng.

At this moment, someone among the crowd couldn't help but said: "It seems that there are really various traps in this underground lair. Everyone must be careful next time."

The young prince of the champion house also looked quite ugly at this moment, but then he sighed and said, "I was negligent."

At this time, the young prince from the Champion House continued to speak: "If you encounter any danger next, everyone must respond in time."

At this moment, the young prince of the Champion House took a deep look at Ye Feng behind him, said nothing more, and continued to move forward.

At this moment, everyone just jumped over the shattered stone tablet and walked towards the underground lair behind the stone tablet.

When they walked to the underground lair space behind the stone monument, they immediately felt a frightening coolness in the air.

This kind of frightening cold air was something they didn't feel when they first came down to this underground lair.

Among the crowd, Ye Feng frowned slightly and couldn't help but look at the little princess beside him and said loudly: "I always have a bad feeling. The stone tablet just now seems to be some kind of ancient seal. Let's attack it." The broken stone tablet may cause something bad."

Hearing Ye Feng suddenly say this, the little princess standing aside had a look of surprise in her eyes, but she didn't say much because she knew that Ye Feng's premonitions were always accurate.

At this time, Ye Feng continued to speak: "However, we have come, we can't just leave, let's observe first."

The little princess also nodded, smiled slightly, and said loudly: "Ye Feng, your escape skills are so powerful. You can directly condense space wormholes and cross space and obstacles. If there is really any irresistible danger, let's run away." The fastest."

Hearing what the little princess said, Ye Feng just laughed and said nothing more.

Everyone moved on.

And just when everyone had just left, they suddenly saw a large number of ancient corpses appearing on the ground in front of them.

These ancient corpses have been completely dried up, and the clothes they wear are also ancient clothes.

But what made everyone's eyes brighten was that these ancient corpses seemed to be wearing ancient storage rings on their fingers. The styles were also very ancient and should be products of the previous era.

At this moment, everyone couldn't help it anymore and flew forward quickly, trying to snatch the storage rings worn by these ancient corpses, because they might also contain the items collected by these ancient figures. resources.

At this time, the little princess also wanted to fly forward quickly, fearing that everyone would get ahead of her.

Uh-huh!

But Ye Feng just grabbed the little princess's white hand and said, "Wait a minute, these ancient corpses are piled up here. I feel there is some kind of danger hidden in them."

At this moment, Ye Feng glanced not far away and found that although the young prince of the Champion House was standing at the front, he was not as impulsive as the others around him and rushed directly to the piles of corpses piled in front. In front of him, he stood there.

Seeing this scene, Ye Feng's eyes flashed slightly. It seemed that the young prince of the Champion House had become very cautious since he was injured by the trap behind the broken stone tablet last time, and did not dare to take action rashly. , but to use some impulsive people among the people around to find out the situation ahead.

At this moment, while Ye Feng was talking to the little princess, many people in the team had rushed to the piles of corpses and were quickly taking off the storage rings from the fingers of these ancient corpses. Prepare to explore.

When they fumbled for the storage rings on the corpses, nothing seemed to happen.

Seeing this scene, the young prince from the Champion House had a look of astonishment in his eyes, as if he didn't expect that these strange-looking piles of corpses piled here were actually not dangerous.

The young prince from the Champion House could not help but fly forward quickly, wanting to grab a few more ancient storage rings.

At this time, the little princess couldn't help but look at Ye Feng beside her, and said loudly: "It seems that there is no danger. Let's hurry up and find more storage rings. These ancient figures must be the last ones." For the powerful men of the era, the storage rings they carry are likely to contain ancient cultivation resources from the previous era."

Ye Feng still said: "Continue to wait."

"Um?"

Hearing what Ye Feng said, the little princess was a little anxious, but she did not ignore Ye Feng's reminder, but still stood by Ye Feng's side, because the little princess had 100% trust in Ye Feng.

And almost the moment Ye Feng finished speaking, densely packed crimson insects suddenly flew out of the pile of corpses that had been so peaceful just now.

These red bugs flew in front of everyone, but they didn't bite them at all, but exploded directly.

Almost at the moment when these red bugs exploded, a stream of very strong red gas emanated directly from the exploded bodies of these red bugs, covering all the corpses in front.

As long as the young geniuses or some old people were infected with these red gases, their bodies would be covered with red corpse spots all of a sudden, and their vitality was rapidly depleted, and they screamed in pain.

"It's actually the corpse king bug!"

Seeing this scene at this time, Ye Feng, who was not far away, immediately showed a look of surprise in his eyes.

When Ye Feng said this, the little princess beside him saw that everyone was covered with corpse spots all of a sudden, screaming in pain, and immediately asked nervously: "This kind of insect, Ye Feng, you can actually recognize it?"

Ye Feng nodded and said: "Because when I was practicing, I once encountered this kind of insect. It is very strange. Whether you kill it or get close to it, you will be contaminated by the corpse produced after the insect explodes. Your body will be stained, and your vitality will be exhausted in an instant, and you will die with corpse spots all over your body."

At this moment, Ye Feng said, and immediately pulled the little princess beside him back quickly, saying: "Don't get stained with those red corpse qi. Once you get stained, it's like a worm attached to your bones, and you can't get rid of it."

At this moment, many young people in front of them didn't have time to react, and they were all stained with this red corpse qi. They screamed in an instant, and a large number of people died. They all died with corpse spots all over their bodies in an instant, and their deaths were weird.

Chapter 5506: A Great Bargain

Seeing this scene, the young princess standing next to Ye Feng suddenly showed a look of shock in her eyes, and said: "This underground nest is indeed as you guessed, Ye Feng, it contains all kinds of strange dangers. Should we continue to go on?"

Ye Feng nodded and said: "The more dangerous the place is, the more likely it is to hide a great opportunity, and since we are here, we must continue to go on."

While Ye Feng and the young princess were talking, many young people in front of them who had not died yet immediately retreated quickly.

The young marquis of the Champion Marquis's Mansion was also rushed in front of a corpse king insect, and was almost contaminated with the poisonous corpse gas.

But the young marquis of the Champion Marquis's Mansion directly activated the amulet given to him by his father at this moment.

A golden light shield immediately enveloped the young marquis of the Champion Marquis's Mansion, blocking the poisonous corpse gas and saving the young marquis' life.

However, his amulet can only be used three times, so he wasted this precious opportunity, which made the young marquis look very ugly.

However, when he saw the miserable deaths of the others around him, the young marquis of the Champion Marquisate couldn't help but breathe a sigh of relief, at least his life was saved.

If it weren't for the critical moment, the life-saving amulet given to him by his father released a layer of extremely solid golden light shield. I'm afraid that no matter how powerful the young marquis of the Champion Marquisate was, he would be like the others around him, and be directly contaminated by the breath of this terrifying corpse worm in an instant, and die instantly.

At this moment, many people retreated quickly and left the pile of corpses.

And the storage rings they had obtained before all fell down in a hurry, falling on the pile of corpses, and no one dared to pick them up anymore.

At this time, everyone saw that Ye Feng and the little princess did not move, and they watched quietly from the back from beginning to end. They couldn't help but sigh. Although Ye Feng and the little princess looked very young, they were too calm.

Even the young marquis of the Champion Marquis's Mansion was a little stable at the beginning and did not rashly go to explore the storage rings in the pile of dead bodies, but he couldn't help it in the end.

But Ye Feng and the little princess were still able to endure to the end, which was enough to show that the two young people's determination was absolutely extraordinary.

At this moment, even the young marquis of the Champion Marquis's Mansion couldn't help but run to Ye Feng's side and said aloud: "You already know that there is danger in that pile of dead bodies."

Ye Feng just said aloud: "I don't know, but in this weird underground nest, I think everything should be careful."

Hearing Ye Feng say this, the young marquis of the Champion Marquis's Mansion could only nod his head, his face was quite ugly.

Because after encountering two traps, the number of people in their group had been mostly injured or killed, and only a small number of people were left.

At this moment, what made the young marquis of the Champion Marquisate even uglier was that among the remaining small group of people, there were actually many young people who were completely scared and were ready to withdraw directly, and then left without looking back, unwilling to explore this underground nest full of weirdness and terrible dangers.

The whole team shrank a lot again.

In the end, only six or seven people came.

Seeing this scene, the young marquis of the Champion Marquisate, who was the organizer of this time, felt very helpless.

Because he never thought that in this underground nest that he had praised so confidently, he had never encountered any opportunities and fortunes, but encountered such terrible dangers twice in a row.

It was as if this underground nest was not a place dedicated to storing opportunities and fortunes, but a trap dedicated to harming practitioners.

At this moment, even the young marquis of the Champion Marquisate had the urge to withdraw from this underground nest directly.

But at this time, there were still some people who stayed. The young marquis of the Champion Marquisate could only bite the bullet and say, "Let's keep going. Maybe the danger has almost passed. This is the darkness before dawn."

Hearing what the young marquis of the Champion Marquisate said, the remaining people on the scene obviously didn't believe the young marquis of the Champion Marquisate. No one responded, just nodded slightly, and each of them was on guard and continued to move forward.

Seeing this scene, the young marquis of the Champion Marquisate immediately understood that his identity as the leader of this team was completely dead in name only at this moment, because no one believed him anymore, and they fought on their own.

The young marquis of the Champion Marquisate recognized this fact and had to accept it. Following his protector, he was also nervously on guard and continued to move forward.

Young Princess Ye Feng naturally did not retreat, and continued to move forward.

Next, the remaining group of people carefully bypassed the pile of dead bodies in front of them, and no one dared to search for the storage rings on the ancient strong men in the pile of dead bodies.

Because no one knew if there were any other scary bugs in this pile of dead bodies.

So everyone could only dreadfully avoid this pile of dead bodies.

When everyone was avoiding the pile of dead bodies, Ye Feng's eyes flickered.

The little princess stood next to Ye Feng, glanced at the pile of dead people passing by, and couldn't help but said: "What a pity, every ancient strong man in this pile of dead people has a An ancient storage ring may contain the wealth accumulated by these ancient powerful men before their death. It is a pity that it cannot be obtained just like this. "

In fact, it was not just the little princess who felt pity, the other people who walked around the pile of dead people also had pity in their eyes.

But there is no way.

The group of insects just now was so terrifying that no one dared to approach the pile of dead people at all.

Otherwise, the end is death.

At this moment, everyone could only feel pity in their hearts, left this ancient pile of dead people, and continued walking towards the depths of this underground lair.

And just after everyone left, a figure turned back, it was Ye Feng.

Ye Feng did not hesitate at this time, and immediately flew towards this dangerous pile of dead people. Soon he came to this group of dead people piled beside him, and immediately started to plunder the stored items from the ancient strong men. The ring seemed not to be afraid of the corpse king insect among the dead at all.

But in fact, Ye Feng has soul power that no one else has. He has already checked and scanned it and confirmed that there is no Corpse King Bug.

When the group of people were exploring this pile of dead people just now, they had already drawn out all the corpse king insects and exploded themselves.

So at this time, Ye Feng can search for the ancient storage rings worn by these ancient strong men, which can be said to be a big bargain.

After all, others don't have Ye Feng's soul power that can scan and explore everything. They don't know that there are actually no remaining corpse king insects in this pile of dead people.

Chapter 5507: Hazy Fairy Spirit

At this time, Ye Feng did not hesitate at all, and immediately collected all the storage rings on the fingers of the dead bodies.

Including the rings snatched by the younger generation who had died before, all fell on the ground, and were picked up by Ye Feng one by one.

Finally, Ye Feng counted a little and found that he had picked up a total of 40 or 50 storage rings.

Ye Feng immediately explored with a very happy face.

However, after exploring several storage rings in a row, Ye Feng found that most of the cultivation resources in them had been almost consumed.

But this is also very normal.

After all, these ancient strongmen must have encountered a very terrible crisis before they died.

Perhaps they also encountered some terrible dangers and irresistible enemies in this underground nest.

They consumed their own cultivation resources to save their lives, which is very normal.

But after all, there are still a lot of cultivation resources left.

Ye Feng took out all the remaining cultivation resources from these dozens of storage rings and piled them in front of him.

There are a total of sixteen ancient pills and three bottles of liquids of unknown use, but they all emit brilliant light. Even after many years, they still emit very strong energy fluctuations, which must contain a lot of energy.

In addition, there are many natural treasures. These things were planted by these powerful people in ancient times and stored in their storage rings for emergency use. Unfortunately, they did not use them before they died, and now they all became Ye Feng's things.

In addition, there are nine ores of different colors, all flashing with different colors of light, which is very strange.

At this time, Ye Feng did not hesitate at all and immediately began to swallow them quickly.

"Boom..."

At this moment, a huge amount of energy was immediately injected into Ye Feng's Dantian.

You know, these ancient strong men, even the remaining cultivation resources are very good.

So at this time, after Ye Feng swallowed, he could immediately feel a huge amount of energy, which was immediately injected into his body.

Ye Feng is currently in the tenth level of the God Realm, and he immediately began to transform and break through rapidly.

"Boom!!"

Finally, at a certain moment, Ye Feng's body suddenly burst out with a terrifying aura of cultivation.

Ye Feng's cultivation at this moment broke through, directly from the tenth level of the God Realm, directly broke through the current bottleneck, and stepped into the half-step Wanmai Realm above the God Realm!

At this moment, Ye Feng's cultivation broke through a new level of cultivation, and he could immediately feel that his cultivation power had a huge breakthrough, and his combat power also soared.

Wanmai Realm, this is a new level of cultivation, much stronger than the God Realm.

Even if Ye Feng has only stepped into the half-step Wanmai Realm, he can feel that his combat power has increased hundreds of times in the moment just now.

This makes Ye Feng very happy.

Because the stronger his strength is, the more confident he will be in this dark world.

In addition, Ye Feng could already feel that the underground nest he was exploring contained greater dangers.

His current strength had increased by hundreds of times, which naturally gave Ye Feng more confidence to explore the entire underground nest without fear of some very terrifying dangers.

At this time, Ye Feng clenched his fists, sensing the surging power all over his body after he stepped into the half-step Wanmai realm, and his eyes were full of excitement.

This time, he really picked up a big bargain without any effort.

At this time, Ye Feng immediately moved forward quickly, caught up with the team again, and came to the side of the little princess.

At this moment, the little princess found that Ye Feng had left for a while, and couldn't help asking: "Ye Feng, where did you go just now?"

Ye Feng didn't say it directly, but smiled and said: "I just found a place, there seems to be some special energy fluctuations, so I went to explore it, but I didn't find anything."

Hearing what Ye Feng said, the little princess didn't care, just nodded and said: "Our entire team has now reached a deeper and deeper place in this underground nest. I feel that the cold air in the air has become more and more creepy. I always feel that something bad is happening."

Ye Feng nodded slightly and said: "Stay closer to me later. This underground nest may not be as simple as we imagined."

At this moment, the little princess immediately nodded and leaned against Ye Feng.

At this time, after the little princess approached Ye Feng, she seemed to have just discovered something. Suddenly, she widened her eyes slightly, stared at Ye Feng, and whispered: "Ye Feng, how come your cultivation aura has become so much stronger?"

Ye Feng smiled slightly and said: "Just now, I suddenly realized it, and fortunately broke through to the half-step Wanmai realm above the God Realm."

"What?"

Hearing Ye Feng say this, the little princess immediately opened her mouth wide, her eyes full of shock.

But she didn't believe Ye Feng's reason for enlightenment, because the little princess knew that Ye Feng's cultivation had been greatly improved, all because of absorbing the energy from the outside world.

At this time, the little princess seemed to have some guesses in her mind, but she didn't say it out loud. After all, the little princess was also a woman with a very delicate mind. Sometimes some things don't need to be said so clearly, and it might be better to pretend to be confused.

At this time, the little princess just smiled quite shrewdly, and a trace of inexplicable smile appeared on her beautiful little face, and she said aloud: "Ye Feng, you are really amazing."

The little princess said at this moment, and her tone was also a little emotional.

Because Ye Feng's breakthrough speed was so fast, the little princess felt very incredible.

And what made the little princess feel even more incredible was that every time Ye Feng broke through, his strength increased greatly.

You know, even a young genius of the level of the young marquis of the Champion Marquis's Mansion, after breaking through a realm, his strength may only increase by a dozen or dozens of times and reach the top.

But every time Ye Feng broke through, his strength increased by hundreds or even thousands of times.

This shows that Ye Feng's martial arts foundation is very deep, so deep that it is incredible. Otherwise, every time he breaks through, his combat power cannot be improved so quickly.

Just when the little princess was sighing in her heart, a surprised voice suddenly came from the front: "Everyone, look! There is an ancient pool in front of us. The fairy air in the pool is hazy, and people feel refreshed and their skills increase greatly after smelling it. Could it be that we have come to the place where the immortals left behind!"

At this moment, the young marquis of the Champion Marquis's Mansion also saw that place in the crowd. The fairy air was lingering, and a breath seemed to make people reborn. He couldn't help laughing and said: "Sure enough, it was the darkness before dawn just now. We have passed so many traps and finally came to the real opportunity and fortune of this underground nest. There is actually a place left by an immortal here. Perhaps it was the place where an ancient immortal practiced. We hurry over to absorb those fairy airs, which will definitely make our skills increase greatly and reborn!"

Chapter 5508: Killing Each Other

At this time, Ye Feng and the little princess also looked forward, and immediately saw the fairy aura lingering in the pool in front of them. It really looked like a place left by an immortal after ascending, containing the aura of an immortal.

Moreover, the water in this pool seems to contain a very large amount of immortal power, so it emits immortal energy, which is of great benefit to the cultivators' practice.

At this moment, the little princess still subconsciously said: "Ye Feng, let's not act rashly."

Ye Feng nodded and said, "Well, let's take a look first."

At this time, not only Ye Feng and the little princess had this idea, but the young prince from the Champion House and several other young geniuses were standing still and did not rush over immediately.

Because they had already been taught two lessons before, they did not dare to be so impulsive at this time.

Finally, there was a young genius who seemed to have inherited the puppet master's legacy. He took out a humanoid puppet from his storage ring and controlled the puppet to enter the pool area. After staying there for a long time, no danger was found.

Seeing this scene, everyone immediately cheered. There was finally no danger here and it was a real place of opportunity.

Ye Feng used his soul power to explore for a long time, but did not find any danger.

However, this made Ye Feng quite puzzled. He didn't seem to have thought that the deepest part of this underground lair actually had such a huge opportunity. It was a place left by an immortal, and it seemed to contain a very majestic power of immortal energy. .

Uh-huh!

Ye Feng did not hesitate at this time and immediately took the little princess and flew towards the pool quickly.

The young prince from the champion house, as well as five or six other young geniuses, also flew forward one after another.

At this moment, the guardians of these young geniuses, several powerful elders, are standing outside, guarding these young geniuses.

At this time, Ye Feng and a group of other young geniuses, including the young prince from the champion house, did not hesitate at all and immediately began to absorb the immortal energy emanating from the pool.

Without any hesitation, Ye Feng directly released the Devouring Domain and began to devour it crazily.

In terms of swallowing ability and the speed of absorbing external energy, no one can compare with Ye Feng.

So at this time, Ye Feng had absorbed nearly half of the fairy energy in the entire pool.

"this....."

At this time, everyone clearly felt the huge gap, but there was no way, because they couldn't blow Ye Feng out. After all, everyone was still a cooperative team.

So at this time, everyone could only smile bitterly and sigh. The captain of the guard next to the little princess was really a strange person. Not only was he powerful in combat, his perception was terrifying, but he also practiced so fast.

At this moment, Ye Feng alone absorbed and enjoyed nearly half of the immortal energy in the pool, and naturally gained huge energy in an instant.

Such a blood energy is already very high-level, let alone such a huge amount.

After being absorbed, devoured and refined by Ye Feng, Ye Feng's cultivation skills were quickly accumulated.

Boom!

Suddenly at a certain moment, Ye Feng's body suddenly erupted with a terrifying aura of cultivation.

Ye Feng's cultivation level was a big bottleneck. After absorbing so much immortal energy, he naturally broke through without any hindrance. He directly broke through the current bottleneck of half-step Ten Thousand Meridians Realm and rushed into the real first level of Ten Thousand Meridians Realm. .

At this moment, the breakthrough of the entire realm instantly increased Ye Feng's skill reserves hundreds of times, and Ye Feng's combat power also soared hundreds of times again.

Ye Feng could feel that his power was much stronger than before.

This naturally made Ye Feng very happy.

At this moment, the immortal energy in the entire pool was almost completely absorbed by everyone.

Of course, most of it went into Ye Feng's stomach.

However, most people who absorb this immortal energy naturally undergo huge changes.

The cultivation skills of many young geniuses have been improved, and their bodies have become stronger.

But not before everyone cheered.

Suddenly, in the entire underground lair, an ancient voice suddenly sounded: "You are all very good, you are able to come here, and you have the courage to come here."

"Who is it?"

At this moment, upon hearing this ancient and cold voice, the expressions of everyone present suddenly changed.

Because no one thought that there was an inexplicable mysterious existence surviving in this underground lair, and they didn't know where this mysterious existence was.

But this mysterious existence seems to have been observing all their actions.

In other words, their every move has been watched by the mysterious being behind the scenes since they entered this underground lair.

Hearing this ancient voice at this moment, Ye Feng's eyes flashed fiercely.

Unexpectedly, such a mysterious existence existed in this underground lair, and even Ye Feng's soul power was not noticed.

Since Ye Feng entered the underground lair, he has not noticed the aura of this mysterious voice, which is enough to show that the owner of this mysterious voice is a very terrifying existence.

At this moment, everyone did not know the purpose of this mysterious existence, and they could only ask aloud: "Who is the senior? Why are you observing us all the time? Is the senior the builder of this underground lair?"

Hearing people ask this, the mysterious and cold old voice once again sounded in the entire underground lair: "It doesn't matter who I am, but you can call me Corpse Taoist. My purpose in this underground lair is also very simple. That's looking for my successor."

"successor?"

At this moment, when everyone heard what this so-called corpse Taoist said, their eyes flashed fiercely.

And at the next moment, a young genius couldn't help but asked: "Senior has great magical powers, but I don't know what the criteria are for finding his successor?"

The mysterious old voice who claimed to be the corpse Taoist immediately smiled, seeming to be cunning and cunning, and then said: "It is very simple to become my successor, that is, I can only have one successor. There are seven or eight of you here, and you must kill each other now. Whoever survives to the end will be qualified to become my successor. "

"What?"

At this moment, hearing this corpse Taoist say this, the expressions of everyone present suddenly changed.

The young prince of the Champion House even said coldly: "This is impossible! We can't kill each other! Senior, please don't say such things again. Let's leave this underground lair right now and talk to senior about the well water." Don't mess with the river."

At this moment, the corpse Taoist's voice sounded again, with a hint of coldness and cruelty, and he said: "You are all here, do you think you can escape? You must kill each other now, Only the last person is qualified to survive. As for whether he can become my successor, I will have to consider it myself. Hahaha, I enjoy this process of killing each other. "

Chapter 5509 Becoming a chess piece

Hearing what the corpse Taoist said, among the people present, someone suddenly shouted and said: "This corpse Taoist is just pretending. He is just playing tricks on us. Let's ignore him and leave directly."

Poof!

But almost as soon as the man finished speaking, his entire body suddenly exploded into a bloody mist, making everyone present stunned.

At this moment, the corpse Taoist's voice sounded again, with a ruthless tone: "Whoever dares to leave here early will suffer this fate."

hiss!

At this moment, when everyone saw this scene, they couldn't help but gasped.

Ye Feng suddenly seemed to realize something at this time, and suddenly said with a rather low face: "This corpse Taoist probably can't take action himself, but he used the immortal energy in the pool just now to control our... Life and death, after the immortal energy is inhaled into our bodies, it seems to be able to form an inexplicable curse, allowing this corpse Taoist to control this curse remotely, allowing us to explode and die at any time."

At this moment, Ye Feng could clearly feel that although the immortal energy helped him achieve a breakthrough in cultivation, there seemed to be an inexplicable substance contained in the immortal energy, existing in his body.

Almost at the moment Ye Feng finished speaking, everyone looked at each other and were shocked to find that at this moment, a red symbol appeared on everyone's forehead, emitting red light.

It should be that when they were absorbing the immortal energy just now, this curse power was subtly integrated into their bodies.

"hateful!"

Seeing this scene at this time, everyone's expressions suddenly became extremely gloomy.

Even the young princes of the champion house, including those powerful elders who protect the Taoism, all turned very ugly, because they were all exposed to the immortal energy and had this curse on their bodies.

In other words, their life and death depended on this corpse Taoist's thoughts.

At this moment, the corpse Taoist's voice sounded again: "Oh? I didn't expect that a young man like you is quite smart. Yes, although it is difficult for me to take action personally now, these immortal energies contain the corpses that I have cultivated. The power of Yin evil, the red symbols formed by the condensed power of Yin evil, are indeed similar to curses. They allow me to remotely control and control your life and death. So if you don't want to die, you should just follow my rules of killing each other. , hurry up, only one person can survive, and whoever survives to the end will be able to leave here safely. "

At this moment, the corpse Taoist was speaking, his tone full of cruelty.

Obviously, he regarded everything here as a game.

He is not even really choosing his successor, he is just treating all the younger and older generations who come here as his game pieces to satisfy his own fun.

Everyone was speechless to the extreme. They unexpectedly encountered such a vicious guy. This was definitely an old monster who had been trapped in an underground lair for many years. He could only use this cruel game to relieve his boredom.

Everyone is aware of this, but now that they have all been cursed, their faces are as gloomy as water.

The little princess stood next to Ye Feng, grabbed Ye Feng's hand, and couldn't help but said worriedly: "Ye Feng, if only one person can survive, what will you do?"

Obviously, the little princess was very panicked at this time.

Because really if everyone kills each other, only one person will survive.

So even if the combination of Ye Feng and the little princess survive to the end, they will have to kill each other because only one person can survive.

At this moment, Ye Feng's eyes showed a flicker of color, and he said loudly: "Don't be anxious yet, wait and see."

At this time, although Ye Feng appeared calm on the surface, he was also a little panicked inside.

Because Ye Feng can also clearly feel that the power of this curse has gathered in his body.

In other words, Ye Feng's forehead now also exudes a red symbol, which can kill Ye Feng at any time.

However, Ye Feng knew that this old monster who claimed to be a corpse Taoist would definitely not kill everyone in a short while, because he enjoyed this process of killing each other.

At this time, we can only adapt to circumstances.

However, Ye Feng did not sit still and wait for death. Instead, he slowly activated his devouring ability, hoping to see if he could directly and secretly disintegrate and devour the cursed power in his body.

However, Ye Feng did not directly use his devouring ability to digest the entire curse power, because Ye Feng did not know if he really disintegrated the power of the curse and cleared the curse on himself, would it cause the corpse Taoist to attack? Notice.

So Ye Feng just pulled a little bit of the curse's power at this time, trying to see if he could cover and digest it with his own devouring ability.

At this moment, Ye Feng is trying hard.

At this time, everyone saw the young man suddenly exploded and died, and their nerves were extremely nervous.

Some of the others finally couldn't bear it any longer, so they yelled and slashed at their companions around them, hoping to strike first.

This companion never thought that the young man next to him would attack him, and he was killed on the spot in an instant.

"Wang Meng, what are you doing?!"

At this moment, everyone shouted.

But the young man called Wang Meng sneered and said, "We have all become pawns now. Only by being ruthless can we survive."

At this moment, after Wang Meng killed his companion next to him, he looted the powerful magic weapons and cultivation resources on his companion to enhance his self-protection power.

When everyone saw this scene, their eyes flashed quickly.

The current situation is very clear to everyone. They can't run away at all. They can only obediently complete the game of the secret corpse Taoist and kill each other.

At this moment, the young marquis of the Champion Marquis's Mansion also let his protector stand by his side to be alert to other people's sudden attacks.

Boom!

And at this moment, the second person finally took action.

That was a young woman in a purple robe. She attacked another companion beside her, trying to snatch her companion's cultivation resources and treasures to enhance her overall strength.

But her companion was not stupid. He knew that everyone's nerves were tense and collapsed, and they might attack their companions at any time.

So the young woman in a purple robe did not succeed. Instead, her companion suddenly flashed behind her and cut off her head, killing her.

Boom!

At this moment, the whole scene suddenly became chaotic. The remaining several young people, including the old strong men who protected them, attacked each other.

At this time, Ye Feng and the little princess did not take action, but retreated to a corner around them.

The young princess looked at the chaos on the field, which was about to affect their place, and couldn't help but say: "Ye Feng, someone seems to be eyeing us and wants to attack us."

Ye Feng's eyes were also very cold at this moment, and he said: "Whoever dares to come will die."

At this moment, Ye Feng was alert to the possibility that other people around him might attack him and the young princess, while he was also increasing his devouring ability to see if he could dissolve the curse power that he had pulled.

If he could succeed, then he would not be controlled by the dark corpse Taoist, and the situation would be very different.

Chapter 5510: Stuck in a slump

Buzz buzz buzz!

At this time, Ye Feng frantically operated his devouring ability, wanting to devour and refine all the curse power on his body as soon as possible.

In this way, he would not be bound by the corpse Taoist who secretly controlled everything.

At this moment, under Ye Feng's efforts, his devouring ability has undergone a transformation, and he actually began to disintegrate the curse power on his body.

After sensing all this, Ye Feng immediately showed a look of surprise in his eyes.

And after Ye Feng disintegrated part of the curse power, he found that the corpse Taoist who was secretly observing did not do anything special to him.

It seems that the corpse Taoist did not know that the curse on his body was gradually disappearing.

At this moment, Ye Feng did not hesitate at all, and immediately continued to operate his devouring ability secretly, devouring and disintegrating the curse power on his body bit by bit.

In the end, Ye Feng had successfully disintegrated all the curse power.

At this moment, Ye Feng looked at the little princess beside him, and did not speak, but suddenly stretched out his hand and held the little princess's white hand.

At this time, the young princess saw Ye Feng grab her palm, and seemed a little confused, but she didn't ask much, because she felt that Ye Feng might want to get closer to her and protect her safety.

However, Ye Feng actually wanted to secretly disintegrate the curse power on the young princess.

The fact that Ye Feng can disintegrate the curse power cannot be made public directly to make everyone stop.

Because once it is made public, the corpse Taoist who secretly observes everything on the field will definitely detonate all the curse power instantly.

At that time, even the young princess will die instantly.

So Ye Feng can't change the current situation of killing each other at present, and can only secretly save his own people first.

And just when Ye Feng was secretly trying to disintegrate the curse power on the young princess, there were other young people around with some old strong men who came to trouble Ye Feng and the young princess.

Because these people all know that the young princess, as the noble princess, must have a lot of cultivation resources and powerful magic weapons.

So several young geniuses joined their protectors, the old generation of strong men, and flew directly towards Ye Feng and the little princess.

One of the young generation of geniuses looked at the little princess and said, "I'm sorry, Your Highness, the situation is so critical now, we can only do what we should do."

The little princess' eyes were very cold, and she said, "Are you really going to kill each other like this?"

An old generation of strong men who flew over from the opposite side immediately said, "There is no way now, we can only kill each other, plunder each other's resources and wealth, and use them to arm and strengthen ourselves."

At this moment, after these young and old generation of strong men finished speaking, they immediately flew towards Ye Feng and the little princess, and directly released powerful forces and rushed towards Ye Feng and the little princess.

At this moment, the first target they attacked was the little princess.

Because the little princess must have the most wealth.

In addition, the little princess's cultivation aura was much weaker than Ye Feng, so they dealt with the weakest one first.

However, at this moment, Ye Feng did not hesitate at all, and immediately burst out with the powerful aura of the first level of the Ten Thousand Veins Realm that he had just broken through.

At this moment, an old-generation strong man among the people who came could not help but reveal a trace of disdain in his eyes, and said aloud: "You are indeed a very good young talent, and you are considered a top guard among all the guards, but your cultivation is still much worse than that of us old-generation strong men."

At this moment, after the old-generation strong man finished speaking, the aura that burst out from his body was surprisingly two realms stronger than Ye Feng's current first level of the Ten Thousand Veins Realm.

At this moment, this old-generation strong man seemed very confident, stretched out a hand, grabbed towards Ye Feng, and wanted to kill Ye Feng instantly.

But at this moment, Ye Feng directly punched out fiercely.

"Boom!!"

Ye Feng's fist burst out with brilliant black light, containing the power of the immortal body of the gods, and directly and instantly hit the palm of this old-generation strong man.

Crack!

Almost in the next moment, Ye Feng's fist burst out with tremendous power, and it hit the palm of the old strong man like a mountain, directly smashing the bones of the old strong man's palm into pieces, making a series of fracture sounds.

"Ah!!"

At this moment, the old strong man screamed in pain, and his whole body was like a broken sack, and was blown away by Ye Feng. His meridians were broken and he died instantly.

"What?"

Seeing this scene, the other young and old strong men around were deeply shocked.

They seemed to have never thought that Ye Feng, a young man who looked ordinary, had such a strong cultivation strength that even the old strong men could not deal with him.

At this moment, the remaining four or five people immediately said: "Let's join forces to deal with the young man next to the little princess first! His strength is very strong!"

Boom!

Boom!

At this moment, four or five strong men joined together and besieged Ye Feng.

But at this moment, Ye Feng immediately released the powerful magic weapon, the Dark Sword, that the Emperor of the Dark Empire had given him before.

Clang!

Clang!

Clang!

At this moment, a full nine black long swords immediately burst out from Ye Feng's body, quickly circling around Ye Feng, and directly turned into nine black lightnings, instantly surrounding the four or five attacking strongmen who rushed over.

"Puff!"

"Puff!"

Two of the young generation had no time to react at all, and were directly cut off by Ye Feng's Dark Sword and fell from a high altitude.

The remaining two or three old generation strongmen reacted in an instant, and directly released their own magic weapons and armors to resist Ye Feng's Dark Sword.

But Ye Feng's Dark Sword is a peerless magic weapon created by the Emperor of the Dark Empire, and it is very advanced.

Although these people are strong men under the command of some princes and nobles in the Dark Empire, the level of their weapons is not as good as the nine Dark Swords in Ye Feng's hand.

Their magic weapons and armor were all cut off in an instant, and their bodies were also cut off, broken into two pieces, and fell from the sky one after another.

In an instant, Ye Feng killed an old-generation strongman with one punch, and the sword formation formed by the nine dark swords also killed all four or five strongmen who came to attack.

At this moment, after doing all this, the little princess was stunned, as if she didn't expect that the improvement of Ye Feng's cultivation would make Ye Feng's combat power soar straight up and become so powerful.

The other few remaining strongmen who were fighting not far away, including the young marquis of the Champion Marquis's Mansion and some other old-generation strongmen, all fell into a sluggish look at once.

Because the killing power that Ye Feng showed just now was really terrifying, and he solved so many strongmen in an instant.

Before, everyone thought that Ye Feng and the little princess shrank into a corner because they were not strong enough.

But unexpectedly, Ye Feng, one of the two, actually had such a strong strength, which was incredible.
