Chapter 5511: Secret Disintegration

At this time, after seeing Ye Feng's powerful strength, everyone no longer dared to act rashly, nor did they dare to attack Ye Feng.

Moreover, at this time, Ye Feng killed four or five strong men on the field, but in fact, there were only a few people left.

Except for the young prince of the champion house and his guardian, there are two or three other young people and strong older people, but there is no one else.

At this time, everyone fell into silence.

At this moment, the voice of the corpse Taoist who was secretly observing sounded again: "Time is running out, hurry up and kill each other until the last person is left, otherwise, you will all die."

At this moment, Ye Feng saw that everyone no longer acted rashly and calmed down. Finally, he had the opportunity to secretly send a message to the young prince of the champion house and several other strong men from the Dark Empire, and said aloud: "Just now it was really true. It was too chaotic. I didn't have a chance to communicate with you, and someone came over to kill me. I had no choice but to treat them in their own way. But now that you have calmed down, I can talk to you. Let me talk about my plan. I have now mastered the method to disintegrate the power of this curse, but it cannot be discovered by the corpse Taoist who is observing in secret. Otherwise, he will have already detonated it before I can disintegrate the power of the curse on you. The power of the curse has killed you all, so next you listen to my arrangements and come here and pretend to fight with me. The moment I touch you, I can help you disintegrate part of the power of the curse on you. With a few touches of my palm, I should be able to dismantle all the cursed power on you."

At this moment, Ye Feng's voice transmission sounded in everyone's minds, causing the expressions of several people present to change suddenly, and their faces were ready to show ecstasy.

But at this moment, Ye Feng once again sent a message: "Don't make any facial expression changes. Just continue to pretend to unite, attack me, and keep touching my palms."

At this moment, Ye Feng has successfully destroyed the curse of the little princess next to him. If he had other time, he would naturally want to save the others present. After all, everyone was a partner before, and the champion Hou The young Marquis of the mansion and the remaining younger generations did not target him.

As for those people who wanted to kill him before, Ye Feng killed them all on the spot without any hesitation.

The young prince of the champion house and the remaining younger generations have not taken action, which shows that they still have conscience in their hearts.

At this moment, after hearing Ye Feng's voice transmission, the few remaining people, including the young prince of the champion house and his elders, couldn't help but nodded slightly.

At this moment, the young prince from the Champion House immediately pretended to be horrified and said: "This Ye Feng is really powerful. Let's unite together to attack this Ye Feng. Let's join forces to kill Ye Feng first. He The threat is too great."

At this moment, after hearing what the young prince of the champion house said, several other people also understood what the young prince of the champion house meant. They all followed Ye Feng's plan and pretended to say: "Okay. , then let's not hesitate any longer. We are going to die anyway, so we might as well join together and kill this Ye Feng first."

At this moment, the young Marquis of the Champion Hou Mansion, who had not taken action before, and several other young and powerful men from the older generation joined forces and began to attack Ye Feng.

The corpse Taoist who was secretly observing did not know that there had been secret communication between the few people and they were pretending. He thought that everything was normal.

Although the young Marquis of the Champion House and a few others did not take action directly just now, at the last moment, it is very normal for their inner consciences to waver.

Therefore, the corpse Taoist was still observing secretly at this time and did not speak.

At this moment, the young prince of the Champion House and several other young people, as well as the elders and powerful guardians of these people, all rushed towards Ye Feng.

The little princess didn't hear Ye Feng's message and immediately couldn't help but said: "Ye Feng, can we really fight against so many powerful people?"

At this moment, Ye Feng smiled slightly, looked at the little princess beside him, and said loudly: "You retreat, let me deal with these people."

At this moment, Ye Feng didn't have time to explain anything to the little princess, because the little princess didn't know that the power of the curse on her body had been secretly broken by Ye Feng, and she thought everyone was still killing each other.

Uh-huh!

At this moment, Ye Feng immediately rushed forward and started fighting with the young prince of the champion house and several other younger generations, including the old and powerful guardians.

At this moment, the entire field fell into chaos.

Everyone was attacking Ye Feng and colliding with Ye Feng's palm. In order to let the corpse Taoist who was observing secretly not suspect, Ye Feng sent a message to everyone to ask everyone to attack harder. It's okay if everyone is injured. The key is to play the trick. The performance is good, and the corpse Taoist who is secretly observing cannot be suspected, otherwise the power of the curse will be detonated in advance, and everyone will die.

At this time, after hearing Ye Feng's voice transmission, everyone simply let go and attacked Ye Feng with all their strength.

And Ye Feng's strength was strong enough. He actually blocked the attacks of so many people present, including the elders.

So at this time, even if everyone was acting, during the battle with Ye Feng, Ye Feng's comprehensive strength was so powerful that it made the young prince of the champion house and several other younger generations, including those older generations, stronger Everyone was shocked.

As everyone continued to fight, Ye Feng's palm also came into contact with everyone, helping them secretly resolve the curse power in their bodies.

In the end, Ye Feng completely destroyed everyone's curse power.

At this moment, everyone suddenly stopped, looked at each other, and stopped taking action.

"Um?"

Seeing this scene, the little princess who was watching nervously not far away suddenly showed a look of surprise in her eyes and said loudly: "Why don't you fight?"

At this moment, Ye Feng smiled slightly, looked at the little princess, and said loudly: "Because there is no need to fight."

At this moment, everyone stopped and stopped fighting.

The corpse Taoist who was secretly observing became a little anxious and said loudly: "Kill each other quickly, don't take any chances."

"Shut up!"

But at this moment, Ye Feng suddenly roared, looked in the direction of the entire underground lair around him, and said loudly: "We don't need to kill each other now, I have secretly destroyed all your curse power, you... Insidious old monster, we will join forces soon to find you and cut you into pieces!"

At this moment, after Ye Feng finished speaking, the corpse Taoist in the dark immediately shouted: "What's going on? Why did my curse power fail?"

Obviously at this time, the corpse Taoist wanted to activate the power of the curse and explode everyone to death, but he suddenly discovered that the curse power on everyone had disappeared, completely disappearing, leaving the corpse Taoist with a sudden I was just dumbfounded.

At this time, everyone standing there showed joy in their eyes.

This time, fortunately, they met Ye Feng on the way and let Ye Feng join their team. Otherwise, they would all have died here today.

As for what the Corpse Taoist said that the last one left could survive, that was just the Corpse Taoist's rhetoric. Maybe the last person left would be brutally killed by the Corpse Taoist.

After all, this old monster is extremely sinister, and what he says cannot be taken seriously.

At this time, the young prince from the Champion House also looked around and said loudly: "You hateful old man, I must find you out!"

Buzz!

At this moment, Ye Feng was exuding soul power, spreading crazily towards the surroundings, trying to find the specific location of the corpse Taoist.

The reason why Ye Feng helped others to dismantle the curse was not only to stop everyone from killing each other, but also to unite everyone's strength to deal with the secret Taoist corpse.

Because the corpse Taoist's strength is absolutely very powerful, he may not be able to fight it alone.

But the other people present are still very powerful together. After all, every young person has a strong guardian of the elders. Together, they are no weaker than Ye Feng.

Chapter 5512: Unable to restrain

At this time, Ye Feng frantically spread out his soul power, and quickly found a certain direction in this underground lair. There seemed to be a secret energy fluctuation.

Ye Feng immediately judged that this secret energy fluctuation was definitely the power fluctuation of the corpse Taoist who secretly controlled everyone.

Because in this underground lair, there is probably only one living creature, the Taoist Corpse.

And Ye Feng knew very well that although this corpse Taoist was very powerful and mysterious, with so many people united now, they might really be able to kill this corpse Taoist.

At this moment, the little princess came to Ye Feng's side and couldn't help but asked worriedly: "Ye Feng, this old monster is hiding in the dark and can control us at will. He must have other means. Do we really want to go find him, or is it safer to just leave here now?"

Hearing what the little princess said, Ye Feng smiled slightly and said: "Don't worry, this corpse Taoist is definitely not as scary as we thought. If he was really very powerful, he would have suppressed us long ago, but He also wants to play some tricks and use fairy energy He confuses us and secretly gives us a curse. The reason why he plays so many tricks must be because he is very weak now, or he is trapped somewhere and cannot move. Otherwise, there is no need for him to play such tricks. There are many tricks to target us."

At this moment, after Ye Feng finished speaking, the young Marquis from the Champion Hou Mansion beside him also nodded and said loudly: "I agree with Brother Ye's point of view."

At this moment, even the young prince from the champion house felt great admiration for Ye Feng.

This can be seen from the title that the young prince of the Champion House gave to Ye Feng.

You must know that the hierarchy in the Dark Empire is very strict, and the heirs of powerful people and low-level guards will never play together, and there will be a big difference in their titles.

But now, Ye Feng, as a captain of the guards, is called "Brother Ye" by the heirs of such a noble prince as the Young Marquis of the Champion House. It has been taken seriously.

Ye Feng, the so-called captain of the guards, may have become the person that the young prince of the Champion House needs to make friends with.

At this moment, Ye Feng did not notice this change of title, because Ye Feng didn't care at all.

Ye Feng immediately spoke out at this moment: "Let's go directly to see who the corpse Taoist is. He caused us such heavy losses and treated us like chess pieces and played with us like mice. Then I will let him know that he has offended us." What's the end?"

The young prince of the Champion House is also a passionate man. After all, he followed his father on the battlefield when he was very young. He also said passionately: "We must kill this corpse Taoist, this hateful and insidious person." Get rid of the old thing."

At this moment, the young prince of the champion house instantly took out a silver spear from his storage ring, full of fighting spirit, like a young general on the battlefield.

Obviously, his murderous intention could no longer be suppressed.

At this time, the other young people around him, including some powerful elders, all nodded their heads, obviously very determined to kill the corpse Taoist.

When the little princess saw this scene, she nodded slightly and said nothing more.

At this moment, everyone followed the induction of Ye Feng's soul power and quickly walked in a certain direction of the underground lair.

Along the way, no matter what the corpse Taoist said to threaten everyone, it was of no use.

Ye Feng, the young prince of the Champion House, and a group of other young people have very deep murderous intentions and anger that must be vented.

Therefore, even if they knew that there might be huge dangers ahead, they still had to find this corpse Taoist, this insidious old monster, and deal with it thoroughly.

At this moment, Ye Feng led everyone and quickly arrived at the place he sensed.

This is already a very deep place in the entire underground lair.

At this time, everyone immediately saw that a huge underground stalactite cave appeared in front of them.

In this cave, white spider webs as thick as an arm appeared.

Among these spider webs, there was a coffin that looked very ancient.

This coffin seems to be sealed here by this spider web.

At this moment, the corpse Taoist's aura that Ye Feng sensed was hanging in the air in the coffin covered by the largest spider web, which looked quite strange.

At this moment, Ye Feng said aloud: "The old monster who secretly plotted against us, that corpse Taoist, seems to be in the coffin covered by this huge spider web."

Boom!

The moment Ye Feng finished speaking, the young prince of the Champion House did not say anything. He held the silver spear in his hand, his whole body boiling with fighting spirit, and rushed directly towards the coffin. The spear in his hand was like a dragon, and it was bombarded in an instant. On top of the ancient coffin.

It has to be said that the young prince of the Champion House is still very powerful, and he is a young and vigorous general. He does not talk nonsense at all, and directly attacks the coffin in order to destroy it.

"Crack! Click!"

The young marquis of the Champion Marquis's Mansion is also a genius with great strength. The silver spear in his hand is a powerful weapon given to him by his father, which directly blasted the ancient coffin into pieces.

The next moment, everyone saw that after the ancient coffin was broken, a dry corpse that was more than ten meters long appeared.

However, the eyes of this dry corpse were moving around, and it was emitting a faint green light.

At this moment, Ye Feng couldn't help but say: "The strength of this corpse Taoist is really extraordinary. He can survive in the form of a corpse, and he can also remotely control the so-called curse power."

Swish!

At this moment, this huge dry corpse that was more than ten meters long suddenly sat up, and the nails on its fingers suddenly grew more than ten meters long. Each nail was like a purple steel cast, obviously sharp to the extreme, and also poisonous.

At this moment, the corpse Taoist stared at everyone present with his dark green eyes, and said coldly: "You are so brave that you dare to disturb my rest."

The young marquis of the Champion Marquis's Mansion immediately roared: "You let us kill each other, you insidious old monster, I must kill you today!"

Boom boom boom!

At this moment, the young marquis of the Champion Marquis's Mansion, including a group of other young and old strong men, all burst out their powerful strength and attacked the corpse Taoist.

At this time, Ye Feng also joined this group of people, always alert to the corpse Taoist's other weird methods.

Because the corpse Taoist who was besieged by everyone looked too indifferent, there must be hidden methods that have not been used yet.

Chapter 5513: Another incident

Sure enough, at the moment when Ye Feng was secretly wary of the corpse Taoist, the corpse Taoist suddenly grinned, showing his green fangs, and said loudly: "You guys can break and disintegrate this old man's curse. It's already very rare, but I didn't take action immediately just to lure you to this place where I am. I have been sealed here for so many years. With the life essence of you strong-blooded creatures, I can break it open. These seals."

At this moment, the corpse Taoist suddenly shouted: "The soul is sleeping!"

Buzz!

Almost at this moment, very terrifying soul fluctuations immediately emanated from the corpse Taoist's body.

The next moment, a huge soul vortex was released by the corpse Taoist, and it enveloped everyone present in an instant.

At this moment, whether it was the young prince of the champion's house who was full of blood, or the other younger generations, including those powerful elders, they were all suddenly attacked by the soul attack technique released by this corpse Taoist. shrouded.

The fighting energy in their bodies immediately dissipated, and they felt as if their whole bodies were drowsy and their souls were about to be enslaved.

The next moment, before everyone could resist the feeling of drowsiness, they all fell from the sky one after another. They all fell to the ground at once, and they all fell asleep.

At this moment, when the corpse Taoist saw this scene, he immediately burst out laughing, his tone full of disdain, and said loudly: "It's really ridiculous that a group of young people dare to fight with me."

Uh-huh!

But suddenly at this moment, a strong wind flickered.

The next moment, a figure in white clothes appeared in front of the corpse Taoist, and directly pierced the corpse Taoist's head with a golden sword.

"Ah! What?"

At this moment, the corpse Taoist screamed, but he did not die immediately, but stared at the young man in white who suddenly appeared in front of him, and said in panic: "How is this possible? How did you escape this kind of soul sleep?"

At this moment, the boy in white is naturally Ye Feng.

Ye Feng was the only person in the audience who did not fall into drowsiness.

And while everyone was falling from high altitude to attract the attention of the corpse Taoist, Ye Feng secretly moved the space wormhole, flashed in front of the corpse Taoist in an instant, and pierced the corpse Taoist with the sword of the gods. 's head.

But at this time, what made Ye Feng frown was that his attack did not completely kill the corpse Taoist, but it also caused the corpse Taoist to be severely injured.

Because this was the first time Ye Feng saw the panic expression on the face of this corpse Taoist.

Obviously, his sword definitely seriously injured the corpse Taoist and made him unable to move.

At this moment, Taoist Corpse Master stared at Ye Feng in front of him, his eyes became extremely cold, and he said loudly: "It's you again, kid. You were the one who secretly destroyed my curse power before, right? You kid's methods are amazing. It seems that you have also practiced inheritance at the soul level. Otherwise, it would be impossible to resist the soul sleep that I just mentioned."

Hearing what the corpse Taoist in front of him said, Ye Feng just smiled indifferently and did not explain anything at all. He just said slowly: "Now your life depends on my thoughts. I need to ask you something. Please be honest." answer."

Since he didn't kill the corpse Taoist in an instant, Ye Feng is not in a hurry to kill the corpse Taoist now, but wants to ask the other party some information.

Ye Feng said aloud: "Since you have stayed in this underground lair for so many years, you should also know where the treasures and cultivation resources in this underground lair are. I don't believe that there are such things in this huge underground lair. It's impossible for ancient races to survive without leaving behind some good things."

Hearing Ye Feng's question, Taoist Corpse Master immediately burst into laughter and said loudly: "All the cultivation resources in this underground lair have been used up by me a long time ago. You kid came here after so many years, so of course you can't get them." Anything good..."

Poof!

Almost at the moment when the corpse Taoist finished speaking, golden sword light flashed, and Ye Feng directly cut off the corpse Taoist's head, killing him instantly.

Since there is no use value, there is no need to talk nonsense.

At this moment, Ye Feng saw that everyone was still sleeping. Without any hesitation, he directly released the Devouring Domain and began to devour the corpse Taoist.

Although this corpse Taoist has survived to this day in the state of a corpse, his body also contains a lot of corpse energy, which belongs to the underworld. Ordinary people dare not touch it, but Ye Feng is not afraid.

"Buzz!"

At this moment, along with Ye Feng's devouring, a huge amount of Yin Qi energy was immediately injected into Ye Feng's Dantian, rapidly increasing Ye Feng's power.

Ye Feng's cultivation aura immediately began to break through quickly and continuously at this moment.

boom!

Second level of Ten Thousand Meridians Realm!

boom!

The third level of Ten Thousand Meridians Realm!

boom!

Fourth level of Ten Thousand Meridians Realm!

boom!

The fifth level of Ten Thousand Meridians Realm!

At this moment, Ye Feng's cultivation finally stopped.

This made Ye Feng's eyes suddenly show surprise.

It seems that he did not expect that a corpse Taoist who was already weak to this state could actually provide him with so much energy, allowing his cultivation to break through the fourth level on the spot, from the first level of the Ten Thousand Veins Realm to the fifth level of the Ten Thousand Veins Realm.

This is a huge improvement and breakthrough, which Ye Feng himself did not expect. It seems that his luck is not bad.

At this moment, Ye Feng was about to fly down from mid-air, but suddenly found that there was a piece of fragment in the ancient coffin that had just been broken, and there were densely packed words engraved on it.

Ye Feng looked at it and found that it was a set of peerless and powerful inheritance created by this corpse Taoist.

At this moment, Ye Feng read it carefully and found that this set of inheritance was very special. It could mobilize the energy of the legendary underworld when it was used.

This set of inheritance can only be used by practitioners in the state of corpses, and it has great harm to living creatures.

However, Ye Feng can transform and use any power, even the power of corpses, so Ye Feng can completely practice this set of inheritance.

This set of inheritance is called "Ten Thousand Corpses Covering the Sky Hand". It is a peerless inheritance created by this corpse Taoist after he survived in the form of a corpse for hundreds of years. It can mobilize the power of the underworld to attack living creatures, causing great damage and powerful destructive power to living creatures.

However, before the corpse Taoist could display his ambitions, he was killed by Ye Feng in this underground nest.

But just when Ye Feng was about to wake up others, something unexpected happened again!

The gloomy voice of the corpse Taoist suddenly sounded again in the entire cave: "What a straightforward and ruthless young man, you killed my parasite without saying a word. You can actually absorb the power of the underworld. You are definitely not a dark race. Who are you? With such magical and incredible means, are you from a higher dimension world?"

Chapter 5514 The Ultimate Secret

Hearing the voice of the corpse Taoist at this time, Ye Feng's eyes suddenly showed a look of surprise. It seemed that he had never thought that the corpse Taoist was not completely dead. It seemed that this corpse Taoist was indeed a scheming old monster. His vitality was so tenacious that even his body was devoured by him, but he still didn't die completely.

But Ye Feng also heard it. The corpse Taoist said that the corpse just now seemed not to be his body, but a parasite of the corpse Taoist.

In other words, this corpse Taoist can store his soul in every corpse at any time, which is basically an immortal existence.

This made Ye Feng's eyes suddenly reveal a gloomy look. It seemed that this corpse Taoist was much simpler than he thought.

But at this time, Ye Feng was not afraid. After all, this corpse Taoist only had one soul left. No matter how powerful he was, he was not afraid.

After all, he is a soul master, not to mention that there is still a soul-level god named Chu Emperor in his mind.

At this moment, Ye Feng just looked around, not knowing where exactly the Taoist Corpse Master was, and said loudly: "What? Do you still want to continue killing me? If you have the guts, you can give it a try. Although I am young, I am not Not afraid of you."

Hearing Ye Feng's words, Taoist Corpse Master didn't seem angry. Instead, he smiled faintly and said, "You have talent and ability. You are indeed a rare peerless genius. Even if you are not from In

the higher dimensional world, you are also an extremely powerful being. This is the first time I have encountered such a magical boy like you."

At this moment, after the corpse Taoist finished speaking, suddenly the dark wind howled in the entire underground lair.

Buzz!

The next moment, a phantom composed entirely of soul appeared in front of Ye Feng.

Ye Feng immediately felt that the aura of power emanating from this soul was simply terrifying to the extreme. He could not actively resist it unless it invaded his mind and was destroyed by Emperor Chu.

Moreover, Ye Feng could feel that this soul was not the soul of the corpse Taoist, but probably just one of the souls of the corpse Taoist.

In other words, this corpse Taoist is likely to have many souls. Even if this one is destroyed, there is no way to completely eradicate the corpse Taoist.

This was the first time for Ye Feng to encounter such a troublesome existence. He couldn't kill him at all. He couldn't kill them all.

At this moment, Ye Feng could only remain silent.

The soul that the corpse Taoist gathered together walked up to Ye Feng, smiled and said, "You are qualified to negotiate head-on with me."

Ye Feng's eyes moved and he said, "What are you negotiating for?"

The corpse Taoist smiled slightly and said, "Let's share the ultimate secret in this underground lair."

"Um?"

Hearing what the corpse Taoist said, Ye Feng's eyes flashed fiercely.

Sure enough, this underground lair is not as simple as everyone imagined. It contains an ultimate secret. I don't know what it is.

At this moment, Ye Feng's tone did not waver. He just looked at the soul of the corpse Taoist in front of him and said, "If the ultimate secret of this underground lair is so precious, why do you want to share it with me? Wouldn't it be better if you had it all to yourself?"

Hearing what Ye Feng said, the corpse Taoist smiled slightly and said: "Because I can't unlock the ultimate secret with my own strength, but your boy's cultivation at the soul level is so powerful, maybe the two of us can join forces, can unlock the ultimate secret."

At this moment, the corpse Taoist glanced at all the other people present who were asleep, and released another breath of the underworld.

Ye Feng was about to stop him, but Taoist Corpse Master said: "Don't panic, I don't want to kill these people, I just let them sleep longer, don't disturb the important things between us."

When Ye Feng heard what the corpse Taoist said, he didn't say anything more, but nodded slightly. After all, it was better not to let others know about this kind of thing.

Even if you are a little princess, it is best not to know, otherwise, seeing yourself and the old monster like the Taoist Corpse together will definitely make many people feel grudges.

But in fact, Ye Feng did not join forces with this old monster, they just traded with each other.

Ye Feng wanted to get the real wealth contained in the underground lair. This secret was in the hands of the corpse Taoist, so he agreed to cooperate with the corpse Taoist.

At this moment, Taoist Corpse Master took Ye Feng and slowly walked towards the depths of the cave in this underground lair.

Ye Feng followed behind the corpse Taoist. He was silent for a while, and then couldn't help but ask: "What is the ultimate secret contained in this underground lair? Is it someone who lived in this underground lair back then?" The huge wealth left by the ancient race?"

Hearing what Ye Feng said, Taoist Corpse Master revealed a mocking smile in his eyes, but he did not show it. He just said loudly: "Your imagination is too poor. The ultimate secret hidden in this underground lair is The secret is related to the entire vast underworld."

"Um?"

Hearing what the corpse Taoist said, Ye Feng's eyelids suddenly jumped slightly.

Ye Feng knows very well that whether it is the lower cultivation dimension where the heaven is located, or the higher cultivation dimension where the outside world is, they belong to the entire world of the sun and the world of living creatures.

The underworld is a mysterious and vast world that is opposite to the living world. It belongs to the world of the dead.

I didn't expect that the ultimate secret mentioned by the corpse Taoist was related to the underworld.

Ye Feng couldn't help but say: "Will the living beings in the living world really enter the underworld after death?"

Hearing Ye Feng's question, the corpse Taoist shook his head and said: "I don't know this, but after I died that year, my soul wandered between the heaven and earth in the living world, and did not directly enter the underworld. I found an ancient cave from the underworld to the living world by chance. After practicing his inheritance, I came into contact with things about the underworld. The reason why I can now parasitize in different corpses and be immortal is that I have practiced the inheritance from the underworld. Therefore, the underworld is absolutely real and is in a binary opposition with the entire living world. It's just that many people think that the underworld does not exist and is illusory."

Hearing the corpse Taoist's words, Ye Feng's heart was in a bit of shock.

After all, Ye Feng also thought that the underworld was just a legend. After death, people become lonely souls and can only wander between heaven and earth. Finally, they dissipate directly, turn into countless particles, and merge into the whole world.

Unexpectedly, there is really a mysterious underworld in this world, which is in binary opposition with the whole world.

At this time, Ye Feng couldn't help but ask: "What is the ultimate secret related to the underworld you mentioned? Is it to open the door to the underworld? If so, then I won't cooperate with you. I don't want to go to any weird underworld now."

Chapter 5515 The future is at stake

When Ye Feng said this, Taoist Corpse Master smiled slightly and said, "What I want to cooperate with you is to open the door to the underworld."

After hearing that the corpse Taoist confirmed this matter, Ye Feng immediately prepared to leave here without looking back.

But Taoist Corpse Master suddenly held Ye Feng's shoulders and said loudly: "Boy, please listen to what I have to say first and then make a decision before it's too late."

When Ye Feng heard what the corpse Taoist said, his eyes flickered, then he nodded and said, "Then continue."

The corpse Taoist looked in a certain direction not far away and said aloud: "If you and I work together to open the door to the underworld, I can directly enter the underworld and practice my strongest magical power, and you will open the door to the underworld. For a moment, you can also get huge benefits, because the moment the gate of the underworld is opened, an extremely powerful underworld energy will erupt from the underworld due to pressure. I could see just now that you were able to swallow my corpse. The energy of the underworld, so you should be able to directly absorb the energy of the underworld that spews out directly from the underworld. That energy is at the level of the entire world. Once you can refine it all, your entire skill will definitely be transformed like never before. "

Hearing what the corpse Taoist said, Ye Feng's eyes suddenly flashed, and then he said loudly: "Are you sure that the moment the gate of the underworld is opened, there will be extremely powerful underworld energy spurting out from the underworld? ?"

The corpse Taoist immediately nodded and said: "From the records in the books I found in the cave of the strong man in the underworld, this is true."

Hearing what the corpse Taoist said, Ye Feng nodded and said, "Okay, if this is really the case, then I can consider cooperating with you."

At this moment, Ye Feng followed the corpse Taoist and soon came to the area deep in the underground lair.

Ye Feng looked forward. At this moment, he immediately saw a huge cyan door appearing in front of him, sealing off the entire ground.

We have reached the deepest part of the underground lair.

At this moment, Ye Feng asked aloud: "Is this green door the passage to the underworld?"

The corpse Taoist nodded, then stepped forward, stretched out his hand, and touched the blue door.

Buzz!

At this moment, ancient symbols lit up on the surface of the blue door.

These ancient symbols emanate an eerie, otherworldly energy and light.

Obviously, this cyan gate contains energy from the underworld, and these ancient symbols should also represent information from the underworld.

At this time, the corpse Taoist said: "As long as we can decipher all the symbols in this blue door, we can open this door to the underworld. However, my own soul power cannot bear the burden of deciphering such a code at the same time. Many underworld symbols."

Hearing what the corpse Taoist said, Ye Feng nodded slightly and said, "In that case, let's get started."

Buzz!

At this moment, Ye Feng instantly released his huge soul power, covering the blue door, trying to decipher the ancient symbols engraved on the surface of the blue door.

At this time, the corpse Taoist standing next to Ye Feng sensed the powerful soul power, and immediately couldn't help but said in surprise: "You kid is indeed a powerful soul master. I didn't expect you to be a rare soul master." It's really incredible that he is a soul master and his martial arts skills are so strong."

At this time, Ye Feng just smiled faintly and didn't say much. Instead, he concentrated on deciphering the ancient symbols from the underworld on the blue door.

At this moment, the corpse Taoist also covered all the power of his soul on this blue door.

For the corpse Taoist, entering the underworld is now the best choice.

Because the corpse Taoist has now cultivated into a Yin spirit-like existence, he can only survive by clinging to some corpses in the Yang world, and he cannot exert much power.

Therefore, the corpse Taoist wants to open the door to the underworld and enter the mysterious underworld, so that he can continue to practice the peerless inheritance obtained from a mysterious underworld strongman's cave and become more and more powerful.

This matter can only be done in the underworld, and there is no way to do it in the yang world.

At this moment, Ye Feng and the Taoist Corpse Master temporarily reached a cooperation to decipher all the symbols of the underworld on this blue door.

Ye Feng's soul power is very huge, and the corpse Taoist has even cultivated to become a Yin spirit-like existence.

So with the cooperation of the two of them, the ancient symbols on the entire blue door were finally completely deciphered.

Click!

At this moment, a gap opened in the middle of the blue door.

As the gap grew larger and larger, the blue door also burst open.

Buzz!

The next moment, Ye Feng immediately felt that behind this blue door, there seemed to be a vast and endless world, with the weight and breath of the entire world, which made Ye Feng feel so depressed that he could not breathe for a while.

Ye Feng looked towards the green door and found that it was chaotic inside, and there seemed to be a roaring wind, giving people a very scary feeling.

What the corpse Taoist said was not wrong. After the green door opened, a terrifying and extremely powerful underworld breath blew out directly from the underworld behind the green door.

If a living person was blown by this gust of Yin wind, he would probably freeze into a corpse instantly.

But Ye Feng was very excited at this moment. He opened his mouth wide and swallowed all the pure Yin wind energy blowing from the underworld.

"Boom!"

A terrifying high-level energy suddenly exploded in Ye Feng's body, and Ye Feng's cultivation power immediately began to expand and break through rapidly.

Boom!

The sixth level of the Ten Thousand Veins Realm!

Boom!

The seventh level of the Ten Thousand Veins Realm!

Boom!

The eighth level of the Ten Thousand Veins Realm!

Boom!

The ninth level of the Ten Thousand Veins Realm!

Boom!

The tenth level of the Ten Thousand Veins Realm is perfect! !

At this moment, Ye Feng's cultivation broke through madly, and finally broke through to the tenth level of the Ten Thousand Veins Realm, which made Ye Feng's skills and combat effectiveness increase unprecedentedly.

At this moment, Ye Feng's eyes suddenly showed deep excitement.

This yin wind energy blowing out from the underworld was indeed extremely powerful and advanced. After Ye Feng swallowed it, he felt like he had been reborn. His cultivation improved so much at once, which was more fierce than eating a hundred Ten-Perfect Pills.

At this moment, Ye Feng suddenly saw the corpse Taoist flying towards the mysterious underworld behind the green gate, accompanied by the corpse Taoist's last voice: "Boy, you are very good. I hope to see you again in the future. However, by that time, it is estimated that the entire Yang world is already in danger, but this has no effect on you. You can perfectly integrate into the underworld."

At this moment, after the corpse Taoist's voice fell, the whole figure had disappeared in the underworld behind the gate.

At this time, Ye Feng's face changed slightly, and he said: "Shi Dao Ren, what do you mean when you say that the whole Yang world is in danger in the future? Can you see the future? Or has the underworld already had some conspiracy?"

At this moment, after Ye Feng's voice fell, he did not get any response.

The gate to the underworld also slammed shut at this moment.

Then, the entire green gate suddenly disappeared in this underground nest.

This entrance to the underworld completely disappeared.

Chapter 5516: Aura of Sorrow and Sorrow

At this time, Ye Feng fell into silence as he looked at the disappearing entrance to the underworld and the corpse Taoist.

Although what Taoist Corpse Master said just now made Ye Feng feel a little shocked, he didn't take it too seriously.

After all, this corpse Taoist is not a real creature from the underworld, so he may not necessarily know the real situation. He may just be fooling himself.

And even if the underworld really has some conspiracy against the entire underworld, with Ye Feng's current strength, there is nothing he can do to change it. He might as well concentrate on improving his own cultivation strength first.

At this moment, Ye Feng did not hesitate and left the direction of the entrance to the underworld.

In any case, this time Ye Feng cooperated with this corpse Taoist, and he still got a lot of benefits. His cultivation strength had a huge transformation, and he was directly promoted to the tenth level of Ten Thousand Meridians Realm. Ye Feng's skills and The combat effectiveness has been greatly improved.

At this moment, Ye Feng quickly returned to the underground cave just now and found that everyone was still sleeping here.

It seems that the aura of the underworld emitted by the corpse Taoist just now had a huge effect on these people, causing them to sleep until now.

At this moment, Ye Feng didn't hesitate at all and just released his soul power, directly awakening these people from the soul level.

At this moment, everyone woke up one after another, with doubts in their eyes, not understanding what happened just now.

At this time, Ye Feng just smiled and said: "That corpse Taoist just now suddenly launched an attack and put all of you into a deep sleep. But I have my own means, so I didn't fall into a deep sleep. "

Hearing what Ye Feng said, the young prince of the Champion House was very surprised and couldn't help but said: "Why didn't the corpse Taoist kill all of us?"

Ye Feng smiled slightly and said loudly: "Because I have already killed the corpse Taoist."

At this moment, Ye Feng told a lie, which naturally reassured these people that Taoist Corpse Master would not appear again.

At this time, hearing what Ye Feng said, everyone present showed deep surprise in their eyes. It seemed that they did not expect that Ye Feng could kill the mysterious corpse Taoist with his own strength. .

Although everyone seemed to be a little unconvinced, they did not die, and they did not die in the hands of the corpse Taoist, which shows that Ye Feng really succeeded.

At this moment, whether it was the young prince of the Champion House or the other descendants of princes and nobles in the Dark Empire, their eyes looked at Ye Feng with deep admiration and shock.

Because the strength shown by Ye Feng is really too powerful.

Uh-huh!

At this moment, the little princess also woke up and immediately flew in front of Ye Feng. She couldn't help but said: "Ye Feng, I always feel that this underground lair is eerie. Let's get out of here quickly."

Hearing what the little princess said, Ye Feng nodded. After all, there is no special good thing to find or get here.

At this moment, Ye Feng looked at the young prince in the champion house, smiled and said, "Then the princess and I will say goodbye directly."

The young prince from the Champion House also nodded and said, "We will leave here after another search."

Hearing what the young marquis said at this time, Ye Feng just smiled slightly, hugged his fists, and left here with the young princess.

Ye Feng did not want to stay in this underground lair any longer, because Ye Feng already knew that there was nothing good in this underground lair.

The secret contained in this underground lair is the entrance to the underworld.

But now the entrance to the underworld has disappeared with the departure of the corpse Taoist, so there is nothing particularly important in this underground lair.

Ye Feng did not hesitate at this time and quickly left the underground lair with the little princess and returned to the Demonic Mountains.

At this moment, Ye Feng could feel that there seemed to be a chilling atmosphere in the entire Demon Mountain Range.

At this time, Ye Feng looked at the little princess beside him and said loudly: "I always feel that the Demonic Mountains are different from before."

At this time, the little princess looked around with some doubts and said aloud: "I still feel the same as before."

Ye Feng shook his head at this time and said aloud: "Your perception is not as sensitive as mine. It is normal not to feel the chilling aura. I can clearly feel that the chilling aura in the entire Demonic Mountains has become stronger than before. A lot more, and this kind of chilling aura is not the chilling aura of our Dark Empire trialists, but a demonic, deep and dark killing aura."

Hearing what Ye Feng said, the little princess looked at the deep area of the Demonic Mountains, and couldn't help but said in surprise: "If it is really like what you said, Ye Feng, then it means that deep in the Demonic Mountains Many powerful demons may have come out of their lairs and want to hunt down us outside cultivators who enter the Demon Mountains."

Hearing what the little princess said, Ye Feng nodded and said: "It's very likely that this is the case. I guess someone has angered many powerful demons in the entire Demon Mountain Range, causing all the demons to spread out and kill them." The aura of fighting formed this strong killing aura, which enveloped the entire Demonic Mountains."

At this moment, the little princess did not have any worries. Instead, she was eager to try and said: "These powerful demons each possess huge wealth, and these demons themselves have great value. Ye Feng, you are now Our strength and cultivation have improved so much. We don't need to be afraid. We can go directly into the depths of the mountains. When we see the vicious demons, we can just hunt them down. They hunt down us trialists, and we can do the opposite. Hunt these monsters."

Hearing what the small group leader said, Ye Feng smiled slightly and said: "That's right, no matter who provokes these powerful monsters, it is a good thing for us to send them all out, because my current The strength has indeed increased to a very powerful level."

What Ye Feng said at this moment was not conceited, but truly confident, because in this underground lair, Ye Feng had indeed improved his skill reserves a lot, and his combat effectiveness was many times stronger than before. Even if he encounters the top monsters, Ye Feng is not too afraid.

At this time, the little princess couldn't help but said: "I wonder if the eldest prince and his group of followers have angered many demons in this demon mountain range, because in this trial of the demon mountain range, only the eldest prince and his group of followers angered the demons in the demon mountain range." The prince and his group have the power to provoke all the powerful demons and attack them collectively."

Ye Feng nodded and said: "Anyway, let's continue flying towards the depths of the Demonic Mountains to check the situation and adapt accordingly."

The little princess nodded and said aloud: "I have been in the Demonic Mountains for so long, but I haven't found any cultivation resources. I will definitely go into the deep areas of the Demonic Mountains next and look for more cultivation resources. As for the encounters The powerful demon is left to you, Ye Feng."

Chapter 5517 Bat King

At this time, Ye Feng and the little princess did not hesitate and flew quickly towards the depths of the mountain range.

Because they also want to find more cultivation resources.

After all, for the little princess, since entering this demonic mountain range, she has hardly obtained any precious training resources, so the little princess must go to the depths of the mountains to continue training and looking for resources.

As for Ye Feng, there is no problem, because Ye Feng's current cultivation strength has reached a very terrifying level, comparable to the guardian-level elders in the Dark Empire who participated in this Demon Mountain trial, so Ye Feng is quite confident in his own strength.

And just as the little princess said, even if something special happened in the depths of this demon mountain range and many demons were dispatched, Ye Feng was very interested in these demons.

Because the demon power contained in each demon body is very advanced and powerful, Ye Feng will definitely be able to continue to strengthen his own power after devouring it.

Ye Feng knew that in the dark world where the dark empire was located, he disguised himself as a dark race and continued to practice. His main purpose was to quickly improve his strength.

Otherwise, Ye Feng must have chosen to return to heaven.

But in the dark world, the cultivation resources may be more than what Ye Feng obtained in the heaven.

At this moment, Ye Feng was secretly thinking that he and the little princess had arrived at a deeper area outside this mountain.

Ye Feng immediately sensed that the auras of many powerful demons were surging throughout the dark jungle. If he was not careful, he might be discovered by a powerful demon.

At this moment, the little princess also sensed it.

After all, the little princess could not sense such a long distance in the outer area of the Demon Mountain Range before, but now that she has truly entered the depths of this mountain range, the little princess has sensed that many strong ones among the demons have been dispatched.

At this time, the little princess's face immediately became quite solemn, her beautiful eyes showed a trace of vigilance, she looked at the surrounding dark jungle, and said loudly: "Ye Feng, we must be more cautious next time." Be careful and cautious. I feel that it is probably the eldest prince or some other princes and princesses. I don't know what they are doing in this demonic mountain range. All the demons that I provoked came out in groups. Just now, I wanted to continue looking for cultivation resources in the depths of this demon mountain range, but now it seems that if there is a demon riot, we can leave here in advance. Participating in this trial is just to improve your strength. It would be a pity if you lose your life in it. "

Hearing what the little princess said, Ye Feng nodded, and then directly emitted his soul power, covering the surrounding area.

Soon, Ye Feng discovered that there were no living creatures in an ancient valley in the Demonic Mountains, but there were many medicinal materials with dark attributes growing there.

At this time, Ye Feng immediately flew towards the valley, and the little princess followed.

The two of them soon arrived at this valley.

When they saw the medicinal materials in the entire valley, their eyes suddenly lit up, and they quickly rushed into the valley and were about to pick them.

Boom!

But suddenly at this moment, the entire valley lit up with a huge dark formation, surrounding the two of them.

"What?"

At this time, the expression on the little princess's beautiful little face suddenly changed. She couldn't help but said: "We seem to have fallen into a trap. These medicinal materials are just bait."

At this time, Ye Feng also nodded slightly, but there was no panic on his face.

Because even if this dark formation is very powerful, Ye Feng can easily walk out.

At this moment, Ye Feng did not panic, but continued to pick medicinal materials on the ground as if nothing had happened.

Although these medicinal materials are bait, they are indeed high-grade elixirs.

Seeing this scene, the little princess couldn't help but smiled bitterly and shook her head.

She found that since Ye Feng came to the Demonic Mountains, no matter what he encountered, he was very indifferent. This made the little princess feel very emotional. It is good to be strong.

At this moment, from outside the dark formation around the valley, several humanoid creatures with wings on their backs suddenly flew out.

These humanoid creatures with black wings on their backs should be some very powerful demon race in this demonic mountain range.

At this moment, this group of more than a dozen monsters with black wings on their backs saw Ye Feng and the little princess in the valley, and immediately laughed and said: "Sure enough, someone has been tricked, hurry up and act." This formation will seriously injure these two people, and they will be brought back to the distinguished Lord Bat King for use."

This group of monsters with black wings on their backs are obviously not particularly powerful monsters. They are just subordinates of a powerful monster called the Bat King who specializes in capturing cultivators who come here to practice.

At this moment, the group of demons with black wings on their backs immediately launched their formations and attacked Ye Feng and the little princess.

But at this moment, Ye Feng finished picking all the medicinal materials, grabbed the palm of the little princess beside him, and took a step towards the sky.

Uh-huh!

The next moment, Ye Feng was not hurt by the formation at all, and rushed out of the formation directly.

"What??"

Seeing this scene, the dozen or so demons with black wings on their backs widened their eyes slightly, as if they did not expect that this seemingly ordinary boy actually had such a powerful method to be able to shuttle through the formation in an instant.

At this moment, a black-winged demon holding a silver steel fork in his hand could not help but say: "The cultivation aura on this boy does not seem to be that strong. It seems that he is very knowledgeable about the formation."

Another black-winged demon said: "Since the formation can't control this boy, then we will join forces and kill this boy directly with tough means, and plunder the woman next to him and present her to Lord Bat King."

At this moment, this group of black-winged demons instantly burst out their powerful demon power.

A dozen black-winged demons, all with greed and murderous eyes, instantly attacked Ye Feng and the little princess quickly.

Chapter 5518 Demon Overlord

Boom!

At this moment, these dozen black-winged demons all burst out with extremely powerful forces, and instantly rushed towards Ye Feng and the little princess, wanting to kill them instantly.

But at this time, Ye Feng directly released the sword of darkness.

Swish!

Swish!

Swish!

At this moment, nine black long swords immediately emerged from Ye Feng's body, and they quickly rotated around Ye Feng to form a sword formation, and immediately rushed forward.

These dark swords are all high-level weapons given to Ye Feng by the emperor of the Dark Empire, so they have a huge effect on Ye Feng's combat power.

At this moment, the nine black long swords instantly pierced the nine black-winged demons that attacked.

A dozen black-winged demons were killed by Ye Feng at this moment.

"What?"

Seeing this scene, the remaining black-winged demons suddenly showed deep astonishment in their eyes, as if they had not expected that this seemingly ordinary boy from the dark race actually possessed such a powerful strength.

At this moment, several remaining black-winged demons suddenly flew quickly around, obviously wanting to escape from the valley.

But at this moment, Ye Feng smiled coldly and said, "If you dare to sneak attack and ambush us here, then don't even think about leaving."

Boom!

At this moment, Ye Feng controlled nine black long swords and continued to stab around, piercing the bodies of all the remaining black-winged demons at once, killing them instantly.

Seeing this scene at this moment, the little princess standing next to her couldn't help but show a deep shock on her beautiful little face.

Because the little princess could feel that the dozen black-winged demons just now were not ordinary demons, but also very powerful ones among the powerful demons.

But unexpectedly, Ye Feng killed all the dozen demons in a short encounter.

Although it was with the help of the sword array power of the Dark Sword, it also represented that Ye Feng's strength had now reached an unfathomable level.

Even the little princess didn't know how powerful Ye Feng was now. Anyway, he was probably stronger than the old strong men who participated in the trial this time.

At this time, the little princess was shocked and excited, because such a powerful and peerless genius was her captain of the guards, which naturally made the little princess feel unprecedented sense of security.

"Buzz!"

At this time, Ye Feng did not hesitate at all, and directly released the swallowing field, covering the dozen black-winged demons that he had killed.

In addition, Ye Feng also swallowed the high-level spiritual medicine he had picked in this valley before.

Rumble!

At this moment, two very huge energies were immediately input into Ye Feng's Dantian.

One of the huge energies was the energy of a dozen black-winged demons.

The second energy was the energy of the high-level dark attribute spiritual medicine that Ye Feng swallowed and grew in this valley.

Two huge energies surged in Ye Feng's body, madly strengthening Ye Feng's skills.

Ye Feng is currently at the bottleneck of the tenth level of the Wanmai Realm, and it was also at this moment that he broke through and directly broke through to the half-step Tianfu Realm above the Wanmai Realm!

Tianfu Realm, this is a very powerful new level of cultivation, which allows practitioners to slowly condense a "Tianfu" in their Dantian, which can communicate the great power between the entire world.

Although Ye Feng only stepped into the half-step Tianfu Realm, only one foot touched the new and powerful level of Tianfu Realm, but it also made Ye Feng's skills and combat effectiveness soar at this moment.

Now Ye Feng's cultivation is in the half-step Tianfu Realm, which is definitely a thousand times stronger than Ye Feng's strength in the tenth level of the Wanmai Realm.

This made Ye Feng's eyes immediately show deep excitement.

Unexpectedly, with the continuous improvement of cultivation, the gap between each realm is getting bigger and bigger, which is simply a world of difference.

Ye Feng was naturally very excited at this time.

This time, he came to the right place to take the test in the Demon Mountain Range.

Whether it was the high-level spiritual medicines grown naturally here or the extremely powerful demons, the energy provided to Ye Feng was really rich to the extreme.

At this moment, Ye Feng did not hesitate at all. He immediately looked at the little princess beside him and said, "Let's go, let's continue searching around."

The little princess also nodded.

At this moment, the two were about to leave the valley.

"Hurry up and save me!"

But suddenly at this moment, a young man in black armor ran over from a distance.

This young man in black armor was shouting for help at this moment, his body was covered with blood, and he was obviously seriously injured.

When the little princess saw the young man in black armor, she immediately showed a look of astonishment in her eyes.

Ye Feng's eyes also flashed violently.

Because this young man in black armor was none other than the young marquis of the Champion Marquisate whom the two had met in the underground lair before.

At this moment, the young prince of the champion house no longer had the calmness and confidence he had before. Instead, he was seriously injured and ran in this direction.

The young prince of the champion prince's house also saw Ye Feng and the young princess in the valley for a moment. His face suddenly changed and he said loudly: "Run! There is a very powerful demon chasing me behind me!" My guardian and other companions have all been killed by that powerful demon. This demon is called the Bat King. He is the most powerful demon overlord around and is very terrifying. "

At this moment, the young prince of the Champion House was so frightened that he flew directly to the two of them, urging them to run for their lives.

But at this time, the little princess did not move, and Ye Feng looked with a hint of expectation in his eyes, looking in a certain direction not far away, and said loudly: "Bat King? The dozen or so people I just killed This black-winged demon seems to be the subordinate of this Bat King. I didn't expect that this Bat King is so powerful and is the demon overlord nearby, so I'm more looking forward to seeing if I can fight him."

Hearing what Ye Feng said at this moment, the young prince of the Champion House was stunned for a moment, and then said anxiously: "Ye Feng, I know that your real fighting power is better than your displayed cultivation. The realm is much stronger, but this Bat King is famous A veritable demon overlord, he is definitely among the top ten demon giants in the entire demon mountain

range! Even my protector died in the hands of the Bat King, giving me a chance to escape. Don't be impulsive, run away quickly!"

Chapter 5519: Getting Stronger

At this time, the young marquis of the Champion Marquis's Mansion was speaking with an extremely nervous and fearful tone.

Obviously, the Bat King was a very powerful demon overlord, and the young marquis of the Champion Marquis' Mansion was already scared out of his wits.

At this moment, after the young marquis of the Champion Marquis' Mansion finished speaking, Ye Feng still did not move, but looked at the little princess beside him, and said with a smile: "You take the young marquis of the Champion Marquis' Mansion to heal your wounds. This Bat King, I want to see his strength, is it really that powerful."

Hearing Ye Feng say this at this moment, the young marquis of the Champion Marquis' Mansion was dumbfounded.

He seemed to have never thought that Ye Feng not only did not run away, but really wanted to fight with the terrifying Bat King demon overlord.

At this time, the young marquis of the Champion Marquis' Mansion still did not believe that Ye Feng had such a powerful strength. After all, even his protector, a very powerful old man, died at the hands of the Bat King, and was quickly killed by the Bat King, indicating that the Bat King was an extremely terrifying demon existence.

At this moment, the little princess smiled and said, "Anyway, let's take a look first. I believe in Ye Feng."

At this time, the little princess took the young marquis of the Champion Marquis' Mansion to a place not far away, trying not to disturb Ye Feng's battle.

At this moment, Ye Feng suddenly looked in a certain direction, and indeed felt a terrifying demonic aura that was covering the sky and approaching rapidly from that direction.

A large piece of black clouds appeared in the entire sky, pressing towards this side, as if the entire world was about to oppress Ye Feng.

At this time, even the little princess and the young marquis of the Champion Marquis' Mansion in the distance felt as if their whole bodies were about to break apart.

Boom!

But at this moment, a powerful aura of cultivation suddenly burst out from Ye Feng's body, directly resisting the pressure between the entire world.

The little princess and the young marquis of the Champion Marquis' Mansion immediately felt that the pressure on their bodies suddenly became much lighter.

At this moment, Ye Feng looked at the black clouds not far away, smiled and said: "Bat King, right? Stop pretending, just show your true form."

After Ye Feng's voice fell, the dark clouds between the sky and the earth suddenly shrank rapidly, and finally condensed into a huge bat with a length of tens of thousands of meters, covering the sky and the sun, giving people a very terrifying visual impact.

The next moment, this huge black bat with a length of tens of thousands of meters suddenly opened its bloody mouth, as if it was going to swallow the whole world.

It must be said that this Bat King is indeed a very terrifying demon. The original body it has now turned into is extremely powerful, as if it is going to swallow the whole world with one mouth.

At this moment, Ye Feng did not hesitate at all, and immediately released the Sword of Darkness.

Swish! Swish! Swish!

Nine swords of darkness immediately stabbed madly towards the sky and attacked the Bat King.

But the next moment, the Dark Sword was swallowed by the Bat King, and Ye Feng was disconnected instantly.

At this time, the majestic Bat King suddenly made a voice that resounded through the sky: "Boy, my strength is not something that a young man like you can fight against. These so-called advanced weapons of yours are just like children's toys in front of me, and there is no threat at all."

At this moment, Ye Feng did not have any tension or fear, his face was still very calm, and he said lightly: "Just now it was just a means I used casually."

Swish!

At this moment, Ye Feng instantly rushed to the sky and burst out his powerful cultivation power with all his strength.

At this moment, Ye Feng did not hesitate at all, and directly used the Dark Emperor Gong, the inheritance of the powerful dark race that he had learned before.

Buzz!

At this moment, a majestic and boundless Dark Emperor suddenly condensed in the void behind Ye Feng.

This is the will shadow of the first generation of Dark Emperor of the Dark Empire.

Moreover, with Ye Feng's continuous practice, now that Ye Feng has once again condensed the shadow of the first generation of Dark Emperor, it is almost as real as substance.

At this moment, the Dark Emperor behind Ye Feng has terrifying and boundless power, and instantly attacks the Bat King in front of him with terrifying power.

Even though this Bat King is extremely powerful and is a dominant existence among the demons, facing the attack of the Dark Emperor Gong displayed by Ye Feng at this time, he also felt a huge pressure.

The Bat King did not continue to move forward, but quickly retreated, and spread his two wings that covered the sky and collided with the shadow of Ye Feng's Dark Emperor.

Rumble!

At this moment, with the collision of the two, a huge roar suddenly sounded on the whole field.

At the moment when this huge roar sounded, in the horrified eyes of the little princess and the young marquis of the Champion Marquis's Mansion, the Bat King was actually attacked by Ye Feng and fell directly from the sky.

Seeing this scene at this moment, Ye Feng's eyes suddenly showed excitement.

The Dark Emperor Gong, the first generation of the peerless inheritance of the Dark Empire that he practiced, was indeed extremely terrifying. With his continuous comprehension, its power became stronger and stronger.

At this time, the young marquis of the Champion Marquis' Mansion not far away saw Ye Feng merged with the Dark Emperor, and immediately couldn't help but excitedly said: "Little Princess, is this the legendary strongest inheritance of our Dark Empire back then, the Dark Emperor Gong? I didn't expect Ye Feng to succeed in practicing it."

At this moment, the little princess couldn't help but nodded and said: "I have only comprehended a little bit of the power of the Dark Emperor Gong until today, but I didn't expect Ye Feng to have mastered the entire Dark Emperor Gong proficiently and exerted such a terrifying power. No wonder the emperor of our Dark Empire now attaches so much importance to Ye Feng."

At this moment, the little princess also understood what Ye Feng said at the beginning.

That is, although Ye Feng is not of royal blood, he will definitely be able to participate in this trial of the Demon Mountain Range, because the emperor of the Dark Empire attaches great importance to Ye Feng and will definitely try his best to meet Ye Feng's requirements.

At this moment, the Bat King was knocked down from the sky by Ye Feng using the Dark Emperor Technique. He did not die, but only suffered some injuries.

However, at this time, the Bat King was no longer arrogant, but said in a very horrified voice: "What? How is this possible? Your cultivation is so much lower than mine, how can you have such a strong strength? This is absolutely impossible!!"

Chapter 5520 Let's leave here first

At this time, the Bat King was extremely horrified.

Because he originally thought that Ye Feng was just a young boy that he could kill at will, but he did not expect that the methods and inheritance that Ye Feng used were so powerful, giving Ye Feng extremely terrifying combat power.

At this time, Ye Feng just smiled coldly and said: "If you only use the realm of cultivation to judge a person's combat ability, then I can only say that your vision is too narrow."

boom!

Almost at the moment Ye Feng's words fell, Ye Feng continued to explode the Dark Emperor Kung Fu, and directly merged with the Dharma of the first-generation Dark Emperor condensed behind him, turning into a real dark giant, directly and quickly. He rushed in front of the Bat King, and punched out hard one after another. Each punch was like an ancient dark mountain, bombarding out, with extremely terrifying destructive power, and it was continuous in an instant. It bombarded the Bat King.

No matter how powerful the Bat King was, he still couldn't stop Ye Feng's ferocious and terrifying attack. In the end, his entire body was shattered and the Bat King completely fell.

"hiss!"

Seeing this scene at this moment, the young prince of the Champion House who was not far away observing the entire battle process suddenly widened his eyes with a dull look in his eyes.

Because he never thought that a demon overlord as powerful as the Bat King would be vulnerable to Ye Feng. He was quickly killed by Ye Feng and was directly blasted to pieces.

This kind of strength is really terrifying to the extreme.

At this moment, the little princess's eyes were filled with deep excitement, and she said aloud: "I didn't expect that after I have perfected the Dark Emperor Technique, I can have such a strong power. It seems that I have to concentrate on it this time. He is practicing the Dark Emperor Kung Fu."

At this moment, Ye Feng did not hesitate at all, and directly released the Devouring Domain, swallowing up all the blood and energy of the killed Bat King.

"Boom!"

At this moment, a very huge amount of energy was immediately injected into Ye Feng's body.

This Bat King is the demon overlord, ranking among the top ten most powerful demons in the entire Demon Mountain Range, so the energy he provides to Ye Feng is simply terrifying and powerful to the extreme.

boom!

Almost at this moment, Ye Feng was at the bottleneck of the half-step Tianfu realm and suddenly broke through.

With the help of Bat King's huge blood energy, Ye Feng directly absorbed enough power to allow his cultivation level to directly break through to the first level of Tianfu Realm.

Buzz!

When Ye Feng stepped into the real first level of Tianfu Realm, he could immediately feel that his skill reserve, including combat power, had been improved and increased to an unprecedented extent. Ye Feng's power became more and more powerful. A thousand times more powerful than before.

At this time, Ye Feng's eyes were full of excitement.

This Demonic Mountain Range is really a good place.

At this moment, Ye Feng flew to the young marquis and the young princess of the champion house not far away.

Ye Feng looked at the young prince in the champion house and asked: "Will the young prince leave the Demon Mountains directly next?"

The young prince of the Champion Hou Mansion felt a sense of awe when facing Ye Feng at this moment.

The young prince of the Champion House immediately couldn't help but nodded and said loudly: "My guardians, including other companions, have all been killed by the powerful demons in this demon mountain range. Now I am alone. There is no big meaning for people to stay here, and now the entire deep area of the Demon Mountains is full of demon riots. Many powerful demons have awakened from their slumber in the Demon Mountains. I don't know what happened. "

Hearing what the young prince of the champion house said, the young princess immediately nodded and said: "Ye Feng sensed it before and also expected that many powerful demons in the entire demon mountain range suddenly came from He came out of his lair. I don't know why, but someone probably angered all the powerful demons in the entire demon mountain range, so many powerful demons came out one after another. "

Hearing what the little princess said, the little prince from the Champion House nodded and couldn't help but said: "You guys take care of yourself, I'm leaving first, be careful, the entire Demonic Mountains is in chaos right now."

Uh-huh!

At this moment, after the young prince from the Champion House finished speaking, he flew quickly towards the outside of the Demonic Mountains.

Obviously, the young prince of the champion house suffered heavy losses this time and no longer dared to continue training in this demonic mountain range.

Now he just wants to return to the territory of the Dark Empire as soon as possible.

At this moment, looking at the departing figure of the young prince from the Champion House, the young princess looked at Ye Feng in front of her and said, "Let's move on."

Ye Feng nodded, and he and the little princess continued to fly quickly towards the depths of the Demonic Mountains.

And just when they were passing through a mountain forest.

boom!

Suddenly the whole earth shook rapidly.

A huge golden claw was snatched out from the entire earth in an instant, and was directly bombarded in front of Ye Feng and the little princess. Even Ye Feng did not react for a moment, and was stunned by this golden claw. After being hit, the two of them immediately flew backwards.

However, Ye Feng's Immortal Body of God made Ye Feng's physique very powerful. He could withstand the attack of this giant golden claw without any injuries.
