Chapter 921 Starry Sky Powerful Man

After the one-month core assessment time was up, huge space whirlpools suddenly appeared in the high altitudes of various areas of the Beast Planet.

That is the space portal and passage leading to the spiritual world. Disciples with the identity token of the inner gate of the Sword God's Heavenly Palace can jump directly into the space vortex and disappear in the Beast Planet in an instant. The spiritual land.

Roar!

And some evil beasts that have activated their intelligence suddenly stepped onto the earth, their huge bodies rushing high into the sky, and they also wanted to rush into the space vortex and escape from the huge prison of the Planet of Beasts.

But as a result, when those evil beasts reached the edge of the space vortex, a big hand suddenly appeared from the other side of the space vortex, stretched out, and directly blasted all the evil beasts back to the planet of beasts with a "boom" , not one of them can get through at all.

Obviously, this time the core assessment trial of the Sword God Tiangong is to have powerful men from the sect hidden in the surrounding space passages to prevent unexpected situations from happening at any time.

...

After Ye Feng rushed into the space vortex, he felt his vision change.

The next moment, a dark mountain range appeared in his sight.

Xiao Bing, the elder in purple who led the team before, is waiting at the exit.

Apparently he had been waiting here for a month.

Seeing Ye Feng coming out first at this time, the purple-clothed elder Xiao Bing nodded slightly and said: "Not bad."

After saying two words, Xiao Bing continued to look at the spatial vortex at the entrance.

Ye Feng stood not far away, waiting for other disciples to come out.

For three hours, the inner disciples came out one after another.

Many people have expressions that suggest they will survive a disaster.

Obviously, during the month they spent on the Planet of Beasts, they probably spent every day in a life-and-death crisis.

Ye Feng observed it and found that only nearly half of the inner disciples returned in the end.

Obviously those who did not return in the end may have died or been permanently trapped on the Planet of Ten Thousand Beasts.

Xiao Bing, the elder in purple, had no emotion in his eyes and said: "The time has come and the door to space is closed."

Uh-huh!

With a wave of his hand, the turbulent space vortex gate immediately disappeared in the void.

Regardless of whether the other half of the inner sect disciples died or were trapped on the planet of beasts before they had time to come out, they would never be able to return to the spiritual world.

At this time, the remaining inner disciples were all staring at the purple-clothed elder Xiao Bing with a hint of expectation in their eyes.

Because next, it is time to announce the results of the core assessment trial.

There are huge rewards for the top three, and even if you don't get the top three, you can become a core disciple of the Sword God Tiangong as long as you complete the previous core assessment standards and hunt down the core of 10,000 Longevity Realm evil beasts.

The core disciples of the Sword God Tiangong are extremely noble.

The core means that from now on they will be the core personnel of Sword God Tiangong, the largest martial arts sect in Snow State, and they will be the mainstay of the sect.

The core disciples can enjoy all kinds of excellent treatment in the sect, and can also establish a territory of their own on the land of Snow State around the Sword God Tiangong, where they can recruit ordinary people and provide services for themselves. It is possible to build palaces and develop your own disciples.

At this time, Chu Zixuan came from a certain direction, walked to Ye Feng's side, and said with a smile: "Junior Brother Ye, I feel that this time the core test

What about nuclear tests? "

Ye Feng smiled and said: "I'm okay. Seeing how happy Senior Sister is, it seems that she got a lot of benefits from the core trial."

Chu Zixuan nodded slightly and whispered in Ye Feng's ear: "I did hit a big opportunity this time. When I teleported to the beast planet, I fell directly into the dark underground under a cliff. That darkness There is a withered skeleton in the ground. There is a storage spirit ring on the finger of the withered skeleton. It turns out to be the inheritance of an ancient powerful person on a certain planet in the starry sky. That ancient powerful person comes from who knows where in the starry sky. Anyway, For some unknown reason, he landed on the Planet of Ten Thousand Beasts. He seemed to have encountered some terrible enemy, suffered heavy losses, and died as a result. "

Ye Feng stared at the beautiful senior sister in front of him in surprise, and couldn't help but said: "Which senior sister Zixuan has been practicing the peerless power inheritance of which starry sky powerhouse in that dark canyon this month?"

Chu Zixuan nodded and said somewhat happily: "I have now broken through to the Dzogchen Longevity Realm, and I am at the same level as you, Junior Brother Ye."

Hearing this, Ye Feng suddenly smiled and said, "Senior sister, I have made a breakthrough now."

Buzz!

Almost at the moment when he finished speaking, Ye Feng released a hint of his own cultivation aura, which was clearly a glimpse into the Dao realm.

"What?!"

Chu Zixuan's beautiful eyes suddenly widened, and the slightly proud smile on her face solidified.

She thought she was evil enough, but she didn't expect Ye Feng's breakthrough to be even more evil.

Chu Zixuan knew that a breakthrough and transformation in a large realm was countless times more difficult than a breakthrough in a small realm.

For example, she has now broken through to the Dzogchen Wanshou realm, which seems to be only one level away from the elementary Peeping Dao realm, but if she wants to break through

This level, that is, qualitative transformation, is a completely different concept from the breakthrough from the Dacheng Longevity Realm to the Dzogchen Longevity Realm.

That's why Chu Zixuan was so amazed at Ye Feng's achievements.

Ye Feng looked at the horrified look of Chu Zixuan in front of him and couldn't help but smile and said: "I also gained a little bit on the Beast Planet and broke through to the intermediate Peeping Realm."

"Or is it the middle-level Peeping Realm?" Chu Zixuan was shocked again, almost to the point of numbness.

"correct."

Ye Feng suddenly said: "The core assessment standard this time is the core of hunting 10,000 Longevity Realm evil beasts. Did you get it? If you don't get it, you won't be able to certify the core disciples later."

"Huh? Yes! I forgot!"

Chu Zixuan suddenly exclaimed, and couldn't help but change her expression: "After I entered the planet of beasts, I have been obsessed with practicing the inheritance of the starry sky powerhouse in the dark underground. I forgot to go out to hunt monsters." You are a beast, there are no years of cultivation, there are no armors in the mountains, you are so right!"

Ye Feng smiled slightly, took out 10,000 cores from the storage spirit ring in his hand and gave it to Chu Zixuan, saying: "I will give you this standard, as long as Senior Sister Zixuan can give me the inheritance of the mysterious starry sky powerhouse to observe and learn. Just watch."

Chu Zixuan saw Ye Feng directly giving 10,000 Wanshou Realm evil beast cores, and immediately said: "Junior Brother Ye and I have an extraordinary relationship for a long time, so Junior Brother Ye wants to inherit the starry sky powerhouse." If you want to observe and practice, you can practice with me at any time. Junior Brother Ye gave me these ten thousand longevity cores, what will you do?"

Ye Feng smiled and said, "I have hunted and killed hundreds of thousands of evil beasts."

"Hundreds of thousands?"

Chu Zixuan's eyes suddenly widened. At this time, she finally understood why Ye Feng broke through so quickly.

Chapter 922 Breaking the Record

"Now you will take out all the cores of the evil beasts you have hunted from your body, and I will help you check them one by one to see if you are qualified to become a core disciple."

At this time, Xiao Bing, the elder in purple who was leading the team, looked around and said aloud.

"Yes, elder."

The inner disciples who came back from the Planet of Ten Thousand Beasts were all eager to take out all the evil beast cores they had obtained.

Obviously, the disciples who can survive for a month have basically completed the assessment standard tasks for core disciples.

But what everyone is competing for now is the top three in this core assessment.

As the inner disciples took out the evil beast cores they had obtained, Xiao Bing, the leader, counted them one by one and began to rank them.

There were several people at the level of the top ten disciples of the inner sect, with a look of aloofness on their faces, and they took out nearly 100,000 evil beast cores.

This made all the other disciples present couldn't help but have horrified looks in their eyes.

"As expected of the top ten disciples of the inner sect, they all hunted and killed nearly 100,000 evil beasts."

"We, the people, have worked so hard for so many days in the past month to hunt more than 10,000 evil beasts. It is really incomparable."

At this moment, many disciples couldn't help but exclaimed in surprise.

Obviously, for them, the hundred thousand evil beast cores of the top ten disciples of the inner sect is a terrifying achievement that they are far from achieving.

Wow!

Wow!

But suddenly at this moment, a violent sound suddenly sounded not far away.

It was like the sound of countless gravel rolling.

At this time, everyone immediately looked in that direction, and happened to see a young man in black. With the flash of the storage ring in his hand, there were piles of evil beast cores, large and small, all exuding a rich smell. The light poured out from the storage ring, as if it was free of charge.

"Holy crap, there's a mountain of evil beast cores in front of him."

"Yes, who is this person? He looks so young. He must not be a top ten disciple."

"I didn't expect that in this year's core trial assessment, such an evil young genius would emerge.

."

"Definitely a dark horse, the biggest dark horse!"

Everyone couldn't help but exclaimed in surprise.

Because they saw that when the evil beast cores piled up in front of the young man in black, the evil beast cores were still being released one after another from the storage ring on the young man in black.

Moreover, the quality of these evil beast cores is not only the cores of Wanshou realm evil beasts, but also many Peeping Dao realm evil beast cores.

This discovery shocked everyone around him even more.

The young man in black was none other than Ye Feng.

At this moment, even Chu Zixuan couldn't help but look shocked.

Although Ye Feng had told her in advance just now that it had hundreds of thousands of cores.

But when she saw so many evil beast cores with her own eyes, Chu Zixuan was still shocked.

Ye Feng had no intention of hiding his clumsiness at this time.

Because this time, according to Chu Zixuan, the first place in the core trial assessment will have a huge reward.

And the more cores there are, the higher the reward.

Therefore, Ye Feng simply stopped hiding anything and directly took out all the cores he got, including hundreds of thousands.

Moreover, it also contains many cores of evil beasts in the Dao Peeping Realm.

You know, the value of one core of a Dao Realm evil beast is comparable to a thousand Longevity Realm evil beast cores.

Therefore, Ye Feng's total points, if calculated, are far more than hundreds of thousands.

"One million and three hundred thousand!"

Finally, leader Xiao Bing gave the final result number.

One million and three hundred thousand!

This astronomical figure shocked everyone present.

Even the top ten disciples' eyes were filled with deep horror.

They are all powerful in the Peeping Realm, but on the Planet of Ten Thousand Beasts,

There is no way I can hunt so many evil beast cores.

"Record broken!"

Even Xiao Bing, the leader, couldn't help but speak out, his tone full of sighs.

Ye Feng smiled inwardly at this time. ??

He knew very well that he was on the Planet of Ten Thousand Beasts, and because he had the Divine Art of Creation and the Oven of Creation, he could continuously devour the power of evil beasts and use battle to support battle.

But others can't, because they practice human skills and can't integrate with the blood and energy of the evil beasts.

But this does not exist for Ye Feng.

At this time, Ye Feng also felt more and more that the Divine Secret of Creation was terrifying, as it allowed Ye Feng to break through the restrictions of race and power of different attributes, and achieve a true fusion of the heavens.

"From the previous words of the Great Lord Red Demon of the Ten Thousand Beasts Planet, this Divine Secret of Creation seems to have been brought by my mother from some mysterious place. However, even in the sky, even in the center of the heavens and worlds, In the ancient continent of the mythical dimension, it is probably impossible for such a magical and terrifying technique to exist..."

Ye Feng murmured in his heart, thinking secretly.

At this time, the leader Xiao Bing walked up to Ye Feng and said with a smile: "Ye Feng, congratulations on becoming the first place in this core trial assessment. The specific reward will be announced when you return to the Sword God Tiangong. , I will help you apply."

Ye Feng clasped his fists slightly and said with a smile, "Thank you so much, Elder Xiao."

Xiao Bing also smiled and said: "You don't have to be so polite. With Ye Feng's talent, I'm afraid you will be equal to me in less than a few years. From now on, we will not be seniors and juniors, but senior brothers."

At this moment, I saw Xiao Bing's attitude towards Ye Feng changing so quickly.

Many people around were secretly surprised.

It seems that Ye Feng is indeed the biggest dark horse this time, and he has a bright future.

Didn't you see that even Xiao Bing, who had always been indifferent, was smiling at Ye Feng at this moment?

This shows that Ye Feng's future achievements may burst into glory in the Sword God's Heavenly Palace.

"The trial is over, we are leaving

Open here. "

Xiao Bing looked at everyone and said: "When you return to the sect, you will all become core disciples and enjoy the richest treatment given to you by the upper class of the sect, but this means a kind of responsibility. As a sect, you will The core disciples are the core existence of Sword God Tiangong. If there is any crisis in the sect in the future, you must step forward. "

Many disciples shouted: "Elder, we have all remembered it in our hearts!"

"Let's go back to the clan!"

Xiao Bing nodded, very satisfied with everyone's performance.

He waved his palms.

Boom!

From the rolling mountains not far away, a huge three-clawed cyan dragon flew over immediately, which was Xiao Bing's mount.

When they came here before, it was this cyan dragon that brought them here to the teleportation array.

"boom!"

But at this time, a sudden change occurred.

A huge black devil's hand stretched out from the depths of the mountain range, directly pinched the three-clawed cyan dragon, and then crushed it to pieces.

Wow!

Dragon blood spilled onto the earth.

"howl!"

The green dragon screamed sadly and died instantly.

"Brother Long!"

When the leader, Xiao Bing, saw this scene, he roared in shock and anger.

Buzz!

At this time, a large amount of demonic energy spread out from the depths of the mountains, and a huge demon condensed in the sky. Standing among the continuous mountains, it looked very visually shocking.

This demon's eyes were blood red as he stared at a group of ants-like people from the Sword God Tiangong. His tone carried a terrifying murderous intention: "I sensed it. My daughter was killed by one of you. Today all of you Don't even think about leaving, everyone must die to pay homage to my dead daughter!"

Ye Feng was standing in the crowd at this time, and suddenly his eyes moved. Could this big devil's daughter be the devil's daughter who escaped from the transparent crystal before?

Chapter 923 Ziyunchuan

Buzz!

The majestic big devil stood among the mountains, like a black ancient mountain in the sky, bringing an unparalleled sense of oppression to everyone in the audience.

At this moment, all the disciples in the Sword God Heavenly Palace present had fear and horror in their eyes.

Obviously no one would have thought that at this time, such a powerful demon would appear in the mountains. ??

"How dare you kill my Brother Long, take your life!"

At this time, the leader, Xiao Bing, had eyes full of shock and anger.

Obviously, he never expected that such a change would occur on the field.

And although the three-clawed cyan dragon is Xiao Bing's mount, it can be seen that they have a strong relationship with each other.

So at this time, watching the cyan dragon die in front of his eyes, Xiao Bing's whole body suddenly burst out with a huge aura.

That is a powerful force that belongs to the nine super realms and the third secret realm of law.

"Draw your sword to kill the sky!"

A green sword appeared in Xiao Bing's hand, and he pulled it out fiercely. In an instant, an earth-shattering green sword light penetrated the sky, tore the sky apart, and made the entire space about to shatter.

Boom! !

Xiao Bing made an angry strike, which contained extremely terrifying destructive power. The green sword light struck the big demon's huge body at once.

when! !

But the next moment, all the disciples in the audience were shocked. Xiao Bing's powerful sword did not do any harm to the big demon. Instead, Xiao Bing's palm shook and the sword in his hand almost came out. .

"What?"

"So powerful!"

At this moment, everyone was so horrified that their mouths opened wide.

Even Xiao Bing himself couldn't help being shocked. He didn't expect that the big demon that suddenly emerged from the mountains was so ancient and terrifying.

Ye Feng's eyes were slightly startled at this time, and he stood in the crowd without any movement.

"An ant-like thing dares to attack me. When I was traversing this dark mountain range, your eighteen generations of ancestors may not have been born."

The big demon made a terrifying sound, his tone full of eternal murderous intent and vicissitudes of life.

At this time, Xiao Bing immediately shouted to the hundreds of disciples of the Sword God Tiangong behind him: "You guys run! I'll stop this big demon!"

boom!

At this moment, Xiao Bing exploded with all the power in his body. He seemed to have turned into a god of war. The sword in his hand was trembling violently, like a dragon roaring.

"A swarm of ants!"

The big demon standing in the mountains suddenly took action.

He grabbed one hand in this direction, and the entire sky suddenly became dark.

, a big black hand that could cover several kilometers, seemed to be made of the hardest black steel in the world, carrying endless heaviness and pressure, and crashed down all of a sudden.

"boom!"

"Crack!"

Countless green mountains and the earth were shattered by the blast, and the sword in Xiao Bing's hand that bloomed with endless light was also cracked inch by inch.

At this moment, Ye Feng immediately saw that a strong man like Xiao Bing spurted out a mouthful of blood at this moment, and his whole body was directly blown away. He was very miserable and completely defeated.

"What? Elder Xiao Bing was suppressed with one move!"

"Oops! This big demon is too powerful, we can't resist it at all."

"There is no way to escape now. Are we all going to become the dead souls of this big demon?"

At this moment, the happy expressions on the faces of the inner sect disciples who originally wanted to return to the sect and enjoy the treatment of core disciples suddenly disappeared, and were replaced by looks of horror.

Apparently, meeting such a big demon that came out of the mountains made everyone feel like they had been unlucky for eight lifetimes.

"Devil! You dare to kill the people of my Sword God Tiangong!"

But suddenly at this moment, a powerful purple energy suddenly burst out from a certain direction in the sky.

Everyone immediately saw a tall and straight young man in white standing in the majestic purple aura.

He wore a golden felt hat on his head and held a pure purple sword in his hand. His body was shrouded in purple energy, giving people a mysterious and powerful feeling.

"Who is this outfit? Great Elder Ziyunchuan!"

"That is the most powerful elder in our inner sect! It is said to be a very advanced level existence among the nine secret realms."

"We are saved!"

Many inner disciples, who were originally extremely frightened, suddenly burst into cheers at this moment.

Ye Feng stood in the crowd, his eyes showing a hint of shock.

From the young man in white and purple, he could feel a terrifying aura as majestic as the ocean.

It feels like a majestic ancient giant stepping forward, possessing unparalleled combat pressure.

It was as if the whole world had begun to change suddenly due to his arrival, and was waiting for the arrival of an emperor.

This inner sect's first elder named Ziyunchuan is definitely an extremely powerful warrior. He can bathe in the purple energy of the world at any time, which is really shocking to people.

The big devil's originally arrogant expression suddenly became a little confused and he said

: "You are so powerful. You are the emperor of the human race? Why do you take action for a group of ants?"

Ziyunchuan's eyes were like daggers, staring at the big demon, and he immediately laughed angrily and said: "So a demon like you doesn't know the feelings of the same race at all, nor the power of unity of our human race. Today Since you have appeared and dared to attack my Sword God Tiangong disciples, you are my enemy and must die."

As Ziyunchuan spoke, he rushed towards the big demon. The long sword in his hand burst out with divine light, possessing an unparalleled edge that dazzled the world.

"Evil Eyes!"

The big demon roared loudly, and a gap suddenly opened between his eyebrows. Infinite crimson light burst out from inside, like red thunder and lightning, piercing the void in an instant, as if it could destroy everything. , smashing and destroying everything in the world! .??.

"Boom!!"

The terrifying roar resounded throughout the sky in an instant.

The dazzling chaotic divine light after the collision suddenly enveloped the entire sky, making everyone so bright that they could not open their eyes.

"ah!!"

And almost at the next moment, an extremely violent howl suddenly sounded.

When the smoke and dust dissipated, a shocking scene suddenly appeared in everyone's field of vision.

That big demon, whose body was as towering as a mountain, had nearly half of its body cut off from its neck to its waist.

Black demonic blood spilled down the entire mountain range, and this big demon was howling miserably at this time.

At this time, Ziyunchuan, the first elder of the inner sect of the Sword God Tiangong, was stepping in the air, holding a long sword in his hand, swallowing the sword light, and he was not harmed at all.

"So strong!"

Everyone was shocked.

Even Ye Feng couldn't help but exclaim at this moment: "Not only is this person's cultivation powerful, but his artistic conception of the sword has probably surpassed the peak of the Sword Emperor and entered the legendary level of the Great Sword!"

Ziyunchuan stared at the big demon with cold eyes at this time, and said indifferently: "What? Why don't you talk now?"

The big demon had half of his body cut off with a sword, and he deeply understood the terror of the strong human race in front of him.

At this time, the great devil finally understood why no other race dared to invade the nineteen states of the human race. It was because there were too many strong ancient human races living in it. Even the demon gods in the demon world and the demon gods in the demon world, They all dare not act recklessly on the land of the nineteen states of the human race.

At this moment, this big demon was trembling all over, and suddenly turned around and ran towards the depths of the dark mountain range.

"I have said it before, today you, a big demon, dare to attack the people of our Sword God Tiangong, then there is only one fate for you, and that is death."

purple

Yun Chuan, the first elder of the inner sect of the Sword God Tiangong and the most powerful person in the inner sect, spoke with a sharp tone and was full of unrivaled domineering.

"Although you are a strong person among the human race, I am also a noble among the demon clan. If you kill me here, then all the demon clans in this dark mountain range will move in force, not to mention you, the one behind you. The high-ranking people in the middle sect don't dare to kill the noble one among the demons easily..."

Poof!

But before the big devil could finish speaking, an extremely powerful sword light had already fallen from the sky, like the divine light from the sky, directly piercing it from the top of the head to the soles of the feet.

"Boom!!"

The majestic big demon was pierced through the body in an instant and died instantly. The huge body collapsed and smashed a large mountain.

At this time, there was deathly silence in the entire dark mountain range.

There are simply no strong men from the demon clan moving in full force.

Ziyunchuan was so powerful, the majestic fighting spirit swept through the sky, and the terrifying sword light seemed to be able to cut off everything in the world.

Various other races in the Dark Mountain Range are trembling at this moment, and they dare not move or make a sound at all, let alone avenge this big demon.

"You don't know whether to live or die, and you still dare to threaten me."

Ziyunchuan looked at the dead big demon in the distance, just snorted coldly, and then withdrew his sword.

"Thank you, Great Elder!"

At this time, the previous leader, Xiao Bing, climbed up from the ruins and immediately came to Ziyunchuan, cupping his fists and thanking him.

The cold look on Ziyunchuan's face dissipated, and he immediately smiled boldly, patted Xiao Bing's shoulder, and said: "Junior brother Xiao, didn't I tell you earlier? When you are not in the sect area, outside here, there is no need to call me that, just call me senior brother. After all, we were brothers who joined the sect together and practiced together. This time, fortunately, I was practicing in the area and sensed the situation and energy fluctuations here. Come here immediately, otherwise you will be in danger."

Many inner disciples around him couldn't help but feel a little scared after hearing Ziyunchuan's words.

It turns out that the first elder of the inner sect is not guarding them, but just passing by. Otherwise, today's result may be different. All of them, including Xiao Bing, may be affected by this. The great evil hidden in the dark mountains was wiped out.

"Sure enough, there are countless powerful demons living outside the nineteen states of the human race, and they are lawless."

Everyone couldn't help but sigh.

"But now that the apparent commander-in-chief of our human race, His Majesty the Tongtian Divine Emperor, has obtained the most powerful artifact in the world, the Gate of Immortality, can he lead our human race in the spiritual world to a new glory?"

A disciple from the Sword God's Heavenly Palace murmured, his tone full of longing.

Chapter 924 Ancient Ruins of Tiannan

Ziyunchuan descended from high altitude at this time, and many disciples looked at him with eyes full of respect.

After all, this person is the first elder in the inner sect of the Sword God Tiangong, and is respected as the "Great Elder" by countless disciples.

Moreover, he is also the strongest person in the inner sect of the Sword God Tiangong, a profound existence in the nine secret realms, and his cultivation is unfathomable.

Even the strong men in many core areas of the Sword God Tiangong are in awe of him.

At this moment, Ziyunchuan looked at everyone and said: "Why should we cultivate to be strong? In addition to pursuing absolute freedom and lofty power, there is also the most important point, which is to protect the common earth of our entire human race. This is The original intention of our human race's martial arts practice."

Many disciples looked excited when they heard what Ziyunchuan said.

As expected, this great elder was as broad-minded as the rumors said. He was never petty, but always stood on the vision of racial justice.

Xiao Bing looked at the many disciples at this time and said: "Let's work together to carry the ancient demon body of the great demon back to the sect. Those alchemists in the sect who like to study the demon race must be in great need of such a precious and precious body." Strange material."

All the disciples responded and ran towards the distance, preparing to lift up the huge body of the big demon and take it away.

Ye Feng also went to help. Although he was greedy for the huge ancient blood energy contained in the body of this big demon, he did not dare to devour it directly under the noses of two great masters, Xiao Bing and Ziyunchuan.

In the end, Ziyunchuan threw a golden gourd. The golden gourd was a magic weapon that surpassed the imperial weapon. It was a low-grade magic weapon, but it was extremely precious. It contained the power of law and intertwined the power of the great road.

Buzz!

The golden gourd, a low-grade magic weapon, instantly expanded in the sky and became a huge gourd that could accommodate thousands of people, like a golden mountain floating in the sky.

"drink!"

Everyone worked together to lift the big demon's body, which was as heavy as a mountain, and stood on top of the huge golden gourd.

Uh-huh!

At this time, Ziyunchuan jumped to the front of the golden gourd and shouted: "Get up!"

boom!

The golden gourd instantly burst out with powerful power, piercing the sky and speeding towards the direction of the Sword God Tiangong.

The golden gourd is indeed a magical treasure that surpasses the imperial weapons. It is extremely fast, just like a sharp arrow, tearing through the space in an instant.

The golden gourd has passed through thousands of mountains and rivers, and spanned countless mountains and mountains.

On the third day, he arrived at the sect entrance of the Sword God Heavenly Palace again.

Everyone landed at the entrance of the sect, carried the mountain-like body of the big demon, and walked into the sect, attracting the attention of countless people at once.

"Look! The brothers and sisters who returned from the core trial this time actually brought back a dead demon!"

"That's the Great Elder of Ziyunchuan! This big shot of the dragon has appeared. It seems that the Great Elder killed this big demon."

"It seems that something unexpected happened during this core trial. Even the big demon in the mountains appeared."

All the disciples in the sect stared at the people carrying the big demon with excitement and curiosity in their eyes.

Ye Feng and a group of senior brothers and sisters who became core disciples sent the big devil to the back of the Pill Hall.

They immediately saw gray-haired old men wearing various ancient elixir robes. They immediately ran out and pinched the big devil's body.

, touching there, some old men even turned red with excitement.

Obviously, these old men are all alchemy masters in the Sword God's Heavenly Palace, and some old men are academic scholars who specialize in studying other races. They are extremely curious about this rare big demon body.

"One life creation pill for each of you, this is your reward."

A few old men casually swayed out the Life and Fortune Pills one after another and handed them to the many core disciples who were carrying the big devil.

"Wow! I didn't expect that when we were brought back as coolies, we would be treated like this. It's great!"

All the disciples who had survived the disaster couldn't help but look excited.

Ye Feng also received a Life and Fortune Pill, and his eyes were a little surprised. He didn't expect that even a coolie could be treated so richly.

However, Ye Feng was still very sorry. After all, the big demon himself might not be able to devour it.

This group of crazy old men have obtained the body of this big demon, and I'm afraid they won't be able to get it no matter what.

Ye Feng shook his head, took the small Life and Creation Pill, and quickly left the Pill Hall.

Uh-huh!

Suddenly at this moment, a spiritual talisman emitting divine light suddenly flew from a distance.

The talisman flew in front of Ye Feng and stopped directly. Xiao Bing's voice came out: "Ye Feng, come to the central hall of our Sword God Heavenly Palace quickly. The core of the evil beast you hunted this time The number of 1.3 million has broken the record. The upper echelons of the sect are very happy that our inner sect has produced a peerless genius like you, so this time you have received the reward for first place in the core trial, which is very generous. I'm a little envious, come on."

After Xiao Bing's voice dispersed, Ye Feng's eyes immediately lit up with joy and he immediately ran towards the central hall.

The first place reward this time was very generous because he broke the previous record. Xiao Bing, the leader, was very envious. What kind of treasure could it be?

Swish, swish, swish!

Ye Feng's speed was extremely fast. He even jumped directly into the void and reached the center of the core area of the Sword God's Tiangong in an instant.

A majestic and magnificent hall is suspended in the sky. There is a ladder at the entrance of the hall, connecting the hall to the ground. It looks like a legendary fairyland.

This is the central hall of the Sword God's Heavenly Palace. It is the core institution that manages the outer and inner gates. There are many strong men in the Sword God's Heavenly Palace inside.

"Tap, step, step..."

At this time, Ye Feng did not fly up directly. According to the rules of the central hall, he had to walk up step by step to show respect for the Sword God Tiangong.

Ye Feng quickly boarded the central hall, and the first thing he saw was Ziyunchuan, the first elder of the inner sect, sitting at the top of the central hall.

Ye Feng had seen the power of this being. He immediately stepped forward, cupped his fists and said, "Disciple Ye Feng, pay your respects to the great elder."

"Not so polite."

Ziyunchuan smiled slightly and said to the side: "Give me a seat."

"Yes, Great Elder."

A beautiful maid immediately took out a jade chair from the storage ring and placed it next to Ye Feng.

"Thanks."

Ye Feng said something and then sat on the seat.

The maid was a little flattered. She didn't expect Ye Feng to say thank you to her.

You must know that a person who can receive such a solemn reception from the Great Elder Ziyunchuan must have a very extraordinary status.

But the young man in black in front of him didn't have the slightest pretense of being a classy person. He said thank you in a very approachable manner, which made the goodwill of this charming maid rise to the extreme.

"You're welcome, it should be."

The maid whispered to Ye Feng, with a blush on her pretty face.

Ye Feng glanced at the maid in surprise and thought to himself, is he so charming now?

"Ye Feng, you are here."

At this time, a purple-clothed figure walked in from the side door of the central hall, it was Xiao Bing.

Xiao Bing walked to the side and sat down, looking at Ziyunchuan at the top, and said with a smile: "Brother, look at this kid Ye Feng, he is qualified to follow you to participate in the Snow State Genius Association one year later and enter Tiannan." It's in the ancient ruins."

Selangor Genius Club?

Tiannan ancient ruins?

one year later?

Ye Feng's eyes moved. This was the first time he heard about this.

Ziyunchuan nodded slightly at this time and said: "His cultivation is still a bit weak, but his potential is indeed qualified."

Xiao Bing looked at Ye Feng and said: "Ye Feng, originally you need to contribute 100 million contribution points to the sect before you can join the Snow State Genius Association, and the major races on the land of Snow State, the capital of Snow State The top genius in the Qi Ren Mansion entered the ancient ruins of Tiannan to find huge resources and wealth, and was promoted. However, you broke the record of the core trial this time. In order to reward you, and also to give our Sword God Tiangong one more person who can truly You are considered the pillar of genius. Senior brother Ziyunchuan and I have applied to the upper echelon of the sect to allow you to make an exception to join the Selangor Genius Association in one year and enter the Tiannan ancient ruins to search for treasures. This is something that can only be met by chance. What a great opportunity."

Ye Feng's eyes moved and he couldn't help but ask: "Elder Xiao, is there a huge treasure hidden in the Nangu ruins that day?"

Xiao Bing nodded and said: "Yes, the Tiannan ancient ruins are the largest small world space excavated so far by all the major forces in Xuezhou, and the most important thing is that a person was born in this small world. An extremely brilliant cultivation civilization, but in the end it

experienced a great catastrophe and was completely destroyed. The small world was once called the "Tiannan Continent", but now it has become a lifeless ancient ruins. There are no vicious demons in it. There are many hidden things buried in the earth. There are countless ancient inheritances and treasures. As long as you enter, no matter how unlucky you are, you can get various treasures and inheritances. They are usually controlled and protected by the major forces and races in Selangor. Only a genius in Selangor can do it once every ten years. The top geniuses from all the major forces and races in the state enter it to find treasures and opportunities to soar to the sky."

Ye Feng's eyes were suddenly shocked. Among the ancient ruins of Tiannan, there turned out to be a ruined continental civilization. It was indeed very rare. It meant that there was no external danger. As long as he was wary of the geniuses of other forces and races, he could silently dig out and Just find the treasure.

"I practice as a soul master and have huge soul power. Moreover, the sixth natal talent I awakened, 'All Heavens Life Chart', can burn some life force and deduce the location of various great treasures. If the ancient ruins of Nantian are really A place where treasures are buried will be a huge treasure hunting paradise for me!"

Ye Feng thought secretly in his heart, his eyes full of excitement.

Although the core trial reward this time is not an actual thing, it is worth 100 million sect contribution points, which is really worth it!

Ziyunchuan suddenly said: "No

The upper echelons of the sect have requested that if you want to participate in this Snow State Genius Association and enter the ancient Tiannan ruins to hunt for treasures, your cultivation level in one year will have to break through to at least the third secret realm of the nine secret realms. The law territory. "

When Ye Feng heard this, his eyes were slightly startled, but then he clasped his fists and said: "Thank you to the great elder and elder Xiao for their support. In one year, I will definitely step into the realm of law and not embarrass the two elders."

Ye Feng knew very well that this opportunity was very rare. As a new disciple, his contribution and loyalty to the sect were still very low. The upper echelon of the sect did not necessarily want to waste this opportunity on his own. On his body, there must be places that the two elders Ziyunchuan and Xiao Bing strive for, in order to cultivate themselves, the peerless genius of the inner sect.

Therefore, Ye Feng's tone at this time was filled with gratitude. He knew that the two elders must have put in a lot of effort.

At this time, Ziyunchuan and Xiao Bing saw Ye Feng's behavior and laughed loudly and said: "It is necessary to train the younger generations. In the future, our inner sect will still need core disciples like you to support us. Ye Feng, your talent and potential are ours." Everyone can see that it is very huge. Once it breaks out, it will change the world. We look forward to the day when you truly rise."

Next, Ye Feng thanked him again and returned to his residence.

He was ready to think carefully about how to enter the third secret realm of law within a year.

You must know that you are only in the middle-level Peeping Realm. Breakthroughs at each level are very difficult and require huge amounts of energy.

"It's difficult..."

Ye Feng couldn't help but shook his head and sighed.

Just when Ye Feng returned to his residence, he suddenly saw a familiar figure.

A little bird with a bald head was following behind the little scarlet sparrow on the branch in the courtyard, like a follower.

"Isn't this Master Bird?"

Ye Feng's eyes were startled, and he immediately stepped forward and said, "Master Bird, why are you at my residence? Where have you been wandering until now?"

"I'll go! Ye Feng boy!"

When the bald bird saw Ye Feng, his eyes widened and he said, "Why are you here? No wonder I always feel that there is a familiar aura in this courtyard. It turns out to be your aura!"

"Master! You are back!"

The maid Xiao Tao heard the noise outside and immediately ran out of the room. Naturally, the little girl was very happy to see her young master back.

She stared at the bald bird and said: "Sir, do you know this little bird with no feathers on its head? It flew from nowhere three days ago and it clung to my little red sparrow. But the little red sparrow I ignored this little featherless bird. I thought it was pitiful, so I just let it stay here."

"A featherless bird?"

When the bald bird heard Xiao Tao's name, the corner of his mouth twitched slightly.

However, thinking that it was because of Xiao Tao that he could stay here and was not driven away by the little scarlet sparrow, it could only silently swallow the words that were about to curse.

The bald bird stared at Ye Feng, very excited, and said: "So this is your boy's territory, Ye Feng, that's great, I finally don't have to live around!"

Ye Feng stared at the little scarlet sparrow. It seemed that the little red sparrow had a mysterious identity. Even the bald bird followed it.

But now Ye Feng is most concerned about his own practice. He stared at the bald bird and said: "Master Bird, you have a lot of experience and you were once a divine bird. Is there any way for me to break through to the third secret realm law within a year?" territory?"

Chapter 925 Ancient Fragments

"Breaking through to the third secret realm of law within one year?"

The bald bird stared at Ye Feng in front of him, couldn't help but clicked his tongue, and said: "Boy Ye Feng, it's not me who is trying to hit you. Although your cultivation level is now at the middle-level Dao Peeping Realm, it is only one big difference from the Law Realm. It's just a realm. If it's other ordinary practitioners, they may continue to swallow all kinds of precious elixirs for a year, and maybe they can accumulate their cultivation mana to the realm of laws. But this doesn't apply to you kid, and you don't I know that your own cultivation method is very special. The energy you need for each breakthrough may be ten times or a hundred times that of others, and it may even

become more terrifying towards the end. This kind of cultivation method has actually appeared once in history..."

Having said this, the bald bird immediately stopped talking and said nothing more.

Ye Feng glanced at the bald bird and said helplessly: "Even if I am like an ordinary practitioner and can swallow miraculous medicines for a year and accumulate them to the level of law, I cannot afford the huge cost of so many miraculous medicines. I am now carrying The only wealth may be the hundreds of thousands of evil beast cores I got, but the energy in the evil beast cores is not much, and it is not enough for me to practice normally for a long time. "

The bald bird nodded and said: "So you have to go out and look for opportunities, and you must find a big opportunity. Ordinary opportunities will never allow you to break through to the law realm in just one year."

Ye Feng nodded slightly and said: "That's right, but great opportunities are not so easy to come across. This time I entered the Beast Planet because of the power of the sect, otherwise I would not have been so lucky."

At this time, seeing everyone and every bird so frustrated, Xiao Tao standing next to her suddenly said: "Master, I'm going to ask Sister Bai Ling to lend me enough resources first. Sister Bai Ling belongs to the Bai family." People must have huge resources and wealth."

"Need not."

Ye Feng looked at Xiao Tao with a smile, touched her little head, and said: "Xiao Tao, just practice with peace of mind. Don't worry about me. If you ask for cultivation resources from the Bai family, you are giving in to them. I don't want that." Use your dignity, Xiaotao, in exchange for some so-called resource wealth."

"Son..."

Hearing Ye Feng say these words, the maid Xiao Tao's big eyes suddenly turned red and she was very moved.

At this time, the bald bird suddenly pulled Ye Feng aside and said with some confusion: "Ye Feng boy, why did you move this girl to tears with just a casual word? Teach me how to do it." How? I will tell you a great opportunity that will definitely make you fly into the sky."

Ye Feng's eyes showed a trace of surprise as he stared at the bald bird, then looked at the mysterious little scarlet sparrow on the branch not far away, and said: "Master Bird, are you falling in love with that little red sparrow?" "My son?"

"nonsense!"

The bald bird immediately covered Ye Feng's mouth with its talons to prevent Ye Feng from talking anymore.

It whispered: "Boy Ye Feng, the identity of that red bird is not simple. It is the legendary sacred beast Suzaku. I approached her actually to ask her to reward me with a ball of Suzaku Holy Fire, so that I can recover a little bit." I don't dare to think anything wrong about the power of the divine bird back then, she was even more powerful than I was at my peak."

Ye Feng's eyes were a little surprised and said: "Master Bird, how dare you now?"

So cowardly? You were a magical bird back then. "

The bald bird immediately said: "Ye Feng boy, I can't help it. Although I was a divine bird back then, at most I was just an ordinary divine bird without any special bloodline. But this Suzaku is the belonging of the ancient god. Descendants, they are nobles among gods. How could I not be cowardly? By the way, stop talking nonsense. Boy Ye Feng, teach me how to coax girls. I will tell you about that great opportunity and let it happen to you within a year. Huge transformation, soaring into the sky."

"Coaxing?"

The corner of Ye Feng's mouth twitched slightly and said: "Master Bird, please stop talking nonsense. Why did I deceive you? Everything I said is the truth. If you want to win a girl's heart, the most important thing is sincerity."

"sincere?"

The bald bird nodded in understanding.

Ye Feng came close to the bald bird's ear and said: "Master Bird, please stop talking nonsense. You still need to practice for a long time if you want to be able to please girls. I will teach you this slowly. You first explain what you just said. The big opportunity I know tells me that one year is too short and time is running out."

The bald bird immediately said: "Okay, I'll tell you, but Ye Feng, you have to teach me."

"It's a deal."

Ye Feng immediately smiled and nodded.

The bald bird then chuckled, approached Ye Feng, and said, "That great opportunity actually lies in your hometown."

Ye Feng's eyes moved and he said in surprise: "Homeland? Lord Bird, do you mean that the great opportunity is in Longyuan Continent?"

The bald bird nodded and said: "Yes, when I lived in Longyuan Continent before, I felt that Longyuan Continent was very extraordinary and contained great fortune, especially when the demonic army came to Longyuan Island, and even There is a powerful person in the demon world who has set up a formation to refine the entire Longyuan Continent, so I concluded that there must be some huge opportunity hidden in the Longyuan Continent. Although I have been wandering during this period, I think about this matter every day, and based on the records in the Holy Book of All Heavens in my hand, I suspect that there is a very powerful treasure hidden in the entire Longyuan Continent. Finally, after I checked various information about Longyuan Continent in the past few hundred years, I From the various historical events that have occurred over the past ten thousand years, I have determined that the core of the Longyuan Continent may contain a fragment from the time and space of ancient mythology!"

Ye Feng's eyes were startled and he said: "Fragments of the Ancient World? I have heard that it is said that the center of our entire universe, the starry sky, and all the worlds, is the Ancient Continent in the dimension of ancient mythology. The fragments of the Ancient Continent are in the Ancient Continent. The battle between some ancient powerful men broke some fragments of the ancient continent, penetrated the time and space barriers of the ancient mythical space-time dimension, and wandered into the major interfaces of the heavens and the world. According to your wishes, Mr.

Bird, on the Longyuan Continent Is there a fragment of the ancient world buried? No wonder the demons, such an advanced and powerful race, would attack a small Longyuan continent and persisted for tens of thousands of years. It turned out that they wanted to get a fragment of the ancient world! ! Now the Longyuan Continent is probably about to be conquered by the demon army. I have to go back to investigate the situation. If that fragment of the ancient world is really buried in the Longyuan Continent, then I must get it! After entering the level of the Nine Secret Realms, I have some confidence to go back to investigate the situation. I just happened to follow the road to the Nineteen States Human Race Land and look for the Great Emperor Tower to see if I can find Master and Senior Sisters." "In one place. Breaking through to the third secret realm of law within this year?"

The bald bird stared at Ye Feng in front of him, couldn't help but clicked his tongue, and said: "Boy Ye Feng, it's not me who is trying to hit you. Although your cultivation level is now at the middle-level Dao Peeping Realm, it is only one big difference from the Law Realm. It's just a realm. Chapter 926 True Saint Level Inheritance

Ye Feng made an agreement with Bald Bird and decided to set off in three days.

In the evening, senior sister Chu Zixuan came to Ye Feng's residence and was surprised to see that the bald bird could speak human language.

Chu Zixuan stared at Ye Feng and said: "I have heard the news. Is it Xiao Bing and the great elder Ziyunchuan? They want you to participate in the competition between countless geniuses in Xuezhou in a year and enter the legendary world." In the ancient ruins of Tiannan?"

Ye Feng was a little surprised and said: "Even senior sister, you know about it. It seems that this matter has spread in the sect. I don't know who spread it. I guess it was the two elders who spread it. I guess It's to give me some pressure so that I can stand up again and strive to break through to the level they want within one year."

Chu Zixuan was a little confused and said: "To enter the Tiannan ancient ruins, do you need to break through to the corresponding level of cultivation?"

Ye Feng nodded and said: "The request of the Great Elder Ziyunchuan is that I enter the third secret realm of law in one year?"

Chu Zixuan was shocked and said: "Crossing a big realm in one year? It's too difficult! I heard that many so-called geniuses in the core area of the Sword God Tiangong want to cross a big realm in the nine secret realms. The fastest It took nearly five or six years for each of them. After all, after entering the Longevity Realm, every warrior has ten thousand years in an instant. Compared with ten thousand years, one year is like a flash. passed away, so this task is very difficult. "

Ye Feng nodded slightly, smiled helplessly, and said: "So I am going to a very dangerous place. There is a very precious treasure there. It may allow me to break through quickly within a year, but it may not be successful."

Chu Zixuan thought for a while, then pulled Ye Feng and walked towards the secret practice room, saying: "I promised you last time that I would pass on the inheritance of the starry sky powerhouse to you to observe and learn from. Now you come with me. I will teach it all to you directly, Junior Brother Ye, hoping to provide some help to Junior Brother Ye."

Ye Feng was a little surprised and said: "Senior sister, it seems that the inheritance of the starry sky powerhouse you obtained is very powerful and ancient. What grade is it?"

Chu Zixuan smiled mysteriously and said: "It is a set of true saint level inheritance that surpasses the true spirit level. Although it is a first-level true saint level, you must know that the most powerful inheritance of our Sword God Tiangong is now a first-level true saint level. Level, true saint level inheritance is almost extinct on the land of Snow State. Therefore, this set of inheritance from the outer starry sky is very powerful. If Junior Brother Ye masters it, it will definitely be able to provide huge help to Junior Brother Ye. , at the very least, it can make Junior Brother Ye's combat power skyrocket in a short period of time. Going to the dangerous place that Junior Brother Ye mentioned this year can also give Junior Brother Ye an extra layer of protection."

At this time, Chu Zixuan said, Ye Feng's heart was slightly shocked.

Unexpectedly, senior sister Chu Zixuan accidentally obtained a set of inheritance from the starry sky powerhouse by accident in the Ten Thousand Beasts Planet. It turned out to be a set of true saint level inheritance that surpassed the true spirit level.

Even if the inheritance of the lowest first-grade True Saint level spreads out, it will instantly cause a huge bloody storm in the entire Snow State, causing countless strong people to fight and kill.

Soon, the two came to the secret practice room.

At this time, Chu Zixuan slightly released her power, and suddenly small stars appeared all around her in the darkness, surrounding her entire body.

A body.

"This is...the power of the stars..."

Ye Feng's eyes moved, and the power of stars emanating from senior sister Chu Zixuan had boundless majesty, as if there were really ancient stars in the starry sky of the universe, appearing and surrounding her.

Ye Feng nodded and said: "It seems that the set of peerless inheritance that senior sister received is related to the stars. No wonder it is a true saint-level inheritance. Stars are a very important part of the starry sky in the universe. The power of stars can be said to be in all. They are all very majestic and powerful in the world."

Chu Zixuan smiled and said: "Junior Brother Ye guessed it right. The peerless inheritance I got from the skeleton of that starry sky powerhouse is called the 'Ancient Star Art'. It was created by a peerless power from the alien starry sky." After coming out, he observed the movements of the stars in the starry sky of the universe, and made a hypothesis in his mind. If he could cultivate every part of his body to be as thick and full of energy as the stars, what kind of power would it be, so, this set of ancient star techniques has come out, it is very powerful, and contains the ultimate secret and energy of the stars in the universe. "

Speaking of this, Chu Zixuan suddenly stretched out a hand and grabbed Ye Feng.

She spoke at this moment: "There is also a powerful inherited martial arts, which is also at the True Saint level and can be regarded as the supporting martial arts of the Ancient Star Art. It is called the 'Star Reaching Hand'. If you practice it to the extreme, you can directly stretch out a hand, that hand becomes a towering sky, directly passes through the interface barrier, and can pick off the stars in the nine heavens, just like the legendary picking of stars and moon, it is very terrifying. "

"boom!"

Although Chu Zixuan had only preliminarily practiced the Ancient Star Technique and Star Picking Hand at this time, she grabbed it with one hand, and an illusion suddenly appeared in front of Ye Feng's eyes. He seemed to have seen an ancient powerful powerful figure. The person stands on the boundless land, looks up at the stars, and suddenly reaches out a hand to the sky.

Buzz!

The hand suddenly became hundreds of millions of meters long and became extremely majestic. It directly broke through the interface barrier, reached into the nine heavens, spread into the starry sky of the universe, and suddenly transformed the universe where coldness and loneliness coexisted. One of the stars was picked out, and the scene was very shocking.

"Amazing!"

At this time, Chu Zixuan withdrew his hand, and Ye Feng couldn't help but exclaimed: "Although the great master who created this set of martial arts is not a person from the spiritual world, but comes from the outer starry sky, he created it from It can be seen from his martial arts that this person is definitely an earth-shattering person, but he did not know what kind of enemy he encountered and died tragically on the beast planet. His death was very quiet, but he must have been an earth-shaking person during his lifetime. There must be a legend belonging to him in the outer space."

Chu Zixuan nodded and said with some emotion: "As I practice the Ancient Star Art and the Star Picker, I can understand more and more how amazing the starry sky powerhouse who created this set of inheritance is. You are extremely talented. By the way, Junior Brother Ye, I will directly give you this set of inheritance secrets. With your monster qualifications, you will definitely be able to practice faster than me. I hope you can meet the needs of the two great masters within one year.

The old conditions are to enter the Nangu ruins of that day and participate in the competition of the Snow State Genius Association. This opportunity is very rare. You need to have a contribution value of 100 million to the sect to join, even if you have stayed in the sect for hundreds of years. Many inner sect elders did not have this qualification, so this opportunity was hard to come by. I believe that the two elders have been asking for it for a long time from the upper levels of the sect. They are eager to have someone from our inner sect who can become the pillar. "

Ye Feng nodded, with a hint of perseverance in his eyes, and said: "Sister, don't worry, as long as I can get that big opportunity in the dangerous place I mentioned, I will have full confidence that I can be able to do it in just a short time. I have reached the level I want within one year, and now that you have given me such a powerful inheritance, senior sister, I believe that I will be even more confident during this trip."

Chu Zixuan smiled and said: "Junior brother Ye, just think this set of inheritance is useful to you. By the way, now we have become core disciples and can establish our own private territory on the land of Snow State around the Sword God Tiangong. Now, I decided that my plan for this year is to build my private territory so that I can have an exclusive place to practice. After all, there are many people in the sect, and there may even be spies from foreign races. As we cultivate, As we improve and get more opportunities, the private space we need becomes more and more urgent. After all, everyone has secrets that they don't want others to know. Junior Brother Ye, when will you decide to establish your own private territory? "

Ye Feng shrugged and said: "I'm not very interested in this, but what you just said makes sense, senior sister. It becomes convenient to have your own private territory, practice your own inheritance, and reveal your own secrets. A lot, so I don't have to worry about others spying on me, but the most important thing for me now is to improve my cultivation level and let's talk about establishing a private territory later."

Chu Zixuan nodded, then smiled boldly, stretched out her jade-like hand, patted Ye Feng's shoulder, and said: "Junior brother Ye, if you don't mind it, you can go to the private territory I established to practice in the future. Anyway, I It certainly won't bother you."

Ye Feng knew that Senior Sister Chu Zixuan could be trusted. After all, she did not even have the slightest bit of stinginess about the inheritance of the True Saint-level starry sky powerhouse, and shared it with him directly and openly. This showed that she had regarded herself as a The people closest to you.

Ye Feng smiled at this time and said: "Okay, if I really need it, I will definitely go to my senior sister's territory to practice. By the way, I may be running around outside this year. My maid Xiao Tao is very talented. He is also practicing very quickly. If you have time this year, senior sister, you can come to my residence and give guidance on Xiao Tao's practice. "

Chu Zixuan nodded and said: "The talent of your little maid is indeed very extraordinary. If I guess correctly, Junior Brother Ye, you must have activated some special physical energy in her body, otherwise it would be impossible for her to progress so quickly. "

Ye Feng smiled and said: "Senior Sister, you really have a good eye. Xiao Tao does have a special physique. She is a good prospect, and her identity is also very extraordinary. She will do a lot in the future."

Chu Zixuan nodded and said: "Okay, I understand. I will keep an eye on her secretly and occasionally give her guidance on her practice. When is Junior Brother Ye going to set off?"

Ye Feng said: "In three days."

Chu Zi

Xuan pointed her finger at the center of Ye Feng's eyebrows, and injected the ancient secrets of the Ancient Star Technique and the Star Reaching Hand into Ye Feng's spiritual sea, allowing Ye Feng to continue to comprehend them.

...

In the next three days and three nights, Ye Feng didn't even have time to rest, and spent all of it practicing.

With Ye Feng's current level of cultivation and his life potential, they are very huge. He can concentrate on practicing for half a month without needing to rest or sleep at all. It can be said that the efficiency of cultivation is very high.

Therefore, during the three days and nights before departure, Ye Feng hid alone in the secret practice room, studying the ancient star technique and star-catching hand taught to him by Chu Zixuan.

The idea of the Ancient Star Art is very grand. It actually wants to absorb the power of the stars above the nine heavens, and condense and cultivate every part of one's body to be as heavy and towering as the stars in the universe.

It's terrifying to think about it. If every part of a person's body becomes as huge and vast as the stars in the universe above the nine heavens, what kind of terrifying and astonishing power will be erupted with every move?

Ye Feng knew that his sun-moon battle body was said to be on par with the sun, moon and stars, but in fact it just absorbed the essence of the sun and moon and was tempered to be as strong as the sun, moon and stars. However, his body was still the size and weight of a human being. .

However, the ultimate secret of the Ancient Star Art is not only to make the body as hard as the sun, moon and stars, but also to make the body seem to contain the energy and towering size of countless sun, moon and stars.

"The great starry sky master who created the Ancient Star Art was either a genius or a madman back then."

Ye Feng couldn't help but sigh. Practicing this ancient star technique has huge benefits for the transformation of his fighting body, and it can also make his physique stronger and more perfect.

"Time is up."

In the early morning of the fourth day, Ye Feng walked out of the secret training room. After telling Xiao Tao, he took the bald bird and walked towards the outside of the Sword God's Tiangong.

The bald bird said: "Ye Feng, boy, yesterday I saw a woman in white come to your residence and gave your maid a lot of good things. I have seen that woman in white. She is from the Bai family in the sky. Your maid Who on earth deserves to be treated like this by the proud daughter of the Bai family?"

Ye Feng smiled and said: "Master Bird, why are you so curious about everything? Forget it, let me tell you that Xiao Tao is indeed a member of the Bai family above the sky, and his identity is very unusual. The one you are interested in The little scarlet bird must have been attracted by Xiao Tao."

The bald bird's eyes were startled, and then he nodded and said: "It seems that I have to pay more attention in the future. I was above the sky and ate a god-level fruit in the Bai family medicine field. If I was discovered, then I will be hunted by the Bai family. Fortunately, no one can recognize the majestic flaming bird that I am now. "

"The flaming divine bird? Mighty and powerful?"

Ye Feng glanced at the bald bird next to him. It had a few gray feathers on its body and a bald head. It drooped and looked like it could not be connected with the words "flaming bird" and "mighty and majestic".

Chapter 927 Immortality and Eternal Life

According to previous memories, Ye Feng and Bald Bird traveled through the vast land of Snow State, and it took them a full half a month to arrive at the edge of the land where Ye Feng landed.

In the distance, a vast endless blue ocean appears in the field of vision of one person and one bird, full of infinite magnificence and vastness.

"I never thought that one day I would come back here again."

Looking at the familiar ocean, Ye Feng couldn't help but sigh.

When he came out of Longyuan Continent, he was chased by a demon emperor. He stretched out a hand and smashed many treasures on his body. In the end, Ye Feng even threw everyone in the emperor's tower far away. Know where you wandered.

Ye Feng himself was seriously injured and fled to the land of Snow State.

Now, Ye Feng has now surpassed the emperor realm, surpassed the ancient emperor on Longyuan Continent, and entered the nine secret realm levels.

Now Ye Feng, after returning to Longyuan Continent, can definitely be regarded as a powerful level existence.

However, Ye Feng did not swell, but chose to lurk on the ocean with the bald bird in a very low-key manner, flying towards the Longyuan Continent. ??

The Great Desolate Fragment is not a small thing, but a huge and extremely precious treasure.

On the Longyuan Continent, although the demonic armies were led by demon emperors, the demonic formation that enveloped the entire Longyuan Continent was arranged by the ancient demon gods.

For Ye Feng, the existence of the demon god level is beyond the immortal, and it is not something he can afford to offend for the time being.

So now there seems to be a demon god paying attention to Longyuan Continent. Ye Feng thought to himself that it would be better to keep a low profile.

After all, this time when he returned to Longyuan Continent, Ye Feng did not overestimate his ability to save the entire Longyuan Continent. He went to find the fragments of the ancient world.

Bald Bird also agreed and said: "The fragments of the ancient world are too involved. If there is a demon god secretly spying on the entire Longyuan Continent, it is indeed beneficial for you, Ye Feng, to be more low-key now. It is a wise choice."

Ye Feng was a little worried and said: "If there is a demon watching, then if I look for the ancient fragments, I will find them and be discovered by the demon, which is equivalent to making a wedding dress for the demon."

The bald bird shook his head and said: "No, the devil will basically not appear, because it is very difficult for the devil to descend from the devil world to the spiritual world, and the cost of consumption is huge, and it may even cause harm to the spiritual world. The attention of other god-level creatures on the earth, so the devil will not pay attention all the time. "

Ye Feng nodded and asked: "Master Bird, do you know where the ancient fragment is?"

"Of course I don't know

. "

The bald bird immediately said: "I was able to find out that there is a piece of ancient fragments hidden in Longyuan Continent. I have already spent a lot of effort, even searching and researching day and night, before I came to this conclusion. As for how I really don't know about finding the ancient fragments. I need you to figure it out yourself, Ye Feng."

Ye Feng nodded slightly. If Lord Bird didn't know, then he would have no choice but to use his awakened sixth natal companion talent, the destiny chart of the heavens.

The natal charts of the heavens can deduce the specific locations of various strange energy fluctuations in a certain land and space.

However, Ye Feng would not easily use the destiny charts unless absolutely necessary.

Because the natal charts involve the most mysterious power of fate, it requires Ye Feng, the master, to burn his own life force in order to move the natal charts and deduce the location of the treasure.

But as a last resort, Ye Feng will naturally use the destiny chart of the heavens. This is the last resort. And now that he has entered the nine secret realms, Ye Feng's lifespan has already been ten thousand years. Burning some longevity and vitality, but It's nothing.

When the bald bird heard about Ye Feng's horoscope, he immediately widened his eyes and said, "You kid has awakened to such a powerful thing. It's amazing. Then from now on, you can travel across the starry sky and look for all kinds of things in the starry sky." Treasures, or join the Star Pirates, search for various opportunities and creations in the infinite universe, and directly use your horoscope to deduce, wouldn't it be invincible, a hundred times more powerful than any artifact that can find chance treasures. "

Ye Feng smiled helplessly and said: "The use of the Heavenly Life Chart requires burning vitality and longevity. Life force and longevity are too precious. This is too hurtful."

The bald bird curled his lips and said: "That's right, your current level of cultivation is still too low. When you reach a certain level, you will find that longevity will be the cheapest thing, because as long as living beings can break through In the Nine Secret Realms, when you step into the Immortal Realm, you will almost live forever. Because you have a long lifespan, you will almost be immortal. Unless you die in battle, or encounter the five declines of heaven and man and the exhaustion of the interface, you will continue to live. That At that time, you can burn your life span infinitely. Of course, according to what you said, Ye Feng, these heavenly horoscopes will also burn your life force, so as long as your body is strong enough to bear it, you can burn your life span infinitely."

"real or fake?"

Hearing what the bald bird said, Ye Feng immediately shouted with joy: "When you step into the fairyland, you can basically be said to be immortal. Since you have become immortal and have broken the shackles of longevity, why are there so many people?" We must also pursue the realm of God

, pursuing that illusory eternal life? "

The bald bird smiled coldly and said: "Immortality and immortality are not the same concepts. Immortality only breaks the shackles of longevity, but immortality breaks the shackles of life and death. Immortality and immortality are completely different. A being who has stepped into the realm of immortality is indeed immortal, but it does not mean that he will not die. As long as he encounters a strong enemy and is killed, he will die, unless he has been hiding in a safe place to retire, but for those who practice The end of 'eternal life' is true immortality, but it has unlimited lifespan and is of no use. You will die even if you encounter a strong enemy and kill you. But if you achieve eternal life, it means that no one can kill you. That is eternal life. Immortal."

When Ye Feng heard what the bald bird said, he was immediately shocked: "Immortality and immortality... Yes, immortality is just infinite life. You can choose to take care of yourself in old age, but once you encounter a strong enemy, the decline of heaven and man, the interface is exhausted, etc., You will still die, but eternal life is truly transcendent. Even if the universe is destroyed, you will not die. You are truly invincible. Only the legendary master of the heavens and the world, the leader of the gods, can live forever. Yes."

Next, Ye Feng and Bald Bird seemed to be stuck in an inexplicable thought, and neither of them chatted anymore.

On the third day, a huge island appeared in the field of vision of one person and one bird, like a continental plate, standing in the endless ocean, rising and falling, giving people a sense of vastness.

The super large island in front of us is naturally the Longyuan Continent!

But at this time, Ye Feng saw that the entire Longyuan Continent had been shrouded in a thick layer of infinite demonic energy. It looked like a dark continent, giving people a very terrifying feeling. ??

"It has been a year or two since I escaped from Longyuan Continent. Now I don't know if the great human forces in Longyuan Continent are still resisting the demon army, or have they completely fallen?"

Ye Feng looked at the Longyuan Continent shrouded in countless demonic energies, feeling a little heavy in his heart. After all, this was the homeland where he had been raised in this life three thousand years later.

But with Ye Feng's current cultivation level, he can't do much. He can only silently accumulate and strengthen his cultivation strength. Only when he reaches the peak can he do everything he wants to do.

"Let's deduce it first."

Ye Feng had no direction, and he didn't know where to look for the fragments of the ancient world. It was like looking for a needle in a haystack.

Therefore, Ye Feng could only release the Heavenly Fate Disk at this time, and began to burn his vitality and lifespan. After spending some time, he could first identify the general location of the ancient fragments.

"Buzz!"

At this moment, Ye Feng thought, and a huge destiny chart of the heavens suddenly appeared above his head.

Buzz!

That huge roulette wheel seemed to be made of the most mysterious fine iron in the universe. It was thick and ancient, and there were even countless mysterious and faint prayer sounds coming from it.

This was Ye Feng's first time using the Heavenly Life Tray. At this moment, Ye Feng immediately felt that the vitality and longevity in his body began to burn invisibly.

The void energy turned into after burning was directly transferred to the natal charts of the heavens.

"Rumble..."

The huge roulette wheel immediately began to rotate, and ancient and complex runes appeared one after another on the surface of the heavens' natal charts, blooming with mysterious light. There were even the shadows of countless gods kneeling in the heavens' natal charts. He was praying and looked very shocked.

The bald bird looked on, its eyes filled with wonder. It couldn't help but smack its mouth:
"Awesome! How did such a terrifying thing come about? Boy Ye Feng, the inheritance of your cultivation, what is it? Is it the legendary inheritance? But it is impossible, it has disappeared in the chaos three thousand years ago, and only one person can do that kind of inheritance on this land now. There are people who can practice cultivation, but they have been dead for three thousand years..."

Ye Feng did not hear the murmur of the bald bird at this time. He was concentrating on burning his life force and longevity, stimulating the movement of the heavens' fortune boards, and looking for the location of the ancient fragments.

"It's actually in the Eastern Wasteland!"

Ye Feng suddenly got some mysterious and obscure information from the horoscope, and immediately stopped functioning.

Buzz!

At this time, the destiny charts of the heavens slowly dissipated in the void.

Ye Feng was a little surprised. He had only pushed the rotation of the heavenly fortune discs. In less than half a circle, he had already burned nearly hundreds of years of life.

Moreover, Ye Feng's face is very pale now, and the vitality in his body has also burned a lot, and his blood has been exhausted.

"It consumes too much! Even if I step into the immortal realm in the future, become immortal, have endless life span, and can burn it at will, my life force will not be able to bear it. The destiny chart of the heavens, this thing will really make people Sudden death."

Ye Feng couldn't help but cursed secretly, and then took out a large amount of elixir from the storage ring and drank it to replenish the missing vitality and blood.

Ye Feng looked at the bald bird and said: "Master Bird, let's go. I have deduced that there is indeed a fragment of the ancient world on the Longyuan Continent. It is located somewhere on the ancient land. Let's lurk in first and investigate the situation. , when it's time, the best thing to do is to spend

some more time and run the fortune charts to see if we can deduce where it is in the Eastern Wasteland.”

Chapter 928 The Temple of the Human Emperor

Now that the direction has been determined, Ye Feng and Bald Bird are approaching Longyuan Continent.

According to the information deduced from the destiny charts of the heavens, the fragments of the Great Desolation are hidden in the Eastern Wasteland, but the specific location is not known.

Ye Feng let the bald bird enter his spirit beast bag, and then Ye Feng used the Divine Art of Creation to change the power in his body into the power of the demon world.

Buzz!

Suddenly, Ye Feng's body was immediately enveloped in a deep layer of demonic aura, and his whole person suddenly became filled with demonic aura.

Even in order to make himself more like a demon creature, Ye Feng also stimulated the magic power, and dark golden magic lines appeared on his skin.

It feels like a noble among the demon clan.

"Not bad."

The bald bird was very satisfied with what he saw in the spirit beast bag, and said: "Your inheritance is so unique. You can actually change your own original attribute power. It is really eye-opening. I have to say, as far as you are now, The various abilities and methods demonstrated by the inheritance have surpassed many so-called powerful ancient inheritances in the spiritual world."

Ye Feng secretly smiled in his heart. He was sure that his Divine Secret of Creation was the inheritance of the human race that was regarded as the number one by countless creatures in the spiritual world. Of course it was extremely powerful.

But Ye Feng also knew that the bald bird probably saw something.

But Ye Feng didn't admit it face to face, which gave the bald bird a vague feeling.

It's not that Ye Feng doesn't trust the bald bird, it's just that for this kind of thing, Ye Feng doesn't want to directly expose and admit that he is the only crown prince of the Fortune God Dynasty who died tragically three thousand years ago.

At this time, Ye Feng arrived at the edge of Longyuan Continent and flew directly into Longyuan Continent.

Ye Feng had stayed in Longyuan Continent for many years, so he was naturally very familiar with everything and major regions in Longyuan Continent.

Board the dragon at this time

The moment he saw the Abyss Continent, Ye Feng immediately recognized it. This was the ancient chaotic sea area, adjacent to the Southern Territory.

It's just that Ye Feng fled with everyone in the entire Southern Territory. Now the entire Luangu Sea and the land of the Southern Territory are empty, without a single person.

Ye Feng looked from afar and found that many of the buildings of the former great forces were still standing on the land of the Southern Territory, but those flying in and out were all dark demons with wings on their backs.

These demons come from the real demon world and are pure demon blood. The ones stationed in the southern land at this time seem to be the Black Feather clan.

Demon clan is a general term for countless creatures in the demon world. In the demon world, there are various demon clans, such as the black feather clan, the scale armor clan, the giant demon clan, the golden pattern royal clan, etc.

Ye Feng took a casual look at it, without stopping too much, and flew directly towards the Eastern Wasteland.

...

In the Eastern Wasteland, the moment Ye Feng stepped into this land, he witnessed a great battle.

Hundreds of thousands of people are fighting against the demon army, and the war is very fierce.

"It seems that the great human forces in Longyuan Continent still have strong foundations. Even the demon emperor personally commanded the demon army and did not directly subdue them. Instead, Longyuan Continent was in a protracted war. "

Ye Feng saw that in the center of the Eastern Wasteland, high in the sky, there was a huge dark space gate, with a steady stream of demonic armies stepping out of it, wearing dark armor and holding dark soldiers. , the whole thing is extremely chilling, full of strong killing aura.

Obviously, the demon world is still sending large armies into Longyuan Continent.

Ye Feng was also very surprised. He didn't expect Donghuang's

The human race is still fighting bloody battles and has not been completely defeated.

But Ye Feng doesn't have the energy to care about this now. If he is not afraid of demons now, then Ye Feng will definitely wipe out all the demons on Longyuan Continent.

But now, Ye Feng's ability is far from enough. Now is not the time to show off and show off. It is better to find the fragments of the ancient world that he wants first.

The bald bird spoke in the spirit beast bag at this time: "These demons still sent an army from the demon world. It seems that they have not found where the ancient fragments are. I guess that these demons want to destroy the entire world." Longyuan Continent was completely attacked and then searched inch by inch, but it seems that you still have some human heritage in Longyuan Continent. It has persisted to this day and even formed a kind of tug-of-war, which is really impressive. "

Ye Feng nodded and said: "Fortunately, I took away everyone in the Southern Territory back then. Although they don't know where they live in the spiritual world now, or in some endless ocean in the spiritual world, they are still better off than they are. It's much better to fight the demons and die miserably every night."

At this time, after Ye Feng took a look, he directly released his natal talent, the destiny chart.

Buzz!

Ye Feng continued to burn his life force and longevity to perform deductions.

At this time, with the rotation of the heavenly fortune boards, a huge and magnificent building appeared in Ye Feng's subconscious. The entire building was made of gold.

Ye Feng was extremely familiar with this building because he had been there before. It was the temple of the Human Emperor's Palace, the overlord of the Eastern Wasteland.

"Is this the temple of the Human Emperor's Palace? I have been to the temple of the Human Emperor's Palace. There are no treasures. Could it be that it is in the ancestral land of the Human Emperor?"

Ye Feng still remembers that when he went to the Human Emperor's Palace in the Eastern Wasteland, he solved the demon. The Human Emperor's pen was grateful and allowed him to enter the Human Emperor's ancestral land in the temple, and he also obtained the Ancient Human Emperor's Art.

Kung Fu.

But now the place where the fortune charts of the heavens are being deduced points to the holy hall of the Human Emperor's Palace.

Ye Feng wanted to continue the deduction to see if he could reach a more specific position.

"Buzz!"

But at this moment, the Heavenly Fate Disk no longer rotated. Even if Ye Feng continued to burn his vitality and longevity, the Heavenly Fate Disk remained motionless.

"It seems that I can't continue to deduce it to a more specific level. I don't know whether it's because my cultivation level is limited and I can't fully stimulate the deeper power of the heavenly destiny charts, or because the heavenly destiny charts can't guide me to the ultimate place."

Ye Feng thought secretly in his heart, feeling a little disappointed.

But no matter what, through the fortune charts of the heavens, it is very specific and detailed to be able to determine the holy hall of the Donghuang Human Emperor's Palace.

Otherwise, in the vast Longyuan Continent, Ye Feng would really be looking for a needle in a haystack if he wanted to find the fragments of the ancient world.

I didn't see that even the demon army and the powerful Demon Emperor bosses have been attacking Longyuan Continent for several years, and I don't know where the fragments of the ancient world are.

The bald bird whispered: "Perhaps the fragment of the ancient world is hidden in the ancestral land of the human emperor in the temple. Generations of human emperors are buried there. It is a very special place. The fragment of the ancient world has an innate wisdom and will know how to use it." Choose to stay in the most magical area of a place, so the prehistoric fragments are likely to be in the ancestral land of the Human Emperor."

Hearing what the bald bird said, Ye Feng was basically convinced. He nodded, jumped directly, and flew towards the Human Emperor's Palace at the end of the Eastern Wasteland.

"Fortunately, I was very familiar with the Human Emperor Bi and the next-generation palace master of the Human Emperor Palace, Yuan Xiang, a little girl who is descended from the Human Empress. If everything goes well, I may soon be able to enter the Human Emperor's ancestral land to explore."

Ye Feng thought secretly in his heart and increased his speed, almost like an arrow leaving the string, piercing the sky.

Chapter 929 Dead Silence

Based on his previous memories, Ye Feng quickly arrived at the end of the Eastern Wasteland, the Human Emperor's Palace.

But at this time, there was a fierce war on the vast land outside the Human Emperor's Palace.

Hundreds of thousands of human warriors are resisting an army of tens of millions of demons.

And the person in charge was surprisingly a heroic female general. Ye Feng looked very familiar. She turned out to be Yuan Xiang!

Yuan Xiang, in Ye Feng's memory, is a simple and innocent little girl, extremely cute.

But today, when Ye Feng saw her again, she had grown into a female general who could stand alone and lead an army of hundreds of thousands!

At this time, on the huge battlefield, Yuan Xiang was being protected by a group of guards wearing royal armor. At this time, his body was exuding strong Saint King fluctuations.

She has grown up and has a graceful posture. She is wearing a set of gold-lined battle armor and holding a golden sword in her hand. It is the battle sword condensed by the ancient emperor's power.

Obviously, Renhuang Bi finally taught the Ancient Human Emperor Kung Fu to Yuan Xiang, and Yuan Xiang has now become a very powerful Saint King with the help of the resources of the Renhuang Palace.

But in the end, the army of demons is endless.

And a big black hand suddenly crashed down from high in the sky, directly smashing tens of thousands of clan warriors into pieces.

"He is the demon lord in the army of the demon world, a powerful man at the level of a great saint!"

At this moment, many human warriors in the Human Emperor Palace had despairing eyes.

Yuan Xiang also had endless fatigue in her eyes at this time, "Could it be that after so many years of hard work, we are finally going to fail? Is the Human Emperor Palace, the last human territory in the Eastern Wasteland, going to fall today? ?"

At this time, Yuan Xiang wanted to cry loudly, and wanted to die and fall asleep.

But she thought of Grandpa Renhuangbi who committed suicide a year ago and transferred all his cultivation to her body, and Yuanxiang felt a boundless fighting spirit in her heart.

The Human Emperor's Brush made Yuan Xiang's powerful cultivation possible, but the Human Emperor's Brush itself withered away and became a piece of gray.

The heavy history disappeared between heaven and earth.

Yuan Xiang still remembers that day, in order to fulfill her, the Human Emperor Bi sacrificed himself and turned into a mortal brush. She cried pitifully because her last relative in this world also disappeared.

Now the entire Human Emperor's Palace, the last surviving human territory in the Eastern Wasteland, has huge responsibilities and burdens all falling on her.

After so many years of fighting and killing, Yuan Xiang is no longer the little girl she used to be, but has become a female general with a strong will.

"The Sword of the Human Emperor!"

boom!

Yuan Xiang roared loudly, and the ancient human emperor's battle blood burst out in her body. She bloomed with infinite divine light, and her terrifying combat power forced the great sage of the demon clan in the distance to retreat.

"Jie Jie Jie, you can't resist it."

At this time, the great demon sage sneered coldly, looked around, and said: "This time I have mobilized a demon army of thirty million from the Demon Emperor of Disaster. Today I must attack your human emperor's palace. Come down, completely control the Eastern Wasteland in our hands, and then plot the hard nut to crack in Zhongzhou!"

"kill!"

Yuan Xiang said nothing, but burst out with terrifying fighting spirit and rushed towards the demon sage. The Human Emperor War Sword in his hand shone with unparalleled sword light, as if it could tear the entire dark demonic sky apart.

"Pfft!"

One of the demonic arms of the demonic great sage was cut off directly, and black demonic blood flowed out.

"ah!"

The Great Sage of the Demon Clan roared in pain, his eyes were ferocious, and he roared: "All you sons of the Demon Clan, lend me your power!"

"Yes, Commander-in-Chief!"

"Yes, Commander-in-Chief!"

The demon soldiers all raised their palms at this time, and then a group of

All the demonic energy rushed out from the bodies of the demonic soldiers and merged into the body of the demonic great saint.

"The true form of the devil!"

boom!

The entire body of this demonic great sage began to swell all of a sudden. It expanded directly and became a huge demon body that was several thousand meters tall. It was covered with dense black scales, and it looked like the strongest body in the world. Made of metal, it is indestructible, with huge black wings growing on its back, it really looks like a big demon has descended.

"boom!"

After the Demon Clan's great sage transformed into the Demon Clan's true form, its power was extremely terrifying. It struck down with one of its claws and knocked Yuan Xiang away.

"puff!"

Even though Yuan Xiang had the fighting power blessed by the blood of the Ancient Human Emperor, at this time she suddenly spurted out a mouthful of blood. Under the secret technique and majestic power of the Demon Clan Great Sage, she was crushed very miserably, without any trace of damage at all. The power to fight back.

"Click, click..."

At this time, the Human Emperor's armor condensed on Yuan Xiang's body was cracked with cracks, and the Human Emperor's battle sword in his hand was also dim, obviously suffering heavy damage. .??.

"What?!"

Countless warriors from the Human Emperor's Palace, as well as the surviving human warriors on the Eastern Wasteland, could not help but have deep shock in their eyes when they saw this scene, followed by deep fear.

Even their commander, a descendant of the ancient Human Emperor, a powerful female emperor who combined the power of the Human Emperor's pen, couldn't resist it?

"Are you about to die..."

At this time, Yuan Xiang felt that she could not move her whole body and was in huge pain. A bitter and helpless smile appeared on the corner of her blood-stained mouth, "Grandpa Renhuangbi, I have failed to live up to your expectations. Xiao Xiang'er really can't hold on anymore." Living....."

"go to hell!"

At this time, the majestic demon sage standing thousands of meters under the blue sky laughed ferociously and stretched out a ferocious demon claw directly towards Yuan Xiang.

He bombarded away, intending to directly kill the female emperor of the Human Emperor's Palace.

"Qiang!"

But at this moment, a shocking sword light suddenly cut through the sky.

"Pfft!"

The huge arm of more than a thousand meters long stretched out by the demon great sage was cut off directly, and it fell to the ground, smashing many demon armies at once.

"What?"

The hundreds of thousands of human warriors on the battlefield couldn't help but look horrified.

Yuan Xiang also suddenly looked stunned. She looked not far away and suddenly saw a familiar figure.

"you....."

Yuan Xiang's mature beautiful eyes showed traces of long-lasting memories, and her body trembled slightly. The person who came was still so young, and still had the pure appearance of the young man in black in her memory, holding a hand casually. He walked over slowly with an ordinary iron sword.

"ah!!"

But at this time, the demon sage howled violently, and it let out a huge roar: "Who are you?"

"Qiang!"

The young man in black struck out with his sword again.

Poof!

The demon sage's words stopped abruptly, and the huge demon head fell directly from his body.

Boom!

Then the Demon Clan Great Sage's huge body of several kilometers fell to the ground.

This scene is extremely visually shocking!

Everyone was stunned with their mouths wide open.

The demon army of tens of millions was even more stunned and stood still.

At this moment, tens of millions of creatures stood together on the vast battlefield, but at this moment they fell into a strange dead silence.

Click, click...

Only the footsteps of the boy in black echoed throughout the vast battlefield area.

Chapter 930 Noisy

At this moment, everyone in the audience, or the demons, were staring at the figure of the young man in black walking from the end of the earth.

Although he looked very young, he looked like a clean boy, dressed in simple black clothes and holding an iron sword casually in his hand.

But the eyes of all the demons were full of fear.

Just now, this young man in black cut off the arm of their demon clan's great sage commander with his first sword, and directly killed their commander with his second sword.

This kind of strength is really terrifying.

Just two swords, not earth-shattering, no dazzling divine light, but these two ordinary swords shocked the 30 million demon army present, and no demon soldier dared to move.

"Pap, tap..."

The footsteps of the young man in black became the only sound in the entire vast battlefield at this moment.

At this time, Yuan Xiang leaned on her body with the golden war sword and stood up with difficulty. Her long hair was messy, blood was dripping from the corner of her mouth, and she looked very miserable.

But now she was staring at the young man in black walking from the end of the earth, with a rare and extremely happy smile on her beautiful face.

This kind of smile stunned the hundreds of thousands of Donghuang human warriors present.

They had never seen this female emperor from the Human Emperor Palace smile before.

But at this moment, the queen's smile was so stunning that it captivated the world and captivated the country.

"Who is that young man in black?"

At this moment, everyone has such a huge question in their minds.

The young man in black was none other than Ye Feng, who had just arrived.

Ye Feng thought about entering the Great Emperor Tower with the Human Emperor Bi, Yuan Xiang and other warriors from the Human Emperor Palace and leaving Longyuan Continent.

But Ye Feng was not sure at that time whether he could really seize the glimmer of life that Uncle Nan created for him and successfully escape from Longyuan Continent.

If it fails, it will harm the Renhuang Bi and the Renhuang Palace.

So in the end, Ye Feng didn't bring it up, and Renhuang Bi didn't say much.

Ye Feng walked up to Yuan Xiang at this time and looked at the "female queen" in front of him.

Suddenly he smiled slightly, pinched her beautiful face, and said: "Little girl, I haven't seen you for many years, but you have grown as tall as me."

"What?!"

The hundreds of thousands of Imperial Palace warriors and Eastern Wasteland warriors around saw this scene and almost had their eyes blown out of their heads.

The supreme female queen, who forged the Human Emperor Brush and represented the hope of the entire Eastern Wilderness, was the supreme goddess-level figure, Queen Yuanxiang. The female queen, whose status was extremely noble, was actually called "little girl" by the young man in black at this moment. ?

Moreover, that beautiful and noble face was pinched by the young man in black.

This scene completely shocked everyone's attention!

"kill!"

"Revenge for the great commander!"

"A strong human race should be a quasi-emperor, but even a human race quasi-emperor will die under the trampling of tens of millions of our demon army!"

At this moment, after a short period of panic, the army of tens of millions of demons began to let out cruel killing roars.

"boom!"

But at this moment, Ye Feng suddenly slapped him in the back.

"Boom!!"

A towering hand like a planet, like the palm of an ancient giant, suddenly appeared in the sky and bombarded it directly. The 30 million demon army was instantly blown to pieces, and a deep hole appeared on the ground. Bottomless big handprint.

The field suddenly fell into complete silence.

Ye Feng then said lightly: "Noisy."

quiet!

Deadly quiet!

At this time, everyone on the field could not help but tremble and their legs and feet felt weak when they saw this scene.

With a palm like a god, it instantly killed an army of thirty million demon lords, and even caused a tremor and sinking of the entire floor.

Is this still a power that humans can exert?

It is simply as powerful as the Creator of heaven and earth!

At this time, Ye Feng looked at Yuan Xiang in front of him again, looking at the horrified look on the woman's face, and just smiled and said: "I know you have a lot of questions, let's go back to the Human Emperor Palace first. Right." At this moment, everyone in the audience, or the demons, were staring at the figure of the young man in black walking from the end of the earth.

Although he looked very young, he looked like a clean boy, dressed in simple black clothes and holding an iron sword casually in his hand.

But the eyes of all the demons were full of fear.

Just now, this young man in black cut off the arm of their demon clan's great sage commander with his first sword, and directly killed their commander with his second sword.

This kind of strength is really terrifying.

Just two swords, not earth-shattering, no dazzling divine light, but these two ordinary swords shocked the 30 million demon army present, and no demon soldier dared to move.

"Pap, tap..."

The footsteps of the young man in black became the only sound in the entire vast battlefield at this moment.

At this time, Yuan Xiang leaned on her body with the golden war sword and stood up with difficulty. Her long hair was messy, blood was dripping from the corner of her mouth, and she looked very miserable.

But now she was staring at the young man in black walking from the end of the earth, with a rare and extremely happy smile on her beautiful face.

This kind of smile stunned the hundreds of thousands of Donghuang human warriors present.

They had never seen this female emperor from the Human Emperor Palace smile before.

But at this moment, the queen's smile was so stunning that it captivated the world and captivated the country.

"Who is that young man in black?"

At this moment, everyone has such a huge question in their minds.

The young man in black was none other than Ye Feng, who had just arrived.

Ye Feng thought about entering the Great Emperor Tower with the Human Emperor Bi, Yuan Xiang and other warriors from the Human Emperor Palace and leaving Longyuan Continent.

But Ye Feng was not sure at that time whether he could really seize the glimmer of life that Uncle Nan created for him and successfully escape from Longyuan Continent.

If it fails, it will harm the Renhuang Bi and the Renhuang Palace.

So in the end, Ye Feng didn't bring it up, and Renhuang Bi didn't say much.

Ye Feng walked up to Yuan Xiang at this time and looked at the "female queen" in front of him.

Suddenly he smiled slightly, pinched her beautiful face, and said: "Little girl, I haven't seen you for many years, but you have grown as tall as me."

"What?!"

The hundreds of thousands of Imperial Palace warriors and Eastern Wasteland warriors around saw this scene and almost had their eyes blown out of their heads.

The supreme female queen, who forged the human emperor pen and represented the hope of the entire Eastern Wilderness, was the supreme goddess-level figure, Queen Yuanxiang. The female queen, whose status was extremely noble, was actually called "little girl" by the young man in black at this moment. ?

Moreover, that beautiful and noble face was pinched by the young man in black.

This scene completely shocked everyone's attention!

"kill!"

"Revenge for the great commander!"

"A strong human race should be a quasi-emperor, but even a human race quasi-emperor will die under the trampling of tens of millions of our demon army!"

At this moment, after a short period of panic, the army of tens of millions of demons began to let out cruel killing roars.

"boom!"

But at this moment, Ye Feng suddenly slapped him in the back.

"Boom!!"

A towering hand like a planet, like the palm of an ancient giant, suddenly appeared in the sky and bombarded it directly. The 30 million demon army was instantly blown to pieces, and a deep hole appeared on the ground. Bottomless big handprint.

The field suddenly fell into complete silence.

Ye Feng then said lightly: "Noisy."

quiet!

Deadly quiet!

At this time, Ye Feng once again looked at Yuan Xiang in front of him, looking at the horrified look on the woman's face, and just smiled and said: "I know you have a lot of questions, let's go back to the Human Emperor Palace first. Bar."
