

Another World 1531

Chapter 1531: Giving A Push

Zhao Hai calmly observed as robots took care of the luggage to be loaded up from Bluetree Planet. If the robots can't handle it, then he could come back using the Space.

After everything has been taken care of, Zhao Hai brought the Hell King's Ship to the headquarters. Although Shen Wei seems to have no intention of sending an Immortal Expert to escort him, Zhao Hai still had to give word to Shen Wei before departing. Otherwise, Shen Wei would find fault with him.

Zhao Hai knew that Shen Wei was looking for anything to cause problems for him. Naturally, he wouldn't give Shen Wei anything to work on. So after arriving at the headquarters, the first thing he did was report to Shen Wei.

Just as expected, Shen Wei had Zhao Hai wait for quarter of an hour before inviting him in. Looking at the Shen Faction's actions, Zhao Hai knew that Shen Wei was someone who only did the minimum amount of work. He's a person who was too calculating. This kind of person wouldn't go on to do great things.

Entering the conference Hall, Zhao Hai saw Shen Wei still sitting on the seat of honor. The other Immortal Experts were also present. After Zhao Hai gave everyone a salute, he turned to Shen Wei and said, "Reporting to Elder Shen, this Zhao Hai came to say farewell before leaving. I would be late if I don't leave. May I ask if Elder has any more advice?"

Shen Wei looked at Zhao Hai feeling complicated. Zhao Hai had no grievances with him. Also, Zhao Hai's performance was satisfactory. If Zhao Hai wasn't from the Mu Faction, he would definitely take him in. Unfortunately, Zhao Hai was too involved with the Mu Faction. Shen Wei couldn't use Zhao Hai, and he wouldn't dare do so either.

Shen Wei replied, "Go, don't lose face for the Hundred Treasures Realm." Zhao Hai nodded. Then after giving another salute, he turned around and left.

As soon as Zhao Hai got outside, a few Severed Soul Experts from the Hundred Treasures Realm asked where he was going. Naturally, Zhao Hai answered them with the truth.

The reason these Severed Soul Experts came to ask this was because they heard rumors that Zhao Hai would be sent to explore the sea. This caused the Severed Soul Experts to be in an uproar.

These Severed Soul Experts knew very well how important Zhao hai was to the Hundred Treasures Realm. During the last war, these people fought beside Zhao Hai. How strong was Zhao Hai? He was able to defend against Immortal Experts. In this case, it's natural for these people to react.

Now that they met Zhao Hai, they naturally want to ask if the rumors were real. After obtaining a positive reply, these Severed Soul Experts were in a great uproar.

Naturally, Shen Wei heard the ruckus outside. He quickly appeared in front of the door as he looked at the people outside and roared, "What's the racket? Don't you know where this is?"

The Severed Soul Experts stopped, some of them turned their head to look at Shen Wei. Then one of them took a step forward and said, "May I ask Elder Shen whether Zhao Hai was sent to explore the sea?"

Shen Wei looked at the Severed Soul Expert and knit his brows. It was because this Severed Soul Expert wasn't from the Mu Faction nor the Shen Faction. It was a Severed Soul Expert that Shen Wei didn't intend to offend. So he calmly replied, "Yes, after discussing with the other Elders, the task of exploring the sea has been given to Zhao Hai."

The Severed Soul Expert replied, "Elder, Zhao Hai greatly contributed to the Hundred Treasures Realm. Moreover, his strength is formidable. Why would we send him out to explore the sea? I request the Elder to withdraw the assignment."

The other experts also loudly said, "We ask the Elder to withdraw the assignment."

Shen Wei didn't expect the situation to turn this way. He didn't expect Zhao Hai to be this popular in the Hundred Treasures Realm. But seeing Zhao Hai just standing there with a calm face, Shen Wei couldn't help but burn with anger. In his mind, this was Zhao Hai's scheme. Zhao Hai willingly agreed to explore the sea, and then he organized these people to put pressure on Shen Wei and make him look bad. If he takes a step back now, then he would have a hard time establishing his influence in the future.

Thinking about this, Shen Wei coldly snorted and said, "This is the decision of the Elder's Assembly. This decision cannot be changed. What you're doing right now is useless, go back to your jobs." Then he no longer paid attention to the crowd as he turned around and entered the conference hall.

Nobody expected Shen Wei to have a strong attitude. But this made Zhao Hai secretly smile. He was going to the sea anyway. But he came this time to the conference hall to have Shen Wei make him wait for a quarter of an hour. Even if Zhao Hai didn't do anything, he was still quite angry. He knew that Shen Wei wouldn't last for long. And since Shen Wei wanted to ruin himself, then Zhao Hai would give him a push.

Seeing Shen Wei's strong attitude, the Severed Soul Experts were in an uproar once again. The Severed Soul Expert who just spoke couldn't help but frown. Although he was not an Immortal Expert, he has someone backing him. Shen Wei not only ignored his face, but also the face of the Immortal Expert behind him. How can he just accept this humiliation?

Just as the Severed Soul Expert was about to enter the conference hall to give Shen Wei his thoughts, Zhao Hai grabbed him. After that, Zhao Hai turned to the other Severed Soul Experts and said, "Everyone, please calm down. Listen to me first."

The crowd quieted after a while. Zhao Hai smiled faintly and said, "Thank you for speaking up for me. I respect the decision made by the Elders. Please don't offend the Elders just for me. The Hundred Treasures Realm has been on the right track in the past two years. There shouldn't be any problems soon. Exploring the sea won't be a problem. Perhaps when I come back, I'll be able to bring treasures for everyone. Right, time is tight, I won't stay for much longer." After he said that, Zhao Hai greeted everyone before turning around and leaving through the transmission formation. And with a flash of white light, he disappeared.

The Severed Soul Expert who spoke for Zhao Hai had a pale complexion. He looked at the conference hall coldly before he said, "Let's go." The Severed Soul Expert wasn't mad at Zhao Hai. He knew that Zhao Hai had blocked him from having a conflict with Shen Wei, which would end in his eventual loss.

Although Zhao Hai said that the expedition would bring benefits, a discerning person would know that this expedition was a life and death endeavor. Zhao Hai only said that he didn't want them to be in conflict with Shen Wei. These Severed Soul Experts would not only remember Zhao Hai's kindness, but also their hatred towards Shen Wei.

Although Shen Wei already entered the conference hall, he was still aware of what's happening outside. If that Severed Soul Expert really did come and express his thoughts, then Shen Wei would certainly use him to show his position. But after hearing Zhao Hai, the Severed Soul Expert retreated. Shen Wei was surprised, but he coldly snorted and said, "Lifting yourself up with favors, let's see how I deal with you."

Shen Wei thinks himself as clever. However, in the eyes of the other Immortal Experts, he actually was not.

These Immortal Experts weren't fools. The reason they sided with Shen Wei was because they want to get bigger benefits.

However, they discovered that after his disciple died, Shen Wei was becoming more and more unreasonable. The only thing in his mind right now was dealing with the Mu faction. He didn't even know how his disciple died, why would he blame the Mu Faction? This was the Ten-thousand Realm Battlefield, death was quite common here. However, Shen Wei put the loss on Mu Yao's head. Wasn't this thinking absolutely unfair?

Also, to these Immortal Experts, Mu Yao had been very good to Shen Wei. During Mu Yao's term, he didn't suppress Shen Wei. Instead, he treated Shen Wei right. These Immortal Experts didn't think that Mu Yao was afraid of Shen Wei. Every powerful cultivator climbed up a mountain of corpses and swam through a sea of blood. How could they be afraid of anyone. Everything that happened was just Shen Wei's delusion caused by being inferior to Mu Yao ever since they were young. Because of this, Shen Wei did everything in order to suppress Mu Yao.

And now, Shen Wei treated Zhao Hai in an ugly manner. Zhao Hai's achievements in the war were well-known throughout the Hundred Treasures Realm. Moreover, it was impossible for Mu Yao to pin these achievements to Zhao Hai. The previous war was between three powerful realms along with countless smaller realms. Under the gaze of so many eyes, how could Mu Yao install fake achievements on Zhao Hai and have nobody complain?

Shen Wei failed to see this point. Instead, he suppressed Zhao Hai and gave him a suicidal mission. Moreover, he treated the Severed Soul Experts roughly. It must be known that the influence of the Severed Soul Experts was still quite substantial. Even an Immortal Expert wouldn't dare a large number of Severed Soul Experts.

Shen Wei continued to miss important point after important point. Moreover, he still felt that he was clever. What he didn't know was that although the Severed Soul Experts had retreated, the anger in

their heart wouldn't be quenched. The more time passes, this anger would continue to grow before they could no longer suppress it and it would explode like a volcano. When the time comes, even Shen Wei wouldn't have the power to stop it.

Thinking of this, the other Immortal Experts couldn't help but look at one another. They could see the thoughts of the others. This wasn't the first time that they served beside Shen Wei. They all knew what kind of person Shen Wei was. He was a stubborn person who's prone to turning a deaf ear to advice.

If Shen Wei continues to ignore advice, then it wouldn't be long before he suffers a misfortune. These Immortal Experts knew the future yet they still followed Shen Wei. Actually, these Immortal Experts already had plans for themselves, they just didn't show it. They just calmly sat there and continued to chat with Shen Wei. They went on with their tasks as though there's nothing going on.

Chapter 1532: Immortal Expert Blocking The Way

Zhao Hai appeared on the other side of the transmission formation. As soon as he appeared, before he could see what was around him, he heard someone say, "I have seen Mister Zhao Hai."

Zhao Hai focused his eyes and recognized a subordinate of the Hundred Treasures Realm. He also fought beside them before. This person was from a subordinate realm called the Shadow Shuttle Realm. They were good at making small shuttles that had formidable offensive strength.

The commander of the Shadow Shuttle Realm in the battlefield was called Huang Tianpeng. He was a Severed Soul Stage Expert. Their Immortal Experts didn't manage their normal affairs and instead acted as hidden guards of the headquarters. Because of this, the entire headquarters was managed by Huang Tianpeng.

Shadow Shuttle Realm was the Hundred Treasures Realm's southernmost subordinate. Essentially, they were at the southern boundary of the Hundred Treasures Realm's southern domain.

This was the farthest Zhao Hai could teleport to. Now, he has to walk the rest of the way by himself. Moreover, the remaining section wasn't safe. He was at risk of being attacked by other realms.

Zhao Hai understood the importance of this sea expedition to the other realms. This was very much a competition between realms. Although the various realms sent famed youths to explore the sea before, they didn't send any core members of their realm, which explained the current issue.

Departing together and working with each other was practically a lie. Among the group were people who had grudges with each other. It was almost assured that they would kill each other once at sea.

However, Zhao Hai didn't care about this. He already has a plan. And even if the other party sends an Immortal Expert, he could still deal with them.

After chatting for a while with Huang Tianpeng, Zhao Hai left the Shadow Shuttle Realm's headquarters. The meeting place was a peninsula quite a distance from the Hundred Treasures Realm's territory. Ten days of travel was naturally enough, but there were people blocking the way, then time would be a little tight.

Despite this, Zhao Hai was prepared. He already had his silver needles scout ahead. Even if people were blocking him, he can still rush to the meeting place in the shortest amount of time.

Zhao Hai needed to reach the destination on time because of the rules set in place. If someone was late, then they would be subjected to a penalty.

If it was still Mu Yao's term, then Zhao Hai wouldn't be afraid of being punished. Not to say being punished, Mu Yao wouldn't even send Zhao Hai to explore the sea. But now that Shen Wei was in power, if he didn't arrive on time, then Shen Wei definitely wouldn't let him off.

Upon leaving the Shadow Shuttle Realm's headquarters, Zhao Hai immediately took out the Hell King's Ship and then rushed towards the seaside. It must be said that the Hell King's Ship has become famous in the Ten-thousand Realm Battlefield. Everyone knew what it looked like. If they spotted the Hell King's Ship, then people would get out of the way.

Zhao Hai's reputation increased because of the previous war. Now, nobody in the Ten-thousand Realm Battlefield would dare underestimate him. He was currently the most famous youth in the battlefield.

This time, Zhao Hai didn't only release the Hell King's Ship to travel fast. He also wanted the children inside the ship to see the outside. Therefore, he also brought them all out.

Laura and the others were also on the Hell King's Ship. Besides them and the children, there were also a lot of Undead keeping things in order.

Now that Zhao Hai released the Hell King's Ship, the Undead opened the windows to allow the children to look outside.

These children were very curious. In the past, they were just ordinary children back in their home planets. They haven't been anywhere else. And after being transferred to Bluetree Planet, this was their first outing. Because of this, they were all curious as they looked at everything they passed by.

Zhao Hai swept his ship with his spiritual force and couldn't help but smile. These children couldn't just stay at school studying. They need to expand their horizons. Only when their visions had been expanded could their efforts bear fruit.

Laura stood on Zhao Hai's side, as she looked at the eyes of the children, she smiled faintly and said, "Brother Hai, these are quite good. This trip will be very important for their future. Now I hope that someone will attack us so that they can see a battle between experts."

Zhao Hai smiled and said, "We're still in the Shadow Shuttle Realm's territory. The Hundred Treasures Realm is currently riding a rising wave. People from the other realms wouldn't dare mess around with them. But once we get out of the Hundred Treasures Realm's domain, some blind people might come and meet us."

Laura and the others smiled. Julie was also on the ship along with Cai'er. Julie looked at Zhao Hai and said, "Brother Hai, if someone blocks our way, can you leave them to me?"

Hearing Julie, Zhao Hai couldn't help but stare. Then he turned to her and smiled bitterly. He didn't expect Julie to still be this battle hungry. Moreover, Zhao Hai understood Julie's strength. After entering the Space, Julie experienced a huge powerup. Now, even if he used the 18 Buddhist Techniques, Zhao Hai was still not sure if he could win against Julie. This was evidence to how powerful the current Julie was.

Seeing Julie's hopeful face, Zhao Hai had no choice but to nod, "Alright. If people really come to look for trouble, you can fight them."

Hearing Zhao Hai, Julie turned ecstatic, and with an excited expression she said, "Fantastic, thank you Brother Hai."

Julie was the liveliest one among the females. Moreover, she was somewhat naive. Her character was very likeable. No matter Zhao Hai and the others were very fond of her.

As the Hell King's Ship flew, cultivators immediately made way as soon as they saw it. Some cultivators even gave Zhao Hai a salute from a distance. Zhao Hai also returned the salute as he continued on without stopping.

Before long, the Hell King's Ship left the Hundred Treasures Realm's domain. Despite this, Zhao Hai didn't slow down. He kept flying forward at a high speed. But this time, Zhao Hai wasn't standing on the bow of the ship. Instead, he sat down on the deck along with Laura and the others to eat a meal.

Mo Shen had always been on Zhao Hai's side. He also sat on the table and ate without reservations. In front of him was a large pile of food intended for him to consume.

Zhao Hai took a glass of wine and took a sip. Then he placed the glass down and said, "Without discussing the resources we would gain, the exploration this time should at least give us two things. Firstly, the dark clouds and the purple fog. I don't believe that the Space would be unable to subdue the two. And second, we might be able to establish a stronghold overseas.

Laura nodded and said, "I don't believe that there are no beasts in this sea. Maybe we can collect beasts for the Space. But it would be better if we could find a new continent."

Lizzy smiled and said, "In two years, the Space is able to level up to 270, a rise of 20 levels. I didn't expect this before. Sister Julie is really amazing."

Julie chuckled and replied, "This is nothing. The Space is also good to me. Right, why are there no enemies?"

Hearing Julie, everyone laughed. Then at this time, Cai'er suddenly said, "Look, someone did come. Moreover, this person is quite strong."

When Julie heard Cai'er, she stared, then she excitedly stood up as he said, "Where? Where are they? Are they looking for us?"

Cai'er smiled faintly and said, "They should be. Otherwise, why would an Immortal Expert stand in our way? We'll meet him in about ten minutes."

Zhao Hai replied, "An Immortal Expert? They really think highly of me. But do they think that an Immortal Expert can do anything to me?"

Cai'er replied, "That's possible. Although you fought with Immortal Experts before, it wasn't for a long time. Moreover, the enemy ran away. Because of this, a lot of people in the Ten-thousand Realm Battlefield don't believe that you fought with an Immortal Expert. Sending one after you should be quite normal."

Zhao Hai smiled bitterly and said, "That's interesting. Alright, I want to see who I'm up against." The Hell King's Ship accelerated. In less than ten minutes, Zhao Hai slowed down because there was an Immortal Expert wearing grey clothes standing on the Hell King's Ship's path.

Zhao Hai and the others also finished their meal at this time. They stood on the bow of the ship and looked at the Immortal Expert. The Immortal Expert was quite ugly. He had a long face with very few hairs on his head. He also had small eyes that looked awkward on his face.

Zhao Hai cupped his fist towards the Immortal Expert and said, "May I ask why Senior is blocking this Junior's path?"

The Immortal Expert was in a daze as he looked at the beautiful women on Zhao Hai's ship. He didn't expect Zhao Hai to have such pretty women beside him. A flash of envy and hate appeared in his eyes as he said, "I'm here to take your life."

Zhao Hai smiled faintly and said, "A lot of people want to take this Zhao Hai's life. However, they all failed. I wonder if Senior is just like the rest of them."

The Immortal Expert didn't reply, instead he coldly snorted and said, "Enough chit-chat, go die!" Then he waved his hand as he sent a fist flying towards Zhao Hai.

Before Zhao Hai could make a move, a charming grunt could be heard as Julie jumped in. It has been a long time since her last battle, so Julie was itching for a fight. Seeing an Immortal Expert come out, Julie naturally didn't wait for Zhao Hai to speak. She immediately rushed forward.

Chapter 1533: Use Of The Bone Plants

The Immortal Expert never thought that it wouldn't be Zhao Hai who would move, but instead his woman. The punch that he sent out was just to test Zhao Hai. Seeing Julie get in front, the Immortal Expert couldn't help but squint his eyes. He wanted to see how strong this woman was.

Julie turned her right hand into a bone blade. As he swung the blade down, the fist was immediately broken. Julie proceeded to attack the Immortal Expert.

Julie was an expert at close-combat. This fighting style requires the fighter to be quick. And because of the Space, Julie was able to comprehend some space laws allowing her to become faster. In a few flashes, she was already in front of the Immortal Expert.

The Immortal Expert was startled. He didn't expect Julie to be this quick. He quickly withdrew a long spear. This spear was a rifle like the Fireweavers, instead it was the cold weapon spear.[1]

The Immortal Expert raised his spear to counteract Julie's strike. At the same time, he retreated and took out more long-handled artifacts. Then he proceeded to attack Julie.

Julie was like a bone maggot, sticking close to the Immortal Expert and not allowing any distance between them. Although the Immortal Expert released a few weapons, Julie counteracted by transforming her limbs into weapons as well. It didn't take long before the Immortal Expert was placed in a disadvantage.

It wasn't hard to explain why the Immortal Expert was having a hard time. Normally, cultivators would fight at a long-range. A close-combat fighter like Julie was very rare, and only body cultivators do it.

However, there weren't a lot of body cultivators in the Ten-thousand Realm Battlefield. Therefore, the Immortal Expert wasn't used to this type of battle. It's natural for him to be at the back foot.

Most importantly, Julie wasn't any weaker than him. It was impossible for the Immortal Expert to use his artifacts to gain an advantage. Because of this, the Immortal Expert had an ugly expression on his face.

Zhao Hai stood on the Hell King's Ship as he spectated the fight. He didn't intend to meddle. Also at this time, although the children couldn't go out to see the fight, they were watching it through a projector.

These children were quite familiar with Julie. Ever since she entered the Space, Julie no longer hungered for humans. Instead, she became fond of children. Because of this, she visited the academy quite often.

Now, seeing Julie fight on the screen, and seeing her being strong, the children couldn't help but be excited. They cheered every time she clashed with her opponent.

Zhao Hai could see that Julie wasn't going all out. It seems like she was intending to keep the Immortal Expert from leaving.

However, Zhao Hai also knew how hard it was to keep an Immortal Expert. If one wanted to stop an Immortal Expert from escaping, they would need to be at least a level stronger than them.

The Immortal Expert wasn't in a good mood. He tried method after method in order to get out of Julie's entanglement. However, he had been unsuccessful so far. At this point, it had become more difficult to get out.

The two sides fought for one hour. At this point, the Immortal Expert could no longer afford to delay. The longer he stayed here, the more dangerous it would be. This was because Zhao Hai was still on the side watching the battle. If he didn't leave now, he wouldn't be able to leave forever.

Thinking of this, the Immortal Expert clenched his teeth as he attacked Julie with his artifacts. Then suddenly he shouted, "Explode!"

The artifacts exploded with a bang. Exploding their artifacts was a technique that cultivators didn't like to use. This was because this skill damages their soul. It was damaging the enemy with 100 but also hurting yourself for 80. And it might not even kill the enemy. This was a technique primarily used to escape.

Julie could be proud for being able to compel an Immortal Expert to use this technique. The Immortal Expert wants to use the explosion to drive Julie back. It would also be much better if Julie was injured.

Unfortunately, the Immortal Expert was facing Julie. Julie was a Bug Queen. Not only can her limbs become bone weapons, her whole body could transform as well. Because of this, Julie was able to cover her body with bone armor before she was hit by the explosion.

Before the Immortal Expert could leave, Zhao Hai blocked him. Zhao Hai was now wearing full body armor. He didn't use any weapons and instead used his fists to fight the Immortal Expert.

The Immortal Expert was now feeling depressed. Both Zhao Hai and Julie were fighting in close-combat.

After Zhao Hai clashed with the Immortal Expert, Julie arrived. The two proceeded to team up against the enemy. On the other hand, because he exploded his artifacts, the Immortal Expert was now injured. He was further pushed back.

However, the fight was still not easy. After all, the enemy was an Immortal Expert. He was able to divide his soul and placed it inside his spear to fight against Zhao Hai while the main body faced Julie.

But now, it was obvious that he was no longer Julie's opponent. First, he wasn't a body cultivator and he was weak against close-combat. And second, he was already injured.

As for Zhao Hai, he was waiting for an opportunity to capture the spear and send it to the Space. He knew that this spear was the life source weapon of the Immortal Expert. He wanted to send it to the Space and analyze it and see what's special about it.

However, the soul inside the spear was one with the Immortal Expert. Once the Immortal Expert dies, the soul inside the spear would die as well. In the past, when he sent Immortal Experts to the Space,

they were already dead. Because of this, the spirit inside their artifact was also dead. He wanted to study their life source weapons, but he didn't have any opportunity to do so.

Because of this, he wanted an artifact of an Immortal Expert that was still alive. This wasn't easy to do. The soul inside the artifact was also at the Immortal Stage. Taking this artifact to the Space was as hard as sending an Immortal Expert themselves into the Space.

As he fought with the spear, Zhao Hai was also paying attention to Julie's situation. Julie was now on the winning side. Although the Immortal Expert roared again and again, he could only parry the attacks coming after him. He didn't have the strength to fight back. It seems like it would only be a matter of time before Julie kills him. Zhao Hai needs to hurry up.

Zhao Hai intensified his attacks as the spear clashed with him. Then at this moment, an opportunity appeared. He waved his hand and a long iron chain wrapped around the spear. The artifact seems to be stunned by the sudden change, and this pause was enough for Zhao Hai to send it through a spatial rift.

The Immortal Expert was connected to his spear. Now, he suddenly found out that his spear had been cut out. He was shocked and couldn't help but pause. Julie used this chance to pierce his throat using a bone hook.

At this moment, a prompt came from the Space, "Foreign program detected. Subjugating program, program subjugated. The program seems to be a divine soul. Since it has been separated from the main body, it is rapidly weakening. Suggesting the Host to remove the divine soul and transplant it to another. It is also recommended that the host use bone plants for the carrier since it can help nurture divine souls."

Zhao Hai stared, then he exploded with happiness. He never knew what the bone plants were used for. When the Space was still level 250, he wanted to use the scanner to analyze what bone plants were. However, the Space just told him that its level was still low. But now, the Space took the initiative to tell him to use bone plants for the carrier since it can nourish divine souls. This made Zhao Hai happy. He immediately combined bone plants onto liquid silver. After that, he took out the divine soul from the spear and transplanted it onto Liquid Silver.

However, Zhao Hai didn't expect it to fail. While he was stunned, the Space issued another prompt, "Because Liquid Silver is used by the host, divine souls cannot be added. Please look for another carrier."

Zhao Hai couldn't help but knit his brows. He immediately decomposed the silver, gaining two new resources for the Space. After that, Zhao Hai used the method to refine spirit snake needles in order to recreate the spear. He also added bone plants to the newly made spear. After that, he transplanted the divine soul into the spear. The divine soul melted into the spear. Zhao Hai even felt the divine soul transmitting a happy emotion.

At this time, the corpse of an Immortal Expert was sent to the Space. Once the corpse turned into an Undead, Zhao Hai asked, "Where are you from?"

The Undead bowed its head and said, "Replying to the Young master. I am from the Ghost Spirit Realm. I was ordered this time to kill the Young Master."

Zhao Hai knit his brows as he said, "Ghost Spirit Realm. Huh. They are really ambitious. To actually be the first to cause trouble. Hmph. I'll find time to deal with them. What are your cultivation methods? Maybe I can teach the children new skills. Go back and write it." The Immortal undead bowed and then drew back.

Zhao Hai knew what cultivation methods the Ghost Spirit Realm practiced. They belonged to the evil faction among cultivators. Moreover, they were quite strong. However, this person must be specially chosen. Cultivators from the Ghost Spirit Realm normally used ghosts or zombies to fight. However, this person was instead using a spear. This should be intended to hide his origin.

Zhao Hai wanted the Ghost Spirit Realm's methods because several of the children had the yin attribute. They should be suitable to study evil cultivation methods. Because the evil cultivation methods that Zhao Hai collected before weren't advanced, he wasn't able to teach advanced-level evil cultivation methods to the children. He just laid a foundation for them. His original plan was to kill some evil sect masters and get their cultivation methods. But now, that seems unnecessary since someone personally delivered the cultivation methods to him.

After dealing with the matters inside the Space, Zhao Hai returned to the Hell King's Ship. The ship was still moving fast. Laura and the others didn't return to the Space and just chatted on the top deck.

Seeing Zhao Hai arrive, Cai'er said, "Young Master, now that we know how to use bone plants, should we make something?"

Zhao Hai raised his brows and said, "What do we make?"

Cai'er smiled and said, "Young Master, how can you forget? Inside the Hell Space, soul fires are produced every time. Aren't soul fires like divine souls? It's only because they are inferior that they are weaker than skeletons. They also have no wisdom. But if we can use bone plants, we can nourish these soul fires. Once they gain sentience, we can obtain large quantities of soul weapons that aren't weak."

Hearing Cai'er, Zhao Hai stared, then he nodded and said, "We can do that. Alright, let's follow your plan. However, we need to experiment first to see if this method can be used. We also need to see if we can mass produce it. I still want to see what kind weapons we can use for this method."

Cai'er nodded and said, "Rest assured, I'll take care of it."

Zhao Hai nodded, then he said, "How are the children doing?"

Cai'er smiled and said, "The children are currently talking about the battle. They are still very weak, so they have a lot of things they couldn't understand. And even if we tell them, they wouldn't be able to comprehend it. There's nothing to worry about them."

Zhao Hai nodded, then he said, "We don't have much time left. We need to speed up a bit. There's no need to be dragged by these people. When I come back from the sea, I will clean up the Ghost Spirit Realm. To actually dare move against me. They will regret it."

Laura and the others agreed. Laura replied, "The Ghost Spirit Realm is good at using ghosts and zombies to fight. They came to us probably because they're curious about Brother Hai's Undead controlling method. Brother Hai, although you didn't release strong Undead, their sheer number definitely made those fellows jealous."

Zhao Hai nodded, then he said, "We'll take care of this once we return from the sea. What's important right now was to see how big the sea really is."

Spear and gun/rifle have the same character in chinese, which explains the statement.

Chapter 1534: Hornview Mountain

Hornview Mountain was a low rugged mountain. It had no plants and a very thin spiritual qi density. It was a strange place considering that it was in the Ten-thousand Realm Battlefield.

At this time, there were more than a dozen people standing on the mountain. Half of these people had powerful auras since they were Immortal Experts. As for the others, they were Transcending Tribulation Experts. However, the expressions of these Transcending Tribulation Experts weren't very good. Every single one of them had grey expressions, they looked defeated and dejected.

These Transcending Tribulation Experts were the representatives of their realms. Naturally, it was impossible for the realms to send Severed Soul Experts. Because of these, Transcending Tribulation Experts were sent.

These Transcending Tribulation Experts knew what they were about to do. They also knew that this was a suicidal mission. Because of these, all of them had ugly expressions.

Suddenly, a huge ship came flying from a distance. Before long, the ship arrived at Hornview Mountain. Seeing the huge ship, those on the mountain couldn't help but change their expression, this included the Immortal Experts.

This huge ship was very famous in the Ten-thousand Realm Battlefield. This ship signifies the presence of a person, someone from the Hundred Treasures Realm, Zhao Hai!

This ship was Zhao Hai's banner. Everyone in the battlefield has already recognized Zhao Hai's skill. However, nobody expected him to appear here.

Everyone on the mountain was stunned. As they looked at the figure approaching Hornview Mountain, they were all sure that it was Zhao Hai. In the past two years, Zhao Hai's name rode alongside the Hundred Treasures Realm's fame. Almost every major power knew Zhao Hai's face, they will not mistake it for someone else.

When he arrived at Hornview Mountain, Zhao Hai gave everyone a bow and said, "Zhao Hai has seen everyone. This Zhao Hai has been ordered to explore the sea. I thank everyone in advance for your help."

Hearing Zhao Hai's introduction, the Immortal Experts looked at each other. They saw the shock on each others' faces. Zhao Hai's great contribution for the Hundred Treasures Realm wasn't a secret. The Hundred Treasures Realm was actually willing to send a talent like Zhao Hai to explore the sea? Had the Hundred Treasures Realm gone mad?

An Immortal Expert looked at Zhao Hai and said, "I didn't expect the Hundred Treasures Realm to send you. Good, good." To be honest, they didn't oppose the Hundred Treasures Realm's decision to send Zhao Hai. If Zhao Hai dies out at sea, then it would be good for them.

Zhao Hai smiled faintly and said, "This expedition is a major event for all of us. Naturally, the realm has to send the most capable person. Since this Zhao Hai is still young and ignorant, the realm chose to send me to learn."

The Immortal Experts looked at Zhao Hai in confusion. They believed that Zhao Hai knew what this expedition represented. It was a suicidal mission. How could Zhao Hai be this confident? Isn't he afraid of death?

The Immortal Experts naturally didn't know what's inside Zhao Hai's mind, and Zhao Hai didn't intend to tell them. Zhao Hai turned his head and looked at the experts who would participate in the expedition. He smiled at them and then calculated the time. He looked at the Immortal Experts and said, "Seniors, there's still some time. Is there anyone who hasn't arrived yet?"

Hearing Zhao Hai, the Immortal Experts nodded. Then one of them said, "There are still 2 realms who haven't arrived. One is from the Puppet Realm and the others is from the Ghost Spirit Realm. However, they should be arriving soon."

Zhao Hai nodded, then he looked at the mist flowing on top of the sea. He let out a long breath and said, "Although I have been sent to explore the sea, it's also something I wanted to do. Majority of the Ten-thousand Realm Battlefield's land is controlled by the Five Great Realms. We can only fight each other for the small land we're left with. In the end, our strength is consumed. On the contrary, the Five Great Realms have been having a peaceful time. Now, the Five Great Realms have been in peace for many years and they had been accumulating their strength. With all this strength, they need someone to fight, which would end up to be us. We cannot afford to offend the Five Great Realms at this time, so our only choice is to look beyond the sea. If we can really discover something out there, then it would be good for us. We can rely on the sea to face the Five Great Realms. Advance and retreat, advance and retreat. When the time comes, it wouldn't be us who would be in trouble, but instead the Five Great Realms."

The Immortal Experts didn't expect Zhao Hai to suddenly say this. All of them stared, then one of them sighed and said, "We know that, but the poisonous mist and the dark clouds leave use with nothing. For many years, a lot of experts died exploring the sea. Do you really think that we want to send people to their death? A lot of resources is needed to train a Transcending Tribulation Expert. How can we just thrown them away like that. The reason we continue to send people is the hope of finding something out there that can allow us to change our position."

When the Transcending Tribulation Experts heard this, their expression lightened up. Seeing their expressions, Zhao Hai just smiled faintly and didn't say anything.

At this time, Zhao Hai could feel two formidable auras coming towards Hornview Mountain. Zhao Hai's senses couldn't be wrong, there were two Immortal Experts.

Before long, four figures appeared near the mountain. Two of them looked ghostly and had clouds beneath their feet. A ghost's face could be seen once in a while on the cloud, which looked quite eerie.

The other two were standing on a black turtle's back. The turtle had a metallic luster all over its body. As it turns out, it was a beast puppet, not a real turtle.

What's strange about this metal turtle was the fact that it could move just like a real one. It was very flexible and its bodily structure was made perfectly.

What surprised Zhao Hai was the fact that this turtle also had a strong aura. From what he can see, this turtle should also be in the Immortal Stage. Which was quite surprising.

Before long, the four people arrived at Hornview Mountain. They received their artifacts and looked up at the Hell King's Ship parked above. They didn't say anything. However, the person from the Ghost Spirit Realm had an ugly expression.

After the four stepped on the mountain, the Immortal Expert who spoke to Zhao Hai said, "You two are the last. Now that everyone is here, it's time for the kids to depart."

At this time, someone from the Ghost Spirit realm said, "Wait, I have something to ask Zhao Hai." Then he turned to Zhao Hai and said, "Zhao Hai, why did you put your artifact above me and the others. Are you looking down on us?"

Zhao Hai looked at the person from the Ghost Spirit Realm and said, "This one didn't have that intention. But since this expedition is very dangerous, my wives didn't want me to go alone, so they came with me. Because of this, I can only leave them in my artifact."

Hearing Zhao Hai, everyone present stared. They didn't expect Zhao Hai to bring his family to explore the sea. They were truly surprised.

When the Immortal Expert from the Ghost Spirit Realm heard what Zhao Hai said, he no longer said anything. He knew what Zhao Hai meant. Zhao Hai wanted to say that since this expedition would be perilous, then it would be too much if the Immortal Expert still caused him trouble.

Since the Immortal Expert from the Ghost Spirit Realm no longer said anything, then others naturally stayed quiet. At this the Immortal Expert who spoke before changed the topic and said, "Alright, it's time for you to go. Remember, this expedition involves the fate of our realms. You need to do your best."

Everyone nodded. Zhao Hai cupped his fist towards everyone and said, "Everyone, since we're all going to explore the sea, then we should go together. Let me invite you to my artifact. This way is much better than going on our own."

When the others heard Zhao Hai, they were stunned for a while. They looked at each other and then one of them said, "That would be good. Then we'll be bothering Mister Zhao Hai."

Zhao Hai smiled faintly and said, "Everyone, please."

After that, the others moved to Zhao Hai's Hell King's Ship. Zhao Hai gave the Immortal Experts a salute before commanding the Hell King's Ship to fly towards the sea.

The Immortal Experts looked at Zhao Hai and the others and let out a long breath. One of them said, "This Zhao Hai is really good. It's a pity."

Another Immortal Expert smiled and said, "I'm sure that Zhao Hai can come back alive. He's an extraordinary kid. Not to mention his strength, he has repeatedly created miracles. I'm afraid this time isn't an exception."

The other Immortal Experts had an expression of disapproval. Zhao Hai has a great reputation in the Ten-thousand Realm Battlefield and he even fought against Immortal Experts. But so what? Even Immortal Experts couldn't do anything against the purple fog and the dark clouds, let alone Zhao Hai.

On the other hand, Zhao Hai didn't think so much as he brought everyone to the sea. As for the Transcending Tribulation Experts, they couldn't help but scan the ship with their spiritual force, then they were stunned. There really were people inside the ship. Moreover, there were a lot of them, about more than 10 thousand. There's also a lot of Undead. This caused the Transcending Tribulation Experts to be confused.

Looking at their expressions, Zhao Hai smiled faintly and said, "They're my disciples from the Hundred Treasures Realm. I took them out this time to get some experience. To be honest, I really don't care much about this expedition."

The Transcending Tribulation Experts were stunned. This was a very dangerous mission, and Zhao Hai didn't care about it? How could he be that confident?

Zhao Hai looked at everyone and said, "We're all selected by our realms. To be honest, in our own realms, our status isn't that good, right? If we can successfully explore the sea, then our position would be different."

One of the Transcending Tribulation Experts looked at Zhao Hai and said, "Mister, you must be joking. Your position in the Hundred Treasures Realm is on par with Mu Yu. How could you be like us?"

Zhao Hai forced a smile and said, "That was before. You should know that the Hundred Treasures Realm changes its leaders every 10 years. Now, Elder Shen Wei is now in charge. Elder Shen and Elder Mu didn't have a good relationship in the past. Now that Elder Shen is in power, he will naturally attack the Mu Faction. And I'm the first person he attacked."

Chapter 1535: Probing

The Transcending Tribulation Experts were speechless. But they couldn't help but think. After all, they were just victims of the struggle of their respective realms.

As Zhao Hai was talking to the others, he also released silver needles in order to receive some dark clouds.

Although Zhao Hai wasn't afraid of the dark clouds, he still needed to be careful. For Immortal Experts to be helpless against it, how could it be this simple. Because of this, Zhao Hai chose to be cautious.

At this time, the sound of footsteps could be heard. Then a long-haired woman came out and ran towards Zhao Hai, "Brother Hai, help me. I'm being bullied."

When the Transcending Tribulation Experts saw this woman, they couldn't help but stare. This was because they felt the woman's level.

As they were stunned, they saw the woman fling her hair. Her hair was like a snake as it flew out. Then they heard a *puchi* sound and a stream of blood flew out. Everyone was shocked. They noticed that there was a jade hook at the end of the woman's hair. Now this jade hook has pierced into the throat of the expert from the Ghost Spirit Realm.

The Transcending Tribulation Experts paused, then their expressions changed. They were about to fly out but they discovered that they were surrounded by a large number of Undead. These Undead all had rifles aimed at them.

The Transcending Tribulation Experts didn't dare move. They knew about the rifles of the Hundred Treasures Realm. Although they were copied from the Fireweavers, the rifles were still very powerful. In such a close distance, they wouldn't be able to dodge.

The Transcending Tribulation Experts had ugly expressions. One of them looked at Zhao Hai and said, "Zhao Hai what are you doing?"

Zhao Hai looked at the Immortal Experts and said, "I'm sorry for using this method to stop you. When we get deep into the sea, I will definitely release you. As for this person from the Ghost Spirit Realm, I

need to kill him. It's because an Immortal Expert from the Ghost Spirit Realm tried to kill me while I was on the way to Hornview Mountain. Please don't get offended." After he said that, Zhao Hai waved away the Undead and the corpse of the Ghost Spirit Realm expert.

Julie looked at the Transcending Tribulation Experts with a scornful expression on her face. She coldly snorted and returned back to the cabin.

To be honest, Julie's action was very charming. However, a trace of fear appeared on the faces of the Transcending Tribulation Experts.

Although Julie sneak attacked, her strength was revealed when she made a move. Her attack had the strength of an Immortal Expert behind it. Otherwise, the person from the Ghost Spirit Realm would have been able to counter-attack.

The Transcending Tribulation Experts didn't expect Zhao Hai to bring along an Immortal Expert. Moreover, they could see that her relationship with Zhao Hai wasn't normal.

Seeing the Transcending Tribulation Experts, Zhao Hai smiled faintly and said, "That just now is my wife Julie. When the Immortal Expert from the Ghost Spirit Realm came, Julie and I worked together to kill him."

Although Zhao Hai's tone downplayed what happened, the words exploded in the minds of the Transcending Tribulation Experts. Zhao Hai was talking about killing an Immortal Stage Expert!

When did Immortal Experts get so weak that they can be killed? Even in the war between the Hundred Treasures Realm and the Giant Spirit Realm-Fireweaver alliance, there weren't a lot of Immortal Experts who fell. Now, Zhao Hai said that he killed one. How could they not be surprised?

If they didn't believe that Zhao Hai fought against an Immortal Expert before, they certainly believed it now.

Although they believed Zhao Hai's words, they were still wary and stood a distance away from Zhao Hai. One of the experts looked at Zhao Hai and said, "What does Mister mean? If you don't plan to offend us, then why keep us on this ship?"

Zhao Hai looked at them and then smiled and said, "I need you to stay on the ship for a few days. The main reason is to keep you from telling anyone about what happened. If you swear that you won't tell anyone about the death of the Ghost Spirit Realm expert, then I can release you now."

As soon as they heard Zhao Hai, the Transcending Tribulation Experts paused for a moment before nodding. Zhao Hai didn't want the Ghost Spirit Realm to know that the death of their representative had something to do with him. This was understandable.

The Transcending Tribulation Experts felt relieved. At the same time, they understood that Zhao Hai was positive that he would be able to return alive. If Zhao Hai wasn't, then he wouldn't have brought so many people nor his wives. Also, if Zhao Hai believes he would die, why would he care about the Ghost Spirit Realm's revenge? Naturally not.

When they thought of this, they knew that Zhao Hai was confident in surviving while they themselves weren't. If they don't follow Zhao Hai, then it's possible that they wouldn't live. And if they follow Zhao Hai, they cannot leave the ship. If Zhao Hai hadn't kept them back, then they would have returned and told their realms about what happened as soon as possible. It seems like Zhao Hai did indeed have no intentions of offending them.

The Transcending Tribulation Experts looked at each other. After that, one of them turned his head to Zhao Hai and said, "So it's this. Mister really scared us. Mister, there's no need to worry. This matter will rot in our stomachs. However, I'm afraid we'll have to take advantage of Mister's hospitality for some time. What does Mister think?"

Hearing the Transcending Tribulation Experts, Zhao Hai couldn't help but secretly approve of them. Then he smiled and said, "That would be great. Laura, please prepare a banquet. I'd like to share a few cups with them."

Laura complex and immediately brought Meg and the others. Tables were set up on the deck along with food and wine. Mo Shen was also called over. However, Laura and the others immediately retreated after serving the food and wine.

The Transcending Tribulation Experts were dumbfounded. They didn't expect Zhao Hai to have beautiful women on the ship. And it seems like these women were Zhao Hai's wives. Because of this, they sat respectfully. They were somewhat afraid of Zhao Hai. They could see that Zhao Hai had the ability to

easily kill them all. In any case, the sea expedition was already a suicidal task. If Zhao Hai said that he didn't see anyone, then nobody could find fault with him.

No matter what the others thought, Mo Sheng focused on eating the food on the table. On the other hand, Zhao Hai raised his wine glass and said, "Everyone, fate brought us together to participate in this expedition. Please, let me offer this glass to all of you."

Everyone smiled, they also raised their glasses and drank the wine. After that, Zhao Hai said, "Misters, please have a taste of my food. It's very delicious." The Transcending Tribulation Experts looked at the table. Although they were a bit greedy for the food, they didn't dare move their chopsticks. After all, they haven't eaten anything since they were young.

Zhao Hai didn't think too much as he took his chopsticks and ate. Seeing Zhao Hai eating, the Transcending Tribulation Experts felt that it wasn't good to decline, so they took their chopsticks and ate. After tasting the food, they couldn't help but eat more and more.

After the group had their meal, Zhao Hai arranged rooms for the Transcending Tribulation Experts to rest in. Then after that, he returned to the Space.

Right now the dark clouds have been received by the Space. As Zhao Hai thought, the dark cloud will not have any effect on him. Not only was it ineffective, it also gave the Space another method of attack. If he fights someone in the future, he can use the dark clouds to cover his opponent so that they couldn't run.

However, they hadn't yet encountered the purple fog. However, Zhao Hai believes that the Space wouldn't have any problem handling it. With this, the two obstacles of the expedition were gone. Searching the sea was no longer a problem.

Seeing Zhao Hai calmly drinking tea, Laura asked, "Brother Hai, why did you keep those Transcending Tribulation Experts. It's inconvenient to keep them. Why don't you just kill them all?"

Zhao Hai smiled faintly and said, "I can borrow their identity to look into their own realms. Hehe, when the time comes, we'll have eyes looking into high-grade realms. I really don't believe that I can't find any clues after looking at the other realms."

When Zhao Hai said this, Laura understood what was going on. She smiled and said, "Wouldn't it be better if we just put something on the bodies of those Immortal Experts? Why use the Transcending Tribulation Experts?"

Zhao Hai smiled and said, "The Immortal Experts are too wary. Moreover, their senses are very sharp. For beings as strong as them, even a speck of dust wouldn't escape their notice. But with these Transcending Tribulation Experts, we can have them as our friends from other realms. Our eventual return will be a great contribution. Later on, they wouldn't have a low status. In any case, I'm not short of Transcending Tribulation Undead. I don't need to kill them now."

Laura looked at Zhao Hai and said, "Brother Hai, what are you planning to do about the Ten-thousand Realm Battlefield?"

Zhao Hai smiled faintly, and Laura knew what he was thinking. Zhao Hai thought about this a long time ago. He wanted to slowly scour through the entire battlefield starting with the Hundred Treasures Realm. He still hasn't given up on finding clues.

Julie's attack on the World of Cultivation was probably done by someone else. If this was really the case, then it's possible that this was also the person who made the Ten-thousand Realm Battlefield. The battlefield was eternally in a chaotic state. Someone wanted to keep the battlefield like this. They don't want peace to happen. Zhao Hai wanted to go through each realm one by one until he finds something.

Chapter 1536: Black Dragon Comes

The reason why Zhao Hai wanted to know if this hidden hand exists was because he wanted to see his current situation. Zhao Hai felt that the Ten-thousand Realm Battlefield was similar to a jar of gu worms. The worms kill each other while people watch. If they don't fight, then an enemy would be introduced. The Bug Race was like this.

Therefore, Zhao Hai wanted to nibble through each realm in the Ten-thousand Realm Battlefield. He wanted to see if the other party really didn't want the battlefield to be peaceful. And he wanted to see what method they would use to deal with him.

Laura and the others looked at Zhao Hai and understood his thoughts. This wasn't the first time that Zhao Hai mentioned the hand behind the curtains. He was still trying to probe the situation.

Laura and the others didn't oppose this decision. In fact, they didn't like being treated as chess pieces. If they don't understand the situation, then they wouldn't be able to get rid of this thorn in their heart.

Laura looked at Zhao Hai and said, "Brother Hai, is it really time?" Laura was really worried. Their performance recently had been very dazzling. If some people were paying attention, then they would certainly observe Zhao Hai. If Zhao Hai made another huge move, then the other party might do something.

Zhao Hai smiled faintly and said, "If we don't try to know, then we won't know. If they want to deal with us, they will reveal some clues. Then we might use it to track them down. As long as they come to light, we will know what a higher-level existence is like."

Laura nodded, "That is also good. Now, there isn't anything left in the Ten-thousand Realm Battlefield that can be used for the Space. We already gained all the good things from the Hundred Treasures Realm. And with the Space's ability to level-up on its own, the best time to start is right now."

Zhao Hai smiled and said, "Don't worry, we'll proceed step by step. First let's see if we can find anything at sea."

Laura and the others looked at the dark clouds. The dark clouds looked like any other cloud. But compared to dark clouds of a rainy day, these clouds covered everything. Supposedly, even Immortal Experts would need to be cautious upon entering the dark clouds. Moreover, the only thing they could do inside was to get out again. They couldn't afford to die inside. But this could only mean that maybe there's something mysterious in this sea.

At this time, Cai'er suddenly said, "Young Master, look. There's the poisonous purple fog." Zhao Hai turned his head towards the monitor and saw purple fog appearing in the distance.

Zhao Hai replied, "Let's receive the purple fog first, then we'll see how to proceed." Cai'er nodded and immediately received some purple fog for the Space. Before long, the space issued a prompt, "Poisonous gas detected. Poison level, high. Extracting poison and integrating it to the Space. Integration completed. The Space's poison has leveled up. Transcending Tribulation Experts subjected to this poison wouldn't survive. Transcending Tribulation Experts will die after three days. Severed Soul Experts would live no more than a month. After being poisoned, Severed Soul Experts would have their lifespan reduced by 100 years. Their vitality would continue to drop after that."

Zhao Hai breathed in cold air. He didn't expect the poison to be this lethal. Cai'er looked at Zhao Hai and said, "Young Master, there's no need to be surprised. This isn't just because of the purple mist. This is poison mixed with the Space's own poisons. Moreover, the Space has an antidote. So there's no need to worry."

Zhao Hai nodded. Then he said, "It won't affect us much. Lets go." Cai'er nodded and directed the Hell King's Ship to move forward.

At this time, the display on the monitor changed showing the deck of the Hell King's Ship. The Transcending Tribulation Experts were currently grouped up.

Seeing them go out, Zhao Hai couldn't help but frown. He moved and appeared on top of the deck. The Transcending Tribulation Experts were currently pale as they looked at the approaching purple fog.

Seeing Zhao Hai, one of the pale Transcending Tribulation Experts said, "Zhao Hai, the purple fog is coming. Can we survive?" The person who spoke was named Xiang Bo, a member of the Puppet Realm. Zhao Hai didn't know what his weapon was, but his strength was indeed at the Transcending Tribulation Stage.

Zhao Hai looked at Xiang Bo and then smiled faintly as he replied, "Don't worry, nothing will happen."

Xiang Bo relaxed. Then he looked around him and said, "Brother Zhao Hai, your ship is really good. There's nobody in the Ten-thousand Realm Battlefield who doesn't know of it." Although he was commending the ship, Zhao Hai could see the anxiety on Xiang Bo's face. It wasn't only Xiang Bo, the others looked afraid as well. If not for Zhao Hai calmly standing in place, they would have thought of running away.

Before long, the purple fog covered the Hell King's Ship. However, the fog had no influence on the ship. The ship continued to go forward in a steady manner.

When they saw this, Xiang Bo and the others couldn't help but let out a sigh of relief. Xiang Bo looked at Zhao Hai with beaming eyes as he said, "With this ship, we might successfully explore the sea."

Zhao Hai smiled faintly and said, "If we're successful, it would be a huge achievement for all of us. A lot of our predecessors failed, only we succeeded. Hahaha" Everyone was smiling as well. If they really finished the exploration, then their contribution would be big.

Seeing everyone's expression, Zhao Hai smiled and said, "But we cannot treat it lightly. Although the infamous purple mist couldn't do anything to us, there should be something else in the sea. It's better for us to be careful." Everyone nodded.

Before long, the Hell King's Ship passed through the purple fog. They were now quite far away from land. In front of them was an increasing amount of dark clouds.

Zhao Hai turned his head to the others and said, "You should all go back to rest. I'll call you over if something happens." As they thought about the increasing danger outside, they nodded and went back to the rooms that Zhao Hai arranged for them.

Seeing the others going back, Zhao Hai returned to the Space. Upon entering, he found that Cai'er and the others were looking at the children. The children were currently learning. Although they were at sea, they still needed to attend their classes. But because of their situation, their classes were simplified.

Zhao Hai didn't mind it. They currently don't have any encounters at sea, nor did they find any land. There was nothing worth doing at the moment.

Time flew by and two days have unknowingly passed. Two days was quite short for cultivators. But in these two days, Zhao Hai and the others were already very far into the sea. This area was very different from the shore. The usually sparse dark clouds now covered the entire sky. Moreover, the dark clouds were now very close to the surface. The Hell King's Ship was almost sailing on the waters instead of flying on air.

The Transcending Tribulation Experts hadn't come out of their cabin since then. After all, two days was nothing to cultivators. They can sit for a longer amount of time.

As for the children, Zhao Hai didn't treat them badly. He also installed an activity area inside the ship. This way, the children wouldn't feel so uncomfortable during the trip.

On this day, as the Hell King's Ship flew forward, Cai'er suddenly said, "Young Master, we found something."

Zhao Hai stared, then he immediately looked at the monitor. Seeing what was on the screen, Zhao Hai was stunned. The dark clouds rumbled and lightning struck down non-stop. The lightning resembled tribulation lightning.

Looking at the dark clouds, Zhao Hai said, "How far is it from us? Can you tell if it's a dark cloud or tribulation cloud?"

Cai'er replied, "It's definitely a dark cloud, not tribulation cloud. The silver needles could no longer enter it. I don't know what's happening. But based on the Space's analysis, it's very likely for beasts to hide in the cloud. We will reach the area in an hour or so."

Zhao Hai replied, "Can we go around it?"

Cai'er nodded and said, "We can. Wait. It seems to be a black dragon. It seems to have found us. What's this? We're so far away. It's coming over, it's too fast!"

Zhao Hai looked at the monitor and saw a black snake-like shadow flying towards them. But Zhao Hai was sure that this wasn't a snake. It was because he discovered that it has grown four claws.

Zhao Hai was certain that it was a golden clawed dragon! As a Chinese person from Earth, Zhao Hai knew that the Chinese worship dragons. Four-clawed and Five-clawed Dragons were all dragons in Chinese mythology. Dragons were very important to the Chinese people. Dragons can rise and hide among the clouds. They can ascend the nine heavens and call the wind and rain. The dragon that Zhao Hai saw this time was similar to the ones in his memories. Therefore, Zhao Hai was sure that it was a golden dragon.

Although he didn't know what's happening, upon seeing the golden dragon, Zhao Hai was certain that it wasn't simple. At the very least, it wasn't related to the Transcending Tribulation Experts on the ship.

The Transcending Tribulation Experts don't know that a gold dragon was coming. They also didn't know that lightning was about to strike the Hell King's Ship.

The Hell King's Ship shook lightly. Before they could figure out what was going on, the Hell King's Ship rushed towards the dragon.

Seeing that its attack was useless, the silhouette of the dragon paused. Then it swung its body as it used its four claws to attack the Hell King's Ship. However, as the claws hit the Hell King's Ship, it suddenly flashed a white light. After a few bursts of electricity, the dragon retrieved its claws.

Although the dragon's claws contain lightning, it wasn't tribulation lighting in the end. Because of this, its claws couldn't defeat the Hell King's Ship. Despite this, Zhao Hai knew that the dragon just retreated and it would come again.

As Zhao Hai thought, although they tried to escape, it was useless. The dragon could find the Hell King's Ship when it was an hour away. It was impossible for the Ship to circle around the thunderous clouds in just an hour.

Lightning can break anything and the dragon was an embodiment of it. The lightning on its limbs was already invincible, let alone its other abilities. Zhao Hai saw it with his own eyes, a flash of lightning from the breath of the dragon almost broke the shield of the Hell King's Ship.

It must be known that the Hell King's Ship's shield wasn't very simple. Not only did it contain netherworld fire, it also incorporated the dark clouds and the purple mist. Despite that, the Hell King's Ship was almost broken by the dragon. This was out of Zhao Hai's expectations.

Chapter 1537: Tying Up The Dragon

The strength of the dragon exceeded Zhao Hai's imagination. It's not just the lightning. Zhao Hai was sure that the close combat ability of the dragon was also very powerful. Just now, the dragon used its dragon claws to grab the ship's shield. It can be said that it was very confident in his paws.

But the Hell King's ship's shield wasn't easy to break open. It can also ward off lightning attacks. Because of this, the dragon retreated. But its lightning still lingered. Moreover, the lightning seems to be able to break spiritual force.

The black dragon was much stronger compared to most Immortal Experts. Zhao Hai could see that no normal Immortal Expert could catch up to the dragon's speed. Zhao Hai could only use the Space to run away, otherwise he wouldn't be able to escape.

However, Zhao Hai didn't escape. He wasn't planning to expose the Space this time. He was preparing to fight the dragon. Zhao Hai waved his hand as numerous cannons stretched out of the ship. Then the ship began firing towards the dragon.

The dragon was still stunned since it couldn't destroy the ship's shield and its lightning was useless. As it was dumbfounded, the shells were fired towards it.

The dragon swayed its body as it evaded the shells. This gave Zhao Hai a new understanding of its speed. However, Zhao Hai's shells weren't that easy to deal with. These shells could track their enemy. Although the dragon managed to dodge, the shells curved and shot back towards the dragon.

The black dragon also noticed this. Lightning appeared on its four claws as it attacked the shells.

Naturally, the lightning was very powerful. The shells were immediately destroyed. But this time, the figurehead of the Hell King's Ship became a battering ram and shot itself towards the dragon.

At the same time, he increased the energy supplied by the yin-yang pool to increase the ship's defenses. The cannons didn't stop as it continued to fire shell after shell.

The black dragon had just crushed the shells when the battering ram arrived. The dragon stretched another claw to grasp the figurehead. Lightning crackled on the dragon's claws.

But how could the Hell King's Ship's battering ram be that simple to deal with. As though it was a snake, the battering ram swerved around the dragon's claw and directly struck towards the dragon.

With a wave of its arm, the dragon sent lightning from his claw towards the battering ram. However, the lightning missed. The dragon frowned, seemingly annoyed. Then it roared and spat out lightning from its mouth, hitting the battering ram. The battering ram could no longer dodge this time. The lightning was too fast, it had no time to evade.

The lightning couldn't be prevented from hitting the battering ram. Zhao Hai's complexion changed. The battering ram was under his control, so when it was struck, Zhao Hai's mind was shaken. If this battering ram wasn't part of Liquid Silver, he would have been injured.

Zhao Hai waved his hand and took a spear out. Then a spear flew out from the Hell King's Ship and headed towards the black dragon.

This was the spear that Zhao Hai received from the Immortal Expert. This spear had an Immortal Expert's soul, so it was very powerful. It was as powerful as an Immortal Expert.

After releasing the spear, Zhao Hai controlled the battering ram once more and attacked the dragon. At the same time, he released the 12 metal beasts. The beasts immediately roared and charged towards the dragon.

The black dragon was naturally stunned. It didn't think that Zhao Hai would have so many methods. However, it wasn't afraid of Zhao Hai. The dragon's body flashed for a few times before it sucked the surrounding black clouds.

The dragon sucked in the surrounding clouds as though it was water. The dark clouds a hundred li(50km) around the dragon disappeared. After that, the dragon released the clouds and used them to coat its body.

Zhao Hai couldn't understand why the dragon's body flashed and then it absorbed the dark clouds only to spit it out again. What does it intend to do?

However, this wasn't the proper time to think about this. Zhao Hai commanded his artifacts to attack the dragon. But before long, Zhao Hai felt that something wasn't right. It was as though the dark clouds were intelligent as they counter-attacked the artifacts.

Now Zhao Hai understood why the dragon sucked in the clouds. This was to enable it to control the dark clouds. This seems to be one of the dragon's abilities.

Zhao Hai also discovered that the dark clouds that the dragon spat out didn't only have intelligence, they could also corrode spiritual force.

Zhao Hai's complexion changed. He didn't expect the clouds to undergo this much change after going through the belly of the dragon. Essentially, the dark clouds became the domain of the dragon. Inside that domain, the dragon was invincible.

Right, it was a domain. When Zhao Hai thought about domains, he would think about the lower realms. The reason why Zhao Hai didn't use domains in the higher realms was because it wasn't useful here.

However, Zhao Hai discovered his mistake. Domains were also quite useful in the higher realms. Moreover, they might be easier to use.

At the same time, Zhao Hai was sure that the lower realm's domain would be useless. Domains in the higher realms probably formed in other forms.

Zhao Hai waved his hand as he withdrew his artifacts from the dark clouds. Then at this time, lightning came out of the dark clouds, attacking the retreating artifacts.

Zhao Hai quickly received his artifacts. At the same time, he moved and flew out of the Hell King's Ship. Then he performed hand seals as his body emitted golden light.

Zhao Hai waved his hand and an invisible sword qi blasted out towards the dark clouds. As this was happening, he also blocked the lightning sent out by the clouds.

The Sword Breath Technique was something that Zhao Hai studied for some time. However, he had yet to use it in battle. The Sword Breath Technique was one of the 18 Buddhist Techniques. It used invisible sword qi to kill silently and destroy the hardest defenses.

The speed of Zhao Hai's battle with the black dragon surpassed Xiang Bo and the others' imagination. As they were understanding the situation, Zhao Hai already used the Hell King's Ship to fight a few rounds with the black dragon. When they had just recovered, Zhao Hai had already made his move.

Although Zhao Hai attacked the dragon using his Sword Breath Technique, he was also paying attention to the dragon. He wanted to see how useful the technique was against the dragon.

In the end, the technique proved to be useful. In fact, it was very useful. The sword qi penetrated through the dark clouds. And the dark clouds couldn't do anything to the sword qi.

Zhao Hai was certain that this wasn't because of the sword qi. Instead, it was caused by faith power. It shows once more how useful faith power was.

Thinking of this, Zhao Hai imbued his artifacts with faith power. After that, he controlled them to attack the dark clouds once more.

The effect was very good. The dark clouds couldn't do anything to the artifacts. Zhao Hai felt relieved. On the other hand, the dragon wasn't doing very well. Although it was agile, the spear was able to match its speed. In addition to Zhao Hai's sword qi, the black dragon was restrained even more.

The black dragon didn't dare meet Zhao Hai's sword qi. Although it had formidable defense, it knew that it couldn't block the sword qi. Because of this, it could only try to evade the attack. It also used lightning to block the sword qi.

At this time, Zhao Hai used the sword qi to attack. Just as the black dragon was about to feel relieved, it suddenly discovered that it had fallen into a sword formation.

This sword formation was formed out of ten thousand swords. These flying swords didn't attack, instead they revolved around a certain orbit like a planet. The black dragon also discovered that it was being attacked by an invisible force. It was being restrained little by little.

The black dragon struggled. It wanted to leave the sword formation. Although it didn't know what sword formation it was, it could feel how dangerous it would be to him.

The dragon tried to attack the flying swords using its lightning. However, the sword formation seems to be covered by an invisible force. Instead of being destroyed by the lightning, the formation seems to have absorbed some of its strength.

Zhao Hai was now observing the sword formation. This ten thousand stellar transformation sword formation wasn't ordinary. Each sword used in it was imbued with faith power. With the addition of faith power, Zhao Hai discovered that the sword formation underwent a great transformation. Compared to before, its strength was much greater, a few levels at least. As soon as it entered the sword formation, the dragon was like a moth trapped in a spider web. It could only struggle in vain inside.

Seeing this, Zhao Hai was relieved. The black dragon was indeed formidable. If he didn't have faith power, then he would not be able to deal with the dragon. The strength of this beast was much more powerful compared to most Immortal Experts.

If an ordinary Immortal Expert were here, they wouldn't be fighting with all their strength. The dark clouds around would suppress the Immortal Expert.

On the other hand, the dark clouds didn't affect the black dragon. In fact, the clouds could be used by the dragon. In other words, the dragon held home advantage in this battlefield.

But once the dragon entered the sword formation, its advantage disappeared. It also rendered the black dragon's strength equal to an ordinary Immortal Expert. In this case, Zhao Hai would have no problem dealing with it.

The black dragon could feel that the pressure on it was increasing. The restraint was also becoming more and more powerful. The speed that it was proud of was completely useless here. It's like its hands and feet were tied. Even if it wanted to escape, it wouldn't be able to.

This caused the dragon to feel desperate. It didn't think that the toy it saw would turn out to be a predator. The desperation began to pile up and in the end it gave up struggling.

Zhao Hai didn't expect the dragon to stop its struggle. He waved his hand and changed the sword formation into a chain and tied down the dragon. After that, he hauled the dragon towards the ship, marking the end of the battle.

Chapter 1538: Julie's Evolution

Zhao Hai returned to the Hell King's Ship as he let out a long breath. To be honest, he was taking quite a risk undergoing this fight. He didn't expect the dragon's lightning to have an effect on the ship's shield. After all, the Hell King's Ship has undergone multiple enhancements. The fact that the dragons were close to breaking the shield meant that it was formidable.

Most importantly, the dragon could control the dark clouds, which was a handy skill to have. Clouds were everywhere in this region. The fact that they could become the dragon's weapon was terrifying.

Fortunately, Zhao Hai has the ten thousand sword formation and faith power to subjugate the dragon. Otherwise, the fight would be in favor of the dragon. It's speed was something that Zhao Hai rarely encountered.

As for taking the dragon to the Hell King's Ship, it was just a performance. In truth, the dragon was taken to the Space. Since Xiang Bo and the others were on the Hell King's Ship, Zhao Hai had to deceive them in order to receive the dragon.

As Zhao Hai landed on the ship, he heard the Space's prompt, "Hostile beast detected. Subjugating. Beast subjugated successfully. Dragon-type beast has been detected. Because of its special birth, it can absorb dark clouds and shoot lightning. Extracting genes, genes extracted. Genes have been used to strengthen the beasts of the Space. Because of its special ability to shoot lightning and use the dark clouds, the yin-yang lightning pond has been improved. All weapons using the yin-yang lightning pond can now send out lightning attacks."

Zhao Hai stared. He didn't expect the black dragon to give so much to the Space. With these things, he can now travel the seas freely.

At this time, Xiang Bo and the others arrived beside Zhao Hai. All of them were looking at him in fear. It was understandable. Zhao Hai was just too strong. They heard that Zhao Hai was formidable before, but they didn't believe the gap between them was this great.

Although they didn't participate in the fight, Xiang Bo and the others could clearly see how powerful the dragon was. Despite this, Zhao Hai was still able to subdue the dragon through various means. This allowed them to get a certain understanding about Zhao Hai's strength.

Zhao Hai looked at Xiang Bo and the others as he smiled and said, "That was dangerous. I didn't expect there to be a beast in the middle of the dark clouds. Moreover, it's quite powerful."

Xiang Bo nodded and said, "The black dragon was indeed very powerful. It could shroud itself with dark clouds and become stronger. If it weren't for Mister Zhao Hai strength, we would have been in great danger. It seems like the people who explored the sea before us have died in the hands of these beasts."

Zhao Hai understood what Xiang Bo meant. If a black dragon existed among the dark clouds, then other beasts could exist as well. These beasts hold a complete advantage in the dark clouds. The Immortal Experts who tried to explore the seas before might have ended up being killed by these beasts. Xiang Bo's words could also be taken as a reminder for Zhao Hai.

Zhao Hai gave a nod and said, "We still need to be careful. Now I'm more curious about the sea. I can't wait to see what we'll find out there."

Xiang Bo smiled bitterly. Only Zhao Hai had the qualification to say something like that. Zhao Hai looked at everyone and said, "Alright, everything's fine now. If you want, you can head back to rest. You can also stay here. I'll go and see the black dragon."

Xiang Bo looked at Zhao Hai and after hesitating for a bit, he said, "Mister, our Puppet Realm has methods to subjugate monsters. If you need help, don't hesitate to tell me."

Zhao Hai looked at Xiang Bo as he smiled and said, "I won't use it in the meantime. I also have some methods to subjugate beasts. If I can't do it, I'll definitely look for you." Zhao Hai knew that Xiang Bo had no intentions of stealing the black dragon. He just wanted to pull Zhao Hai closer to himself.

Xiang Bo nodded and said, "Then we would no longer disturb mister." Zhao Hai nodded and then turned around and entered the cabins. Then his body disappeared.

Seeing Zhao Hai disappear, the others grouped up. Then one of them said, "Xiang Bo, do you think Mister can really subjugate that dragon?"

Xiang Bo nodded and said, "I think so. Mister is very strong. Moreover, didn't you notice? Mister is very careful in his conduct. If he said that he has a method to subjugate beasts, it should be true."

The others nodded. One of them sighed and said, "Mister is really formidable. He was even able to catch that black dragon. I don't know when we'll reach that level."

Xiang Bo looked at the others and said, "In the past, I heard that Mister has Faith Power. I didn't believe it at that time. But now, it seems like it's true. Faith Power has infinite uses. Mister dared to explore them because he has faith power to rely on. Mister not being affected by the dark clouds should be because of faith power."

The others nodded. Faith Power was very mysterious. And because of this mystery, it has been elevated to such a high regard. It was especially true for people like Xiang Bo and the others. They had unparalleled desire to acquire faith power.

Unfortunately for them, they were relatively unimportant people in their respective realms. It was simply impossible for them to acquire faith power. And if they were important, they wouldn't have been sent for this expedition.

Thinking of this, the Transcending Tribulation Experts couldn't help but feel dejected. Then suddenly, Xiang Bo's eyes shone. He thought about something. With Zhao Hai's strength, he should have great status in the Hundred Treasures Realm. Once they finish this expedition, he would be promoted once more. If they were on good terms with Zhao Hai, then they might gain a lot of benefits.

Thinking of this, Xiang Bo suddenly felt that there was a huge thigh in front of him. As long as he hugged it, he might become a powerful expert in the future.

The others didn't know what Xiang Bo was thinking about. After sighing, they all went back to their own rooms. Only Xiang Bo was left behind. He didn't leave for some time.

Xiang Bo was currently thinking about his relationship with Zhao Hai. If he wanted to be friends with Zhao Hai, then he would need sufficient capital. Xiang Bo could feel that Zhao Hai didn't care about him, and he could understand. For nobodies like Xiang Bo, people like Zhao Hai simply didn't look at them with his eyes.

It's not unreasonable to say that like attracts like. Birds of the feather flock together. If you, a commoner, want to become friends with a noble, it would only end in your humiliation. For Xiang Bo, Zhao Hai's status was several levels above him. Xiang Bo was just a disposable expert in the Puppet Realm. Meanwhile, Zhao Hai was like Mu Yu, a treasure of the Hundred Treasures Realm. Xiang Bo couldn't even be compared to half of Zhao Hai's status.

Although Zhao Hai was similarly sent to explore the sea, Xiang Bo knew that this was because Zhao Hai was subjected to a political disagreement. As long as he can return, it would be a great contribution to the Hundred Treasures Realm. When the time comes, even the Elders of the Hundred Treasures Realm wouldn't be able to touch him.

Such a character had limitless future. Who wouldn't want to associate with them? After thinking for half a day and getting nothing, Xiang Bo could only sigh as he muttered, "Let's take it step by step."

.....

Zhao Hai returned to the Space and looked at the black dragon. The black dragon no longer had its fierce aura from before. It was now as docile as a kitten, lying beside Zhao Hai.

Zhao Hai turned to Cai'er and said, "Cai'er, find a suitable planet that it can live in." Cai'er nodded and then chose a planet where the dragon can treat as a home. This was very easy to do; just buy a planet and fill it with dark clouds.

After taking care of the dragon's home, Zhao Hai looked at Cai'er and said, "Cai'er, how are the children doing?"

Cai'er smiled and said, "They saw you fight against the black dragon. They now worship you." Zhao Hai smiled.

At this time, Julie ran over to Zhao Hai and said, "Brother Hai, look. I have new abilities." Then she waved her hand and produced lightning.

Zhao Hai stared, then he said, "The black dragon's ability? Can you control the dark clouds as well?"

Julie nodded and said, "The dark clouds have no effect on me. Moreover, not only can I use the dark clouds on my bone blades, I can also infuse it with the Space's poison."

Zhao Hai couldn't help but sigh as he said, "Your evolution ability is really useful. You actually obtained new abilities. I didn't expect the one to benefit the most this time would be you."

Julie proudly smiled. Looking at Julie, Zhao Hai was filled with glee. Julie was his woman. If she was happy, then he was happy.

It must be said that Laura and the others weren't warriors. What they were skilled in was analysis and management. Only Julie could fight among them. Zhao Hai was certain that Julie was no weaker than him. Even if he used faith power, he still couldn't be sure if he could defeat her.

Julie's strongest ability was her evolution. There were a lot of good things inside the Space. Moreover, Zhao Hai wasn't stingy towards Julie. Everything that can make her evolve were given to her. Because of this, Julie's evolution has been rapid. Her strength increased rapidly as well.

But this evolution also required a certain process. Julie couldn't become stronger in an instant. Although she can release lightning, it wasn't as strong as the black dragon's. She still needed time. However, Zhao Hai wasn't in a hurry. And inside the Space were numerous places where Julie can sharpen her skills. It wouldn't be long before Julie gets stronger. When the time comes, most Immortal Experts wouldn't be able to do anything against her.

Chapter 1539: Impeachment

After dealing with the black dragon, Zhao Hai had nothing else to do. At this time, he was looking at the monitor observing the children. The children were now being taught by the Undead teachers. They were currently replaying the fight between Zhao Hai and the black dragon. The children exclaimed at every move, they looked quite adorable.

Zhao Hai liked these children very much. The same was true for Laura and the others. Zhao Hai actually felt strange about this situation. He had been with Laura and the others for quite some time. However, they had yet to bear children. It was confusing to Zhao Hai and his wives.

The Space provided them with very healthy bodies. It shouldn't have been a problem for them to have any children. And strangely, they didn't become pregnant.

However, Zhao Hai didn't care much about this. In any case, Laura and the others were now strong cultivators. Their lifespans were very long. They could worry about this later on.

At this time, Cai'er looked at Zhao Hai and said, "Young master, take a look at this. Xiang Bo was outside for quite some time. He didn't do anything else and just walked back and forth. It seems like he is thinking about something."

Zhao Hai stared, then he nodded and said, "I'll go take a look." His body disappeared and returned to the Hell King's Ship. He opened the door and went outside.

Xiang Bo was still walking back and forth thinking about how to make friends with Zhao Hai. Because of this, he had yet to return to his room.

Zhao Hai looked at Xiang Bo and asked, "Xiang Bo, did something happen? What's wrong?"

Xiang Bo couldn't help but jump upon hearing Zhao Hai's voice. Normally, he would notice if someone was getting close to him. But this time, he failed to notice Zhao Hai.

Xiang Bo was also too focused on thinking that he didn't notice Zhao Hai's arrival. Upon seeing Zhao Hai, he was somewhat embarrassed. He smiled faintly and said, "Mister, it's you. I just came here because I have nothing to do. Why did Mister come out? Is something wrong?"

Zhao Hai shook his head and said, "Everything's alright. There's no need to worry."

Xiang Bo sighed and said, "Mister, you mentioned it before. But after we head back, how do you think they would reward us?"

Zhao Hai stared, then he shook his head and said, "I really don't know. However, our contribution would certainly be big. They shouldn't reward us poorly."

Xiang Bo looked at Zhao Hai and bitterly smiled, "Mister, you can fight against Immortal Experts. Also, you have Mu Yu behind you. If you want, you can choose to not participate in the expedition. Why did you come?"

Zhao Hai smiled faintly and said, "If I don't want to come, then of course I can choose not to go. In fact, before Elder Mu retired, he told me that Elder Shen might deal with me. Therefore, he told me to go into a closed door retreat. I can just go out in the future when the expedition is sent over. However, I didn't agree. This is because I want to explore the sea. Although Elder Shen was the one who gave me this task, it was me who chose to go."

Hearing Zhao Hai, Xiang Bo sighed and said, "So it's like that, no wonder. Talking about it, it's good to have people watching your back. As for us, we're dispensable people in our realms or have offended someone high up. This is why we're assigned to this task. If not for you, we wouldn't be able to survive."

Zhao Hai smiled and said, "That no longer matters. Once we go back and receive our reward, you can rest assured that sooner or later you will also become Immortal Experts."

Xiang Bo forced a smile and said, "That's easier said than done. Although we made a huge contribution, we have nobody above us. We would still have a hard time getting good things. Alright, let's no longer talk about this."

Zhao Hai looked at Xiang Bo and smiled as he said, "Cultivation is never easy for anyone. You have also gone through multiple hardships to reach where you currently are. Don't think about it too much. A cultivator can only move forward if they are alive. If you stagnate, then you will move backwards. When the time comes, you are doomed to fail. Meeting each other in this expedition is fate. From now on, we are friends. You can come to me if you need any help."

Xiang Bo, who was racking his brain thinking about how to befriend Zhao Hai, was stunned when he heard this. The reason he said those things to Zhao Hai was because he had nothing else to tell. He wanted to open a topic so that he can establish rapport with Zhao Hai.

However, Xiang Bo didn't hold much hope at the time. After all, Zhao Hai had a great status. He might say a few things to Zhao Hai that would cause him to leave. But contrary to what he expected, not only did Zhao Hai stay, he also said that they were friends. This was definitely a surprise.

Xiang Bo recovered and then immediately said, "Mister's words are too polite for someone like me. Meeting you is already a great achievement to me."

Zhao Hai smiled faintly and said, "It's not too polite. I used to be an ascender. Even in the World of Cultivation, there aren't a lot of people who want to meet me. Haha. Here, this is a gift for you." After he said that, Zhao Hai flipped his hand and took out a jade box containing a thousand-year old blood ginseng.

Blood ginseng was very precious for cultivation. Not only could it help in cultivation, it also had excellent healing properties. This was especially true regarding very old blood ginseng. Even in the Ten-thousand Realm Battlefield, it was very difficult to find a 1000-year old blood ginseng.

But for Zhao Hai, these things were nothing that great. He can get as many as he wants inside the Space. He can get a 100 year old ginseng and then accelerate its growth to a thousand years. Not to mention 1,000-year old ginseng, the Space has several 10,000-year old blood ginseng.

Xiang Bo received the jade box and saw a huge human-shaped blood ginseng inside. Xiang Bo's complexion couldn't help but change. He hastily closed the jade box and said, "Mister, I cannot accept this. This is too precious."

Zhao Hai smiled faintly and said, "It's fine. Just accept it. This thing is useless to me. Go and take a rest. Don't forget to reach out to me if you ever need help in the future."

Xiang Bo gratefully looked at Zhao Hai. He nodded and carefully stored the jade box. Then he turned around and left. Looking at Xiang Bo, Zhao Hai couldn't help but smile.

Although he didn't know that Xiang Bo wanted to befriend him, he still wanted to become friends with Xiang Bo. He has a plan for the future, and befriend Xiang Bo was the start.

As he stood on the deck of the Hell King's Ship, looking at the dark clouds being cut apart, Zhao Hai let out a long breath before he murmured, "Even as a chess piece, I will be a chess piece that cannot be easily manipulated."

After he said that, Zhao Hai took another look around. Now, the ship has been covered by the dark clouds. He couldn't see anything at all. And because he understood these dark clouds very well, Zhao Hai knew that his spiritual force couldn't go far. These dark clouds had a strong suppressive effect against the spiritual force of cultivators.

Zhao Hai let out a long breath. This sea wasn't easy to search. His current spiritual force wasn't any less than Immortal Experts. But since he arrived here, he couldn't detect much of the surroundings. Immortal Experts would have the same experience, maybe even worse. This was because Zhao Hai wasn't being affected by the dark clouds, which was something the other Immortal Experts didn't have.

Zhao Hai sighed and then returned to the cabins before going to the Space. Laura and the others were currently sitting on the sofa and looking at the monitor. The screen showed Xiang Bo and the others. Xiang Bo was now sitting inside his room holding the jade box that Zhao Hai gave him. He stared at the blood ginseng for a long time before he received it once more. Then he sat in place blankly, thinking about something.

The others were sitting cross-legged in meditation. There wasn't much to see, so Laura and the others changed the display to the Hundred Treasures Realm's headquarters.

When the headquarters was shown, Zhao Hai and the others were stunned. This was because they saw someone there, it was Mu Yao!

Zhao Hai stared. Mu Yao should be in retreat right now. Why did he come out again? Mu Yao was also followed by a lot of people. These people were Severed Soul Experts and Transcending Tribulation Experts of the Hundred Treasures Realm. In addition to these people, there were also at least 50 Immortal Experts. Opposite Mu Yao were Shen Wei as well as the Immortal Experts who were with him.

Seeing this, Zhao Hai understood the situation. It seems like Mu Yao was about to impeach Shen Wei. Shen Wei's actions were very unfair, causing dissatisfaction among the cultivators of the Hundred Treasures Realm. Mu Yao was also waiting for an opportunity, and it has come to reveal itself. However, Zhao Hai knew that he wasn't enough to be a reason. So what opportunity did Mu Yao see to allow him to attempt an impeachment?

Adjusting the display, Zhao Hai finally knew. It turns out that Shen Wei punished the experts who spoke on behalf of Zhao Hai in the past few days. This caused everyone to be dissatisfied. It must be known that although the Elders of the Hundred Treasures Realm held great power, they couldn't just punish people that easily. They needed to be fair otherwise people would rise up and impeach them.

Although Shen Wei had only been in control for a short time, his suppression of the Mu Faction has become so blatant that it began to displease other people. After all, the Giant Spirit Realm and the Fireweavers' defeat was caused by the leadership of the Mu Faction. The Mu Faction's prestige in the Hundred Treasures Realm was at an all-time high. It's no wonder that Shen Wei's removal of the Mu Faction's people from important positions managed to anger people.

Additionally, there was Shen Wei's move to embarrass Zhao Hai and then his action against the dissatisfied Severed Soul Experts. The anger that accumulated finally exploded. This allowed Mu Yao to group everyone to impeach Shen Wei.

Chapter 1540: No?

Shen Wei looked at Mu Yao with resentment. He wished to tear Mu Yao to shreds. However, he knew that he couldn't do this. Even if he made a move, he wouldn't be Mu Yao's opponent.

On the other hand, Mu Yao looked calmly at Shen Wei. He knew why Shen Wei hated him. It was because he knew this that he didn't want to confront Shen Wei. Shen Wei's hatred was due to a misunderstanding, and there was no benefit to the Hundred Treasures Realm if he went against Shen Wei. In any case, Shen Wei's strength was very good. He can be considered to be a good commander. Although he resented the Mu Faction and tried to suppress it, this was still within Mu Yao's tolerance. Therefore, Mu Yao endured all this time.

But now, Shen Wei actually dared to touch Zhao Hai. How could Mu Yao just endure it this time. If Zhao Hai didn't express that he wanted to explore the sea, then Mu Yao would have raged against Shen Wei.

It was now time to turn against Shen Wei. And with a reasonable cause behind him, Mu Yao can suppress Shen Wei in one stroke and let him lose power as an Elder.

Mu Yao wasn't a good man nor a saint. He didn't act against Shen Wei before because he was afraid of causing damage to the development of the Hundred Treasures Realm. The Shen Faction had a lot of members. If the two factions fight, it would certainly cause turmoil in the Hundred Treasures Realm, which would be detrimental for the realm. In the past, the times were critical because of the Giant Spirit Realm. Mu Yao had no spare energy to fight against Shen Wei.

But now it was different. The Giant Spirit Realm has been dealt with and the Hundred Treasures Realm was at a golden age. With Shen Wei offending almost every Transcending Tribulation Expert, this was a good opportunity.

Shen Wei looked at Mu Yao and then bitterly said, "Mu Yao, what are you doing? Why did you bring all these people?"

Mu Yao replied in a cold voice, "Shen Wei, as an Elder, it's impossible for you to not know why I came. To be honest, I'm very disappointed in you. I never expected you to be something like this. This time, everyone is here to impeach you."

Shen Wei replied, "Impeach me? I didn't do anything wrong. You can't impeach me."

Mu Yao coldly replied, "Shen Wei, what does the Elder's Assembly do? It manages the Hundred Treasures Realm and steers it into a stronger position. It's not a place where you can do whatever you want. Why did you use it as an opportunity to punish people you find unpleasant? Most importantly, why did you send Zhao Hai to explore the sea?"

Shen Wei looked at Mu Yao, then he sneered and said, "To put it bluntly, you came because of Zhao Hai. Why can't Zhao Hai participate in the exploration of the sea? You might be fond of him, but I'm not. He just joined the Hundred Treasures Realm, so why should he enjoy so much privilege? Mu Yao, doing this, aren't you using public sentiment for your private gains?"

Mu Yao shook his head at Shen Wei as he said, "Shen Wei, o Shen Wei. You're truly blinded by hatred. I gave Zhao Hai privileges because he deserved those privileges. Because of your hatred towards me, you didn't come to the headquarters in the battle against the Fireweavers. You don't know about Zhao Hai

at all. You don't know what he did for the Hundred Treasures realm, nor his importance to the realm. Your treatment of Zhao Hai turned everyone's heart cold."

Shen Wei swept the cultivators behind Mu Yao with his eyes. What he saw caused his heart to get a bad feeling. He found out that the cultivators behind Mu Yao had a look of approval on their faces. They think that what Mu Yao said was right.

This caused Shen Wei to be somewhat uneasy. He didn't really know much about Zhao Hai. He also participated in some battles in the war against the Fireweavers. But because he didn't want to meet Mu Yao, he didn't visit the headquarters. He just stayed in the Hundred Treasures Realm and would only come out when there were orders.

It was precisely because he didn't come to the headquarters that he didn't know the identity of Zhao Hai. And due to his prejudice against Mu Yao, he didn't pay any attention to any information about Zhao Hai. He always thought that the information would be false.

But now it seems like this wasn't the case. Was there really something with Zhao Hai? The uneasy feeling in Shen Wei's heart increased as he thought of this.

However, Shen Wei also knew that this wasn't the time to show weakness. If he did, then then he would be admitting that he was wrong. And he wasn't prepared to bow his head towards Mu Yao.

Shen Wei coldly snorted and said, "That's just your words. Who knows if Zhao Hai is really deserving like you said?"

Mu Yao looked at Shen Wei as he sighed. It seems like Shen Wei was truly blinded by his hatred. And he had yet to recover.

Thinking of this, Mu Yao couldn't help but say, "Shen Wei, there are some things that cannot be discussed outside. Let's head inside the conference hall and talk about it. All Immortal Experts, follow me inside." After that, he entered the conference hall along with the other Elders. Despite this, the Severed Soul Experts and the Transcending Tribulation Experts stayed outside. They were waiting for the conclusion. They wanted Shen Wei to step down.

Mu Yao entered the conference hall and then invited everyone to sit down. After looking at the Immortal Experts, Mu Yao said, "I think there's still some people who have the same idea as Elder Shen. Everyone thinks that I gave Zhao Hai his privilege because of his military exploits. In fact, this isn't the case. You might not know this, but besides Zhao Hai's space abilities, he also has the ability to decompose and recycle materials. This ability is something that not a lot of people know."

Mu Yao's words caused several Elders to be surprised. An ability to decompose materials was very wanted in the Ten-thousand Realm Battlefield. Each realm that can obtain this ability will experience explosive growth. Shen Wei's expression also changed. He didn't expect Zhao Hai to have this valuable ability as well.

Mu Yao looked at everyone and said, "Didn't everyone wonder why the Hundred Treasures Realm suddenly obtained the water refining technique? It came from Zhao Hai. Didn't you wonder how the realm was able to make fake spirit snake needles? It was because of Zhao Hai. The Giant Spirit Treasure Ship? The blueprint was given by Zhao Hai. The Fireweaver Rifles and the cannons that we have right now? All of these were because of Zhao Hai's ability. Just these things alone mean a lot to the Hundred Treasures Realm. In this case, is it wrong to give great benefits to Zhao Hai?"

The Immortal Experts nodded. If these things were given by Zhao Hai, then there's no problems in giving him rich benefits.

Looking at the crowd, Mu Yao continued, "There's one thing that you need to know. Zhao Hai used his ability to recycle the waste materials on Yan Planet. Some of the materials he managed to recover are now exhausted in the Ten-thousand Realm Battlefield. The materials he recovered are enough for the Hundred Treasures Realm to use for countless years. With such contributions, not to say privileges or a planet, it's not excessive if we gave him much more."

Boom! Mu Yao's words exploded in the minds of the people present. These Immortal Experts were immediately stunned. They knew exactly what Yan Planet meant for the Hundred Treasures Realm. It was a place where rejected and failed refining materials were thrown into. Hearing that these waste materials were turned into usable resources, the Elders couldn't help but be startled.

Mu Yao watched everyone and didn't talk for some time. For a while, the room was silent. After a moment, Mu Yao said, "I have turned Yan Planet into a forbidden area now. Only a few people are allowed to deliver waste material to the planet. And they cannot see much of the planet. Zhao Hai will periodically visit the planet in order to recycle the waste materials and make them into usable resources. Now all of you should understand why I gave Zhao Hai so many benefits."

They understood. If they didn't, then they were idiots. Shen Wei's expression turned dark. He didn't expect the situation to be like this.

Seeing that the crowd was quiet, Mu Yao said, "If you don't believe me, you can go to Yan Planet and take a look. The materials are still there. Also, Shen Wei, I did indeed kill your disciple. As for the reason why, you should be aware of it. This decision isn't only up to me, but it was made after the deliberation of the Ten-Elder Assembly."

The Elders present stared when they heard this. They clearly knew what the Ten-Elder Assembly was. This Ten-Elder Assembly only happens if something important needs to be decided upon. Ten groups of Elders would be invited and everyone would discuss the matter. If it wasn't important, this meeting couldn't be called upon. The power of the Ten-Elder Assembly was more than a normal group of Elders.

A lot of people knew about the death of Shen Wei's disciple. They also suspected that it was because of Mu Yao. However, they didn't expect this matter to involve a Ten-Elder Assembly. If this was the case, then what happened to Shen Wei's disciple? Why did the Ten-Elder Assembly decide to kill him?

The other Immortal Experts looked at Mu Yao in confusion. Seeing the crowd looking at him, Mu Yao elaborated, "When out on a mission, Shen Wei's disciple has been abducted by an Elder of the Giant Spirit Realm. After he was captured, he was taken to their headquarters. Then ten Immortal Elders of the Giant Spirit Realm worked together to turn him into a puppet to come back as a spy. We discovered it later on. After the Ten-Elder Assembly made their decision, they gave the task to me to accomplish because of my enmity with Shen Wei. This will hide the matter from the Giant Spirit Realm. We never revealed it outside. Now that the Giant Spirit Realm has been driven out of the Ten-thousand Realm Battlefield, I can now reveal it to you."
