

Apocalypse 1086

Chapter 1086: Gory Red Arena

“What if too many people die?”

Deacon Water suddenly said. She had woken up from her distracted state.

“Too many people die?” Deacon Bai laughed coldly, “Is that something we must consider?”

“Of course!” Deacon Water replied, “If the casualties are too high and the news spreads outside, people will scold Five Ring Money for being liars. How will we continue to do business? Why did we make the five rankings and organize the Bright Water Feast? So that people can scold us?”

The few of them kept silent.

They naturally knew about all of this, but they neglected this issue because it wasn't their focus—or rather, they purposely ignored it.

To them, ordinary people weren't lives but numbers they could use.

“Can we adjust the difficulty? Why not, we don't let them go to those places? Deacon Ouyang asked Deacon Tong.

He shook his head. "Each region is open. After they enter the third region, they will face all these, and even we can't control where they go. To adjust... Should we get them to the second region like us? But with their ability, isn't it the same as asking them to die?"

Deacon Tong's understanding of Bright Water World was definitely the top. Since he said it, then there was definitely no better solution.

"Let's try to provide some needed equipment and resources. When needed, we can reveal some information so they can survive."

Deacon Ouyang sighed and didn't say anything more.

They didn't really care about the lives of these evolved; they only cared about their own reputation.

"Okay, let's think about happy things. Gory Red Arena is about to start today. Is there anything else that excites us besides crystals?"

Deacon Bai stood up and adjusted his suit. He touched his collar and then looked at Deacon Water. His eyes had a bit of fire in them that wasn't there before.

"This time, some factions that we invited didn't come." Deacon Water acted like she didn't see him and moved to the next topic.

She said coldly, "God Hall didn't come. We sent them the invitation through that channel, but no one replied. Top in the combat strength rankings and overall strength rankings, them not coming has caused this Bright Water Feast to lose a bit of color."

“Thousand Beast Villa is not here. Zhang Daqian is third in the combat strength rankings, and they are third in the overall rankings.”

“Pin Palace’s old man didn’t come and only sent his grandson. He is decent, but his combat strength isn’t in the top 50.”

“Also, Cloud Peak didn’t attend. Overall 6th and combat strength 10th.”

Deacon Water went through the list, “If not for No Man Zone’s old man Wen Huan’s surprise attendance, I don’t know if we can even succeed this time.”

After saying that, Deacon Water, whose body was as if made of water, finally looked at Deacon Bai, “These are the most important things.”

“These aren’t important; you probably have your own interests in them, right?” He was serious, his hands in his pockets, holding onto a box.

“Don’t think that I don’t know that Cloud Peak and you have an agreement. The fact that they didn’t come to disappoint you, right?”

Deacon Water squinted her eyes, “I am disappointed about any faction that is not here. You should know what the completion status means to us.”

“I don’t know!” Deacon Bai smashed the box in his pocket, and his expression turned vicious.

“Even if Cloud Peak came, it won’t help much. They don’t have the right to compete with me. Shui Ruoxi, you can’t change some things with your will; some resistance is destined to be useless.”

Deacon Bai smacked the box onto the table and left the room.

Deacon Water looked at the box and smiled coldly.

“Haiz, isn’t it good if we all have a good relationship? You young people shouldn’t be so competitive.” The Royal Guild head sighed and left. But anyone could tell that he was gloating.

Deacon Ouyang shook his head and said while walking out, “Let’s meet at the arena.”

Only Deacon Tong and the cold Deacon Water were left.

“Ah Shui, have you really placed your hopes on Cloud Peak? Their strength isn’t enough to help you out of your situation.”

“I will place my hopes on whoever that can help me.”

A ball of water appeared around Deacon Water that wrapped her. A few seconds later, she disappeared.

“Sourceless Water, keke, interesting.”

Deacon Tong smiled.

.....

The three of them sat together. That person who tried to get close to them and two others were also on the same table. The six of them occupied a table at the corner of this bar.

“Boss Ye, let me introduce. This is the boss of the Advance Party, Mo Qi. He is 92nd on the leaderboard! This is Xuanyue Corporation’s Brother Yuan. Brother Yuan and his friends came on that luxury cruise! Do you know Xuanyue Corporation? They are 18th on the overall rankings. These two are amazing people.”

Bo Ge introduced them to Ye Zhongming. He felt like it was an honor to know these people.

Bo Ge was the guy that was interested in Zhao Xiangxue.

Ye Zhongming nodded to the two of them, but Gao Yi and Zhao Xiangxue were cold, it was as if they didn't see them.

Mo Qi and Brother Yuan nodded at each other and felt weird. They felt the two blocks of ice were more like the bosses.

In an organization, if there wasn't a clear hierarchy, then the organization was probably a mess. They won't have any future potential.

A female attendant wearing a bikini, which revealed her snow-white body, placed six cups of different colored cocktails in front of them. To show his generosity, Bo Ge paid the bill. Of course, even if he was the boss of a battle squad, the things here were expensive. The price of the six cocktails made his heart hurt.

The six of them chatted for a while. Zhao Xiangxue and Gao Yi still didn't talk, which made Mo Qi and Brother Yuan unhappy. If not for Zhao Xiangxue's looks, they wouldn't lower their status to sit at the same table as them.

After the rankings came out, the status of those who made the rankings and those who didn't were huge.

There weren't nice people in the apocalypse. The two of them felt that Zhao Xiangxue and Gao Yi were stupidly proud and were prepared to hit them in that area.

"Little Ge, do you know where the best place is here?"

Bo Ge was slightly older than the two of them, but with strength being the most important thing in the apocalypse, they didn't consider age.

"Oh? We just came in, so naturally, we don't know." Bo Ge was awkward, but he still asked politely.

The two of them looked at each other and felt like they were ignorant.

"Of course, it is the Gory Red Arena." The two of them stood up. Let's go; the night battle is about to start. If we are late, there won't be seats. There of you... Let's go and open your eyes!"

Chapter 1087: Real and fake

Bright Water World's entertainment zone, which is always nighttime, entered its most fascinating moment.

Everything here was like a money-sucking machine that was running on maximum load.

Ye Zhongming walked on the streets and looked at the various shops. It was as if every shop had people and all types of businesses were popular.

For example, they went to a bar where they could drink delicious wine from peacetime, listen to exciting tunes, and eat exquisite food. There was even fresh fruit.

There were drinks and alcohol that people could only hear about during peacetime. Due to the desires of their memory, it became motivation for them to spend.

There was also that special area with a red sign that was filled to the brim. Some people didn't understand why bosses who didn't lack women outside would like this place so much.

Maybe only Ye Zhongming, who had experienced all of this in his last life, understood. Not only was this a new feeling, it was a mental and psychological release.

Can you imagine it? A four-star evolved could make a five-star evolved do anything you wanted. This was rare outside. Even if such a thing could happen, the guy whose evolution level was lower was probably the one being ordered around.

But you just had to pay crystals here, and you could do anything you wanted.

There were many ways to make a five-star evolved willingly do such things. Five Ring Money could achieve all of those methods.

What slightly annoyed Ye Zhongming was that he saw many shops selling equipment. Some cool-headed evolved were preparing for the operation tomorrow. They would enter the shops to purchase things that could help improve their strength.

Ye Zhongming saw some of his own items that were selling for a high price.

Ye Zhongming didn't want to find out where those things came from. After all, these pieces of equipment were too ordinary for him. But it didn't feel good that the things he crafted were being used for profit by others.

Maybe because he saw that Ye Zhongming paid much attention to these stalls that sold equipment, Bo Ge said, "Cloud Peak's items are very famous now. Look, my dagger came from them."

He took a white dagger from the side of his thigh, and it gave off a gentle glow under the light.

Mo Qi took it without hesitation and slashed, "Not bad, just that the level is a little low."

Brother Yuan took a look and was filled with disdain, "Actually, Cloud Peak's equipment isn't any good. The abilities are all trash. The only thing is that they produce a lot of equipment and occupy a large part of the market, so people think they are strong."

Zhao Xiangxue and Gao Yi glanced at him.

Bo Ge retracted his dagger and was slightly annoyed with those two. They did have green equipment, maybe more than one, but they still mostly used white equipment.

Did that give them the right to look down on his dagger?

But both of them had status, and Bo Ge wanted a good relationship with them so that he could benefit from it in the future. So he just smiled and didn't say anything.

Ye Zhongming naturally saw it. He forgot when he crafted that. Like what Brother Yuan said, he crafted too much equipment that he couldn't remember.

But quality... Ye Zhongming was amused. Although he sold many pieces of equipment and didn't know how many pieces there were, if anyone said the quality wasn't good, they were just acting cool.

He ignored the two of them and walked toward the center of the entertainment zone. There was a tall building gilded in gold.

"Although most things here are things you can see on Earth, this is a miracle!" Bo Ge exclaimed as he described this building.

"This is the strength of a super faction. All of us know that Five Ring Money is humble to rank themselves at tenth!"

Mo Qi scoffed as if he was from Five Ring Money.

Ye Zhongming looked at the same sight and had his guesses. But he was unsure and wanted to take a look. But he felt like his guess was mostly correct. Although the things here are real...

“That is the Gory Red Arena.” Brother Yuan was excited, and it seemed like he had been there before.

“What kind of place is this?”

Bo Ge smiled and asked. He had heard the two of them mention this place several times.

“That is a... A place that makes one addicted.”

Brother Yuan retracted his pride and looked, “That place has everything you can think of, even things you can’t imagine. That is a place to gamble.”

“Gambling den?” Bo Ge’s eyes lit up. He had loved that in the past and was excited when he heard that.

“You can say so. Most parts of it are gambling dens like what Las Vegas had. There are also a few new things. Take care of your wallets when you walk in.”

Brother Yuan smiled and was satisfied with Bo Ge’s attitude, “The underground portion is an arena. There are various fights, and Five Ring Money will be the banker. You can try your luck, and if you win, you can earn a huge sum. I had a brother...”

He paused and raised his brow at Zhao Xiangxue, “Guess how much did he win?”

Mo Qi smiled. The three of them acted like it didn't concern them, and it was still Bo Ge who guessed, "How much?"

"A five-star potion."

The three of them were also shocked. You could get a five-star potion? That reward was huge. Even if they were the average in the apocalypse, most were four-star, and only the better ones were five-star.

Seeing that little beauty finally react, Brother Yuan raised his chin, "Of course I am not lying. Even I benefitted and got two level five crystals."

To him, Ye Zhongming and his group were all four-star evolved and were people who used all their money to get the potions. Just look at their equipment.

"Let's go, we need a ticket, but today is my treat. Let all of you open your eyes."

He handed a few level three crystals to the attendant.

The six of them entered, and a heatwave pushed toward them. The place was filled with various machines and tables. Many beautiful attendants were among them. Each banker wore beautiful and cute cosplay costumes. There were also various-level crystals on the table, and they were so bright that they could blind you.

Even if you didn't do anything, you would be tempted the moment you entered this place.

But Ye Zhongming still didn't feel much. He was stunned only when he saw a giant liquid monitor on the side.

"That is?"

Brother Yuan heard his question and looked impatiently before replying, "The people that will fight in the arena today."

Ye Zhongming blinked. He wanted to just look before leaving but now he decided to stay.

He saw someone he recognized on the monitor.

Chapter 1088: Familiar people

Ye Zhongming wasn't very interested in gambling. He looked at his two subordinates and asked if they wanted to play. If they did, he would pay for their chips.

But the two captains weren't interested.

Since that was the case, Ye Zhongming planned to take a look at the gory red arena.

Mo Qi and Brother Yuan naturally didn't have that thought. Bo Ge wanted to accompany Ye Zhongming, but his two friends tempted him. After expressing an apology to Ye Zhongming, they started gambling.

Ye Zhongming shook his head and led them down.

"Apologies, I need to check your identities."

They bumped into a bunch of guards in a bar, and they asked them for their tags.

Ye Zhongming asked. So they actually needed some assets to enter here. If you were poor, you would just bet on the machine above. Those were for small amounts. If you wanted to enter the arena to watch it live and make your bets, you would have to prove that you were worth it.

"How much?"

"300 level three crystals."

Ye Zhongming didn't say anything. The crystals weren't much. He grabbed a bunch of crystals, which were a mix of level three and four crystals. The people here took a look and were stunned.

This guy casually grabbed from his bag and got that many? One person was sharp and saw a level-five crystal inside.

They looked at the tag, which had Trio on it. These people were sure they had never heard of this organization, so they were even more curious about Ye Zhongming.

But they definitely pass the verification. After inviting the three of them in, the person in charge recorded their names in the books as someone to observe. He planned to inform the manager about it.

As they were just an ordinary squad, the three of them weren't allowed to the top of the arena. Neither were they allowed to get to the second floor. They were only on the first floor. There weren't any suites, just rows of seats.

Although it was comfortable, it still showed the gap between the second and third floors.

The second floor had individual chairs with many plants around. The third was solo suites with everything inside.

The arena hadn't officially begun, but there were already performances. Two level-three mutated lifeforms were battling. Some people nearby shouted and cheered for the lifeforms they had their bets on.

Moreover, evolved entered and sat down at the best spots. There would be some squabbles when they fought for seats, but the Five Ring Money guards would quickly calm them down.

No one could cause any trouble here.

The three of them found a seat and saw an instrument in front of their knees that clearly reported today's situation. The instrument introduced each battle and the records.

At first, the initial rate would change when it was close to the start of the battle, but you could bet at any moment.

“So advanced?” Zhao Xiangxue realized that you just needed to click on the screen to bet and then scan your tag. An attendant would come over to collect the fee from you, and if you won, they would send your winnings.

“How did they do it?”

One had to say that Zhao Xiangxue found this similar to QR codes in the real life.

“These might be real, but they can only exist in Bright Water World.”

Ye Zhongming’s words filled the two captains with disbelief.

“Boss, you are saying that... Bright Water World created all of this?”

“En.” Ye Zhongming looked around. It might be super-space equipment. To get control of this place, you need to unlock some seals, which are the ones we have to face. Whoever gets control can create all of these.”

“This place is really special and magical.”

Ye Zhongming’s interest in this place was piqued. He wanted to see what those seals were and what you would get if you unlocked them.

The warm-up had ended, and someone cleared the battlefield. But there were pools of blood that were left that still shocked everyone.

An MC stepped up and started to speak, increasing the atmosphere. After all, more than half of the seats were already filled.

Ye Zhongming listened; they were just about rules, payout, things to pay attention to, etc.

Some of the rules shocked Ye Zhongming. It seemed like Five Ring Money was pulling out all the stops to earn money.

There was some movement at the entrance. The entrance to the first floor was sealed, and some people got up through this place. Some factions who had the right to get to the second and even first floors were here.

Then, the first battle began.

Ye Zhongming looked at the screen before him, and it indicated that it was a battle between a human and a mutated lifeform. A four-star evolve and a level four mutated lifeform. The payout indicated that the mutated lifeform had a higher chance of winning.

That was normal. When both were on the same level, ordinary mutated lifeforms were stronger than ordinary evolved.

The bets increased, and the number behind it indicated over a thousand level-three crystals.

“Just play, it is okay.” Ye Zhongming passed the bag with the crystals to the two of them.

“Boss... The two of them hesitated. It didn't feel good to spend their boss's money.”

“Call me when it reaches the 4th game.”

Ye Zhongming closed his eyes to rest.

Gao Yi and Zhao Xiangxue looked at each other. Since the boss said it, then they shall play a little.

They started to bet one or two pieces.

The person who came to take their crystals even looked at them in disdain.

As they waited for the battle, more and more people observed. Very quickly, the cheers reached a peak.

It was as if Ye Zhongming was asleep. He opened his eyes only when Zhao Xiangxue called him and told him that the fourth battle was about to start.

When he opened his eyes, he saw a person standing there holding two guns. On his waist was a bullet case filled with bullets.

“Why can he still use guns?” Someone shouted.

But very quickly, they stopped as his opponents had arrived... They were a bunch of Soldier Hogs!

Many people exclaimed and started to bet. They didn't indicate that this person was battling a horde.

Some people cursed Five Ring Money for conning them, but it didn't matter.

Ye Zhongming paid attention to the person on the battlefield.

He recognized that person. He was Li Qiang.

“I hope you survive; I have something to ask you.” ye Zhongming thought to himself, and then he bet 500 level-three crystals on him.

Chapter 1089: Rushed Gunner

Who was Li Qiang?

This person was a national shooter whom Ye Zhongming met in the new region base not long after he revived. Li Qiang wasn't an evolved and already gathered many friends and colleagues to become a leader in the new base.

Even Ye Zhongming, who was already a one-star evolved, wasn't confident in battling him.

They weren't enemies and even did a trade. Ye Zhongming gave him a one-star potion and a modified rifle. He got the Basic Human Puppet Technique, which gave rise to Red Hair.

Ye Zhongming passed the new district to Jia Ming. Li Qiang even wanted to follow Ye Zhongming, but he rejected him. Although they fought alongside each other and this person did well, he didn't understand him much. Ye Zhongming had worries. Secondly, Li Qiang and his men were all good, and if they remained, they could help Jia Ming defend the base.

After leaving, Ye Zhongming lost news of Li Qiang and even about the new base. Only when Chameleon was formed did he learn that the new base was gone. He didn't know where those people went or if they were still alive.

When he saw Li Qiang's picture, he wanted to meet him.

He wasn't sleeping but scouting the area. He wanted to find the entrance of these participants into the arena. He could only rely on his mental energy, so although he knew roughly where they came from, it wasn't exact.

The battle had begun, and Ye Zhongming paid attention. Li Qiang was much stronger than a year ago and was already a four-star evolved. Moreover, he had learned a shooting-type job. His guns flipped around in his hands, and the bullets formed a metal wall.

He was very quick and continued to move in the arena to maintain his distance from these hogs.

The hogs were all level-four lifeforms, and there were a few dozen of them, which put Li Qiang in a bad spot.

The Soldier Hogs had a layer of armor like a thick layer of dirt that had ripped apart. Li Qiang's handguns were white weapons, and his bullets were ordinary bullets. When he hit them, they gave paltering sounds that caused soil-like pig skin to scatter, but it didn't do much damage.

If you wanted to kill them, you had to aim their eyes, ears, or their opened mouths.

But when those cunning pigs moved about quickly, it wasn't easy to hit these protected areas.

Li Qiang finished two cases and didn't kill a single hog.

This made the audience increasingly unhappy and made them feel like this was a one-sided battle. Many people continued to bet on the hogs.

Ye Zhongming observed and then looked at the payout. He shook his head. Five Ring Money was so evil. They set a trap so everyone felt the mutated lifeforms would win, but...

With Ye Zhongming's foresight, he saw that Li Qiang wasn't trying his best. This fellow was also cooperating with Five Ring Money to con money.

He looked at all the crazy evolved and wondered how much money they would be conned out of in their few days here.

As expected, Li Qiang started to fight back at a certain point. His legs pushed the ground, and he jumped into mid-air. His hands became illusionary, and then there was a gunshot.

"Dazzling Hands with Rushed Gunner? They really do complement each other." Ye Zhongming muttered at a volume that only he could hear, saying the skill and job that Li Qiang had used.

Dazzling Hands was a skill that allowed hands to move quickly and perform many actions in a short time. It was good for many jobs.

Rushed Gunner was a shooting job. One of its most famous skills could allow the bullets to stop in the air and then let numerous bullets fire from the same barrel to cause a much stronger shot.

With this job skill, one shot often represented many bullets, even a dozen bullets.

As expected, both hands fired, hitting the heads of the hogs nearest to him. The part that should be firm instantly cracked, and blood and flesh seeped onto the battlefield.

Li Qiang relied on momentum to push his body backward. He stepped on the energy barrier separating the arena and the audience and then charged toward the hogs.

His guns fired. This time, it was a series of shots. The hogs screamed, and a few ferocious hogs fell to the ground.

Only when their bodies were flung far away and they twitched on the ground, did anyone see the blood flowing from their eyes.

Li Qiang used the chaos his skill had created to hit the fatal spots on a few of their heads.

Over half of the hogs were killed in the blink of an eye.

Li Qiang stood up, and there was some blood on his stomach. It was his own blood. He was also injured when the hogs brushed past him.

He removed and equipped the bullet case like he was playing tricks, which drew some cheers. He continued to fire and retreat, but his firing frequency wasn't as quick as before. Each bullet would hit the same parts of these hogs as if he were doing a show. When all the bullets were used, only the strongest hog was left.

Li Qiang tossed his gun and took a dagger from his waist. He roared and clashed with that mutated lifeform.

This was a direct clash. When he won, he was also covered in blood.

Although many people cursed Five Ring Money for causing them to lose money, Li Qiang relied on his skills to excite everyone. Many even shouted his name.

Before the attendant could bring him his money, Ye Zhongming stood up and left. He told his two subordinates to wait.

After heading out, Ye Zhongming observed his surroundings. He used his speed to enter a door.

A few dozen seconds later, he was underground. In front of him was where those people who were about to fight waited.

He hid in a corner and avoided many people who worked here. Only then did he see Li Qiang, who two people were carrying over.

Chapter 1090: Outer space

Two Five Ring Money members were carrying Li Qiang. They didn't show any pity to him, even if he had any injuries, and were still joking around. They talked about the 50,000 level three crystals that were bet and estimated that the organization would earn close to ten thousand. They then changed the topic and talked about a female evolved who was so excited that she even took her clothes. They gave a lustful smile.

Ye Zhongming watched as they carried Li Qiang to a jail cell in a dark corner.

Right, there were locks.

"Wait!"

He stopped them when they placed Li Qiang in and wanted to leave.

"What?" Their attitudes were very bad. Although they were only three-star evolved and weren't stronger than Li Qiang, they didn't show any respect.

"My, my healer?"

Li Qiang was badly injured, especially his chest and left stomach, which was pierced by the fangs of the hog.

Although he was strong, as long as he had his gun and bullets, he would have infinite combat strength; it didn't exceed his level. If he wanted to heal himself, it would take a long time.

“Why are you so anxious? We won't let you die. You are Five Ring Money's asset; we can't let anything happen to you.”

The two of them ignored him and left. The door wasn't locked as the healer would come.

When the two of them left, Ye Zhongming waited for a while and only entered after confirming that no one was there.

Due to the angle, Li Qiang didn't notice him immediately. Ye Zhongming didn't call him and just looked at the cell.

This was already a habit.

He bent his body so that the acquaintance could see his face.

Li Qiang was shocked and wanted to say something, but Ye Zhongming covered his mouth. He then saw the person who helped him become an evolved float out of the cell.

A few seconds later, a person holding a medical case walked in.

“So problematic, you don't know how to fight without getting injured?”

This was the healer. He checked his injuries and muttered with a bad attitude. He ripped his clothing and placed his hand on his wounds. His palm lit up, and a gentle light entered.

He opened the case and wiped some medicine on the wounds. He looked at the effect and then took out four locks to lock his limbs onto chains connected to the ground.

“Stay here; you will be fine in a week.”

He left with the case.

Ye Zhongming smiled coldly at this person. If he were willing to spend a bit more mental energy and given more medicine, Li Qiang’s injuries would heal in two days.

But his attitude caused that timing to extend to a week.

If Park Xiuying had done this, Li Qiang would have been healthy in a few hours.

Due to his bad injuries and the four locks, the door wasn’t closed. Ye Zhongming entered without any obstruction.

“Drink this first.”

He didn't unlock the locks and just placed a potion by his mouth.

“Boss Ye, it really is you!” Although the healing was done irresponsibly, Li Qiang was much better. He could speak with some energy. He saw Ye Zhongming's face, which was the same as two years ago, and was emotional.

Although the situation wasn't as ideal, Li Qiang remembered what Ye Zhongming did in the new base.

He gave up such a good base.

The difference was huge compared to Five Ring Money, which still locked him up when he was injured.

He was shocked when he felt the liquid flow into his mouth. He recognized that taste. It was a healing potion, and it wasn't too cheap.

“Don't say anything. I have some questions to ask you once you get better.” Li Qiang nodded emotionally and closed his eyes. He tried to calm himself down to speed up the potion's effects.

He opened his eyes a few minutes later and told Ye Zhongming he could speak.

“Why are you here? How is the new base? Where is Jia Ming?”

When he faced the few unsurprising questions, sadness flashed across his face, and then he started to describe what had happened.

After Ye Zhongming left, the base advanced really well at the start. Ye Zhongming let many people here evolve, which was the best foundation. The foundations also allowed them to stand out.

Jia Ming, Li Qiang, and others quickly evolved into two-star evolved.

But they attracted attention, and others targeted them. Both sides clashed and had conflict.

Although it wasn't as peaceful as before, the new base wasn't disadvantaged. At this stage, these main members turned into three-star evolved.

But things changed a year ago. That enemy faction suddenly became much stronger and easily broke into the base.

Jia Ming and Li Qiang led people to retreat. They wanted to find Ye Zhongming but encountered an unbelievable obstacle along the way.

They all lost consciousness one night, and when they woke up, they were in a foreign environment. They were tied to a metal bed with machines moving around them doing various experiments.

After each experiment, their bodies were perfectly healed. They also had nutrient-rich fluids that helped maintain their stamina and energy.

Such life lasted for a long time, and this mysterious place was attacked one day. Some people who were awake realized that they were in... Outer space.

More accurately, they were on the moon.

“You are saying that you were brought away from Earth?” Ye Zhongming couldn’t suppress his shock and stood up!

He didn’t expect that the answer he was searching for would come by chance from someone he was familiar with.

“En, we were in that golden warship that appeared the day of the apocalypse.”

Ye Zhongming calmed himself down and then asked, “Golden Warship... What is inside? Lifeforms like us? What is their goal? Why are they doing experiments on you? How did you... Return to Earth?”
