

## **Apocalypse 1106**

### Chapter 1106: Lord Candidate

The guy looked at the rankings on the tag, and his face was so dark.

He was ordered to spoil the trio's completion rate, but who knew he would fail? He realized he couldn't explain to Five Ring Money once he got out and was terrified.

He knew why Five Ring Money nurtured them. When needed, they could help Five Ring Money with stuff. They could show value and repay Five Ring Money for their investment.

But now, they have failed their mission. They didn't show the value that they should have, so what awaits them?

The guy didn't dare to imagine.

But he didn't understand. They were prepared and had energy rods that could deal with the energy bodies. Why were they unable to find any energy bodies?

He knew the trio were the ones to kill them, but he didn't understand how they could kill energy bodies, which even Five Ring Money found problematic.

"Boss, we..." A subordinate asked.

“Let’s go; there is nothing we can do. Let’s hope those deacons give us a chance to redeem ourselves.”

The guy led the team toward the entrance, but those who followed him naturally didn’t feel good either. They walked for a few minutes, and an injured bat suddenly appeared in the darkness. A frustrated member waved his stick, and that mutated lifeform died.

After which, the evolved in the dungeon all received a notification that the completion rate had reached 100%.

The team stopped, and there was silence. After a few dozen seconds, the leader shivered angrily and cursed the team member who attacked.

“You are so stupid!”

.....

Ye Zhongming shook his head and thanked the unknown evolved for completing the last bit of the completion rate. He commented that there were indeed nice people in the apocalypse.

After getting that notification, the Lord’s Case notification arrived.

He happily opened the case; per the Puppet Ruins, there were three rewards.

Ye Zhongming looked at the first. It was the Cooldown Potion.

This potion, which needed a Potion Maker or Alchemist to create, was very important to Ye Zhongming. When he saw it appear in his hands, he knew that the money he spent was recouped, and he even earned a large amount.

Next would be to hand this to Candy and find the required materials to create this in bulk.

As long as this potion became a common equipment for ordinary Cloud Peak members, then Cloud Peak's combat strength would greatly increase.

Of course, this was still a consumable. To create such potions on a large scale, a large amount of monetary support was needed. Ordinary factions could only occasionally create one or two bottles to use.

This could show why Ye Zhongming paid so much attention to the Secret Realm and wanted to occupy that place. It was the best material base.

The second reward was a key called-- Gem Maze Formation.

Ye Zhongming felt like this name was familiar. He thought about it for a long time before recalling that there was a game called that before the apocalypse. No wonder his reaction was slow. After all, it was two years for others but 12 years for him. It was similar to the Proof of the Puppet. This was connected

to the eyes, and when needed, you could use those eyes to form a mental energy-disrupting region so that people who enter would be sent into an illusion.

The gem formation would also consume the user's mental energy and the eye's energy, but it wouldn't consume much of the latter.

When the energy in the eye was finished, the formation would lose its effect.

Ye Zhongming was amazed and had an idea.

Be it Proof of the Puppet or Gem Maze Formation, it differed from the equipment from the wheels. In terms of quality, naturally, those of the wheel were better. After all, these two things were just consumables. But in actual use, the two keys had other functions.

A thought appeared in his mind, but it was very blurry, and he could not grasp it.

He was familiar with the third thing; it was that metal board.

There were puzzles here, too?

Ye Zhongming didn't get any. When he saw the board, he asked Gao Yi and Xiangxue, and as expected, they found three puzzle pieces. They were similar to those in the Puppet Ruins, but their shapes were different.

Seemed like the other three were obtained, and he would have to spend some to gather a set. The people with the puzzle pieces will definitely raise the price.

He didn't want to think about such problematic things. When he led them out of the dungeon, he received another notification.

"Obtained two Lord's Cases, Trio has become Bright Water World's Lord candidate. Please obtain more Lord's cases. When all the dungeons reach 100%, the person with the most Lord's cases will become the owner of Bright Water World."

"Lord's cases will be tabulated based on the overall points, third region as 1, second region as 3, and first region as 6. The special region is worth 10 points."

"Points can be transferred."

"The top three teams in the rankings will obtain the rights to enter the Sky Monument."

The notification stopped. Ye Zhongming stood there in shock.

Bright Water World wasn't owned by Five Ring Money. They found it and opened it!

So, each organisation that joined Bright Water Feast could obtain the right to own this place.

At the same time, Ye Zhongming understood why they found out about the news in advance and still let people enter. One was that they were using everyone's ability to reach 100% completion. Second, they had already completed many regions and obtained many Lord's Cases. Their points were far ahead, and they weren't afraid of being passed. Moreover, points could be transferred. If any accidents happened, they could save themselves.

Ye Zhongming felt like he understood everything and, thus, didn't have much hope of obtaining the Bright Water World.

But the truth was, he had too high expectations of Five Ring Money and of Bright Water World.

"Sir, our deacon has invited you for a chat."

A polite voice interrupted his thoughts, and a man in a suit bent over and reached out to invite Ye Zhongming's group to the entertainment region!

Chapter 1107: Price

Ye Zhongming knew that obtaining two Lord's Cases had finally made Five Ring Money pay attention to him. His hiding of his identity had probably come to an end.

Ye Zhongming smiled at that person and then left with his people.

He left that stunned, handsome guy who didn't know what to do.

To a certain extent, Ye Zhongming hoped to chat with Five Ring Money. He had come here with many propositions but now wasn't the time.

He had spent money on three places, and there was still one more he hadn't been. Talk to Five Ring Money? What if someone else took that place?

So he decided to enter the third dungeon-- Ice Sealed Mountain.

There was an omnipotent equipment upgrade scroll that could upgrade blue equipment to gold.

.....

Seeing their disappearing back view, the guy smiled bitterly and rushed back to report. Deacon Tong, who ran back from the dungeon, was furious when he heard that news but calmed down immediately.

"They entered Sealed Ice Mountain?"

The handsome guy nodded, "I saw it clearly, they did enter Sealed Ice Mountain。 "

Deacon Tong didn't say anything and just tapped with his palm. An ink-like screen formed from light rays appeared. What was happening in Sealed Ice Mountain appeared on it.

The guy looked at it enviously. Although he knew that this ability could only be used in Bright Water World, he was still enchanted by this god-like ability.

“The completion rate is over 10%.”

Ice Sealed Mountain’s completion rate was over 90%, so Deacon Tong was slightly at ease. Although he didn’t think the three of them would continue crushing to become Lords of each dungeon, he hoped they would stop at their current state.

Five Ring Money didn’t grasp Bright Water World as firmly as the others guessed. There were many things they hadn’t completed, which is why they organized this feast.

Deacon Tong controlled Bright Water World and cared more about it than the others. He wouldn’t allow an ownership issue. He knew that as long as he controlled this magical space, one day, he would stand at the top of the world and look down on all life forms.

“Since they are busy in the dungeon, let them go.”

Deacon Tong thought about it and instructed the handsome guy, “I will give you a lift. Send the reserve squad to these dungeons. The lower the completion rate, the more they need to do. Whether doing it themselves or helping other organizations, there is only one goal. To push the completion rate above 10%.”

The handsome guy nodded. Half a minute later, Deacon Tong checked all the dungeons in the third region and handed him a list of those that had yet to reach 10%.

The guy looked and paused, "Deacon, these places are... A little too dangerous. If we do that, then the losses will be huge."

Deacon Tong took a deep breath and bit his teeth. " I don't care; just do it. I will tell the other deacons, just execute it."

.....

When the tunnel opened again, Ye Zhongming and Gao Yi walked out. They looked very tired, but one could see the excitement on their faces.

Although they didn't get the Lord's Case from the Sealed Ice Mountain, they obtained the final reward. Although the other factions were somewhat unhappy, they didn't care.

Although they crushed the three dungeons, 30 hours of fighting made them tired, so Ye Zhongming decided to rest.

Using this rest time, they had two things to do.

The first was to return to that all-item shop to see if he could get more information. This was the reason they succeeded in the first three adventures.

Ye Zhongming had a strong feeling that there was a huge secret there!

He guessed that it had something to do with Five Ring Money, but now he knew that it definitely had nothing to do with it. After all, this concerned who Bright Water World belonged to. Would Five Ring Money sell such a secret for a few evolution potions?

Impossible!

With the same reasoning, this shouldn't belong to any other faction. If Cloud Peak had such information, they definitely wouldn't let anyone else know.

Then... The answer made his heart tremble.

When Ye Zhongming rushed to that store, that person was still sleeping there. After they woke him up, he looked at them and impatiently asked them what they wanted.

Since he had a guess, Ye Zhongming wouldn't give up the chance to probe him. He asked the guy what he wanted.

The guy, whose hair was in a mess and whose eyes were bloodshot, smiled at him, “The things I want are very rare; I don’t think you have them.”

“If you don’t say it, how would you know I don’t have them?”

Ye Zhongming stared at the guy and asked.

The guy shook his head and didn’t believe Ye Zhongming.

Both sides were silent until Ye Zhongming turned to Gao Yi and Zhao Xiangxue and told them to head out. He then said to him, “I want to know everything you know about Bright Water World. Give me a price; maybe I can’t pay it, but tell me what it is. That is the normal way to trade.”

That person looked at Ye Zhongming weirdly and nodded, “You are smart.”

“Secret Realm key!”

The three words were said from his mouth, which stunned Ye Zhongming.

He observed this guy and confirmed that he was serious. If not, he would think that this was a trap.

If not, why was it such a coincidence that he bid for a key that Ye Zhongming had?

“Sure!”

Ye Zhongming agreed. Now, it was that person’s turn to stand up, and he looked at him in disbelief, “You really have it?”

“Yes.”

That person took in a deep breath, and his aura changed. He wasn’t as lazy and sleepy as before.

“Something else.”

Ye Zhongming squinted his eyes, “Raising your bid isn’t the way to do business.”

“I am not raising the bid; it has always been at this price. I only say one thing because that isn’t something ordinary people can have.”

That person looked at Ye Zhongming and said, “Don’t worry; what I can give you is definitely worth it.”

Chapter 1108: Mental advantage

“Then say it.”

Ye Zhongming kept silent for a while before he agreed.

“You must prove to me that you have the Secret Realm key first.” That guy didn’t back down, as if this was a market.

To Ye Zhongming, this was indeed a market.

He was sure that this person had a mysterious background or, to a certain extent, he represented the secrets of the apocalypse. Even if the bid were high, Ye Zhongming would consider it.

He took out the unopened Secret Realm key and waved it at that person.

Ye Zhongming saw the surprise in that person’s eyes.

He was confused. Why could a key cause him to have such an expression?

Indeed, the key represented an unknown space, another piece of land. There might be numerous demon crystals, materials, ores, and precious treasures.

The Blue Secret Realm was like that. It had been really unstable, and in the future, dozens of years, it might even fully collapse. But Ye Zhongming and Cloud Peak were still willing to fight a level nine expert to occupy that place. The reason was for those numerous benefits.

Strictly speaking, Bright Water World couldn't compare to a secret realm.

But the problem couldn't be analyzed from just one direction.

With Cloud Peak's current situation, they could control one secret realm. They weren't strong enough to control a second one.

No one knew what Ye Zhongming and Cloud Peak had prepared to kill the level nine Saint Father. Ye Zhongming's space, Cloud Peak's warriors, and the Posthumous people's city all had trump cards. Some people even gave up on evolving and focused on doing something that might help in that battle.

Ye Zhongming and Cloud Peak paid a huge price for this.

This was a gamble. Blue Secret Realm will turn into Cloud Peak's backyard if they win. All their input will receive tens of thousands of times its return, and Cloud Peak will enter a period of quick progress.

But if they lost, they would be forced out of the Blue Secret Realm and have nothing to do with that place. All their preparations would be for nothing. Their investments would be a loss, and they would have a burden of hundreds of thousands of Posthumous people. If they didn't manage it properly, they would die from the burden.

Under such a situation, could they open another gate to an unknown world to face unknown monsters and experts?

Even if Ye Zhongming were confident, he wouldn't do such a risky thing.

If today's events didn't happen, he would continue to keep this key in his space, which he had saved since the start of the apocalypse.

He would open it when Cloud Peak had enough strength to begin another new adventure.

But now, he had a chance, and he felt he shouldn't give up, even if he had to pay the key.

Although the information was limited to Bright Water World, no one knew what the future would be like. Rather than say that he was using the key to trade for benefits here, he was having close contact with the mysteries of the apocalypse.

This could also be seen as an investment, which might bring Cloud Peak many benefits in the future.

That person calmly said his other conditions, which shocked Ye Zhongming.

In conclusion, his requests could be split into people and items.

People meant evolved, various levels of evolved with complete jobs, bloodline, skills, and equipment. They could either be alive or dead.

Items meant various levels of mutated lifeforms, including mutated plants and monsters. Each level needed three digits; overall, there had to be four digits of mutated lifeforms.

There were many specifics like battle beast eggs, seeds, fruits, etc.

This gave Ye Zhongming one feeling. This person wanted to make specimens of all lifeforms on Earth.

Of course, that wasn't only it. At least he wasn't going to make all of them into specimens. Ye Zhongming guessed that he wanted to do experiments.

He thought back to what Li Qiang faced, which involved various experiments. Ye Zhongming guessed that this person had contact with those aliens in outer space.

These conditions weren't too hard to obtain and were even easy. But there were too many of them of various varieties, and they required a large amount of time and manpower.

"Two things, time and level." Ye Zhongming said calmly, "I need some time to complete your request, and I can only do it after I leave Bright Water World. But I need the things now."

“Also, some of your requests exceed humans' current abilities, like level nine lifeforms. No faction can kill such a thing.”

That person nodded, “Of course I know that. I can give you some time. The crucial thing is... that key.”

“Your worries aren't a problem. Let's sign a contract. I can tell you what you want to know. Of course, you have to give me the Secret Realm key first.”

The two of them came to an agreement and spent some time discussing specifics, such as the contact method and trading time.

That person took an old scroll and a brush to sign a contract with Ye Zhongming. After signing their names, that scroll turned into specks of light that entered their bodies.

A black mark appeared on Ye Zhongming's left wrist. This was a high-grade item that Ye Zhongming had never seen before.

He also saw that person's name-- Fuyou.

Next, that person told Ye Zhongming everything about Bright Water World.

When the three of them left the room, they actually hadn't recovered from their shock. Things were just too weird today.

“Boss... Gone.” Gao Yi’s voice was shaking, and Ye Zhongming turned his head. They saw that the stall they had come from had disappeared and turned into a wall. It merged with the two sides, and one couldn’t see that there had been a stall there previously.

As expected... It exceeded humans?

Ye Zhongming looked into the sky.

He collected his feelings and returned to the hotel. In the hall, they saw Deacon Tong drinking from a wine glass.

Ye Zhongming smiled. If he still worried about negotiating with Five Ring Money, now, he only had a mental advantage.

Chapter 1109: Collapse

“I couldn’t taste this in the past, but to show my status in front of friends, I hired a sommelier and recorded what he said. Then, I bragged in front of others. I loved that feeling.”

Deacon Tong picked up his wine glass and looked at the dark red liquid inside.

“Such a situation continued into the apocalypse. I realized that no one would care if you knew how to drink. No one cared about your wine knowledge. They cared about your evolution level.”

“So my goals changed, and I desired strength. Thinking back, everything is the same. It is the survival of the fittest. Many people have previously talked about this, and they don’t understand it very well. But the apocalypse enlightened them, which was why everyone chased strength even if they needed to risk their lives.”

“If you didn’t take risks, you would still lose your life.”

Deacon Tong looked at the guy opposite him and praised, “I am curious. The low-level dungeon reward tempts you so much? You don’t want to work with the most elite people in the world to get better benefits? Mr Ye Zhongming, can you give me a logical explanation?”

Ye Zhongming smiled, “The Lord’s Case rewards are quite decent.”

Deacon Tong’s expression changed, and he took a deep breath. “That is because you don’t know the rewards of the advanced regions. Do you know that in the past 40 hours, someone has obtained a six-star potion, and someone got a golden piece of equipment?”

Ye Zhongming shrugged and didn’t say anything. He took the half bottle of wine before Deacon Tong. He didn’t use a glass and just took a gulp.

Deacon Tong stared at him expressionlessly.

“Not as nice as Sour Plum Juice.”

Ye Zhongming cleaned his mouth and placed the bottle back on the table.

“Do you know how much this bottle will cost in the apocalypse?” he asked, placing his hands on the table and leaning forward.

“I don’t know, I have never drank it before. But I know this thing isn’t worth a one-star potion to me.”

Deacon Tong kept silent and laughed suddenly.

“I want to use this bottle of wine to express my desire for Bright Water World. Mr Ye, what are you using such brutish methods to express?”

“I am expressing that I can pick it up, but I can also put it down.”

Ye Zhongming’s reply was really quick, but it caused Deacon Tong to become more and more solemn. He wasn’t as confident as before. He noticed that things were different from what he thought. This Cloud Peak boss seemed confident.

Deacon Tong didn’t know where that confidence came from. Was it because he knew the secrets of the Lord’s Case? Or did he know that the ownership of Bright Water World was not decided?

“I hope to get your points. You can give a price.”

Deacon Tong was annoyed by the calm Ye Zhongming. He decided to be frank.

Ye Zhongming leaned on the chair, "Deacon Tong, let me ask you something first."

"What?"

"Does your arrogant behavior have to do with you acting like you know how to drink red wine in the past?"

Ye Zhongming turned the conversation as fast as you flipped a book and said, "I don't know what gives you the confidence to ask me to name my price. Do you think that you can afford the price I say? When people thought that Bright Water World belonged to you, you might have the right to speak to me like that. But I really want to know what lets you have such an attitude. Deacon Tong, let me remind you, you are only a fifth of Five Ring Money. I represent an organization on the same level as Five Ring Money."

Deacon Tong had never been lectured like this. He stood up and stared at Ye Zhongming, his body giving off a dangerous aura.

"Okay, stop faking it. If you could attack, would you still negotiate with me?" Ye Zhongming understood more about Bright Water World than Deacon Tong, and he had the advantage.

This might be unfair. Ye Zhongming seemed lucky to bump into that mysterious stall, but it seemed fair, too. If you judged that as luck, then wasn't Deacon Tong even luckier? He got Bright Water World first!

So, in the wheel world, luck played a part. There were many lucky people. Not only was there Deacon Tong but there was also Ye Zhongming.

“You!”

There was nothing Deacon Tong could do to Ye Zhongming.

“We can’t fight here, but you will have to head out.” Deacon Water walked over and sat between them. For the first time, three noble leaders of the apocalypse sat together.

“To be honest... You aren’t my match.” Ye Zhongming’s reply negated Deacon Water’s threat.

Ye Zhongming didn’t lie. The only faction he feared was the God Hall’s chief. That person had high combat strength and also had a strong battle beast. He also had the mysterious God Hall behind him.

Ye Zhongming feared no one else. This was confidence that Blue Secret Realm gave him. Although the people there didn’t have as many abilities and equipment as those on Earth, they did have level seven or eight strength. Ye Zhongming killed many of such people.

In Bright Water World, he got the Proof of the Puppet and Gem Maze Formation. His strength had increased. More importantly, he increased his Scorching Flame Technique to the top level.

Also, would Five Ring Money have a chance outside under such a situation? Lu Yi's merchant squad was nearby. If you talked about Chameleon, they were enough to deal with any battle squad.

Ye Zhongming wasn't stubborn; he really wasn't afraid.

Ye Zhongming stood up after saying that and looked at the two Deacons, "I don't mind working together, but it isn't the time. My value isn't fully shown, so let's discuss it in the future."

The two deacons could see each other's rage. At the same time, they were confused.

If it were someone else, they would think he was bragging. But Ye Zhongming was strong, and Cloud Peak was also a super faction. Since he showed such confidence, they had to believe him.

"This person... Is a mystery."

Deacon Tong had a bad feeling. He pinched his forehead and felt a headache when he thought about how to deal with Ye Zhongming.

Deacon Water looked at the wine that Ye Zhongming drank out of and was deep in thought.

Ye Zhongming returned to his room and heard that Bright Water World's dungeons would close for a day after the fourth stage. He knew that Five Ring Money did so to give people a chance to trade, and they also wanted to use Gory Red Arena to collect money.

He lay on the bed and looked at the clean ceiling. Many ideas to show his value appeared in his mind.

Chapter 1110: Ruins Formation

Ye Zhongming sat on the arena chair and saw Gao Yi walk over coldly. He did a mental calculation and got a six-digit number.

That was their current income from the Free Competition.

Ye Zhongming naturally wanted to show his value, so he had to do some things. One of them was Gao Yi and Zhao Xiangxue entering the Free Competition.

He wanted to use this to show Cloud Peak's strength and also his wealth.

Ye Zhongming would bet heavily each time on his subordinates winning. The truth also proved that the Chameleon's deputy rarely had a match at the same level.

At least, that was the case here.

He thought about Gao Yi's payout rate and knew his arena journey had ended. Five Ring Money had adjusted their rates to a low level. Even after Ye Zhongming had bet a huge amount, he couldn't gain much. He even had to take the risk of accidents happening.

Who knew if Five Ring Money would do something to con him, so he decided to stop.

He had earned enough.

Of course, he knew that Five Ring Money wasn't losing money. They didn't reveal that the Trio was Cloud Peak. They needed money, so after the free battles, even if Ye Zhongming earned most of the money, they earned quite a sum, too.

After heading out of the Gory Red Arena, he bumped into Brother Yuan and Mo Qi. Gao Yi and Zhao Xiangxue had taught them a lesson, and now, when they saw these two attack, their factions and them were silent.

Mo Qi was ranked 92nd in the combat strength rankings and felt he didn't have a high chance. Xuanyue Corporation's boss was stronger, but he was also quiet. He didn't have absolute confidence in winning.

This time, the Progress Party and Xuanyue Corporation had lost their face, and it was no wonder they were in a bad mood.

When they saw the three of them, they were furious but also a little curious. How would the three of them be so low-profile that no one knew them?

Ye Zhongming didn't look at them. He had just heard that someone was selling the Puppet Ruins puzzle piece.

The three of them hurried to a bar and found the person who sent them the news.

Ye Zhongming had some impression of that person. After all, he had met them in the Puppet Ruins. But this guy didn't look like he was in a good state. Even if he wore clean clothing, a gory aura wrapped around him, he was badly injured.

That guy took out the puzzle piece and signaled to Ye Zhongming.

"Ask for your price." Ye Zhongming relaxed when he saw the piece and asked for his price.

"Six star potion."

Ye Zhongming shook his head, "I don't even know what the puzzle pieces would do once pieced together. Under such an unknown situation, I can't accept your price."

"This is something the dungeon gave, and only I have it. The price won't be cheap."

That person was firm and felt like special things had to have special prices.

Ye Zhongming smiled and took out the pieces he got from the Tragic Hole.

"Do you see, as long as you complete a certain number, each adventure will have such pieces? They aren't unique. Do you think it is as valuable as you think?"

When he saw the totally different puzzle piece, he was stunned. His firm aura disappeared. He knew that even if the piece in his hand was unique, the six-star potion was too expensive. If it weren't unique, then the price would drop.

But he was forced to trade it for something to increase his strength. This was his only hope. He hesitated and said solemnly, "I met an enemy in the dungeon; my team has suffered huge losses, and only I am left. If I get out, I will be hunted down. I need something to keep me alive!"

"This thing might not be worth a six-star potion, but if I can't get what I want, I'd rather it die with me!"

People in the apocalypse were vicious and selfish. This person showed that he was here to con Ye Zhongming. If he couldn't, then no one would benefit.

But Ye Zhongming wasn't angry. He could understand his feelings. After all, he was facing death.

There was more than one solution for things.

Ye Zhongming touched his chin and thought about it, "If I can give you something to escape from your enemy's attacks, what do you think?"

That person's eyes lit up. He wanted a six-star potion to raise his strength, but he would still have to fight them. He doesn't know what the outcome would be. He might be able to live and kill his enemies, but he might also get surrounded and killed.

But flee? Although it wasn't very glorious, that gave him a higher chance of surviving.

"In theory, it works, but I need to see what it is."

Ye Zhongming nodded. He took out a capsule and placed it on the table.

It was the size of a finger, and it was dark red in color.

"This is a one-time-use teleportation capsule. You can activate it and teleport anywhere within a hundred meters. Of course, it will consume a large amount of stamina."

He took out a second thing—two potions. "This is a speed potion, which you should know the ability of. The other is a stamina potion that allows you to recover your stamina quickly."

That guy's gaze shone brightly, and he knew these few things could allow him to get free.

"Wait a while." Ye Zhongming placed the things on the table and left briefly. He returned a minute later, carrying a pair of white boots.

"These boots increase movement speed and jumping ability."

Ye Zhongming waved, "All of these for your puzzle piece."

That person licked his lips and was tempted. These few things didn't help increase his strength but were enough to keep him alive.

"This, it isn't..."

Although he was satisfied, he wanted more.

"This is my final offer. If you don't agree, three more people will be hunting you."

.....

Ye Zhongming took out the metal board and placed the six pieces inside. The board shone, and moments later, the square board turned into a hexagon. On it was a mysterious picture.

A notification appeared in Ye Zhongming's mind at the same time.

"Obtained: Ruins Formation!"
