Apocalypse Gachapon

Chapter 36: Back to the armed forces building

In an apocalypse, a team was really important.

Giving a simple example, in the apocalypse, hunting monsters and mutated monsters was a common mission. If a three star evolved wanted to accept such a mission, then at most he could only deal with a three star monster. Those with stronger equipment or jobs could try to kill level four monsters but they also had to choose some solo targets. Once the monsters grouped up, not to mention level three, they couldn't even offend level two monsters.

But teams were different. With a similar quest, if there was a team made up of three three star evolved, then they could totally challenge a four star evolved. If one had proper strategies, one could try killing level five mutated monsters! What a team gained was naturally not something that one person could compare to. Even if the rewards were split among three, that would far exceed what a single person could get.

A team was safer and gave more gains which made people grow stronger much more quicker.

In the apocalypse, strength was the only thing that one could rely on.

Ye Zhongming was a member of a team and his relationship with his teammates was not bad too, they were true brothers. But he didn't know where they were now. Some of them he knew the address of but he wasn't planning on heading over as he had something else to do now.

Honestly, Ye Zhongming hadn't thought about building a team before this. At least before he found his brothers and sisters in his last life, he didn't have such a thought.

But Mo Ye's appearance tempted him.

This girl was really a good seedling to start a team with.

She was skilled and professionally trained. She also probably knew some kungfu so her base was much better than others. Such an elite talent was really rare and after evolving, she would be much stronger than people of the same level.

More importantly, she had a sense of justice and was willing to help people. She was kind and knew how to work together.

[Type here]

A team was really strong but you had to be able to trust those in the team. If not, if someone betrayed you at a crucial moment, then all gains were just useless.

In the past, Ye Zhongming was not in charge of recruitment and all of that was up to the captain. But things were different and he had to make plans for the future.

After suppressing this thought, Ye Zhongming decided to test this woman.

The Blood Tongue Lizard gave off a tempting scent and Yellow Ball was already drooling. It stared and waited for Ye Zhongming to give it some.

Mo Ye was really unwilling. She scattered some spices while covering her nose. It was as if she would vomit if she sniffed it.

Ye Zhongming gave Yellow Ball a slice of the tongue that was cut into three and that dog consumed it swiftly. It then licked its tongue and looked at Ye Zhongming in hopes of getting more.

Ye Zhongming sliced a few pieces on a plate and passed them to Mo Ye. This girl took many steps back and insisted on not eating.

Ye Zhongming didn't force her, leaving some for himself and the rest for Yellow Ball.

Yellow Ball was evolving so eating more would be good for him.

He found a fork and ate all the meat, making his body feel warm. He knew that this was a gene energy that could make his body better and even help to regain mental energy.

As his body digested the meat, Ye Zhongming felt like his mental energy recovery speed was much quicker. Although it was at a low level but at least it wouldn't affect his body already.

He stood up to do a few movements and knew that he could continue to fight as long as he didn't use his job skills.

"Let's go."

After packing up, Ye Zhongming picked up his bag and prepared to head out.

"Where to?"

Mo Ye asked. She was actually a little tired. Although this place had a disgusting scent but at least it was safe. If they could rest for a night, that would be great.

[Type here]

“Take some stuff and prepare for tomorrow.” Ye Zhongming looked at the tired Mo Ye and said, “I know that you are tired but if things go well, this time tomorrow you will obtain that strength.”

Mo Ye was energetic when she heard that. She placed a fruit knife on her body and followed Ye Zhongming out. As for the white colored blade, he took it back.

Ye Zhongming was prepared to head back to the armed forces building to find Liang Chuyin. She had a mutated willow branch and with his job skill he could make it into a decent weapon.

There were many zombies around the tennis court and on a rough count, there were around a few hundred. If he had a team, even if they didn't evolve, he was confident in killing them all in two hours.

That was a few hundred level one crystals. If he spun the wheel, he could get many one star strengthening potions which was a decent fortune.

But it was just Mo Ye and him so he wasn't confident in killing so many. As such, he could only give up.

After recovering some stamina, along with the skilled Mo Ye, the two of them didn't face many dangers. A dozen zombies were killed and provided him with some level one demon crystals.

While moving forwards, Mo Ye finally got too curious to ask Ye Zhongming what use were they for. He didn't hide anything and told her about the gachapon. Her expression was really vibrant.

Close to ten hours had passed and the power, natural gas and communications were all gone. The only thing that was normal was still the water. But anyone that wasn't a fool would know that you couldn't drink it. It was contaminated and normal disinfection didn't work anymore.

Survivors were starting to get hungry and thirsty. Ye Zhongming and Mo Ye saw over a thousand zombies surrounding the school supermarket, much more than those at the tennis court. Those scenes made Mo Ye numb. The reason why such a thing occurred was because many students came to find food but were found out by zombies. Who knew what kind of scenes there were inside the supermarket?

Heading around the zombies, the two of them were beside the armed forces building. It was quiet and there weren't many zombies there.

Mo Ye wanted to head from the front door but Ye Zhongming stopped her. She didn't understand but he pointed to the second floor where there was some light. Some shadows were reflected. These people were split into two groups and were facing off.

[Type here]

He signaled to Mo Ye before coming to a tree and pointing at the second floor window.

She understood. She could climb up empty handed, much less having someone to help her. She stepped on the blade handle and jumped up to the window.

.

Ye Zhongming had it simpler. He pulled out his blade and stepped on the wall before jumping high up. He pushed himself up with one hand before jumping into the building. Even Yellow Ball didn't need help at all as it leaped up, far exceeding what normal dogs could do which shocked Mo Ye.

The two of them were at the end of the second floor which should be an office before the apocalypse. It was simple and there were many random items here.

The door was open and the lock was on the ground so someone definitely tried to enter with force. It should be those survivors who were here.

The two of them looked at one another and after telling Yellow Ball to calm down, they came to the door and heard quarreling noises.

Chapter 37: Condition for letting her off

"Don't come closer or I will shoot!"

Tong Lei held an old semi automatic rifle. The fingers holding the trigger turned white because of how nervous he was.

He had to be nervous as he was facing a vicious hooligan.

Before the calamity occurred, Tong Lei was lucky to hide in the mail room of the dormitories. He personally witnessed gory scenes that were more terrifying than those of the movies. He personally saw the clean windows covered in thick blood and flesh.

After hiding for a few hours he felt hungry and thirsty so he chose to come out to search for food. He wanted to head to the supermarket but before he entered he saw numerous zombies surround him and he was lucky to flee. He hid in the armed forces building but who knew that he would bump into some students as well as his high school senior Liang Chuyin... And also those hooligans.

Tong Lei heard the few surviving students cry and complain and knew that these people had did serious crimes in the canteen. He also knew that they were able to get here because they used the lives of students.

Tong Lei was furious at these students but that was all. He didn't even dare to warn them.

[Type here]

Until Tong Lei and the seven students behind him found some guns which gave them the courage to go up against them.

Although they didn't know whether or not these guns could shoot.

Brother Five bit on a cigarette and held a gun as he looked at these students with a face filled with nonchalance.

He was actually quite frustrated. He was busy for a whole night and didn't get anything.

He came to benefit, heading to the academic building to dig many crystals and he wanted to study them but someone snatched them back.

After which, he heard some gun shots at the tennis court so he rushed over with some men but apart from zombies, there were nothing else. They also bumped into a terrifying lizard that bit off the head of one of his men. They fled back here in terror.

After they returned, those students that were already scared of him suddenly grew bold. Not only did they get many guns from the gun storage, but they were also even unhappy with him.

Although he regretted not leaving guys to watch the storage, but he didn't care much.

He played with guns before and knew that these semi automatic guns were all really old. They were very functional and they weren't well kept. Moreover, in the storage, there were many such guns but not many bullets. He took some away so at most they had dozens of bullets. What could they do? If there was a conflict, these students who had never used many guns would be forced up to the roof.

Moreover, they all had guns and many bullets. That was enough to deal with these students.

He wanted to rest until daybreak but a student that joined his side told him the news. There was a girl with a weird willow branch. It was left by that guy who killed zombies as easily as killing dogs!

After hearing that, Brother Five was excited. He confirmed that the guy had a secret. If he could get the secret then he would become extremely strong!

Thus, Brother Five told the students to hand over the branch and the woman.

This strong attitude was received with strong opposition from Teacher Park who had strong virtues.

There were many students and they had guns so they were much bolder. They started a resistance against all the threats.

[Type here]

But be it the leader Tong Lei or Teacher Park, they were both afraid. After all these people weren't good and if there was a conflict, who knew if these defenseless students could stop them?

"Hand the girl and that branch over and we will be at peace. If not, scoff." Brother Five glanced at the 50-60 students and reached out to grab one of them. He pulled his hair and pressed the thin guy onto the wall.

He tossed the gun to Er Peng and the other hand took out a dagger, stabbing it into his shoulder without any hesitation.

The sudden attack caused the guy to scream out in intense pain. But Brother Five knew that he would do that. He didn't pull out the dagger and instead punched his face to stop his screaming.

Fresh blood shot out from his back and mouth and the fresh bright color stimulated everyone's senses.

Some girls screamed but their mouths were covered by those beside them. Who knew whether or not their screams would attract zombies from the outside?

Brother Five released the guy and he fell to the ground. He stepped onto his head and pressed down to allow his body to twitch. He wanted to shout but he couldn't make much noise. The students were shocked and many of their bodies were shaking.

"My patience is limited, hand over that woman and this thing will end. Don't hand him over and I will kill all of you one by one!"

Brother Five smiled viciously like a lion looking at a bunch of sheep.

"Guys will be killed, girls would be played with and then killed." Er Peng, Gang Zi and Ah Kun laughed and their eyes were filled with madness. The apocalypse totally ignited the evil in them and they didn't care about any laws anymore.

Brother Five's actions made the students silent. Those holding guns felt like their arms were going soft. They were afraid. Their will to fight back was shattered by that knife.

Many of them looked toward Liang Chuyin and they had the same thought.

It seemed like they had to hand her out...

Liang Chuyin started to retreat, her hands wrapped tightly around the branch. Although she only spent some time with that guy, but she felt that she would return so she had to protect herself.

[Type here]

Just now, the teachers gave her hope. Her high school junior Tong Lei also swore and told her not to be afraid. This made her think that there were many choices to live but now, these people weren't as reliable as a single toe of that guy.

"No, if we yield, their demands will get worse. Maybe the next person that is handed over will be yourself!"

Teacher Park saw that the situation was going bad and wanted to support the students to make them wake up.

But she underestimated their resistance and their ability to stand against power and pressure. After struggling for a while, no one was willing to step out.

Regret surged into her heart.

Brother Five laughed and looked at Teacher Park who had a decent body. He pushed aside the guns of the students and walked towards Liang Chuyin.

"Wait."

Tong Lei stopped Brother Five. The hooligan glanced back and there was a fierce light in his eyes.

"If I tell you a secret, will you let her off?"

"Secret?" Brother Five walked to Tong Lei and pulled his gun out of his hands, "Speak, if not I will kill you!"

Tong Lei's body shook and after looking at Liang Chuyin's beautiful face, he said with a shaking voice, "You, you have to promise, if not, I won't say."

"Damn, you dare to talk conditions, are you asking to die?" Er Peng slapped Tong Lei and wanted to beat him up.

"Move aside." Brother Five scolded and then looked down at Tong Lei, "Okay, I promise you. If your secret is useful then I will let her go."

Tong Lei looked at the senior that he was interested in and sucked in a deep breath, "I know the use of those crystals."

Chapter 38: Second gachapon

Brother Five was stunned and his men were too. Teacher Park and Liang Chuyin were all stunned.

Crystal... Use?

[Type here]

No one was blind, the zombies all had crystals on their heads so it was impossible for them to be useless.

But no one knew what they were used for.

Maybe the students were just slightly curious but Brother Five had an obsession with them. Why was he willing to offend the teachers and students to get Liang Chuyin and the branch? It was because he wanted to know what the crystals were used for!

Now, someone told him that he knew the answer. His eyes turned red.

“Speak!”

He grabbed Tong Lei’s color and he was pretty much screaming at him.

“That, that thing is a crystal, it is used to spin a special gachapon.”

En?

Everyone kept quiet and didn’t know what Tong Lei was talking about.

Seeing everyone not understand, he explained, “When I went to the supermarket, I saw a two meter tall wheel and there were many pictures on it. In the center was a crystal the same as those on the head of the zombies. Below the wheel was a mechanism with holes that were the same shape as the crystals.”

He paused and continued, “I think, these crystals are the energy to spin those gachapons.”

The entire armed forces building was silent, everyone was shocked by his words.

This crystal? Energy source? A type of energy? Gachapon? Spin?

Before anyone saw or heard about the gachapon, such a thing felt unbelievable.

“Are you sure?”

Brother Five panted and stared, “What pictures are there on the gachapon?”

Tong Lei shook his head, “I was a little far, when I wanted to see clearly the zombies arrived so I had to leave.”

Brother Five lowered his head and squinted his eyes. His men didn’t dare to disturb him so they just stood there.

“I have a suggestion, I don’t know if Brother Five is interested or not!”

[Type here]

“Who?!”

Brother Five raised his head and pointed his gun toward where the sound came from. There, there was someone holding his hands up and walking over.

“Zhang Wu, the bodyguard of Mr Duan and then you helped take the blame for him and went to jail for five years. After you came out you became the boss of the Nanping Region. Am I right?”

The light shone on this person’s face and it was the nasal voice guy that betrayed Mo Ye.

“Who are you?” Brother Five touched the trigger and was tempted to fire.

His pupils constricted, “Someone passing by and trying to earn money. Does Brother Five remember the matter at the bridge?”

Brother Five was shocked. Mr Duan did many unscrupulous matters to obtain the hundred million project of the bridges. This person should be the guy that helped to kill.

Although Brother Five was fierce but he wasn’t as fierce as those who took money and killed.

“I am interested in the crystals too. Why not work with me and find out what is going on in the supermarket?”

“That place is covered in zombies, how?”

“There are so many people here, no matter what we can draw them away. What do you say Brother Five.”

The two of them discussed and Brother Five slowly made his mind up. His gaze toward the students wasn’t very friendly.

Seeing Brother Five get tempted, the nasal voice guy smiled, “But to show my sincerity, before working together, let me give you a gift.”

He frowned, “What gift?”

He looked across everyone and shouted towards the room at the end of the corridor.

“Officer Mo and also the brother with the blade, come out and meet us. It isn’t good to hide. If you hide there, I can’t ensure your girl and these students will be safe.”

Brother Five and the rest changed where their guns pointed to and looked towards the end of the corridor.

[Type here]

Ye Zhongming frowned and instantly understood what was going on.

This nasal voice guy should have hidden in some place in the school. When Ye Zhongming and Mo Ye returned he noticed them and saw them enter the building. He snuck in too which was why this happened.

This fellow was so cunning! He used Brother Five to deal with them.

But Ye Zhongming didn't panic.

You tell me to head out so I should? To be a target? So what if you find out? I will just leave, can you stop me?

Before he replied, Mo Ye had already walked out.

This silly girl! Ye Zhongming cursed. This girl didn't have a brain, what was the difference between that and dying.

Seeing someone walk out, Brother Five had more trust in the nasal voice guy.

"Where is that strong guy, better come out. He is too strong, if he doesn't come out I will be afraid."

The nasal voice guy took out a gun and that proved Ye Zhongming's guess of his identity. He was a killer.

Ye Zhongming sighed and walked out. This made him smile.

"Brother Five, this guy can give a more accurate answer to our questions. What do you think?"

Brother Five laughed. He recognised Ye Zhongming. He didn't expect to find him here.

"Handsome brother, so what is up with the crystals and your skills?" The nasal voice guy laughed and there was a cold flash in his hands as he placed the dagger on Chuyin's neck. "Say the truth or this girl will suffer."

Mo Ye noticed that she was reckless but her job made her walk out without hesitation. Only now did she know that revealing herself to their guns was such a foolish move.

Ye Zhongming's face was still a little blur in the dark but his eyes were bright. He smiled in disdain, "What are you doing? Hold me hostage? Do you know what our relationship is? Are you so sure I will give up because of her? Or do you think that I will make sacrifices for this bunch of nerds who don't even dare to stand up for their friends?"

[Type here]

Brother Five and the nasal voice guy were all stunned. Brother Five saw Ye Zhongming bring Liang Chuyin into the school so he thought they were together. The nasal voice guy listened for half a day and thought that they had a relationship.

But hearing what Ye Zhongming said, he was instantly suspicious. Are they not related?

“You all made a mistake, you weren’t prepared and you provoked someone stronger than you. You must know that doing that often does not turn out well.”

Ye Zhongming walked forwards and that made them all nervous.

“Let me teach you what you need to learn in the apocalypse.” Ye Zhongming smiled and waved his arm.

This movement made Brother Five and the nasal voice guy’s faces turn dead as ash.

“Remember to run faster.”

Ye Zhongming aimed at the window and pulled the trigger.

Chapter 39: Food and toys

The bullet shot through the window and into the night sky. A huge gun sound reverberated through the building.

After the gunshot, there was a weird momentary silence in the school.

After which, one could hear the unique zombie roar!

This place was just a few hundred meters from the supermarket and there were thousands of zombies gathered there.

Although they weren’t as fast as evolved zombies but this distance would be covered in less than a minute. In other words, these people had less than a minute to escape!

Not to mention the students that didn’t know how to fire their guns, even a proper army would get scattered when they fought against thousands of zombies.

Normal zombies seemed weak but once they formed into scale, even six star experts like Ye Zhongming in his last life would have to avoid them.

“Damn you!”

Brother Five hollered and wanted to shoot at Ye Zhongming but he had already dragged Mo Ye back into the room. The two of them and the dog broke a window and jumped down.

[Type here]

Ye Zhongming and Mo Ye leaving drew open the curtains for the rest of the people to flee.

Over ten hours had passed since the apocalypse began and these people had seen too many scenes of zombies eating people. As the zombies got close, they couldn't care about anything else.

Most of them ran towards the stairs. Everyone was clear that if they didn't run out of the building before the zombies came, they were left with death.

The corridor wasn't too wide so they were all squeezing together. Brother Five and his men were amongst them. They thought that they wanted to use their threat to leave first but fear had exceeded the terror that they gave. Er Peng and the others kicked a student but the others forced them two aside. They wanted to hit another student but the gentle student actually bit his arm. His gaze sent a clear message-- Don't block me or we will die together.

Brother Five, Er Peng and the others realised that if they continued to threaten them, those fleeing students might actually eat them up.

The stairs were too narrow and there were too many people. They squeezed and didn't move much as they started to shout at one another.

Brother Five pushed those in front of him but there was nothing he could do. He got anxious and he knew that if they delayed more here they wouldn't be able to get out.

“Er Peng, Gang Zi, Ah Kun! Follow me!”

His three men were sweating heavily. When they heard their boss shout, they immediately followed.

The restriction of moving backwards was much lesser and the place they gave up was immediately filled up.

“Jump!”

The few of them started to smash the windows and they didn't bother about the remaining bits of glass and just jumped off.

Many people chose to do the same thing and they did it more quicker than them. For example the nasal voice guy. After Ye Zhongming fired he ran backward and fled from the room that he entered.

There was also Liang Chuyin. This woman had some skill in fleeing. She jumped right down without even heading towards the stairs, allowing her to get out right away. Her direction was very certain too... Towards Ye Zhongming.

[Type here]

After seeing them jump out the window, the students at the stairs were enlightened. Those at the back all came to the windows to jump. Three meter height wasn't much of an obstacle to 20 year old people.

At this time, those closer zombies were already downstairs. Those unlucky students were pounced onto right away when they jumped down. As they screamed, half their faces were eaten up. They struggled and wanted to flee but their legs were grabbed and a few toes were bitten off.

The killing started at that moment. The few who were first out ran out of the place. They were strong males but they bumped right into two zombies. They blocked half of the entrance. A student tried to get across but he felt someone push him. He lost balance and fell into the arms of one of the zombies.

Facing food that gave itself up, the zombies didn't hold back and it bit his shoulder. Fresh blood and flesh were sent into its stomach and the taste made it nod its head in excitement.

The other zombie was attracted by the smell and started to chew on his back. That guy cried out so much that he was losing his voice. He turned around and saw his best friend fleeing from the path that the zombie freed up, creating the best chance for him to leave.

When he was about to die, the guy shouted the most vicious curses at that fleeing body.

Peng!

Another gun shot made many bodies shake.

The one who shot was a guy who ran out of the building. He got anxious when he saw the zombies run over and just fired. But after the shooting, a girl near him fell and her back was red.

That gun didn't hit a zombie, it directly hit a girl in front of him!

The crowd became even more chaotic because of that shot. Students who were fleeing in one direction started to lose their target and they ran in all directions.

Cries and screams spread out and amongst them were the excited shouts of the zombies. Each shout meant that one life had disappeared.

"Follow me, follow me, don't run!"

Teacher Park shouted out loud but very few students could hear her. Her fringe was drenched and they were stuck on her bright forehead and the side of her face. Her eyes were filled with despair.

[Type here]

Many familiar faces fell, struggled, cried, and died in front of her. They were covered in the dark clouds of death but there was nothing she could do.

A person knocked into her and when she turned back, that person looked familiar. It was the person called Officer Mo.

“Follow me!”

A shout shocked her back to her senses and she realised that she was dragged towards a corner where there were two people.

“You?!”

Hiding behind a bench was Ye Zhongming. After seeing him, she pounced over.

“It is because of you! You jerk, they died because of you!”

After fleeing, Ye Zhongming didn't leave with Mo Ye and instead hid near this stone bench. Mo Ye didn't understand why they were hiding so close.

She saw Brother Five and the nasal voice guy leave and also saw Liang Chuyin run over. She headed over in glee. She saw the students flee and kill one another by accident. She saw them betray one another. This made her thoughts of helping them dim down.

Until now that female teacher was shouting but not only did people not hear her, she was attracting many zombies. Mo Ye couldn't take it and went to pull her over.

Ye Zhongming definitely wouldn't let such a weak girl pounce on him. He reached out and pressed on her long neck.

“You are living because of me! Do you think your cowardice friends and colleagues can help you? Without me, you will end up as their toys. Suicide is your best outcome. When they cannot find food, you will be their dinner!”

Ye Zhongming pushed her onto the bench. He didn't use much strength but it was enough for her to lose mobility for a few seconds.

“Of course, because you are beautiful, they will play with you for the longest time. You will be the last food for them so congratulations.”

“You are talking nonsense!” Teacher Park wanted to pounce over but Liang Chuyin pushed her onto the bench. She wanted to struggle but Mo Ye stopped her.

“He is right, do you realise that your colleagues and students are all ignoring you?”

[Type here]

Mo Ye said to Teacher Park with a sad voice, "You must be smart to be a teacher. Think back and you should be clear."

Teacher Park was stunned and those scenes appeared in her mind... These people heard her shouts, they did run towards her, but then, they all ran away, they...

Thinking about it made her face turn whiter and whiter. She finally understood that those people she tried to save did hear her. They did another analysis-- shout, attract the zombies and then we can escape.

They abandoned her.

Teacher Park couldn't take it and she cried out loud.

"Shut up!" Ye Zhongming shouted and focused in one place.

"I am going there. Make your choice. Follow me or leave." Ye Zhongming started to run. Mo Ye and the other two were stunned and looked toward where the guy pointed at.

Chapter 40: Nobody is noble

"Are you crazy?"

Mo Ye followed beside Ye Zhongming and she looked really anxious.

This guy actually decided to go to the supermarket at that time!

Mo Ye wasn't a fool and she very quickly guessed Ye Zhongming's goal. He went for the gachapon. Although she didn't know what that was, but she guessed that it had something to do with that magical strength.

But no matter how magical something was, one had to have a life to spend it! What was the situation? There were zombies all around. Although they were attracted by the armed forces building noise, but there were many scattered ones along the way. There were also many surrounding the supermarket.

To head in, they had to face those few hundred zombies. What was this guy who was usually calm doing?

"People die because of money, birds die because of food." Ye Zhongming nonchalantly replied and he continued to move quickly.

"You want to let these kids attract the zombies so that you have a chance to enter the supermarket!?" Teacher Park gritted her teeth and said.

"You are still following me? I thought that you would continue to attract zombies away."

[Type here]

Everyone could hear that Ye Zhongming was mocking her. It was obvious that he was not happy with her.

“If you don’t speak no one will think that you are mute.” Liang Chuyin was long annoyed with Teacher Park. This girl nearly sent a few of them into danger twice. Moreover, Ye Zhongming was the obvious person to rely on so why bother to find fault with him? How did she even graduate from university? Her IQ was so low.

Ye Zhongming killed two zombies and dug out the crystals before hiding behind a tree and waiting for the dozens to leave.

“Ye Zhongming is not such a person.” Mo Ye pulled Teacher Park’s sleeves. She was afraid that she would mess up the atmosphere so she explained.

“No, I am.” Ye Zhongming suddenly turned around and said to the girls, “Don’t think that I am a nice person. When there are interests in front of me, I will abandon you without hesitation.”

Seeing how stunned the three of them looked, Ye Zhongming said firmly, “You think I am bad? Let me tell you, the reality is so cruel. The law of the jungle is very clear now! If you can’t adapt then just go die!”

“Don’t use past moral standards now. Apart from letting you die even sooner, it is totally useless. You need to use another method to think.”

Ye Zhongming pointed at the frustrated Teacher Park, “For example you, when you are questioning me, everything happens from your perspective, from your own values. But do you think it is right? Why do I have to help your students and you!? They are not my men, they aren’t my brothers, you are also not my woman. What reason do I have to help you!? Make use of them? What value do those bunch who had weapons and numbers advantage but were squashed by three to four people? Maybe their fleeing gave me a chance to fulfill my goal but could I not do it without them? I would just have to use another method.”

“This beautiful korean teacher, don’t think too highly about yourself. The apocalypse just started. A few days later, when survival is a problem, maybe the goddess that is filled with justice like yourself will pull down your pants and allow others to play with you just for a piece of mouldy bread!”

“Don’t act like you are noble, that makes me want to vomit!”

Ye Zhongming’s words hit their hearts. Until a few years later when Liang Chuyin recalled the time when she adapted to the apocalypse, she would recall this guy’s words. Mo Ye also had to admit that this guy was the one who taught her how to survive.

[Type here]

He looked coldly at Teacher Park before continuing towards the supermarket. A few seconds later, Liang Chuyin followed. A few seconds after, Mo Ye did too. After ten seconds, Teacher Park stumbled forwards with an ashen white expression and numb gaze.

In front of survival, nobody was noble.

No matter whether or not Ye Zhongming did it on purpose, but there was something that Teacher Park was right about. A portion of those zombies was attracted away.

Ye Zhongming brought them to the back of the supermarket and found a way in.

It was a small window to the toilet on the second floor that was big enough for one person to fit in. Ye Zhongming told the three girls and Yellow Ball to wait while he climbed up.

The supermarket was not dark and there was some emergency light. This was good for Ye Zhongming as he was able to use them to head outside.

This should be the changing room. There were three rows of storage cabinets and many of them were opened. Many of them were covered in blood but there weren't any corpses.

Ye Zhongming came to the door and popped his head out. A few zombies were roaming around and many shelves had fallen.

He killed them and after keeping the demon crystals, he came down from the goods elevator to come to the first floor. Based on what that student described, the gachapon should be here.

The door was blocked by a few atm machines. There was a loud smacking sound as the first floor wasn't as silent as the second.

Using the emergency light, Ye Zhongming saw several corpses and limbs on the ground, among them, half were zombies. Seemed like there was an intense battle here. Who knew if there were any survivors?

One could hear zombies roaring from the back of two racks. Ye Zhongming headed over to kill them before taking a short walk before he finally saw the gachapon.

Similar to Mu Xinfei's house, this was a level one gachapon that was standing beside a wall. Many corpses fell around it. There were a few crystals on the platform. Seemed like the survivors here knew how to use it but they weren't lucky. They were attacked before they could spin it and died here.

Ye Zhongming swept and what he cared about was what was on the wheel.

Ten?

Ye Zhongming squinted his eyes. This level one gachapon needed ten demon crystals!

Normal level one wheel needed five to spin once. Mu Xinfei's house had the lucky card so it needed seven. That was already a decent reward for level one wheels. But this wheel actually needed ten! Out of these ten rewards, what good item was there that this wheel needed so many crystals to spin?

Ye Zhongming glanced at all of them. Apart from the level one strengthening potion, there was an iron shield. The rest were small things like cigarettes, wine, portable charger, battery, banana, rope...

There were two more final things, a green necklace and also a light colored liquid!
