

Arceus 71

Chapter 71 Strange Power Technique and Transforming People

Quinn got a microphone from somewhere. Although the atmosphere was well set off by him, Arceus always had a strange feeling of drawing a lottery at a roadside stall.

Because there is a lottery roulette on the temporary table.

This reward is the beginning, but not the end. There will be more and more such things in the future. Naturally, there is no need to say more about the rewards of great heroes, but there are many similar small-scale battles.

It is also possible that the recipient of the award is an unknown pirate under his banner. The strength is always divided into strong and weak. They are not as good as the cadres, and it is normal that the abilities they get are not as good as those of the cadres.

People will not be jealous of a person with a big gap, but they will be jealous of people who are similar to themselves. There are always people who see others making money more than they lose money.

Don't suffer from widowhood but suffer from unevenness. In order to deal with this potential contradiction, we simply made a lottery roulette. What kind of ability you get depends on luck, so no one can say anything.

Babanuki, the quarry guard of the later Beast Pirates, but he is still a young man.

"Come on, what you can get is up to you." Quinn handed him a small dart, and the huge roulette wheel was divided into several areas. Although he knew the words, he didn't know each one. What do the words represent.

"Big Brother Quinn, what are these?"

"They're all very practical abilities. As long as you're lucky enough, you might be able to get the same abilities as cadres."

The ability of cadres, which has a special meaning in today's Hundred Beasts, because all the cadres here are "phantom beasts".

And the word Eudemons on the roulette is also very clear, but the proportion is also quite small.

As for the problem of missing the target. They are pirates. If they miss the target if they throw a dart, then it is time to stop doing it, this business is not suitable for him.

The diameter of this roulette is about the same as Jhin's height today, so even a child wouldn't be lost.

If you change the world, Quinn would probably be a good host, um, funny variety shows, after all, the host also has to look at the face.

He was completely aroused by the pirate's mood off the field. Facing the high-speed spinning roulette, Babanuki threw the dart in his hand. After confirming that he hit, Quinn stopped the roulette.

But sometimes fate is very strange, the dart he threw just stuck on the dividing line, and the words lai and Weili were the things on the two sides.

"Choose one, Babanuki, there is no second chance."

"Strength." He doesn't know how to use swords very much, and lai gives people the feeling of lai Slash. He thinks that thing is useless, so he chooses something with a simpler literal meaning.

"By the way, are you full?"

"I'm full, I ate a lot at the previous banquet"

Babanuki didn't understand why Quinn suddenly asked him if he had eaten enough, but the next moment, Arceus had walked in front of him, a strange force poured into his body, and Babanuki was also pulled into the learning space. .

This so-called reward seems a little loud and rainy for a while. These ordinary pirates don't know why Babanuki suddenly fell asleep.

"Don't worry, little ones, when Babanuki wakes up, you will know what happened, and the next thing is more important."

Quin asked people to push up a slate, which was an imitation of the Arceus slate. The slate that was not activated by Arceus looked like this to outsiders. They could not find any features except that it was indestructible.

"Remember this size and look, as long as you can find it, even if it's just a message, once it's confirmed to be true, you can make a reasonable offer.

But remember, the news can be wrong, but it must not be false. If you dare to deliberately spread false news, the consequences will be very serious.

In addition, the above materials can be exchanged for rewards! "

Quinne re-enumerates the extinct material, mixed with irrelevant stuff that no one but Acier can figure out what it does.

then entered a long waiting period, although the celebration banquet has ended, but for the pirates, it is not a big deal to have another banquet.

Before Babanuki woke up, the members of the beasts were temporarily stationed here, and Quinn also took the opportunity to hold a solo concert.

I won't comment on whether it sounds good or not, but the members of the beasts below seem to like it.

And Arceus continued to talk about business with Kaido.

"That thing has already been made, but unfortunately the effect is not as good as expected. This is yours. Remember to observe its reaction when you go out and turn around in the future. There is a positioning on it, and it is a fool-like operation."

said, and threw the slate radar to Kaido with the element hand.

"Don't throw things away, you won't be able to make a second one for a while."

Leather wristband with a small meter on it, which is produced from the skin of a special sea beast, with extremely high resistance and ductility, even the transformation of the animal system will not break it.

The special structure makes the inner pure gold not affect the carrier, and there will be no small growth.

"Understood, but how long will this kid Babanuki take?"

"I don't know, this thing mainly depends on personal talent."

Arceus will then hand over another radar to Shaina.

"Shaina, this is yours, the perception range is smaller than Kaido's, but it doesn't matter, your strength is not as good as his, the first goal after finding the news is to inform me, don't act rashly."

"Follow your orders, Lord Holy Beast."

After two days in a row, Babanuki has not woken up yet, but someone has come to find Quinn.

In addition to the dead and the wounded after a battle, Quinn is often not serious, but he is indeed the ship doctor in the team. Whether it is surgery or virus, he can basically solve it. NOVELUSB.COM

Many wounded were born in the battle with the Walder Pirates. One of them was a little special. He and Baba Nuki rushed up first, but Baba Nuki had better luck and did not suffer any fatal injuries, but he was different. .

His right arm was cut off, and his face was burned extensively. Although his life was saved, he was basically a waste.

Originally arranged for him to be a logistician, but he made a request, hoping to accept Quinn's human transformation.

In the world of pirates, being in charge of logistics after being disabled basically means a poor life, which is unacceptable to them.

How to say he is also a person with "combat merit", and proposed to exchange his efforts in battle for a chance to transform.

Quinn certainly agreed with this kind of thing, he was worried that his transformation technology was useless.

Many people are opposed to human body modification.

Chapter 72 Envy and Fury

With a revolver gun in place of the arm, metal parts in place of the joints, and special neural connection technology, Quinn completed his transformation in just one day.

Although Scourge's body has become much bloated after the transformation, it can still be considered to maintain his combat effectiveness. In terms of his own aptitude, this is actually a strengthening of his combat effectiveness.

Even in the new world, not everyone is proficient in domineering, everyone can cut iron, and mechanical transformation of people can play a greater role in many times.

But there are still a few people who are willing to transform themselves, and more attention is placed on Babanuki.

"How long has this boy Babanuki slept?"

"Two days and two nights, it's already the third day, who knows what happened to him."

Ordinary pirates have gone from curious to puzzled, and now they are talking about it. They thought that Babanuki would get huge treasures or other things, but now it seems that the results are not the same.

It wasn't until noon on the third day, the sixty hour since Babanuki fell asleep, that he opened his eyes.

"Hey! Brothers, Babanuki is awake!"

The pirates around saw the awakened Baba Nuki surrounding them one after another, and then asked curiously, "It's been the third day, what did you get?"

"We'll talk about it later, is there anything to eat?"

The length of study time mainly depends on talent. Shaina took seven hours to learn sword dance to the point of being proficient, Kaido took even less time, and Babanuki took sixty hours, which is two months in the learning space. Only reached the entry stage.

also brings mental exhaustion and physical hunger. The rest of the pirates have been holding banquets. Although they are not as grand as at the beginning, they have always eaten enough.

He went straight to the side to eat, and only stood up again after being urged by the pirates.

"Don't worry, I'll let you guys see what I got."

said and looked around, as if he was looking for something suitable, and finally a boulder on the semi-exposed ground came into his field of vision, he walked to the boulder, and then put his arms on it.

"You won't sleep, will you? Do you want to pull it out?"

The exposed part of the stone is higher than others, and the part under the ground is even more unknown. Maybe it is connected to the rock formation below. They still know the level of Babanuki. This kind of thing is impossible. do it.

But the next moment, the muscles of Babanuki's arms seemed to swell twice, and with a roar, he dragged the half-buried boulder out of the ground, and then raised his head high and threw it directly to the sea in the distance.

He was lucky, it was just a scattered boulder, and the volume underneath was not small, but it wasn't "deep-rooted".

Seeing the pirates around him whose jaws were about to drop, Babanuki felt a special sense of satisfaction.

If you just get power and can't show it off in front of others, the effect will be much worse.

Although it consumes more stamina when using the magic power technique, the power in exchange is completely worth it. In the past, even if he was exhausted, he could not throw this stone so far, let alone a piece buried in the soil. stone.

"See, if you want to get these powers, go fight and find what we need. As long as you can bring back these things, you all have a chance to get these powers!"

Treasures will be lost, but power will not. Those who go on the road of pirates will not despise their power too much.

Babanuki's performance almost set off a new round of frenzy, and Arceus' status was pushed to a higher status.

Not all pirates can be brave and not afraid of death, and there are many pirates who are careful.

Since the source of power is Arceus, and Kaido is only discussing some things with Arceus, he can't order the other party at all, that is to say, if they can get Arceus' approval, they can also get power.

So a special group was born in the Beast Pirates, a group that brought the dog-licking spirit to the extreme, but their goal was Arceus.

Under the temptation of their push and strength, Arceus' status in the Beast Pirates has soared, and he has become the object of worship. With Shaina as the core, the embryonic form of a religious group was born in the Beast Pirates. among the early members.

At the same time, some news has also been put into the black market. The underground world of pirates is very chaotic, and there are intricate relationships in it. You can even see the announcement that you want the head of the navy general here.

Anyway, they dare to release any news. Whether anyone dares to receive it is another matter. The news of the beasts is also released. The target is some minerals, animal-type devil fruits, special-shaped slates, and so on.

However, the black market is not very reliable after all, but Arceus's current policy is to cast nets everywhere, so he also offered a lot of rewards on the black market.

In the black market, hard currency is still gold, devil fruit, treasure tree Adam and other stable value-preserving items, even Bailey is slightly worse, and the reward placed by the beasts is Bailey.

And there are still many things that are troublesome in black market transactions, such as black eating, fraud, phishing and law enforcement, there are only unexpected things that cannot happen here.

The most important thing in the black market, reliable strength and excellent eyesight.

As for middlemen, they are middlemen when you are equal in strength. When you are not equal in strength and enter this market that eats people without spitting bones, it is the greatest luck to be alive and to leave freely.

The next stage is still the development period. Kaido and Arceus, and Shaina will start looking for traces of the slate from the nearby islands in three ways. After all, Kaido still needs to stabilize the site, and it is best not to stay too far from here for the time being.

At the same time, the Beast Pirates are also developing the economy. Many things cannot be solved by force, and Bailey is also very important.

For example, the materials needed for shipbuilding, a piece of wood that can make a high-quality keel is also expensive in the black market, and it can almost determine the life of the ship. NOVELUSB.com

With Babanucky as an example, the members of the beasts are also more fierce in battle, especially Babanucky. This reward is not only available once. After getting the magic spell, he often wields heavy weapons to charge at the front line. .

Everything went relatively smoothly until the arrival of the newsbirds. In addition to the newspapers, these newsbirds also brought the latest bounty orders.

It was also this reward order that Shaina flipped the table again, and the burst of flames even set the house on fire.

Chapter 73 The tragedy caused by the reward order

Everyone in the Pirates has to have a position of their own. Shaina is a part-time disciplinary committee member for religious personnel. Without Arceus's advice, Kaido can't control her.

Although Arceus and Kaido are in a cooperative relationship, the cooperation to this point is only nominally different from joining. In essence, what he does can be regarded as a member of the beasts.

After all, almost all the development plans of the beasts have the participation of Arceus. He and Assie are regarded as the few "normal people" in this regard, and have formulated a special "order". Now the residents of the beasts' site even accept it from their hearts. the rule of the beasts.

There is no danger to life, as long as you complete the quantitative work in the place they stipulate and pay a certain income as a protection fee, you can live here.

This is not much different from the environment of some kingdoms. In terms of big policy, Arceus copied the development plan of Noxus to a certain extent. In terms of ability, as long as they can show their own value, no matter what the value is, they will get enough status.

This is a more suitable plan for the current situation. No matter how good it is, this is the rule of pirates, and it is impossible to do charity.

The beasts can support those who are wounded in battle, and the same goes for the family members of those who work for the beasts, but they can never take care of irrelevant people.

As the captain of Kaido, the governor of the Beast Pirates often doesn't do business, but the captain usually doesn't care, this is not a strange thing.

Under Kaido and Arceus, Shaina's current combat power is well-deserved first, and she has proven this in battle, so she and Jhin are considered equal leaders.

In addition, dealing with those pirates who violated the rules was not relentless. When she got angry, these pirates would try to stay as far away as possible to avoid getting burned.

But this time she was a little over the top.

"Big sister, calm down, calm down, this matter is an uncontrollable factor." But these words didn't help, and they didn't dare to stop Shaina who was furious. *NOvelUsb.com*

"How to do?"

"Would you like to go?"

"What a joke, can we stop the mad eldest sister? What about Big Brother Kai and Big Brother Arceus?"

"They just went out two days ago, so it's not like you didn't know."

Then they looked at their leader, the sky fell and the tall one had to go up. Usually he enjoys higher treatment as the captain of a team, and he has to go up when something goes wrong.

"No, why is the eldest sister angry, you should tell me!"

He originally collected taxes from ships that replenished resources at the port. This is also a rule. If you park in other pirates' territory, you have to pay no matter what you do, otherwise it means war.

"The Newsbird just sent the latest reward order, and that's it after the eldest sister has read it"

Then he brought some new bounty orders from the side. After the battle between the Walder Pirates and the Beasts Pirates was over, the officials of the Beasts Pirates basically put up bounties, and Kaido's bounty was also raised to 18. 100,000,000, which is to add Wald's bounty to him.

As he rummaged, Arceus' bounty appeared in front of him, and he also knew the reason for Shaina's rage.

Unknown creature, pet of the Beast Pirates, with a bounty of 5000 Bailey.

Shaina is an impulsive type, but sometimes she has two extreme reactions. She is very careful when dealing with the things arranged by Arceus, and she will not make a mistake. She can even appear in Arceus with a stopwatch. before.

And when insulting remarks appear, she goes to a fiery extreme.

Insulting Arceus in front of her is no different from insulting a nun in front of Auntie.

Defining Arceus as a pet, or an unknown creature with no name, plus a "huge" bounty of 5,000 Bailey, it can be said that she stepped on her thunder point from beginning to end.

The navy and the world government have the qualifications to set the bounty amount, which is usually determined according to the degree of harm of the pirates. Some trash fish from the four seas are usually set directly by the branch of the four seas, and then report it.

But the big pirates are formulated by the world government and then communicated to the navy below.

Sometimes they set the bounty amount out of ten, and I don't know how to come up with this number.

In some cases, they set a bounty to only look in front of them. For example, a reindeer who offered a bounty of up to 50 baileys for the first time, after many major events, the bounty has doubled to 100 baileys.

For non-human creatures, they often come up with strange bounties, including but not limited to Chopper with 50 baileys, Bepo with 500 baileys, and now Arceus with 5000 baileys.

The photo is of Arceus standing on the bow of the ship. It seems that it was taken by the agent on the Walder ship when he arrived at the battlefield with the supply ship.

For some reason, he just put a bounty on Arceus, but he didn't collect any relevant information, so he simply posted such a strange name.

In a sense, 5000 Bailey is already a very important behavior, after all, this is the first reward of 100 Choppers.

But it still can't change 5000 Bailey can't even eat a big meal, plus unknown creatures, pets, these titles are put together, Shaina will be **** if she doesn't get angry.

The source of the problem has been found, but the problem has not been practically solved.

"Call the boss of the holy beast, we probably won't be able to persuade the big sister. Big sister, what are you going to do?"

Looking at Shaina who was going to leave after venting for a while, he suddenly had a bad feeling.

"What? I'm going to kill the guy who made the bounty!"

"No, sis, calm down! We don't even know who made this thing. By the way, Lord Holy Beast is against slaughter, and your mission during this period is to stay here."

The advantage of Shaina is that she will not attack indiscriminately like the aunt when she is in a state of rage. She has too many poor days on the way to escape, and even if she falls, she is always cheap.

This time, I really didn't hold down the fire, so I set the house on fire. After that, I was venting on the rocks and other things outside, and now someone is putting out the fire.

The subordinates persuaded her after a good meal. Coupled with the mission requirements of Arceus, the two extremes canceled out, and she calmed down temporarily.

"Send me a new bounty in the underground world, and see who named this bounty, this matter is not over yet. Also, who of you will practice with me?"

After saying this, those pirates took a step back together. Usually they were beaten with Shaina, let alone this time, but at this time, the lucky one appeared.

"Mahhahaha, what's the matter, why did you set the house on fire?" Quinn just came here because of the incident. After pushing the younger brothers away, she saw Shaina's dangerous gaze under the mask.

Chapter 74 Thank you Quinn for his heroic dedication

"Did I come a little. Isn't it time?"

instinctively told him that it was dangerous here, not only Shaina, but even the little brothers around were watching him.

"Big Brother Quinn, please!"

These beasts suddenly lined up, bowed at Quinn, and quickly ducked aside.

The relationship between the officers of the Hundred Beast Pirates is very strange, and it is not a secret to ordinary people. Although they cooperate tacitly in battle, they can be said to be a group of strange people in non-combat state.

For example, Jin and Quinn were bickering as soon as they met, but although the two would quarrel fiercely, they rarely fought.

And now Shaina will not quarrel with Quinn, and can communicate smoothly under normal circumstances, provided that Shaina is not in a state of rage, once she is in a bad mood, a fight will break out when she meets Quinn.

Usually Quinn is beaten unilaterally, so Quinn goes out to count the days. If she catches up with Shaina, she may be in a bad mood because of her physical discomfort. Shaina will definitely not be seen within a few dozen miles. Quinn.

Before Quinn appeared, the members of Hundred Beasts were worried that they would be pulled over to be a sparring partner, but when Quinn came, they were safe. After all, when Shaina was angry, Quinn would bring the buff of mocking halo.

Watching the little brothers who were flying away, an ominous premonition came to my mind.

"I suddenly remembered that there is still something unfinished in my lab. I'll go first. You can burn these houses if you want."

This is the most important cargo island in the territory of the Beast Pirates. Almost all the material transactions in the territory are carried out here. He came here because the equipment he purchased had arrived.

Now the sites of the beasts occupy five large islands, the Winter Island where the arms manufacturing and research institutes are located, the trading island where Shaina is located is the climate of Spring Island, there are two islands mainly for ore mining and one Xia Dao is dominated by farming.

In addition to the scattered islets around these islands that have no names but numbers, it can be regarded as a small achievement.

Quinn originally came to "pick up a courier" to take a look at the excitement, but he didn't expect to get burned.

"I said Quinn, haven't we two fought in a while? Come and practice your hands?"

"Ah, it's too windy, what are you talking about? I didn't hear it very well. If you have something to do, you should go to the torture pervert." He said that two pairs of leaves were born behind his back and he was about to leave, but as soon as he turned around, he went He saw Shaina appear in front of him.

"Everyone has come, so don't leave, or I'll be very embarrassed."

"Wait! It's okay to fight, but give me a reason!" In terms of speed, he couldn't compare to Shaina. Since it was inevitable, he at least had to understand.

"My hands are itchy, I want to discuss with you and check the recent training results."

The reasons for being unpretentious, so simple that Quinn has nothing to say.

"I will fight back!"

"Of course, it's said to be pair training, otherwise I'll go play sandbags."

Quinn resisted to no avail. She was forcibly dragged to the training ground on the island by Shaina. The next thing was a one-sided beating. Quinn didn't release the water. He really couldn't beat him.

After a period of time, Shaina's anger was over, and Quinn also experienced exercise again. He felt that if this continued, his domineering level would break through.noVeleusb.com

Then he saw the younger brothers who were serving tea and water outside.

"Big Brother Quinn, you've worked hard!"

They came from the heart, and if Quinn didn't happen to be here, they would have been pulled into the training ground.

Although I can get a lot of gains every time I come out of the training ground, the pain is really painful.

Quinn saved them from this crisis, and of course they have him to thank.

"Why is she so angry? Which one of you offended her?" He thought he had mastered Shaina's living habits, as long as he avoided that week and respected Arceus more, nothing would happen.

It's been a while since he sold Gage and their information to Shaina last time.

"Big Brother Quinn, it's because of this issue of the reward order."

Looking at Arceus's reward order, Quinn's face couldn't help but twitch.

"The eldest sister has already offered a reward to find the person who arranged the reward order and took pictures."

"Double the price."

"what?"

"I said double the price, how could I be so unlucky if it wasn't for that bastard!"

Is this guy blind? who can say. that word. "He thought about it, but still didn't say the word pet.

If Shaina was still around, it wouldn't be interesting.

Of course, Shaina was not the only one who saw Arceus's reward order, but the whole group of beasts pretended that they didn't see this thing, and no one brought it up in front of Arceus.

People can take it seriously and laugh at themselves, but if some words come out of other people's mouths, it will change the taste.

That is, Kaido laughed out of nowhere when he saw this reward order. After that, in Kaido's territory, the price of anything has never appeared in the amount of 5000 Bailey.

At the same time, Olga and Jin also appeared on another island with the hands of the beasts. They came to the black market here to purchase supplies.

The production of pure gold is very difficult, not only those extinct materials are very rare, even the existing materials are not so easy to find, after receiving the news of the black market, they naturally came over.

But at this time, they were not using their own flag, but Priart's flag.

The World Government miscalculated Priert's situation due to Spandain's misinformation, and believed that Captain John's treasure was inextricably linked to Priert.

At the same time, because of the clues of pure gold found on that island, they also put the pure gold matter on Priart's head.

Kaido and others are the people who know the situation of Priert best. The actions of the World Government are not absolutely secret in the new world. Since Priert's whereabouts have never been found, they have also begun to expand the search network, which inevitably leads to intelligence Give way.

The efficacy and value of pure gold is too troublesome, neither Arceus nor Kaido want to be targeted by the world government now, so after some thought, they decided to add a new smoke bomb to the government.

Olga's ability to disguise the people of the beasts as the people of Priart, since the misunderstanding has been left, let this misunderstanding be bigger.

Never trust the credibility of the underworld merchants too much. They may be afraid of power and do not do some extraordinary things. For example, the Kingdom of Natho will maintain the security of transactions in the territory.

But selling news twice is the norm in the underground world, and it's unrealistic to expect them to keep it a secret.

Chapter 75 Illusions and Red

"Captain Jade Pritt, we're here."

They weren't used to calling Jhin that way, and Prier's original crew didn't know where they were going.

But their faces are also disguised, and as long as the illusion is there, no one can recognize them.

The unknown island of the new world, the people of the beasts came to the trading place.

A gray kingdom like the Natho Kingdom is an example, the underground world trading market in the New World rarely appears on the bright side, and there are always reasons to cover it up.

For example, this island, which is not recorded on the chart at all, can only be found here by means of a special recording pointer.

Although the existence of the underground market is almost the default of the world government, it is also the target of the navy, and not all gray transactions have the status of an allied country as a cover like the Kingdom of Natho.

They are an illegal organization, and the pirates gathered here have always been the target of the navy.

found a hidden corner nearby to hide the ship. Although theoretically it would not be discovered here, the pirates still carefully hid their ships.

It is not surprising to encounter pirates at sea, nor is it strange to encounter patrolling navies. In order to prevent encountering some navy generals who have a sense of justice, they will be arrested and brought to justice when they see pirates. No one will blatantly stop the ship. in port.

You can hardly find it here without an eternal pointer, but it cannot be ruled out that some people pass by by accident.

From the outside, it looks like an ordinary island. Even if you go to the island, you will see serious business.

Olga protects the secret of the team, and Jin is responsible for the issue of force. His strength is enough to deal with most pirates. Even if there is an accident, he is enough to take Olga out of here.

The irradiation of pure gold light for hundreds of years has caused some side effects. Although it is free from the influence of pure gold, his appearance is the same as when he left the belly of a sea king two years ago.

According to Assière's analysis, this phenomenon may continue for a considerable period of time.

They came here naturally with sufficient information. There is a town on this island, which looks no different from an ordinary town, but when Jin and the others said a secret code in a tavern, they came to the underground exchange here.

The people inside are of different shapes, some people cover their faces with hoods and masks, and some people walk here in a grand manner. The symbols of each pirate group on them are their confidence.

Pirates value their own flags very much. If outsiders use the badge of a pirate group without permission, this is also an act of declaring war.

However, few people do this. Using other people's pirate flags will come at a price. Although it can scare off some weak pirates, it will also attract stronger pirates.

The pirates who do not cover their faces are all members of the Great Pirates, Golden Lion, Whitebeard, BIG·MOM, and their logos can be seen here.

Now the flags of the beasts can also exert a certain deterrent effect, but in order to confuse the sight, all of them are carrying the logo of Priart.

And this underground trading market also made Olga uncomfortable.

This can be said to be the real dark side. She stayed in the hotel in the Natho Kingdom and didn't see those things, but now she does.

Minerals, trees, gold, and people.

People of all races in the cage can see that the long-handed race, the murloc race, whether it is a minority or an ordinary person, are not uncommon here, and there are also some **** organs, which seem to have just been taken out of the body.

There will be screams and wailing sounds from time to time, but no one cares about them, and they still talk about business with a smile.

"This is the filthiest, or the truest aspect of the world. These people were originally pirates, or members of non-member countries, and there were also people who were abducted from member countries, but now, they are just commodities.

This is a cruel world, you have already embarked on this road, and you can only survive if you keep getting stronger. "

Shaina and Olga got along pretty well. Seeing that Olga's expression was not very good, Jhin said a few more words. He wouldn't care about it.

Zoroark's group illusions are very realistic, and the changes in their expressions will also be fed back to the illusions. As she masters her own abilities, the consumption of illusions becomes smaller and smaller.

"Put away your sympathy, you can't help them here, that expression will only make these hounds in the dark stare at you, and if you want everything to be according to your own mind, at least you have to have the strength to match it. Row."

Jhin soon found their trading partner. He was shrouded in black robes, and he couldn't see his face at all. Even if there were people in the underground market maintaining law and order, there were too many things exposed here, and people would still be staring at them after they left. There's always nothing wrong with being careful.

The transaction uses real money, this is not a one-time transaction, and a little credit should be paid attention to.

If the illusion is discovered, it will not end well.

Olga's ability release has a limited range, and if she uses illusions to disguise it as currency, it won't take long for her to be discovered.

The process of the transaction went very smoothly. Priert's 500 million bounty was enough to deter some people. Although some pirates would forge their bounties to achieve some special purposes, the bounty orders that could be published in the newspapers were all true.

After the money and goods were cleared, Jin and the others packed up and left here.

Under the cover of the illusion, there are no more people from Priart here, only the hands of the beasts. No one could have imagined that this group of people was the one who traded before.

But they went around in a circle, hid things with illusions and came back here, this time they appeared here as the Beast Pirates.

Those special materials are purchased with the identity of Priert, but some regular materials are the identity of the beasts. Priert will disappear when he leaves here, so whether he leaves or arrives, the things hanging on the boat are the beasts. banner.

It is not common sense to come back empty-handed in such a place. Baoshu Adam is one of their targets. Today's Beast Pirates lack a true main ship.

The boat can be built in a hurry, but good materials still need to be stored in advance.

In addition to trading, there are more entertainment facilities here. After the disguise is lifted, they don't have too many restrictions, and they also get some free time to move. They also got a lot of spoils in the previous battle. [noVeLusB.com](http://www.VeLusB.com)

There are only a few pirates who like to save money. Most people pay attention to timely enjoyment. After all, this is a profession that may die at any time.

Olga was taking a look at Elizabeth's plan to buy one or two slaves. She always felt awkward doing nothing.

However, there were loud noises in the distance, and a teenager with a strange red nose and another red hair in the crowd seemed to be arguing about something.

Chapter 76: Antarctic cold or arctic cold

"It's colder in the North Pole!"

"No, Antarctica is colder!"

"No, obviously the Arctic is colder!"

Shanks and Bucky, eight years old this year, trainees of the Roger Pirates, they have been on Roger's ship since they were very young.

The argument was fruitless, from arguing to arguing, and finally to hands-on, but the people of Roger Pirates seem to have become accustomed to this matter and do not find it strange at all.

"Okay, you two, you were arguing about this when you were on the boat. If you want to know the result, it's better if you both go to see it!"

But now this situation is obviously not the time for a fight, and Rayleigh, who is behind him, punches one by one, and solves the problem fairly fairly.

"Now is not the time for you to quarrel, hurry up to replenish supplies, we will set sail soon."

After the Battle of the Valley of the Gods, the Roger Pirates' bounty did not change much. In the World Government's report, it was entirely the credit of the Navy. They personally created the "Navy Hero Karp" and made him the symbol of the Navy. Six figures raise the prestige of the navy.

Although Garp's strength is worthy of being a hero, the world government also played a big role.

As a witness to the incident, Garp has chased after the Roger Pirates whenever he finds the trail of the Roger Pirates. He almost regards Roger as a fateful enemy.

However, Garp didn't like the fact that the World Government was covering up the truth. In addition, he didn't like the group of Tianlong people, and he always refused to be promoted to general.

The degree of freedom will decrease after becoming an admiral. They must be stationed in some specific locations to deal with some special events. Relatively speaking, the lieutenant admiral can move more freely.

In order to better hunt down Roger, Garp refused to take over the post of general.

The biggest impact of this incident is actually the Warring States Period. The mechanism of the three generals of the Navy has been formed for a long time, but now the positions of the three generals have been vacant. Zefa went behind the scenes and became the chief instructor. Karp refused to be promoted, which led to The Warring States period is very busy many times.

Every time he sees Sora at the Navy Headquarters, the current Admiral will keep complaining about it.

The navy of their generation has no other people who can take up the position of general, so the navy has temporarily maintained this state. After the Battle of the Valley of God Lox was eliminated, the sea on the whole was much better.

The Warring States period is still too busy to work overtime. When the new generation grows up, the vacancy of the general will be filled naturally, and it is better to let this position remain vacant for those who are not strong enough to make up the number forcibly.

The Roger Pirates had just gotten rid of Garp's pursuit. In order to prevent them from being stuck again, they must hurry up to replenish supplies and leave here.

The apprentices also have jobs, and Shanks and Bucky also have things to buy. After being taught by Rayleigh, the Roger Pirates also split up.

At this time, Olga was bargaining with people, and the quarrel over there did not arouse her interest. She was not interested in those pirate slaves, and she did not need coolies or anything.

Now that she has embarked on the path of pirates, she must be prepared to encounter everything, so her target is those ordinary people, who are also the cheapest type in the slave market.

Population trade is a legal business here, but it will not be put on the surface in the joining countries, and there will be hidden names such as job agencies.

And here it is basically clearly marked.

Criminals and nationals of non-joined countries are all transaction objects. As for the nationals of joined countries, I am sorry, only the nationals of non-joined countries were caught here, and this is just a fig leaf for human beings.

Nearly two hundred years ago, the Dragon Palace Kingdom on Fishman Island became a member of the World Government, but the mermaid has always been the highest selling price. Once a mermaid appears, it will definitely be auctioned for a high price.[noVelusb.com](http://www.Velusb.com)

Olga and Elizabeth have a total of 10 million Baileys, which is a huge amount of money in terms of pocket money.

There is also a price specification for human transactions. According to the price of a few decades later, ordinary humans will make a base of 500,000 Baileys at the auction, but it is an auction, and the starting price is usually much lower than the value of the item.

The average selling price of Olga's favorite people is about 1 million Bailey. She just wants to take away a few people. The quality is not as important as the quantity.

"Look at these people, how thin are they? And this, I think they're dying. How dare you ask for this price!"

Since the kidnapping incident in the Natho Kingdom, all the patterns on her clothes have been changed, and now it is a T-shirt with the Beast Pirate Flag, and it is this pattern that allows the slave trader on the opposite side to have the patience to explain. Opportunity.

The pirates with territory in the new world are not willing to offend them, and Kaido has also joined the ranks.

"Miss, this price is already very cheap, and you look at these people, although they are a little thinner, but their health is all right, just after a few days of recuperation, 10 million Bailey for 8 people, this is already very cheap, They work fine."

"15, one price, you are not high-quality goods at all, they are worth the price."

"It's hard for me to do this. I can give you 13, but it can only be a child. I'll give you another gift."

In the slave market, the price of women is generally higher than that of men, and the price of young adults is higher than that of old or young people. Olga is not interested in those powerful pirate slaves, so these age and appearance factors determine the price.

As Olga said, there is no so-called "high-quality goods" here, and those people are sent to the auction, and here is the first round of screening.

There were just 13 little devils left in his hands. They were not very good-looking, and they were neither too young nor too young. They were just twelve or thirteen years old. They could not be regarded as adult laborers, and they were more than the age to cultivate dead men's confidants.

He also really wanted to take this group of burdens out. He would lose money if he died in his hands, and he would have to lose money if he was raised. He saw Olga's intention to take over, so he also planned to take it.

“.Deal, what is the gift?”

"Here, it's said to be a treasure map, but I don't know what it's hiding. The merchant handed a chart to Olga, along with a chain. Slave collars are not used for high-end goods. this kind of place.

These people are only bound by ordinary chains.

"Hey! Stop hanging out, the two of you, and give me a good look at the people. I bought them back with money." They can't be let go here, or they'll be sent back to the traffickers, so Olga directed at a few hundred people. The man of the beast gave the order.

She is indeed a trainee, but not an ordinary trainee, but a cadre reserve.

Chapter 77 Debut is the peak

"Understood, leave it to us."

The pirates of the beasts are very clear that when Olga is older and stronger, she will definitely become a high-level cadre. Whether it is her own fruit ability or interpersonal relationships, this matter is determined.

And the trainees in the pirate group usually have the status of "group pet" and are very popular with captains.

Besides, they really can't beat Olga. Her frontal combat effectiveness is not that strong. Although she can defeat one or two adult pirates head-on, her physical limitations are placed there. Compared to Jin and Shaina, they can already be called. It's far from being a monster.

The problem with is that in battle, the enemy will never know whether the attack is the real Olga. If there is no outstanding sight, then the number of people is meaningless to Olga, and it will only fall into infighting in the phantom.

After taking over the chains, they didn't pay much attention to those slaves. They couldn't make any waves when they were bound by the chains. Moreover, the slave traders would pre-torture them. Those who could persist in resisting were also very few in the slave group.

"Shanks, did you hear that? A treasure map, a treasure map."

Holding a bag of potatoes, Bucky said excitedly to Shanks beside him.

If Bucky is asked to choose an idol in the pirates, then after excluding the people on Roger's boat, John is likely to be in the position.

Obtaining all the treasures in the world is also one of his dreams. His observation skills are relatively keen, especially those related to treasures.

The Roger Pirates are also pirates, and they will also loot, but the target is not civilians. Roger's rule is not to shoot at civilians, and those who provoke them are not counted.

As for the navy and pirates, they will not be soft-handed.

"I heard, what's wrong?"

"Just now she took out 10 million Baileys, 10 million!" 10 million Baileys filled Elizabeth's side bag, and of course he saw the thick bundle of banknotes when he took out the money.

The pirates followed Olga's order and took the person she bought to the side, and now Olga was left with only the lizard Elizabeth, obviously in a single state.

"Captain Roger won't let you shoot at ordinary people."

"Are you blind, can't you see the skull pattern on her clothes, she is obviously a pirate! Besides, how can ordinary people come to this place?"

The treasure map has a great temptation for Bucky, and under his instigation, Shanks was persuaded by him.

"Let's talk first, our goal is just that treasure map."

"Don't worry, that's a little girl. As long as she is frightened, she will hand over things obediently, and leave this matter to me, Uncle Bucky. Remember to act quickly, or Mr. Reilly will be taught a lesson when he comes back. of."

If you ignore the fact that Bucky is two years younger than Olga at this time, this is still a bit of a deterrent. If you count the age of stagnation, it is not only two years old.

Olga, who turned her back to Bucky and Shanks, was a little speechless at this time.

"Elizabeth, are you saying those two guys are fools?"

"Um?"

"Speaking so loudly, do you think I'm deaf?"

At first, Bucky was discussing with Shanks in a low voice, but it gradually turned into a quarrel. Although there was no fight, the volume was not controlled. The ability of the animal system was hidden in the body. Even if there was no animalization, the five senses were also strengthened to a certain extent.

So Olga heard their plan clearly.

"Let's go, let's play with the two little ghosts before leaving. The days on the boat are so boring."

She turned her head directly and walked towards a fork in the road. When Bucky and Shanks followed, they found that the person in front of her had disappeared.

"What about people?" *noVelusb.com*

"I don't know, but why is there no one here."

"Are you looking for me?" With a hand on the shoulders of the two of them, Bucky was shocked and called out directly. Shanks was calmer and punched behind him, but just hit a blank.

He is just a fledgling apprentice pirate, not the pirate emperor who will rule the sea decades later. At this stage, he has not even mastered the ordinary two-color domineering.

The lower the level of , the more powerful the fruit ability can be. Shanks and Bucky were completely swayed by Olga's illusion.

And this is also Olga's most brilliant record. Playing the two "Four Emperors" with the palm of your hand can be said to be the pinnacle of her debut.

"Just the two of you still want to grab the treasure map? Too weak."

Olga didn't do anything at all, Shanks and Bucky didn't have the ability to crack the illusion, so they both mistook each other for Olga and started an evenly matched infighting.

"Olga, Brother Jhin, here's your call." Elizabeth handed over the phone bug. He had already learned most of the human language, but it wasn't continuous enough, and he could only jump out in three words at most.

"Olga, gather on the ship, we should withdraw, the navy is here." After briefly explaining the situation, Jhin hung up the phone directly, hearing that Olga didn't care about Shanks and Bucky, and rode Elizabeth directly. left here.

When they ran far away, Olga's ability influence was naturally canceled, and Bucky and Shanks just used their strongest blows, and when they saw each other's figures, they couldn't hold back.

When Riley came to take them away, all he happened to see was one person with a black eye.

"Why are you two fighting again? Let's go, that guy Karp is catching up again."

There will always be people left behind on the ship, and it is they who passed the news that there would be no navy approaching this island, but the Roger Pirates who replenished supplies here successfully lured Garp over.

After some chasing, the Roger Pirates got rid of Garp again, and the black market merchants and other unprepared pirates on the island were unlucky, and they were all caught by Garp.

After safety, Rayleigh carried Shanks and Bucky in front of him.

"Tell me, why did you two fight so fiercely?"

It's not that they haven't fought before, but this time it seems to be a real fire. Shanks and Rayleigh explain what happened, and then there is a burst of laughter on Roger's boat.

"These two little devils were actually played by a little girl."

"Yeah, hey hey, you two are not jealous, right?"

If his crew was insulted, Roger would definitely retaliate, but also in the case of scoring, Shanks and Bucky took the initiative to attack, but they were finally tricked by the other party, and it was a little girl who did it.

Then this is not a big deal, but a joke.

If you can confuse them with illusion, you can also kill them. It is obvious that the other party has shown mercy.

Since then, Shanks and Bucky have had a black history of being teased, and Roger has set a new rule for them. They must follow Rayleigh or Jabba when they go out, and they are not allowed to act alone anymore. .

Chapter 78 Reality

On the ship of the beasts, Jhin was looking at the group of slaves that Olga had bought.

Jin's gaze made their hearts chill, and they shrank into a ball on the deck.

"You are responsible for this group of people. How to deal with them is your business. I will not help you."

"Ah, I know, just find an island where there are people and let them go." She spent money to buy people back their freedom, she was already doing charity, she didn't plan to waste time sending them back to their hometown, she also I don't have the ability to do so.

"Olga, you seem to be too naive."

"what?"

"It's nothing, you'll understand later." Jhin only said half of what he said. The truth is far less real than reality. Only after experiencing reality can we know how big the gap is between reality and ideal.

Returning to Kaido's territory, they need to dock to supply supplies on the way, and she has already loosened the chains on those slaves, but when the people of the beasts put down the pedals, none of them dared to leave.

"Go, you are free."

"They don't dare. You see, the wounds on these people are all old wounds, they should have been left by whipping or something. I'm afraid they have been in the hands of the slave traders for a long time.

The mark of a slave is not only stamped on the body, but also engraved in the heart. If I guess correctly, I am afraid that someone has said similar things to them before. "

promised them freedom, but if anyone dared to leave, they would be greeted with even more terrible punishment. Jin himself knew very well the means of those slave merchants. He had also experienced this kind of thing, but the merchant died at his hands.

Escape is a very unpleasant experience.

From the eyes of these people, he can see whether the hope in their hearts has been completely annihilated, and the desire for freedom cannot be hidden. At this time, there is no wavering in their eyes, and it can be seen that their hearts have already died.
NOVELUS&.COM

Jin did not go down to purchase supplies, the cargo on board was more important, whether it was the wood of the treasure tree Adam or some materials for making pure gold, he had to guard it himself.

simply replenished the fresh water, and the ship continued to sail under the cover of Olga's ability. They were like a ghost ship on the sea, and outsiders could not find their traces at all.

"Sister Olga, in fact, you don't need to care about this kind of thing. It may not be a good thing to let them go."

The pirate ship has always been ranked by status. Orga has lived for more than a hundred years. Ordinary members of the beasts do not know. Except for Quinn, the identities of the high-ranking beasts have their own origins.

But her status is still worthy of this big sister.

"This is the new world. If you let them go, I'm afraid they will be caught again soon, or they will die in some corner."

"That's right, I bought it back anyway, eldest sister, just stay and be a servant."

It is normal for ordinary pirates to please their officers. The characters of the officers of Hundred Beasts are rather strange. Until now, no one knows what Jhin and Shaina look like, nor can they understand their personalities.

On the other hand, Quinn and Olga's preferences are easy to find out, and there is nothing less to say in these two sentences, and they also expressed some of their own opinions.

"Ah, I'm so annoying, how can something so simple become so troublesome."

In the end, these people were brought back by her, and they stayed in the current station to clean up and do some chores.

Olga's training has also become more compact, and the addition of small things has made her more eager for strength.

After another period of time, the ship that Arceus traveled returned, but he didn't get anything, and the islands he explored didn't find what he needed.

The ship has not yet docked, and the island has been prepared for reception.

"Master Holy Beast, welcome back."

"Yeah." He didn't ask Shaina if she had any gains. If she did, the phone bug must have contacted her. Now it's up to Kaido.

"Has Kaido not returned yet?"

"Lord Holy Beast, haven't you read the newspaper recently?"

"No, I haven't encountered a newsbird during this time."

He saw the news of the reward order. At that time, the pirates on the ship were too frightened to come out, because Arceus had just wiped out a sea king before he got the newspaper.

But he didn't get angry, at least the pirates didn't look like they didn't, and then they continued to sail as if nothing had happened.

Arceus was not too angry, it should be said that this matter was also expected by him. Those who set the bounty have always had some problems with their minds.

If you were to find the most unlucky one in the bounty, then Blackbeard would probably top the list. After lurking for decades, the bounty didn't exceed 3 billion, and as a result, 3 billion appeared overnight.

Then the pattern of the four emperors has also undergone tremendous changes. Apart from him, the other three are related to each other, so it seems outrageous.

Coupled with the bounty of ethnic minorities such as Chopper and Bepo, it was within his expectation that the World Government made this judgment.

This kind of thing is not worth his time, but if there is a chance, it will be resolved along the way.

They never met Newsbird again.

"That. You'll know when you see it."

Shaina sorted out the latest information. Comrade Kaido once again occupied the front page of the news in the newspaper, and he ran into trouble again while going out.

This time it wasn't the navy, but a big pirate in the new world. Arceus had never heard of this banner, so he didn't care. What's more, it wasn't that he was arrested, but that he was alone in the other party's territory. .

By defending this bug-level skill, it is basically impossible to inflict fatal wounds on Kaido before his stamina is completely exhausted.

Neither of the two sides had any choice but to win, but the Pirates at home were obviously the weaker side.

After a few days, Kaido also flew back, and there were a few more red crosses on the map, indicating that there were no slates there.

However, this does not mean that these places can be completely ignored. The slate does not move, but who knows if it will be taken by some people to the islands that have been searched. The search still has a long way to go.

Kaido can't stay in the territory all the time. He won't go out again in a short time. Before, Quinn was busy with his plantation plan. After hard work, he successfully obtained the seeds from the tropical dragon's banana.

Tropical dragon's bananas are special bananas. The seeds inside are degraded but not completely degraded. There will still be a seed that can be planted inside the banana.

After his hard work in raising seedlings, the first batch of banana seedlings appeared successfully, but the soil of the farming island in Kaido territory was not suitable for banana planting, so he went out to find a new island.

After a while, Olga found Arceus with a treasure map as a gift after training.

Chapter 79 The war caused by bananas

"Master Holy Beast, why don't we go treasure hunting, maybe there is something you want in the treasure?"

Olga held up the treasure map in her hand. Although it was a gift, she also checked it against the map after returning. The location above was actually an island in the New World.

Intuition tells her that there is something good in it, and she is still very confident in her intuition. After so many years in the belly of the giant lantern fish, she relies on this to survive.

There are so many fruits on the island, she perfectly avoided the poisonous wild fruits, met Elizabeth who was easy to get along with, avoided the siege of dinosaurs, and avoided the tide of stomach acid.

And treasure hunting is also one of the main occupations of pirates. She also has a little interest in treasure hunting, but she is very self-aware. Now that she goes out for treasure hunting, she is giving it for nothing and will cause trouble to others.

You can't find Kaido, Kaido will most likely agree to her request, after all, the trainee is a group favorite, but according to Kaido's character, she will definitely be thrown over to experience alone.

Not even Shaina, this kind of meaningless thing is a waste of time for her, and she will feel that Olga is too idle, so she will be arrested for additional training.

After thinking about it, only Arceus would agree to this request.

And she didn't say nonsense, Arceus' goal is to find the slate, but he doesn't know the location of the slate, so all the islands in the sea can be his goal.

The water drop slate has become his home in the sea, and he doesn't have to worry about any trouble.

After a few more months, there is nothing to gain. Since Olga has created a so-called treasure map, it is not bad to go again. If you are lucky, you will find it.

Olga has made a lot of marks on the treasure map, and has basically determined the route and target.

"Treasure hunt. Alright, try your luck, let Shaina prepare the boat and leave tomorrow."

"Okay Lord Holy Beast, I'm going to tell Sister Shaina!"

Arceus has designated a new destination, and the corresponding manpower has also been prepared.

Meanwhile, Quinn ushered in the harvest of the first bananas.

Tropical dragon's bananas are not ordinary bananas. After Quinn's cultivation, these banana seedlings grow extremely fast, and in just half a year, they have changed from seedlings to a state that can be harvested.

The fruit is not yet fully ripe, but Quinn already knows that he has successfully cultivated it.

Bananas are too late when they are fully ripe. Usually, they are picked before they are ripe, and then wait for them to ripen. Only those who are located at the planting site can taste the taste of the fully ripe fruit.

Quinn has been picked and tasted in advance. Although it is not as good as the original, its sweetness is far superior to that of ordinary bananas.

And he was surprised to find that the bananas had a longer shelf life, which was a good thing, but he still had some trouble with his banana plantation.

The inhabited islands in the New World basically have their masters, but at the junction of various forces, there are usually some uninhabited islands, and these uninhabited islands form a boundary monument-like existence.noVelusb.com

Quinn chose such an island, and he brought some of the defeated pirate captives here and established a banana plantation.

Compared to mining in a mine, the job of growing bananas here seems to be easier, at least you can see the sun every day, so those people are rushing to come here.

There are very few people who are pirates at birth. Many pirates are just ordinary farmers, businessmen, and fishermen before they go to sea. .

Cultivating bananas is just a habit for some people.

But today, there is a fight on the island, and the reason for the fight is for these bananas.

This morning, the people on the island began to take care of these bananas as scheduled, and there are dozens of members belonging to the beasts, who act as supervisors.

This was originally an uninhabited tropical island. Quinn only reclaimed part of the farmland, so the island was only partially guarded by people. Originally, they didn't need to guard anything. lost.

This made him very angry, so he asked the pirates on the island to strengthen their inspections.

At this time, on the back of the island, another pirate ship landed.

The pirate ship looks very girly, and it is decorated with a lot of dessert-like things. The pattern of the pirate flag is a lipstick-coated skull, and the crossed bones on the back are also replaced by long candy-like things.

The BIG-MOM pirates are led by Charlotte Perospero, the eldest son of the Charlotte family.

As the eldest son of the family, Perospero is now taking on a heavy responsibility. Some time ago, when bigmom's boat sailed to a nearby island, Charlotte Lingling had a sudden onset of eating disorders.

Her eating disorder is really a matter of luck. If she can't get the food she wants, she will continue to destroy it. Last time, the target of the eating disorder was banana mousse, a member of the BIG-MOM pirate group. Had to look around for materials.

Someone just took away the boxes of bananas here. The pirates on the island were all asleep, and they never thought that anyone would come to steal bananas.

And Charlotte Lingling was also successfully convinced by the taste of banana mousse. After that, no matter what kind of banana, she thought it was not delicious, and her children also planned to occupy the place.

The last time I came was at night, those pirates didn't find it, this time they appeared in the Great White Paradise and the Emperor's Land. When the pirates in the plantation saw the personnel of BIG-MOM who appeared, a group of people were stunned.

"Who are you!"

"kukuku~, we are the ones who came to receive this island. From now on, this is our territory. As long as you turn in enough bananas every year, you can borrow our flag."

In addition to the territory of the Kingdom of Totland, the islands occupied outside are only borrowed flags and do not need to be turned in for life, but they must pay enough tribute every quarter, otherwise they will usher in destruction.

They may not be able to plant well by themselves, and there are not so many people, so they all let the local people serve them.

Although Perospero said that, he was actually telling them.

"What a joke! Who do you think you are, kid, here's a hundred." Before he finished speaking, a lot of candy wrapped it up, suppressing his voice.

"This is not a discussion, it's an order, does anyone have an opinion?"

And a threat from the air suddenly came, Perospero turned candy into a wall, blocking the attack from above, and seeds were embedded on his candy wall.

"So it looks like you were the ones who stole Laozi's bananas a few days ago, right?"

Chapter 80 The duel between the two elders

Quinn was very angry. He had put a lot of effort into these bananas, and he was about to harvest them. There were thieves trying to steal his things.

He is a dignified Quinn, and the Beast Pirates are a um... The fourth in command, Arceus and Kaido are on the same level, and there are Shaina and Jhin in front of him, but the fourth in command is also a senior cadre, who hasn't lost his temper.

And Quinn has accumulated a lot of resentment. Fights between the officials of the Beast Pirates are normal. Shaina and Jhin are discussing each other every three days, but because of his background in the research institute, he does not know when he will get burned. nOVELus&.com

Although most of the time he was in peace, but unexpected situations happened from time to time, such as the original reward order, he encountered misfortune.

He can't beat a man of the right age among the cadres. He is too young to play. If he takes Olga to practice, Shaina and Kaido will be able to take him to practice in a few days. Properties are no joke.

On the other hand, today's Beast Pirates have serious internal norms. At most, he can beat and scold his subordinates when they make mistakes.

As for some experiments, they can only be tried on those die-hard pirates who refuse to surrender.

Kaido is very shrewd. Since someone can take care of things in the pirate group in an orderly manner, it is naturally the best for him to free up his hands to do what he wants to do.

As long as you don't get close to the drunk Kaido, the Beast Pirates are not too dangerous.

Quinn has a change. The ability of the tropical dragon allows him to have more transformation plans for himself. Combined with some abilities, he has developed more fighting methods.

Some research has become a hobby rather than a necessity.

"So it was you guys who stole the bananas raised by Lao Tzu, right?" A group of pirates from the beasts ran behind Quinn and continued to confront the people from BIG·MOM. dragged over.

The physique of each person is much stronger than that of ordinary people, and this time will not let him get angry.

The cadre is the backbone of the pirates, and Quinn's appearance gave them confidence.

"Lick lick~, this is what mom needs, and you should give it gratefully."

Perrospero licked the candy scepter in his hand, and he didn't care about Quinn's seed attack earlier.

"Bring it up? Who do you think I am! You should just disappear on this island! Just use your bodies as fertilizer to make up for Lao Tzu's lost bananas!"

Quinn's figure began to swell, and a huge humanoid tropical dragon standing upright appeared in front of them, a green energy began to condense in his mouth, and then he spit out an energy ball.

Looking at the green energy ball that came over, a large amount of sugar liquid appeared in Perospero's hand, and then a tall candy wall was formed.

Perrospero is a candy man who eats licking fruit. He can make candies and syrups of various shapes. The syrup can also corrode and infect other objects, turning other things into candies.

The solidified candy is very hard, and the candy wall he made is strong enough to resist artillery bombardment. Although the energy ball exploded some cracks on the candy wall, it was not directly destroyed.

However, the candy pieces that flew out after the cracking hurt the nearby bananas. Looking at the bananas that fell on the soil after being split in two, both Quinn and Perospero's expressions became ugly.

Quinn's ugly expression was because his bananas were destroyed, and Perospero had the same reason. Before leaving, he swore to his aunt that he would definitely bring these bananas back.

And in order to show his ability, he refused to bring other younger siblings to come here, and only brought some pirates under his banner.

There is no pirate flag hanging here. At first, Quinn's idea was that there are always people who want to make a name for themselves and will challenge other pirates' territory.

This is an uninhabited desert island. As long as the pirate flag is not hoisted, no one should find it.

At the beginning, the people at BIG·MOM just wanted to find some wild bananas to see if they could be in an emergency. Unexpectedly, they crashed directly into Quinn's plantation by accident.

As a result, young Charlotte Lingling was overwhelmed by the taste of this banana, and if she couldn't bring the bananas back, or ruin them.

A few drops of cold sweat were left on Perospero's head, and he couldn't imagine the result.

In the aspect of mission failure, Auntie's patience is not as good as Kaido's, and the same is true even for her own children.

The idea of using the quickest, least impactful means to deal with the enemy came to both Quinn and Perospero's mind.

Before, because of the banana, they started the fight directly, and didn't pay attention to the logo on the other side. Now they were forced to calm down because of the banana. They also saw the logo on the other side.

The tattoo on Quinn's right shoulder, the logo on the chest of the pirates under BIG-MOM.

But this did not relieve anything. Quinn knew through the original phone call that Kaido and Aunt had some personal friendships, and when Kaido was still on the Rocks ship, Perospero was already born, and he also knew Kaido and his own. Mom has some relationship.

But this relationship is not enough to stop the two pirates from fighting. If there is a conflict of interest, even Kaido and Auntie will not miss their old feelings.

But they did not continue to fight, otherwise the aftermath of the battle will definitely destroy the bananas here, Quinn is reluctant to bananas, Perospero is reluctant to himself.

Bananas are gone, Quinn will wait at most half a year to re-cultivate banana seedlings, but Perospero may not be sure.

The two people with different thoughts didn't do it for a while, and they all made their own calculations in their hearts. For example, there was syrup oozing out from Perospero's feet.

"This is what my mother wants. Since this is the territory of the beasts, how about I buy these bananas at a high price?"

He wasn't afraid of Quinn, he was afraid of Aunt's anger, but Quinn didn't mean to give him face at all.

"Don't forget, all bananas belong to Lao Tzu, and no one wants to take any bananas from me!"

"That's a shame Candy Wave!"

A large amount of syrup suddenly poured out of the ground, and the viscous syrup tumbled and rushed towards Quinn like a wave.

What he said just now is true, something that can be solved with a little money is not a problem at all, but if Quinn refuses, he can only take what he wants in this way.

Quinn showed a disdainful smile at the corner of his mouth. Perospero just didn't notice that the leaves that Quinn had just closed behind him were glowing, and the power of the sun was gradually condensing on the leaves behind him.

While he was planning to smack Quinn, Quinn also had the same idea.
