Chapter 751 and Refreshed record

Treating guests, Derek never minds treating guests, it might be better to say that she is very keen on this event, but the problem is, she is a Japanese family, if she can have savings in her hand, it is not her.

In order to reward her for finding the slate and effectively improve her quality of life, the exclusive Dibao card was launched, but this did not change her living habits.

Although the quality of life has improved, she did not feel that happiness. To this day, she is still the person with the most debts in Onigashima, living a special life of repaying money at the beginning of the month and borrowing money in the middle of the month.

Onijima and Wano Country can often see Drake who treats guests, but it is her who treats guests, and it is not necessarily who gets the money.

Although she must repay what she borrows, whenever she borrows money, she will still receive special greetings from her companions.

"You can think of such a thing as borrowing money to treat guests. You have improved your ranking this time. Wouldn't it be better to use the bonus?"

"Cough, I used the bonus to make a deal with Brother Jin, so that part was paid back to Brother Jin in advance.

And for me, isn't this a normal thing, let me see, who should I borrow from next?"

Speaking of which, Derek took out his accounting book, which not only recorded his own experience of arrears, but also marked a few people. After all, it is not good to find one person to borrow money in a row, so Derek It's always been round.

"Oh, Babanuki, it's almost your turn. Lend me your private money. Kojiro seems to have opened a new tavern. I'll treat you to experience it when I get back."

"Forget it, you should change your habit, this time I invite you, just to introduce you to my daughter."

Mandelfish on the side took up the topic. He and Drake have completely different values, and he has been trying to persuade the other party to save a little money.

"No, that's meaningless. If you are in that mood, Boss Mandelfish, I'll let you borrow it. I'll apply to go out on duty next month and ask the Navy for some money."

A pirate said that he went to the navy to exchange money. It sounds ridiculous, but it is the truth. The navy will not pursue how this wanted criminal was caught.

Find a pirate who doesn't like the eye, and then find a middleman to send it to the Navy branch, and the bounty will basically be obtained. Ordinary pirates can only get 80% of the money from the middleman, but Beast has its own channels.

Ninety-five percent of the bounty can be obtained. The navy and the world government naturally know what is going on behind this, but they have been letting this kind of thing go. For them, fighting among pirates is a good thing.

Even if the pirates use the bounty as the capital to show off, they don't mind, and even deliberately raise the bounty of some second-in-commands of the pirate group, thus causing infighting among the other party.

"you."

Mandelfisch felt that he could not keep up with the thinking of young people, and these values made him very puzzled. *ηOvelusB.cOm*

"Okay, brother Mandelfish, you don't often stay on Ghost Island, this guy is like this, if he really saved money that day, it would be abnormal."

As Drake's bad friend and best friend, as well as the biggest creditor, Emmaline knows Drake's character too well. If it wasn't for her good military power, she might have been sold out long ago.

No matter who pays the bill this time, it will be counted on her by Derek. Compared with those who default on their bills every day, her character is already quite good.

"That's right, you already have a daughter, so it's your turn to treat."

"But then again, there shouldn't be a few games left, right?"

"Well, Scorch and Holdem are not over yet. When they are over, this swap will be almost done."

"Skokie has persisted for a long time."

"Xiao Pei is still young after all, it will be different after a few more years."

In the competition field, a different kind of air battle is continuing. As a reformer, Scorch is now suspended in the air like an alien flying saucer. After follow-up efforts, he successfully evolved into a self-explosive magnet monster with the help of the magnetic field environment created by Arceus.

After the transformation, the appearance has not changed much, but there is a strange antenna on the head, which can receive some special electromagnetic waves. Sometimes he can intercept the voice signals of some phone bugs like a bug.

In the arena, he can also play the same ability as cheating, because the signal of Rotom broadcasting the arena will also be captured by him, so he can have some special God's perspective.

But the person who challenged him was Peggy Wan. It's okay to say that in terms of ability, Biting Land Shark has restrained him to death. The strongest electromagnetic gun can't cause any damage to Peggy Wan.

Because he is a cyborg, his domineering and physical skills are the worst among the top-ranked number ones. When the thunder and lightning are restrained, all he can rely on is the weapon equipped on the cyborg.

Da da da!

Boom!

Archeology is the primary productive force of science and technology. O'Hara's library records countless ancient technologies. Quinn does not have the ability of Vegapunk to pack the knowledge of the entire library into his brain, but he also found Section on techniques for body modification.

Scorch's weapons have also undergone several upgrades, from the original three-wheeled musket to the current Gatling. At the same time, it is also equipped with a small laser cannon. It has become an extremely powerful aerial turret.

It's just that now this fort has encountered a heavy jet fighter that is immune to lightning.

The battle between the two was long and boring. In a nutshell, Scorch was suppressing Peggy Wan with long-range firepower, not giving him a chance to get close.

Biting land sharks can fly, but the earth is his main battlefield. He is much worse off the ground than on the ground, and when flying in the sky, whether it is earthquakes or digging holes, he is useless .

Although the dragon-type skills are equally powerful, Peggy Wan is still young and belongs to the animal-type stamina monster. His physical strength is not comparable to those of adults, and his combat experience is also much worse, so he was trapped by Scorch with firepower.

However, the ammunition on Scoci's body is limited. After a few clicks, his weapon instantly misfired. In the past, he was stationed on the island on the edge of the beast's territory. He had his own exclusive ammunition depot and never worried about running out. bullet.

Accustomed to being extravagant, he fell into a difficult situation on the field. After evading for a while, he was finally chased by Peggy Wan and ended the battle with Flame Fang. Peggy Wan also refreshed the single-digit number record of.

surpassed Setsuna's original record, and became the youngest person with a single-digit number at the age of 13.

Chapter 752 Veteran ends, newcomer debuts

Scorch also became the only one who did not come to the medical center after the defeat.

He is a modified person, and his body has a large part of mechanical components.

Ordinary Pokémon, even if it is a steel type, will stay on the body when the ability is released after the metal body is injured, but Scotch is different, the mechanized body is damaged very specially.

Peggy Wan's flaming fangs broke his parts, which is beyond the scope of the medical center, you have to go to the weapons repair shop.

As for Peggy Wan, the scales of the biting land shark are not low in defense. Although there is no steel body, those tiny scales also form a structure like a fish scale armor, providing a strong defense for the main body.

But there is a limit to the defense. Scorch's ammunition depot was exhausted, and Peggy Wan was also injured a little. He just came here to adjust every day.

It's a pity that the skill set of Bite Lu Shark doesn't include Dragon Dance, otherwise Bite Lu Shark can use stronger power.

"Congratulations, Xiaopei, you have defeated Scorch."

"Yeah, you are really amazing at this age."

Most of the people present were veteran cadres of Beasts. When Peggy Wan was picked up by Kaido, they were already members of Beasts. It can be said that they grew up watching the siblings.

The little devil at the beginning has grown into a cadre of the pirate group, which is something worth celebrating.

"Thanks to the power of Lord Arceus, where is my sister?" novelusb.com

Peggy Wan looked around the ward, but he didn't see Urti who was seriously injured. The serious injury was judged in his own mind. In his opinion, it was impossible for Urti's character to retreat uninjured in this kind of battle. Constant hands and feet is already very good.

After all, his sister is the number one beast, and even competes with Jack.

"Ulti is not over yet. To be precise, it has just started. The venue was occupied before, and it has just been vacated now."

Speaking of which, Mandelfish pointed to the Rotom screen at the medical station. The battle between Ulti and Holdem had just started, but it went straight to a fever pitch.

At the same time, it confirmed Peggy Wan's impression that Ulti's battle was still so simple.

Facing the jet flames used by Holdem's Flame Lion, Ulti used the most straightforward fighting method, going head-on.

With the blessing of the dragon dance, relying on her sharp ax fangs and sprinting speed, she forked a path in the raging fire.

Facing the enemy's attack, Peggy Wan chose to evade first, so he fought Scorch for a long time, until the opponent's ammunition was exhausted, and in a very safe situation, he chose to make a surprise attack.

But Ulti made a completely different choice. After she judged that she could handle the opponent's attack, she rushed forward.

The pair of ax teeth of the Double Ax War Dragon are the most reliable weapons for it, just like the hammer of the great blacksmith and the head knife of the commander of chopping.

Under the modification of Arceus, Ulti's Double Ax War Dragon can temporarily remove the ax teeth, and equip them to form two arm axes on the outside of the arms.

Boom!

The blade of the ax hit the ground. Looking at Ulti's strength and speed, Holdem felt that something was wrong. Compared with the beginning, Ulti was a completely different person.

At the very beginning, Ulti was not so violent, and she was just blocking his spray of flames, but she blocked it, as if she had awakened, and began to shorten the distance between the two.

Transforming into beast form, Holdem swept his tail, and a series of golden stars were swept towards Ulti by him. This time there was no flame blocking his vision, and he finally saw clearly what happened.

When Ulti split the incoming stars with his ax teeth, a layer of purple light shone on the surface of his body.

"That's...Dance of the Dragon?? Did you learn that trick from Brother Kaito??"

Ordinary people need to twist in place to release the dragon dance, but Kaido has already integrated the dragon dance into his combat skills in many years of fighting, and the dragon dance gossip is a skill specially extended for this purpose.

And Ulti's action just now is almost a replica of Kaido. She used the dragon dance bonus to carry out a special defense, and learned Kaido's way of attacking instead of defending.

"Huh? Is it difficult? It's nothing complicated. Don't talk nonsense. I've decided on your position. I don't want to be behind Xiaopei, Ur head shot!"

She is very talented in this aspect, and it didn't take long to integrate this matter and transform it into her own fighting style.

It's easy to say, but the body is not so easy to bear. She is two years older than Peggy Wan, but she is only 15. Kaido can bear the increase of Dragon Dance for a long time.

But she can't, if this state lasts too long, she will be overwhelmed, which is also the root of her extremely violent battles.

Superimposing the dragon dance in evasion, and then launching a surprise attack, within the duration of the strengthening, quickly defeats one's own enemies, and Peggy Wan is going in two completely different directions.

Looking at the menacing Ulti, Holdem's expression was very ugly. He thought that he had successfully consumed the opponent at first, but instead gave her time to stack buffs. Although he dodged the blow, the enhanced Dragon Dance The speed made it impossible for him to get rid of Ulti completely.

At this time, the ax tooth had returned to its original position, and Urti, who had also entered the beast form, leaped high, with a deadly cold light shining on the ax tooth.

"Ur Ya Slash!"

The lower limbs of the double-axe war dragon transformed from Pachycephalosaurus are more developed, which makes Urti's lower body more stable, and the sharp ax teeth further enhance her attack power, not to mention that in the previous battle, she has completely controlled the dragon dance. Stacked to four layers.

With the ax teeth leaving a huge scar on Holdem's abdomen, the transposition battle of the beasts finally came to an end, and after some minor adjustments, a new generation of numberers has entered the stage of the beasts .

Foz Fu became the only giver in the crowd. If the three people behind were not too old, he might not be able to completely defeat them. The original No.2-No.9 basically replaced No.10-No. In the 19th position, many people's rankings are just backwards.

But this battle is not over yet. In Beasts, the most unstable is not a certain member, but Kaido himself.

Watching the battle of his subordinates ignited his fighting spirit. When the Tutu dogs were renumbered one by one, Kaido suddenly jumped from the air with his bare hands, and took Quinn's microphone halfway.

"Hehehe, little ones! Great job, no matter men or women, no matter age, as long as you have the ability, you can get everything here. Taking this opportunity, let's play a game.

You can go together, as long as someone can knock Lao Tzu to the ground, I will grant that person a wish! "

Chapter 753 Kaido in the atmosphere

"It's unscientific, adoptive father, this is unscientific, I should ask my father to find a doctor to look at his brain."

"What's wrong?"

"Don't you think what your father did is abnormal? He shouldn't do it under normal circumstances."

When she heard Kaido say that, she actually got a shock in her heart. According to Kaido's past habits, there is a high probability that she will be thrown down, and then exaggerated rewards will be given to others, and she will either hit her , or practice with yourself.

Under this kind of coercion and temptation, she will inevitably encounter a brand new torture. There are not many major cadres present. Setsuna and Mandelfish can explode into disaster-level combat power, but their status is already very high. Kaido's Threats don't involve them.

As for Quinn, in this environment, she can't do anything that has too much impact, but such a large group of capable people is enough to torment her, so Kaido actually did the opposite, not only did not torture her , and jumped down by himself. "

"Over the years, when did your father ever have a normal mind? Do normal people get drunk in the Navy branch and then sleep directly in the Navy base?"

"Huh? Has he ever done something like this? Why don't I know?" novelusb.com

"It happened a long time ago. It should be near Shampoo Land. Anyway, you haven't entered the new world at that time, and you haven't been born yet. If this incident is not counted, what you know is enough to explain everything."

"That's what I said, but I still think there is a problem. He must have a conspiracy."

Yamato knows very well that Kaido's brain circuit is different from that of normal people. She is not surprised that Kaido would do something drunk at the naval base, nor is it surprising that Kaido went down to fight by himself.

Itchy hands, having nothing to do, these reasons are enough, what is strange about her is that Kaido didn't put any strange pressure on her.

In just a few minutes, she has imagined dozens of things that Kaido might do, but she is not sure what Kaido thinks. In this respect, he can always be unexpected.

"By the way, foster father, were your previous adventures interesting?"

"It's not bad. Many of the elders came from that time. Mandelfish, Babanuki, Setsuna when I was a child, and the Olga father and daughter and Elizabeth in the Neptune class, aren't you interested? ? Why did I remember it again?"

"It's not that I'm not interested, it's just that it's boring to know in advance. The sea is so big, and I still want to see those mysterious places by myself."

Exploration is one of the themes of her life. Unless she is performing some special tasks, she will not read the detailed information of the island, but will explore by herself. The independent island has generated countless natural features and customs.

These mysteries attract those orthodox adventurers, and Yamato is one of them.

"But I think my father is very wrong this time, so I want to analyze his previous living habits, maybe I can see through his conspiracy."

"This story is not short, let me tell you slowly."

While Yamato was discussing the past, the battle below had already begun. Under Kaido's coercion and lure, he started a new round of fighting with the remaining venue.

He wrote a bad promise, and did so with confidence, not at all worried that the wish was beyond his reach.

Because he is confident that no one can knock him down, as long as the c

Chapter 754 The Prologue of the Four Emperors Era

Whether it is the Emperor of the Sea or Qiwuhai, they are all pirates, the only difference is their strength.

As for the group of pirates, betrayal is the norm. Even some affiliated forces that joined the Emperor of the Sea have different purposes. As long as the opportunity is right, they will not hesitate to launch a rebellion.

Of course, since the era of great pirates started and the emperor of the sea ruled the sea, none of those rebellious pirates have succeeded. Charlotte Lingling, Edward Newgate, Kaido, they all told the consequences of others with their blood .

Betrayal is common, but there are consequences.

There is no doubt about the result of the battle. The stronger the person, the more he knows how big the gap between himself and Kaido is, and the more he is fishing. Therefore, Kaido returned to the ghost with a large number of people after just a fight. Island, a grand banquet is ready.

If you are not happy, you should hold a banquet to be happy, if you are happy, you should hold a banquet to celebrate.

Any reason, or no reason, just because they want to, they can start a grand banquet.

Newcomers are on the stage, and a large number of grassroots cadres are gathered together. There is no need to find other reasons.

"cheers!"

In the ghost island, the grand banquet has already begun, and Quin

Chapter 755 Four Emperors, Navy, Qibuhai

Boom!

Navy Headquarters, a loud noise came from the office, Sengoku looked at the newspaper in his hand and rubbed his forehead.

"These guys really don't stop for a moment, and they make such a big commotion, and this guy Morgans, will it kill him if he doesn't talk about this kind of thing?!"

"Kachi Kachi."

"Does he know that the sea will become more turbulent like this?"

"Kachi Kachi."

"Continue like this."

"Kachi Kachi."

"Karp! That's enough! I didn't ask you to come here to eat senbei, put them down for me!"

Sengoku's patience seemed to have reached its limit, he snatched all the senbei from Garp's hand, tore open the bag and poured it into his own mouth, but the next moment, Garp took out another bag like a magic trick .

"Kachi Kachi, it's useless for you to tell me, something has already happened, are you going to arrest them all?"

"you"

Sometimes he envied Karp's way of working without having to worry about anything and talking nonsense with those officials. He wanted to catch all those pirates, but even if he ignored the issue of strength, the World Government would not allow them to go to war easily.*novelusb.com*

"Forget it, let's have a meeting first. There are a lot of things going on recently, so we need to let everyone know the latest changes. He, is it okay for you to come?"

"Isn't there Branho? Let him deal with it first. I think he is quite talented in this regard."

"Don't be like Garp, Zefa is doing the same now, you guys."

The Warring States period was hard to tell, but it didn't stop it. Brandon's words really have the ability to do this well.

So after the convening, the generals who were still in the headquarters began to gather. In addition to the three generals, a large number of lieutenant generals and major generals in the headquarters gathered in the audience, waiting for the instructions of the Warring States Period.

The generals have special secretaries who will report to them in detail in private, and they are not required to participate in the meeting.

"Everyone, you should have heard of some recent events. Today is not to announce any combat missions, but to popularize the latest changes in the situation to everyone.

Next, Brandon will convey to you, you must keep in mind what happened today, after all, this is a new change in the entire sea. "

Blanneu also took a stack of reward orders and walked up to the podium. Looking at the crowd of people with higher ranks than himself, he did not have the slightest stage fright, but adjusted the phone bug and got ready.

"First of all, this is a pirate group that you all know, the Whitebeard Pirate Group, which has 16 divisions and 43 affiliated pirate groups. The captain Edward Newgate, known as the strongest man in the world, offers a reward Gold 5 billion 46 million Berry.

Now the 15 captains of the Whitebeard Pirates are all very powerful pirates. As a veteran force, they are extremely powerful in the new world. "

After swiping the reward order, information about Whitebeard appeared on the projection screen one by one, introducing those powerful pirates.

"Secondly, it is said that she attacked the village of Elbaf, a giant family when she was a child. She is a natural monster who only believes in blood. Together with 85 children, she founded and ruled the country of snacks - the cruel and dictatorial queen of the Kingdom of Totland.

The captain of BIG MOM Pirates - Charlotte Lingling, has a bounty of 3.8 billion Baileys. "

Whenever Brandon uttered a piece of information, the mouth of the navy below opened up a bit. The Emperor of the Sea himself was not something that low-level generals like them could deal with.

They know that there are many powerful pirates in the sea, but many people have no knowledge of this bounty, so they are shocked when they hear the bounty.

"Also, by virtue of its own strength, it has won the respect of the pirates. It has a large number of powerful cadres and unknown biological weapons.

Now the actual ruler of the Wano Kingdom, the destroyer of the Xikai Kingdom, the looter of the Standing Kingdom, the governor of the Beast Pirates and the strongest creature - Beast Kaido, with a bounty of 4.677 billion Baileys.

It has extremely powerful cadres under its command, all of which are phantom beasts, Jhin, Quinn, Olga, Shaina, and Zeraora. The lieutenant general and below cannot entangle with him.

At the same time, there are more than a hundred people, numbered by numbers to determine the order of strength, and it is the pirate group with the largest number of sea-capable people.

In addition to their vice-captain - Arceus, Kaido's daughter - Yamato, although the two rarely show up, the strength of the beasts may have become the most powerful pirate group on the sea. "

Brannew did not turn the page directly after telling the information, but turned the previous part back.

"The most critical issue is that there are conflicts between the BIG MOM Pirates and the Hundred Beasts Pirates, but there is also a close connection. The two have a high probability of forming a Pirate Alliance. It is a point to pay attention to."

Then Branau turned the page again, and a red-haired figure appeared on the projection cloth.

"And this last, the Destroyer of Eregia, the youngest of the four.

Deeply trusted by subordinates, with powerful cadres such as Beckman, Lagi Lu, and **** Bu, the average bounty is the highest and most balanced. It can be called the Red Hair Pirates without any weaknesses.

Its captain, Red Hair Shanks, the leader of the Red Hair Pirates, has a bounty of 3.6 billion Baileys. "

The total rewards are undoubtedly higher for the Hundred Beasts Pirates, but they also have the largest number of cadres. After averaging, they become fewer.

"These four are called the emperors of the sea, and Morgans even called them the four emperors. Ladies and gentlemen, more troublesome times may be coming."

The rewards of the four people appeared on the screen at the same time, and then the seven special rewards appeared below.

"Amazon Lily King, Captain of the Nine Snake Pirates, Pirate Queen-Boa Hancock.

The captain of the Sun Pirates - Kaixia Jinpei.

Don Quixote Pirates Captain - Tian Yasha - Don Quixote Doflamingo.

The former captain of the Moonlight Pirates, now the captain of the terrifying bark pirates - Moonlight Moriah.

The world's number one swordsman-Hawkeye, Joracle Mihawk.

The former King of Solbey Kingdom, tyrant, Bartholomew Big Bear.

In addition, King Sha Krokda's Shichibukai is ready.

Although these people are all pirates, they are also well-known powerhouses. They have already reached an agreement with the world government. To a certain extent, they are our allies.

Although they are called the Four Emperors together, they are not monolithic. Everyone, for the justice in your heart, please work hard together! "

They wanted to

Chapter 756 is all red, why is the gap so big

Not long ago, on an ordinary small island in the East China Sea, a group of pirates were sweating. Holding shovels and pickaxes in their hands, they were struggling to excavate the rock formation below.

"Give me more effort! There must be a treasure below here! The location of the treasure map can't be wrong!"

A man with a red nose is flying in the air, commanding the younger brothers below.

Bucky the Clown, the captain of the Bucky Pirates, offers a bounty of 10 million Baileys. As a former intern of the Roger Pirates, he is a good brother of Red-haired Shanks. This number is not equal to Red-haired 3.6 billion Proportional.

No one would have thought that this man who was looking for treasure in the East China Sea had extremely powerful connections, and even the white beard remembered that extremely obvious red nose.

His flight is different, because the body flying in the sky has no feet, and those two feet still stay on the ground.

This is Bucky's application of the split fruit, which can split itself into many pieces.

Immune to slashing by sharp weapons, the effective control range of the ability is 200 meters in radius with feet, beyond 200 meters he will lose control of his body.

Except for the feet, other parts of the body can fly. At this time, Bucky is flying in the sky as a supervisor.

The number of pirates under him is quite large, but the quality. Compared with the pirate group, this place is more like a vicious circus.

"Captain Bucky! The bottom is too hard to dig!"

"Yes, Captain Bucky, there are rocks under here, have we found the wrong place?"

"Huh? Do you suspect that my uncle has misread the treasure map? Hurry up and dig it for me!"

Two hands separated from the arms and grabbed the younger brother's collar. Relying on the ability to split the fruit, Bucky is basically invincible in the East China Sea.

As a professional treasure hunter, how could he misread the treasure map.

It was also at this time that a news bird flapped its wings and flew over. Looking at Bucky in the sky, it flew over directly with the newspaper.

In the eyes of Newsbird, Bucky is definitely a high-quality customer, and he has learned to fly to the sky to get newspapers by himself.

Looking at the newsbirds passing by, Bucky waved his hand to signal that he also needed a newspaper.

At this time, Bucky is also a relatively vicious pirate in the East China Sea, but except for those who are dying of starvation trying to avoid danger in an emergency, no one wants to hurt Newsbird.

After putting the coin into the news bird's pocket, Bucky browsed the latest news, and sometimes some clues of treasures could be found in the newspapers.

Afterwards, he saw an unacceptable scene.

【The new sea emperor-red-haired Shanks, the era of the four emperors is here! 】

Navy will give pirates nicknames, but will not give this group a new identity, Roger's original title of One Piece is because he reached Ralph Drew and accomplished that feat.

The Shichibukai under the king is a powerful pirate that the world government is looking for to balance the sea, so it needs a mighty title. As for the original emperor of the sea and the current four emperors, this is the result of Morgans' hype for attention.

Bucky can read newspapers, but he always looks for something he is interested in. No matter what, he is also a person who has traveled all over the new world with Roger Pirates. He is really not interested in ordinary things.

And his relationship with Shanks is also very complicated. In general, he hates the person who ruined his dream now, so he didn't pay attention to the previous things, and he didn't see this news until now.

"Sihuang Shanks, that bastard, ruined my dream of treasure hunting, and then he has come to this point!"

When the Qi reached the separation of the wall, Bucky really did this. He kept splitting and reorganizing in the sky, making all kinds of incomprehensible actions, and the reward orders mixed in the newspaper also fell down, so that he was dumbfounded. The younger brother below.

"Captain Bucky! How are you doing? Is there anything special about today's news?"

"3.6 billion.. so scary, is this the monster of the great route? But why is Captain Bucky so excited? Does he know this big man?"

"Don't meddle in your own business! Hurry up and dig out the treasure for me!"

Hearing that the people below actually called Shanks a big shot, Bucky's emotions were further detonated.

Amidst the complicated emotions, Bucky also joined the excavation team, and began to transform the complicated emotions into physical labor. With their persistent efforts, they finally smashed a hole in the rock formation, and then, some black Liquid came out of it.

"Captain Bucky, a strange liquid is coming out, it's not the gold you mentioned!"

"How is it possible? The treasure map clearly says that there is gold flowing below, so move the cannon over here! Just blow it away! Let you see how powerful the Bucky bomb newly developed by my uncle is!"

I didn't know the exact location before, but now I have dug up the so-called treasure, but it turned out to be black water who didn't know what to do. He didn't have the opportunity like Shanks, so he planned to use these things to vent. As for the result? .

"As expected of Captain Bucky, Bucky's bullets are so powerful."

"Yeah, that mountain was blown off."

"Don't take it for granted! A group of idiots, think about how to land!"

Bucky bombs, Bucky's special artillery ammunition, are extremely powerful, but this explosion is not just a problem with Bucky bombs, Bucky has some problems with the translation of the treasure map, which says liquid gold, and this Liquid gold is not a literal thing.

The development of different islands in the sea is very different. There are traces from prehistoric civilization to future technology. Bucky's treasure map happens to be an island in the period of the second industrial revolution. For them, the value of oil is no less than gold.

But Bucky didn't discover this problem, which led to the current situation.

At the same time, in the ghost island, Olga's heart is also quite complicated, looking at Shanks who has completely established the title of emperor of the sea.

"These brats grow up so fast."

Shanks had a good reputation before, but in the era of Roger's death, the Four Emperors were undoubtedly the pinnacle of pirates, not to mention that Kaido was also one of the Four Emperors.

Seeing that Shanks has become an equal to her boss, she still has a lot of feelings, after all, she is just her defeated opponent.**NovelUsb.com**

"Times have changed, Olga, and it's pretty good now."

"Yes, but Elizabeth, haven't you seen the news about the red nose?"

"Red nose?"

"It's the person with the red hair. Now that guy has become the emperor of the sea. His friends should be doing well. It's strange, why don't I have any impression?"

The pirates in the new world often need to add information to find out who is doing better recently, but no matter what she thinks, she doesn't have any information about Bucky.

Chapter 757 Big Mom's Dream Marriage

As long as the strength is stronger, it will always attract the attention of the pirates in the new world. Bucky just seems to have evaporated from the world. For ordinary people, this is no problem, it is nothing more than too weak.

But the two were inseparable at the beginning, and now that one has become the emperor of the sea, the other should not be unknown no matter what you think.

But she didn't delve into this issue, but read the detailed report.

"Why, do you want to try him again? According to the rules of pirates, if you beat him, you will also be the emperor of the sea. No, now, you should be called one of the four emperors?"

Morgans' newspaper is very influential. As a private news organization, it can ignore the decree of the world government and publish those banned news.

Although there are factors of the indulgence of the world government, such as things that Lockes wants to be concealed, Morgans can't find any news, but it can also reflect his particularity.

The title of Emperor of the Sea was passed on by him. It may be that he thought the Three Emperors were not pleasant, and it was not until Shanks came to the throne that he proposed the collective name of the Four Emperors.

"Forget it, I don't want to ruin my 100% winning rate in two battles. This guy is still able to do that kind of thing without an arm. It's really quite capable."

These years are not without big pirates who have gained fame, but no one has ever been called the emperor of the sea. Strength is one aspect, and record is another issue.

In the beginning, this title was mentioned because the Kingdom of Xikai was destroyed. Morgans touted Kaido as the emperor of the sea, and at the same time gave examples of the two veteran pirates, Whitebeard and Charlotte Lingling.

According to outside intelligence, Shanks also did the act of destroying the country. He was responsible for the destruction of Eregia, but at that time, he did not get this position. novelusb.com

After discussing it, this is related to the conflict he had in the sea a few days ago. After the Beasts Transposition Battle ended, the BIG MOM Pirates clashed with the Red Hair Pirates.

The reason is that due to the drought on an island, the fruit production has been greatly reduced, and it cannot provide enough fruit to the BIG MOM pirates like in previous years.

Charlotte Lingling can't think about the reason, as long as she can't get what she wants, it will lead to destruction.

But the people on this island got acquainted with the red-haired pirates by chance, so Shanks wanted to protect them, which eventually turned into a turf war.

Shanks and Charlotte Lingling fought a battle, which finally ended because of Charlotte Lingling's cravings. The battle did not fall for several days, and they stopped the BIG MOM pirates with just one arm. That's one of the reasons why Shanks became emperor.

"Aren't you kidding yourself?"

"Huh, it's okay to say it anyway, but that guy lost to me twice, and it was still in the case of teaming up with others."

She is very clear about what it means to be able to fight with BIG MOM for so long, and she is content with the status quo without too much ambition. emperor.

After all, his prestige is worse than that of the old sea emperor.

But these people who don't give Shanks face have a bad life afterwards. Shanks is also a pirate. If he offends him and attacks his territory, he will not show mercy either.

"Gu la la la, has that brat reached this point? I'm really old."

On the Moby Dick, the traces of time still appeared on Whitebeard's body, and the conditioning medicine has become a must-have item on board.

The medicine produced by Baishouguo is indeed effective, but Whitebeard's health problem did not appear overnight, and he has nothing to do after years of fighting.

Last time it was Kaido who showed his strength, this time it was the kid who ascended to the throne, which made Whitebeard sigh that he was really old.

"No, father, you are still in your prime."

"Yeah, Dad, our voyage has only just begun!"

"Gu la la la, yes, forget it, little ones! The party is on."

Shanks became the Four Emperors had nothing to do with them, but they still had a banquet somehow.

In the performing arts department of Beast Fruit, Uta's mood is also complicated. The status of the red-haired pirates has risen, which means that she needs a greater reputation in order to become a singer worthy of this pirate group.

In the red-haired pirates, they were drinking heartlessly as the parties involved, and there was a dazed Hawkeye on the scene.

Since Shanks lost his left arm, he has no interest in challenging the other party. This time, he just passed by on business. He stopped by to see this old friend, and he was pulled into the banquet directly unexpectedly.

As a successful person, it is normal for Shanks to hold a banquet, but in the Kingdom of Totland, Charlotte Lingling was also not angry, but joyful.

"Perospero, Katakuri, how are things going?"

"Mom, everything is ready, the invitation to the tea party has been sent out, and we are waiting for the guests to come."

"Well~ Well, very good, this kind of Totland is the real world. If this is the case, the army of the world's most powerful country can also be used by me."

On the throne made of desserts, Charlotte Lingling is imagining the future. Her thinking must be very different from that of normal people.

What to do if the family cadres are not enough, find a husband and have children.

What to do if the family's future combat power is not enough, find a new husband and continue to have children.

White Beard, Kaido's cadres are recruited from all over the world, but Charlotte Lingling is very special. She looks for husbands of different races from all over the world, then gives birth to children, and trains them to be cadres.

Or use them to marry and train their other half.

But two years ago, after giving birth to her last daughter, she has not been pregnant for a long time.

The battle with Shanks was not pleasant. She herself did not lose, but at the cadre level, everyone except Katakuri was suppressed. She was not angry because she didn't care, but was occupied by another happy event.

Not long ago, someone proposed to her daughter.

This kind of thing is not uncommon, and there are many people who want to join the BIG MOM Pirates. What makes BIG MOM happy is the identity of the other party.

Elbaf, the son of the king of the Giant Kingdom - Loki.

Due to destroying a village in the Kingdom of Elbaf when she was young, and causing the giant hero Yoruru to die from injuries, Charlotte Lingling is an existence that the giants all over the world hate.

Now the opportunity has come, as long as she marries Loki, her daughter will become Elbaf's princess, and the past grievances will have a chance to resolve, so she doesn't take the temporary failure to heart.

Elbaf's strength is known as the world's most powerful country. If this giant army joins her, then the world pattern will inevitably change again.

Chapter 758 The father is kind and bitter

"Have all the invited people responded?"

"Replied, they all said they would come to the engagement ceremony on time, but the Hundred Beasts Pirates haven't given a reply yet."

"They will come, by the way, have I made my request clear?"

"It shows that we specially invited the Zeraora couple to participate in this engagement ceremony."

"Well~ well~ that's good, it's a pity, you could have had a few more brothers and sisters."

When it comes to Zeraola, Charlotte Lingling seems to miss her a little bit. If it wasn't for the special status of the other party, she would definitely have robbed her at that time. Judging from the strength that Zeraola has shown in these years.

If he chose to combine with himself back then, the child he gave birth to should not be weaker than Katakuri.

As for the current invitation, it doesn't have any special meaning. Charlotte Lingling's personality is actually very changeable, sometimes brutal, sometimes innocent like a child. In her opinion, Zeraora can be regarded as a "friend".

And they are fur tribes. There are not many fur tribes in Totland, and she hopes that more fur tribes will settle here.

"It's a pity that Kaido doesn't agree with the marriage at all, otherwise, we would have been the strongest pirate group long ago."

Thinking of this, Charlotte Lingling was suddenly a little angry. In addition to finding a husband by herself, Charlotte Lingling would also arrange marriages for her children, and their husbands or wives had their own status.

Yamato's rise was seen by Charlotte Lingling. Of course, she hoped that one of her sons could marry Kaido's daughter, but that time when she just started the topic, Kaido ridiculed her.

She also has her own ideas for specially inviting Beasts. On the one hand, it is to show her own energy, and the rank and status of the guests can also reflect the status of the host.

As a pirate, it is impossible for her to invite the navy to attend the ceremony. The invitations are all people from the underground world, and in today's underground world, beasts are the biggest card.

On the other hand, it seems that he wants to tell this little brother that if you don't get married, I can find a better partner.

"Keep things ready in case something unexpected happens."

Charlotte Lingling didn't say anything else, just glanced at Katakuri and Perospero, even they felt a chill.

"Don't worry, Mom, we'll get it right."

No matter which sea emperor they are, they value their own face very much. For them, losing face is a big deal.

Cake Island has begun to set up the venue, and the cadres of the pirate group have also gone to various places to collect the ingredients for this year.

Although she is keen on tea parties, Charlotte Lingling is not crazy enough to hold tea parties every day. She also knows that the total number of ingredients that can be handed over to the islands in the territory is limited, so the number of events held each year is also limited.

If she held unlimited events, the territory would probably be empty by now, but even so, there are still islands that are often punished for not being able to pay the ingredients.

When Charlotte Lingling was busy holding the engagement ceremony, Beast also received the invitation.

"Hmm, marrying a giant family? That old woman really did something amazing."

Looking at the content on the letter paper, Kaido didn't know what he was thinking, then got up and came to the empty island above, and found Sauro who was farming. There is a ready-made giant family here, and he should know something special.

"Elbaf and BIG MOM??"

Hearing this information, Sauro also showed disbelief. There is more than one giant kingdom in the sea, but among these giant kingdoms, Elbaf is undoubtedly the strongest, and other giant kingdoms will follow Elbaf's advice. Take action accordingly.

Yoruru's death is a thorn in the heart of the giants. Charlotte Lingling is the public enemy of the giants, and Sauro is no exception. novelUsb.Com

"Ah, this is an invitation letter. Does this Loki have a high status in Elbaf?"

Although a prince is a prince, he does not necessarily have a high position and authority. A prince without real power may live worse than ordinary nobles.

"Prince Loki. That's not surprising. The king dotes on him very much, but he didn't expect to dote on him to this extent."

"It seems that this matter is true, hehehehe, this sea is really getting more and more interesting."

He came here just to make sure whether Charlotte Lingling was talking nonsense. As for other aspects, he would not refer to Sauro's opinion.

"Zeraora and Setsuna? Does she want them to go by name?"

"The old woman should have a lot of thoughts about the fur tribe, but it's nothing. At this time, she will still speak morally. To be precise, at least she will speak morally to me."

Saulo has no right to make suggestions, but Arceus has, especially his "eldest son" among the invited guests.

Kaido has never fully believed in Charlotte Lingling. Even if she is a marriage partner, Charlotte Lingling may not be a killer. Germa 66 in the original book is an example.

But all beasts are different. The morality among pirates must be based on strength. Even if Charlotte Lingling has thoughts about the fur tribe, she will not use this method at this time, let alone the people in her territory. There are only a small number of fur tribes.

In this respect, she is more like a collector. She doesn't care about the quantity, as long as she has it.

"You mean, just let them go normally?"

"Of course, although there is a little friction, it hasn't reached the point of turning faces. As for the leader of the team, I plan to let Yamato go."

It is impossible for him to attend Charlotte Lingling's activities now. This is not the time when his reputation was not prominent more than ten years ago. The meeting of the two emperors of the sea will probably explode the nerves of the navy again.

Just listening to Kaido's arrangement, Arceus always felt that something was wrong. Yamato's status was not a problem. Although he took it too seriously, as Kaido's big sister on the ship, it was reasonable to give some face.

But let Yamato attend this kind of event.

"Hey, don't you want to make Yamato mess up and mess up this matter?"

"How is it possible, do you think Yamato has this ability?"

“ ”

Although it is cruel, it is a fact that it is better to leave the reckless things to Yamato, unless it is to turn the table head-on, otherwise it is really not suitable for Yamato.

"Let her go to see the world. This event, the old fritters in the underground world will also be present. Just let her know how she will take over the pirate group in the future."

In the past, Kaido might have had the idea of making trouble. He didn't have it himself, so why would the other party have it, but now it's different. In Kaido's view, those giants are much weaker than the giant monsters.

[Chapter 760: A brand new term, the idea of BIG MOM](#)

Arceus said so, but as a fanatic, Misu made some brain supplements and supplements by himself, and finally derived a different conclusion

In Misu's eyes, this is Shenying's low-key excuse, so she marked all the quotations as Lu Xun.

This word is completely transliterated in this world, so in the Arceus religion, Lu Xun = Anonymous, has become a professional religious term.

Of course, except for the sentence just now, which was really said by Lu Xun.

Originally, it was said that this room is too dark, and everyone must not allow a skylight to be opened here. But if you advocate removing the roof, they will come to mediate and are willing to open the skylight.

Zeraora and the Setsuna family assembled a large number of people, and finally, under the leadership of Yamato, they went to the territory of BIG MOM like the mission.

"Wow, what a big boat."

In the waters of Totland, on the Sea of Juice, Yamato's Pokémon and the ships of the Giants met by coincidence. Compared with the exquisiteness of the Pokémon, the ships of the Giants look very rough, and they are several Viking pirates. long boats.

Although it is far from the level of technology of the Yamato Pokémon, it is big enough, which is also the consistent style of the giants. At this time, there is no storm on the sea, and the Pokémon relies on the mechanical power provided by Prom. .

And those giants are even simpler, paddling manually, the huge paddle fan is much larger than ordinary people, and every time it is swung, it can drive a lot of wind and waves.

There are some muscular giants on it, and occasionally one or two female giants can be seen, and on the cabin, the prepared gifts are already piled up.

"Remember what I said earlier?"

"Don't make trouble, don't run around, or you won't take us out again."

"But those guys are really big, can you lean over and play with them?"

"It's not like you haven't seen giants before, doesn't Sauro like playing with you?"

"Sauro is Sauro, these big guys look different."

In the past, it was unreasonable to see giants here, but this time it was different. After all, they were the protagonists of the engagement. At this time, two ships decorated with desserts came.

Because of the different status of the Beasts and the Giants, the BIG MOM Pirates specially arranged people to meet them, also to prevent unnecessary conflicts between them.

"My lord, long time no see."

"Pokemus? You seem to be doing well, do you seem to be getting fat?"

"It is inevitable to live here, please come with me, mom is ready."

Because the fur tribe was specially invited, Charlotte Lingling asked Pokmus, who had already joined her, to come here to welcome them.

Logically speaking, Yamato is the mastermind here, but due to his status as a fur clan, Pokmus should take Setsuna as the mastermind, but Yamato didn't care about this kind of thing.

After landing on the island, Mowna and Wolf, who came to Cake Island for the first time, were attracted by the wonderful sights on the island. Although Pokémon are also magical creatures, these running and moving foods are composed of biscuits and cakes. The house made for the subject still aroused their curiosity.

The Fur tribe used to be very salty, which has something to do with Zowu's living environment. The land limitation made it impossible for them to grow a large number of crops, and their supplies basically depended on elephant owners. Sea fish and sea salt were the easiest things for them to get, and sugar was rare. rarity.

Miaona and Wolf were born on Ghost Island, and their rich living environment also changed their tastes.

"Uncle Pokmus, is the house here edible?"

"These are not allowed. Only those houses that are on the verge of expiration can be eaten. There will be a professional demolition team to deal with this matter. If you want, I can show you."

"Forget it, Pokmus, take us to the venue first, isn't there a business this time?"

"Okay, my lord, mom must have been waiting for a long time."

Su Mo interrupted Pokermousse's words. Having been here a few times, she knew that the expiry date of Cake Island does not refer to the shelf life, but the tasting period. The food here will be eaten within the most delicious time limit. Time is a defective product.

Led by Pork Mousse, they soon arrived at the venue. This ceremony seemed to be much more serious than previous tea parties. At least for a moment, they didn't see Smoothie squeezing juice with weird things.

Probably to show her friendliness, Charlotte Lingling put away a lot of things in front of the giants.

"Teraora, Setsuna, Yamato, you guys are here too, Kaido is doing a good job this time, huh~ huh~"

Seeing the arrival of several people, Charlotte Lingling stood up and took them in. Before that, only the kings of the underground world, such as Stuttgart, enjoyed this treatment.

In front of the guests, Charlotte Lingling didn't mention anything that might cause unpleasantness. She is still rational at the moment.

"The gift that my lord father asked us to bring you is not something valuable, it's just special cream and honey."

Yamato handed several jars to Charlotte Lingling. In her hands, those huge jars were as small as small pots of tea. Charlotte Lingling was keen on the mystery of opening gift boxes, but for this kind of goal, and it's something she likes, and she doesn't mind.

"Well~ Well~ It's really a good gift. With these, you can definitely make the most delicious wedding cake. You should know these people. They all have a lot of business with Kaido. Everyone sit down Bar."

Except for Umit, several other people took the initiative to show their favor, even Umit put on a smiley face. Back then, Beast relied on Laplace to build its own transport team, which made Umit a lot less. There is less business, but he can't afford to offend beasts.

"Is this your child? It's really cute, Flampe, Angre, don't you want to make friends? Go and meet new friends now."

Looking at Meowna and Worf, Charlotte Lingling seems to have a new idea. If Zeraora can't do it, his children seem to be good. Seeing how young they are, they should have a good chance, so they immediately called two Children of about the same age.

Charlotte Lingling will periodically dote on children under the age of 10. These smaller children are always with them, and at the same time, they use their own power to instill in them a thinking that they must listen to their own words.

So Flampe and Angre were very obedient, and after the guests arrived, the photos of the nuns were also invited out, and Perospero also came here with the last key person.

"Prince Albaf, Your Highness Loki is here!"
