

Armipotent 1301

Chapter 1301 Dragon Is Superior

That was wild came from Irnus who came to take over Earth. That made him angry because he was in the position that was being forced to fight to protect his home. He never wanted this, he fought for his freedom, not willing to live under someone else's rule. He was not going to repeat what happened before the Game where he could not do anything when his lovers were taken. That was what pushed him to establish this Empire, that was the reason he became the Emperor, and that was why he would not bow down even toward a big power such as the Divine Church and the Federation of Allurion.

Tang Shaoyang did not know what got into him, but he was extremely angry. He roared which caused a huge ripple in the fire, even the domain itself was shaken by the roar. The dark poison spread out through his tail, the dark lightning spread through his feet, the dark flame burst out of his wings, and the space inside the domain became unstable as hundreds of void cracks appeared.

Within just ten seconds, Tang Shaoyang took over Irnus' God Domain through his fury. The True Flame or the sea of fire was engulfed in the Wicked Dragon's element, getting swallowed. Soon, the sea of golden flame was nowhere to be seen, being replaced by the dark flame. The dark poison spread out in the air, and the dark lightning raged above the cloud of dark poison.

Irnus was weakened because of the poison, and now his God Domain was crumbled. There was nothing he could do to save his domain. He could not believe what happened. He had realized that Tang Shaoyang's True Dragon form was stronger in the frontal confrontation. Irnus realized that the moment Tang Shaoyang transformed into the Wicked Dragon. That was why he tried to wear out Tang Shaoyang instead of doing a frontal confrontation. He believed it would take a toll to maintain that form, and he just needed to wait until his friends finished their fight to handle the Dragon.

Irnus had heard of the Wicked Dragon, the famed legend in the Dragon Realm, and one of the guardians of the Dragon Realm, The Wicked Dragon. It was hard to believe that he would see it here, even though the Wicked Dragon in front of him was not in complete form yet. And yet he was still hopeless even though it was not in the full form.

"Hah..." Irnus let out a chuckle as he realized something, "We have created the monster." He could not help thinking so. This happened because they tried to invade The Earth, and that pushed Tang Shaoyang's growth. This would not have happened if they had not pushed Tang Shaoyang, and the man had been hiding, pretending to be dead, and appeared with the power that rivaled the God Rank.

"You are not supposed to have that power! That's not the power a lower world should possess. You are breaking the balance!" What Irnus received after saying that was a blast of black fire. He tried to block the fire, and he was sent down to the ground. The sea of fire disappeared, and they were in the neutral dimension because Tang Shaoyang neutralized his domain. They would return only if Irnus canceled his God Domain. If the God Domain was still active, they would remain in this neutral dimension.

Irnus crashed down to the ground. As he was about to get back on his feet, Tang Shaoyang landed right above him. He pinned Irnus down with his feet as the dark lightning burst out of his feet, rendering Irnus powerless to struggle.

The poison had got into Irnus' system, and he needed an antidote for that, or else he was doomed. But then his eyes widened as the four dragon heads came down, and got closer to his face. He was being stared at by the four heads, and he felt it, the fear, something he had forgotten for a long time. This was the first time he felt this fear after he reached the God Rank. The crimson eyes that contained uncontrollable fury were obviously reflected on the eyes.

"I am breaking the balance!?" The voice buzzed in his head, "I am breaking the balance by trying to protect my home. That makes sense, yah? What about the God Rank like you who came to the world that has not even entered the third phase yet? Are you here to keep the balance? God Rank who comes to the lower world? Are you really going to talk about balance right now? What are you even talking about? Balance for what?"

Tang Shaoyang was getting angrier and angrier the more he spoke. He put more pressure on Irnus, and the ground split up as he pushed down the powerless Irnus. The dark poison was more fatal than he thought to put down a God Rank into this state along with the dark lightning that weakened Irnus' flame body.

Irnus' fire body had lost its color. It was no longer golden but into mud color. The fire had gotten much weaker, losing its heat. And yet, Irnus was doing his best to maintain his form.

Tang Shaoyang was getting angrier the more he listened to Irnus with all that nonsense. They attacked to take what he had, and they started speaking balance when they came to the lower world. He risked his life, spending his time away from the people close to him. He did not even have the time to think of a name for his first daughter yet, and all of this was because of the nonsense from Nirvana and The Federation of Allurion who desired the resources on Earth.

"I don't really want to kill you. I want to torture you forever, all of you. I want to destroy your federation, the God Alliance you are in, and I want you to witness all of this," The anger was reflected on the four heads.

[Calm down! Get to your priority, Tang Shaoyang! He's trying to buy time. We need to kill him right now. He might call for more reinforcements, and if they can do that. We have to kill all the God Ranks on Earth right now and be prepared for the next attack!] Zara was concerned that Tang Shaoyang might lose to his anger.

"I..." Tang Shaoyang snapped out of his anger, and this was the first time that he lost control over himself. He let the anger take over him. If not for Zara, he might really not kill Irnus, but he must kill Irnus. That was the only way for him to get stronger, killing God Rank, and then he would continue fighting the others. Leveling up also helped him to recover the losing Heavenly Energy for maintaining all the summoned spirits.

Tang Shaoyang pushed his claw into Irnus' mouth forcefully, and then he injected the dark poison into Irnus. He must kill Irnus, and he wanted to kill in the most painful way. He nonstop, injecting the poison, and Irnus started to shake violently. The mud-colored fire turned black before the fire disappeared, and the God Domain was canceled.

Irnus returned to his original beastmen form. He was the lion beastmen, the same as Kairu, but also different. The fur and the eyes turned black because of the poison. In fact, all parts of Irnus had become black because of the poison. The mane on the neck started to wither. The Second God Rank just died, and Tang Shaoyang returned to the battlefield.

[You have killed a God Rank, Irnus]

[You have leveled up!]

[You have reached level 15728!]

The first thing he did was to store the body in his inventory, the most precious material for summoning. Then he used his Spirit Eyes to judge the situation. Everyone had spread out that he only saw two fights through his Spirit Eyes. Then he started to allocate all the Attribute Points he had. Then he quickly noticed something weird with the situation.

It was supposed to be five against five, his five God Rank spirits against five God Ranks from the church and federation. However, the two fights that were in his sight, Doombringer - The Calamity Behemoth, was fighting against two God Ranks. The Lightning God Rank and the Ice God Ranks. From what he remembered, there was no Ice God Rank.

The other fight was Avyn who also battled against two God Ranks, The Wind God Rank from the federation and another Flame God Rank. Avyn was forced to fight in her dragon form against the two God Ranks, and yet the two God Ranks were still having a hard time against her. However, Doombringer was in the worst situation where he suffered big wounds on his body.

Meanwhile, Afi - The Primordial Urosa, Karoen - The Void Knight, and Vindir - The Death King was nowhere in sight. It was either they had entered the God Domain, or they fought far from this area.

Tang Shaoyang was about to help Doombringer who had a hard time but he sensed a presence above him. He just sensed it and looked up. A figure in red armor, floating above his head. He could see from the aura that the man was a God Rank as well. However, this man was not part of the federation and church for sure.

There was no hesitation as he swept the figure above him with his tail, and the man did not expect his attack for some reason as he hit the man, sending him down to the ground. A fierce aura burst out from the area where the man was crashed into.

"As expected of a barbarian from a lower world. You just attack without saying anything," The figure in flame came out of the dust cloud.

Chapter 1302 Choices

It was the same flame transformation which he did not know what it was about. All the God Ranks transformed their bodies into their perspective elements. And he was fighting against The Flame God Rank again, 'Is that something you get when you reach God Rank?' He asked Zara. Zara was now a God Rank, so he expected for her to know something about this elemental body. Knowing what it did might help him to fight the God Rank.

[I also don't know. I don't get any skills even though I am at the same level as a God Rank. I think it's different for a spirit.] Zara did not know anything about the elemental body. And she did not even know about the God Domain.

"Barbarian oh barbarian. Can you respond when someone is speaking to you? Are you deaf or a mute?" The unknown Flame God Rank still tried to make a conversation with Tang Shaoyang for some reason, and Tang Shaoyang did not want to humor the man.

"You came out of the God Domain alone.... Did you kill Irnus from the Allurion Alliance?" Not getting the answer, the Flame God Rank looked around, trying to find Irnus who was supposed to fight Tang Shaoyang. At least, he was informed that the main target was fighting in a God Domain, and that was why he had been waiting here, waiting for Tang Shaoyang. He just did not expect that Tang Shaoyang would return while Irnus was nowhere to be seen. He opened the void crack on his back and also the space behind The Flame God Rank. One of his tails entered the voice crack, grabbing the Flame God Rank who was caught off guard. The Flame God Rank was slammed to the ground with his head first, not just once, but dozens of times. He then brought the Flame God Rank closer to his head and spat the dark poison on the Flame God Rank. It would be foolish of him to not use Dark Poison after knowing how potent his poison was.

The Flame God Rank screamed in agony as the flame pillar burst out of his body. Tang Shaoyang released the Flame God Rank from his tail because the flame was actually hurting his tail. That explained that the man in front of him might be stronger than Irnus, at least, that pure crimson flame was stronger than Irnus' golden flame.

The Flame God Rank slowly got back on his feet, coughing up as the poison got into his system. He realized he had been poisoned and immediately created a distance. Yet, it was another victim who underestimated Tang Shaoyang just because he was one lower rank.

The unknown Flame God Rank took out a vial with pristine golden liquid in it. He was about to chug down the liquid, but Tang Shaoyang would not allow the man to drink the antidote. Dozens of void cracks appeared, surrounding the Flame God Rank. His three tails came out from the three different cracks. The fastest tail smashed The Flame God Rank, destroying the vial and smashing the hand. Then his second tail grabbed his right ankle while the third tail got the left hand. His tails coiled around the ankle and the left hand before pulling them.

"ARRRGGGHHHH!"

Tang Shaoyang forcefully pulled the man's limbs off his body. The right foot and the left arm snapped as blood spurted out. However, the Flame God Rank quickly regenerated his missing limbs. He recovered within five seconds. He knew that he could not stay still or else Tang Shaoyang would rip him apart. His figure disappeared from the void crack encirclement, a Blink.

The Flame God Rank tried to escape, trying to make his way toward where Doombringer was. He tried to regroup with his friends for help, but he could not escape from Tang Shaoyang's Spirit Eyes.

After learning the Void Elemental and Master of Void, Tang Shaoyang was brave enough to travel through the void. He formed a giant crack at his size and moved right above the Flame God Rank. His descending speed from the sky caught The Flame God Rank in surprise. He slammed the Flame God Rank to the ground, pinning the man with his paw.

The Dark Poison had completely affected not just The Flame God Rank's body but also his energy. The crimson flame turned murky flame, just like Irnus before dying. They showed similar symptoms even though this one looked stronger than Irnus. It showed how potent his Dark Poison was, to take effect this fast, giving them a little chance to recover.

"Speak! Who are you? Where are you from? The federation or church?" Tang Shaoyang's four dragon heads came closer, observing the dying God Rank.

Ptui!

The Flame God Rank spat onto one of the heads, and his spit was fire instead of liquid. The fire was the size of an adult's thumb, and the spit hit the chin that did nothing, "Federation or Church? Buahahaha... You have angered someone you should not have angered. You, your people, and your empire will face destruction. It's a pity that I will not be able to witness you get destroyed!"

"A pitiful performance." Tang Shaoyang lost interest in interrogating The Flame God Rank. Not because he did not want to, but because it would take time to crack someone like this one. From the tone, expressions, and also the unyielding spirit, it was not going to be easy to make the Flame God Rank speak. Not when he had a limited time like now.

"Pitiful performance? Taste this pitiful performance, You Barbarian!" The murky flame blazed, it got brighter and brighter. He was about to blow himself, trying to take Tang Shaoyang with him.

Tang Shaoyang sensed the unstable and growing energy, and he acted faster before the Flame God Rank blew himself up. The youngest head spits out Void Energy, creating a black hole right at the Flame God Rank's head. The black hole twisted the head, crushing the firehead into dust, and the murky fire disappeared as the explosion was canceled.

[You have killed a God Rank, ???]

[You have leveled up!]

[You have reached Level 16974!]

He got less and less level the more God Rank he killed. The first kill of the God Rank gave him a lot of levels, almost doubling the second kill, and double the level for the third kill. It was normal because he was so high up there. He was not surprised if he got less than a thousand levels for the fourth God Rank kill.

His attention immediately shifted toward Doombringer after killing the unknown Flame God Rank. He got no information about where he came from. From the way the man spoke, they were not from the church or the federation. It meant another faction was involved in this fight, and the most suspicious one was the Giteron Dynasty who also tried to take over the Tang Empire.

Tang Shaoyang focused his Spirit Eyes toward where Doombringer was, but then a roar traveled to his ear. It was Doombringer's roar. The Calamity Behemoth was on the ground, his four limbs were pierced by the Ice Blades. A net made of golden lightning kept The Calamity Behemoth on the ground.

The two God Ranks floated above the struggling Doombringer. One of the strongest spirits was down, and he was surprised that it was Doombringer who fell first. From the other spirits' reaction, he thought Doombringer might be the strongest spirit, even compared to Avyn. It was a surprise that the behemoth was the first spirit to be taken down.

The Lightning God Rank held a spear in his hand, and the Ice God Rank had a sword. Above them, more Ice Blades formed. The two God Ranks were about to kill Doombringer, and Tang Shaoyang had two choices here. He had the time to save The Calamity Behemoth, but he also had a chance to kill two God Ranks at the same time while the two focused on Doombringer. This was the golden chance that might not come again later.

It was quite a difficult choice for Tang Shaoyang to make in a split second. If he helped Doombringer, he might gain the Calamity Behemoth. That might help him in the future,

Doombringer might listen to his order. However, it was not a certainty, not a hundred percent that Doombringer would listen to him. But the chance of him killing the two God Ranks was quite high, higher than the chance that Doombringer would be obedient in the future. It was hard to make a prideful being like Doombringer listen to his order, after all.

Tang Shaoyang made the obvious choice, killing the two God Ranks. The God Ranks launched their assault. The Lightning God Rank threw his lightning spear toward Doombringer's head while the giant ice blades descended toward the helpless Doombringer. At the same time, a massive void crack formed behind the two God Ranks. Tang Shaoyang appeared right behind, and at that moment, Doombringer stared at Tang Shaoyang with resentment and anger. The Archaic Spirit realized that Tang Shaoyang could save him, but his Master chose to let him die and killed the two God Ranks.

Chapter 1303 Reinforcement

Tang Shaoyang ignored the look as he focused on the two God Rank. He released the Dark Poison from his mouth and also his tail, forming a cloud of dark poison, and put the Lightning God Rank within the dark poison. Then he tried something new with his second target, The Nine Heavenly Gate. He wanted to try the Nine Heavenly Gate with his current form.

Ninth Heavenly Gate: The Heavenly Beast - Heavenly Azure Dragon

The fourth Heavenly Gate: The Heavenly Force - Heavenly Crushing Strike.

The two God Ranks could not react in time to the surprise attack. They were not expecting that someone would sneak behind them. The Ice God Rank crushed down to the ground, creating a cloud of dust. He did not stop there as he shot the Dark Flame and The Dark Lightning at where the Lightning God Rank crushed. The dark storm formed, sweeping the dust while the Lightning God Rank fell from the dark poison cloud, free-falling as the golden lightning now turned dark.

[You have killed God Rank, ???]

[You have leveled up!]

[You have reached level 18097]

There was only one notification, meaning he only killed one of them. He remained cautious, looking down at where the two God Ranks fell, being covered with his dark flame and also the dark lightning. Soon, the storm subsided, revealing two figures, lying down powerlessly on the ground. The Lightning God Rank still maintained his elemental body while the other one was charred, but it was obviously a human. That meant the Ice God Rank was either from the Divine Church or The Giteron Dynasty. Since The Federation of Allurion was the faction of the beastmen and the elves.

The Lightning God Rank coughed weakly, looking up at the sky, trying to find who attacked him from the back, "Wh— Who... Are— you?" He managed to say it out despite the struggle. He could feel the frightening aura from the creature, and he knew that the four-headed dragon was not part of the Tang Shaoyang's spirit.

Tang Shaoyang ignored the question, looking toward the direction where The Calamity Behemoth died. The body was not there anymore, meaning Doombringer had returned to his Spirit World. Sure enough, he heard a growl in his head, a furious growl.

[Why!? Why didn't you save me? You can save but you choose to kill them instead of saving me. Why?]

"Isn't the answer obvious? If you want to look for someone to blame, then blame yourself. This will never happen if you listen to my plan. You don't have to fight two God Ranks at once if you listen to me. If we killed one of them earlier, we might already won this battle. You will not lose if you listen to me. Now they have more reinforcements, and of course, I will bait you to kill two God Ranks. You are not dead, you are a spirit!" Tang Shaoyang answered in one go, and he added at the end, "I will do the same even if we go back in time."

If it was other spirits, Tang Shaoyang might make a different choice. If it was Avyn who was cornered, he would save Avyn. Avyn would cooperate with him and fight side by side with him. He believed that Doombringer would not cooperate with him even if he saved him.

Tang Shaoyang immediately cut off the communication with Doombringer as he came down. Once the Spirit died, he could not summon them again until twenty-four hours later. Not only that, the spirit that died in the fight would get weakened for three days as well. He could no longer rely on The Calamity Behemoth for the incoming fight.

That was why Doombringer was upset that Tang Shaoyang did not save him. The Calamity Behemoth did not like getting weakened like now, and he could no longer join the fight for another day.

The Lightning God Rank was struggling, to maintain his elemental body. Tang Shaoyang took the Ice God Rank's body, storing the body in his inventory.

He did not extend the conversation with the dying God Rank. The timing was too perfect for him to launch another sneak attack on the other God Ranks since The Lightning God Rank did not expect Tang Shaoyang to come out of God Domain and kill his friend. The other God Ranks should not notice him as well.

Swoosh!

His tail moved toward the Lightning God Rank's head, crushing the head.

[You have killed a God Rank, ???]

[You have leveled up!]

[You have reached level 1892!]

"Less than one thousand levels...." Tang Shaoyang muttered in a low voice. He did not know if there was a cap for the level. He was happy with more attributes as well and it kept increasing his attributes to a higher God Rank attribute since his skills boosted his attribute by percentage.

"Three God Rank's bodies," He took the Lightning God Rank's body, and with that, he had three sacrifices. He could not wait to use those bodies as a sacrifice, curious what he would summon with the God Rank bodies.

The nearest battle was Avyn against the two God Ranks. The Wind God Rank and The Flame God Rank fought at the same level as Avyn who was in her Dragon Form. He spied on them from a distance, ensuring that they did not sense his presence. They were too focused on the fight and did not notice Tang Shaoyang.

Tang Shaoyang had prepared his plan, forming a void crack around him while trying to open another void crack at the other side. The timing, he needed the two God Ranks to launch a big attack on Avyn so they could not react even if they noticed him.

He found the timing as the Two God Ranks combined their attacks on Avyn. He was about to open the void crack at the other side, but then the sky split again. It was the same phenomenon when the seven God Ranks came to Earth. The blinding light burst out of the rupture as a group came out of the rupture.

Tang Shaoyang looked up, canceling his void crack. A dragon came out with someone on the top, and the three figures next to the dragon. He squinted his eyes as the three figures were awfully familiar. It did not take a long time for him to figure out the three familiar figures. The first three God Ranks from Nirvana came down to the Dimensional Tower to hunt him down; Windra, Gungnir, and Lasius.

Lasius met with Tang Shaoyang's eyes, and he immediately pulled out his bow, aiming at the four-headed dragon. Four arrows were shot toward Tang Shaoyang as thunder from Gungnir followed the arrows.

Tang Shaoyang swept his tail against the arrow and the golden thunder, sweeping them away easily. His eyes were focused on the person riding on the dragon, the white dragon. The Dragon was also a God Rank, making it five God Ranks. The figure on top of the dragon was wearing white armor, a full set from the helmet down to the boot. He tried to use Spirit Eyes, but he could not see through the helmet.

"He is really alive!!!" Gungnir roared in fury, could not believe to see Tang Shaoyang was alive. He was the last person who stayed in the Dimensional Tower after Windra and Lasius tanked The Divine Lightning for him. He witnessed how Tang Shaoyang withered before his eyes, so he could not believe that Tang Shaoyang was alive.

Nirvana received a report from their people that Tang Shaoyang was still alive. That was why they sent more God Ranks to ensure that Tang Shaoyang was killed. Nirvana sent one group that was familiar with Tang Shaoyang with another additional member, the dragon, and the white-armored God Rank.

Tang Shaoyang opened the void crack, and he moved toward where Avyn was. He was not that arrogant to think of fighting five God Ranks by himself. He appeared above the two God Ranks and used the Heavenly Shattering Palm combined with the Heavenly White Tiger.

The two God Ranks subconsciously turned around because they sensed a fierce aura. They were greeted by the golden palm with the image of a white tiger. Avyn recognized Tang Shaoyang by his aura, so she took the moment when the two got distracted. The frost aura swept the two God Ranks, freezing momentarily. The two God Ranks broke free three seconds later, but it was too late to dodge the golden palm.

The golden palm crushed the two God Ranks to the ground, and Avyn dove down toward the two. The whole area froze immediately as the temperature dropped down significantly. Soon Tang Shaoyang heard two notifications in his head.

[You have killed a God Rank, ???]

[You have leveled up!]

[You have reached level 1978!]

[You have killed a God Rank, ???]

[You have leveled up!]

[You have reached level 2021!]

Tang Shaoyang came down next to Avyn, and she handed him two dead bodies. She gave a second look at Tang Shaoyang and said, "I thought it was supposed to be a three-headed Dragon. Why do you have four heads?"

Tang Shaoyang pointed at the new group in the sky. He would like to answer her, but it was not the time to get distracted.

Avyn looked up at the sky, "Aren't they too shameless? How many God Ranks they will send to Earth, the World with no official God Rank? They are really afraid of you...." Her words paused as she locked her gaze on the white dragon. Then her killing intent flared out along with the frost aura, freezing everything around her except Tang Shaoyang before roaring with fury.

"EOLLLLLL!!!!!!!"

Chapter 1304 Old Enemies

That was the first time that Avyn would lose her emotion like this. Her roar filled the air, reaching into the far distance.

Tang Shaoyang looked up, trying to find whose Eol was. She never brought anything up about Eol, but just vengeance who wiped out her world. Avyn was looking at the dragon, but it was unknown whether she hated the dragon or the person who rode the dragon.

"Look who do we have here?" The dragon responded to the scream, focusing his gaze on Avyn, "Do you know me.... Wait...."

Deep inside, Tang Shaoyang felt like they were in trouble. If Avyn recognized the white dragon, then that meant the dragon was from ancient times when Avyn's ancestors fought their invaders. She knew Eol, meaning this Eol might be from that time, an old ancient monster. That was bad news that Nirvana would send someone like Eol to Earth.

"Kankara'Xeo? Are you Kankara'Xeo?" Eol seemed to be surprised to find out what kind of dragon Avyn was, "Kankara'Xeo was supposed to go extinct a long time ago...." Then the white dragon turned toward the four-headed dragon, "The situation is worse than I thought. Not only do they have Kankara'Xeo, but they have a young Wicked Dragon as well."

"He is not the actual Wicked Dragon, but the human who has the dragon bloodline," Gungnir explained from the side. He used Detection on Tang Shaoyang, and the name showed up. He recognized the name that almost killed him and his friend through The Divine Lightning, "He is our target, Tang Shaoyang. Someone with The Spirit Contractor Class and also The Slayer Class."

"What a terrifying combination," The White Dragon turned toward Tang Shaoyang and then glanced at Avyn, "It made sense then. This Kankara'Xeo is a spirit, not a living dragon. Still a terrifying combination." The White Dragon just finished his words as Avyn burst out into the sky, accelerating toward the White Dragon.

"You shall die, Traitor! If not for you, Gishevion would never fall!" Avyn rushed toward the White Dragon, leaving Tang Shaoyang alone below.

The White Dragon flapped his wings, leaving instead of facing Avyn head-on, "Can I trust you to kill that human? Or do you want to take care of this furious dragon?" He was talking to Gungnir, Windra, and Lasius. The three of course chose Tang Shaoyang.

"We will take care of him, and we will make sure that he will die this time!" Just like that, The White Dragon lured Avyn far from Tang Shaoyang. Windra turned into his wind elemental body, Gungnir turned into a lightning elemental body, and Lasius turned into a light elemental body with six pairs of wings. The three took Tang Shaoyang seriously from the start, not playing around like before.

The first one to make a move was Gungnir as he dove into Tang Shaoyang. His figure was like thunder, striking down at Tang Shaoyang's head.

Tang Shaoyang spat out the black hole with his void head. Gungnir seemed to realize how dangerous it was as he stopped midway and avoided the twisted space in his path. While Gungnir stopped his movement, light arrows rained down on Tang Shaoyang. Lasius shot his arrows, and thousands of light arrows fell on Tang Shaoyang.

Seventh Heavenly Gate: The Heavenly Beast - Heavenly Tortoise.

The shell formed above Tang Shaoyang, blocking all the light arrows. The arrows could not pierce the shield as they bounced back. It was followed by the raging tornado. Five tornadoes formed around Tang Shaoyang, surrounding from all sides. However, again, the tornado could not do anything to the shell. Tang Shaoyang was just hiding behind the shell. He did not think of fighting the three God Ranks at once, but delayed the fight. He just hoped Karoen, Afi, and Vandir would finish their fights and help him. He had killed seven God Ranks, but he was not that arrogant to think of fighting the three God Ranks at the same time even though he had Seven Souls.

He wanted to keep the skill secret from Nirvana and the other God Ranks if possible. He was not planning to use the skill in the fight unless it was for the last one or the last two enemies. If he had to use it, he wanted no one to know about the skill.

Gungnir rained down thunder on the tortoiseshell while Lasius formed a massive arrow to break the shell apart, "Come out of your shell, you coward!" Gungnir was frustrated with how strong the shell was.

"Said someone who had his two friends' help against someone who was not even a God Rank. Aren't you ashamed to say that, Gungnir?" Tang Shaoyang just smirked.

Gungnir roared as his lightning shone brighter. The golden lightning took the shape of the eagle and dove into the tortoise shell. The shell broke apart along with the lightning eagle. It was followed by a massive arrow by Lasius.

Tang Shaoyang shot the black hole toward the arrow, destroying the arrow before it could reach him. Then he used Wicked Domain. He fully focused on his dark poison, spreading out the black gas around him. He made sure that the moment they got closer to him, they would breathe the poison. If he was forced to fight, he thought of relying on the poison. If the three God Ranks were affected by the dark poison, it was not impossible for him to win the fight.

However, Tang Shaoyang became his nemesis as Windra countered him. The Wind God Rank landed in front of him and his wind swept away the poison, clearing the dark poison around Tang Shaoyang. It was followed by Gungnir, landing an ax kick right on his middle-head.

Bang!

Thunder followed the kick, causing an explosion. His head was buzzing, not just the head in the middle, but all of them. He subconsciously took three steps back, and it was followed by a strong gust of wind, throwing him into the air. His massive body was sent to the air by Windra, and Lasius released his light arrow.

Tang Shaoyang flapped his wing, trying to push himself up further to dodge the light arrow. He dodged two out of three arrows. The third arrow hit his back, sending his massive body down to the ground once more.

It was followed by Gungnir, raining Tang Shaoyang's massive body with the thunderbolt. Tang Shaoyang let out a roar as he formed the second Heavenly Shell. He got back on his feet, and Gungnir formed another lightning eagle. But this time, Tang Shaoyang decided to fight out instead of hiding behind his shell. He formed a massive void crack that connected to the one behind Lasius. He dodged the lightning eagle at the last moment and used Heavenly Crushing Strike.

The three did not expect Tang Shaoyang would use the void to teleport behind Lasius. The three were caught off guard, and Lasius received a full force of Heavenly Crushing Strike. The archer's body rocketed to the ground.

Windra moved toward where Lasius crashed down while Gungnir was chasing after Tang Shaoyang. They did not communicate, but one was checking on Lasius while the other was distracting Tang Shaoyang.

Tang Shaoyang completely ignored Gungnir as he breathed the dark poison, sending them down toward where Lasius was. There was only one thing on his mind, it was to kill one of them first while receiving Gungnir's strike.

However, once more, Windra made his poisonous breath useless. He formed a wind sphere, protecting him and Lasius from the poison as the wind blew the poison away. Gungnir's kick hit the shell. The shell just shook, but he was angry that Tang Shaoyang completely ignored him.

"You dare to ignore me!" Gungnir's figure rushed to the sky and a screech resounded. Beyond the dark cloud, the lightning came together. Gungnir transformed into a bird made of lightning. His wing spanned thirty meters along with the long tail. He dove down toward the Tortoise Shell, and it broke apart the shell, hitting Tang Shaoyang's back.

Boom!

The ground shook as Tang Shaoyang crashed to the ground. Gungnir's talons pierced through the dragon scale, digging into the flesh as he pinned down Tang Shaoyang. The golden lightning then burst out of his talons, covering the dragon in the golden lightning.

Despite the pain all over his body, inside and outside, he was focused on Lasius who was heavily injured by his one strike. Lasius was lying down on the ground while Windra tried to feed Lasius a potion. He opened a void crack, a small one, and then he opened another void crack inside the wind sphere. He breathed the dark poison into the void crack, and Gungnir noticed that late.

"NOOOO! Leave, Windra!" Gungnir was angry. He dug out the flesh from Tang Shaoyang's back, and his next target was one of Tang Shaoyang's heads that breathed out the dark poison. His talon held the neck, his sharp talon pierced through the hard shell, and then he twisted it and pulled it out.

ROAR!

Tang Shaoyang roared in pain as it was the worst he ever felt. More than when his wings were torn apart. The dark red blood burst out from the neck, and Gungnir rushed toward where Windra and Lasius were.

Gungnir burned the poison with his lightning, but it was not necessary as a fierce wind burst out, clearing the poison. Windra also turned into a giant bird, similar to Gungnir but his body was made of wind. Windra was safe from the dark poison, but this was not the case for Lasius. Lasius was half-awake from the Heavenly Crushing Strike, and he could not defend himself from the poison. The dark poison easily entered Lasius' system and soon, Lasius lost his elemental body, returning to his human form.

Chapter 1305 Divine Dragon & Dinael

Tang Shaoyang could feel the throbbing pain, the worst he ever felt in his entire life. Far worse compared to when he almost died from a knife back when he was still a thug. Far worse when his wings were torn apart by the Mistovel Family. He looked at his missing head.

The bleeding stopped and he could see the flesh was regenerating in the naked eyes. He was surprised by what happened in the following ten seconds. A new head popped out already, and the pain was gone. However, the pain was still vivid in his head.

[You have killed a God Rank, Lasius!]

[You have leveled up!]

[You have reached Level 20091!]

The notification rang in his head, and he looked at the other side where the two giant birds were, looking at their friend. Lasius' body had turned black because of the poison. His skin turned mushy and dark, his eyes completely dark as blood came out of his nose, ear, and mouth. Gungnir and Windra tried to feed their friend an antidote and healing potion, but it clearly did not work.

Unlike him, the two did not receive a notification that their friend was dead. They were still trying to pour more potions and antidotes to save their friends. It was dirty to use this chance to ambush the two who focused on their dead friend. The old Tang Shaoyang would not do that, but not the current Tang Shaoyang. He did not care if it was dirty or even despicable. He was not in the position to think about when his family would die if he failed to kill these God Ranks.

He formed a small crack, but big enough for his hand to enter the crack. Another crack formed behind Gungnir who was fully focused on his dead friend. Tang Shaoyang was about to grab Gungnir, but Windra noticed his dirty trick. The Wind Phoenix pushed away Gungnir and got himself grabbed by Tang Shaoyang.

Tang Shaoyang grabbed Windra with his two hands and pulled him off through the void. He did not hesitate to use Heavenly Crushing Grasp. The bone-cracking sound resounded as he crushed the frame and also the wing. Even though his body was made of wings, he could feel the frame inside the wind.

Windra coughed up blood, and Tang Shaoyang did not stop there. He would not stop until he heard the notification that he killed Windra. He summoned hundreds of Slayer Blades, the most effective way to kill God Ranks.

Tang Shaoyang released Windra from his grasp as the hundreds of Slayer Blades came after Windra. The helpless Wind God Rank could not do anything as hundreds of Slayer Blades pierced through his body. The notification was instant, right after the twentieth Slayer Blade, the notification rang in Tang Shaoyang's head.

[You have killed a God Rank, Windra!]

[You have leveled up!]

[You have reached level 21157!]

"WINDRA!!!!!" Gungnir let out a roar as the dark cloud gathered in the sky. Soon thunder rained down the earth, splitting the ground. His aura got much stronger than before as he witnessed the death of his two friends.

"I WILL KILL YOU!!! I WILL KILL YOU!!! I WILL KILL YOU!!!!!!!!!"

Gungnir opened his wing and flew above the dark cloud. The lightning raged, forming more thunderbolts that came after Tang Shaoyang. It was then followed by a screech as Gungnir came down from the sky, diving with the raging lightning.

Tang Shaoyang used all his breath, dark flame breath, dark lightning breath, dark poison breath, and the void breath. It formed a weird combination with the void breath at the center, the black hole mixed the three elements into a powerful force.

Gungnir had lost it, and he just went straight into it without thinking. The thought in his head was to kill Tang Shaoyang.

Boom!

They met in the air and formed a massive explosion, and soon the lightning bird fell from the explosion, crashing to the ground. Gungnir, however, quickly got back again, flying to the sky once more. Tang Shaoyang saw hope, he did not really expect that prioritizing killing one of them would give him a chance to win against the three God Ranks. That never crossed his mind as the only thought in his head at that time was to bring one of them down with him. He ended up killing two of them, and soon he would kill three of them.

The thunderbolt assaulted him from the sky. It was hurt, burning his scale but he just received it, focusing on the next clash against Gungnir. From the first clash, Gungnir clearly lost it, and he needed an attack that could finish Gungnir. But his plan was interrupted by Avyn's voice in his head.

[I am sorry...] The apologetic tone from Avyn threw him off, not expecting to hear her voice in his head. He did not expect that Avyn would lose in her fight this fast. If Avyn lost that meant the dragon rider would soon come for him, someone that was stronger than Avyn or maybe stronger than Windra, Lasius, and Gungnir combined.

"Stupid!" The voice echoed in the air, a female voice. Then a shadow of a dragon appeared above Gungnir, and the dragon slapped Gungnir down with his tail, "How can you lose two people this fast? We should let them stall against that Kankara'Xeo, and we kill the target instead, Eol!" The

female voice belonged to the person who rode Eol, "We lost three God Ranks already just to kill one Demi-God Rank. This is ridiculous!"

Gungnir crashed to the ground with a single slap of the tail, and Eol made an appearance. The white dragon appeared more majestic compared to the first time. There was an aura that was different exuded by the white dragon. The one who rode the white dragon also changed, no longer in her white armor as she had transformed into an angel, holding a lance in her right hand, looking down at Tang Shaoyang.

"You should be proud of killing more than three God Ranks already, but this will be your end!" That was a declaration from the angel.

The four heads looked up at the same time, grinning as Tang Shaoyang found it funny, "It's funny that you say the same thing. Someone I know said the same, but he ends up dying." He remembered it was Irnus who said that to him earlier when he fought Irnus in his God Domain. Irnus said he should be proud to force the God Domain and God Ascension.

"You should witness how your dragon pitifully struggles against us, but it does not matter. You will experience it yourself right now," The Angel summoned hundreds of light swords, floating around her. The light swords moved toward Tang Shaoyang like an arrow.

Tang Shaoyang did not sense something special within the light swords, but then Avyn warned him, [Don't try blocking the sword.]

His quick reaction was to open the void crack, sending the swords into the void. He trusted Avyn's blindly, and he countered with the breath combination. The white dragon dove down, avoiding the breath as they landed next to Gungnir who just got back up.

"We have to be careful even though he is just Demi-God Rank. It was not lucky that he killed three of us. You have to be more careful, Dinael." The white dragon reminded the angel, "We don't need to kill him in a hurry, your safety is more important than killing him."

Dinael was unhappy with how Eol approached the fight, but she did not talk back. Eol glanced at the lightning phoenix, "I know you are grieving, losing your two brothers. However, blindly attacking him will not get you anywhere, not even bring you closer to your revenge. We have to work together, and we will give you the killing blow."

The slap on his back awakened Gungnir from going on a rampage blindly. He looked up at the white dragon the Dinael, "I don't care if you get the killing blow. It's not like killing him will give us that many levels." The angel shrugged.

While his enemy made their own, Tang Shaoyang also had his plan. Since Avyn died and was forced to return to the Spirit World. He would not be able to summon her again, and she was in a weak state after the kill. But he thought of something that would help him to fight someone who defeated Avyn. He canceled the integration with Zara and used a Spirit Integration with Avyn. That would allow him to summon Zara out, meaning he could get help from a God Rank. On top of that, he also had mastered Void Energy. There was no need for him to integrate with Zara to use Void. And now it had become two against three, but he did not immediately summon Zara. He wanted to keep her as a surprise.

Gungnir made his move, flying to the sky followed by Dinael. Meanwhile, the white dragon approached from the land.

[Eol is a Divine Dragon, and I will say he is on the same level of strength as the Wicked Dragon.]
Avyn reminded Tang Shaoyang.

There were so many types of Dragons, and he barely remembered any of them except the one that was close to him. There was an option of Dragon King as well in his bloodline upgrade. The screech from the sky snapped him out of his thoughts, but as he looked up, Eol shot a blast of light out of his mouth. Two attacks from two different directions.

He kept his calm and eyed the third enemy, Dinael. The angel seemed to be prepared for something. Tang Shaoyang used [Blink] and appeared above Dinael. He thought he made the unexpected move where he would attack the angel, but he was wrong about it as the angel looked up at him, smiling, "Got you~"

Chapter 1306 The Battle of Dragons - Part 1

Thousands of swords formed around them. The swords were pointing down, and they exuded a weird energy. Each sword was ten meters away from each other. The weird energy was something that Tang Shaoyang never felt before. He did not know what Dinael prepared for him, but he would finish what he intended to. He was about to fire the dark poison toward Dinael, but then as soon as the dark poison came out of his mouth. The dark poison disappeared into nothingness, dispersed.

"Welcome to my Nullifier Field! You can't use any energy in my field," The Angel burst out in speed with her lance. She aimed the lance toward the chest where she thought his heart was.

Tang Shaoyang thought these swords would do something else aside, like a trap with a big destruction power. Nullifying all energies was a surprise, and he did not expect that the angel would choose to do this instead. It meant it was a battle of attributes inside the Nullifier Field, unless it only negated his energy it would be different. But it also affected Dinael who chose a frontal attack.

He slapped the lance away with his tail, and his second tail reached Dinael's ankle. He dove to the ground and slammed Dinael to the ground.

Boom!

The Nullifier Field worked to his advantage instead. If it was a brute fight, the fight would be determined by the attributes. He was confident with his attributes. Especially with all the levels he got, and also Attribute Shift. He shifted his attribute to Agility when he needed speed and reaction. He would shift the attribute to Strength when he needed a power like now.

To his surprise, Nullifier Field followed Dinael. It seems the field used Dinael as the center, and swords that radiated the weird energy followed her down.

"DINAEL!" Eol screamed her name. The fear in his tone was apparent when Dinael was smashed to the ground. The Divine Dragon turned around and rushed over only to see Dinael on the ground, holding onto Tang Shaoyang's tail. Blood could be seen around her lips, but she managed to pierce Tang Shaoyang's tail with the light sword.

"Don't worry. This much is fine, and I got him," Dinael smiled.

Tang Shaoyang at first wondered what she meant when she got him. It was just a minor wound on his tail, but then he felt the effect of the sword. Just like the sword that maintained the Nullifier Field, the light disrupted his Heavenly Energy inside.

Tang Shaoyang raised his tail and was about to smash Dinael once more while getting rid of the light sword. However, Eol was much faster than he thought. Eol crashed his body into Tang Shaoyang, dragging Tang Shaoyang on the ground. However, Tang Shaoyang made sure that he did not let Dinael free from his tail. As Eol dragged him, Dinael was also with him.

"Don't cancel your Nullifier Field, yet!" Eol seemed to realize what Dinael wanted to do and told her not to. The Divine Dragon seemed to know about the Wicked Dragon's dark poison. If the Nullifier Field was off, Tang Shaoyang would not hesitate to engulf three of them in the dark poison.

Even though Tang Shaoyang did not know whether the dark poison would be effective on the Divine Dragon or not, Dinael would not be able to escape from his poison. From the way the Divine Dragon reacted when he slammed Dinael, his target was clear, Dinael. Focus on Dinael, and he might catch Eol off guard and get them both.

Meanwhile, Gungnir could not help the two to take him down with the Nullifier Field. That would cancel Gungnir's elemental body. The Lightning God Rank just observed the situation from above, looking for a chance to strike.

Eol stomped his feet on Tang Shaoyang's belly, stopping the momentum. The Divine Dragon then grabbed his tail which caught Dinael. He forcefully tore apart the middle tail. At the same time, that gave Tang Shaoyang an opening as he grabbed Eol's long tail. He pulled Eol and slammed the Divine Dragon backward.

Boom!

At this point, Tang Shaoyang completely ignored Dinael and focused on Eol. Thanks to Eol who ripped his tail with the light sword, he could muster his Heavenly Energy inside his body once more. He used the Fourth Heavenly Gate: The Heavenly Force - Heavenly Crushing Strike. He struck down at Eol's stomach, and then he followed with Heavenly Shattering Palm.

That swept away the dust and revealed that Eol was fine. There was a light barrier formed between Tang Shaoyang and Eol. The barrier was so strong that it completely blocked Heavenly Crushing Strike and Heavenly Shattering Palm.

"Now, Dinael!" Eol shouted as he lunged over Tang Shaoyang. He grabbed two heads and his feet dug into Tang Shaoyang's flesh, pinning Tang Shaoyang down. At the same time, Dinael turned off the Nullifier Field and formed a hundred Light Swords. Those swords would decide the fight. A hundred light swords pierced Tang Shaoyang, from the tails, wings, necks, and body.

Tang Shaoyang blanked for a moment because his head was muddled the moment those swords pierced him. The swords disturbed his energy circulation inside his body, causing him not to be able to use any skills or even The Nine Heavenly Gates.

Eol opened his mouth as the light energy gathered in his mouth. He aimed the blast at Tang Shaoyang's heart, but Eol noticed something off. Tang Shaoyang was smiling at him, the four heads were making an annoying smile even though this blast was supposed to end Tang Shaoyang's life.

"Watch out, Eol!" Dinael saw what happened. She saw Zara above Eol, casting a massive black hole. The Divine Dragon noticed it late, but the warning helped him. He canceled the Light Blast and dashed forward in the light speed.

Eol returned next to Dinael, but he did not leave unscathed. He missed his wings as blood flowed down to his back.

"Are you okay?" Dinael hopped over and tried to use a heal, but then she realized that her heal did not work, "I can't heal you!!!" She was surprised that he could not heal the wound, and in fact, the wound started to decay instead.

"Death! It was Death Energy!" The wound glowed in light and the Divine Dragon slowed the decaying process, "It's dangerous. We need to kill him quickly. It's now or never! If he survived this battle, he would be the most dangerous threat to Nirvana!"

The Divine Dragon was surprised that Tang Shaoyang still had another Archaic Spirit. It was not just an Archaic Spirit, but a spirit with Death Energy. It was terrifying energy that was similar to Slayer Energy. The sky rumbled as a screech resounded in the sky. Gungnir dove for Tang Shaoyang, straight toward Tang Shaoyang. That was his chance for revenge on his brothers. Tang Shaoyang's energy was disturbed by the light swords, so he would not be able to defend himself against him.

"Stupid Gungnir!" Eol was frustrated with the suicide attack. He might have killed him in that strike, but they were not in that desperate situation where they had to kill Tang Shaoyang with a suicide attack like that. Gungnir might inflict a fatal attack, but he would die to the God Rank Spirit. The Divine Dragon was frustrated because that meant Nirvana would lose another God Ranks. He was sent to minimize the damage because of the unexpected circumstances, but it just got worse.

Zara opened the void crack, but she did not connect the crack to any other cracks. She thought of sending Gungnir into the void.

However, Eol would not just watch Gungnir die like that as the Divine Dragon lunged toward Zara. She noticed and opened more void cracks. She activated the Void Domain and surrounded herself and Tang Shaoyang with gates to the void.

The Divine Dragon tore apart the void cracks with his claw. But Eol was suffering as his claw was bleeding from getting rid of the void crack, "Kill her first, Gungnir! He is powerless without the help of his spirit!" Eol roared after getting rid of all the void cracks. He lost his sharp claw in the process, and Gungnir made a sharp turn toward Zara at the last moment.

Zara was about to make more void cracks, but she felt a sharp pain in her calf. She looked down and a light sword pierced her right calf. She had no choice but to pull the light sword with her hand, but that allowed Gungnir to strike him. The lightning beak pierced through her chest, but then she smiled.

Zara held Gungnir's body and the space around them started to twist. The twisted space ground Gungnir's body just like a blender. Gungnir's body turned into pieces and disappeared.

[You have killed the God Rank, Gungnir!]

[You have leveled up!]

[You have reached Level 22224!]

Tang Shaoyang watched Zara disappear into particles as she killed Gungnir with her.

[I am sorry. I should have killed the dragon.] Her apologetic voice rang in his head afterward. The surprise failed, but she managed to kill one of the God Ranks. He was now left with Dinael and Eol.

Tang Shaoyang was back on his feet, but he failed to pull out the hundred light swords on his body. Those swords remained in his body, disrupting his energy. He had to fight the two God Ranks with brute force which was an impossible feat even for him.

"It's fine. I will easily take care of the dying dragon and the white chicken," As he said that, his mind was racing, thinking of a way to win the fight. The Divine Dragon's hand started to decay as well because of the Death Energy. He got that from getting rid of the void cracks earlier. He was not in a good condition, but he was in a much better position than Tang Shaoyang.

"It's time to end this battle!" The Divine Dragon declared with his Majestic Voice.

Chapter 1307 The Battle of Dragons - Part 2

Tang Shaoyang did not think of pulling the remaining light swords out of his body, locking his gaze with The Divine Dragon. He tried Attribute Shift, a skill that did not really use energy, and it worked. He could still use Attribute Shift. It was a battle of attributes for him.

Tang Shaoyang shifted his Divine Power into Agility, putting everything on Agility, and moved toward Dinael. Killing Dinael would take the light sword off his body, and he tried to surprise Eol with his Agility.

While Dinael and Eol were surprised by Tang Shaoyang's speed despite being restricted, both were calm. At least, Eol was not as panicky as before when Tang Shaoyang came for Dinael. The reason was simple, Tang Shaoyang could not utilize his energy. Without that, Tang Shaoyang would not be able to touch Dinael.

Tang Shaoyang's first hit the barrier. It shook violently, but that was not enough to break the barrier. Dinael was safe and sound inside her barrier. Without being able to utilize Heavenly Energy, it was nearly impossible to break the barrier even though he shifted his attributes to Strength at the last moment. He did give up and kept smashing the barrier with his tails, hands, and even his head. He tried to bite the barrier.

Boom!

Eol came from above and crashed onto Tang Shaoyang's back. He pinned the bigger dragon easily with his Divine Energy. His claw dug into Tang Shaoyang's flesh. Even though he knew that he must kill Tang Shaoyang quickly, deep inside, Eol wanted Tang Shaoyang to suffer first. He wanted Tang Shaoyang to suffer before killing him.

The Divine Dragon followed his desire. He bit into the wing and ripped it apart. Tang Shaoyang struggled even fiercer, putting everything on his Strength. That allowed him to throw the white dragon off his body with a big chunk of his flesh missing. He pounced toward Eol who was still in the air, pushing the white dragon down to the ground before he started to smash The Divine Dragon.

All his brute attacks failed to do anything because of the barrier around Eol. The barrier that survived his Heaven Shattering Palm and Heavenly Crushing Strike. The punch and smash were futile as Eol shot the Light Blast, sending the massive figure into the air.

Eol moved faster as he was already above Tang Shaoyang, prepared with another Light Blast. The blast sent him down to the ground. The Divine Dragon dove down followed the trail of the Light

Blast, and landed above Tang Shaoyang, "Dinael!" He called out, and five light swords formed above them.

Four light swords were just four meters long, but the fifth light sword was twenty meters long. The five swords came down together; the four light swords pinned down the four necks, and the fifth sword pierced through Tang Shaoyang's body, down to the ground. The dark red blood with the golden tint flowed out of his body and neck, but that did not stop Tang Shaoyang. He used his tail, trying to pull out the swords in his body.

Eol caught the three tails, two with his hand, and he caught the third tail with his mouth, tearing the tails apart, all of them. The white dragon did not stop there as he ripped the remaining wings with his hand. The three pairs of wings were gone in five seconds, and Eol stood above Tang Shaoyang.

"This is the consequence if you dare to fight Nirvana!" Eol came closer to one of the four heads and whispered in a deep voice. Then he stomped the head, crushing the head in one stomp.

Tang Shaoyang wriggled, trying to break free. His mind was giddy, and he could not think clearly with all these pains. He ran amok, trying to break free from the light swords which made his condition worse. His wound got bigger the more he struggled.

Dinael was standing above the two dragons, frowning at the sight of the struggling Tang Shaoyang. She was amazed at Tang Shaoyang's tenacity despite the situation. The look in his eyes showed that the man did not give up, the look of someone who would fight till the last moment. There was no fear in those eyes but the strong will to survive. That made her feel bad for all of this, but she knew that they had to kill this man. They had reached the point of no turning back because this man would come for them in the future if they did not kill him right now.

"Just kill him already, Eol! We have to finish the mission and hope Earth has enough resources to replace what we have lost so far," That was the mercy from Dinael, to end the suffering.

"You can't pity your enemy, Dinael. Especially someone like him! He deserves to suffer for what he has done!" Eol's claw pierced Tang Shaoyang's neck and dragged his claw to the head. That left Tang Shaoyang with two heads.

Despite his will, Tang Shaoyang was at a dead end. He did not know what to do but to reset the fight. The Seven Souls, the last option. He did not really want to use Seven Souls, not until he found a way to win against Eol and Dinael. A way to fight back the light sword that negated his energy. That was the reason he lost the fight. He believed he could put up more of a fight even against two God Ranks, but the light sword was the key to him losing the fight. In front of the death door, Tang Shaoyang managed to calm down despite all the pain all over his body. He recalled everything he had, had he used everything? He had a skill that he never used before, Spirit Form. It allowed him to turn into a spirit to enter the Spirit World. That would consume his Spirit Energy instead of Heavenly Energy. But would it help him? What could he do if he turned into a spirit? He could open the Spirit World and run, but that did not solve the issue.

But then Tang Shaoyang thought of running into the Spirit World, and there he pulled out the light swords. It was worth trying. He used the skill but it did not do anything, meaning the light sword also negated his Spirit Energy.

Eol stomped the third head. His head popped out like a watermelon, and that brought Tang Shaoyang's mind into a mess once more. But he kept himself calm as he looked into his energy

core, where his Heavenly Energy gathered. The energy was there, he had it, but he could not use the Heavenly Energy out of the core, it was negated by the foreign energy.

There he saw another core, the Slayer Energy core. The Slayer Energy was different from his Heavenly Energy. It stayed in his core instead of circulating in his body because Slayer Energy was not his primary energy. It stayed there, and he could use it when he wanted. It was the same when he got the Heavenly Energy before he turned his mana into Heavenly Energy.

He tried to move Slayer Energy, and to his surprise, the energy from the light sword was not able to disrupt Slayer Energy. Red flow moved on his will, however, he could not use Slayer Energy as a primary energy. He still could not use the skill even though the Slayer Energy was not affected by the light sword. The only thing he could use right now was Slayer Touch, Slayer Blade, and Slayer Absorption. The three skills that required the Slayer Energy.

However, how he obtained Heavenly Energy gave him an idea. What if he made Slayer Energy as his primary energy instead. He tried once, but it was different from Heavenly Energy and Mana which could coexist. The Heavenly Energy resisted the Slayer Energy which made the core unstable. He tried it once and decided to let it be, in case, his Heavenly Core would explode.

However, it was different now. He was going to die anyway, whether caused by the core explosion or stomped by the Divine Dragon. With that in mind, Tang Shaoyang moved his Slayer Energy into his Heavenly Energy core. The Heavenly Energy resisted the Slayer Energy to enter the core. His core was shaken by the impact, but then the resistance fell short as the Slayer Energy entered the core. It was much less resistant than his first try, and he realized what caused that. It was the Light Sword, it weakened the Heavenly Energy and allowed the Slayer Energy to enter the core.

Tang Shaoyang did not know what would happen, but he transferred all Slayer Energy into the core. The two energies did not coexist peacefully just like Mana and Heavenly Energy. Heavenly Energy tried to push out the foreign energy, but Tang Shaoyang kept pouring Slayer Energy and he noticed a crack at the center of the core. It cracked as the core shook even fiercer.

When Tang Shaoyang thought he was going to die from the core explosion inside his body, he noticed the change. After the two energies clashed, there was something formed between the two energies. A black-golden line formed between two energies. A flow of a new energy formed between the two energies, flowing smoothly just like a calm river. The new energy formed a new cycle that separated the two energies, and he noticed that the new energy absorbed The Heavenly Energy and The Slayer Energy.

Soon the core stabilized as a new energy took over. Not only that, the crack was healed up as a new core formed. The black core with a whirlpool around it formed, and the black-gold energy whirled around the core. It looked like a black hole.

Chapter 1308 The Battle of Dragons - Part 3

[You have successfully transformed your core into Chaos Nucleus!]

[You have acquired Chaos Power!]

[Divine Power is replaced by Chaos Power!]

[Divine Master Mastery has changed into Chaos Mastery!]

[Divine Perception has changed into Chaos Perception!]

[Divine Cloak has changed into Chaos Shade!]

[Divine Authority has changed into Chaos' Rule!]

[Chaos Absorption has changed into Chaos Consume!]

[...]

More notifications popped out in his head. He no longer had Slayer Energy, Slayer Touch, Slayer Blade, and other skills related to Slayer Energy. He no longer had those because the Slayer Energy had merged with the Heavenly Energy forming Chaos Energy.

In that last moment, Eol bit into Tang Shaoyang's last head, the fourth head. His last head was about to be ripped apart. He would die if he lost all his four heads, at least, that was what he thought when someone like him lost all the heads. But in that last moment, the last moment before Eol ripped his last head apart, a new head popped out.

Tang Shaoyang witnessed his own ripped apart by The Divine Dragon with the new head. Along with the new head, all the light swords disappeared, including the giant sword on his back. He exuded an extremely powerful aura, more powerful than before. It was still unknown what about his last head, but he opened his mouth, gathering the new energy, Chaos. Then he blasted Eol with his new energy.

The blast sent Eol to the sky, far high in the air. Tang Shaoyang regained his energy and movement with the light sword gone. He got back on his feet and looked up toward Dinael who was shocked by the sudden turn of events. She did not think that Tang Shaoyang would be able to break free of the restriction, not her Light Energy that could negate most energy.

[You have learned a new skill, Chaos Burst!]

Tang Shaoyang took the chance, using Blink. It worked by expending his Chaos Energy, and he caught Dinael who was caught off guard. She was still in a trance about what happened. At the time she snapped out, she was restricted in Tang Shaoyang's hand.

Dinael felt the temperature suddenly drop, and soon she realized that Tang Shaoyang released the frost aura. She was about to form a barrier, but she realized that this time, it was his Light Energy that did not work as she thought it would. Energy Destruction Touch, Tang Shaoyang used the skill, and he managed to break Dinael's energy with his new energy.

Eol soon returned from the sky, and his eyes locked on Dinael in Tang Shaoyang's hand. Tang Shaoyang guessed right that Dinael had a special position in Nirvana and that even an ancient dragon like Eol was more concerned about Dinael instead of his own condition. There was a big burn mark on his chest. The white scales were missing, revealing the burning flesh that did not heal even with the high regeneration of a dragon. The Divine Dragon was concerned about what happened to Dinael more than his well-being.

"You should listen to her to kill me quickly," Tang Shaoyang said, staring at the white dragon with calmness in his eyes. He was not in a hurry to fight back with his newly acquired energy.

Eol maintained his silence, his eyes locked on Dinael who was struggling in the Frost Aura. He recognized the aura, the same aura of Avyn, the Ice Dragon he fought earlier.

Tang Shaoyang took his time instead of going wild with his new energy. He was stalling for time to regenerate his wound. It took much longer than regenerating a missing head because he was too battered. It took him three minutes of staring contest to heal from the wound that Eol inflicted on him.

After those three minutes of silence, Eol opened his mouth, breaking the silence, "You don't want to kill her, trust me. You don't want to enrage her family, or Earth will disappear."

Tang Shaoyang let out a chuckle as it was the most ridiculous thing he ever heard after all the fights, "You guys are really funny, never fail to entertain me with your humor. Why does it matter to me that Earth disappeared or not when Nirvana wanted me dead? Why does it matter when seven God Alliances wanted me dead?"

Eol maintained his silence. It seemed he was thinking hard about how to free Dinael from Tang Shaoyang, but he could not think of any. Dinael would die the moment he made a move on Tang Shaoyang. He was aware of that, especially when Dinael was surrounded by the Frost Aura. She could not move freely even though he managed to distract Tang Shaoyang. The only way to save Dinael from Tang Shaoyang was to kill Tang Shaoyang in one strike, giving Tang Shaoyang no chance to react. He had two skills for that, he had his ace card, but he could not use them because Dinael was in Tang Shaoyang's grasp. He would kill Dinael along with Tang Shaoyang with those ace cards.

At this moment, a rupture opened in the sky. The rupture split the sky once more as a gate opened once more. Tang Shaoyang clicked his tongue because he was winning, he had the advantage in this fight, and yet, the enemy sent more reinforcements.

One of his heads looked up as a massive figure came out of the rupture. Even with just the shadow, he could tell that another dragon was coming. It was a dragon and a person in black armor on the back of the dragon. The rupture closed up, and Tang Shaoyang was relieved that there were only two reinforcements, a dragon and the rider.

The Red Dragon roared, announcing its arrival, and the person behind the dragon called his name out, "TANG SHAOYANG! RETURN MY SON OR THE GITERON DYNASTY WILL GET INVOLVED IN YOUR WAR!!!"

Tang Shaoyang was confused, looking at the man on the dragon's back. The face was familiar, but he did not remember who he was. But since he mentioned the Giteron Dynasty, that meant the reinforcement coming from the Giteron Dynasty. However, he was confused when the person mentioned his son. He did not remember taking someone else's son hostage. He did not know what the man was talking about.

Eol looked up at the sky as well, squinting his eyes. The Red Dragon was a God Rank, but the person riding the dragon was just a Demi-God Rank. He thought this might be his chance to free Dinael. If Tang Shaoyang was distracted by the Red Dragon, he might have his chance. He waited patiently, watching the scene unfold before him, quietly.

However, Tang Shaoyang only spared one of his heads to keep a watch on the Red Dragon. The remaining four heads locked their eyes on Eol. He knew that the real threat was Eol, not this Red Dragon.

The Red Dragon seemed to notice it as well. It was angry and shot the fire breath at Tang Shaoyang.

Tang Shaoyang merely thickened out his frost aura around him, as if he was forming a barrier with the frost aura. Surprisingly, the fire could not reach him. In fact, the fire went out the moment it reached the range of the frost aura. Not just because Avyn's Ice Elemental was powerful, but also because of his powerful Chaos Energy that strengthened the frost aura.

Tang Shaoyang responded with his newly acquired skill, Chaos Burst. It seemed the Red Dragon took a big hit in his pride because of how Tang Shaoyang neutralized his fire. The Red Dragon chose to block the Chaos Burst with his fire as well, copying what Tang Shaoyang did to him.

The black-gold blast went through the fire and hit the Red Dragon's belly. The blast directly hit the Red Dragon and exploded. Soon the massive dragon fell from the explosion, billowing in black smoke with a big wound on his chest, much deeper than Eol's wound.

Boom!

The Red Dragon crashed to the ground as the cloud of dust rose up, covering the Red Dragon. Tang Shaoyang checked the situation and found out that the Red Dragon was unconscious, and he was glad that the Red Dragon was that weak. He could not believe that the Red Dragon fell in one strike, and thanks to that, he could focus back on his actual enemy, Eol. As for the Demi-God Rank, he let him free at the moment.

Despite learning a new energy, Tang Shaoyang did not have the confidence to fight the Divine Dragon. Eol was still an ancient dragon that had been living since Avyn's ancestor era. He was not blindly believing that he could win against Eol in a fair fight. The key to his win was Dinael. As long as he was Dinael in his hand, Eol would not be able to do much. He could say that Eol's priority was to save Dinael instead of killing him right now.

Tang Shaoyang tightened his grasp, and Dinael gasped in pain.

"Don't you dare!" Eol raised his voice but he did not make any move. That just confirmed Tang Shaoyang's suspicion.

Tang Shaoyang made his move, Third Heavenly Gate: Heavenly Steps - Heavenly Ethereal Stride. His quick movement allowed him to reach Eol within less than a second. Then he used Heavenly Crushing Strike. This was the first time he used the Nine Heavenly Gate with his new Chaos Energy.

As Tang Shaoyang predicted, Eol did not dare to fight back as the white dragon formed the barrier. Tang Shaoyang's fist hit the barrier, and the barrier crumbled in one strike as Eol was pushed back. Tang Shaoyang grinned as he executed the next attack, Heavenly Shattering Palm.

Eol made the second barrier at the last moment, but the barrier shattered into pieces once more. Tang Shaoyang used Avyn's Ice Elemental, freezing Eol's feet. That stopped Eol from moving away from the ground, and Tang Shaoyang reached Eol's neck with his right hand. The ice spread out to the lower, completely freezing Eol. He caught the Divine Dragon, and he used Chaos Energy to create a giant sword, a fifty meters sword. He also added Energy Destruction Touch to the sword. The sword pierced Eol's back, going through his body, and pinned the white dragon down to the ground. Their position was replaced now.

Chapter 1309 Unexpected Guest

The Divine Dragon stared dagger at Tang Shaoyang, but he kept glancing at Dinael.

Tang Shaoyang was surprised that Eol was more concerned about Dinael than himself, "Should I crush her first?" He brought the half-freezing Dinael closer to Eol's face. He just needed to put more strength on his grip, and Dinael would lose her lower half.

"Don't kill her! You will regret it if you kill her! This will not end with just a defeat, but Nirvana will use everything they have to kill you! Your family! Your empire! Your world!" Eol growled.

"What's the difference?" Tang Shaoyang asked, "Nirvana sent nine God Ranks to the world that are not even in the third phase. In a world with no official God Rank, Nirvana still sent nine God Ranks. What will make it different? Will Nirvana give up if I don't kill her? I don't think so. You guys come to The Dimensional Tower to kill me after finding out my class, sending God Ranks to hunt me. Just because I have a class that is stronger than most."

"Nirvana is created to maintain the balance between the players. Your class breaks the balance hence we have to get rid of you!"

As soon as Eol finished his words, Tang Shaoyang reached his wing. He forcefully ripped apart the wing just like what Eol did to him. The blood sprayed as the white dragon let out a suppressed groan, enduring the pain.

Then he stepped onto Eol's head as his five heads came closer, "Don't spew such bullshit in front of me. Maintaining the balance? What balance? Sending God Ranks to conquer Earth is to maintain the balance, huh?" Tang Shaoyang was so angry deep inside. He almost lost everything just for the bullcrap. Nirvana was trying to role play as a God just because they had reached God Rank, thinking of maintaining the balance and stuff. That made him angry if that was the actual reason.

"You said you would make me suffer before killing me. I will make you suffer before I kill you!" Tang Shaoyang brought Dinael closer to Eol, "It seems Dinael is very important for you that you are willing to sacrifice yourself. I will kill her right before your eyes."

The Divine Dragon looked at the struggling Dinael, her eyes filled with fear. The trip was supposed to be an easy trip, to let Dinael gain some experiences in actual "war". However, no one expected that Tang Shaoyang would be this strong, killing many God Ranks, and even got Eol.

"Oooo, my friend, don't kill her, my friend!" A voice rang, echoing through the air.

The voice was familiar to Tang Shaoyang, but he did not remember whose voice it was. He looked around as his Spirit Eyes searched where the voice came from.

"I am next to you," Tang Shaoyang jolted and found a figure next to him. The weird thing was that he could not feel anything from the figure. He could not feel the figure's presence, at all. The figure had no aura or energy inside him, empty.

"Calm down, Tang! It's me Arion," The Divine Dragon immediately turned toward the figure. Eol was stunned to hear the name. At least, that was what Eol showed on the outside.

Tang Shaoyang remembered the name, and no wonder he felt familiar in the voice. He heard that voice almost every day during his climb in the Dimensional Tower. The God Rank asked him to clear the monster breeding ground.

"Why are you here?"

"Don't worry. I am here to help you, but it seems you don't need my help, at all. I am worried you know. I heard that Nirvana sent more God Ranks than they are supposed to, sending nine God Ranks to the lower world is excessive, you know? Especially one of them is a Divine Dragon. But I did not expect that you managed to subdue a Divine Dragon," Arion came down to the ground, looking at Eol while shaking his head, "You have fallen so low, Eol."

"Anyway, I am not actually on Earth. This is just my avatar that I sent to check on you. I can use a little bit of power with this avatar in case you need my help, but it's unnecessary. You won the battle the moment you captured her, but I do agree with Eol not to kill her," Arion pointed at Dinael.

"I agree for a different reason, it's for you, Tang. Spare her life, and I can buy you time. The time you need to reach God Rank and confront Nirvana yourself. What do you think? During that time, I will make sure that Nirvana and their alliance will not touch Earth," Arion floated, standing in front of Dinael, "But I need her alive, and it's your decision. I am just giving you an option, my friend. Eol is not wrong that Nirvana will exhaust all the resources they have to kill you if you kill her. She is quite special, Nirvana's Supreme Lord's favorite granddaughter. Eol is desperate because if she dies, his family will also die."

Tang Shaoyang fell silent. He wanted that time, but he did not know if he should trust Arion. They never met, and their relationship was based on favor. He was doing a favor for Arion, and Arion rewarded him for doing a favor. Should he trust Arion? Even though he received the help, he did not really trust Arion.

"I see. I understand that you don't really trust me. That hurts me a little, but I understand," Arion sensed the distrust with how hesitated Tang Shaoyang to answer him.

"What's the terms? How long can you buy for me with her life?" Tang Shaoyang decided to put a little trust in Arion.

"Give me a moment. I will talk with their Supreme Lord," The avatar went static for a few minutes.

"They agree with the temporary truce. They will take an oath for a hundred years of truce, but you have to return her and Eol immediately," Arion back with the great news. It would have been great news if Tang Shaoyang had not learned about the Feather of Oathbreaker. He might believe in the oath if not for that item. But he knew that there was an item that could get through the oath.

"NO! I don't want their oath! You should that the oath is not that reliable, Arion. Are you trying to trick me?" Tang Shaoyang cast a suspicious gaze at the avatar.

"Ay, don't give that look, Tang. I am here as a mediator, not to negotiate on your behalf. You can make a counter. What terms do you want? I can relay it to them, and I can give you advice as well."

"A hundred years, but I will keep her as my prisoner. When the time is up, tell them to pick her up, and Eol is not included. I also want compensation for the attack!" Tang Shaoyang talked about his condition. If Dinael was that important, then he just needed to keep Dinael as a prisoner with him.

Tang Shaoyang leaned to the truce because he did not think he could win against Nirvana if they really sent all of their God Ranks to Earth. Winning this fight did not mean Nirvana would not come again in the future. If this Dinael was really that important, Nirvana might really ask the other six God Alliances to attack him and Earth. He did not think of winning that fight.

Arion went silent once more. He was relaying Tang Shaoyang's conditions, and it took much longer this time. Ten minutes passed, and he returned with another condition, "Twenty years truce, and you can keep her as a prisoner. However, you can't torture her or put her in a dungeon. They want you to treat her like a guest, a good room to sleep and good food to eat. They don't agree with the compensation unless you also guarantee Eol's life."

"No compensation means no truce. If they are not willing to compensate me for what they have done, then the deal is off. Killing Eol and Dinael will give them compensation. They can come to me, if they can find me later," Tang Shaoyang was decisive. He was in a position to take advantage, and he would not make the deal if he gained nothing.

There was a plan in his mind after the battle. He knew winning this battle was not the end of the war. Nirvana and the other God Alliances would keep coming for him. However, he had a plan to move to the Ortis Continent. He would leave Earth and live there, and it would take time for them to find him. During that time, he needed to reach God Rank. That should be enough time for him to reach God Rank.

Arion scratched his head, "I will relay it to them. Anything else?"

"There's one more. I want the other six God Alliances to agree to the truce as well. The Celestial, The Holy Sanctum, Abyss, Underworld, Hades, and Metarnian Dragon Clan. Those six God Alliances must agree to the truce as well." Tang Shaoyang mentioned the six God Alliances that are in alliance with Nirvana. He had to make sure that those six God Alliances also did not attack Earth.

Arion left again, and this time took longer than the previous one. All this time, Eol and Dinael were listening from the sideline. Eol could feel his diminishing energy inside him. He could not break free from the sword.

"You really give them a hard time. They agree with your additional conditions and are willing to compensate you, but you have to spare Eol as well. They are willing to double the compensation if you don't kill Eol. Also, they want to know what kind of compensation do you want?"

Chapter 1310 Truce & Compensation

Tang Shaoyang looked at Eol with a frown. He was in an internal discussion with Avyn, and the reason he did not want to free Eol was because of Avyn. Even though he did not know the full story, Avyn called him a traitor. The Divine Dragon betrayed Avyn's ancestor, and he wanted to let Avyn handle Eol. Of course, the main reason was that he was not going to release Eol only to fight him again in the future. This might be his only chance to kill Eol, and he did not want Eol to tell anyone from Nirvana about him and his ability.

"Eol is not part of the discussion. If you want to keep her alive, then they must follow my terms. If they don't want to give me anything, then there's no truce," As he said that, Tang Shaoyang's head went for Eol's neck. He pulled off the neck brutally in front of Arion and Dinael. The blood sprayed out as the Divine Dragon's body went limp. His action was telling Nirvana that he was not up to discussion for Eol.

Dinael screamed, tearing up as she witnessed Eol was brutally killed. She was aware that Eol died because of her. If she did not get caught, Eol was still fighting against Tang Shaoyang. In fact, she believed Eol might have killed Tang Shaoyang already if not for her.

"I am no longer negotiating. Agree with my terms and compensate me or she will die next!" Tang Shaoyang was serious. It was not just an empty threat, and Arion was aware of that after Tang Shaoyang killed Eol in front of him.

Arion was aware that his new friend was a madman, and he would really kill Dinael if Nirvana still thought of negotiating, "You haven't told me what kind of compensation you want?"

Tang Shaoyang had no idea what kind of things he could get from Nirvana. If anything else, he wanted something that could make him stronger. He thought of getting more strong classes for himself. However, he was afraid that those classes might be too cheap for Dinael's life.

"Can you get me something worth of her life? I am willing to trust you because I don't know how much she's worth to Nirvana," Tang Shaoyang decided to trust Arion for the compensation. Arion must know more about something he did not know. And it was also kind of a test for Arion if he could trust Arion or not. Arion would get something that is valuable for him if Arion really considers him as a friend.

"Leave it to me!" Arion left to meet with Nirvana's representative.

Tang Shaoyang gathered the bodies of the God Ranks as he waited for the good news. If the truce failed, he had to send the message to Li Shuang to prepare the portal to the Ortis Continent. They needed to evacuate there immediately.

"Why did you kill him?" Dinael stopped sobbing and looked up at Tang Shaoyang with an icy gaze.

"That's a funny question," Tang Shaoyang said, surrounding her with his five heads, "If someone like Eol comes for your life, and you catch him. Will you free him and let him come to you for another time? Give me a reason not to kill someone who wanted to kill me?"

"This would never happen if Nirvana was not greedy. If Nirvana did not come after me, this would never happen. Are you really going to blame me for your loss?" Tang Shaoyang shook his head, five of them shook at the same time, "I am going to lose my sanity talking to you."

Tang Shaoyang noticed the hatred gaze in her eyes, and he did not care. Eol must be someone important to her, and he could sense her emotion.

"Are you going to kill yourself?" He sensed that Dinael intended to end her life. That surprised him, but then he realized what she tried to do. If she died, Nirvana would come at him with their full forces, using everything to kill or even catch him. She wanted to avenge for Eol's death, "Go ahead, kill yourself. Like Arion said, sparing your life is just an option. I am prepared to kill you myself even if you don't suicide."

That made Dinael hesitate. The determination to end her life disappeared with how fearless Tang Shaoyang. Her thoughts were simple, as long as she was alive, she could avenge Eol. That was her new goal for her future, to avenge Eol.

After half an hour, Arion's avatar started to move again, "I got the deal for you, Tang." The avatar took out something: ten scrolls, ten vials, three sets of armors, and two eggs.

"The two eggs are from me because I got something for myself. I compensate you with these two eggs," Arion handed him the two scaly eggs, one was red and another one was black.

[Dragon Egg]

There was only one information when he touched the egg. He was surprised that Arion gave him the egg.

"I got myself five Ancient Barbarian's hearts. I need them for my research. It's a fair trade right? Two dragon eggs for five Ancient Barbarian's hearts," Arion showed the heart.

Tang Shaoyang was surprised when Arion brought them out. The heart was still beating, clear and loud as if the heart was alive. The heart was two times bigger than the adult head.

"I don't really care if you get something for mediating the truce for me," Tang Shaoyang really did not care if Arion got something for himself. The ten scrolls were class scrolls, and the ten vials were the bloodline. They were phoenix bloodlines, five types of phoenix bloodlines. The three sets of white armors were Legendary Grade armor. One of the highest grades that he ever got for himself, "This is good enough."

"I will guarantee you with twenty years of truce. They don't dare break their promise with me," Arion hit his chest two times, "But you have to make sure that you adhere to the terms as well. You can't mistreat her." Then Arion took something, a pair of bracelets, "Put that on her. She will not be able to use her power and only me can take off that bracelet. So you don't need to worry that she will do something dangerous during her guest period. And she can't access the System with the bracelet too, so you don't need to worry about her contacting Nirvana."

Arion was about to give the bracelet, but he did not think that Tang Shaoyang would be able to put the bracelet on Dinael with the current form. He came closer to Dinael and put the bracelet on her, "The battle is over, but remember this is not the end of your battle. But twenty years should be enough for your to gather your force and be ready for the actual fight with Nirvana."

"Also, I prepared this one for you, but I did not expect for you to flatten them out," Arion took out a vial with a red-gold liquid inside, "Can you go back to your humanoid form? I am afraid you will break this apart."

Tang Shaoyang did not immediately cancel his True Dragon transformation, but then he remembered that Afi, Vandir, and Karoen were still missing. They were not in the Spirit World, and they are nowhere in sight. It was either they were out of range of his Spirit Eyes, or they were in the God Domain.

"I don't think I can do that. There are still more God Ranks, and they are part of Nirvana," Tang Shaoyang just said, and he sensed a presence, the God Rank's presence. The God Rank's presence was not one of his spirits, but the Light God Rank.

[I am sorry to disappoint you, but I lost my fight.] Karoen's voice rang in his head. The Void Knight was ashamed that he lost the fight against the God Rank.

Tang Shaoyang was about to charge at the Light God Rank, but then Arion stopped him, "You can't kill them, Tang! You just sign the truce agreement. Are you going to embarrass me?"

Tang Shaoyang stopped his movement, and the Light God Rank was surprised to see the five-headed dragon and an avatar. What surprised him more was Dinael in Tang Shaoyang's hand. He remembered that he just agreed to make a truce with Nirvana.

"Where's the other two?" Arion asked.

"I don't know. Maybe they are still in their God Domain. They are currently fighting my Archaic Spirit, and I can't communicate with my spirits either," Tang Shaoyang answered honestly. He tried to communicate with his spirits, but he could not speak to them. He also could not use Spirit Link with them, completely cut off.

"Can you recall your spirits?" Arion asked in a somber tone. It seemed the truce agreement was really a big deal for Arion.

Tang Shaoyang tried to recall his spirits, and it worked. He heard the complaint from Afi who seemed enjoying the fight, [Why do you recall me back? I almost killed him!]
