

Armipotent 1541

Chapter 1541 Fury 4

Oby looked at the spirits and Tang Shaoyang. Deep inside, he cursed at himself that the thing he feared the most had come true. He suspected Tang Shaoyang was a Spirit Contractor when the latter left one of his summons in his building.

Back then he had a suspicion that Tang Shaoyang might be a Spirit Contractor. When he saw Tang Shaoyang's name shot up to be the first place, he was eighty percent sure that Tang Shaoyang might be a Spirit Contractor. That was the reason behind his offer to Tang Shaoyang to join the God Order.

Tang Shaoyang had a Spirit Contractor class that remained a suspicion until a few moments ago. Until he saw all those spirits around Tang Shaoyang. What he feared came true, and it was never in his plan to get on Tang Shaoyang's bad side despite the refusal to join the God Order.

It was not until he sensed a foreign presence in his building. He thought it might be Tang Shaoyang's summon. But upon further investigation, he found out the foreign presence was two Unique Rank Calamity. Two tamed Unique Rank Calamities, not just ordinary calamity, but Chaos Demonic Dragon Calamity.

After his discovery, he called his friends and made a plan. The plan was to kidnap the two young calamities. He never intended to kill Avyn. The plan was to knock out Avyn and kidnap the two calamities. But the plan went south because of how strong Avyn was.

The woman found out about the ambush, and they had no choice but to confront her. They managed to catch the woman off guard and killed her. And he had to pay the price for that, but the plan worked. They got the two young calamities. But the thing went from bad to worse as he found out what the ice spike in his body meant. If he was not cured, he might be frozen to death.

In Addition to the disaster, he just confirmed Tang Shaoyang as a Spirit Contractor. If Tang Shaoyang had another spirit on the same level as the woman, then it would not end well for them. His confidence was shaken at the sight of the Black Phoenix as well as the Calamity Behemoth.

"Give them back to me, then I might be lenient to you!"

"Do you think we are afraid of you just because you outnumber us!? Don't you dare to underestimate The God Order!" The man who spoke earlier transformed into a crimson phoenix.

The screech resounded to the whole city as the crimson flame lit up the city. It flew to the sky, looking down at Tang Shaoyang from above.

"We need to extinguish that fire. That just ruined the best temperature for me," Radiance hopped on Arelion, "Leave him to us, Boss!"

Arelion did not mind Radiance riding him. The wyvern flew to the sky, and Baccara followed them.

With a playful laugh, Radiance activated his domain. He brought the crimson phoenix along with Baccara and Arelion into his domain. The four disappeared from the sky into another dimension.

"Save Ophelius and Ophelia. As for them, you can do whatever you want to them, but I want the body intact!"

That was the cue that the spirits had been waiting for. Vadir summoned his undead, and hundreds of undead rose from the ground.

"Stop!" Oby put Ophelius and Ophelia on the ground, stepping on their back. Then he took out an axe from his inventory, aiming the axe at Ophelia's neck.

The burly cook realized that Tang Shaoyang put importance on the two young calamities. He might take control of the situation if he could control Tang Shaoyang with the young calamities as a hostage.

"Stop your spirits or I will kill them!" Oby was not joking when he said he would kill them. If the God Order could not get the two young calamities, then no one could. If this was not enough to control Tang Shaoyang, then he would fight, of course. If possible, he wanted to avoid a fight against Spirit Contractor.

All the spirits stopped, turning toward Tang Shaoyang at the same time. The priority order was to ensure Ophelius and Ophelia's safety. They did not dare to make a move without order from Tang Shaoyang. Even the rebellious and cold-hearted Doombringer also stopped.

It was an easy choice for Tang Shaoyang. He, himself, did not care about the two young calamities. He had no deep feelings for them because he got them by accident, from an experiment. There was no deep feeling for the two even though they were currently in young girl and young boy form.

However, Avyn's feelings affected him directly. The fear of losing Ophelius and Ophelia. He could imagine how brokenhearted Avyn would be if the two died even though they could get a new one. They just needed to look for two new Sea Dragons.

Hearing no response from Tang Shaoyang, Oby swung his axe and cut Ophelia's thigh. The blood spurted out as the girl cried. It was just a moment, but Ophelia cried out. She then suppressed the pain and her voice.

At that moment, Tang Shaoyang felt a surge of anger. At that moment, he used Dragon transformation and Spirit Integration. He integrated with Avyn, and at the same second, he formed a portal with his Void Elemental. The portal was connected to the portal that formed instantly behind Oby.

Tang Shaoyang pulled Oby through the portal. The latter let out a cry, "Secure the goods!" He was telling the other administrators to secure Ophelius and Ophelia.

Right after he said that a fist landed on his mouth. It sent him down to the ground.

At the same time, the trio Revenant: Rokian, Artras, and Argon came out from the shadow of one of the administrators. Rokian and Artras stood on the ground, trying to hold the five Administrators who came after Ophelius and Ophelia. Argon took the two kids and escaped through the shadow.

Right after Argon dove into the shadow, Rokian and Artras' bodies flew over. They took the strike from three Administrators.

Boom!

They crashed through many buildings. But the mission to save the two kids was a success. The five Administrators quickly realized that they were surrounded by the spirit.

Boom!

Another booming noise resounded from where Oby was. Tang Shaoyang crashed down on Oby. Oby, who lacked the energy to use his transformation, had to receive the raw strike.

Tang Shaoyang landed his feet on Oby's chest. The gray armor bent inward, forming the feet mark. The bald cook coughed up blood. His breathing became rougher, especially with the frost that started to consume him from inside as well.

"Do you remember my advice, Tang? Always bring potions with you!" After saying that, a vial with a gold liquid inside appeared in his right hand. Alas before he could drink the potion, Tang Shaoyang stepped on his wrist.

Oby's wrist was cracked, and the white bone came out as the blood gushed out. Tang Shaoyang took the potion and muttered, "God Elixir?"

He read the description. It was a treasure, the elixir could heal any injuries, cure any poisons, erase all negative status on his body, and also recover his lost energy.

Oby had a method to get rid of the ice, but he did not want to use his treasure if he had another way until he had no other choices. But he still failed to drink the elixir in the end. Just as he thought he would die, Tang Shaoyang bent toward him and chugged the elixir into his mouth. That was right, Tang Shaoyang gave him the elixir which shocked him.

Chapter 1542 Fury 5

Tang Shaoyang was affected emotionally by Avyn. She wanted to beat Oby, giving despair for what Oby did to Ophelia. That was what led to that decision, chugging the elixir into Oby's mouth. He even made sure that not a single drop was wasted.

Oby's eyes widened in shock as the pain in his body slowly subsided. The ice melted and the hole regenerated. Within ten seconds, he returned to his prime condition. Getting back on his feet, the burly cook stared at Tang Shaoyang in disbelief.

Technically, Tang Shaoyang saved his life. However, that was the biggest humiliation he had ever since he joined the God Order. He was far from being grateful for what Tang Shaoyang did. Instead, he was extremely angry that Tang Shaoyang humiliated him. The rookie who just entered the God Rank a month ago humiliated him to this extent. Even if he defeated Tang Shaoyang, he could not erase the shame he felt right now.

"You..." His breathing became rougher, and his chest heaved up and down, "I will make sure it would be a painful death for you. I will not kill you, but I will make you suffer for the rest of your life."

Oby raised his hand and clenched his hand into a fist. That was a signal for his people to make a move. Despite the humiliation, he was not stupid enough to fight Tang Shaoyang by himself after. Not after finding out about Tang Shaoyang's class, Spirit Contractor. He would use his people to determine how strong Tang Shaoyang was. His goal was not to kill Tang Shaoyang but to capture Tang Shaoyang alive. That was the only way to pay for the humiliation he felt right now.

Sixty-eight Admin Helpers came out from the building. They had been hiding there for a long time and waiting for the signal. All of them had used their transformation skill as well, going all out from the start even though their opponent was just one person.

"I don't know you are this cowardly," Tang Shaoyang shook his head. Oby's picture in his mind was not someone who would gang up on one person when challenged. Not someone would use a cheap trick in a fight, "There's still a long time until I can read people's character."

"But this will be a good stage for me to find out my limit," Tang Shaoyang muttered to himself.

He used all his strongest skills. The Spirit Integration, Dragon Transformation, and Wrath of Slayer. Not just that, he did an integration with the strongest spirit as well, Avyn. It might not be the strongest form since he still had one ace card, True Dragon. But this was his closest to his strongest form, and no one could force him yet to use this so far.

Taking out Nightfall, Tang Shaoyang changed his target to the Admin Helpers in the air. All of them tried to get from above which was stupid in his eyes. With his Absolute Sense, he could sense them all from the start. So the moment they made a move, he saw them.

He slightly bent his body forward, his left hand was holding the scabbard, and his right was on the sword.

Heavenly Sword - Heavenly Revoke

Tang Shaoyang's figure flashed into the air, going through the Admin Helpers. His movement was so fast that even Oby could only see the golden flash toward the sky. Seven Admin Helpers had their bodies split into two.

In the sky, Tang Shaoyang raised his sword while maintaining his body in the air. He did not let the Admin Helpers regain their footing as he followed with the second strike

Heavenly Sword - Shimmer of Heaven

Hundreds of golden swords formed above Tang Shaoyang. Each of the golden swords was twenty-meter-long. Then he slashed his sword downward. His body flashed down, and at the same time, hundreds of the golden swords also came down.

Boom!

It was then followed by the screams as well as the buildings were getting demolished by the golden swords.

Oby watched everything from where he stood, agape with what he just witnessed. In the first second, Tang Shaoyang had seven Admin Helpers. Four seconds later, he took down the remaining of his people. Of sixty-eight Admin Helpers, only three survived with their bodies intact.

Seven Admin Helpers split into two, fifty-eight Admin Helpers got crushed by the golden sword. Their body was pinned down to the ground and died instantly in that one strike.

Boom!

Then the shattering noise resounded from the other side of the city. A building just crumbled down. Oby saw the Behemoth, the knight, and the demon were there. But he did not see his comrade who fought them.

Another booming sound resounded from another side. It was his friend again, getting cornered by the spirits. Even the spirits were stronger than an Administrator. Even though it was not a duel against them, they were supposedly stronger than Tang Shaoyang and his spirit.

As his thoughts wandered, a body crashed down next to him. It was his friend sent by the Urosa Warrior. His friends' armor had a lot of cuts, and a big dent on the chest as well.

His friend coughed up blood as he got on his knee, standing up, caressing his chest which was in pain, "He is a Spirit Contractor, and his spirits are strong God Ranks! All of them! We need reinforcement! Activate the emergency measure!"

Hearing that from his friend, he realized that the other five Administrators were struggling. Now, they were losing their ground against the spirit. The weakness of the Spirit Contractor was to kill the user, then the spirit would disappear. The main problem was that the user looked stronger than the spirits.

Oby did not want to activate the emergency measure. It was meant for the worst situation where they would not be able to hold the calamity. In the history of the Trial of God, emergency measures always got activated when the Administrators could not handle the calamity, hence asking for more reinforcements. This would be the first time that an Administrator activated the emergency measure because of the participants. This would be the first in history.

Chapter 1543 Fury 6

Oby activated the emergency measure after a short hesitation.

[First reinforcement will arrive in thirty seconds!]

"I will hold those three monsters, you hold Tang Shaoyang!" His friends left to continue the fight with the bear warrior. He did not tell Amos to kill Tang Shaoyang but to hold. He believed Oby could not kill Tang Shaoyang.

Oby found Tang Shaoyang, standing between the golden swords. The latter was just observing from a distance, waiting for him to finish the conversation with his friend. It made him angry that the rookie dared to look down at him.

The bulky cook activated his bloodline transformation. His body grew up to five meters, his head turned into the bull's head with six horns, three above his right ear and three above his left ear. His eyes turned golden. He held a big hammer in his left hand, and a big axe in his right hand.

His bloodline was a primordial bloodline, Tauron. It was one of the rare bloodlines he obtained after getting Administrator Class. Even though it was dominant with bulls, Tauron had a mixed dragon bloodline.

He roared, venting out his anger for the humiliation. Raising his hammer, he slammed down to the ground.

Boom!

A wave of energy formed underground, going through underground, heading toward Tang Shaoyang. It split the earth.

Tang Shaoyang shook his head as he stomped on the ground. With one stomp, an ice wall formed in front of him. The energy hit the ice and dissipated. Aside from the vibration, the energy wave did not even scratch the ice wall.

Oby was already in the air after the energy wave was neutralized. He raised his big axe to the air. The sky rumbled and the black lightning came down, wrapping the axe. Just like a black thunder, Oby struck down at Tang Shaoyang.

Tang Shaoyang did not back down from the challenge. Avyn's purpose was to give despair to Oby before killing him. That was decided by Avyn, and Tang Shaoyang granted her request since this was the first time she made a request.

He challenged the black lightning with black lightning as well. It was one of his elemental powers. The black lightning went berserk around his sword, and he swung the sword upward, meeting the axe.

The black lightning burst out, destroying the already half-destroyed building around them. The clash resulted in Oby getting pushed back. With his movement skill, he dove toward Tang Shaoyang with his hammer.

Meanwhile, Tang Shaoyang lowered his posture, holding his sword with his two hands. He uses his black lightning elemental power to surround himself with it. He pictured himself using [Heavenly Revoke] in his head. However, instead of drawing his sword, this time he would execute it by thrusting his sword upward. At the same time, he activated the Ninth Heavenly Gate.

Heavenly Beast - Heavenly Azure Dragon

The image of an azure dragon formed behind Tang Shaoyang. At the same time, the golden lightning spark also came out, mixing together with the black lightning. Following [Heavenly Revoke] technique, his figure flew upward. Instead of slashing his sword, he thrust his sword upward to meet the hammer.

Roar!

The roar of the Azure Dragon resounded to the whole city, enveloping Tang Shaoyang. The sword clashed with the hammer. The hammer cracked and quickly crumbled in the clash. Then it pierced through the area below Oby's left shoulder. Tang Shaoyang flew upward, and Oby crashed down to the ground.

Oby lay down on the ground. The first thing he checked was the wound on his left shoulder. A big chunk of his left chest was missing. His left hand was dangling, and he could not move his entire left arm. Then his eyes moved toward the fragment of his hammer. Only after that, he looked up to the sky, looking at Tang Shaoyang.

Never crossed his mind that he would lose to a rookie that just entered the God Rank. He never thought that someday he would be defeated by a rookie. Even with his experiences, he did not even know what Tang Shaoyang just did. What kind of technique or skills that Tang Shaoyang used just now.

Tang Shaoyang slowly descended, landing next to Oby, "What are you doing? Get up! It's not over yet. We are just getting started. Take out all of your elixirs. Use them all because you will need them a lot."

Oby smirked despite the situation he was in. His eyes glanced to the side, checking the countdown for reinforcement, "No! It's over. I have done my job." As he said that the countdown dropped to zero and was followed by another notification.

[Second Reinforcement will arrive in one minute!]

[00:00:59]

The sky split into two as five figures came down from it. A group of five came down, and the first thing they did was inspect the area below them.

"What is this? Why did they press the emergency measure? The calamity horde has not yet breached the city yet! Are they this incompetent..." Her words cut off as she noticed the area below her was in ruin. A fight broke out inside the city and forced the Administrator to activate the emergency measure.

"Drop your weapon and surrender. We will investigate the situation and give you justice. We believe there's a reason for you to go this far." The man in the middle spoke. His words were meant for Tang Shaoyang. He recognized Tang Shaoyang as a participant, and the one with Tauron's bloodline was an Administrator.

Tang Shaoyang glanced at the sky and met the newcomers. He did not give a f*ck about them, "I will let you investigate the situation after my business is done here." Then Tang Shaoyang turned back to Oby, "Where's your potions? Take them and fight me again. I will make you regret what you did!"

"Bwahahahaha..." Oby let out a big laugh, "I knew you were a madman, but I didn't know you were this crazy. Are you going to declare a war against Administrator!"

Tang Shaoyang grabbed Oby's horn and pulled his face closer, "Yes. I will get rid of whoever is in my way to make you suffer. Administrator or God Order, I will fight them if they get in my way!"

The five administrators made their move. In a flash, they surrounded Tang Shaoyang from five directions. However, they did not dare to get too close to Tang Shaoyang. They stood thirty meters away from Tang Shaoyang.

"If you don't drop your weapon and surrender, then we will use force to apprehend you!" The same man warned Tang Shaoyang.

Tang Shaoyang responded to the warning with True Dragon. He activated the skill and transformed into a gigantic dragon.

Oby's eyes widened in shock that Tang Shaoyang could use the True Transformation. The five new Administrators also slowly raised their heads as they witnessed Tang Shaoyang grow bigger in his True Dragon. Someone who could use True Dragon was already bad, but it was worse because what they saw was a five-headed dragon, the accursed dragon.

The five heads let out a deafening roar at the same time. The situation could not be worse as they witnessed a new head come out. The new head slowly came out and grew at the same length as the other five heads. It was no longer five-headed dragons, but six-headed dragons.

Chapter 1544 Primal Elemental Power

The five heads stared at the five Administrators just arrived, and the newly formed head stared down at Oby.

"I am not going to do this, Capo," One of the administrators spoke to the man who warned Tang Shaoyang earlier, "The emergency measure is activated should the city be breached and the administrators could not handle the horde. This is not our responsibility."

"Me too," The only woman on the team also agreed, "If you look at the situation. This guy should be disqualified from the trial if he attacked the Administrator inside the city. The fact that he remains here means the Administrator attacked him first."

The other two Administrators remained silent. Their silence meant they would follow Capo's decision. None of them yelled at the two who gave up the fight. They might come out on top if they fought this dragon, but not without a price. One or maybe three of them might die from the fight.

Capo agreed with what his friend said. The fact that the participant was not disqualified, meant the Administrator attacked first. He dismissed the idea that it was a fight between Admin. It was prohibited by The System.

Before he could make the decision, the new head grabbed Oby. Tang Shaoyang slammed the man to the ground multiple times. He made sure that Oby did not die immediately. Of course, it was Avyn's idea, not him. If it was him, he would kill Oby immediately because there were another five new guests.

Oby's vision was blurred, and the only thing he could feel was pain. His organs were shaken by the impact, his bones cracked up, and his body slowly froze again. He thought he would die.

Capo was forced to make a move. There was no way he could just watch from the side that the fellow Administrator died. In the twelfth slam, he grabbed Oby and made a distance.

When he grabbed the man with Tauron's bloodline. All six heads turned at him, and he froze for a moment because of the aura. He shook off the feeling and put Oby down. He made eye contact with his two friends, telling them to get ready to fight anytime.

Even though it was most likely that the man he saved was in the wrong. But he could not just let the man be killed when he arrived through the emergency measures. He needed to take control of the situation, and of course, his fellow Administrator would be judged for the wrongdoings. But killing the man was not the right punishment.

"How long until the second reinforcement arrives?" He asked.

"Fo-forty s-seconds..." Oby replied, "Be careful, he has two Unique Rank pets. And..."

Boom!

Before Oby finished his words, a body fell from the sky. It fell right between Tang Shaoyang and Capo. Capo looked at the body, and so did Oby, "It's one of the overseers..."

Capo thought the problem was just between one Administrator and one participant, but it seemed like it was messier than he thought. He looked up and saw a big wyvern and also a black phoenix. Not just two of them, he noticed someone riding the wyvern, "Frostbringer..." he muttered in a low voice.

Then another body was thrown next to the first body. He subconsciously looked at the new body. The new body also no longer breathed, meaning dead. He saw a lineup of a demon, an Orc, and an Undead. Before he could finish identifying who they were, another body was thrown.

It was another dead body, another Administrator. It was a knight, the ant beastmen, and a human. The weird thing about them was that he could not feel their aura. He could not make a guess how strong they were.

The fourth body was thrown, and there was no need for him to suspect the fourth body's identity, must be another Admin. The culprit behind the fourth body was a Chimera and a bear warrior, The Urosa Warrior. Capo recognized The Primordial Urosa, the legendary warrior.

It was then followed by the fifth body sent by a fallen angel and a Lich. When he thought it was the last body, the sixth body arrived with a boom. Then he saw a Behemoth and another demon.

All of them shared one common thing: they did not have an aura. All of them lined up behind the six-headed dragon. Even Capo swallowed a mouthful of saliva as he faced them. As if it was not all of them, another group joined them. A Dragonewt, a knight with tentacles-like head, a Golem, and three dark wolves.

His friends joined him, standing next to him, realizing the situation had become worse. Looking at the line-up in front of him, he thought of one thing in his head. He hoped what he thought was wrong, he wished that he was proved to be wrong with the thing in his head.

"Okay, I will cut anything related to you if you insist on protecting this man," She was honest with her thoughts, "Even with a reinforcement, I don't think we can win against him. He is Spirit Contractor, the late stage of Spirit Contractor. I will not put my life in danger because of a stranger's stupidity."

Hearing that from his friend, he was now sure that their opponent was a Spirit Contractor. He thought about it, but he hoped he guessed wrong. It was not just him, but his friends also confirmed it.

"We unfortunately have to agree with her this time, Cap. I don't think it's worth the risk to save this man. And we will not lose our class just because we don't save him. Even if this man survives this shit, he will lose his class for sure for what he has done."

The two Administrators who backed up Capo earlier also backed out.

"We must capture him and force him to speak how to tame the Unique Rank Calamity. He knows the method to capture Calamity, we must capture him!" Oby got on his knees and told the reinforcement the reason why he attacked Tang Shaoyang.

He tried to persuade the five Administrators to side with him with that information. That was valuable information that everyone wanted. At least, it was what he believed.

"NO. I value my life more than anything. Also, we are administrators, we have access to lists of skills and classes. We just need time to experiment with the skills until we find out a way to tame the calamity. I am not that stupid."

Tang Shaoyang did not attack the five Administrators. But his gazes were telling them that if they did not hand over Oby, then he would attack them as well. While he was affected by Avyn's anger, he managed to control his emotions after a while.

Capo let out a sigh and agreed with his friends. Between his morals and his friends also his life. He chose the latter. It was an easy choice, "We will not meddle with your conflict anymore."

He and his friends backed out to a safe distance. They could not leave the place until the Trial of God was over.

At this moment, the sky split once more as the second reinforcement. It was still one team, but the second team had twelve members, twelve Administrators. All of them wore white armor and a sword on their waist.

A man with long white hair led the team. They slowly descended to the city, but stayed fifty meters in the air, assessing the situation. The man was still calm, observing the dragon and the spirits. Then his eyes fell on the six dead Administrators, then his eyes fell on Oby.

Oby had regained his footing after drinking two vials of healing potions. He was hopeful as he looked at the new team. It was the White Knight, the famous Administrator team which was led by the Primordial Vampire, Centurion.

Centurion let out a sigh, shaking his head, "My time is wasted by this fool." After he said that, his figure disappeared and appeared in front of Oby. He landed the kick on the head, sending the five-meter-tall Oby down. Then grabbed Oby's ankle and threw Oby toward the six-headed dragon.

"Finish your business with him and promise me to finish the trial quickly. I don't have time for this stupid mess."

"Please help me, Sir!" Oby immediately got up on his feet. He told the same thing to the second reinforcement about taming the Unique Rank Calamity. He hoped that the second group would be interested, but Centurion did not even give Oby a second glance.

Oby had to resort to bringing The God Order, but what he received was scorn. Not just from Centurion, but from his team as well. They looked disgusted and ignored him.

"You look pathetic now, Oby," Tang Shaoyang voiced his thoughts. The man's bearing was completely different from the one he met this morning. He respected Oby more when Oby was in an apron than the current Oby who was in transformation.

Looking at the current Oby, Avyn was satisfied. The fear in his eyes, and how desperate the man was, asking the others for help. That satisfied Avyn. Seeing Oby's state also knowing Ophelius and Ophelia were safe, her anger subsided.

Tang Shaoyang was relieved that Avyn calmed down. He was shocked that Avyn's emotions could affect him. This was the first time it happened. It was as if they were sharing the same feeling. But of course, he reaped a big benefit from this ordeal. It was thanks to Oby that he managed to learn Avyn's elemental power.

[You have learned Primal Elemental Power, Ethereal Frost!]

Chapter 1545 Advancing To The Next Stage 1

That was the notification he had been ignored for the last two minutes because of the arrival of the administrator's reinforcement. Learning Ethereal Frost was the biggest harvest in this fight. If he had traced it back, it would return to Oby. However, this incident might lead to a disaster if Oby really killed the twins. He did not know what Avyn would do if that happened.

Tang Shaoyang was satisfied with the result, and then he looked at Oby who looked around. He was trying to look for more allies.

It seemed the burly cook realized that he would not receive forgiveness from Tang Shaoyang if he did not try to beg for his life.

Oby looked at the back of the White Knight and panicked. Two administrator teams turned their back on him. His hope was for the third reinforcement. That meant he needed to stall the time until the third reinforcement. Two minutes was all he needed, he must stall for another two minutes.

He turned toward Tang Shaoyang, and his will to fight back immediately disappeared. What he must face was not just the six-headed dragon, but also the more than ten spirits. He did not see a scenario where he could stall for two minutes.

In that instant, he turned around and rushed to the closer gate, the west gate. He made up his mind to run and hide outside. That was the only chance for him, hiding outside the city and waiting until the trial finished.

Oby kicked the ground, launching himself into the air. In that one leap, he saw the wall, and he flew higher than the wall. What he needed was the second leap, and Tang Shaoyang would not be able to catch him in the wild. That was what he thought until he saw a black dragon in front of him. Not just one, but two of them.

The two black dragons opened their mouths and spewed the black fire at him. He was accelerating too fast in the air, heading toward the fire. It was too fast even for him to activate his barrier to protect himself from the fire.

Oby crashed into the black fire, and he was sent down to the ground, burning in the black fire.

Boom!

He crashed into one of the buildings like a meteor. Even though his body was on fire, he immediately got back on his feet. The only thing on his mind was to get away from the city. If he could not fly over the wall, then he would run through the gate.

Boom!

But it was too late the gigantic dragon landed in front of him. Before he could do anything, one of the dragon heads snapped his body. He was caught in the mouth of the dragon. The mouth released the dark mist.

He might not know what the black mist was, but his instinct told him to hold his breath. However, it was as if the black mist was alive. The black mist enveloped him and entered his nose, ear, and his pores. They moved on their own and entered his body. The black mist even got into his eyes.

Before he could analyze what the black mist was. His body was slammed to the ground. With a boom, crashed to the ground on his back. It was painful, but it was supposed not to be damaging for him. That was just a normal brute force. His Tauron's body should be able to endure it fine. He stood up and was about to make another escape, but his body wouldn't listen to him.

Oby tried to run to the other side, but he just stood still there. He stood there in a daze for a moment, and then he realized what happened. The black mist entered his body. Not only did it disrupt the flow of his energy, but it also weakened his muscles and bones. Then he fell to the side because he lost his strength.

His eyes widened in shock, not expecting such a potent poison. Then he felt something wet on her cheek, slowly falling into his mouth. He tasted the liquid, his own blood. Without him realizing it, his mouth was also full of his own blood. This was the most horrifying poison, even a God Rank like him could not hold for long.

Even in such conditions, he did not lose his hope. He glanced at the countdown and found out there was no more countdown. That meant there was no third reinforcement. The third reinforcement was canceled, and the ones who could do that were other administrators. The first two reinforcements agreed to cancel the emergency measure.

He wanted to form a bitter smile, but he could no longer move his muscles. That smile never formed, and his last vision was the six-headed dragons, looking down at him. That was his last vision before everything went dark.

Tang Shaoyang canceled his transformation and looked at Oby's horrifying body. If he did not see with his eyes, he might not believe the one in front of him was Oby's corpse. The Dark Poison was quite terrifying, but the body was still a good material for him. He took the body and the other six administrator's bodies.

After collecting the bodies, including the Admin Helper's bodies, he checked the surroundings. The city was in ruins, though it was just the area at the center, "It seems like I am not out yet." He did not receive any notification about getting disqualified which was good.

Then he looked up at the dark sky. He beckoned at the two dragons above to come down. They came down with their real body.

"Get back to your human form!"

The twins shook their heads. They were traumatized after what happened earlier. Not being able to do anything because of the restriction put by Oby.

"It's fine. You are safe. No one will hurt you now!"

The twins kept shaking their heads, telling him they did not want to transform into the human form.

Tang Shaoyang could only let out a sigh. Avyn died while being summoned. That meant he could not summon her for twenty-four hours. She would also be in a weakened state for one week. But he was glad that Avyn was no different than the other spirits.

Avyn was actually alive, not a dead spirit like the others. He was relieved that Avyn was still alive even after Oby killed her. But without Avyn, no one would take care of the twins. If these two did not listen to him, then they would not listen to anyone.

He was thinking of how to make the twins listen to him, but the sound of the bell interrupted him. The bell came from the west gate.

Along with the bell, someone screamed as well, "The West Gate breached! The West Gate breached! The West Gate breached!"

"Let's gather more materials!" Tang Shaoyang motioned his hand toward the west, telling his spirits to help the west gate. Of course, his aim was no longer the first place for the first stage trial, but the calamity's corpses. He summoned all Ascendant Spirits as well.

He then summoned the Skelly Family and the Skeleton army. Since he had revealed all his spirits, he did not mind showing his skeleton army. He ordered the Skelly Family to help the south gate and the top priority was the body, not saving the other participants' lives.

"Go join them!" Tang Shaoyang told the twins to join the Skelly Family. Albeit the twins looked reluctant, they listened to the order.

That left him with Vandir. That was right, Vandir stayed behind instead of helping the west gate. Because Vandir himself was also an army with his undead.

The Death King waved his hand at Tang Shaoyang, "Then I will head to the east gate." The skeleton knew his job and went to the east side without Tang Shaoyang's instruction.

That left with the north gate, and Tang Shaoyang headed back to the north gate.

*** **

Centurion watched the one-sided fight... No, it was not even a fight, but a hunt. Tauron lost the will to fight and tried to escape. There he saw the Unique Rank Calamity, Chaos Demonic Dragon Calamity. He never saw this type of calamity or even heard it.

He understood why the overseer tried to get those two, but then he shook his head, "But aren't they so stupid? If someone could tame a Unique Rank Calamity, that means the person who tamed it is stronger than the calamity itself."

Centurion shook his head and glanced to the side. The five reinforcements that came before his team, approached him.

"Hello! My name is Capo from the first reinforcement," Capo offered his hand.

"Centurion!" He reached out Capo's hand, "Have you found the surviving Administrators that are not involved with that man?"

Capo smiled bitterly, "My team found the four surviving Administrators, but they are involved with him. The twelve overseers have a scheme for Spirit Contractor. However, it looked like that participant would not bother the four surviving Administrators. They are coming to us right now."

Centurion clicked his tongue. He really hoped that his job would not get more complicated than this. No, it was not his job to replace the old administrators as the overseers. He came because of the emergency measure, and the reason he accepted the call was because his sister also participated in this one of many trials. He was afraid that it would happen during his sister's trial.

"Do you know where they come from?"

"The one who activated the emergency measure is Oby, someone from the God Order. The second is a mixed team, and their leader is from Vigamaur Dgaror, Amos. This Amos triggered the city defense in order to kill that man, but it seemed he was caught in his own trap. He died before he could even put up a fight."

Capo could not help but shake his head as he read his friend's message. These people were scheming against the participants, and they all ended up dead. He felt like they were too stupid to be administrators.

Amos' friends came to meet Centurion and Capo. The four looked nervous as they met Centurion. Centurion and his White Knight was an established name even among administrators. They recognized Centurion in one glance.

"Tell me everything that happened. If you lie to me, then I will kill you all myself!"

Anne told everything to Centurion and Capo, the whole thing, from start to finish. Even what Amos promised them for helping him.

"Vigamaur Dgaror and God Order...." Centurion clicked his tongue, "Now I understand why it was a mess. Do you know Tang Shaoyang tamed two Unique Rank Calamities?"

"Huh!?" Anne was confused by the question. They did not know anything about Tang Shaoyang being able to tame the calamity. She then glanced at her friend, and three of them shook their heads. They did not know anything about the Unique Rank Calamity.

"Alright, I will take over the trial from here on. Go to the west gate and try to minimize the damage even further if you want to keep your Administrator Class," Centurion waved his hand at the four.

Anne and her friends did not dare to talk back. They nodded and went to the west gate.

Even though he looked upset on the outside, Centurion did his job well as the overseer. Mostly because he was interested in Tang Shaoyang. All his spirits were strong, strong enough to kill a Unique Rank Calamity. He witnessed them killing the Unique Rank Calamity. Not just that, but also an individual calamity, a Lich, defending the gate by himself with the undead army.

The thing that he was interested in the most was the skeleton army. How one of the weakest undead could hold the gate better than hundreds of God Ranks. The scary thing he noticed about Tang Shaoyang was that Tang Shaoyang had other strong classes. Not just the classes, but also the bloodline. All those combinations made Tang Shaoyang scary.

"Something fun is bound to happen in the God Realm. The Nirvana Alliance will not stay still after finding out about this man. There might be another big war after fifty-seven years."

Chapter 1546 Advancing To The Next Stage 2

Novoa Valentine's eyes locked on the man as he returned to the north wall. She classified him as the most dangerous man in the city right now. She finally understood why her grandfather dreaded the Spirit Contractor. Not only was the class scary, but his bloodline was also one of a kind.

Even though the fight was far in the center of the city, and she was at the north gate. She kept an eye on the battle. While she did not get every single detail of the battle. The aura and the impact reached where she was. It was a fearful and yet short battle with how the man overpowered the Administrator.

"That's not a fight, but a one-sided fight," That was what it felt like when she looked from afar. Even when the administrator's reinforcement arrived, they did not interfere. She understood why the reinforcement did not interfere. No one wanted to take the risk of fighting against Tang Shaoyang.

The man returned to the north wall as if nothing happened. He returned to his human form and stood alone on an entire section of the wall. No one dared to get closer to him, even though she did not have the courage to get closer.

She clicked her tongue in annoyance and muttered in a low voice, "What's the point of this trial anyway? I will never get first place with that monster in our batch."

The city defense continued with the same composition. This was the second horde with a Unique Rank Calamity. It was the same composition as the previous horde with another Wrath Angel. During the battle between Tang Shaoyang and the administrator, no calamity horde came to the north gate.

Everyone had their attention on one man, Tang Shaoyang. What followed after was a one-man show. The man transformed and fought all Rank 8 Calamity and above. Novoa could not see the battle between Tang Shaoyang and the Unique Rank. She was busy with the horde in front of her.

By the time they wiped the horde, what remained in the frontline was an ice land. The ground froze, and many Rank 8 Calamities were hung on many ice spikes that grew up from the ground.

There she watched Tang Shaoyang collecting the calamity's corpses. She understood if it was a useful calamity where part of their bodies could be used as materials. But many calamities were useless, and that man collected those corpses as well. That was what she noticed. A minute after the horde was over, the man cleaned up the corpses.

The city defense continued for two days, and the same thing was repeated for two days. Tang Shaoyang would take the lead, killing the strong calamities and collecting their bodies. In between the calamity horde wave, the man would leave his post and go to the other three gates.

After a few times, she found out the man was collecting the corpses of the calamities that his summons had killed on the other side. The supposed tense city defense became dull and boring. The reason was simple because, in her mind, she knew the horde would not be able to reach the city with Tang Shaoyang in the front.

*** **

"This trial is so underwhelming..." Tang Shaoyang shared his thoughts with his spirit. It had been two days since the city defense. The first day was the most exciting day because of his fight against the administrators. The following two days were tedious.

He started the trial cautiously that he started from the lowest rank calamity. But now he found out that even the highest rank calamity was not a challenge for him. He beat them, although it took him more time than the other calamities.

Even though it was tedious, the harvest from the city defense was big. He managed to advance all his spirits to Low Archaic Spirit. In fact, he had an excess of materials in his inventory. Enough materials to advance a few Low Archaic Spirit to Intermediate Archaic Spirit.

Once more, he had to thank Amos for presenting the materials. Without the city defense, he would not be able to advance all his spirit to Low Archaic Spirit Ranks. Most of the harvest came from his enemy. Thanks to Oby, he learned Avyn's elemental power. Thanks to Amos, he advanced all spirits to the Archaic Spirit.

'But these administrators are also disappointing...' That was Vandir's words, 'I expected them to give us a little bit more of a challenge but...' The disappointment in his tone was obvious.

Tang Shaoyang had to agree with Vandır. He was a little bit disappointed as well, and once more, he failed to see his limit. He did not know his level of power, and if he did not know what he lacked then he would not be able to improve.

"By the way, where's the next wave?" He had been waiting for ten minutes for the calamity horde, but the horde never came again. Not long after that, he heard notifications in his head.

[Congratulations! You have succeeded in defending the city from the vile calamities!]

[You have completed the City Defense!]

[The first stage of the trial is finished!]

[Congratulations! You have passed to the second stage of the Trial of God!]

[Congratulations! You finished the trial in the first place! You will be rewarded for your contribution to liberating this abandoned world!]

After that, there was a gift box notification. That was the reward of the first place for the first stage. He tapped the gift box to check his reward, and he hoped the reward was not a disappointment.

[You have been chosen as a Candidate for Administrator Class!]

[You obtained a God Rank Weapon of your choice!]

[You obtained a Primal Bloodline, Cosmos Serpent Bloodline!]

[Your faction obtained a small territory on The God Realm!]

Ira told him that the reward was big, and it was indeed a big reward in the first place. A candidate to get an Administrator Class. That was what he wanted for the next class. A God Rank Weapon would be his first God Rank Equipment. He had no use for the bloodline, but it must be a good bloodline. He could use it to reward his subordinates.

The last one was a bit underwhelming. He did not know how important a territory was on the God Realm, and he felt like it was not necessary to have a territory on the God Realm.

The first stage was over, so what was next? He waited for the following announcement. But there was no announcement as he was teleported to a room. It was a luxurious room. The table and chairs were made of gold, the lamp was a diamond lamp, and all accessories in the room were made of precious gems.

It was so luxurious that he did not like the room at all. He liked modern minimalist or classic minimalist more than this luxurious room. As he thought about that, the room changed. It became a classic minimalist style, and he liked the room a lot more than the previous one.

He sat on the comfy couch, "So what now?" There was no more announcement for the next stage. He was sitting there, waiting.

"Let's choose my reward first then."

The System gave him all types of weapons, from a dagger, and a bow, to a staff. Despite the variety, there are only two choices for him. It was either the battle axe he always used since the start of the Game, or the sword to support his Heavenly Sword technique. He was in a dilemma because this would be his first God Rank equipment.

He sat there, closing his eyes and considering his choice. The best would be the sword because he had the technique to complement the sword. But he liked his battle axe more than the sword. Usually, he would choose the logical choice, but not this time. He followed his heart, the battle axe. After a few minutes of consideration, he chose the battle axe.

As soon as he made his choice, the weapon appeared in front of him. The battle axe was all black, from the shaft to the blade. It was two and a half meters long, with a big blade at the end. The axe head was like a full moon with a tiny separation between the two blades and the shaft in the middle. He took the battle axe for a testing grip. It was perfect in his hand.

[World Destroyer]

Grade: God

Bonus:

- Increase 120% damage
- Apply healing reduction by 70%
- Apply regeneration reduction by 80%
- [Unholy Buff]
- [World Split]
- [World Decay]
- [World Siphon]

Durability: 1000%

One weapon granted four skills, and the skills sounded ominous. He did not know if he should test the skill or not. But he certainly liked the passive effect from the weapon. Even though the effect was not what he needed because it was rare for him to have a prolonged fight. The last time he had a long battle was against the God Rank inside the Dimensional Tower. Most of the fight, he would win the fight once he hit his opponent once or twice. So the healing reduction and regeneration reduction were not necessary for him.

Chapter 1547 Best of The Best

Swoosh! Swoosh! Swoosh!

Tang Shaoyang swung his new weapon into the room, careful enough not to destroy anything. He was satisfied with his new weapon. As if the weapon was made for him. That was how he felt when he swung the battle axe.

After a few more swings, he put the battle axe into his inventory. There was a scroll on the table, but he did not see the vial for the bloodline. He raised his eyebrow, thinking the System scammed him until he took the scroll.

[Teleportation Scroll]

Bloodline: Cosmos Serpent

Information: Tear the scroll to proceed with the bloodline inheritance ritual.

It was different from the common bloodline reward where they received a vial with red liquid. The only way to obtain a full transformation skill was through the bloodline inheritance ritual. The same thing he did with Rumru back then. Back then he did not know how significant the ritual was until he found out the people who inherited the bloodline through blood essence did not get the True Transformation skill.

The reward was not a joke, at all. He kept the scroll in his inventory. That bloodline for his people, someone he trusted. If one person could have more than one bloodline, then he might take this one as well. He did not know how powerful this Cosmos Serpent was, but he did not want to throw away the bloodline that could get stronger.

He learned Avyn's Ethereal Frost, and his next target would be Vandir and Zara's Death Authority.

Tang Shaoyang rubbed his chin as if he had never integrated with Vandir before. He wondered what it felt like to integrate with a skeleton. The first time he integrated with a demon spirit, he became half-demon. Would he turn into a skeleton by integrating with a skeleton?

'Do you want to try it right now?' Not just Tang Shaoyang, but Vandir was also curious how it would turn out.

[The stage 2 Trial of God will start soon! Be ready!]

[Stage 2: Best of the Best!]

[566 participants pass the first stage and only the best of 566 participants will pass to the last stage!]

[Form a team of five on your own and challenge the other teams for a duel. Twenty teams with the most wins will advance to stage 3!]

[Rule: 1. You can't challenge the same team twice.]

[2. The challenged team will have the right to decide the format for the duel.]

[3. A team will win if the opponent is killed or surrendered!]

[4. If a member of a team died, they still can continue to participate in the trial.]

[5. A team can't decline a challenge but a team can surrender.]

[Duel format: 1. Duel (1v1) 2. Battle Royal 3. Last Man Standing.]

[Information: There will be no reward for first place in this stage, but there will be a reward for first place in stage 3!]

[Information: You can invite the other participants to form a team! The lounge is also open to meet with the other participants.]

Tang Shaoyang did not like the format for stage 2 because it was a team trial. That meant he must work together with the people he did not know. He preferred to work alone rather than working together with a group of strangers.

But it made sense for it to be a team duel instead of an individual duel for this kind of trial. With 566 participants, the stage 2 trial would take longer to finish as a person could challenge 555 people to a duel. If it was a team of five, there would be 113 teams and fewer duels.

"But wait a minute... It's 566 people... There's one surplus, can I form a team with just me?"

[You can't form a one-man team! There will be an exception for one team to have six members!]

He was disappointed because he did not really need a team as he had his own team. His spirits were his team, and they were more than enough to pass him to the next stage.

"So, who should I choose to be on my team?" Right after he said that his head was buzzing with a lot of notifications. It was an invitation for him to form a team.

"That's right. I don't need to form a team. I just need to wait for their invitation," He realized that he might be a hot item for the other participants. They would want him in their team so they could pass to the next stage. He was a free pass for them. Although it was narcissistic from him, it happened.

Tang Shaoyang rubbed his chin, sorting out the invitation. He was looking for someone he knew, and that might be better to join them than joining a complete stranger.

"But I barely talk with any people..." He just remembered that he interacted with less than ten participants. He remembered the mage and the elf he met in the Arena. Then the remaining talk was not really a conversation. He was basically a loner.

After sorting out the invitation, he found four familiar names: Clement Salle the mage he met in the Arena, Agnes Neteri Iosava the same elf he met in the Arena, Ian Carmen Lorentia, and Novoa Valentine.

He was familiar with Ian Carmen Lorentia and Novoa Valentine because he saw their names often in the ranking list. Honestly, he was surprised the two invited him to join them.

Clement Salle put his team members in the invitation. The two people who were at the party with him in calamity hunting were Jules Asanda and Negasu. Agnes also put a name on her team as well, Castor Bach Justesen. It was another familiar name because he captured Castor once.

With a little hesitation, he accepted Agnes' invitation. He knew them more than Clement Salle's team. Just for that reason, he chose to accept Agnes' invitation.

Agnes sent him a message as soon as he accepted the invitation. There was a message feature for the team. She told him to meet her at the lounge to discuss the remaining two members of their team.

He was about to ask where this lounge was until he received a message from the System.

[Participant Tang Shaoyang, Please come to Pet Space to calm your pets. I have sent someone to your room, and she will guide you to the Pet Space.]

Tang Shaoyang got up from the couch, looking for the door. The first door he opened was for his bedroom. Then he ran to another door which was the exit, and a woman with black hair was waiting

for him. He recognized the woman, one of the Administrators who came in the second reinforcement.

"Follow me!" She turned around and said in a flat tone.

He forgot about Ophelius and Ophelia if not for the message. Not realizing the two were not by his side. He followed the woman and found the sign for the lounge. There was no need to ask Agnes where this lounge was.

Observing the surroundings, he was in a massive building. He could tell how big the building was because the distance between his room and the room on the opposite side was more than a hundred meters. To his right was the room and to his left was the glass rail.

He stepped to the glass rail and looked down. He was on the fifth floor, and there was a massive arena on the first floor. The arena must be the place for the duel. That was it, aside from how big the building was, there was nothing special.

Tang Shaoyang followed the woman into the elevator, and she pressed U2 for the floor below the first floor. There were no words exchanged between them until he arrived at the place called Pet Space.

The moment he stepped out of the elevator, he heard the bumping sound as the ground vibrated slightly. He turned toward the noise and saw the two dragons bombarding the glass with their fire. The glass started to crack, and it was just a matter of time until it broke. But it was commendable for the quality of the glass as it managed to hold many attacks from two Unique Rank Calamity.

The twins stopped attacking the glass at the sight of him. The two came closer to the glass and started complaining through telepathy. They complained the space was too small for them, and they asked to meet him as well.

"If they break the barrier before you come, then we have no choice but to kill them!" The man who opened the door for the twins' confinement said as he opened the door to confinement.

Tang Shaoyang glanced at the man. The man was wearing the same white armor as the woman, "If I have to say, that's a poor decision from you. There was a man who said the same thing. But the same man died two days ago. I think you know who that man is."

He shrugged and did not wait to see the man's reaction, entering the confinement, "That's your fault. If you are in your human form, they will teleport you two to my room instead of this confinement. Get to your human form or get smaller, or else you two will stay here."

Even though he said the building was massive, it was still small for the twins' true form. The two opted to be a smaller version of themselves.

"No No No... Get smaller until you can stay on shoulders," They were about the SUV size, and it was still too big.

The twins did not like the idea of becoming so small to fit on his shoulders. They chose to turn to their human form instead.

Chapter 1548 Super Team 1

Castor tapped the metal table with his index fingers which made an annoying noise, his legs moved unceasingly, and he had been looking around the lounge. He had been like that since his butt touched the chair.

"Are you sure Tang Shaoyang accepted our invitation?" He asked the elf that sat across him. His tone showed how worried he was.

"Tch, I kinda regret making a team with you now. Can you at least help me to sort out the people for our team? You are so useless," Agnes just rolled her eyes and kept looking at the names on the lists that were not on the team yet.

"Who cares about that? As long as we have Tang Shaoyang in our team, the remaining two don't really matter anymore. We can just invite the people who are not on the team. They will join us once they see Tang Shaoyang in our team. Instead of worrying about that, we need to ensure the other teams can't snatch our ace!"

That was what Castor worried about. He was afraid that someone intercepted Tang Shaoyang on the way to the lounge and managed to persuade Tang Shaoyang. Tang Shaoyang's name was no longer notorious in this stage, but a free pass to stage 3.

Even though he did not know what exactly happened in the city during the city defense. He could tell based on the points that Tang Shaoyang killed at least five Administrators. Not only that, but he also found out about the Spirit Contractor during the city defense and the famous skeleton army.

Having Tang Shaoyang meant he had an army in his team. It was the top priority to secure Tang Shaoyang into the team instead of looking for the other candidates. He had been checking his team screen, making sure Tang Shaoyang's name was on the team while looking around in the big lounge. His eyes glued at the three entrances to the lounge.

His effort was not wasted as he spotted the man he had been looking for since he arrived at the lounge. He stood up and waved his hand at Tang Shaoyang, "We are here, Tang! We are here!"

His words caused the others to look at him. The word Tang was quite sensitive. It was the name that got first place in stage 1 with a gap that was impossible to catch up. The first and the second place had a wide gap.

"Huh!? Can we bring our children to the trial?"

That was a weird question that came from Castor. Agnes could not help but look as well. She was weirded by the fact that Tang Shaoyang brought twins with him. They did not look similar to Tang Shaoyang, but they shared the same trait.

The twins had their demon eyes and also black hair. She could not help to compare the boy and Tang Shaoyang. While they shared similar traits, the boy was clearly a level above Tang Shaoyang in terms of looks. The boy was more good-looking than the father.

Tang Shaoyang arrived at the table and nodded at the two. Then he took the seat with the twins.

Castor's eyes kept looking at the twins, but Agnes masked her curiosity better than Castor. She came closer to Tang Shaoyang, "Do you have friends that you want to invite?"

"No! You can invite anyone, your acquaintance or your faction's members," Tang Shaoyang shook his head. It did not really matter to him who the other two members were.

Agnes nodded her head and checked the list once more. The second and the third super ace had not formed or joined a team yet. The three super aces in her mind were first Tang Shaoyang, the second was Ian Carmen Lorentia, and the third ace was Novoa Valentine.

Even though she put Novoa Valentine far below Tang Shaoyang and Ian Carmen Lorentia, she still categorized them as super aces for stage 2. If Tang Shaoyang declined her invitation, she would invite Ian Carmen Lorentia next and Novoa Valentine if Ian also refused her invitation.

"Do you mind if I invite Ian Carmen Lorentia and Novoa Valentine to the team?" Agnes noticed the two other two super aces were not in a team. However, she had to make sure that Tang Shaoyang had no beef with these before inviting them. The most important piece in this team was still Tang Shaoyang.

"You can invite anyone you want. You are the leader, there's no need to ask for my permission," Tang Shaoyang stood up and brought the twins to get food, "I am going to get food."

Castor had not said anything, but his eyes glued on the twins, "Are they really his children? But we can't bring anyone, even our contracted pet into the trial."

The lounge provided food for the participants, and it was free for the first portion. They had to pay for the second portion and so on. There was a variety of foods and drinks, but the twins' eyes were glued on the stand with the beast steak. The stand prepared five different types of meat, but the twins focused on Blazing Bull steak. It was a bull-like beast, but their skin was made of fire. But he had to admit that the marbles on the meat were too tempting.

Tang Shaoyang ordered twenty-one servings. Twenty for the twins, and one for him. While waiting for his order, he heard a familiar voice.

"You can just tell them your table number, and they will bring your order to your table."

Tang Shaoyang turned toward the voice. It was Ira the first Admin Helper he met in the trial.

"You are alive? I thought you were one of the Admin Helpers that died during the battle."

Ira's mouth twitched slightly at the first thing that came out from Tang Shaoyang's mouth, "Yeah, thanks to you I only got half from the bet. Half of them died so they can't pay the bet."

Tang Shaoyang just shrugged at her and gave the number of his table to the attendant.

"The God Order will not stay still after you killed their seven Administrators. While they might not be able to do anything in stage 2, I am sure they have a plan for you in stage 3. This is the payment for winning me the bet."

Chapter 1549 Super Team 2

Tang Shaoyang returned to the table and two familiar faces were there. Novoa Valentine and Ian Carmen Lorentia accepted the invitation. Even Agnes was surprised that the two accepted the invitation so fast. She thought she needed to persuade them a little bit to join. But she also understood why, because Tang Shaoyang was on the team.

Agnes glanced at Tang Shaoyang, hoping to see his reaction. But the man did not show any reactions, at all.

'Whatever, what is most important is that I have created the super team. We will pass to the next stage breezily with this super team.'

"I am thinking of fighting you at this stage, Tang. But again, there's no reward for this stage, so I will save my cards for the last stage. We will eventually fight in the third stage."

That was the first thing Ian Carmen Lorentia said to Tang Shaoyang.

Novoa Valentine stood up and introduced herself, "Hello! My name is Novoa Valentine."

Tang Shaoyang gave the two a nod, "Tang Shaoyang."

An awkward silence followed after the five gathered at the table. No one knew what to say, and it was especially torture for Agnes and Castor. Among the five, the two were the lowest rank. They were afraid to speak, afraid of offending them without him knowing.

"Are they your kids?" Ian Carmen was the first one to break the silence. He asked what the other three were most curious about.

Agnes was glad that Ian Carmen broke the silence. But she did not think he would choose the heavy topic. She felt like it was not good to pry into Tang Shaoyang's private life in their first meeting.

"No. They are my companions. The boy is Ophelius and the girl is Ophelia." The two kids observed the four, but they did not say anything.

Ian Carmen nodded his head, seemingly knowing something about the two. But the three looked confused, not understanding what Tang Shaoyang meant by a companion.

Agnes could not hold her curiosity anymore and used [Detection] on the twins. Her mouth gaped and her eyes widened in shock. The chances of encountering a Unique Rank Calamity in the wild were low, even maybe less than one percent with the city defense being an exception.

However, she met them here, in a space that was supposed to be free from calamity. Not just one, but two Unique Rank Calamities. But the thing that blew her mind was Tang Shaoyang was capable of taming them into his companion.

She heard a lot of stories about people working together with calamities, summoning them from the Void, and so on. But she never heard the story of an individual capable of taming a calamity. It was not just any calamity, but two Unique Rank Calamities.

Taming a Unique Rank Calamity was absurd, not in her wildest imagination it could happen. But then she was struck with a realization. If Tang Shaoyang could tame a Unique Rank Calamity, then just how strong would this man be?

For someone to tame a wild beast, one must be stronger than the beast or the beast would not listen. But just slightly stronger, but overwhelmingly strong to make the beast listen. Or maybe there was a special method in use here.

Agnes wanted to believe Tang Shaoyang had a special method to tame the calamity. But it was not totally unbelievable for the man to be overwhelmingly stronger than a Unique Rank Calamity. For what he had done against the seven Administrators, it was not unbelievable that Tang Shaoyang tamed them by just his sheer force.

Tang Shaoyang's status changed in Agnes' mind. He was no longer Super Ace with the twins, but a cheat code.

'I guess three of them in the same team is a cheat code already. I will be surprised if there's a team that is willing to accept our challenge.'

Novoa and Castor found out the twins' identity later on. They shared the reaction with Agnes, but no one brought up the topic of the twins being calamity on the table.

"So, when will the duel start?" Tang Shaoyang asked. It had been a month and a half, but he already missed his home. He just wanted to return to his home and finish the trial.

"We can start issuing a challenge if all participants are in the team. But there's a time limit which is twenty-four hours. I will be submitting our team officially, do you have an idea for the name of our team?" Agnes answered.

"I don't have, and I don't mind with anything," That was Tang Shaoyang's answer.

"I don't care. You can name it with anything," That was Ian Carmen's answer.

"I don't really mind with anything," Novoa replied politely.

"Then let's go with the First Team," Agnes also did not care about the name of the team. She named it the first team with the thought that her team would end up in first place.

"What? Why don't you ask me?" Castor was upset that Agnes did not ask him, "I have better ideas than the First Team. Super Team is better than that ugly First Steam. You know what's better, Champion. We will be the champion for the second stage!"

Agnes had submitted the team, so it did not really matter if Castor complained. They would go with the First Team.

They stayed in the lounge together for hours, waiting for all participants to form the team. It took five hours until all teams formed, and they had been waiting for that. As soon as they could issue the challenge, Agnes immediately submitted the challenge to a random team.

[The First Team has issued a challenge to the Prime Team!]

The first challenge was announced to all participants. The people in the lounge immediately stared at the First Team's table. As everyone was expecting the First Team to perform, it was followed with another announcement.

[First Team win! The Prime Team withdrew from the duel!]

Right after the surrender announcement was followed with another challenge announcement.

[First Team has issued a challenge to Wolf Team!]

[First Team win! The Wolf Team withdrew from the duel!]

Chapter 1550 The Crown 1

All teams surrendered when First Steam issued them a challenge. It was not like they would be ridiculed forfeiting the match. The first place, the second place, and the third place were in one team. The two members were also in the top twenty. While Castor wanted to call themselves a Super Team, they earned a name as a Bully Team.

Agnes could not hide her smile as she kept issuing the challenge. In a few minutes, her team got a hundred wins. The other teams were also letting the First Team achieve the perfect score, 112 wins before they started issuing challenges. Just as everyone thought no one would dare to accept the First Team's challenge, one team accepted the challenge.

[The First Team has issued a challenge to the Vigamaur Dgaror Team!]

[Vigamaur Dgaror Team accepts the challenge!]

[Vigamaur Dgaror Team has chosen the Battle Royal format for the duel!]

[The duel will commence in one minute!]

Agnes was surprised just like the others. She then checked the team members. Vigamaur Dgaror Team was the only team with six members in it. They were not just a random team, but a team with all their members in the top twenty. It was the remains of Vigamaur Dgaror Faction and Clement Salle's party. Agnes was familiar with those six names.

"Are they stupid or what?" Castor blurted out.

He understood that they were trying to take advantage of their number. But this was a fight where a number did not really matter. Not only Tang Shaoyang was a Spirit Contractor and also had a skeleton army, but there were also two Unique Rank Calamities. On top of that, it was a battle royal. Just Tang Shaoyang alone should be enough to wipe them out.

As the one-minute countdown was over, they were teleported to the arena. The others could watch them from the screen or the lounge. As they stepped into the arena, the one-hundred-meter arena turned into an open field. It was as if they were teleported into a new dimension.

The two teams were separated by thirty meters. Each team was confined by the barrier and could not move out from the barrier until the duel started.

"This is different to what you promised, Ti yana!" Clement Salle raised his voice at the woman with a white coat. Negasu and Jules who were at his party before, held him back.

"What are you afraid of? There are just five people, and we have six people. It's a six against five. We have the advantage! And don't you worry, I and Niere will face Tang Shaoyang! Gerda will take on Ian Carmen. You three decided who you would fight," Ti yana Viveiros dismissed the complaint by waving her hand. Her eyes locked on Tang Shaoyang from the start.

"So what even if we have six people? A single Tang Shaoyang will kill us all! He killed eight Administrators in the first stage, and one of them is from your faction. He killed your Administrator in less than a minute. You should know as well that he killed another seven administrators after that! And do you think you still can win!?" Clement Salle could not hold his emotion back.

Ti yana and Niere approached him first. He thought joining hands with them would pave the way to the third stage smoothly. They would be the second super team after the First Team. He did not even care if the name was after their faction. His two friends also agreed, and they came to an agreement that they would not fight a team with Tang Shaoyang on that team. But Ti yana broke the agreement by accepting the challenge from the First Team. He could not stop here because she was the leader of the team.

"It's not six against five, but six against seven..." Jules Asanda's voice wavered, "I don't think it's worth trying to fight them with those twins in their team."

The six people who tried to solve the tension could not help but look at the First Team. They noticed the twins, the boy and the girl. They were surprised at first as to how the kids could join the fight as well. But then they used [Detection] and found out what the twins were.

Tiyana, Gerda, and Niere paled after finding out the twins' identity. It took a lot of courage to accept the challenge from the First Team. Tiyana knew her decision to accept the challenge was reckless, but she still wanted to try to fight them. Even after knowing eight Administrators died in his hand. But that courage crumbled after finding the twins' identity.

The countdown for the duel went down, and six of them just stared blankly at the opposite team. As the duel started, the barrier disappeared. Clement Salle, Negasu, and Jules Asanda raised their hands.

"We surrender!"

That came out of their mouths at the same time. They did not even discuss it with the three women. It was what Clement Salle planned when Tiyana accepted the challenge. He no longer hesitated after finding out the twins. He did not care if he had to bear the shame. His life was more important than his pride.

Tang Shaoyang and the others remained in their spot, not moving. They did not plan anything for the fight. With three opponents suddenly surrendered, they just looked at the remaining three women. It was unreasonable for them to continue the fight even if it was for revenge.

Not long after the three disappeared from the arena, the three women also surrendered. While the result was what many expected, they were disappointed because they were not able to witness how Tang Shaoyang fought.

Tang Shaoyang returned to the same table with everyone. With this win, they had 122 wins, a perfect score for the second stage. He was about to ask if he could proceed to the next stage without waiting for the second stage to finish. A notification rang in his head.

[Congratulations! Your team "First Team" has achieved the perfect score for the second stage. You and your team will proceed to the last stage!]

Right after the announcement, he was teleported to the new place. This time he was not alone, but along with his team. They were teleported into a new room, six of them together.

[Welcome to the third stage of Trial of God: The Crown!]
