

Armipotent 1561

Chapter 1561 Hunter And Prey 1

[The new race has been named, Tangu!]

[Congratulations! You are the seventeenth player who has discovered the new race!]

[You are the third player who evolved the new race!]

[The System will give you a hefty reward for contributing to finding a new race!]

[Congratulations! You have evolved from Tang to Tangu!]

[You gained 500 levels!]

[All your attributes increased by 50-Star!]

[You gained a new skill, Calamity Elemental Body!]

[You gained a new skill, Calamitification!]

[You gained a new skill, Artrus Transformation!]

[You gained a new skill, King of Calamity Domain!]

The new skills sounded good, and he got the elemental body he wanted as well. But there was a skill that he did not understand, [Calamitification]. He had no clue what it was about.

'Is that word even exist in the dictionary?'

[I think that skill is similar to your [Demonification]. Instead of turning the target into a demon, the skill turns the target into calamity.]

Having Vandir as his spirit was really helpful. The skeleton who had vast knowledge often helped him with the skill he did not know. And it sounded right that the skill could turn someone into a calamity.

After reading all the rewards, he was teleported back to the trial area. Tang Shaoyang immediately checked his surroundings with his Chaos Eyes. To his surprise, he found a group fight, and he recognized one of them, the white-haired woman, Novoa Valentine.

Novoa's party had the same colored hair, white. Three of them were men with short hair, but one of them died with a big hole in the chest. The heart was missing from the body. It was three against four, which meant their enemy took their party member with a surprise attack.

The two with the Novoa Valentine had the same silver crowns, and their value had increased. It was no longer fifty, but ninety. Three of them had ninety points on their heads.

Their enemy had one golden crown, two silver crowns, and a bronze crown. Their points were much higher than Novoa's party. The one with the golden crown was 192.5 points, the two silver crowns were 142.5 points, and the bronze crown was 122.5 points.

Tang Shaoyang came closer, and he was not careful enough to hide his presence. Novoa called her party to stay back. It confused the opponents, but they did the same. Following Novoa's gaze, they found a man watching them from the tree.

Novoa's already pale complexion turned even more pale. Even though they were on the same team in the second stage. They were not that close, in fact, they barely talked. On top of that, she was not with them when they parted. It could be said that she parted with him not in a good way. She felt like she was so unlucky to have met Tang Shaoyang in such a huge place.

While Novoa was worried, her opponent had a different thought than her. They looked at Tang Shaoyang as if Tang Shaoyang was a hidden treasure for them to pick. The shiny crown above Tang Shaoyang excited them even more.

Novoa glanced at Tang Shaoyang and then she looked at her enemy, "We should leave and let them fight that man!" She whispered to her friend that Tang Shaoyang fought the four.

If it was before, she might feel guilty for leaving Tang Shaoyang. But not anymore after witnessing how the man killed seven Administrators. It was the best decision to leave, letting the four stall time for them while they escaped.

"What!? Why!?" Her party members did not understand Novoa's train of thought. The best scenario would be that they joined with this new man and took down the four. Then three of them worked together to fight the man with 200 points. That was the best outcome.

"Just listen to me!" Novoa raised her voice. The two reluctantly listened to her command.

"Oy!" Tang Shaoyang called out to Novoa's party members, "Leave the body if you want to leave!" He would not let them take the body. It was a God Rank material, and he needed them. Especially after using all his stocks in summoning Artrus.

"Leave the body!" Novoa pulled her party member. That meant Tang Shaoyang let them leave, and she would not miss the chance even if she had to abandon her cousin's body.

The party of four turned toward Novoa's party, realizing their prey indeed tried to escape. The man with a golden crown analyzed the situation. The best outcome was to send him and the other two to kill the three, and one of them held the man with 200 points. They got the full points, but the risk was big. They might lose their friend who tried to hold the man with 200 points.

"Let them leave and focus on him!" The man with the golden crown made the decision. He took the choice with less risk, fighting the alone man with four of them. It was less points than killing the three, but the risk was also minimal, four against one.

Unlike Novoa's party, this party listened to their leader quite well. They created a distance from Novoa's party and got closer to Tang Shaoyang. They surrounded Tang Shaoyang from four directions.

Meanwhile, Novoa escaped in the opposite direction, making sure they would not meet Tang Shaoyang anymore. She gave a glance for a moment, then shook her head.

Everything was because of her brother. If not for his brother, she might part with Tang Shaoyang in a good way like the others. Her brother was Centurion Valentine, the Administrator who came as the second reinforcement when Oby activated the emergency measure.

Her brother called her out and told her to part ways with Tang Shaoyang as soon as they arrived in the waiting area for the third stage. He told her not to make any contact with Tang Shaoyang anymore.

But Novoa could not really resent her brother for that. His reasoning was understandable because of the bounty on Tang Shaoyang's head. As well as the Nirvana Alliance's involvement with Tang Shaoyang.

If she was found around Tang Shaoyang, she would be targeted because the others would misunderstand her as Tang Shaoyang's friend.

Chapter 1562 Hunter and Prey 2

Tang Shaoyang felt like Novoa was avoiding him. It was proven how she decided to run away instead of trying to team up together. It was not like he wanted to team up, but that was just weird. Even though the time they spent together was so short, they were still former teammates. It was not like he would kill her as long as she did not try to kill him.

"Whatever."

Tang Shaoyang shrugged at Novoa's weird attitude toward him. He focused on the party before him. They were circling him, a generic formation to gang up on someone.

"I would like to enjoy the moment, but I don't have that much time."

He summoned all his spirits. That was right, all of the spirits. From four against one, it became thirty-two against four.

The man with the golden crown was shocked, immediately realizing who the man he was trying to kill was. The man in front of him was the hottest topic in this trial. The participant with a bounty on his head put by The Nirvana Alliance. Tang Shaoyang, the Spirit Contractor.

He did not even communicate with his party members as he turned around and tried to escape. He hoped his party members would be enough to buy him time.

His party members cursed at him when they realized he escaped by himself. Of course, he ignored them with a thought, 'I will gather more people and kill him to avenge you guys.'

He was delighted that Tang Shaoyang did not chase after him. There was no spirit behind him as he successfully made an escape.

It was now three against thirty-one Archaic Spirits. Tang Shaoyang did not have to do anything as his spirits overwhelmed them before they could use anything. It was quick and clean. Doombringer then threw the three bodies before his feet.

Tang Shaoyang shook his head at the sight of the three corpses. His spirits were quite ruthless, they killed them before they could even surrender. One lost half of his head, another one was split into two, and the third one was unrecognizable. He put the bodies into inventory as Avyn landed next to him.

"Why did you let him escape? We can hold him easily even if he has a gold crown."

That was right, Tang Shaoyang ordered the spirits to let the man with the golden crown escape. Of course, there was a reason behind his decision.

"No worry. He will come back and bring more people to me. That's much better than looking at people one by one. Let them know where I am, and they will come to me on their own."

That was the plan. With a bounty on his head, people were looking for him to claim the bounty. He used the man with the golden crown to announce his whereabouts.

Tang Shaoyang clapped his hand, attracting his spirits' attention, "Here is the plan guys. Form three teams and go hunt them for me! You decide your team, and you are not allowed to move alone. We are not trying to have fun, but I want to finish and win this trial as quickly as possible!"

To his surprise, the team was quickly formed. He thought there would be a debate between themselves to decide the team. They just formed three groups, twenty-nine spirits. Two teams with ten spirits, and one team with nine spirits. Two spirits did not join the team, they stayed on Tang Shaoyang's side: Avyn and Zara.

"We will stay with you. No compromise for this matter!" Avyn made it clear that she would stay with him no matter what he said. Zara did not say anything, but she clearly agreed with Avyn's decision to stay with Tang Shaoyang. They were afraid something happened to Tang Shaoyang. Especially after the incident with Artrus.

Tang Shaoyang nodded and walked in the direction where the man with the golden crown escaped, "I will go this way."

As he said that, the three teams went in three different directions. Ten Archaic Spirits should be enough to kill a party of God Rank.

"Are we chasing that man?" Zara asked.

"Not really. If he returns, he will return from this direction too."

*** **

Mourad kept going even though no one was chasing after him. He made sure that Tang Shaoyang would not be able to catch him, at all. Not sure why Tang Shaoyang let him escape, but he would use this chance to come back with more people and take the bounty.

As Tang Shaoyang predicted, Mourad planned to gather more people to return. The first place for the trial was quite hard, so focusing on the bounty might be a good choice for him. Of course, he would keep trying in the trial, but killing Tang Shaoyang took priority.

As he kept running in one direction, he met three familiar faces, 'Fuck!'. He cursed in his heart. Meeting the three vampires from the Valentine Family was the worst encounter.

The three also turned around and were surprised to see Mourad, especially Novoa. Novoa believed it would not be that hard to stop someone like Mourad from escaping. This was suspicious.

"Don't attack me! I come with peace of mind, and I have a proposal for you guys!"

Mourad slowed down while raising his hands in the air. He was showing them that he meant no harm.

Novoa frowned deeper as the situation was even more suspicious. Focusing on her senses, she tried to check the surroundings, especially the area behind Mourad. She was afraid that Tang Shaoyang used Mourad as bait. However, she could not find anyone. Mourad was alone. Her cousins also confirmed that Mourad was alone.

"Don't listen to him. We kill him and keep moving!" Novoa did not want to listen to Mourad, not willing to take any risk. She did not know when Tang Shaoyang would catch up.

"No, I don't want to fight you guys anymore. I have a better proposal than just merely points. The reward bounty from the Nirvana Alliance! Let's work together and kill Tang Shaoyang!"

Chapter 1563 Hunter and Prey 3

"No! Don't listen to him! We kill him and keep moving!" Novoa was ready to make her move anytime, but one of her cousins stopped her.

Dinesen Valentine was a descendant of the branch family of Valentine. He was strong compared to his peers, but he could never beat the descendant from the main family. The main family of Valentine's bloodline was the closest to their progenitor, Primal Vampire.

No matter how hard he tried, he could not be stronger than those from the main family. Even when he asked for an upgraded bloodline for the Demi-God's trial, he was still below Novoa who came from the main family.

The only way to break the shackle was to acquire a new bloodline, a stronger bloodline than his thin Primal Vampire. For someone who awakened his innate bloodline like him. The only way to change his bloodline was to acquire a Primal Bloodline through the inheritance bloodline ritual. He could not change his bloodline with the blood essence. It must be through the ritual, and he wanted a Primal Bloodline.

The dream of acquiring Primal Bloodline was only through this trial. But that dream was impossible. Even someone as strong as Novoa did not have that big hope to get second place, let alone the first place.

Just as he thought he could not get what he wanted, Dinesen heard the rumor about the Nirvana Alliance's bounty. Even though he did not really like the Nirvana Alliance, the reward for the bounty was too tempting to refuse. In fact, that might be the only chance for him to acquire the Primal Bloodline.

"Let me listen to your plan first."

Dinesen made up his mind. This was his chance to change his fate. His brother seemed to have the same thought as him as they exchanged glances and nodded.

"Good. There's no plan yet, but I know where Tang Shaoyang is. Before we start making a plan, I think it will be better if we gather more people first. He is a Spirit Contractor, and he has around seventeen spirits? Around that number. We need at least thirty people to fight him!"

Mourad did not know how many spirits Tang Shaoyang summoned. The moment he saw Tang Shaoyang summoned the spirits. He did not have a second thought to abandon his party. But he was sure it was more than ten spirits, around fifteen maybe. He said seventeen because it was more convincing than saying it was fifteen.

"I am not really sure, and he might keep a few secrets from me. But we need more people to fight him!"

"Don't even try to fight him, Dinesen! Iversen! You guys can't kill him no matter how many people you gather!" her bad feeling came true.

Unless they could gather at least a hundred people, she did not think they could kill Tang Shaoyang. The bigger problem was how they split the reward? Only one person received the reward, and the reward was just two things: A set of God Rank artifacts, and a Primal Bloodline.

"No! This is our chance, Novoa. You can't stop us!" Dinesen had made up his mind to fight the Spirit Contractor. His chance was small to obtain the kill, but the chance was still higher than trying to get to second place in this trial.

"You fool! The reward is for one person, so how are you going to split the reward?"

Dinesen and Iversen just realized the most crucial thing in the cooperation. That was right, the reward was just for one person. It was not like they all would get the reward just because they were working together.

"The kill! Whoever lands a killing blow on Tang Shaoyang will get the reward. We will make an agreement and also take an oath as we gather people. I am also just trying my luck here," Mourad smiled assuringly.

"I will join you!" The brothers decided to join Mourad in the plan to kill Tang Shaoyang. Then they turned toward their cousin, "Join with us, Novoa. There's no harm in participating in the hunt. The more people, the higher our chance to kill Tang Shaoyang! No, we need you! You are in the same batch as him. You should know more about him than any of us. We need the information, Novoa!" Dinesen pressured Novoa.

"Ah, right. Do you want to know about him? You are trying to kill him is the same as you are trying to kill yourself! He killed seven Administrators effortlessly. SEVEN ADMINISTRATORS!" Novoa raised her voice. She was not trying to scare her cousins, but she tried to save them.

"Seven Administrators against Tang Shaoyang. They all died and the last Administrator activated the emergency measure. That was why my brother became an overseer from my batch. He came through the emergency measures!"

They were shocked when they heard seven administrators were killed. The most shocking part was that Tang Shaoyang fought them seven against one. One or two or maybe even three sounded possible. But seven administrators sounded exaggerated. That was what Mourad believed. She lied so her friends did not join him. Of course, Mourad would not let that happen.

"Hmmm... I know you care about them, Lady. But you don't need to exaggerate your story. He might kill two or three Administrators, but seven?" Mourad shook his head.

Dinesen and Iversen furrowed their brows, looking at Novoa suspiciously. They trusted Novoa more than Mourad. However, her story just did not make sense.

"I know Spirit Contractor is strong. That's the reason why the Nirvana Alliance targets people with that class. Because that class could break the balance, but in the end, Tang Shaoyang is just a rookie like us."

The two vampires believed Mourad more than Novoa at this point. They were aware that their cousin was worried about them. She lied because she did not want them in danger. Their hearts warmed, but they were determined to take their chance here. This was one of the rare chances they might not encounter in the rest of their lives.

Novoa understood why her cousin did not believe her because she was the same if she was in the same position. It sounded unbelievable, but she witnessed everything with her eyes.

She let out a sigh, "I will join the team too but with a condition." The condition was for her cousins, not Mourad. She then glanced at Mourad, "Can you give us a private space?"

Mourad smiled and nodded.

"I will do my best to assist you guys, but with one condition. Don't put yourself at unnecessary risk. If later you find out that you can't kill Tang Shaoyang, I want you to surrender. That's my condition."

Iversen and Dinesen exchanged glances. They realized that Novoa's concern for them was genuine.

"Yes!" The brother agreed with the condition.

Chapter 1564 Hunter and Prey 4

"Are we really just going to walk like this forever?" Avyn asked grumpily.

She had been grumpy for a while because Tang Shaoyang had been walking, just walking in a straight line. There was no intention of looking for the others. It was a battle royal where lives were at stake, but he made it look like an evening stroll.

Tang Shaoyang pointed at the crown above his head. It was no longer worth two hundred points as it originally was. After killing three people around forty minutes ago, his points shot up to 465 points. He sent his spirits out, and he has 1145 points now, there was no need for him to actively search for the others.

His spirit earned him 680 points in less than an hour. They were making good progress in less than an hour. Of course, the main concern was still about Avyn. She was still in her weakened condition. It had not been a week since she first died from the ambush.

"Aren't we going to finish the trial as quickly as possible? We have to move!" Avyn was concerned with the two children. There was no way she would trust those people after what happened in the first stage.

"My eyes are looking for people as we walk, but what can I do if we can't find them?" Then he met Avyn's eyes, "And you are not fighting, Avyn. You still have a weakened status on you."

"I am strong enough to face these people. They looked weak anyway."

If it was Avyn with no status effect, then Tang Shaoyang would trust her, however, not in her current state. He did not know what happened for a spirit to die before the weakened status was gone. If the status stacked, then it was fine, but what if he lost her?

"Nope! We will do a Spirit Integration. You will fight with me."

The two bickered for another fifteen minutes, and Tang Shaoyang stopped the two. He found the people, not just a party but many of them. Three hundred meters ahead, he found two people, hiding. He thought the two people hid after losing their party members.

He enlarged his wide vision and discovered many people, gathered in one area. They were around three thousand meters away from where he was. More than a hundred he had to guess roughly, and they were not fighting. He realized the two who hid were the scouts from this large group.

Sure enough, as soon as the two scouts found him, they returned to the big group. That confirmed the two were part of the big group. From the big group, he found four familiar faces.

One of them was the man with the golden crown who escaped from him. The remaining three were the three white-haired people who escaped earlier as well. Novoa and her party were in that big group.

"I don't know she hates me that much," He muttered.

Novoa was the first one to leave the team, and she was not among the big group who wanted to kill him. The man with the golden crown, who he did not know his name, was not disappointing him. The man moved as he expected, looking for more people before going after him again.

"Guys! We will have a feast. I will recall you right now!"

Tang Shaoyang recalled all his spirits without waiting for their responses. Not long after the two returned to the group. Six scout teams returned to the big group. The man with the golden was gathering twelve more people with the same golden crown. It seemed like they were the leader of the big group, or they assumed themselves as the leader because of their golden crown.

The big group was made of people with iron crowns, lower than the bronze crown which was just worth 10 points, and mixed with silver and bronze crowns.

"That's why we don't meet anyone as we walk. The guy that escaped from us is gathering them," He then turned toward Avyn. The latter let out a sigh and nodded.

Tang Shaoyang recalled Avyn and activated his transformation. He was about to use [Spirit Integration], but he noticed Zara looking at him strangely. He was about to ask, but he noticed it with his [Chaos Eyes].

It was his appearance in his transformation. It was different than before. The noticeable difference was his hair. During his transformation, his hair turned white, but it changed to light blue now. Not just the color, but his hair grew much longer, reaching his back. The first thing that came into his mind was him consuming Artrus which changed him.

The second change was on his horn. The previous horns were sharp and thin like a blade. But it was bigger and longer now, and it looked like it grew from his eyebrow. His whole forehead was covered by the horn.

The third difference was his body. He grew bigger and taller during the transformation. But he was even bigger and taller now. His chest and arm bulked up. His palm was bigger than his daughter's when she was still a baby. He was right now over three meters tall. He just noticed that Zara was much shorter than usual, that was the reason.

The most noticeable difference was his wings. The frame was still the same, but the rest was made of fire. The leather part had turned into dark-navy-blue fire.

That was the change in his appearance which he believed was because of his race evolution. As for the rest, he did not feel any difference from the usual transformation. It was as comfortable as before.

He was too busy checking his new changes and only noticed the big group was moving toward him. The same man with the golden crown was moving together with the two white-haired men from

Novoa's party. Meanwhile, the two scouts were ahead of him, and the remaining people were behind him.

As they were close enough, the two scouts stopped abruptly. He then returned to the man with the golden crown. They halted their advance five hundred meters away from Tang Shaoyang.

Chapter 1565 Hunter and Prey 5

Mourad listened to the report from the scout. They found someone in a dragon transformation. The scout did not want to get the wrong target, so he returned to confirm with Mourad who had met with Tang Shaoyang.

"I don't know if Tang Shaoyang has a dragon bloodline or not," Mourad turned toward Iversen and Dinesen, "Can you confirm it with your cousin."

During the early encounter, he abandoned his friend without confirming Tang Shaoyang's bloodline. He did not know that much about Tang Shaoyang. The bounty only told them Tang Shaoyang's class which was Spirit Contractor.

The Valentine brothers nodded and sent a message to Novoa. The response was quick, "Yes. Tang Shaoyang's bloodline is the cursed dragon bloodline. And it's not just a normal bloodline, he inherits the bloodline through a ritual. He used the True Dragon form in the fight against the seven Administrators."

Mourad clicked his tongue when the fight against seven Administrators was brought up, "Your cousin has not given up, huh? Why does she still bring up that stupid lie?"

He now had more people and was not afraid that Novoa would gang up on him anymore. He showed his dissatisfaction openly now.

"That's the target. Let's move in formation now!"

Plan A was an ambush. They planned to ambush Tang Shaoyang if possible. He and the two Valentine brothers would distract Tang Shaoyang. Then the remaining people would surround the area and set up an ambush.

Mourad followed the scout and finally got to see Tang Shaoyang. His heart skipped a beat when he saw Tang Shaoyang's form. It was a lie if he was not nervous, at all. But he must not show it outside.

*** **

Tang Shaoyang was waiting for them. He wanted to see what they planned. Would they get frontal immediately, or would they have another plan? He noticed Novoa was not with her party member. She was, in fact, staying further back in the big group.

The man with the golden crown kept moving forward even when the scout was hiding. The man and Novoa's party members showed up to his surprise. But then he noticed the remaining people were circling the area, surrounding from all directions.

The man and the two white-haired men pretended to be surprised as they met him.

Tang Shaoyang finally understood their plan. They wanted to ambush him as the big group slowly made their way closer. The three in front of him were just a distraction.

He waved his hand at the three, "Stop your act. It's so awkward and bad. I can't watch it."

They looked like a first-time actor, someone who acted for the first time, "And don't be stupid by thinking you can fool me. Instead of running away like how you abandoned your friends earlier, you try to approach me this time."

Mourad was stumped, exchanging glances with the two Valentines. He just realized the biggest flaw in his ambush plan. They ran from Tang Shaoyang earlier, but they did not run this time. It was clear that they had a scheme, and it was found out immediately.

Mourad smiled and stopped acting, "My name is Mourad, and I am from..." Before he finished his words, his words were cut by Tang Shaoyang.

"I don't need to know the name of a dead person."

Tang Shaoyang took out the World Destroyer from his inventory. This would be the debut of his new God Rank weapon. He motioned toward Mourad to come at him, "Stop with your blabbering and come at me!"

Mourad's face crumpled in anger, but it quickly returned to his usual smile. He smirked, "Since you can't wait to die, then I will grant your wish!" He raised his fist in the air, signaling his team to show up.

More than a hundred people showed up, some appeared in the trees and the rest were on the ground. They all had used their transformation as well. There were a lot of bloodlines that Tang Shaoyang did not recognize.

"You are the one who will die!" Mourad declared as he also transformed.

Tang Shaoyang responded by raising his World Destroyer into the air and slamming it down to the ground. He tried one of the first exclusive skills from World Destroyer, World Split.

As the battle axe slammed into the ground, it was split up. It was similar to Earth Split, but the scale was on another level. The ground split up, forming a ten-meter gap, and his Chaos Energy burst out from the cliff.

He saw seven people fly into the air as they were caught off guard. One of them was Dinesen. His brother, Iversen, managed to get away in time.

Dinesen was panicked because he could not control the energy inside his body. He could not use any skills to move his body. His body was free-falling into the cliff. Just as he thought he would fall into the cliff, someone grabbed his ankle and threw him to the side.

Novoa made it in time, saving her cousin from his death. She landed at the edge of the fissure. She subconsciously looked at the gap, the bottomless gap. At the same time, she heard screams, asking for help. It was from the other six people, but she ignored them. She would not risk her life for those strangers.

All of sudden she felt a shake on her feet. It was a weak shake, and she would not notice it without her enlightened sense. Then she realized where the shake was coming from. But it was too late as the gap closed again with a Boom.

At the same time, a burst of overwhelming energy spread out like a strong wave. She was swept in the wave and flung to the side. Not just her, but almost everyone was caught in that strange skill.

Novoa pushed the tree on top of her, slowly getting back on her feet. She then realized why her cousin could not do anything when he was sent flying into the air. Once she caught that energy explosion, it disrupted the energy in her body. She temporarily could not use any skills.

"F*CK! I told them not to fight him!" She cursed out loudly.

Chapter 1566 Hunter and Prey 6

The skill just now was very dangerous. Novoa did not know if the same effect could be applied to another attack. If Tang Shaoyang could do it, then they were doomed. It did not matter how many people they had. Once Tang Shaoyang used his True Dragon, then it would be easier for him to apply that strange technique.

"Are you okay, Novoa!?" Iversen and Dinesen immediately looked for their cousin after getting blown away. Especially for Dinesen, realizing the only person he could trust and rely on was Novoa. She was the only one who moved up and saved him earlier. He did not imagine what would happen if Novoa did not save him. He would be a minced meat when the gap closed.

"I am not okay! Don't you just experience how strong he is?"

Novoa then glanced at Tang Shaoyang. Despite the distance between them, she still could see clearly. She had seen Tang Shaoyang's transformation, and it was different from the current transformation. She noticed the change, the wing, the size, and the horn. For the hair, she did not pay attention to the hair that much, so she did notice, she could see the change.

"I don't know what happened in just one day, but his transformation is different from the one he showed in the first stage. There's a chance he just gets an upgrade? This is getting more dangerous!"

Even though the two brothers knew what their cousin told them about Tang Shaoyang, most likely true. They still wanted to give it a try. Especially after they had managed to gather more than a hundred people. There was a chance, there was a hope to kill Tang Shaoyang.

Meanwhile, Tang Shaoyang was surprised by the effect of the World Split. The scale was not just bigger than Earth Split, but it was totally different. The Earth Split did not send the target flying or blowing them away. As for energy disruption, that was because he applied Absolute Domination Energy in the skill.

Tang Shaoyang then turned around to the people behind him, grinning ear to ear, "Since you guys don't want to come at me, then I will come to you!"

He did not know why, but he raised his left hand to the air before summoning all his spirits except for Avyn. There was no need for him to raise his left hand to activate the skill, but he did it anyway.

"Do whatever you want but keep the body intact! They are precious materials!"

That was the cue for the spirits. Right after his words, the thirty spirits moved. They disregarded the difference in number between them and charged at them. What happened next was chaos. His spirits went on a rampage, not holding back slightly.

"What!? Do you guys want to join too?" Tang Shaoyang was about to get his share before his spirits took them all, but then he heard a complaint from Kaiser, the head of the Skelly Family. They wanted to join the main members of the Skelly Family, not the army.

They were complaining about how unfair only the spirits could have fun. The initial reason he did not get them out was because the enemies he fought were a God Rank. He was unsure whether they were capable enough to fight the God Rank

However, he saw them during the first stage, how they managed to kill the Unique Rank Calamity. Even though it took them longer than the spirits, eleven main members of The Skelly Family managed to kill the Unique Rank Calamity. That was enough proof that seven of them might be on the same level as the Administrator.

"Alright, but with a condition..." He thought of giving a condition not to take the bodies for themselves, but again that would be unfair for them as well. He used these materials to strengthen the spirits, but they also needed these bodies to make them grow stronger.

Tang Shaoyang stopped midway and continued, "You keep the body you killed, but don't take the bodies killed by the spirits. That's the condition."

"Yes!" The eleven Skelly answered at the same time. That was how excited they were.

"I will make sure my family will not do that, Your Majesty. I will punish them accordingly if they dare to steal!" Kaiser responded strongly as soon as he was summoned. The strongest among the Skelly Family, the only skeleton with a bloodline, Draconic Skeleton.

Tang Shaoyang was about to tell Kaiser to go easy, but they were too excited as they immediately made their move as well. Different from the spirits, the Skelly Family did not act on their own. They moved as a team and killed their target as a team. They would target whoever Kaiser targeted. It was so satisfying to watch how they fought.

"I will give you guys this side then."

Tang Shaoyang turned around to face Mourad. The man had regained his composure and his energy flow returned to normal. He was caught in the energy burst when the gap closed earlier. He found out why the seven people in the air could not do anything to save themselves.

Despite knowing the danger from Tang Shaoyang, Mourad was not planning to go back. They still had the number advantage. While the spirits were holding his team, he would take this chance to kill Tang Shaoyang.

Equipping himself with his main weapon, a gauntlet with a blade attached to it. The blade was like a dagger, but it was attached to the gauntlet instead of holding it with the handle. If it was one against one, he was confident in winning. He was stronger against a single opponent, but his weakness was fighting against more than three people. That was the reason why he escaped the moment Tang Shaoyang summoned more than ten spirits earlier.

Using his movement skills, he closed the gap with Tang Shaoyang, "You and me! We will fight in a different place!"

The reason he closed the gap was to catch Tang Shaoyang in his domain. He must get as close as possible so he would not drag the others into his domain. That was the only way for him to obtain the reward. It was all planned from the start.

Tang Shaoyang looked around, finding himself in another forest, lushier than the previous one. For a domain, this was too ordinary. Nothing is out of the ordinary in this domain. But he was aware that regardless of appearance, a domain made the user who activated the domain stronger. Not just in terms of the stats, but a certain ability as well.

"You are finally falling into my trap, Tang Shaoyang! You are now my prey!"

Mourad's voice echoed in the forest. Tang Shaoyang did not know where Mourad was based on the voice. On top of that, Mourad sounded awfully confident for someone who ran away without fighting previously. There must be something about Mourad that made Mourad confident within this domain.

Tang Shaoyang chuckled, "Am I your prey? That's funny coming from someone who abandoned his friends without fighting."

He used Chaos Eyes and was surprised that his Chaos Eyes did not work effectively. His wide vision was still there, but he could not see through the trees. Something was obstructing his vision.

"You can say whatever you want right now, but you will still die in my hand!"

The ambiance in the forest changed, and the chilly wind gushed as the atmosphere turned gloomy. The subtle change, but Tang Shaoyang managed to catch it.

He was not worried about Mourad because of his [Absolute Sense]. Even though he could not detect where Mourad was, the moment Mourad tried to attack him. His Absolute Sense would do wonders.

'While at it, let's try World Destroyer's other skills.'

Tang Shaoyang activated [World Siphon] first. He really had no clue what the skill meant.

[You need to touch a living target to activate the skill!]

The System notified him how to use the skill. That was helpful even though the System was not really helpful with the skill's explanation.

Then he followed with another skill, [World Decay]. He did not notice at first what the skill did, but then he saw a flow of energy coming out from the trees and the ground. The aura from the energy was ominous, and it was dark gray in color. The energy enveloped the blade of his battle axe.

The red ground turned gray as if it was dying. The strong tree's trunk slowly grayed out, cracking. The lush green leaves turned gray and dried out as the branches withered. It looked like it would break with just a simple soft touch.

The skill took the life force from the surroundings, but he did not know what to do with it. It kept taking the life force from the ground and trees around them. The tree died one by one, as the withered ground also expanded.

"What are you doing in my Domain!?" Mourad's voice echoed.

Following the voice, his Absolute Sense warned him of danger from behind. He turned around and took a full swing with his battle-axe.

Mourad was in the air, with his katar. There was an image of the red tiger behind him, roaring. Meanwhile, Tang Shaoyang just swung his battle axe with a full swing.

Mourad was not expecting Tang Shaoyang to turn around. His facial expression told that, surprised. He could dodge the strike, but he was confident in his skill. He aimed the tip of his Katar at the battle axe blade.

The moment the two weapons clashed. The ominous energy around the battle axe burst out, blasting Mourad. The tiger roar also abruptly stopped as Mourad's body flung backward. He crashed into several trees before crashing to the ground.

Tang Shaoyang raised his right eyebrow, surprised himself that the brute strike was strong enough to send Mourad flying. He felt the touch from the class, but there was no pressure from the clash. That meant his full swing with just Word Decay was strong enough to overwhelm Mourad. He did not even apply [Absolute Domination Energy] on the strike.

[Maybe because your attributes are higher than his, much higher. Your level is over level 30000. I don't think these people have the same attributes as you. You are not supposed to compete with these rookies. Isn't that what those administrators call you guys?]

Tang Shaoyang nodded his head understandingly. He thought the levels did not really affect the God Rank that much, but that made sense. If it was a hundred-level difference or even three hundred-level difference. That might not affect the outcome of a fight, but what if the level difference was 10000 levels?

On top of that, he used Spirit Integration, his bloodline transformation, and as well as Wrath of Slayer to increase his attributes even further. The clear difference in attributes became obvious even if they were on the same rank.

"Where is he? There's no way he would die from that single strike, right?" It had been a while, but he did not sense movement from where Mourad crashed. Then he noticed the domain became unstable as well.

"I thought I was the prey, what's wrong, Mordad?"

[It's Mourad.] Avyn had a better memory than Tang Shaoyang.

"Doesn't matter. Do I have to remember every person I kill?" Tang Shaoyang shrugged, approaching the spot where Mourad crashed.

"You! What did you do to my hand!?" A hysterical voice came from behind the dust. It was Mourad's voice, but his voice was not as confident as before. He was panicking.

With a sweep of his battle axe, the dust disappeared, revealing a sorry figure on the ground.

Mourad was lying down, holding his right with his left hand. His entire right hand which he used to clash against Tang Shaoyang turned black. It turned black, leaving just bone and skin, barely hanging on his body. The Katar came on its own because his hand was so small.

There were several vials around Mourad. He tried to use a potion, but nothing was working. The antidote, elixir, and potion did not work. That was what made him panic.

Even Tang Shaoyang was surprised to see what happened to Mourad's right arm. He did not know the skill was so sinister to have such an effect.

Chapter 1566 Hunter and Prey 6

The skill just now was very dangerous. Novoa did not know if the same effect could be applied to another attack. If Tang Shaoyang could do it, then they were doomed. It did not matter how many people they had. Once Tang Shaoyang used his True Dragon, then it would be easier for him to apply that strange technique.

"Are you okay, Novoa!?" Iversen and Dinesen immediately looked for their cousin after getting blown away. Especially for Dinesen, realizing the only person he could trust and rely on was Novoa. She was the only one who moved up and saved him earlier. He did not imagine what would happen if Novoa did not save him. He would be a minced meat when the gap closed.

"I am not okay! Don't you just experience how strong he is?"

Novoa then glanced at Tang Shaoyang. Despite the distance between them, she still could see clearly. She had seen Tang Shaoyang's transformation, and it was different from the current transformation. She noticed the change, the wing, the size, and the horn. For the hair, she did not pay attention to the hair that much, so she did notice, she could see the change.

"I don't know what happened in just one day, but his transformation is different from the one he showed in the first stage. There's a chance he just gets an upgrade? This is getting more dangerous!"

Even though the two brothers knew what their cousin told them about Tang Shaoyang, most likely true. They still wanted to give it a try. Especially after they had managed to gather more than a hundred people. There was a chance, there was a hope to kill Tang Shaoyang.

Meanwhile, Tang Shaoyang was surprised by the effect of the World Split. The scale was not just bigger than Earth Split, but it was totally different. The Earth Split did not send the target flying or blowing them away. As for energy disruption, that was because he applied Absolute Domination Energy in the skill.

Tang Shaoyang then turned around to the people behind him, grinning ear to ear, "Since you guys don't want to come at me, then I will come to you!"

He did not know why, but he raised his left hand to the air before summoning all his spirits except for Avyn. There was no need for him to raise his left hand to activate the skill, but he did it anyway.

"Do whatever you want but keep the body intact! They are precious materials!"

That was the cue for the spirits. Right after his words, the thirty spirits moved. They disregarded the difference in number between them and charged at them. What happened next was chaos. His spirits went on a rampage, not holding back slightly.

"What!? Do you guys want to join too?" Tang Shaoyang was about to get his share before his spirits took them all, but then he heard a complaint from Kaiser, the head of the Skelly Family. They wanted to join the main members of the Skelly Family, not the army.

They were complaining about how unfair only the spirits could have fun. The initial reason he did not get them out was because the enemies he fought were a God Rank. He was unsure whether they were capable enough to fight the God Rank

However, he saw them during the first stage, how they managed to kill the Unique Rank Calamity. Even though it took them longer than the spirits, eleven main members of The Skelly Family managed to kill the Unique Rank Calamity. That was enough proof that seven of them might be on the same level as the Administrator.

"Alright, but with a condition..." He thought of giving a condition not to take the bodies for themselves, but again that would be unfair for them as well. He used these materials to strengthen the spirits, but they also needed these bodies to make them grow stronger.

Tang Shaoyang stopped midway and continued, "You keep the body you killed, but don't take the bodies killed by the spirits. That's the condition."

"Yes!" The eleven Skelly answered at the same time. That was how excited they were.

"I will make sure my family will not do that, Your Majesty. I will punish them accordingly if they dare to steal!" Kaiser responded strongly as soon as he was summoned. The strongest among the Skelly Family, the only skeleton with a bloodline, Draconic Skeleton.

Tang Shaoyang was about to tell Kaiser to go easy, but they were too excited as they immediately made their move as well. Different from the spirits, the Skelly Family did not act on their own. They moved as a team and killed their target as a team. They would target whoever Kaiser targeted. It was so satisfying to watch how they fought.

"I will give you guys this side then."

Tang Shaoyang turned around to face Mourad. The man had regained his composure and his energy flow returned to normal. He was caught in the energy burst when the gap closed earlier. He found out why the seven people in the air could not do anything to save themselves.

Despite knowing the danger from Tang Shaoyang, Mourad was not planning to go back. They still had the number advantage. While the spirits were holding his team, he would take this chance to kill Tang Shaoyang.

Equipping himself with his main weapon, a gauntlet with a blade attached to it. The blade was like a dagger, but it was attached to the gauntlet instead of holding it with the handle. If it was one against one, he was confident in winning. He was stronger against a single opponent, but his weakness was fighting against more than three people. That was the reason why he escaped the moment Tang Shaoyang summoned more than ten spirits earlier.

Using his movement skills, he closed the gap with Tang Shaoyang, "You and me! We will fight in a different place!"

The reason he closed the gap was to catch Tang Shaoyang in his domain. He must get as close as possible so he would not drag the others into his domain. That was the only way for him to obtain the reward. It was all planned from the start.

Chapter 1567 Hunter and Prey 7

Tang Shaoyang looked around, finding himself in another forest, lushier than the previous one. For a domain, this was too ordinary. Nothing is out of the ordinary in this domain. But he was aware that regardless of appearance, a domain made the user who activated the domain stronger. Not just in terms of the stats, but a certain ability as well.

"You are finally falling into my trap, Tang Shaoyang! You are now my prey!"

Mourad's voice echoed in the forest. Tang Shaoyang did not know where Mourad was based on the voice. On top of that, Mourad sounded awfully confident for someone who ran away without

fighting previously. There must be something about Mourad that made Mourad confident within this domain.

Tang Shaoyang chuckled, "Am I your prey? That's funny coming from someone who abandoned his friends without fighting."

He used Chaos Eyes and was surprised that his Chaos Eyes did not work effectively. His wide vision was still there, but he could not see through the trees. Something was obstructing his vision.

"You can say whatever you want right now, but you will still die in my hand!"

The ambiance in the forest changed, and the chilly wind gushed as the atmosphere turned gloomy. The subtle change, but Tang Shaoyang managed to catch it.

He was not worried about Mourad because of his [Absolute Sense]. Even though he could not detect where Mourad was, the moment Mourad tried to attack him. His Absolute Sense would do wonders.

'While at it, let's try World Destroyer's other skills.'

Tang Shaoyang activated [World Siphon] first. He really had no clue what the skill meant.

[You need to touch a living target to activate the skill!]

The System notified him how to use the skill. That was helpful even though the System was not really helpful with the skill's explanation.

Then he followed with another skill, [World Decay]. He did not notice at first what the skill did, but then he saw a flow of energy coming out from the trees and the ground. The aura from the energy was ominous, and it was dark gray in color. The energy enveloped the blade of his battle axe.

The red ground turned gray as if it was dying. The strong tree's trunk slowly grayed out, cracking. The lush green leaves turned gray and dried out as the branches withered. It looked like it would break with just a simple soft touch.

The skill took the life force from the surroundings, but he did not know what to do with it. It kept taking the life force from the ground and trees around them. The tree died one by one, as the withered ground also expanded.

"What are you doing in my Domain!?" Mourad's voice echoed.

Following the voice, his Absolute Sense warned him of danger from behind. He turned around and took a full swing with his battle-axe.

Mourad was in the air, with his katar. There was an image of the red tiger behind him, roaring. Meanwhile, Tang Shaoyang just swung his battle axe with a full swing.

Mourad was not expecting Tang Shaoyang to turn around. His facial expression told that, surprised. He could dodge the strike, but he was confident in his skill. He aimed the tip of his Katar at the battle axe blade.

The moment the two weapons clashed. The ominous energy around the battle axe burst out, blasting Mourad. The tiger roar also abruptly stopped as Mourad's body flung backward. He crashed into several trees before crashing to the ground.

Tang Shaoyang raised his right eyebrow, surprised himself that the brute strike was strong enough to send Mourad flying. He felt the touch from the class, but there was no pressure from the clash. That meant his full swing with just Word Decay was strong enough to overwhelm Mourad. He did not even apply [Absolute Domination Energy] on the strike.

[Maybe because your attributes are higher than his, much higher. Your level is over level 30000. I don't think these people have the same attributes as you. You are not supposed to compete with these rookies. Isn't that what those administrators call you guys?]

Tang Shaoyang nodded his head understandingly. He thought the levels did not really affect the God Rank that much, but that made sense. If it was a hundred-level difference or even three hundred-level difference. That might not affect the outcome of a fight, but what if the level difference was 10000 levels?

On top of that, he used Spirit Integration, his bloodline transformation, and as well as Wrath of Slayer to increase his attributes even further. The clear difference in attributes became obvious even if they were on the same rank.

"Where is he? There's no way he would die from that single strike, right?" It had been a while, but he did not sense movement from where Mourad crashed. Then he noticed the domain became unstable as well.

"I thought I was the prey, what's wrong, Mordad?"

[It's Mourad.] Avyn had a better memory than Tang Shaoyang.

"Doesn't matter. Do I have to remember every person I kill?" Tang Shaoyang shrugged, approaching the spot where Mourad crashed.

"You! What did you do to my hand!?" A hysterical voice came from behind the dust. It was Mourad's voice, but his voice was not as confident as before. He was panicking.

With a sweep of his battle axe, the dust disappeared, revealing a sorry figure on the ground.

Mourad was lying down, holding his right with his left hand. His entire right hand which he used to clash against Tang Shaoyang turned black. It turned black, leaving just bone and skin, barely hanging on his body. The Katar came on its own because his hand was so small.

There were several vials around Mourad. He tried to use a potion, but nothing was working. The antidote, elixir, and potion did not work. That was what made him panic.

Even Tang Shaoyang was surprised to see what happened to Mourad's right arm. He did not know the skill was so sinister to have such an effect.

Chapter 1568 Hunter and Prey 8

Tang Shaoyang did not really know what [World Decay] actually did. It drained the life force from nature, and it had a sinister effect as well. That was what he got from trying it against Mourad. But he still did not know whether the skill made his strike stronger, or if the skill had any other effects.

Looking at Mourad whimpering, Tang Shaoyang shook his head. It was disappointing for a God Rank to give up the fight after losing a single clash. It was like when a spoiled child fought, got punched once, and gave up then cried.

Then he swung the battle axe downward, hitting Mourad's chest. The battle sunk into his chest. His mouth spurted blood, looking at Tang Shaoyang with an undeliverable gaze.

"W-where... Y-your honor? I-I have surrendered..."

Tang Shaoyang chuckled after hearing such absurd words from Mourad, "Do you have to bring up an honor in your last moment? You gather people to gang up on me, and you are still talking about honor?"

He did not want to continue this nonsense conversation and tried the skill he could not before, [World Siphon]. There was no notification from the System, meaning the skill was active.

Tang Shaoyang witnessed what the skill did. The skill sucked out everything from the target. He witnessed how the skill drained everything from Mourad. His brown skin turned purple pale, his body became skinnier, then lost his hair, and his eyeballs fell off from the socket, and it was followed by the sound of cracking bone.

Mourad's body folded forward because the frame had become so fragile that the bones could not properly support his sitting posture. That was so awful even for Tang Shaoyang who had seen a lot of things.

[Your damage increased by 200% for one hour!]

[Your attributes increased by 50% for one hour!]

[Your attack has a 20% chance to apply [Decay]!]

Those were the notifications after he heard the notification killing Mourad. He guessed what he got from using [World Siphon]. Then he got a clue what happened to Mourad's right arm. It was [Decay] effect.

"I understand now why this thing is called World Destroyer."

This weapon might destroy a world if he used it recklessly. With this experiment, he made up his mind to never use it when he was on Earth. He did not want Earth to become a wasteland.

With the death of Mourad, the domain was canceled. He returned to his original spot with the dried Mourad. The ominous energy was also still lingering around his battle axe. It looked like he had not used everything from the [World Decay].

"Can this body still be used for sacrifice?" Then he fell on Mourad's pitiful body. He was unsure if the body had a value for the sacrifice. Before he could decide whether to take the body or not, the skin cracked and turned into black dust, getting blown away by the wind, leaving nothing behind. Even the fragile bone turned into dust.

"I don't think that body has any value for me."

The skill reminded him of [Slayer Absorption]. It was similar, but [Slayer Absorption] absorbed the enemy's energy and flesh, turning them into attributes, levels, and Slayer Energy. Meanwhile, [World Siphon] absorbed everything from the target and converted those to a temporary buff.

As he was distracted by the new skills, three people jumped at him from behind. Even without his Absolute Sense, he could see them with his Chaos Eyes. He was no longer in the domain.

He swung the battle axe with his right, a full swing toward the three people in the air. It was exactly the same as what happened with Mourad. The three people were sent flying. But this time, he put the battle axe on the ground and directed his hand toward the three. Then he used [Gravity Pull].

Before the three could get too far away, he pulled them back. His massive hand managed to grab two people's bodies in one hand. Then he slammed the three to the ground.

Boom!

The ground shook as a black fire pillar rose in the air, burning the three people alive. The three survived from his fire, but that was not for long. He released one person in his right from his grip. He raised his hand and executed [Heavenly Crushing Strike]. His fist shot toward the one person to his right.

Splat! Boom!

His fist went through his head and hit the ground. The ground cracked from the impact, leaving a bloody body with no head. Then he followed with [Heavenly Crushing Grasp]. He destroyed the two people in his left hand. They screamed before dying in his hand.

The three bodies instantly disappeared from his hand as he picked up the battle axe again. He then glanced at the remaining people who witnessed everything from start to finish.

"Don't get fazed! Use your spell! We still have more people with us!"

Dozens of spell circles formed around Tang Shaoyang, from all directions. They barraged him with their spells. The Thunder struck Tang Shaoyang from above, and all kinds of fire spells were thrown at him, everything was thrown at him at the same time. It created a storm because a high-ranked spell clashed together.

The raging spell slowly calmed, but the aftermath was obvious. It created a pit, a scorching pit, and they finally saw whether their spell worked on Tang Shaoyang or not. At the center of the pit, Tang Shaoyang froze himself with Ethereal Frost, and no spell managed to break the ice.

The ice broke apart as Tang Shaoyang came out, unscathed even though over a hundred spells were thrown at him. Not even a burn mark or scratch, let alone a wound.

"This weapon is a little bit dangerous," Tang Shaoyang muttered as he swapped World Destroyer with Nightfall. The big and long sword was no fit with his body which also grew bigger.

"Let's end the fight right now!" He found his target and executed [Heavenly Revoke].

His figure blurred and in that instant, he arrived in front of his target, a party of four.

Chapter 1569 Interference 1

The four cast a shield, one barrier per person, forming four layer barriers as Tang Shaoyang slashed his sword. They reacted in time despite how quick Tang Shaoyang was. But the barrier was rendered useless by Tang Shaoyang's slash.

He applied [Absolute Domination Energy], easily tearing apart the four-layer protections. The sword went through the four bodies at the same time, slicing them apart. It did not stop there as Tang Shaoyang also formed four blades made of Chaos Energy.

The black made of pure energy formed above their heads, each person had a blade pointed at the back of their heads. As their bodies fell off, the blade struck their head.

Tang Shaoyang did so because he only heard two kill notifications, meaning there were two still alive after getting their bodies sliced apart. With the Slayer Blade, he killed the remaining two.

That happened in a second. He executed the Heavenly Revoke by killing four of them. Before their bodies could fall to the ground Tang Shaoyang took them into his inventory, leaving the splashing blood on the ground.

Four God Ranks died in a matter of a second, which shocked everyone who witnessed. Not only did Mourad with the golden crown die in his hand, but he also killed four God Ranks easily. They now realized that Tang Shaoyang was not just a Spirit Contractor, more than that, he was strong individually. His spirit was not the only strong part of him.

Tang Shaoyang then turned around to the remaining people. Their hearts skipped a beat when they met with his gaze. For what Tang Shaoyang did earlier, it did leave a deep impression on them.

"What are you so afraid of? We still have fourteen people! We can kill him!"

Someone yelled, gathering his courage as well as his comrades. There was no turning back after they joined Mourad. Even if they tried to escape, They knew Tang Shaoyang would hunt them down. It was either fight to kill or fight to their death.

Tang Shaoyang just smiled, he was glad that they did not escape. He finally got to test his new sword technique as well. He opened the eighth gate, The Heavenly Vermilion. The screech of Vermilion rang in the air as the image of Heavenly Vermilion formed behind Tang Shaoyang.

Heavenly Sword: Heaven Severing Realm

He bent his body forward slightly, then he slashed his sword toward his enemy direction. He did not move from his spot as he did so. The sword was covered with the deep red heavenly energy. At the same time, the screech resounded once more.

A hundred meters area where the sword was directed to, was cut. An image of Heavenly Vermilion formed. Its wing cut everything in the hundred-meter range. Trees, boulders, and even the nine God Ranks were cut in half. They could not see the sword reach them. By the time they realized, it was them seeing their lower half as their upper half falling down.

Dump!

The trees and the boulders fell to the ground, creating a loud falling noise. From fourteen God Ranks, five of them survived the slash. Two of them immediately surrendered after witnessing the technique. They were not crazy enough to continue the fight.

Tang Shaoyang turned toward the remaining three, the three familiar faces. The three people with white hair, are Novoa, Dinesen, and Iversen. Novoa reacted quicker than everyone, pulling the brothers into the air with her.

He released his aura and killing intents. At the same time, he executed Heavenly Steps: Heavenly Ethereal Shift. His figure blurred, leaving an afterimage. Then he appeared in front of the three.

"Surrender! Dinesen! Iversen!" Novoa called out, but the brothers could not say the word. They opened their mouths, but no words came out. Facing Tang Shaoyang face to face with his Absolute Aura, they were frozen in fear.

Tang Shaoyang's sword was on his waist, and he was about to grab the two brothers' necks. However, Novoa made her attempt to save them. She was overwhelmed by the aura, but she was not frozen just like the two. She appeared between her cousins and Tang Shaoyang.

Novoa's eyes turned black as she pushed her bloodline further. Her eyes were blood red, and the two fangs grew out of her lips. But then she saw Tang Shaoyang smiling, staring at her. The target was not her cousins, but she was the target from the start.

Tang Shaoyang's hands changed the trajectory, grabbing Novoa's shoulders. His palms released a frost aura that immediately spread out to the whole of Novoa's body. Using Ethereal Frost, he froze Novoa.

Novoa was frozen and fell to the ground. The ice was strong, so it did not break apart even though it fell from twenty meters high. With that, Tang Shaoyang easily grasped the two brothers' necks and he landed in front of Novoa. By the time he landed on the ground, the two brothers were no longer alive. Their necks were crushed by Heavenly Crushing Grasp. Their chest caved in, getting hit by Heavenly Crushing Strike.

Novoa was not dead yet. She saw her cousins' dead bodies disappear before her into Tang Shaoyang's inventory.

Tang Shaoyang stood before the frozen Novoa, shaking his head.

"I don't really plan to kill you, but since you want to kill me then there's no reason for me to spare you."

Tang Shaoyang sheathed his sword, aiming the tip of his sword at Novoa's forehead. He pushed his sword forward with enough force, but then his Absolute Sense alarmed. It was confusing because the danger was in front of him. But there was no one but Novoa who was frozen, and it looked like she could not break the ice herself.

By the time the sword was just an inch away from the ice, a man with long white hair appeared between him and Novoa. The man was the leader of the second reinforcement from the first stage, Centurion Valentine.

Centurion knocked the sword upward with his left hand, changing the trajectory. The sword pierced through the ice but missed Novoa's head slightly. At the same time, Centurion thrust his sword toward Tang Shaoyang's chest. The thrust with the intention to kill Tang Shaoyang.

Chapter 1570 Interference 2

Centurion's sword hit the empty air. Tang Shaoyang disappeared from his sight as his sword was an inch away from Tang Shaoyang's chest. He was confused for a moment, but then he looked up.

Tang Shaoyang was right above Centurion. They were separated by three meters, but Tang Shaoyang was in the stance of using Heavenly Revoke. His sword was in his sheath, and his hand was at the sword. At the same time, the image of Heavenly Azure Dragon formed behind him, followed by the roar.

Together with the roar, Tang Shaoyang pulled his sword. With the distance, he was confident to hit Centurion. The double dragon roar resounded in the air. That was what Tang Shaoyang thought, but his sword met with a shield, a red blood shield.

Centurion managed to pull out his shield and blocked the sword. To Tang Shaoyang's surprise, Centurion completely blocked his sword. The vampire pulled his shield at the same time, and he thrust his sword upward.

An inch away from piercing Tang Shaoyang's left eye, he used a blink. He did not continue the attack and created a distance from Centurion. He was surprised how Centurion managed to defend his sword from such a distance. His enemy was smart enough to block his sword with a physical shield instead of a barrier. The barrier would break apart with his [Absolute Domination Energy].

"Hah..." Tang Shaoyang let out a small laugh, "An administrator truly can't be trusted. Another one interferes with the trial and tries to kill the participant. In the end, the rules are just a joke."

Centurion let out a sigh, slowly pulling his shield. He faced Tang Shaoyang while his free hand touched the ice. The moment his hand touched the ice, the ice broke apart. He did not respond to Tang Shaoyang, "Surrender now!" The order was for Novoa, his sister. If it meant losing his Administrator Class, he would do it for his sister.

Novoa came out from the ice, angry at herself as well as at Tang Shaoyang. Her gaze at Tang Shaoyang has changed into hatred from wariness. She was always wary of Tang Shaoyang before, but it changed into hatred after she witnessed how he killed her two cousins right before her eyes.

"Why did you have to kill them even though you know that we want to surrender!?" She did not immediately surrender from the trial because she had a question from Tang Shaoyang. She wanted to know why he killed them even though they were powerless.

Tang Shaoyang chuckled, shaking his head, "What a stupid question. You are quite strong compared to the others, but in the end, you are also just a spoiled princess. It's so obvious I killed them because they wanted to kill me. Will you spare the lives of the people who want to kill you!?"

"Don't even bring such an honor like Mourad. There's no honor in the battle, only the winner and the loser. Kill or get killed!"

"Surrender right now, Novoa!" Centurion raised his voice.

"But Dinesen and Iversen's bodies with him! We need to get their bodies, Brother. We need to give them a proper burial! They are still part of our family!" Novoa wanted her brother to ask for the two bodies.

Centurion shook his head because he knew Tang Shaoyang would not give up the two bodies. He knew how important sacrifices were for the Spirit Contractor.

"I don't have that much time! Surrender right now!"

In the end, Novoa relented and surrendered from the trial. Her hatred for Tang Shaoyang deepened, "I will come back for you!" Those were her last words before disappearing.

"I see... So you are her brother. That makes sense," Tang Shaoyang nodded, "Now I have to add one more person to my kill list."

"No! You don't need to add her name to your kill list. I will make sure she will not go after you, ever. The Valentine Family will not pursue this matter further. Our relation ends here."

Tang Shaoyang was surprised to hear that from Centurion. He thought Centurion would kill him, so there was no need for him to add her name to the list. That was what he thought Centurion would say. But it looked like he did not want to escalate the conflict further. Of course, he did not believe what Centurion just said.

"Why would I trust someone who wants to kill me? You guys are quite shameless, huh? Even more shameless than me. I am not your naive little sister. But don't worry, you don't have to worry about your little sister because I will kill you right now."

Centurion was strong, stronger than the Administrator he faced in the first stage of the trial. However, he was not fazed by how strong Centurion was. In fact, it just excited him even more.

Centurion shook his head and disappeared as well, teleporting back. That was right, Centurion did not try to fight Tang Shaoyang. He left without saying anything, no threat or anything.

Tang Shaoyang's bubble of excitement burst out along with Centurion's departure. He thought he finally would be able to test his limit once more, but he left him just like that.

"Okay, what now?" He turned around to check the other side. He was fighting less than twenty people. There should be more for him on the other side. His spirits and skeletons were still fighting, but a lot of bodies had fallen. It was clear his spirits and skeletons were an advantage despite the number difference.

"Let's join to finish this early."

It was as if they could hear him, they responded in unison through telepathy.

"NO!"

Their voices buzzed in his head at the same time, even the skeletons.

"Alright..." He shrugged and started to collect the bodies he killed earlier. There were nine bodies around. Then he ended up watching how the spirit fought. He thought of learning Vandir's way of fighting, but then he saw the skeleton relaxing under the tree while his undead were fighting for him. He wanted to learn the Death Power, but there was nothing to learn about how Vandir fought. The skeleton carefully observed his summons, taking notes. One of his summons was also his undead.
