

Army 681

Chapter 681 Golden lung

“Yes.”

Jiang Li was quite satisfied with the lightning Dragon’s attitude. He nodded and said, “You’re quite obedient. Tell me about your background.”

“yes, my respected master.”

The young man in the form of the lightning Dragon replied.

Time passed.

After a few minutes.

Through the lightning Dragon’s self-introduction, Jiang Li gained some understanding of the ‘magic world’ where the lightning Dragon used to live.

first of all ...

The lightning Dragon’s real name was ‘suyare tehera de Wyke’. The Dragon’s real name was a little long and it was too troublesome to call it by name, so Jiang Li just called it ‘Wyke’.

“Wyke greets master.”

Wyke accepted it with pleasure.

“Yes.”

okay. Jiang Li nodded.

In reality.

Wyke came from a planet in the 'magic plane'. Wyke's clan, the Thunder Dragons, were like gods on the planet. They were the rulers of the planet, equivalent to the status of humans on earth.

in fact, it even exceeded that.

Other than the lightning Dragon clan.

All the creatures on the lightning star were just food for the lightning dragons.

Furthermore ...

Wyke was the direct descendant of the Dragon King of the 'Thunder Dragon clan', and could be considered the Crown Prince of a dynasty. His status was extremely noble, and his bloodline was extremely pure.

Currently.

wyke was still a teenager, but his cultivation had already reached the peak of the ninth level. when he became an adult, he would definitely reach the tenth level.

As for his future achievements ...

That would depend on Wyke's own efforts and luck.

However ...

Even so ...

That was already very terrifying.

But on second thought ...

Even such a powerful 'giant Lightning Dragon clan' was unable to withstand a single blow from the human clan's immortal court. Tu qianqiu even treated the giant Lightning Dragon clan as roasted food.

Jiang Li couldn't tell how strong tu qianqiu was since he was able to take Wei ke away from the star of lightning so easily, but he was definitely unimaginably strong.

"I can't help but say."

the immortal court is really scary. Jiang Li sighed.

Late at night.

In the room of the galactic ruler hub.

Hidden Dragon, bring the rank-7 gene strengthening liquid here.

go! Jiang Li ordered.

"yes."

Hidden Dragon replied.

Buzzzzzz!

A spatial fluctuation appeared.

A small silver syringe was sent from the shelf on the seventh floor of the Research Center to the room in the Galactic Dominator hub and floated in front of Jiang Li.

three years.

The tier 7 gene strengthening liquid had already been successfully researched.

Not only that.

After Jiang Li used some energy points, he had developed a lot of level-one to level-seven technological weapons. He planned to equip every soldier with suitable technological weapons after the various armies of great Xia were formed.

In addition.

By researching the creatures and weapons in the Super Fantasy world, the mechanical research soldiers had also developed black technology weapons that combined technology and fantasy technology.

[research product: rank-7 gene strengthening fluid]

[rank: rank seven]

[effect: deep evolution, gene optimization, gradual evolution into a magical body]

[usage: intravenous injection]

[origin: 01 interstellar base-7th floor of the Research Center]

The price of a single vial of tier 7 gene strengthening liquid was a hundred times that of a Tier 6 gene strengthening liquid, and it required a hundred trillion energy points.

...

He did the conversion.

That would be a hundred trillion energy points.

The injection began.

Jiang Li ordered Hidden Dragon to call the mechanical soldier and the soldier injected him. The needle of the small syringe was also made of technology and dark Iron.

Otherwise ...

With Jiang Li's cultivation at the early stage of level nine, his body had reached an inhuman level. Ordinary needles couldn't even hurt a hair on Jiang Li's body, let alone Pierce his skin.

The needle pierced Jiang Li's skin. The mechanical soldier slowly injected the rank-7 gene strengthening liquid into Jiang Li's body. The liquid flowed through Jiang Li's blood and into his body.

After the injection.

the mechanical soldier pulled out the needle and left with the small syringe.

“Si si si ...”

Jiang Li took a deep breath.

...

This time.

Jiang Li finally felt pain. Under the effect of the medicine, Jiang Li's consciousness entered a state of emptiness and he could feel the thousands of laws of the world.

the most important thing was ...

with the help of the rank-7 gene strengthening drug, thousands of laws slowly entered jiang li's body and began to transform his body and soul.

Time passed.

This state lasted for half a day.

Jiang Li woke up.

The medicinal effect had completely taken effect.

“this feeling ...”

jiang li closed his eyes and started to practice.

His physical body, his soul, and his true spirit.

There were dense marks of laws on Jiang Li's body. This was the result of thousands of laws modifying Jiang Li.

jiang li would become a body of law.

If he succeeded ...

As long as the law was still there, Jiang Li wouldn't really die.

it could be considered as an undying injury in the true sense.

of course.

It was only a bottle of rank-7 gene strengthening liquid. It couldn't make Jiang Li into a body of law. It was just a drop in the bucket.

If ...

It took ten thousand steps to complete the body of law, but Jiang Li had only taken one step.

“Yes.”

I'm still far from the body of law, but the marks of law interweave my body, soul, and true spirit.

” this way, i'll be able to attach the power of nomological patterns to every attack i make. it'll also improve my combat power by quite a bit. ”

“There's another thing.”

although it's not obvious, my aptitude has improved a little.

Shua!

The Dominator panel opened.

[soul Tinder: 50 level-seven soul Tinders, 5 level-eight soul Tinders]

there are ten more seventh-tier soul Tinders than three years ago.

Jiang Li said to himself.

Obviously.

three years.

Jiang Li's mechanical Army followed Wu Wuji and the others to clean up the beasts in the Holy peace state, as well as the remaining monsters, barbarians, and mixed-blood alien races. They were truly unified.

Naturally, he had obtained a lot of soul Tinders.

After Jiang Li fused all the soul Tinders, he was finally able to absorb the soul Fire.

He had only obtained ten seventh-tier soul Tinders.

In addition.

The number of energy points was still more than 11 trillion.

there wasn't much change.

I'm not sure. Jiang Li muttered, "the resources in the Saint peace state can't meet the needs of the great Xia Dynasty anymore. I'm stuck in the source of soul Tinder and energy points.

we can send out an Army to conquer the sea around the Holy peace state and hunt the sea beasts in the sea to collect the soul Tinder.

Of course.

Since imperial wars were forbidden in the Super Fantasy world, it would be difficult for Jiang Li to expand after he conquered the four Seas around the Saint peace state.

There was a high chance that they would encounter other imperial dynasties.

for the sake of the great xia empire's continued growth and development.

Jiang Li had to go on the path of conquering the universe.

the ocean dynasties of the four Seas have all been destroyed.

Jiang Li thought, now that the dynasty has been promoted, it's time to send out the Army and take over the four Seas. At the same time, I'll collect all the resources of the dynasty.

Shua! Shua!

With a thought.

Jiang Li took out the ten thousand blood refinement pill.

There were three in total.

Two ninth-grade low-rank and one ninth-grade medium-rank.

“Azure Emperor Art.”

buzzzzzz!

” let's go. ” jiang li took an inferior-class level-nine thousand refinement blood pill and started to practice. the dragon roared and the five-clawed green dragon protected his body. the fate of the empire came to help jiang li cultivate.

In the blink of an eye, seven days passed.

In the room of the galactic ruler hub.

Shua!

Jiang Li woke up. He opened his eyes and activated his technique. A green light flashed. First, the three flowers gathered above his head. Then, a level twenty-four Lotus of heart fire appeared in his heart.

Finally.

His chest moved down a little.

in the middle of his lungs.

Buzzzzzz!

There was a white grade 24 Golden Lotus of the lungs. The Golden Lotus of the lungs did not have flames rising. Instead, it contained a sharp intent, as if it was formed by the fusion of countless weapons.

Obviously.

Jiang Li had been in seclusion for seven days. He took two low-class level-nine pills and one medium-class level-nine thousand refinement blood pill and successfully refined the lung gold.

Unfortunately ...

To break through to the mid-ninth rank.

In addition to condensing the 'lung gold', he also needed to condense the 'spleen earth'. Jiang Li was only a little bit away from condensing the 'spleen earth'.

In the end, he did not succeed.

he was lacking some foundation and accumulation.

He consolidated his cultivation.

Jiang Li came out of seclusion.

“Congratulations on the great increase in power, master.”

Wyke had been guarding outside the door. As soon as Jiang Li came out, he immediately saluted.

“Yes.”

okay. Jiang Li nodded.

master has only been in closed-door cultivation for seven days. He’s clearly still at the early stage of tier 9, while I’m already at the perfected tier 9, but I can actually sense a fatal danger from master.

Wyke was in awe. you should know that I’m a genius among geniuses in the lightning Dragon race. I can even fight those of lower ranks.

“How terrifying is master’s combat power? And how heaven-defying is his aptitude?”

At noon.

The great Xia Dynasty.

azure dragon palace.

Jiang Li summoned Wu Wuji and the others.

Seven days.

After Wu Wuji and the others had been injected with the gene strengthening fluid from rank 1 to rank 6, their strength and aptitude had increased greatly, and their life levels had evolved.

“wu wuji, lin tianjian, lian zhen, hong tianqi.”

Jiang Li said.

“Your subject is here.”

Wu Wuji, Lin Tianjian, Lian Zhen, and Hong Tianqi took a step forward and knelt down.

“Yes.”

” let’s go. ” jiang li gave his order. ” i’ve been busy unifying the holy peace state in the past three years, so i didn’t have time to manage the seas around the state. ”

in the final battle of the empires, more than 90% of the forces of the ocean dynasties in the four Seas were destroyed. Now is the time to unify the four Seas.

“Wu Wuji, hear my order.”

“You will be appointed as the ‘Marshal of the East’. You will lead the newly formed’ great Xia Eastern Army ‘to the East and take down the sea Dragon Sea area.”

“this minister receives the decree!”

Wu Wuji said loudly.

“Lin Tianjian, come forward and listen to my orders.”

jiang li said.

“Yes.”

Lin Tianjian replied.

Lin Tianjian, I will give you the title of ‘West conquering Marshal’. You will lead the newly formed’ great Xia Western Army ‘and head to the’ Halcyon sea ‘in the West to take down the’ Halcyon sea’.

Jiang Li said.

“This Minister accepts the decree.”

Lin Tianjian replied.

“Lianzhen, step forward.”

Jiang Li said.

“Your subject is here.”

Lianzhen bowed.

“Yes.”

yes. Jiang Li nodded. Lianzhen, I’ll give you the title of ‘South conquering Marshal’. Lead the newly formed’ Xia Southern Army ‘to the’ Tuoba sea ‘in the South and take it down.

“Yes.”

Lianzhen nodded.

“Hong Tianqi.”

Jiang Li said.

“I’m here.”

Hong Tianqi kowtowed.

Hong Tianqi, I will give you the title of ‘Northern Expedition Marshal’ and appoint you as the new ‘great Xia Northern Army’. Duan Qilin and Jing yueke will be the Deputy marshals and assist you in taking down the three-Emperor Sea area in the North.

” no mistake! ” jiang li shouted. ” no mistake! ”

“Yes.”

“Your subject will obey your orders.”

“Your Majesty, please be at ease.”

Immediately.

Duan Qilin, Jing yueke, and Hong Tianqi immediately said.

“Very good,” he said.

okay. Jiang Li nodded.

The next day.

Early in the morning.

The sun had just risen.

Under the leadership of the four princes, the four newly built armies of great Xia set out one after another, heading towards the North, South, East, and West seas. The Army advanced at an extreme speed, disappearing into the distance in the blink of an eye.

“Your Majesty.”

Shua! Shua!

Master Chi and Elder Brown came from the immortal Palace in the sky above the imperial capital.

“Yes.”

yes. Jiang Li nodded and said, ” to the immortal Palace. You lead the way.

“Yes, sir.”

Lord Chi and old brown said.

Chapter 682 Little white

Lord Chi and Elder Brown led the way for Jiang Li. Soon, they arrived at the immortal Palace, which was covered by a transparent light curtain.

“your majesty.”

“There’s a layer of transparent light around the immortal’s Hall,” Lord Chi said.”It can prevent any unrelated living beings from entering. Only those with the qualifications can enter.”

“Oh, then what qualifications do I need?”

Jiang Li asked.

“Ahem.”

Elder Brown coughed lightly and immediately replied, ” “Don’t worry, Your Majesty. You already have the ‘token of the immortal court’. As an official member of the immortal court, your rank is much higher than ours. Naturally, you can enter.”

“Generally speaking.”

“As long as you have the identity of a ‘candidate of the immortal court’, even if you’re only a level nine, you can enter any immortal Palace, not to mention that you’re already a member of the immortal court, Your Majesty,”

“Yes.”

okay. Jiang Li nodded with satisfaction and walked towards the immortal court. He passed through the transparent light curtain easily without any hindrance.

However ...

When Jiang Li passed through, the mark on the back of his right hand felt hot, but it soon disappeared.

In reality.

Jiang Li had already refined the token of the immortal court and it recognized him as its master. The token turned into a diamond-shaped mark.

It was snow-white.

There were also many mysterious patterns on the mark.

After they were combined together, they became extremely profound and difficult to comprehend.

“Your Majesty, please follow us.”

Lord Chi and old brown said.

“Yes.”

Jiang Li followed him.

As soon as Lord Chi and Elder Brown approached the gate of the immortal Palace, the gate opened by itself, but Jiang Li didn't hear any sound.

One had to be a 'candidate of the immortal court' to enter the immortal Palace. Therefore, only ten Palace Masters could enter the palace except for Jiang Li, Lord Chi, and Elder Brown.

That meant Xia Ling, he Qingshu, Sheng baochen, and the others.

This was because they were all candidates for the grade 9 immortal court.

he could barely enter the immortal palace.

The inside of the immortal's Hall was extremely spacious. There weren't many strange things inside, but it was filled with a thick white fog. The immortal energy was lingering inside, and the domain was quite extraordinary.

Lord Chi and Elder Brown led Jiang Li forward.

Very quickly.

They arrived at the core of the immortal Palace.

“Your Majesty.”

“we’re here. this is the ‘core main hall’. because this immortal palace is the lowest level, the low ninth-grade, it doesn’t have any other functions or buildings other than the ‘core main hall’.”

“Also,”

” the ‘core hall’ only has one function, ” elder brown explained to jiang li. ” it records all the worlds and universes that the martial arts celestial court of the human race is anchored on. ”

“Yes.”

jiang li nodded.

“Your Majesty, you can activate the immortal court’s order in the core Hall of the immortal Palace and you’ll understand it immediately.”

lord chi said.

“Yes.”

” okay. ” jiang li nodded.

Buzzzzzz!

Immediately.

immortal court token. Jiang Li activated his technique and poured his true essence into the mark on the back of his hand. The mark immediately glowed white.

immediately after.

hmm? ” Jiang Li felt a wave of energy surge out from the depths of the immortal Palace and scan his body from top to bottom.

BOOM!

In that instant.

Jiang Li’s mind shook. A huge amount of information rushed into his mind. Even his consciousness was blurred.

In this half-asleep state.

Jiang Li woke up.

however ...

When he opened his eyes, he found that he was in universe ocean, a boundless space. Jiang Li’s consciousness was floating in the boundless space.

...

In this space.

Jiang Li ‘saw’ countless light balls floating in the endless space. There were so many of them, like the sand on the beach.

Among them.

some bubbles were very small, like ping pong balls, while others were very big, like tennis balls, basketballs, watermelons, or huge basins.

Even worse.

it was so much bigger than a basin that jiang li couldn't even see everything.

Other than that.

Some of the bubble-light orbs were extremely gorgeous and shone with a dazzling light. There were even some that shone with nine-colored radiance and were extremely eye-catching.

But there were some.

its luster was extremely dim, as if it was about to be extinguished.

Even worse.

...

the bubble light ball was covered in countless cracks, as if it would burst at any moment and turn into endless dust.

“Yes.”

these bubbles and light balls are all the worlds and universes that the martial arts Celestial Court of the human race has anchored over the endless years. Some universes are even on par with the Super Fantasy world.

Next.

Jiang Li was going to lock onto one of these bubbles and then use the power of the 'immortal Palace' to build a 'fixed channel' to fight in the world.

Jiang Li was speechless. "there are so many bubble light balls here, but there are no hints or information. how am i supposed to find them? "

Of course.

Jiang Li wasn't completely clueless. At least there were some useful things recorded in the sea of information.

jiang li could make the most basic judgment.

although it is possible to determine the level of a world based on its size and determine the current state of a world based on the intensity of its light ...

a bright light means that this world is extremely prosperous and rich in resources. If it glows with nine colors, it means that this world is in an 'exceptional' stage of advancement.

if the light is dim, it means that the resources in the world have been mostly mined out. The resources are extremely scarce and of little value. If cracks appear, it means that the world is on the verge of doomsday."

"that's not important, " jiang li murmured. " what's important is that that world isn't occupied by other dynasties. if we recklessly enter a world occupied by other dynasties, conflict will be inevitable. "

"And ..."

"I want to enter the plane universe that the six clans" immortal court anchored three years ago."

Wuwuwuwuwu!

At this moment.

A white light appeared in front of Jiang Li's eyes and slowly condensed in front of him. At first, it looked like a token, but then it turned into a human.

The light dissipated.

In front of Jiang Li was a little girl who looked like a flower Fairy. She was only the size of a thumb and was wearing a white dress. She had long white hair, white eyelashes, and a pair of small white wings.

“Dear master, how are you?”

thank you. the delicate little one bowed to Jiang Li. She was nervous, but she still tried to be calm. the assistant of the immortal court, little white, is at your service.

“How did you get here?”

little white? ” Jiang Li looked at the tiny person who called herself ‘little white’, the assistant of the immortal court.

“My respected master.”

Little white noticed Jiang Li's confusion and continued to explain, ” it's because you're now the possessor of ‘ancestor White's order’. With ‘ancestor White's order’, you can be considered to have entered the upper echelons of the ‘martial arts Celestial Court’ and belong to the bloodline of ‘ancestor white’, one of the Five Ancestors.

“However, a large part of master's ‘white ancestor's order’ has been temporarily sealed.”

“Therefore, master can only exercise the rights of a member of the immortal court for the time being.”

little white is the ‘spirit of wisdom’ that exists in the ‘ancestor White's order’. It can only appear in this space and can help master find a suitable world in this space.

“I see.”

Oh? ” Jiang Li immediately understood. He sized up little white. It was small, but it was exquisite. It was like a living figurine.

“by the way,”

Jiang Li thought for a moment and said, why did Bai Zimo only say that it was an order from the immortal court when she gave me the ‘order of ancestor Bai’? It’s obvious that ancestor Bai’s order is several times more advanced than the immortal court’s order.”

one had to know.

after obtaining the ‘token of the immortal court’, one could only become an official member of the immortal court.

‘Member of the immortal court’ was also easy to understand. For example, if it was a big company ...

the members of the immortal court were the employees of the company and could be considered as basic level personnel.

But it was different with the ‘decree of ancestor Bai’. According to little white, Jiang Li had become a high-level official of the ‘immortal court’.

In other words, they were part of the management.

At the very least, he would be a manager.

“Master, I don’t know about this.”

Xiao Bai shook his head and replied.

“It’s probably because most of the rights have been sealed by her, and she can only exercise the rights of the members of the immortal court. That’s why she said that this is the order of the immortal court.”

that’s all I can think of, ” Jiang Li thought.

He sorted out his emotions.

“Little white, you said you can help me find a suitable world in this space?”

Jiang Li asked.

Yes, Master. This is the purpose of little White’s existence.

Xiaobai answered.

“Very good,” he said.

” oh? ” jiang li’s eyes lit up. ” i want to know where the plane universe that the six immortal courts anchored to three years ago is in this space. ”

“Find it immediately.”

“Yes, master,”

xiaobai nodded. ” please wait for a moment. ”

Buzzzzzz! Buzzzzzz!

As soon as he finished speaking.

Whitey closed its eyes, and its body emitted a faint white light. It seemed to be communicating and sensing this space. It took about half a minute.

Shua!

A thin white light appeared, with little white as the source, and spread into the distance.

“Master, I’ve found it,”

Jiang Li! little white opened its eyes and said to Jiang Li in excitement.

“Alright,” he said.

Jiang Li’s eyes lit up. lead the way.

“Yes, yes.”

okay. little white nodded quickly and flew along the thin white light. Jiang Li’s consciousness followed it closely.

In reality.

The ‘ancestor Bai’s order’ had always been with Bai Zimo, but she had never used it.

so,

This was little White’s first ‘job’ since its birth. It was inevitably nervous and excited, but at the same time, it was also excited and full of energy.

“Master, we’ve arrived.”

whitey stopped. the thin white line was tightly connected to a huge bubble of light in front of it.

Before he even got close.

jiang li felt a terrifying pressure.

It was hard to describe.

Furthermore ...

huh? ” Jiang Li also had a familiar feeling. Something in the depths of his consciousness seemed to have formed an inseparable connection with this huge bubble.

Chapter 683 Mid-stage

“It should be right.”

Jiang Li took a deep breath and calmed down. He stared at the giant bubble and said, ” “It’s him. This feeling can’t be wrong.”

“alright, alright, alright.”

Jiang Li was overjoyed.

“This is the universe plane.”

little white, ” Jiang Li said. build a fixed plane channel to this plane of the universe immediately.

“Master, master, master, master!”

Little white was shocked. It swallowed and looked at the giant bubble light ball, then at Jiang Li. It mumbled, ” yes or no. Master, you should change to another one. This universe is too scary.

“It’s true.”

the level of this plane universe is not weaker than a Super Fantasy world. With master’s strength, I’m afraid you won’t be able to come back.

little white knows a lot of medium-level worlds. Although they can’t compare to the resources in this universe, they’re safe and haven’t been occupied by other imperial dynasties. They’re very, very, very suitable for you, master.

Obviously.

Xiaobai was scared.

“That’s him.”

plane channel? ” Jiang Li frowned and said in a deep voice, ” set up a fixed plane channel immediately.

“But Yingluo is Yingluo.”

Little white wanted to say something but stopped.

Jiang Li glared at little white and it immediately shut up.

” alright, master. little white will start building the passageway now. ”

little white could only reply.

“Yes.”

okay. Jiang Li nodded.

Buzzzzzz!

The next moment.

His vision blurred.

Jiang Li’s consciousness returned to him.

“Ai, ai, ai, ai.”

little white sighed and mumbled, ” “Could it be that the first master that little white followed is going to die before he even starts his journey? This was little White’s first owner! and he’s so handsome, it’d be a pity if he died like this.”

The core Hall of the immortal Palace.

his consciousness returned.

Jiang Li immediately woke up. He opened his eyes and frowned. He looked down at the white diamond mark on the back of his right hand. It was shining.

“Why did you come back? is the passage built?”

Jiang Li thought.

“Your Majesty.”

Lord Chi and Elder Brown immediately asked with concern, ”Are you done choosing?”

“Yes.”

okay. Jiang Li nodded.

“That’s good, that’s good.”

Lord Chi heaved a sigh of relief.

One had to know.

The rules of the martial immortal court of the human race were strict. Apart from the official members of the immortal court, no candidate of the immortal court was allowed to establish a fixed plane channel.

furthermore ...

If a candidate of the immortal court wanted to enter another plane world through the immortal Palace or the immortal court, he would have to pay an expensive ‘entrance fee’ and ‘teleportation fee’.

The lower the level of the immortal court candidate, the more expensive the price would be.

In the past.

Master Chi and Elder Brown had only heard some legends and rumors. After all, they were only candidates for the lowest grade of ninth-grade immortal court. Now, they finally had the chance.

so,

Both master Chi and Elder Brown were very excited.

Since Jiang Li opened a fixed plane channel, they would have the opportunity to visit other worlds without having to pay the expensive tickets and teleportation fees.

“Your Majesty, what world have you chosen?”

Elder Brown couldn't help but ask curiously, "a ninth-rank, low-level immortal Palace is the lowest level of immortal palaces. Even if your Majesty is an official member of the immortal court, you can only build one plane passage at the moment.

“So,”

the choice of the First World is especially important.

...

although the low-level worlds don't have too much danger, they don't have enough resources. It's best to choose a middle-level world where danger and opportunity co-exist.

“Of course.”

“It's best not to choose a world that is occupied by another Empire. Otherwise, there will inevitably be an Empire war, which is extremely disadvantageous to our great Xia Empire.”

“After all, we've just ended the war, and we've lost a lot of soldiers.”

“.....”

Lord Chi was also looking at Jiang Li, waiting for his answer.

I chose the plane universe that the six clans 'immortal court anchored together three years ago.

I'm fine, " Jiang Li said calmly.

"ah?!"

Elder Brown's eyes widened. He was completely dumbfounded. Your Majesty, w-what did you just say? what did w-w-w-w-w-w-w-w-w-w-what did w-w-w-w-w-w-w-w-w-w-say?!

"This Suan ni, this Suan ni"

...

Lord Chi took in a cold breath.

I chose the plane universe that the six clans 'immortal court anchored together three years ago.

Jiang Li had to repeat it. also, the assistant of the immortal court explained to me that the plane universe that the immortal court of the six clans anchored on is no less powerful than a Super Fantasy world.

"Oh my God!"

Elder Brown screamed.

"Your Majesty, please take care of yourself."

lord chi's entire body was trembling, not knowing if it was out of fear or anger.

After a long while.

Only then did Lord Chi and Elder Brown gradually calm down. However, their faces were still pale, and their hands were trembling.

“Your Majesty, do you really understand the meaning behind this?”

Elder Brown took a deep breath and said, ” you must know that the plane universe can only be anchored by the joint efforts of the six clans of the immortal court.

“From this, I can imagine.”

how terrifying is that plane universe? it’s definitely not weaker than a Super Fantasy world. It might have a terrifying force comparable to the immortal court.

“Your Majesty.”

” our great xia empire is just a newly-promoted empire of the human race. furthermore, we have just experienced a great war and have yet to fully recuperate. now, we are going to wage war against such a terrifying plane universe. ”

“This Wufu, this Wufu, he’s just going to die.”

“your majesty, please reconsider.”

Lord Chi bowed.

“That’s enough,”

it’s settled then. Jiang Li waved his sleeve. you don’t have to say anything more.

“Your Majesty!”

“Ai, ai, ai, ai.”

Lord Chi and Elder Brown sighed.

In reality.

of course, jiang li knew what lord chi and elder brown were talking about. if jiang li was really a creature from the super fantasy world, he wouldn't dare to go.

but ...

Jiang Li wasn't a creature from a Super Fantasy world, but a transmigrator who was reincarnated. Jiang Li going to that plane universe could only be said to be returning to his 'home'.

In addition.

The six alien races had locked onto that universe three years ago and a Super Fantasy world had invaded Earth. Although that universe was vast, Jiang Li couldn't guarantee that the Army of a certain race wouldn't come to earth.

If such a thing really happened ...

With the technology on earth.

Even if they used the most powerful H-bomb to bombard, they wouldn't be able to go against the Emperor dynasty's Army, because the Army formation formed by the Emperor dynasty's Army was extremely powerful.

Moreover ...

There were even powerhouses of the seventh step and above.

As long as he was willing.

with just one type 8 powerhouse, they could easily destroy the entire earth.

no matter what.

On earth.

Jiang Li had his biological parents who raised him, a younger brother who had just graduated from junior high school, and a younger sister who was less than three years old. He loved sticking to Jiang Li.

Every time Jiang Li came home, the little girl would stick to him and not leave.

In the past.

although jiang li missed his hometown and his family, he didn't show it because he didn't think he could go back at that time.

And now.

The chance to return was already in front of him.

Jiang Li certainly wouldn't give up.

In this Super Fantasy world.

Jiang Li was alone.

He still remembered.

When Jiang Li first came to this world, he didn't dare to trust anyone. The only people he could rely on and trust were the meches created by the 'super mech Army'.

But unfortunately ...

Meches were mechanical creatures after all. Even though they were as smart as humans, they couldn't get rid of Jiang Li's loneliness. They couldn't talk to Jiang Li at all.

It was a cold loneliness.

In about ten years 'time.

jiang li did something he didn't even dare to think about before.

He had slaughtered thousands of living beings.

In his hands, he had killed countless people.

It was covered in blood.

In the end, Jiang Li unified the Saint peace state, enslaved the monsters, barbarians, and all the mixed-blood alien races. He established the great Xia Dynasty and became the Emperor of the human race.

In the Holy peace Region.

Jiang Li was above all living beings.

However ...

beside jiang li.

But there was no one he could even talk to.

As for du Xiaohua, su Yanfei, and su you, who had slept with Jiang Li before, they were also in the imperial capital, but Jiang Li didn't care about them. They hadn't seen each other for a long time and had been forgotten.

“Whoosh!!!”

Finally ...

The ‘plane channel’ had been successfully opened.

A white diamond-shaped mark appeared on the back of Jiang Li’s right hand. It glowed and connected with the core of the immortal Palace.

Kachaa! Kachaa!

Space cracked open.

A huge spatial crack appeared in front of Jiang Li, tearing space and time apart. It broke the barriers between worlds, universes, and planes.

Buzzzzzz! Buzzzzzz!

A pure white Radiance shone.

half a minute later.

The spatial crack stabilized and turned into a white arch gate. It was only two meters tall and one meter wide, and appeared in the core Hall of the immortal Palace.

Very quickly.

a message appeared in jiang li’s mind out of thin air. it was sent by the white diamond mark, or more precisely, it was sent to jiang li by little white.

Jiang Li soon remembered it.

“Close.”

shua!

A white light flashed.

The White arched door closed and disappeared, and the space returned to normal.

With the information in his mind and the ‘white order’, Jiang Li could control the White arched gate, which was the ‘plane channel’.

In addition.

Jiang Li could also expand the entrance of the tunnel and move it, but he couldn’t be more than 10000 meters away from the immortal Palace. Otherwise, the ‘plane tunnel’ would collapse.

“Your Majesty, just now ...”

Asked Elder Brown.

“Yes.”

yes, ” Jiang Li said. the passage has been built. I’ll go to the other side of the passage in person soon.

Four days later.

Wu Wuji and the others returned one after another, and the four Seas were all occupied by them. They had successfully taken over all Four Seas, and they became the territory of the great Xia Empire.

In addition.

Wu Wuji and the others took all the resources in the sea area and brought them back to the great Xia Dynasty. Jiang Li converted more than 90% of the spiritual stones, herbs, and herbs into energy points.

The harvest was not small.

It had increased by three to four million trillion energy points.

energy points: 14.8 trillion energy points.

jiang li opened the interface and took a closer look at the number of energy points.

At the same time.

Due to the expansion of the great Xia Empire's territory and the destruction of the remaining sea dynasties and sea dynasties in the four Seas, they had absorbed a lot of the country's fate.

The Empire's fortune had increased.

The Azure Dragon of the great Xia Dynasty had grown from 100000 meters to 110000 meters.

That night.

Jiang Li used the energy from the fate of the nation and successfully formed the 'earth of the spleen'. A level 24' Lotus of earth of the earth of the spleen 'was formed above his abdomen. It was glowing with a yellow light.

As a result ...

jiang li's cultivation broke through and he successfully reached the mid-stage of level nine.

The next day.

Jiang Li led Wang Gang, WMS01, SSTs01, MYL01, and his pet servant Wyke into the plane channel.

“Farewell, Your Majesty.”

“I wish Your Majesty a triumphant return.”

In the surroundings.

Wu Wuji and the other princes, as well as all the Lords and ministers of great Xia, came to see Jiang Li off. Wu Wuji and the others persuaded Jiang Li to let them explore first.

However ...

No. Jiang Li still refused.

Jiang Li didn't trust Wu Wuji and the others to do it.

Chapter 684 Return

In the universe.

It was vast and boundless. Even if one spent their entire life, they could only see the tip of the iceberg. It was dark and quiet, and countless planets decorated the Dark Universe.

It was as if he was drawing on black paper.

In a certain corner of this vast universe.

The Milky Way.

It flickered with a Silver Radiance and had an extremely beautiful appearance, like a Whirlpool in a River.

His line of sight continued to Zoom in.

Solar system.

in the starry sky, very close to mars.

Kachaa! Kachaa!

Suddenly.

Without any warning, a crack appeared in the space of this starry sky. It gradually expanded and then solidified, emitting a faint white light and forming an arched gate.

Buzzzzzz! Buzzzzzz!

The light flickered.

Jiang Li, the three meches, and his beast pet servant, Wyke, walked out of the White arched gate at the same time and stood in the universe.

Loneliness and darkness.

“it’s awkward here.”

Jiang Li opened his eyes. It wasn't easy for him to teleport across the universe. After passing through the plane channel, he finally arrived at the plane universe that the six clans and immortal courts anchored together three years ago.

After a long time.

Jiang Li finally came back to his senses.

As expected of the 'plane channel' built by the immortal court, Jiang Li didn't feel any discomfort even though it was a space-time transfer across the universe.

One had to know.

when jiang li used the space teleportation formation of the martial immortal court of the human race-saint peace state, he felt dizzy and uncomfortable after the teleportation.

but ...

Jiang Li didn't feel any discomfort this time.

"Master."

at the first moment.

Wyke returned to his original form, a huge Lightning Dragon, and appeared in the universe. Purple lightning surrounded the Dragon's body.

It was a thousand meters long.

"This place is truly an extremely vast starry sky."

"I can feel the omnipresent cosmic energy in this universe," Wyke said with emotion.

“Yes.”

okay. Jiang Li nodded. He stood on Wyke’s back and looked around. The familiar scene made Jiang Li feel complicated.

Mars, earth, and the incomparably vast sun were burning with the flames of the sun.

Even if they were far apart.

Even Jiang Li could feel the terrifying power.

I really didn’t expect that I would actually return.

Jiang Li still couldn’t believe it. He looked ahead and saw the Blue Planet spinning around the sun.

Next to the Blue Planet.

There was also an even smaller satellite-the moon.

After the excitement.

Jiang Li gradually calmed down.

after all ...

jiang li had been through a lot in the saint peace state and his mind had been trained. although he was excited, he calmed down in a short time.

“It’s alright.”

it's okay. Jiang Li was relieved. although I didn't return to Earth directly, I'm still next to Mars, which is the closest to earth.

“You have to know.”

the entire universe is vast and boundless. Just the universe that can be observed by humans on earth is made up of more than two trillion galaxies the size of the Milky Way.

if its diameter is calculated in terms of Earth's 'light years', it has reached 93 billion light years.

as for the even more unknown and unobservable universe, it's even more unknown. How big is it, what is it made of, and so on.

“Everything is unknown.”

in other words, I can build a 'plane channel' from a Super Fantasy world and directly come to the solar system of the Milky Way, or even next to Mars.

“This is already an extremely lucky thing.”

...

in reality.

Was this really just luck?

Not necessarily.

Jiang Li's soul traveled to the Super Fantasy world from earth. The origin of the Holy peace state collected information about this plane of universe through Jiang Li and formed the 'universe mark' and 'world coordinates'.

it was more likely.

Most of the information recorded in the 'universe imprint' was probably related to earth, the solar system, and even the Milky Way.

This way ...

That explained why Jiang Li could come to Mars directly.

In contrast.

Since Jiang Li could teleport to Mars, the armies of the other dynasties in the Super Fantasy world would probably appear in the solar system or around the Milky Way.

There were even more.

...

He might even directly descend on earth.

"I have to return to Earth as soon as possible."

jiang li took a deep breath. after thinking about it, he looked at the blue planet in front of him and was ready to teleport to earth as soon as possible.

One had to know.

The distance between Mars and earth would change as the two planets revolved. The closest could reach 55 million kilometers, and the furthest could reach 400 million kilometers.

The difference was almost four times.

The close contact between the two occurred about once every fifteen years.

Currently.

The distance between Earth and Mars was about 100 million kilometers.

“let’s go,” he said.

go, ” Jiang Li said. go to the Blue Planet as fast as you can.

“Yes, Master.”

Wyke replied.

Kachaa!

purple lightning flashed.

Wyke was ready to turn into lightning and travel through space.

Shua! Shua! Shua!

However ...

before wyke left, the space in front of them started to ripple. about seven figures appeared out of thin air and blocked jiang li’s way.

The light dissipated.

The seven figures revealed their true faces.

They were dressed in green cloth armor, carrying bows and arrows on their backs, and holding a wooden spear in their hands. There were three women and four men.

both men and women were extremely beautiful, with long green hair, pointed ears, and skin as white as snow.

They were like 'elves'.

Seventh rank!

These seven elf-like men and women.

They were all at the seventh step of cultivation.

That's why they could travel freely in the universe.

however ...

They used the power of spatial teleportation to get here. They blocked Jiang Li and the others 'way and stared at them coldly.

"How dare you!"

Among the seven 'elves', the middle-aged man standing in the middle was the slimest. He wore an eye patch on his left eye, but it was unknown if it was because his left eye was blind or if there was some other reason.

Furthermore ...

He had the highest cultivation.

He was at the peak of tier 7.

“How bold of you to trespass the territory of the Starfall Empire.”

The middle-aged man chided in a deep voice, ” report your names immediately.

“The Starfall Empire.”

let’s go. Jiang Li muttered. Even if he was in the universe, his consciousness could enter that space and communicate with the true dragon List.

Shua!

The vast true dragon Roll appeared.

Starfall imperial dynasty. Jiang Li looked around and immediately found the name ‘Starfall imperial dynasty’ on the true dragon List. It wasn’t ranked very high and was only on the ninth-rank.

120, 800th place: Starfall Empire, country name ‘star’, demon Emperor’ Starfall River’.

His consciousness returned.

The whole process only took a few seconds.

“The Starfall Empire.”

” it’s star. ” jiang li looked at him and said, ” it’s a dynasty of the monster race and the monster emperor, falling star river. it’s ranked 12080th. ”

“Yingluo, how did you know?”

The seven ‘elves’ widened their eyes and looked at Jiang Li in shock.

“Let me ask you a question. Are you ‘elves’?” he asked.

jiang li asked.

“yes, i am.”

The other party answered directly.

“Interesting,”

I can't. Jiang Li understood. although I can't bring the races from other worlds into the Super Fantasy world, it doesn't mean I can't bring them to other worlds.

therefore, when they ruled the other worlds, they tamed or enslaved the races and creatures in the other worlds, then formed an Army, which was then used to conquer other worlds.

“That's a good idea.”

obviously.

jiang li couldn't see other races in the saint peace state and the super fantasy world, but he believed that he would be able to see the glory of all the races in the future.

“Other than the ‘Starfall dynasty’, what other dynasty has descended upon the solar system?”

did any dynasty send an Army to earth? ” Jiang Li asked again.

“you're too noisy!”

the middle-aged elf recovered from the shock and didn't want to answer jiang li's question. he shouted, ” “I don't care where you got this information from. You're

truly audacious to trespass the territory of the Starfall Empire. Surrender immediately and follow me to the military camp.”

“Otherwise, we’ll definitely turn you into ashes.”

“Kill him, leaving one alive is enough.”

you’re right, ” Jiang Li said indifferently.

“Yes, sir.”

Shua!

As soon as he finished speaking.

MYL01 disappeared instantly and teleported. The next moment, he appeared in front of the seven elves and the blade of Quietus was formed.

He held the saber in his right hand and swung it.

Pfft! Pfft!

Blood splattered everywhere.

all they could see was a flash of black light, and six of the seven elves died. their heads were cut off with a single strike, and they had no power to retaliate.

Late-stage rank nine.

MYL01 was already at the late-stage of the ninth rank.

The last dynasty battle had ended.

MYL01, SSTs01, and WMS01 had all reached 100% evolution. After Jiang Li got a lot of energy points, he upgraded them all to the late-stage of level nine.

nine luminaries heaven grade-9!!!

Dumbfounded!

they were terrified!

The only surviving middle-aged male elf was filled with shock and horror. His entire body trembled, and he felt a chill run from the soles of his feet to the top of his head.

He had never thought that during a patrol mission, he would accidentally discover a few 'humans' entering his territory and come to stop them, only to encounter a type 9 powerhouse.

this was really too terrifying.

“Who is it?”

what great courage!!

“You actually dare to commit murder within the territory of our commander!”

BOOM! BOOM! BOOM!

In an instant.

on mars.

In the Starfall Empire's military camp, several marshals and generals noticed the energy fluctuations. They immediately reacted, and a terrifying aura soared into the sky.

they rushed over as fast as they could.

“What a fast speed.”

jiang li looked over and clearly felt several powerful auras coming at a high speed. they would be here in half a minute at most.

“Let’s go,” he said.

Jiang Li said.

Buzzzzzz!

At the same time.

jiang li flicked his right hand and the mark of the emperor’s position appeared between his eyebrows. his vast true essence formed a giant palm and grabbed the middle-aged male elf who was stunned by the emperor’s position.

Kachaa!

a flash of lightning.

Wyke’s body turned into lightning, shuttled through space, and disappeared.

Half a minute passed.

Jiang Li and the others had already left.

When the generals of the Starfall Empire arrived, they had already lost track of Jiang Li and the others. Even if they wanted to chase after them, there was no trace left.

Chapter 685 karma

The three generals of the Starfall Empire.

Only one of them was a true pure-blood demon. He had silver hair and a handsome face. He even looked a little demonic. He had a ninth-rank Sky Fox bloodline.

It was called 'Hu ye Huo'.

As for the other two marshals.

He was not a demon at all.

One of them was an elf.

This elf was an extremely beautiful woman. She wore a jade-green dress, her long legs were as straight as Jade, and her lips were thin. Her temperament was a little cold.

It was called 'Yawen kelanmir'.

The last one.

A pure orc.

generally speaking.

The human-beast hybrid clan was somewhat similar to the demon clan. Before the demon clan reached level three, they were similar to the human-beast hybrid clan. They had the head of a beast and the body of a human.

but ...

When the demons in the Super Fantasy great world reached the third rank, they could transform into human appearances. When they reached the ninth rank of the awakened realm, they could even completely activate their bloodline and transform into terrifying existences.

However ...

However, the beastmen were different.

No matter how powerful they were, they would only have the head of a beast and the body of a human. At most, they would awaken the characteristics of the Beastman bloodline or become taller.

The Beastman in front of him.

It was the extremely muscular Minotaur. He was three meters tall and had dark red skin. His muscles were abnormally well-developed, and he had extremely sharp horns. When he spoke, his nose would spew out steam-like breath from time to time.

In addition.

This dark red Tauren was dressed in blood-red full-body armor, and his weapons were two dark red giant axes that he often carried on his back.

It was called 'Lanti bloodbull'.

six Level 7 patrol soldiers, all of them elves, were killed in one strike. They couldn't resist at all, and it was a one-sided massacre.

Hu yehuo looked at the six corpses of the elves floating in space and analyzed them for a while. He then said, "There's still a trace of destructive saber intent left on the wound."

"The other party is very strong. He's at least a ninth-rank master."

in addition, we didn't see the body of the patrol team's captain, Randi Shinkle. It's very likely that Randi isn't dead yet, but he was taken away by the other party.

"do you know the other party's background?"

Yawen was expressionless.

"....."

Hu yehuo shook his head and said, "I can't deduce it. Furthermore, I don't know the 'deduction technique' and have never been to the cultivation world, so I can't deduce any cause and effect .."

"Hmph!"

Lanti snorted. don't let me know who it is. Otherwise, I'll chop them into meat paste. How dare they commit murder in our territory? ""

"no matter who it is, they killed my men and want to escape unscathed? It's impossible!"

Ywen's tone was cold.

"Oh."

Hu yehuo looked at Yawen and said indifferently, "What do you plan to do?"

"....."

Lanti also looked at Yawen curiously.

Soon after.

Ywen took the Golden-green longbow from her back. He held the bow with his delicate left hand, took a deep breath, and made a seal with his right hand. Dark green runes interweaved.

Shua!

Yawen grabbed at the bodies of the six elves and used a secret elven technique to grasp a trace of karma from the bodies.

“Forbidden elven technique-karmic archery!”

buzzzzzz! buzzzzzz! Buzzzzzz!

Immediately.

Ywen’s body emitted a dazzling radiance. Vast energy gathered like a dark green Sun, and huge trees grew out of the void of the universe.

It illuminated the lonely darkness.

“This is a Kasaya.”

Lanti’s huge eyes narrowed as he felt a chill.

“he actually used this move.”

Hu ye Huo said in shock.

“Life and death arrow!”

Shua!

...

Ywen’s fair, Jade-like right hand reached forward again. Endless light gathered with her right hand as the center, gathering all the energy.

“condense!”

Yawen shouted.

In the end.

The karmic aura she had grasped and all the energy condensed into a transparent jade-like arrow. It flickered with light, and all of its aura was restrained, making it impossible to sense.

He drew the bow and shot an arrow.

Buzzzzzz! Buzzzzzz! “Whoosh!!!”

Energy surged.

The surrounding space began to shake slightly.

ywen pulled the longbow in his hand into a full moon shape. his body glowed with light, like an elven goddess, releasing endless brilliance.

“Go.”

...

Whoosh!

The life and death arrow was shot.

In that instant.

The Emerald-like dark blue arrow disappeared, turning into a dark green Arrow of Light. It pierced through space and disappeared.

He had crossed a great distance.

“as expected of the karmic archery technique.”

Hu yehuo was amazed, ” using the way of karma to kill the enemy and travel through space. Legend has it that if one cultivates it to the highest level, one can cross the river of time. Unless the other party can cut off karma, they will definitely not be able to avoid this arrow.

“.....”

Ywen was silent.

“What a vengeful woman.”

Lanti muttered.

On the other side.

Half a minute passed.

Wyke’s body turned into lightning and shuttled through space. His speed had already reached the speed of light, which was about 300000 kilometers per second. Half a minute was equivalent to 30 seconds.

wyke flew about 900 kilometers away.

“It’s too slow,”

Jiang Li stopped Wyke and said in a deep voice, ” “With your speed, it will take you at least 30 days to reach earth.”

“Master.”

that’s all I can do, ” Wyke said nervously. unless I use a forbidden bloodline spell, I can probably increase my speed by more than ten times.

however, the bloodline forbidden technique’s duration is too short. It’s not suitable for long-distance travel.

“Wang Gang,”

Jiang Li frowned and asked in a deep voice, ” “If you use the ‘starry sky Battle technique’ to perform spatial teleportation, what level of speed can you reach?”

“Reporting to you, chief sovereign.”

yes. Wang Gang replied, ” when the ‘space combat technique’ is activated at full power, teleportation is equivalent to space teleportation. The longest distance of one teleportation can directly cross ‘one light year’.

“It can reach a light year!”

Jiang Li’s pupils constricted. He was surprised.

One had to know.

the entire solar system’s diameter was about ‘one light year’.

In other words ...

If Wang Gang used his 'space combat technique' at full power to perform 'space teleportation', he could cross from one end of the solar system to the other end in one go.

It was really hard to believe.

“Chief sovereign.”

it's too late, ” Wang Gang continued. activating the 'space combat technique' at full power to perform the 'space teleportation' will consume all the energy, and it will take up to one minute to prepare.

therefore, it's only suitable for traveling. It can't be used in a battle.

in a battle, the longest teleportation distance can only reach 300000 kilometers, which is the distance of one second of light speed transmission.

“yes.”

okay. Jiang Li nodded and said, ” get ready to teleport.

“Yes.”

Wang Gang nodded.

Buzzzzzz! “whoosh!!!”

Immediately.

The 'antimatter energy reactor' in Wang Gang's body started to operate at full power. The energy of the antimatter surged. It was so terrifying that it caused the

space to distort. There were also extremely obvious spatial fluctuations on Wang Gang's body.

Kachaa!

At this moment.

A Jade-like arrow pierced through the space and appeared out of thin air. It contained extremely terrifying fluctuations. Jiang Li also felt a trace of danger.

The sharp arrow locked onto MYL01.

“This is a Kasaya.”

archery? ” Jiang Li was surprised. what archery? It can lock onto the enemy across space!”

“sinking into death.”

MYL01 immediately used his most powerful skill. A vast black mist of light spread out, forming a huge shadow of the death god, which was quite solid.

“Slash!”

Shua!

MYL01 waved his right hand, and the death God's apparition held the death God's scythe. As MYL01 moved, the death God's scythe slashed through the air, almost tearing the space apart.

kachaa! Kachaa!

The karma life and death arrow and the Reaper's Scythe collided.

“Rumble!”

the terrifying energy exploded, creating a series of energy storms that swept in all directions. the space trembled, and the light from the explosion was extremely dazzling.

On earth.

There were astronomical observatories and astronomical satellites in various countries.

All of them discovered the explosion and captured an unclear image. They could only capture a green light and a pitch-black light colliding in the lonely and dark Universe.

After that.

There was a terrifying explosion, leaving only a dazzling light.

in an extremely short period of time.

Astronomers from all over the world sent the images they had captured to their higher-ups, causing them to be shaken to the core.

In reality.

This was not the first time something like this had happened.

It started three years ago.

All kinds of unbelievable events happened on Earth one after another, and various countries even discovered traces of ‘battleships’ in the universe.

A spaceship suspected to be an alien.

All sorts of situations.

All the countries were shocked.

Fortunately ...

The situation was still considered stable, and there was not much turmoil.

of course.

This was also because earth didn't have any 'resources'. Although it was a planet with life, it didn't attract too much attention from the various great empires.

Of course.

The technology on earth had attracted some attention.

Therefore, the armies of the various empires only sent out some Vanguard teams to earth to collect information about this universe and so on. That was why nothing major happened.

Currently.

The armies of the various empires appeared in the solar system. They occupied all the major planets in the solar system and were prepared to transform the planets they occupied into military bases before gradually expanding.

Bang Bang Bang Bang!

In the end.

the light dissipated.

The Emerald green karma life and death arrow exploded, shattering into Starlight that filled the sky. MYL01 had also exhausted all his energy in this move.

It gradually calmed down.

“Recover,”

Buzzzzzz!

Jiang Li used some energy points to restore the energy of MYL01.

“How’s the power of this arrow?”

Jiang Li asked.

“Hegemon, it’s not weak. It’s strong enough to threaten an ordinary peak rank nine.”

myl01 replied.

“Yes.”

Jiang Li nodded, looked at Mars, and murmured, ” this means that the Starfall Empire’s Army stationed on Mars has at least a type 9 combat strength.

“Yes, I am.”

MYL01 nodded.

let’s return to Earth for now. After we confirm the current situation, we’ll settle the matters in the Starfall Empire.

Jiang Li said.

Outside Mars.

“Ah!”

The moment the karma life and death arrow was shattered, Yawen suffered a strong backlash. She screamed and spat out blood. Her pretty face was as white as paper as she said in shock, ” “What a powerful attack. The attack from the other party seemed to contain a trace of the authority of the death god.”

“The Grim Reaper!”

Hu yehuo’s pupils contracted, ” Are you sure? Could it be a God race? And it’s the death God’s lineage?”

“no.”

yawen shook his head. ” i can’t sense the aura of a god race. however, although the karma life and death arrow didn’t injure him, i can sense where he is going. ”

if I’m not mistaken, the place they’re going to is the Blue Planet called ‘earth’.

Hu yehuo pondered for a while, ” a peak-stage type 9 expert suddenly appeared. It’s better to head straight for that Azure planet.

“There must be some secret behind this.”

“It might be related to this universe.”

you must know that we’ve been in this universe for three whole years, and besides earth, the only planet with life, we haven’t found any other planets with life.

“This Marshal will immediately report to the ‘Fox Prince’ and send troops to ‘earth’.”

“Alright,” he said.

Yawen nodded.

“is there going to war?”

Lanti said excitedly.

A minute later.

“Chief sovereign.”

it’s done, ” Wang Gang said. we can start the ‘space teleportation’ at any time.

“Alright,” he said.

yes. Jiang Li nodded. let’s go now.

“Yes.”

Buzzzzzz!

let’s go. Wang Gang waved his right hand and took Jiang Li and the others with him. He activated the starry sky Combat skill. With a flash of light, Jiang Li and the others disappeared into thin air.

They had already arrived on earth.

Chapter 686 The interrogation

As soon as Jiang Li arrived on earth, he heard the explosion of manuals before he could figure out where he was.

At this moment.

The scorching sun shone in the sky, and the temperature was extremely high.

It was noon.

Jiang Li looked around.

Da da da da

in front of him.

There were two 'troops' exchanging fire. One could see that the two positions were locked in a battle, and the slightly behind mortars and other artillery weapons were firing at each other.

the muzzles of the guns spat out tongues of fire, forming a rain of bullets.

"They're all black people."

"hmm?" jiang li frowned. he saw the origin and race of the two sides. if he was right, it should be two black troops fighting.

In other words ...

This was Yindu.

As for the reason why the two black troops were fighting ...

Jiang Li didn't know.

The troops on the left were wearing standard military uniforms, while the other side was slightly messy, but their firepower was not weak at all.

at this moment.

Jiang Li! a few black men among the two troops noticed Jiang Li's group. Jiang Li's group appeared very suddenly and they were very close to the battlefield, less than ten meters away.

unknown personnel approaching the battlefield.

"it's an asian!"

"?!"

"Fuck!"

"No matter who they are, if they suddenly approach the battlefield, kill them!"

"....."

he did not hesitate for too long.

The troops on both sides were already in a frenzy. Jiang Li's sudden appearance triggered their sensitive nerves.

Hence.

he aimed at jiang li and the others and fired.

Fire coverage.

Da da da da

The bullets shot out like fire and formed a rain of bullets. The bullets covered Jiang Li and the others. The air was filled with the burning smell of gunpowder.

“How audacious!”

Buzzzzzz!

Wyke quickly stepped forward and scolded, ” you’re just an ant. How dare you attack our great master? you deserve to die.

Kachaa! kachaa!

Lightning flashed and Thunder rumbled.

Lightning formed in front of Wyke and turned into an inescapable net, blocking all the bullets. The terrifying lightning turned the bullets into ashes.

what?!

the bullet turned into ashes.

“Heavens!”

“Jian Jia and the others are supers.”

Everyone was terrified.

“roar!”

A Dragon's Roar resounded.

Wyke roared, and his head turned into a huge dragon's head. The purple dragon's head was extremely ferocious, as if it was a messenger from hell.

"Lightning breath!"

Buzzzzzz!

Wyke let out a dragon's breath, and the lightning and thunder surrounded the battlefield. The two troops looked on in horror.

Bang Bang Bang Bang!

The lightning breath penetrated and destroyed everything.

Explosions sounded one after another.

The entire battlefield.

It turned into a huge, charred pit, with black smoke rising from it. Everything was wiped out, and the two troops were completely wiped out.

...

After that.

The lightning slowly subsided, and Wyke's dragon head returned to its original state.

"Master."

Wyke lowered his head. Please forgive me for killing these ants who offended you.

“If he’s killed, then so be it.”

Jiang Li waved his hand and looked at the middle-aged elf caught by SSTs01.
“Let’s find a quiet place and interrogate him properly.”

“yes.”

Shua! Shua!

his figure flickered.

jiang li and the others left.

Half an hour later.

...

Boom! Boom! Boom!

The rumbling of tanks could be heard, as fighter jets flew in from the distance, circling the air and capturing the surrounding scene.

“It’s those ‘supers’ again.”

what a terrifying power. It razed the entire battlefield to the ground and even left behind such a huge pit that’s 10000 meters deep.

“He’s too strong.”

“Do we really have a chance of winning against such a terrifying existence?”

“.....”

Everyone's hearts were filled with doubt and fear.

On the other side.

Jiang Li didn't enter the city. Instead, he went to a dense forest and found an empty place. SSTs01 threw the middle-aged elf on the ground.

"Yingluo, Who are you?"

Lan Di's face was filled with fear.

One had to know.

He had seen with his own eyes that the 'karma life-death arrow' had been shattered by one of these people. That was Marshal Yawen's ultimate move.

Yet, it had been dealt with so easily.

"Now, I'll ask you a question, and you'll answer it."

Jiang Li looked at Lan Di indifferently.

"What do you want to ask?"

Lan Di couldn't calm down.

"What's your name?"

Jiang Li asked.

"randi shinkle."

Lan Di replied.

“In the entire solar system, other than the Starfall imperial dynasty, what other imperial dynasties are there?”

Jiang Li asked again.

“This Suan ni, this Suan ni”

Lan Di didn't want to answer.

Whoosh!

die! Jiang Li pointed with a finger coldly.

Pfft!

“Ah!”

ah! Lan Di screamed. Jiang Li's finger ray pierced through Lan Di's thigh. Green blood splattered and fell on the surrounding plants, causing them to grow rapidly.

It only took an instant.

the ordinary wild grass had grown to a full ten meters.

“answer my questions properly and i'll give you a quick death. otherwise, i'll make you suffer endless pain and die in despair and wailing.”

Jiang Li said.

“You, you, you, you, you, you, you ...”

Lan Di's entire body trembled, and his face was pale.

“Speak!”

you're right, ” Jiang Li said coldly.

” other than xuanji and the starfall empire, there's also the barbarian's witch-praying empire and the human's silvermoon empire. the witch-praying empire occupied venus and is preparing to transform it into a 'military base'. the silvermoon empire occupied pluto. ”

“The Silver Moon Empire has already started to expand beyond the solar system,” Lan Di quickly replied.

“What about the God race, devil race, and ghost race?”

Jiang Li asked.

“This bi an ...”

“The whereabouts of the three clans have always been hard to track. The Starfall Empire has never discovered any traces of them, so I don't know either,” Lan Di replied.

how many troops does the Starfall Empire have stationed on Mars? ”

what's wrong? ” Jiang Li asked.

“No, Zhenzhen doesn't know.”

Lan Di gritted his teeth.

“Ah!”

die! Jiang Li pointed and Lan Di's left hand was crushed, but he gritted his teeth and didn't want to say anything more.

“Wyke, I'll leave it to you.”

go. Jiang Li waved his hand.

“yes.”

Wyke nodded and walked toward Randi.

ah ah ah ah!!!

after that.

Lan Di's shrill screams reverberated through the entire forest.

jiang li looked up at the sky with his hands behind his back. he couldn't see the stars because it was daytime. he could only see the blue sky, white clouds, and the hot sun.

As for Lan Di's screams ...

Jiang Li unknown.

Half an hour later.

“Master.”

Wyke walked over, his face stained with green blood. I've tried everything I could to get Lan Di to reveal any information about the Starfall Empire.

“However,”

“There was a lot of information about the Silver Moon Empire and the witch-praying Empire.”

“yes.”

Jiang Li turned around and looked behind Wyke. There were trees and grass that were many times larger. The trees were thousands of meters tall.

In the wild grass.

One could vaguely see a badly mangled corpse.

Immediately after.

Jiang Li. Wyke reported the information he got in detail to Jiang Li.

“Master, the witch praying Empire has occupied Venus for three years and is almost done with its transformation. The witch praying Empire has sent a total of three armies.”

“They are the giant army, the blood clan Army, and the third barbarian Army,” said Wyke.

” the three nine-star generals are all grade-9 experts, but their cultivation is unknown.

“Also,”

“there’s also a prince of the witch-praying empire who’s the commander-in-chief. the other party is extremely powerful, and lan di doesn’t know much about him.”

“Yes.”

yes. Jiang Li nodded. what about the Silver Moon Empire? ”

“Master.”

the Silvermoon Empire is already an eighth-tier Empire, ” Wyke replied. its national power is far stronger than the wizard praying Empire and the Starfall Empire. However, the Silvermoon Empire has not discovered any ‘resources’ in the solar system and only has one life planet. Therefore, they are planning to explore the entire Milky Way.

if that’s the case, on the surface, there are only two enemies in the solar system, which are the ‘Starfall imperial dynasty’ and the ‘witch praying imperial dynasty’. Of course, we can’t ignore the elusive God, devil, and demon races.

” i’ll be careful. ” jiang li thought. ” also, i have to be careful of the silver moon empire. ”

“.....”

Jiang Li was silent for a while and murmured, ” logically speaking, after becoming an imperial dynasty, one should be able to grasp the power of the ‘spatial domain’. Why didn’t I obtain any abilities related to the’ spatial domain ‘after becoming an imperial dynasty? ”

Mars.

the starfall empire’s military camp.

In the middle.

A huge Palace was erected. It was 100 meters tall and was decorated with countless stars, forming a beautiful star map. Numerous soldiers of the Starfall Empire patrolled the surroundings.

Within the palace.

In the Grand Hall.

Right in front.

The 'Fox King' of the Starfall Empire sat at the highest position. Hu yehuo, Yaren, and Lanti sat at the second position below. Behind them were the six deputy marshals and many generals.

The Army's higher-ups gathered.

"Your Highness."

Hu yehuo was the first to speak, "not long ago, a few type 9 experts suddenly came to our territory. They killed 7 Type 7 patrol soldiers.

Marshal Yawen had fought with him before and even used the 'karma life and death arrow', but he was unable to hurt him at all. He must be very powerful and of a mysterious origin.

I'm guessing that there are other empires that have come to the solar system.

"Yawen."

the fox prince's gaze fell on 'yawen kelanmir'. "even your' karma life and death arrow 'can't hurt him? "

"Yes, Your Highness."

Yawen saluted, revealing an extremely beautiful arc with his graceful figure.

"Oh."

The Fox Prince pondered for a moment. to have such strength, they must be at the top of the type 9 realm. There are several of them, but they didn't send an Army.

“your highness, after the other party arrived, they headed straight for earth.”

“This subordinate feels that they might know some secret information. Otherwise, they wouldn't have headed to earth with such a clear goal in mind after arriving here.”

“What do you guys think?”

The Fox Prince looked at the marshals and generals.

“Everything will be decided by Your Highness. We will follow your orders.”

Within the palace.

All the marshals and generals said in unison.

“Alright,” he said.

“I don't care who they are or where they came from. They have the audacity to kill my soldiers in my territory. They deserve to be killed,” the Fox Prince stood up and said.

“Hu yehuo, Yawen, Lanti,”

“Each of you will lead half of the soldiers in your respective armies and form the ‘revenge Legion’. We will head to’ earth ‘and kill the enemies. If there's a chance, capture them alive,” the Fox Prince shouted.

“I'll stay on Mars, in case the qiwu Empire attacks.”

“Your subject will obey!”

“Yes!”

“Your subordinate obeys!”

Hu yehuo, Yawen, and Lanti responded in unison.

Chapter 687 Surrounded

On the other side.

Venus.

It was the planet where the Army of the witch-praying Empire was stationed.

When their Scouts found the tracks of the Starfall Empire’s Army, they immediately reported the news to the three marshals and the Prince of the witch praying Empire’s Army.

“Why would the Starfall Empire send troops to earth for no reason?”

“What happened?”

we did detect a powerful energy explosion not long ago.

since the Starfall Empire has sent their troops, we can’t pretend that nothing has happened. Immediately send out the order to send half of our forces to earth.

After a discussion, the princes and generals of the witch-praying Empire immediately gave the order to take action.

“Rumble!”

As the order was given, the soldiers of the witch Emperor dynasty moved quickly. One after another, huge floating battleships took to the sky and gathered together, forming a vast Army.

The two legions.

They were heading towards earth.

At this moment.

On earth.

it was already evening.

shua! Shua! Shua!

jiang li and the others flew in the air. after confirming their location, they arrived at huaxia as fast as they could. they entered the territory of huaxia and came to the familiar town according to the memory in his mind.

hu province, jianghe city, longbei county.

Jiang Family Village.

The village entrance was a cement road that led to the main road.

The sunset glow scattered.

It was almost night time, so there weren't many people on the road. Jiang Li and the others didn't cause any disturbance when they landed. No one noticed them.

it had been ten years.

The change was quite big.

ten years ago.

Jiang village was a relatively backward village. There were only a few houses in the village that could build a small bungalow. It could be said that the number could be counted on one hand.

There was no cement road at the village entrance, only a muddy road.

now.

Jiang Li looked up and saw two or three-story buildings. Some of them even had country villas.

It had completely developed.

Jiang Li took a deep breath. He was a little afraid of being close to home, but he soon calmed down and walked into the village along the cement road.

Jiang Li didn't know where his parents were now.

buzzzzzz!

Hence.

let's go. Jiang Li was about to use his cultivation technique and scan the entire village to see where his parents ruled.

“Who are you?”

At this moment.

An old man walked over from the intersection. He looked at Jiang Li and the others with curiosity and vigilance.

wyke was about to walk forward, but jiang li put his hand on his shoulder and stopped him. jiang li signaled wyke to leave with his eyes and wyke stood behind jiang li respectfully.

“Old man.”

I'm Jiang Li. Jiang Li smiled and activated his power as an Emperor. There was a faint glow between his eyebrows. The aura of a superior was released. The old man was in awe.

“Do you know where Jiang beiguo's home is?”

Jiang Li asked.

“i know, i know,”

yes. the old man nodded. He was affected by the emperor's status, so he told Jiang Li everything he knew. turn left at the fifth intersection.

I just had dinner and came out for a walk. Do you want me to take you there? ”

“Then I'll have to trouble you, old man.”

Jiang Li said with a smile.

“it's no trouble, no trouble at all.”

The old man waved his hand. He led the way for Jiang Li and said, ” “Speaking of which, the family in the country of Jiangbei has also suffered a lot.”

about ten years ago, his eldest son, Jiang Li, died mysteriously. We haven't found the murderer yet.

“.....”

...

jiang li was silent.

fortunately, Jiang Lijun did not let us down. With an outstanding score of 703 points in the college entrance examination, he was admitted to the best 'jingbei National Defense Military Academy'. He graduated a few years ago and was directly awarded the rank of major and Deputy battalion commander.

The old man was very talkative. you should know that after graduating from university, you're usually a Deputy company commander and awarded the rank of first lieutenant. But Jiang Lijun is different. He made a first-class personal merit while he was in school.

“Is that so?”

that's true, ” Jiang Li said. that's true.

“i also think it's amazing.”

The old man nodded.

During the conversation.

They had already arrived.

“we've arrived at jiang beiguo's home.”

The old man pointed to the three-story building in front of them and said, "it's here. do you want me to help you call for help?"

...

"No need,"

"thank you," jiang li said. "old master, you can go back now."

"Yingluo, good, good."

The old man was taken aback. He had wanted to say something, but under the influence of his status as an Emperor, he nodded and turned to leave. Not long after, he disappeared around the corner.

At this moment.

The door on the first floor was pushed open.

"Who are you guys?"

Standing at the door was a girl with pigtails. She was tall and wore a blue and white school uniform with long pants. Her face was slightly childish and filled with the aura of youth.

"Little Xin."

huh? " Jiang Li was stunned and recognized it at first glance.

He calculated the time.

The little girl who used to like sticking to him should be thirteen years old now.

“who are you?”

Jiang Wenxin looked at Jiang Li with curiosity and glanced at the people behind him. She stood at the door and shouted into the room, ” “Brother, dad, mom, I think we have a guest.”

In reality.

WMS01, MYL01, and SSTs01, the three special meches, had changed their appearance after returning to Earth.

In the eyes of ordinary people ...

WMS01 was a burly middle-aged man, MYL01 was tall and thin, and SSTs01 was a sexy and enchanting woman with a tall figure.

“a guest?”

The sound of footsteps came from inside the house.

After that.

the first to arrive was jiang lijun. he was already a young man in his 20s. he had trained well and his face revealed a determined expression.

not long after.

Jiang beiguo and Zheng qiushui had also arrived.

Jiang Lijun walked to Jiang Li and frowned. He instinctively felt that Jiang Li and the others were extraordinary, even dangerous. He said, ” “i don’t think we know each other. why are you guys here?”

“Hehe.”

Jiang Li smiled. little Jun, I haven't seen you for ten years. You're a battalion commander now. You're getting bolder. You don't even greet me when you see me? ”

“You're so silly!”

Jiang Lijun frowned.

“.....”

Jiang beiguo and Zheng qiushui looked at each other with a look of surprise and doubt.

“mom, dad, i'm back.”

Jiang Li looked at Jiang beiguo and Zheng qiushui and said in a natural tone.

“You're so silly!”

Jiang beiguo and Zheng qiushui were even more stunned.

I'm Jiang Li.

Jiang Li said.

“impossible!”

“My brother died ten years ago. Who are you?” Jiang Lijun shouted. Besides, you don't look like my brother at all. Why did you pretend to be my brother? What are you trying to do?”

“Ai, ai, ai, ai.”

Jiang Li shrugged helplessly.

Obviously.

Jiang Li's soul traveled to the Super Fantasy world, so he looked different after he came back.

Moreover ...

A person who had been dead for ten years suddenly appeared in front of Jiang Lijun and the others. No one would believe that he was not dead and looked different.

Kachaa!

” jiang li. ” jiang lijun didn't think much. he took out his gun and pointed it at jiang li.

Ta ta ta da

The sound of concentrated footsteps rang out.

Jiang Li! two fully-armed soldiers rushed in from the door and a few more soldiers jumped over the wall. They surrounded Jiang Li with guns.

“stand there and don't move,”

you are surrounded, ” Jiang Lijun shouted. I don't care who you are, who you are, or what you want to do. For the sake of your life, you'd better surrender and tell me the truth.

“little jun, with the ‘fire sticks’ in the hands of your men, they can't hurt your big brother.”

No. Jiang Li shook his head.

Buzzzzzz!

As soon as he finished speaking.

Jiang Li waved his right hand and a green light flashed. The five fully-armed soldiers around him couldn't fight back at all and were all trapped by the green light.

Shua! Shua!

the guns in their hands also flew into the air.

Kachaa! Kachaa!

The gun was squeezed into a ball and smashed to the ground.

“You're so silly!”

Jiang Lijun's pupils contracted. you are a 'superhuman'.

“This bi an ...”

Jiang beiguo and Zheng qiushui were dumbfounded.

“Good, good, good, good, good!”

Jiang Wenxin's eyes lit up with excitement and yearning.

“I haven't beaten you up in ten years. You even dare to point a gun at your brother now, huh?”

Jiang Li glared at Jiang Lijun.

“I’m Yingying!”

Jiang Lijun was stunned.

“Are they really master’s family?”

wyke looked at jiang lijun and the others, his eyes full of curiosity and disbelief. ”
master is so powerful, and he has even established an emperor of an unparalleled
dynasty. ”

“Master’s relatives are all mortals who can’t even truss a chicken?”

“However, Yingluo”

Wyke was silent for a moment. He did feel a resonance with his master’s soul from
Jiang beiguo and the others. They were indeed blood-related relatives.

“it seems like you won’t believe me until i reveal some of your secrets.”

I don’t know. Jiang Li smiled. I don’t know who was reading erotic books but was
caught by the teacher. I’ll help you.

“Don’t whine.”

Jiang Lijun’s eyes widened and he shouted anxiously.

“Hehe, Yingluo.”

Jiang Li didn’t continue.

however ...

Jiang beiguo and Zheng qiushui looked at Jiang Lijun, who blushed.

“Brother, what’s a small yellow Book?”

Jiang Wenxin asked out of curiosity.

* Cough cough *

jiang lijun coughed a few times. ” you’re still young. don’t ask so much. ”

“hmph,” he snorted.

Jiang Wenxin pursed her lips. I’m not young anymore. I’m 13 this year and I’m in middle school. If you don’t tell me, I’ll go online and search for it later.

“.....”

Jiang Lijun’s face darkened.

“Hahahahaha!”

haha! Jiang Li laughed. Xin, you’d better not search online. Otherwise, I’ll be embarrassed.

“.....”

brother Jiang Li? ” Jiang Wenxin looked nervous and a little nervous. Qianqian, are you really brother Jiang Li? ”

“yes.”

” of course. ” jiang li nodded.

“Really?”

Jiang Wenxin was delighted.

One had to know.

Jiang Wenxin was only three years old, so her memory of Jiang Li’s appearance was blurry. Although she had Jiang Li’s old photos, she couldn’t change the blurry memory.

so,

jiang wenxin was the first one to accept it.

“Regardless of whether you’re really my brother or not, can you let them go first?”

jiang lijun put down the gun in his hand.

“Alright,” he said.

Shua!

let’s go. Jiang Li waved his right hand and the green light around the five soldiers disappeared. The five soldiers regained their freedom and rushed to Jiang Lijun.

Battalion commander, the other party is a mysterious super. You go first, we will cover your retreat.

the soldiers said.

“No need,”

Jiang Lijun waved his hand. if he really wanted to hurt us, we would have been dead long ago. All of you, return to your posts. This has nothing to do with you.

“Yes.”

The five soldiers nodded and quickly left.

“Let’s talk inside, Yueyue.”

Jiang Li. Zheng qiushui looked at Jiang Li as if he was there. Her eyes turned red. it’s late. Come in.

“Yes.”

” okay. ” jiang li nodded and walked into the room.

After that.

Jiang Li’s family sat in the living room and talked for the whole night. Jiang Li told them everything about his soul transmigrating to the Saint peace state ten years ago and the ‘Super Fantasy world’ in detail.

On the other hand, Jiang beiguo and the rest were full of shock and disbelief.

“It’s good that you’re fine, it’s good.”

Zheng qiushui was so happy that she cried.

“Good boy.”

I didn’t expect you to have such a fortuitous encounter, ” Jiang beiguo said in surprise. it’s really shattering our world views.

“Brother, Jiang Zhizhi.”

” what? ” jiang lijun paused for a moment and asked, ” you mean to say that all the ‘supers’ that appeared on earth are from the ‘super fantasy world’? ”

“Yes,”

okay. Jiang Li nodded.

Shua!

The next moment.

Jiang Li suddenly stood up and looked up at the sky through the window. It was already the next morning.

“They actually came so quickly.”

Jiang Li said in a deep voice.

Jiang Li’s eyes passed through all the obstacles and saw the fleet in the universe.

The entire earth was surrounded.

Chapter 688 Death

Jiang Li’s expression was serious because the enemy had sent out too many troops. In the universe outside of earth, it was an Army that was boundless.

He couldn’t even see the end.

They had already surrounded the entire earth.

There were only six of them. Although they were all level-nine Masters, the enemy also had level-nine Masters.

the spatial shockwaves created by setting up a plane channel on earth will probably destroy the earth. I must leave earth and set up a channel in the starry sky.

jiang li thought.

In addition.

With such a huge commotion, it naturally alarmed the higher-ups of the various countries on earth. The satellites that revolved around the Earth quickly transmitted the captured images to earth.

“this suan ni, this suan ni”

” hiss, hiss, hiss, hiss! something bad has happened! ”

“There are too many enemies, too many.”

the ‘aliens’ have mobilized their Army.

“The earth is in danger.”

now, issue an emergency order. All troops are to prepare for an alien invasion. Even if the other party is really an ‘alien’, even if their’ technology ‘far exceeds ours, we must fight to the death.

“.....”

In an extremely short period of time.

the leaders of the various countries on earth passed down various orders at the fastest speed. without the slightest hesitation, all the countries on earth mobilized all their armies.

Furthermore ...

Because the following war was related to the life and death of the earth, the countries around the world gave up their past grudges and reached a comprehensive cooperation.

Obviously.

the leaders of the various countries were very clear that under such circumstances, if they continued to hold onto their past grudges and refused to cooperate sincerely, they would be forced to cooperate.

there would only be one outcome for welcoming earth.

That was destruction!

However ...

Anyone with eyes could tell.

The difference between the two of them was simply too, too, too great.

They were not on the same level at all.

The hope of victory was too slim.

First of all ...

Let's just talk about the number of troops on both sides.

The total number of humans on earth wouldn't exceed eight billion. The number of soldiers was much smaller, even though the Army on earth relied on technological weapons.

however ...

It was a weapon that could really cause heavy casualties to the 'dynasty Army'.

the only thing that could be done was a 'nuclear bomb'.

“Di di di di di di di di”

At this moment.

Jiang Lijun's phone rang. He took it out and his eyes narrowed when he saw the content.

“dad, mom.”

Jiang Lijun stood up, looked at Jiang Li and Jiang Wenxin, and said in a deep voice, “little sister, brother Xuxu, there's an urgent Military Order from the higher-ups. The entire country's Army has been mobilized. I have to return to the team immediately.

“This bi an ...”

Jiang beiguo reacted, “could it really be Zhenzhen?”

“No!”

“Little Jun, you can't go, it's too dangerous!” Zheng qiushui shouted.

“Second brother,”

Jiang Wenxin sounded worried.

“mom,” she said.

as a soldier,” Jiang Lijun said in a serious tone, ” protecting the country is not just talk. You have to prove it with your actions. Dying for the country is worth it.

“Ai, ai, ai, ai.”

Jiang beiguo sighed. He knew that he couldn't stop Jiang Lijun. if I had known this would happen, I wouldn't have let you apply for the military school.

“.....”

Zheng qiushui didn't know what to say, but her eyes were full of reluctance.

“Gather.”

Jiang Lijun shouted.

...

“.....”

Dense footsteps.

The five soldiers came over as fast as they could.

“reporting,”

“Assembly complete.”

The five soldiers stood in a straight line and saluted Jiang Lijun.

“Let’s go.”

Jiang Lijun shouted.

“Yes.”

The five soldiers responded in unison.

Wuwuwuwuwu!

...

Jiang Li waved his right hand and a green light appeared, forming a light curtain that blocked Jiang Lijun and the others ‘way.

“Are you going to die?”

you’re right, ” Jiang Li said indifferently.

“Big brother, you’re too weak!”

Jiang Lijun could only finish his sentence, but he could not move at all.

Jiang Wenxin reacted and said excitedly, ” brother Jiang Li must have a way.

“Yes, yes.”

Jiang beiguo and Zheng qiushui’s eyes lit up and they looked at Jiang Li.

Buzzzzzz!

Jiang Li took out some exquisite iron boxes from his low-quality interspatial ring and put them on the table.

Shua!

Crack! Crack!

Jiang Li waved his hand and the iron boxes were all opened. There were small syringes in them. They were filled with liquids of different colors.

“Brother, What is this?”

Jiang Wenxin asked curiously.

“This is gene strengthening fluid.”

from level one to Level Seven,” Jiang Li explained. you can’t do it overnight, so I’ll have to inject you with this gene strengthening liquid first. It’ll help you reach Level Seven.

“At the very least, we’ll be able to keep our lives in the upcoming war.”

Under Jiang Li’s persuasion and explanation, Jiang beiguo, Zheng qiushui, and Jiang Wenxin began to inject gene strengthening liquids from level one to Level Seven.

Although the effects of the gene strengthening fluid were fast, it still required some time for the body to absorb the medicinal effects. Evolution also required a certain amount of time.

“Little Jun,”

I'm telling you," Jiang Li said. you're just a mortal. Even if you go there now, you'll just die for nothing. Finish injecting the gene strengthening liquid first and become stronger. That's the only way you can serve the country better.

"Yes."

Xiao Jun pondered for a while and nodded,"Brother, I'll listen to you."

"Alright," he said.

okay. Jiang Li smiled.

Shua!

The green light disappeared.

"Brother."

Jiang Lijun pointed at the five soldiers and said, "They're my subordinates who have been following me. Can you help them?"

"No problem," he said.

Jiang Li took out five more iron boxes. After opening them, there were only six syringes in them. They were only gene strengthening liquids from level one to level six, not Level Seven.

Hence.

Jiang Li's family and five soldiers began to inject themselves with the gene strengthening liquid.

"wyke."

stay here,” Jiang Li ordered. keep my parents safe.

“Yes, sir.”

Wyke said respectfully.

“yes.”

okay. Jiang Li nodded.

Shua! Shua! shua!

The next moment.

Jiang Li and the four meches flew into the sky and disappeared like five streams of light. They flew into the universe at a high speed.

On the other side.

The North Pole.

Buzzzzzz!

A snow-white figure rose up from the depths of the Arctic ice Mountain. Divine light filled the air around him, and he contained an extremely powerful aura.

She was like a Snow Maiden.

This was a God.

“yes.”

The Snow Maiden-like celestial raised her head. why did the armies of the demon and barbarian empires suddenly attack earth? ” What had happened?”

All over the earth.

Many hidden ‘supers’ had appeared, causing a lot of chaos. Among them were troops from the Starfall and witch-praying empires.

Not only that.

The Silver Moon Empire’s hidden team that was stationed on earth was also alarmed, and they immediately sent the news to the Silver Moon Empire’s army base in the solar system, Pluto.

The Starfall Empire’s Marshal flagship.

A huge ship.

It was covered in a vast array diagram, shining with light.

It was powerful.

Half of the Starfall Empire’s three great armies had gathered to form a massive Army. The number of soldiers had already reached a trillion.

The most important thing was ...

These soldiers of the Empire were different from the soldiers of the Empire. Not only were there trillions of them, but the weakest of them was at the early stage of Level 1.

hu yehuo looked at yawen and lanti and asked, ” “how are you going to fight? i’m sure there are many soldiers from the other empires hiding on earth.”

“Our Starfall Empire also has a small team on earth.”

there might even be the God race, devil race, and ghost race.

“.....”

Yawen was silent.

“Tsk tsk, the humans on earth seem to be preparing to resist.”

Lanti looked down at the Blue Planet. Her eyes passed through many obstacles and saw the rapidly gathering troops of the various countries on earth. She said sarcastically, “You really don’t know your place.”

“Destroy it,”

just destroy this life planet, ” Yawen said coldly. other than that thing called ‘technology’, earth doesn’t have the resources we need.

furthermore, we have already made a copy of all the ‘technological’ knowledge and technology on earth.

“So ‘earth’ is useless.”

“Destroying this planet will immediately force ‘them’ out.”

“En, Yingluo.”

hu yehuo nodded his head and muttered to himself, ” that makes sense. then let’s destroy it. ”

“All troops, hear my order!”

Hu yehuo took in a deep breath and his voice spread through the air, reaching the entire Army. He shouted, ” “Form a Grade 9 army formation-dead space, and destroy this planet.”

“Yes!”

“Set up the formation!”

Buzzzzzz! Buzzzzzz! Buzzzzzz!

immediately.

The ‘battleships’ lit up with a dazzling light, and many array diagrams rose into the sky and moved together, forming a ‘array base’. The air of military evil gathered and covered the entire universe.

Shua! Shua!

One by one, array Masters formed hand seals with both hands and mobilized the military Qi to form array patterns, which were then imprinted on the space.

boom!

The ‘space of death’ had been successfully set up.

It formed a level 9 formation space, pulling ‘earth’ into a ‘dead space’. The living beings on earth raised their heads to look at the sky and found that the sky had suddenly darkened.

Not only that.

the ‘space of death’ was filled with a blood-colored air current that contained the aura of death.

“Grade 9 army formation!”

“Not good!”

” retreat! this is a grade 9 army formation. unless it’s a grade 10 expert or the empire’s trillion-level army, there’s no way to fight against it. ”

“.....”

The various experts hidden on earth soared into the sky and flew out of Earth at their fastest speed. They then broke through the Starfall Empire’s blockade and rushed out of the Army formation ‘dead space’.

of course.

This was also because the Starfall Empire did not want to become enemies with all living beings. Otherwise, it would be hard for these experts to break out of the type 9 army formation.

“I’m sorry to trouble you,”

Jiang Li’s expression was serious. After he rushed out of Earth, Wang Gang and three special meches stood in front of him. They mobilized all their energy and were ready to fight.

“I’ll do it.”

Yawen took a step forward and took out a golden-green longbow in her left hand. Light surged as she controlled the power of the grade 9 military formation, ‘dead space’. Countless blood-colored air currents gathered towards her.

“The arrow of death.”

With the power of the 'space of death' and his own strength, Ywen condensed an 'arrow of death'. It was a sharp dark blood-red arrow that was intertwined with the laws of death.

It was as if the 'law of death' had been materialized.

He drew the bow and shot an arrow.

buzzzzzz!

ywen pulled his golden-green longbow into a full moon.

“Go.”

“Whoosh!”

Yawen aimed at the Blue Planet and shot out the 'arrow of death'. It turned into an extremely bright dark blood-red light beam and pierced through the planet.

“Fire! Fire!”

“Block it!”

BOOM! BOOM! BOOM!

In an instant.

All the countries with nuclear power took out all their nuclear bombs and fired them. The nuclear warheads rose into the air and exploded outside the earth.

wuwuwuwuwu!

However ...

The power contained in Ywen's arrow was too terrifying. The power generated by the nuclear explosion was completely annihilated by the aftermath of the arrow.

It did not cause any impact.

what?!

“This is impossible! That's impossible!”

“We're finished! We're all finished!”

When the leaders of the various countries saw this scene captured by the satellite, their faces turned pale and their expressions were filled with despair. Some of them even seemed to have lost all their strength and collapsed in their chairs.

Chapter 689 Destruction

“Do it.”

go! Jiang Li immediately ordered.

“Sinking into death.”

Shua!

“Whoosh!!!”

MYL01 made the first move. He rushed out and released his strongest skill. The shadow of the death god appeared, holding the death God's scythe and slashing with all his might.

“It’s you.”

Ywen’s expression froze.

“Kill!”

Lanti roared. In an instant, her body, which was only three meters tall, expanded in the wind. She became the size of a planet.

He was just like the Demon King of the newbies in the legends.

“Blood ox slash!”

boom!

Lanti roared. He held his two axes with both hands and swung them at MYL01. The huge axes chopped down and blocked MYL01.

Bang Bang Bang Bang!

Countless explosions were heard.

The axe radiance and the blade radiance exploded continuously.

The space trembled.

you dare to show up so brazenly in the face of a trillion-man army. I don’t know if I should praise your courage or if you don’t know what’s good for you.

Hu yehuo coldly laughed and waved his right hand, activating the power of the ‘death space’, ” rain of death.

In that instant.

Under Hu yehuo's control, the blood-red aura of death turned into countless drops of blood rain. Each drop of blood rain contained the power of the law of death.

The power was extraordinary.

“kill!”

wms01 and ssts01 immediately made their move. they were like two streams of light, rapidly displaying all kinds of skills, and their power rose to the peak.

Demon God awakening.

“Purgatory of heaven.”

BOOM! BOOM!

WMS01 and SSTs01 let out a long howl. After unleashing their skills, WMS01 transformed into a gigantic eye, as if he had become one with the space.

ssts01 conjured the image of heaven. it was indeed a scene of destruction, like a scene of purgatory, and contained extremely terrifying power.

Bang Bang Bang Bang!

An intense battle erupted.

WMS01 and SSTs01 worked together to block the rain of blood. At the same time, they launched a counterattack against Hu yehuo, using their sword and pupil lights.

bang! Bang!

A Blood Shield was formed.

The attacks from WMS01 and SSTs01 were all blocked.

“Hehe.”

Hu yehuo laughed coldly, ” interesting. The demon ghost race, the fake Demon God, and the God race’s battle Angel. To think that they would form such a combination.

“This is really interesting.”

it’s a pity that I’m in an undefeatable position in the ‘Grade 9 army formation-dead space’. Your attacks can’t hurt me at all.

“Astral battle technique.”

Shua!

Wang Gang took advantage of WMS01’s blockade of the enemy’s top combatants to teleport in front of ‘arrow of death’.

anti-matter combat technique.

Buzzzzzz!

The ‘antimatter’ energy reactor in Wang Gang’s body was running at full speed. A vast amount of antimatter energy emerged and gathered on Wang Gang’s fists.

“Star destroying fist!”

BOOM!

Wang Gang threw a punch at the 'arrow of death'. The space collapsed as if a black hole had appeared.

Bang Bang Bang Bang!

The two sides collided head-on.

The antimatter energy annihilated everything, clashing with the power of the death precept. Countless explosions were produced, and a terrifying energy storm swept out in all directions.

In the end.

...

“BOOM!”

the arrow of death exploded, and wang gang was also sent flying by the shock wave.

“Pfft, pfft, pfft.”

Yawen vomited blood as he suffered the backlash. His pretty face was full of horror as he looked at Wang Gang and said in shock, ” the peak of the ninth-rank! Such terrifying destructive power! Even the 'arrow of death' was shattered by a single punch!

“This bi an ...”

They were shocked.

Ywen was extremely shocked.

“What powerful strength.”

lan ti took a look and said in shock.

Kachaa! “Crack!”

“Rumble!”

...

On earth.

affected by the aftermath of the battle, the continents ‘plates cracked, tsunamis continued, volcanoes erupted, and various natural disasters appeared, engulfing the entire world.

Countless people were screaming.

Not only that.

The earth had even deviated from its orbit.

jiang family village.

“Whoosh!!!”

Wyke used his own power to set up a domain space to protect Jiang beiguo and the others. He also blocked the outside situation. Jiang beiguo and the others were injected with the gene strengthening liquid one after another, evolving into extraordinary life forms.

“All troops, hear my order!”

attack! Hu yehuo looked at Jiang Li and the others coldly and ordered, ” attack.

“Kill!”

“Fire the ship’s cannons!”

“!!!”

Battle cries shook the heavens.

it could be seen.

The Starfall Empire’s ‘battleships’ had been inspired by Earth’s technology. They combined their own technology, technology, and extraordinary power to create formation-based battleship cannons.

“Whoosh!”

Jiang Li! countless beams of light surrounded Jiang Li. The cannons made of energy filled the space around him.

“Emperor Dao laws!”

Buzzzzzz!

Jiang Li took out the ‘Yin Yang Emperor sword’. The laws of the Emperor path intertwined with his body and he became more powerful. slash!”

Clang! Clang!

Two sword hums.

The painting of mountains and rivers appeared behind Jiang Li. He waved his right hand and the Yin Yang Emperor sword flew out, turning into five black and white dragons.

Roar! roar!

The Dragon roared.

Jiang Li blocked countless attacks. The formations and cannons were all destroyed by Jiang Li's sword.

Ten thousand miles around.

It formed a vacuum-like scene.

“So powerful.”

“The power of this move is indeed powerful.”

“.....”

outside the battlefield.

The experts who were watching the battle exclaimed in admiration.

Bang Bang Bang Bang!

Although Jiang Li blocked most of the attacks, the area covered by the attacks of trillions of soldiers was too wide. Even though they were blasting at Jiang Li, many of them still passed him and fell on the Blue Planet behind him.

the heavens fell and the earth cracked.

The Blue Planet was bombarded by the beams and cannons, and the mountains and rivers were destroyed, the seawater evaporated, and it was the end of the world.

“Ah!”

Countless living beings wailed.

Not only the humans on earth.

all the living beings on earth were wailing in sorrow.

“.....”

Jiang Li turned around and looked at the planet that was gradually being destroyed. He clenched his fists. The planet was already starting to shatter. There was no way to stop it from being destroyed.

the boiling lava inside the planet was reflected in jiang li's eyes like a fire.

BOOM!

In the end.

The earth exploded, and the sound of the explosion resounded through the starry sky, shaking the space. At the moment of the explosion, one could see the terrifying and hot light ball contracting and then expanding in an instant.

It exploded.

The fire in Jiang Li's eyes reached its peak. The storm caused by the explosive energy lifted Jiang Li's clothes and hair.

earth's destruction!

Everything was reduced to dust in the universe.

“Starfall imperial court!”

Jiang Li’s eyes were cold. He turned around and looked at Hu yehuo and the others with killing intent. He was extremely angry.

Shua! Shua!

wang gang and wms01 quickly returned to jiang li’s side.

“It’s a pity,”

although this life planet doesn’t have ‘extraordinary resources’, it still feels pretty good. Be it culture or other aspects, it’s much better than the world I’ve been to before.

“Yup!”

“I didn’t expect it to be gone just like that.”

“I still want to stay here for a while longer.”

after all, it’s just an ordinary life planet. In a war of this scale, even a small aftershock of the war is not something an ordinary life planet can withstand.

“What a pity, what a pity.”

Outside the battlefield.

The powerhouses looked at the beautiful ‘fireworks’ produced by the final explosion and couldn’t help but sigh with regret.

Of course.

It was just a little regretful.

“Master!”

buzzzzzz!

Lightning flashed.

lightning bolt! a purple lightning bolt rushed out of the explosion and reached Jiang Li in an instant.

“Earth’s engine, Earth’s engine,”

behind wyke.

Jiang beiguo, Zheng qiushui, Jiang Lijun, Jiang Wenxin, and the five soldiers were all safe and sound under Wyke’s protection.

Not only that.

Jiang beiguo and the rest had completed the injection of the gene strengthening drug.

In other words ...

Jiang Li’s parents, Zheng qiushui and Jiang beiguo, as well as his younger brother, Jiang Lijun, and his younger sister, Jiang Wenxin, had all reached Level Seven. The five soldiers had also reached level six.

It was shocking.

his expression was slightly dazed.

Jiang Lijun, Jiang beiguo, and the rest looked at The Expanding Light ball produced by the Earth's explosion. They were stunned and could not calm down for a long time.

they could never have imagined that.

The earth was gone just like that.

Sadness filled his heart.

'I have to think of a way to break out of the encirclement and leave the space formed by the 'Grade 9 army formation'. Only then can I tear space and time apart and teleport my mechanical Army over.'

After Jiang Li calmed down, he started to think.

since jiang li was in the 'dead space', he couldn't use the power of the 'immortal court 'to tear the space apart and form a plane channel to send the mechanical army of the great xia dynasty over.

He had to leave the 'dead space' first.

In addition.

If he wanted to send his entire 'mechanical Army' over, he had to form a huge 'plane channel'. If he were to set it up on earth, the aftermath of the space tearing would destroy the earth.

so,

Jiang Li was about to leave earth and set up a plane channel in the universe.

The result.

As soon as Jiang Li rushed out of Earth, the Starfall Empire's Army set up a 'dead space' and blocked the surrounding space.

"All troops, hear my order. Surround him immediately and shrink the encirclement."

Jiang Li. Hu yehuo looked down at Jiang Li coldly as if he was looking at a dead man. six level nines are indeed powerful, but unfortunately, you're already in the dead space.

"I don't care where you're from or who you are."

"You can't escape even if you have wings,"

"Just obediently surrender."

"Just you guys?"

Humph! Jiang Li snorted.

Shua!

With a thought.

Jiang Li immediately opened the Dominator panel.

After that.

" to build a 'planet-level space soldier manufacturing research ship' . "

Jiang Li controlled the Dominator panel. Ten trillion energy points were needed to create a level-seven mechanical interstellar soldier, which was ten trillion energy points. Jiang Li first used five hundred thousand trillion energy points. fifty thousand.

Buzzzzzz!

immediately.

The manufacturing interface was displayed.

In the interface.

It was the illusionary image of an interstellar battleship, with the number 'X50000' beside it.

Shua! Shua! Shua!

There were countless light spots filling up the surroundings, and the shadow was gradually solidifying.

However ...

when jiang li was using the dominator panel to make meches, he felt his heart throb as if someone had noticed him.

This feeling disappeared in a flash.

“Attack!”

Hu yehuo waved his right hand.

In that instant.

Countless attacks fell, covering the sky and covering the earth, covering the starry sky.

“Stall him for one minute.”

Jiang Li said.

BOOM! BOOM! BOOM!

WMS01, SSTs01, MYL01, and Wang Gang used all their skills to block the attack of the trillions of soldiers.

“Shanhe Sheji.”

Buzzzzzz!

the vast picture scroll unfurled and formed a defense, blocking the numerous attacks.

“Kill!”

Yawen, Lanti, and Hu yehuo also attacked.

shua! Shua! shua!

At the same time.

There were also many type 8 and type 7 experts.

Jiang Li was in danger.

Time passed.

Jiang Li’s face was getting paler and paler. He had used up a lot of energy. Wyke was even injured while protecting Jiang beiguo and the others. Fortunately, Jiang Li could recover immediately after Wang Gang and the others ran out of energy.

“Pfft!”

Jiang Li coughed up blood. There was a sword wound on his chest. Hu yehuo made it.

In such a situation.

Of course, Jiang Li couldn't use the dynasty's sacred weapon or the power of the dynasty's fate. If he did, his identity would be exposed.

If the human Emperor's identity was exposed ...

He would immediately be attacked by all the living beings.

Shua!

[production complete!]

At this moment.

A notification popped up in front of Jiang Li.

A minute passed.

“Alright,” he said.

Jiang Li's eyes lit up. He waved his right hand and shouted, ” it's time to counterattack. All the planet-level space troopers combat research ships, come out.

Buzzzzzz! Buzzzzzz!

In that instant.

As soon as he finished speaking.

all 50,000 planet-level space combat research starships appeared out of thin air around jiang li.

They formed a fleet.

“All of them will be promoted.”

Shua! Shua!

Jiang Li used another seven million trillion energy points to upgrade all the 50000 planet-level space combat research ships to the perfected stage of Level Seven.

Chapter 690 combat weapon

The sudden appearance of 50000 ‘planet-level black Star Troopers research spaceships’ occupied a large space.

When they were only at the initial stage of the seventh level, each warship was already very large in size, and their specific shape was about 70% similar to a nuclear submarine.

It was 1900 meters long, 200 meters wide, and 200 meters tall.

Buzzzzzz! Buzzzzzz! “Whoosh!!!”

After a few seconds.

Jiang Li used seven million trillion energy points and all the ‘planetary-level black Star Trooper research and operation warships’ glowed.

he had reached the peak of tier 7.

He also noticed a huge change.

First of all ...

Its size had expanded by ten times.

The length of the warship was more than ten times its original length, reaching 20000 meters. Its width and height had also increased tenfold, from 200 meters to 2000 meters.

Shua!

The information was displayed.

[space unit type: planet-level space unit research and operation warship]

[No.: Xjzbyjzz01]

[rank: complete rank seven]

skill 1: rank 7 superior super intelligence ”

skill 2: tier 7 ultimate lock-on strike

skill 3: tier 7 ultimate space movement ”

skill 4: top-tier level Seven interstellar combat

skill 5: tier 7 ultimate firepower cover ”

Skill 6: rank seven energy light shield

skill 7: Level 7 Black Star Trooper research battle

[machinery: Jian Jia (omitted)]

” advancement requirements: one level-eight soul tinder, 100 trillion energy points
”

Jiang Li glanced around and finished reading the basic information of the ‘planetary-level space Soldier Research warship’.

Compared to the ‘planet-level space warship’, the skills of both sides were almost the same, and the six skills were almost exactly the same.

but ...

The last skill was completely different.

The final ability of the ‘planet-level space warship’ was its powerful strength, and it was a ‘condensed light beam’ that had extremely high single target damage. When the power was combined, it could even threaten a type 8.

However ...

The last skill of ‘planet-level black Star Trooper research and operation battleship’ was ‘Black Star Trooper research and operation’, which was obviously not a direct combat skill.

In fact, it was true.

‘Black Star Troopers research combat’ was the core skill of the ‘planet-level black Star Troopers research warship’, and it was also the most valuable skill of this unit.

This was why Jiang Li chose to build the ‘planetary-level black Star Soldier Research warship’ instead of the ‘planetary-level space warship’.

“Fleet, hear my order.”

activate the ‘Black Star Troopers research and battle’ skill immediately. Activate all the ‘manufacturing cabins’ on all the battleships.

“full power.”

Di di di di di

Buzzzzzz! “Whoosh!!!”

As soon as he finished speaking.

The 50,000 ‘planet-level black Star Trooper research and operation warships’ began to move according to Jiang Li’s order.

The scene changed.

Inside every ship, there was a huge ‘space unit research room’.

it used spatial technology.

The original space had been expanded by many times.

in the research battle room.

There were also humanoid ‘meches’, and there were about twenty thousand of them.

[space sub-unit: space soldier researcher]

[rank: complete rank seven]

[No.: Xjzbyjy01]

” skill: level 7 black star soldier research technique ”

[machinery: Jian Jia (omitted)]

...

.....

[sub-unit Type: Black Star Soldier maker]

[rank: complete rank seven]

[No.: Xjzbzzs01]

skill: Level 7 ultimate black Star Soldier manufacturing technology ”

[machinery: Jian Jia (omitted)]

.....

Obviously.

The ‘planet-level black Star Trooper Manufacturing Research ship’ had these two sub-units, and after combining them, they could research and manufacture ‘Black Star Troopers’.

There were 10000 of each sub-troop type.

In addition.

...

In this research room, there were huge black 'iron cans'. There were a lot of them, probably up to a million.

Except for the 'tin can'.

There were also research rooms and analysis platforms with excellent research equipment.

the 'tin can' was the 'manufacturing cabin', mainly used to create the black star troopers, and the 'research room' was used to research the black star troopers. the two complemented each other to create a strong black star trooper.

Currently.

The 'planet-level black Star Trooper Manufacturing Research ship' had just been created, and because there wasn't enough information for research, only the 'Black Star Trooper-base form' could be manufactured.

"Xjzbyjzz01 star level black Star Trooper Manufacturing Research ship activating million manufacturing module, absorbing cosmic energy, beginning manufacturing of Black Star Troopers, countdown: 10?9?8....."

.....

"Xjzbyjzz0111 planet-level black Star Trooper Manufacturing Research ship activating million manufacturing module, absorbing cosmic energy, starting to license Black Star Trooper. 10?9?8....."

.....

Buzzzzzz! Buzzzzzz!

In the universe.

Endless cosmic energy surged towards the battleships and was all absorbed by them.

kachaa! Kachaa!

Very quickly.

One by one, the battleships opened their doors.

The entrance was pitch black.

“What are these things?”

Hu yehuo was stunned for a moment. Looking at the huge battleship that had suddenly appeared, he frowned, ” and it appeared out of thin air. Could it have used a teleportation technique? ” But why didn’t this Field Marshal feel any spatial fluctuations just now?”

“Marshal Hu, don’t think about these things, what’s the use? Why don’t you quickly use your full strength to capture the other party and interrogate him? then you’ll know everything!”

Lanti snorted.

“You’re right.”

Yawen nodded.

“alright,” he said.

Hu yehuo waved his right hand and nodded, "Kill!"

BOOM! boom!

The endless Army charged over, and the grade 8 deputy marshals and generals formed a siege formation. With the help of the grade 9 army formation, their strength increased greatly.

On the other hand, Jiang Li's group was in a bad mood.

Under the suppression of the grade 9 army formation, their strength dropped.

It could be said that ...

Jiang Li and the others had been able to hold on for so long because they were very powerful. If it weren't for the meches 'endless recovery, they would have been seriously injured.

Even so ...

If this continued ...

Jiang Li couldn't hold on much longer either. He was going to lose.

"This Suan ni, this Suan ni"

After Jiang Lijun recovered from the sadness of the Earth's destruction, he saw a war that only existed in movies and legends.

They had long been shocked speechless by such a battle.

Looking at the Army that blotted out the sky and covered the earth, the countless attacks, they felt a deep sense of powerlessness and despair.

there are simply too many enemies.

“Li ‘er.”

hurry up and think of a way to escape! Jiang beiguo shouted. don’t worry about us anymore!

run!!!

Zheng qiushui shouted.

“Brother, you should leave quickly.”

Jiang Lijun’s eyes were red as he shouted.

brother, we’re the ones who dragged you down. Don’t worry about us anymore. Quickly escape.

Jiang Wenxin said with red eyes.

“Escape?”

No. Jiang Li shook his head, his eyes cold. I’ve been through countless Wars and dangerous situations. There’s no such thing as ‘escape’ in my dictionary.

“Besides, what kind of burden can you guys be considered?”

“Kill!”

BOOM!

Jiang Li clenched his right fist and activated 'dominating mech soldier'. He controlled Wang Gang's' anti-matter combat technique 'and a vast amount of anti-matter energy gathered.

antimatter combat technique-yin-yang sword technique!

Clang! Clang!

Two terrifying sword hums resounded.

Jiang Li activated all the power of the Yin Yang Emperor sword. The energy of antimatter was integrated into this sword move.

Roar! Roar!

the sound of the sword was accompanied by the roar of a dragon.

die! Jiang Li used this sword technique. The Dragon-shaped sword light wrapped in antimatter energy roared and shook the universe.

Bang Bang Bang Bang!

Countless explosions were heard.

The sword was extremely powerful, annihilating many attacks and even forcing back the type 8 and type 7 experts who had surrounded it.

It had endless power.

“Ah!”

On the other side.

wyke let out a miserable cry as lan ti's axe struck his chest. his stomach was almost cut open, and his face was pale as blood flowed out and covered the starry sky.

MYL01 and the others quickly came to support.

“Fire!”

“Rumble!”

The war broke out.

It was getting more and more intense.

The 50,000 battleships that Jiang Li had built started to fight back. Countless energy cannons, energy missiles, and energy nuclear bombs were launched one after another, forming a net of fire that covered the sky.

“what?”

“These attacks are very similar to the ‘technological weapons’ on earth.”

“There must be a connection.”

“Stop them with the Army formation!”

bang bang bang bang!

An explosion sounded.

Endless blood rain fell, and all the firepower of the battleship was destroyed. There was a huge explosion, and energy storms swept in all directions.

“Ah!”

“Pfft! Pfft! Pfft!”

A miserable scream rang out.

A large number of soldiers from the Starfall Empire screamed in pain as they suffered the backlash from the battle formation. Blood flowed out of their eyes, nose, and mouth as they fell from the battleships and into the starry sky.

immediately.

the soldiers' corpses entered a vacuum environment. the bone-chilling cold froze the corpses one by one, and then they all split open.

Obviously.

In such a vacuum environment, if not for the protection of warships and military formations, ordinary soldiers would not be able to withstand the vacuum of space.

Only those who had reached the fourth rank could barely resist it.

if one wanted to survive in a vacuum environment, one had to be careful.

One must have the strength of the seventh step.

“Activate the energy shield!”

Buzzzzzz! Buzzzzzz!

The 50,000 battleships activated their defensive skills. Energy shields appeared around the huge battleships, absorbing the universe's energy to maintain the operation of the shields.

Bang Bang Bang!

As the attack landed, a rain of death and blood filled the sky.

Kachaa! Kachaa!

The energy shields of many battleships were cracked.

BOOM!

After that.

The light barrier shattered.

The newly built warship was damaged. Because it was built using the Dominator panel, after it was completely scrapped, the warship turned into light spots and disappeared, half of the energy points recovered.

“Dragon of death.”

“Roar!”

hu yehuo controlled the power of the battle formation and combined it with his own strength to form a blood-red true dragon of death with five claws. it directly smashed jiang li's sword attack.

BOOM!

Jiang Li's 'Yin Yang sword technique of antimatter combat technique' exploded and formed a vast energy storm. It hit Jiang Li and sent him flying.

* Cough cough *

Jiang Li coughed up blood and his face turned pale.

“It’s a last-ditch struggle,”

hu yehuo’s expression was arrogant. he waved his right hand, and the surrounding blood rain of death gathered, once again forming a huge five-clawed blood dragon, ” dragon of death. ”

Roar! roar! “roar!”

the dragon’s roar shook the sky.

Di di di di di

At this moment.

Shua! Shua!

In front of Jiang Li’s eyes.

Countless notifications appeared.

Ten seconds passed.

The Black Star Troopers for all the battleships were completed.
