

The Amazing Son In Law Chapter 5571 -

As Zayne kissed his bride on the stage, the wedding was considered to have come to an end.

When dining at the table, charlie was at the same table with the old men of the two families, and Feng Zidong. Apart from toasting tea to the two old men at the wedding ceremony, after the toast, the first toast was charlie.

During the toast, the two brought their best man and bridesmaids with a humble and grateful attitude.

Zayne raised his glass to charlie, bowed slightly, and said respectfully, "Mr. Wade, you are the great benefactor of our family. Thousands of words are in the wine, and I respect you!" charlie smiled slightly and said,

" Mr. banks, from today onwards, you are free, and I will not interfere with where you want to go or what you do in the whole world."

Zayne said gratefully, "Thank you, Mr. Wade, for being lenient . It has been decided to settle down in Aurous Hill with Kairi!"

charlie nodded and said, "Aurous Hill is a good place, you settle here, it is closer to Xionu and Zara, and Ms. Elms is also closer to Mr. Elms, if If you need anything in Aurous Hill, you can tell the two sisters at any time, and if you need help, you can also find me or Isaac Cameron." Zayne said gratefully, "

Thank you, Mr. Wade, for your generosity!"

charlie also smiled, Pick up the wine glass and drink it down.

Kairi then filled it up for charlie with her own hands, took up the cup herself, and said gratefully, "Mr. Wade, I am stupid and can't say anything. Your kindness will always be remembered by the Elms family. Listen to your orders, dare not refuse!"

charlie smiled lightly, and said seriously, "Aunt He, in the future, you can entrust Xion with the affairs of the Elms family, and as for yourself, you can live a two-person world with peace of mind." He

Kairi She nodded gratefully. She knew that charlie had always taken care of Xion, and that Xion had become a five-star warrior with charlie's help. Although she didn't know that Xion had become an eight-star warrior, in her opinion, Even a five-star warrior is already the most powerful existence of the Elms family, so the future Elms family must rely on Ruo Li to flourish.

At 1:30 in the afternoon, the wedding banquet had come to an end. Isaac Cameron walked up to charlie and whispered in his ear, "Master, the helicopter is ready and ready to go." "Okay." charlie nodded and asked the person beside

him Feng Zidong "Uncle Feng, if it's convenient for you, let's leave in ten minutes?"

Feng Zidong said without hesitation, "Okay! I will say goodbye to my adoptive father and sister Kairi."

After that, he got up and had a close relationship with the bride and groom. The nearby Elms family said goodbye one by one.

charlie said to Xion, "Xion, you can come with me later."

Xion knew that charlie was going to talk to Feng Zidong about some very sensitive and even very confidential content, but charlie unexpectedly let Feng Zidong Together, she was surprised, but she was also very excited, thinking that this meant that charlie trusted her very much.

So, she nodded heavily, and said respectfully, "Okay, Mr. Wade, Xion obeys."

charlie held the wine glass, came to Ito Yuhiko and Ito Nanako, and said, "Mr. Ito, Nanako, I have something urgent later I need to leave first, so you probably won't be leaving Huaxia for the time being, right?"

Takehiko Ito, who was in a happy mood after drinking a few glasses of wine, said with a smile, "I'm listening to Nanako now. Just stay as long as you want."

After finishing speaking, he changed the subject and joked, "If Nanako thinks that I, an old man, is in the way and asks me to go back first, I have no objection, and I am ready to pack up and leave at any time." Nanako Ito said shyly,

" Odo-san... what are you talking about... who would think you are in the way..."

Ito Yuhiko sighed, and said seriously, "I was afraid that I would not be in the way! You said it would be great if I was in the way..."

Nanako Ito, who was smart and smart, understood the meaning of her father's words at once, and she was extremely ashamed. She clenched her jade hands into fists and kept tapping on the table, whispering angrily, "Odo-san! You are getting more and more The more old and disrespectful it is!"

Yuhiko Ito smiled, and turned to charlie and said, "Mr. Wade, I don't think we will leave Aurous Hill in a short time, so we can meet again another day." Seeing her

father getting serious, Nanako Ito hurriedly adjusted. After calming down, he stroked the hair on his temples again, and said softly to Charlie, "Mr. Charlie will go to work first if you have something to do. My father and I really plan to stay in Aurous Hill for a few days. We have been busy with the wedding a few days ago. Wanting and I Elder sister, and Miss Qin haven't found a chance to make an appointment."

Charlie nodded lightly, and said with a smile, "Okay, after I finish dealing with the matter at hand, I will host a banquet for the two of you at Tianxiang Mansion. There are your aunts, Ms. Ito and Mr. Tanaka."

"Okay!" Nanako Ito smiled sweetly, and said without thinking, "Anyway, Aurous Hill is the territory of Mr. Charlie, and we will follow Mr. Charlie's arrangements here!" ...

After

greeting, Charlie left the hotel with Feng Zidong and Xion.

The three of them took a helicopter from the top floor of the hotel and went straight to the Champs Elysees Hot Spring Villa.

This hot spring hotel, together with the villa in the middle of the mountain behind, are all properties of the Wade family, and it is far away from the urban area, the environment is quiet, and no one disturbs them, so Charlie intends to reserve this place as one of the places for training dark masters in the future as a base.

The hot spring hotel has now closed its business to the outside world. As for the villas in the middle of the mountain, some of them have been sold, so Isaac Cameron has now begun to sell them. These villas are repurchased.

The Amazing Son In Law Chapter 5573 -

In view of the strength of the Wade family and Isaac Cameron's offer far exceeding the market price, the owners of these villas have readily agreed to repurchase, and now they have signed contracts to move out one after another, and have begun to go through the property rights change agreement.

After these property rights are repurchased, this is Charlie's venue with the highest security level in China.

The helicopter landed in the courtyard of Charlie's hot spring villa. When the three of them stepped into the villa, the helicopter had already taken off again, heading to the hot spring hotel down the mountain to wait.

Charlie brought Feng Zidong and Xion to the basement where Xion broke through to the eight-star martial artist. Here, after inviting Feng Zidong to take a seat, he said, "Uncle Feng, it's absolutely safe here. You can speak freely if you have anything to say."

Feng Zidong nodded, and said without sloppiness, "We talked before the wedding, why should I change careers to be a host, then I'll start with this topic." charlie nodded slightly, made a gesture of please, and

waited Follow Feng Zidong's text below.

Feng Zidong said slowly, "The reason why I want to change careers to be a host is because I want to find out the whereabouts of my parents. I told you before that when I was six years old, my parents fostered me in the Elms family and then disappeared. I don't understand."

charlie asked, "So you hope that after you become a well-known host, they will have a chance to see you?" "

Yes." Feng Zidong said with a blazing gaze, "Actually, I always thought that they should have encountered There was an accident, so I never came back to look for me."

Speaking of this, Feng Zidong sighed, and said, "Until twenty years ago, just a few days before your father's accident, he sent me an email. He told me that there is a high probability that my parents are still alive."

charlie frowned slightly and asked him, "My dad? How would he know about your parents?"

Feng Zidong did not answer charlie's question, but looked at charlie and said very seriously, "charlie, do you know why your parents returned to China?" charlie said, "I heard it was

my dad who wanted to come back to revitalize the Wade family." As for my mother, she probably came back with him out of the mentality of marrying a chicken and following a chicken, and marrying a dog as a dog."

Feng Zidong laughed and said, "Look, this is your father's brilliance. If he doesn't want others to see through him No one in this world can see through him."

charlie frowned and asked, "Uncle Feng, what do you mean? According to what you said, my parents returned to China because they had other secrets behind them?"

Feng Zidong smiled mysteriously, and said to charlie, "In the eyes of everyone, bruce and Lydia (Ava) (Charlie's mom) are a couple of geniuses in the business field and gods in the financial industry, but in fact, from the time I knew your father, he was a couple." People who are very interested in martial arts and Chinese traditional culture, even those superstitions and metaphysics that are spurned by senior intellectuals, he is also happy

The Amazing Son In Law Chapter 5574 -

Growing up in a martial arts family, although my own martial arts has been neglected for many years, it is better to know more, so even though the two of us are several years apart, we still get along very well.” “Although your father has no talent in martial arts

, But they have been studying the origin and underlying logic of martial arts, and your mother is the same. They even spent a lot of manpower, material and financial resources to investigate the origin of martial arts and metaphysics all over the world.” charlie frowned and said, “I don’t seem to have ever had any problems with my father

. Relevant impressions...”

Feng Zidong smiled and said, “You can understand your father as a scholar trying to crack the core of martial arts and metaphysics in a scientific way. His goal is not to practice martial arts, but to hope to be able to crack the law of gravity like Newton , to decipher the laws of martial arts, he often discusses with me what is true qi, and discusses why warriors can use meridians and dantians to circulate true qi, and play a role in improving physical fitness and their own strength; “

“Use a scientific method to decipher the core of martial arts and metaphysics?” charlie’s expression was at a loss, and he couldn’t help asking himself, “Can this kind of thing really be explained by science? Just like Huichun Dan can bring people back to life and prolong life. Can any scientific method be developed? I have a deep understanding of martial arts and spiritual energy, but I don’t know what the underlying logic is. Dad is not even a warrior, so how can he study it? What about the underlying logic?”

At this time, Feng Zidong thought of something, and said, “By the way, charlie, although your mother seems quiet, she is actually more interested in these things, even more fanatical than your father, and even your father, It’s all possible to be influenced by her.”

Speaking of this, Feng Zidong said to charlie, “Your mother even has a team specializing in this kind of knowledge, and as early as the 1990s, she used her relationship and background in the United States to A supercomputer computing center was established. At that time, there were only a handful of countries that could have that kind of supercomputer. Only a few countries were using supercomputers to predict the global climate, simulate nuclear test data, and calculate the number of planets in the solar system. orbit and distance, to explore the mysteries of the birth of the universe, while your mother was using the top supercomputer in the world at that time to deduce the underlying logic of the I Ching gossip and Feng Shui secrets; ” charlie was dumbfounded when he heard it, he was

dreaming I never thought that my mother would have such a mysterious side.

Feng Zidong thought of something, and said again, “Oh, yes, your mother even took your father to participate in at least dozens of martial arts-related archeology in various parts of China before and after marriage.” “

Archaeology Before charlie was surprised that his mother was interested in the I Ching gossip, he subconsciously said, "I've never heard of them engaging in archaeological work..." Feng

Zidong laughed, "Of course they won't let you know, because they To put it bluntly, it's not officially approved. To put it bluntly, it's archaeology, but to put it bluntly, it's tomb robbery." Then,

Feng Zidong asked him, "Can you imagine? Two top rich second generations, usually They are super elites who go to and from Wall Street or Eastcliff's CBD, but at night, they will change into night clothes and become the Mojin school captain described in the movie..."

The Amazing Son In Law Chapter 5575 -

"This..." charlie was already feeling very confused, and he couldn't help muttering, "In my impression, before my parents left Eastcliff, they had been focusing on business matters, and I had never heard that they were interested in archaeology or tomb robbery. Hobbies, I can't find any related memories from my childhood memories."

Feng Zidong said, "Your parents are extremely smart people, they never let anyone know their real purpose, except me, of course."

Said Then, Feng Zidong said again, "Back to the topic of your parents returning to China, in fact, your parents decided to leave the United States and return to China to develop. It is not what the outside world thinks. Your father wants to return to China to revitalize the Wade family, and your mother wants to marry a chicken and follow the chicken;" "

Actually They didn't plan to go back to China at first, or they didn't plan to go back to China in such a hurry, but suddenly one day, your father found me and told me that he had made a very important discovery in the United States, and he must rush back to China as soon as possible to confirm the discovery. Whether it is true or not, I asked him what the major discovery was, but he didn't tell me clearly, he just said that if it goes well, he can solve the problems and doubts he has been having all along." Hearing this, charlie felt that his three views were somewhat

different subversion.

When he was giving the wedding speech at noon, he still felt that he knew his parents very well.

But unexpectedly, after only an hour or two, Feng Zidong described another of them that he had never seen before.

After about two minutes of silence, Charlie asked Feng Zidong, "Uncle Feng, before my father's accident, what else did he say besides telling you that your parents may still be alive?" Feng Zidong's expression became serious, word by

word said, "Your father also said that he and your mother have left Eastcliff because your mother offended a very ancient and powerful mysterious organization. This organization has existed for at least three or four hundred years. Its strength and background, it is far beyond all the imagination that a person can develop about a mysterious organization."

Charlie was surprised, looked at Feng Zidong and asked him, "Uncle Feng, is the organization you are talking about called the Poqinghui?"

"Qinghui?!" Feng Zidong was stunned for a moment, looking at Charlie's expression full of shock.

Charlie nodded, and said truthfully, "To tell you the truth, I have some contact with the Poqing Society, but not much."

Feng Zidong asked him in amazement, "How did you get in touch with the Poqing Society?"

Charlie said frankly "It was a coincidence that I came into contact with the Po Qing Society. They wanted to assassinate my grandparents in the United States. I captured one of them as a prisoner, and followed that prisoner to find some clues related to the Po Qing Society." Feng Zidong was amazed

. "Twenty years have passed, and the Poqing Society still hasn't let go of your mother's family?!"

Charlie smiled wryly, "It's more than just letting go, my third aunt, who has been married to my third uncle for nearly twenty years, but no one thought that she was a member of the Poqinghui."

"What?!" Feng Zidong's eyes widened, "Why did the Poqinghui hide in An's house for twenty years... Your parents are gone, hiding in An's house. What does it mean to them?"
