

The Amazing Son In Law Chapter 5613 -

charlie's words made Hong Changqing, who was still a bit condescending, immediately dumbfounded!

Originally, charlie said that the "Taizhen Hunyuandao" of Taizhen Tao was not the complete version, and he was still very upset. After all, for thousands of years, the successive heads of Taizhen Tao all thought that this sect could have a complete set of martial arts heart. It is not appropriate to be proud of the law, or even think highly of yourself because of it.

However, after listening to charlie's analogy, he suddenly realized that charlie probably wasn't talking nonsense! Taizhen Dao's "Taizhen Hunyuan Dao" is likely to be just a small part of the real "Taizhen Hunyuan Dao" as charlie said.

Thinking of this, he asked in surprise, "Master Wade, the reason why you say that must be because you have a more complete mental method of "Taizhen Hunyuan Dao", right?

" "Why are you so sure that I have a more complete version?"

Hong Changqing blurted out subconsciously, "Master Wade, you just said that the real "Taizhen Hunyuan Dao" is like "The Principle of Power Generation in a Thermal Power Plant". And what Taizhendao holds is just to teach people how to dig coal, so it proves that you have at least read this "Principles of Power Generation in Thermal Power Plants"..." charlie didn't hide it, nodded and smiled, "

Guess That's right, I have indeed read the original version of "Taizhen Hunyuan Dao", and I can tell you clearly that the whole "Taizhen Hunyuan Dao" has three volumes and 27 chapters. The copy Master got was just the first chapter."

"What?!" Hong Changqing's eyeballs almost fell out of the sunken eye sockets, he stammered and asked, "... Master Wade...you...are you serious?!"

charlie asked back, "I have teased you before, what do you think I am lying to you now?"

Hong Changqing swallowed, and blurted out, "We ...Our Taizhen Dao... For thousands of years and dozens of generations, have we been practicing the first chapter of "Taizhen Hunyuan Dao"?!"

charlie nodded very firmly and said, "Yes! That's right! That's right! That's what happened!"

Hong Changqing sat on the spot as if he was mourning his concubine, and his expression became extremely lonely and melancholy. His eyes were out of focus and

he said blankly, "A person who started studying in kindergarten and went all the way to graduate with a Ph. D. is only a mere twenty years. You said that "Taizhen Hunyuan Dao" has three volumes and twenty-seven chapters, so we, Taizhen Dao, are equivalent to studying in K1 class of kindergarten for so many years..." Kindergarten K1 in the United States is basically equal to the small class in

domestic kindergartens.

charlie was amused by Hong Changqing's analogy, but he also felt that his analogy was very reasonable, so he praised, "Your conversion method is indeed very reasonable. Strictly speaking, you are too truthful. I have been studying kindergarten K1 textbooks repeatedly, which is basically equivalent to the stage of learning 26 English letters."

Hong Changqing said with a sad face, "Master Wade...the subordinates are not questioning you...but if it is true as you said, we have learned 27 chapters In the first chapter of the book, there are already masters who can enter the dark realm. The dark realm is the second most important realm for a warrior, but there are only four realms for a warrior. Could it be that the remaining three realms require the remaining two realms? Can all the contents of the sixteenth chapters be broken through?!"

The Amazing Son In Law Chapter 5614 -

"Yes." charlie nodded, and said very seriously, "One way of martial arts is to enter the Tao with martial arts. If you want to truly enter the Tao, you must practice martial arts to the extreme. The Ming Realm is just the beginning, and the Dark Realm is just the first hurdle after getting started. Every small level improvement in the future may take a lifetime to achieve. You can cultivate to an eight-star warrior in fifty years, but Give you another fifty years, you may not be able to break through the dark realm, even if you are lucky enough to break through the dark realm, and you can live another fifty years, do you think you can cross from the first level of the dark realm to the second and third level of the dark realm? Oh my god? Not to mention the transformation realm and master realm behind, every step, the difficulty is multiplied exponentially."

Hong Changqing suddenly became more at a loss, and he couldn't help muttering, "Does that mean that stepping into the dark realm, In fact, it's only one-twenty-seventh of the journey of martial arts?"

charlie nodded, and said two words flatly but cruelly, "Yes."

Hong Changqing was extremely depressed, and asked him, "Master Wade, how about that?" Entering Dao with martial arts, what kind of Dao do you enter? How many years will it take to walk this Dao?"

charlie smiled and said, "Then you can ask me, I don't know how many years it will take to walk the next road."

Hong Changqing lamented, "The journey of martial arts is really too long, and there are countless dead bones along the way, but I don't know how long I will go." Where will this old bone stay..."

charlie smiled and said, "You don't have to feel depressed, Voyager 1 has been flying for nearly 50 years, and it has not yet flown out of the solar system. When will it fly out of the solar system? Well, it may take tens of thousands of years to reach the next galaxy. You treat it as yourself. When you break through and enter the dark realm, it is equivalent to Voyager 1 flying out of the solar system. Thinking about it this way, right? Do you feel that the future is very vast?"

"Vast?" The corners of Hong Changqing's mouth twitched unconsciously, "After you say that, I just feel even more desperate, and I don't know where I can go."

charlie said with a smile "Don't think about it so much. This is not something you should think about. After all, you are only a four-star warrior now. Let alone flying out of the solar system, you have just reached the edge of Mars at best." Hong Changqing heard this

. His heart was bleeding even more, and he quickly assured him, "Master Wade, don't worry, this subordinate will notify his personal disciple to come to Aurous Hill to inherit the token of the head of Taizhen Taoism. After that, this subordinate will wholeheartedly serve you like a dog and a horse." Excuse me!"

charlie asked him with a smile, "If your personal disciple asks where your ancestral medicine cauldron has gone, what would you say?"

Hong Changqing sneered awkwardly, and said, "Master Wade, don't worry, the medicine cauldron is gone." The matter is the top secret of the head. Only when the old head passes on the position of head to the new head will it be handed over together with the token of the head. The successor of the head only knows that there is a token of the head, but not The existence of the medicine cauldron, so as long as I don't say no..."

charlie gave him a thumbs up, and said with a smile, "You know how to pass the position."

The Amazing Son In Law Chapter 5615 -

Hong Changqing smiled and asked charlie cheekily "Master Wade... I don't know in the future, will my subordinates have the opportunity to practice the content behind "Taizhen Hunyuan Dao"?"

charlie raised his eyebrows and smiled. The purpose of handing over your mind is to see how your cultivation mind is. If it is not good enough, I will give you a better one; if it

is not complete, I will give you a more complete one. I have always been selfish, so now that I have ended up like this, you, you should reflect on yourself these two days.”

Hong Changqing was also extremely ashamed and regretful, and said repeatedly, “Master Wade, don’t worry, if I, Hong Changqing, dare to If I have any second thoughts about you, I will die without a place to bury me!”

Eastern Europe at this moment.

Three container trucks are speeding on the highway in Antalya, a port city in Turkey.

The containers loaded by these three trucks carried three disassembled former Soviet-made AK360 close-in anti-aircraft guns and their supporting ammunition.

Since the disintegration of the Soviet Union, Turkey, Ukraine, and Georgia have gradually become leaders in the black arms market in Eastern Europe.

After the disintegration of the Soviet Union and the drastic changes in Eastern Europe, almost all the countries surrounding the Mediterranean Sea have become black markets for arms trading, and these three countries are especially remarkable.

Hundreds of millions of various Soviet-made weapons and equipment are sold all over the world from these countries, and the magic here is not only the huge transaction volume, but also, as long as you have money, you can buy them here Except for strategic nuclear missiles and fifth-generation aircraft, almost all weapons and equipment.

Not to mention the close-in defense guns produced in the former Soviet Union, as long as the money is enough, even the raw materials for nuclear weapons can be saved in these places.

Among them, Turkey has a world-renowned nuclear black market. After the nuclear submarine reactors dismantled by the former Soviet Union were dismantled, most of their core fuel rods flowed into the black market here.

With enough money, it is not difficult to buy a dozen kilograms of enriched uranium from here, and go home and save a big bomb for yourself.

Therefore, three close-in defense guns can only be regarded as an ordinary transaction in this kind of place.

Several arms dealers from Eastern Europe escorted the three container trucks to the port of Antalya, where a container ship was about to be fully loaded.

After the three trucks entered the port, they were immediately assigned to the berth of the container ship.

The three Americans had been waiting by the berth for a long time. When they saw the three cars get off, they immediately went forward to meet with the person in charge of escorting the cars.
