

The Amazing Son In Law Chapter 5706 -

Xion understood what charlie meant.

Although eight-star fighters are extremely rare, this is only one of the stations where charlie's express train stops briefly. I am lucky to board this train, and I don't have much time to appreciate the scenery of this station, because my train will soon pass by. Will continue to the next stop.

And my next stop is Mingjing Dzogchen!

Xion knew that she had said too many words of gratitude, and in front of charlie's favor, she was already pale and powerless, so she knelt down on one knee, clasped her fists tightly, and said with firm eyes, "Mr. Wade, xion You must do your best!"

charlie nodded with a smile on his face.

On the other hand, He Hongsheng's eyes were flushed with excitement.

He heard the meaning of charlie's words, and knew that Xion's cultivation would continue to improve in the future, and Xion was still very young. If charlie kept supporting him, he might be able to enter the Elms family in a short time. A dark realm that the ancestors could not have imagined for hundreds of years!

In the past, for a warrior like He Hongsheng, the dark realm was the ultimate realm that was beyond reach.

Although Martial Dao still has Transformation Realm and Grandmaster Realm, in his cognition, these two realms are no longer the heights that human beings can reach, and reaching the Dark Realm is already the end of Martial Dao, and it is the end that is almost untouchable.

But now, Xion has arrived at the gate of the dark realm.

...

The next day, the soldiers of the Wanlong Palace who came to Aurous Hill from all over the world began to arrive one after another.

Some of them flew directly to Aurous Hill from neighboring countries, and some flew to neighboring cities first, and then chose other means of transportation to arrive in Aurous Hill.

The reason for being so cautious is that charlie is not sure whether any of the three remaining earls of the Qing Dynasty are in the country at the moment.

If there is no one, it is easy to say, if there is, when he finds a large number of warriors concentrated and maneuvering, he will definitely feel suspicious. Once these warriors from Wanlongdian are targeted by the opponent, they will easily be followed by the opponent to the Champs Elysees Hot Spring Hotel .

And charlie's caution was not groundless.

At this moment, Uncle Chang Sheng, the most powerful among the four Earls of the Qing Dynasty, is searching for Lin Wan'er (Alani)'s whereabouts in Eastcliff.

In the last video conference, the Lord Ying gave him a new order, that is to go to Aurous Hill to find the whereabouts of bruce and Lydia (Ava) (Charlie's mom)'s only son, find him, and then kill him.

However, the priority of this task is still after finding Lin Wan'er (Alani) and her ring.

In addition, Willie is not interested in the task of finding and killing charlie. In his opinion, bruce and Lydia (Ava) (Charlie's mom) are already the dead souls of his subordinates. It's meaningless to be the son of a defeated general.

What's more, even if I managed to find and kill charlie, it would not be considered a great contribution to the Po Qinghui (Benn), but Lin Wan'er (Alani) is different. Lin Wan'er (Alani) is of great significance to the British Lord. It's a great achievement, if you can still find the whereabouts of the ring, the Lord of the Kingdom will definitely reward you heavily.

Therefore, looking for charlie is far less beneficial than looking for Lin Wan'er (Alani) and her ring.

It is precisely because of this that Willie is not in a hurry to go to Aurous Hill.

He set a time point for himself, if he could not find Lin Wan'er (Alani)'s whereabouts in Eastcliff on September 1st, then he would set off for Aurous Hill to find charlie's trace.

Today's Don Albert has already acted as the director of the admissions office at the Champs Elysees Hot Spring.

In order to do a good job in welcoming new students, Don Albert made full preparations. He not only prepared complete daily necessities for each student, but also prepared uniform training clothes and study stationery for everyone.

The Amazing Son In Law Chapter 5707 -

Don Albertxuan's practice uniforms are made with exquisite materials and very comfortable Tai Chi suits.

In order to highlight the consistency, Don Albert also specially asked someone to embroider a ginkgo leaf on the left chest of the training uniform by hand.

Don Albert also had two considerations for choosing the embroidery of ginkgo leaves.

One is naturally based on charlie's surname, while the other is based on the characteristics of Chinese culture.

If you want to choose a kind of leaf to represent Chinese traditional culture, Don Albert thinks nothing is more suitable than ginkgo leaf.

And this kind of Tai Chi clothing embroidered with ginkgo leaves, the overall feeling is indeed very unique to Chinese culture.

In addition to registering information and distributing supplies to new students, Don Albert also took on another responsibility, which was to arrange the groups and dormitories of the students.

There are hundreds of rooms in the Champs Elysees Hot Spring Hotel, so the accommodation conditions for these students are also very loose, which can be realized, and each person has an independent room.

Don Albert also followed charlie's instructions and divided the guest room area of the hot spring hotel into two separate bedrooms for men and women.

Because men accounted for the majority of the students, the ordinary deluxe rooms were all allocated to male students as dormitories, while those deluxe suites were all allocated to female students.

The rooms in the men's and women's dormitories have been re-numbered and allocated according to the order of registration.

According to charlie's request, Don Albert also grouped the students into groups of 10 according to the order of the student numbers registered at the time of registration, because Hong Changqing was the only tutor in charge of teaching., so these students are not divided into classes, the overall class structure is one class and more than ten groups.

Ever since Hong Changqing had figured out the stakes, he was focused on helping charlie, only charlie followed suit.

So this time he didn't be stingy with the "Taizhen Hunyuandao" handed down by Taizhen Dao's ancestors anymore, but directly printed all the first chapters of the eight chapters of the lesson plans he had prepared into a book. Whenever a student came to report, he would Hand over the prepared textbook to the students.

And the reason why he only gave the content of the first chapter is not that he still has reservations, but that he has taught so many disciples in Taizhen Dao, and he is very aware of most people's practice habits.

Once all the content is handed over to them, they will definitely not be able to control their impulses, and they will learn to leapfrog in private. Sometimes when the first chapter of the course is just started, many students have already secretly practiced the second chapter, and even The content of the eighth chapter is over.

This kind of behavior is naturally understandable for gifted students with excellent posture, but for most students who need to lay a solid foundation, doing so will only distract their energy and disrupt their rhythm.

In order to make these students look forward to it, Hong Changqing deliberately marked the first chapter on the title of the textbook, and after the first chapter, marked three words in brackets, a total of eight chapters.

When the students first got this mental method, they didn't see much content, and thought it was another incomplete mental method, but when they saw a total of eight chapters, they immediately realized that, The length of this mental method should be longer than the mental methods they have come into contact with.

Even the teachings passed down by Qiu Zhiyuan, the master of the Abbas Army, do not have such a large space.

All of a sudden, all the students were unconsciously looking forward to it...

The Amazing Son In Law Chapter 5708 -

As the soldiers from the Wanlong Palace arrived one after another, the Elms family, led by Xion, reported to the Champs Elysees Hot Spring Hotel together.

Ito Nanako and Aurora also went there on the same day, and were in the same group as Xion.

Moreover, since the check-in time of the three people is very close, the rooms of the three people are also next to each other.

Because of the convenience, Don Albert reserved rooms next to each other for himself and Isaac Cameron early on.

The reason why they want to live next door is that they both know very well. On the one hand, they have a good relationship and are familiar with each other. On the other hand, they may be the only novice in this training without any martial arts foundation. People live closer, and they can communicate a lot at ordinary times, and even sign up for a group to keep warm.

In Don Albert's words, no matter which class is the bottom one and the bottom two, they are good friends.

This is an eternal truth.

The same applies to both him and Isaac Cameron.

When the students arrived, charlie planned to give them another day to familiarize themselves with the environment, and then the class officially started.

And when these students were familiar with the environment, charlie bought a set of simple oral liquid filling equipment from the Internet, and brought the equipment to the mid-level villa in Champs Elysees Hot Spring.

At this time, he was like a counterfeit drug dealer, operating that set of equipment to continuously fill a Sanwu oral liquid without any trademarks and logos, and even without a production date.

There are many forms of drug use, among which oral and injection are the most common forms. Among oral drugs, the form of oral liquid is actually rare.

However, charlie's preparation for the oral solution this time is to dissolve the enhanced version of Sanxue Jiuxin Pill that he refined last time into water, and then fill it into oral preparations of ten milliliters each.

This batch of oral preparations contains about one-tenth of an enhanced version of Sanxue Jiuxin Pill per ten milliliters of medicinal liquid.

According to charlie's plan, this batch of oral liquid will be given to all the trainees after the official start of the class to ensure that there is one manpower, and the rest will be used as rewards for top students in the next few assessments.

Originally, charlie also used the idea of cultivating a group of martial arts masters with pills.

However, for charlie, there are two relatively big obstacles in refining elixirs, one is that his own spiritual energy is consumed a lot, and the other is that rare medicinal materials are sometimes difficult to obtain.

Among the several types of elixirs that charlie is currently refining, except for the relatively simple medicinal materials of the Sanxue Jiuxin Pill, the others are more or less precious medicinal materials that are rare and hard to come by.

The Amazing Son In Law Chapter 5709 -

Although refining Sanxue Jiuxin Pill is simple, charlie can't refine as much as he wants. The aura in his body is replenished by Peiyuan Pill, and Peiyuan Pill is not an unlimited supply, so he can't be unscrupulous. He squandered his spiritual energy to refine large quantities of Sanxue Jiuxin Pill.

Among other things, just these more than a hundred students, each with a blood-scattering heart-saving pill, would exhaust him to death.

However, Hong Changqing's medicine cauldron helped charlie a lot.

The medicine cauldron can not only improve the efficacy of the medicine, but also sublimate the efficacy of the medicine. The actual refining efficiency has increased by at least five times.

In this way, charlie's own behavior costs and aura costs can be greatly reduced.

After the oral liquid was filled, charlie temporarily stored the oral liquid in the villa in the middle of the mountain, and planned to drive back to the city.

Unexpectedly, just as he was about to go out, he received a call from Hong Changqing. On the other end of the phone, Hong Changqing said respectfully, "Master Wade... I want to report something to you. I wonder if I will disturb you?" charlie said casually, "Hong

Tian Feel free to tell me anything, Master."

Hong Changqing said, "Go back to Master Wade... My big disciple Maxton has already brought more than two hundred people from Taizhen Dao to Aurous Hill..." "

Really?" charlie He smiled and asked, "What time is it?"

Hong Changqing hurriedly said, "Back to Master Wade, Maxton just called me. They also just settled down in the hotel. The first thing after they settled down was to call me and ask me to help her arrange an appointment with you."

charlie saw that it was still early, so he said calmly, "You let her come to the Champs Elysees to find you, and then you bring her to meet me at the Banshan Villa, and tell her that she can only come here by herself. I won't see the other Taizhen members." "

Hong Changqing hurriedly said, "Okay, Master Wade, this subordinate will tell her right now!"

...

about forty minutes later.

The dusty Maxton drove to the Champs Elysees Hot Spring Hotel.

Before coming to Aurous Hill this time, Maxton had already asked his father to help him make complete preparations.

Originally, Maxton's father didn't want her to move the entire Taizhen Dao to Aurous Hill.

But Maxton couldn't stand it this time, she was a bully eating the weight, so she made up her mind, and forced her father to accept her decision, and provided her and the whole Taizhen Dao with a full-time nanny service.

Maxton's father not only bought a four-star hotel in Aurous Hill for Taizhen Dao as a base for the entire Taizhen Dao, but also specially sent one of his confidants from the United States with a complete management team, Directly take over the operation and management of the entire hotel.

The reason why such a lot of trouble is spent is to provide meticulous service to the daughter and the members of the Taizhen Dao, and at the same time to make the members of the Taizhen Dao feel more comfortable in this hotel.

In addition, he also injected 50 million US dollars into this four-star hotel. To put it bluntly, this money is his operating expenses for Taizhen Road. The hotel management team used this money to equip Taizhen Road with multiple sets. Vehicles and a large amount of daily necessities were prepared, and the remaining money was used for their living expenses.

Maxton drove the Mercedes-Benz g63 that came to the Champs-Elysees Hot Spring Hotel, which was arranged by her father. Yesterday, she only added 800,000 yuan to the existing car that was brought directly from the 4S shop.

The Amazing Son In Law Chapter 5710 -

Since there is still a section of mountain road from the Champs Elysees Hot Spring Hotel to the Banshan Villa, after Hong Changqing learned that Maxton was coming by car, he waited directly at the door, and when Maxton arrived, he directly got into the passenger seat and directed Maxton to drive up the hill.

On the way up the mountain, Hong Changqing asked her, "Maxton, how did you communicate with Taizhendao, your brothers and uncles? Why did you agree to follow me so quickly?" In fact, Hong Changqing's subtext was

, Maxton has just taken over as the head of the sect, and in just a few days, it may not be possible for everyone in Taizhen Dao to fully accept her status as the head of the sect, let alone be convinced and obey her words.

Maxton was not a fool either, she said directly, "Master, I didn't tell them when I went back that you have passed on the position of head to me."

Hong Changqing asked in surprise, "Huh? You didn't tell?"

Maxton curled his lips, "Why should I say... If I did, how could

I move them?" It was my idea to come to Aurous Hill, right?"

Maxton nodded, "Yes! That's what I said, and only you have this influence and appeal, otherwise, how could they be so obedient, hurry up Pack up your things and come over here?"

"I..." Hong Changqing wanted to cry, "Maxton, Maxton, you are really cheating! You used my name to trick them here, but I'm not too real. How are you going to explain to them?"

Maxton said solemnly, "Master, why should I explain to them? You have to explain to them." "

Me?!" Hong Changqing was anxious, and blurted out, "I And tell me the fact, I'm not too true to be the head of the Dao. "

Maxton asked, "Master, you are not the head, so who is it?" "

After that, she didn't wait for Hong Changqing to speak, and said directly and firmly, "I don't care who is the head, anyway, I am not.

Hong Changqing blew his beard angrily and stared, "Why aren't you! " I have passed on the head of the sect to you, as well as the token of the sect master and the entire book of "Taizhen Hunyuan Dao". You are the fortieth head of Taizhen Dao! It's about this time, you can't turn your back on him, Maxton! "

Maxton said with a serious expression: "Master, if you give me the ancestral medicine cauldron of Taizhen Dao, then I will definitely bear it, but the key is that you didn't give me the medicine cauldron. The medicine cauldron that was inherited disappeared inexplicably from my place. You can't let me take the blame for this, can you? I dare not recite it either! "

Speaking of this, Maxton said again, "So Master, I am here today not only to meet Mr. Wade, but also to express my opinion to you. You are still the thirty-ninth head of our Taizhen Dao, disciple. As well as more than 200 people from all over Taizhen Dao, they all obey your orders! Everyone is still waiting for you to say a few words in the past, mainly because everyone still doesn't know why you want everyone to move to Aurous Hill. "

Hong Changqing was about to collapse, and said without tears, "This...this...what the hell is this! I also swore to Master Wade that I will have nothing to do with Taizhen Dao in the future, and you are making such a move to me again, how can I explain to Master Wade..." Maxton shrugged, "

Master, this disciple also There is nothing I can do..."

Hong Changqing suddenly remembered something, and hurriedly asked, "Then what did you say when you went to see Master Wade today? You said before that you would take the whole Taizhen Dao to worship under him, but now you say that you are not the head of the sect, so how will you explain to Master Wade later? "

Maxton said, "Master, after I met Mr. Wade, I naturally confessed the truth. At the same time, I also expressed my attitude to Mr. Wade, telling him that I personally hope to be able to worship under him, but Mr. Wade can't see it." It is still unknown, but if Mr. Wade is interested, then with your master as the master, the whole Taizhen Dao will worship under Mr. Wade's sect, isn't it just a matter of your words? "

Hong Changqing said angrily, "Maxton, you are a young man who doesn't talk about martial arts! Trapped me into injustice! Later, Mr. Wade said that I am a slave with two surnames. Where can I put my old face?" Maxton said a little angrily,

" Master, you are the one who wants to pass on the headship to me, and you deliberately didn't tell me about the medicine cauldron, and you want me to be taken advantage of, and I haven't even said that you have made me unrighteous!"
