

The Amazing Son In Law Chapter 5828 -

While receiving money, Zhao Laosi (Reed) praised him, and at the same time, he did not forget to compliment Willie , “Old man, it seems that you are also an expert! Could it be that you also used pots when you were young?” , probably means that he once pulled up a team of tomb robbers and acted as a core figure in this team.

Willie waved his hand and said with a smile, “I only know some antiques, not tomb robbery.”

Willie really didn't know much about tomb robbery.

When he was young, he had heard some rumors about tomb robbery and even Sun Dianying's robbery of Cixi's tomb, but the key point is that he practiced Taoism in Guanli all the year round and had no interest in tomb robbery and cultural relics themselves, so Also did not understand too much.

However, this person has lived for a long time, and the amount of information received actively or passively must be much larger than that of ordinary people.

Immediately, Uncle Willie tentatively asked Zhao Laosi (Reed), “Brother, is it convenient for me to show me the wrench in your hand?”

Zhao Laosi (Reed) knew that the old man wanted to see his wrench, and he said so much just now , was nothing more than trying to get his money step by step, so he pretended to be embarrassed and said, “Master, this finger ring was given to me by my elder brother as a token, not as a gift to me, and you know the general reason for it. I'm a little sensitive and I can't show it to you, so I won't explain it so clearly, I hope you can understand.”

Willie doesn't know what he means.

It just so happens that for safety reasons, I like to use cash everywhere, so I have plenty of cash in my pocket, so this time I simply took out two hundred-dollar bills from my robe, handed them to Zhang Ermao (Cade), and said seriously, “Brother, Let me tell you straight, when I returned to China this time, I first went to Yanjing and then Aurous Hill, in order to find my favorite antiques in these two ancient capitals. Son, I won't make it difficult for you, let me take a look, if it's really good, I'll give you a thousand dollars, and you can help me set up a line with your elder brother, and I'll talk to him about the specific business.”

Unexpectedly, Zhao Laosi (Reed) would have thought that the old man would be so forthright, not to mention giving money a few times, but this time he simply took out the dollar.

Seeing him open-eyed, he hesitated for a moment, then gritted his teeth and said, "Success! Since you like this wrench so much, I'll take it off and show you!" Then, he took off

the jade wrench and handed it to Willie's hands.

Willie was ecstatic, and nervously took the jade wrench with both hands, for fear that it would accidentally fall to the ground and fall.

After taking the jade finger, he immediately realized that this kind of thing is indeed an antique, and it is a thing from the middle of the Qing Dynasty.

After all, Willie himself was born in the Qing Dynasty, so he still has a certain ability to discern such things.

The thing was a real antique, and combined with the faint smell of blood and rot, he immediately concluded that the thing should have just been dug out of the ground.

Maybe it was kept with the corpse before it was unearthed.

So, he couldn't wait to pour some spiritual energy into it, wanting to check it out and see what the mystery of this thing is.

As soon as the aura entered the finger, Willie immediately felt that there was a formation slowly moving inside the finger.

He was shocked immediately, and thought to himself, "This formation is actuallylt's been working, I don't know what effect it has? "

For Willie, although he has mastered spiritual energy, he doesn't know much about magical weapons and formations. Although he

has a wooden sword, there are also attack formations in the wooden sword, but he can only use it, but he doesn't know how to use it. Can refine.

The Amazing Son In Law Chapter 5829 -

Even, he doesn't understand the mystery of the formation, nor can he understand the basic principles and logic of the formation.

Therefore, when he saw the formation that charlie left here, he couldn't understand it for a while. What is the use of this formation?

In fact, this formation is a passive defense formation recorded in the "Nine Xuantian Jing". Once the person wearing the magic weapon is attacked, the formation will be

activated immediately, using its own The energy is used to defend the master against attacks.

The principle of the strength and effect of the formation is like a simple arithmetic problem. If the attack received is less than the strength of the formation itself, the master will be unscathed;

but if the attack received If the strength of the formation is greater than its own strength, the formation will do its best to resist this round of attacks for the master. As for the part that cannot be resisted, the master will bear it. However, Uncle Willie has never seen such a formation

. , so he couldn't figure out what the use of this jade wrench finger was.

Thinking of this, he couldn't help but secretly scolded the hero in his heart, "That old fox never told us something deeper, so that I saw a magic weapon now. , I don't even know what is the use of this thing, even if I got it, my eyes are smeared, I really want to know what effect it has, I'm afraid I have to go back and ask that old fox... But if it's really a good thing, the old fox will take it away What if you don't give it to me? "

Through this thought, Uncle Willie's teeth itched with hatred.

Before he could comprehend the mystery of the finger-wrench, Zhao Laosi (Reed) leaned forward and said, "Old man, you've read it well, don't you?" Almost give it back to me! "

Uncle Willie was startled slightly, hesitating in his heart, "For us cultivators, magical artifacts are the most important thing. Even the British Lord is still thinking about the mysterious ring in Lin Wan'er's hand, which shows that this magical artifact is very important. The importance of a cultivator, it's the first time I have encountered a real magic weapon outside in so many years, and I can't let it go even if I die!"

Immediately afterwards, Willie cursed in his heart, "But after all, did I just take this magic weapon away? , or give it back to this guy first, and then continue to talk to him? It's easy to snatch it away, and even this kid can't stop me, but there are so many people, and if the other party calls the police, I will definitely be unable to move an inch in Aurous Hill, not to mention, In case that big brother of his has other magic weapons in his hand, wouldn't I be beating the grass and scaring the snake, and making a big mistake because of a small

one?" Moreover, when we talked about this, Uncle Willie sorted out the logic of the whole thing in his mind .

He speculated in his heart, "The guy in front of me who is open to money should be the horse boy of a tomb robbery gang in Aurous Hill. These people must have just dug an ancient tomb recently and got this finger ring and other cultural relics and antiques. Now

I must be looking for a strong buyer everywhere, otherwise I wouldn't let this kid come here holding a sign and waiting to meet with the Hong Kong businessman..." "

Because the Hong Kong business hasn't received it yet, if I can get his If you go online, you should be able to see all the harvest of their tomb robbery first, if there are really many magic weapons, wouldn't it be a big profit?!" Thinking of this, he looked

at Zhao Laosi (Reed) and asked very seriously "Brother, how much do you sell this finger for? Tell me the real price. If it's suitable, I'll buy this finger!
