

The Amazing Son In Law Chapter 5840 -

Just as Willie was heading to Phoenix Mountain, charlie had already received a text message from Zhang Ermao (Cade).

In the message, Zhang Ermao (Cade) only wrote one sentence: A new store will open next month.

When charlie saw it, he immediately replied with a good word.

This is the secret code he agreed with Zhang Ermao (Cade). The opening of the new store means that there are new tombs to be robbed in the slang of the tomb robbery circle.

According to the two people's agreement, once the Thunderbolt is sold, they will send this code to charlie.

The reason why such a secret code was set was also for the sake of caution. If someone with a heart really saw it, they would think it was a new operation planned between the two tomb robbers, and would not associate it with other things.

When charlie received the news, he knew that the Thunderbolt Order had been sold, so he called Isaac Cameron immediately.

Ten minutes later, Isaac Cameron sent several videos to charlie.

These few videos are the surveillance videos of the arrival hall of the airport and the vicinity of Zhang Ermao (Cade)'s stall in Antique Street.

In these surveillance videos, charlie saw Willie for the first time.

is an image of a tall, thin and tough old man in his sixties. He looks like a crane bone, which is very pleasing to the eye.

If such a person is placed in the crowd, it is really difficult for people to associate him with the word "dangerous".

charlie remembered Uncle Willie's appearance, and thought to himself: "Thinking about it, this man must be one of the four Earls of the Qing Dynasty. He bought my Thunderbolt, and I'm afraid he will find a place to try it out soon." Have you tried it?"

At this moment, a loud noise suddenly came from Phoenix Mountain in the southwest of Aurous Hill!

In the sky, a thunderbolt struck directly in a valley of Phoenix Mountain!

The huge explosion of thunder shocked the entire people of Aurous Hill City! The echo echoed over Aurous Hill several times before gradually disappearing.

At this time, in the sky in the mountainous area southwest of Aurous Hill, a dark cloud shrouded the sky, as if a heavy rain was coming.

The meteorological department even urgently issued a thunderstorm warning and a rainstorm warning. It is said that it was caused by strong convective weather, and the possibility of hailstorms cannot be ruled out.

Everyone thought that a thunderstorm was coming, but only charlie knew that the explosion of thunder just now was actually the effect of the thunderstorm order!

With a solemn expression, he murmured: "It seems that the earl of the Poqing Society has already tried the Thunderbolt!"

...

At this moment, Phoenix Mountain in the southwest suburb.

Looking at the five-meter-wide and three-meter-deep pit in front of him with weak legs, Willie was surprised and delighted.

Just half a minute ago, in the valley, he chose a boulder as the target of the test, and activated the spirit energy to activate the formation in the Thunderbolt, intending to try out what the magic weapon made of this piece of lightning strike wood could do. strength.

But what he didn't expect was that once this formation was in operation, it would be like a tornado spinning wildly. He had poured in a lot of spiritual energy, but he couldn't complete the operation and cast it.

In desperation, Willie continued to increase the inflow of aura until one-third of the aura in his body was infused, and then the operation of the formation was considered completed.

Just as he was happily waiting for the effect of the formation, a black cloud suddenly gathered in the sky at an extremely fast speed, covering several hills near Phoenix Mountain, and immediately after that, a cloud that looked at least as thick as a bucket Lightning struck right in front of his eyes!

The thunder that crashed to the ground shocked his eardrums with excruciating pain, and that boulder had already been turned into dust!

The Amazing Son In Law Chapter 5841 -

The thunder summoned by the Thunderbolt not only shattered the boulder, but also made a big hole in the soil under the boulder!

This huge and almost terrifying power made Willie so excited that he almost screamed up to the sky!

He never dreamed that the Lightning Strike Wood turned out to be an artifact that could summon heavenly thunder!

Moreover, the power of this thunder is comparable to a heavy artillery shell!

In comparison, the wooden sword given to him by the English Lord is much less powerful!

The extremely excited Willie stood on the edge of the deep pit, looking at the intact Jingleiling, and muttered to himself: "The power of this lightning strike wood is really terrifying! With it, even if you encounter an opponent stronger than me in the future It seems that I am really lucky to come to Aurous Hill this time!" Thinking of

this, Willie lamented again: "It's just that this thing consumes a lot of spiritual energy, and it is consumed just by casting it once. One-third of my aura, it seems that I can't use it easily in the future, the aura lost just now can only be replenished after the task is completed, and I beg the Lord to give me some medicine..." After that, he was a little bit

reluctant Putting Jinglei Ling away carefully, he couldn't help sighing: "The feeling of summoning Tianlei just now is really exciting! It seems that I have merged with the sky and the earth, so happy! It's just that everything happened too fast, and the incident It happened suddenly, I didn't have enough time to experience it slowly, it would be great if I could do it again!"

Thinking of this, he couldn't help reaching into his clothes again, holding the Thunderbolt in his palm again.

But after hesitating for a moment, he let go of his hand again, pulled it out of his clothes, and murmured: "No, this thing consumes too much spiritual energy. If it happens again, the strength will drop too much in a short period of time." I'm afraid it's not easy to complete the task, so bear with it!"

Willie didn't know that the reason why such a huge amount of spiritual energy was required to cast the Thunderbolt was because of Charlie's intention.

So, he took out the jade wrench again, and thought to himself: "What is the effect of this wrench? It looks like a passiveCould the formation that was triggered be a talisman? If this is the case, you can't try this thing rashly, otherwise, if it loses its effect, wouldn't it be a big loss?

At this point, he put his finger back close to his body and said excitedly: "Aurous Hill, the ancient capital of the six dynasties, is indeed not in vain. I just got two magical artifacts on the first day. If I wait a few more days, maybe there will be more." Other gains! Immediately ,

Uncle Willie made up his mind that for the next few days, he will not do anything to the An family for the time being, and will go to the Antique Street to find Zhang Ermao (Cade) tomorrow, see if he can touch his previous family, and try to get some magic weapons!

...

At the same time,

charlie was still looking at the dark clouds on the top of Phoenix Mountain in the west, hesitating in his heart. What

he was struggling with was whether he should take a helicopter directly from Shangri-La Palace and rush to Phoenix Mountain to meet him for a while.

If so Hurry over now, maybe you can still find Earl Poqinghui in Phoenix Mountain. Anyway,

I know what he looks like now. If I can find him in the mountain, I will fight him directly. It kills directly!

However, charlie quickly vetoed this idea.

If he rushes over now, it is unknown whether he can find the other party. Even if he is found, he may not be able to fight him

. If you really start to fight and you can't tell the winner for a while, it will probably attract the attention of the outside world.

If you expose your mastery of spiritual energy, it may cause shocks in the whole society.

Therefore, charlie hesitated for a moment, or I gave up the idea of going to Phoenix Mountain immediately.

As for how to deal with this person, I still need a long-term plan!

However, since the opponent has already obtained the Thunderbolt, charlie's chances of killing the opponent in the future are a little bit higher!
