

The Amazing Son In Law Chapter 5877 -

This moment.

Ruge, who was secretly observing Wanliu Villa on the opposite side of the mountain, saw a black shadow galloping out of the villa, followed by Uncle Willie, the head of the four Earls.

What Ruge didn't expect was that the leading black shadow would gallop towards him, while Willie was chasing after him with a wooden sword in one hand and Taoist robe in the other!

She could even hear Uncle Willie's roar, "Boy, hand over that ring wisely! Then tell me where Lin Wan'er (Alani) is hiding! If the old man is in a good mood, I can spare you! Otherwise, when the old man catches you, Your head must fall to the ground!"

charlie scolded without looking back, "You old dog, don't bark, you don't know if you can still make a living at a age, but you dare to talk nonsense here! You want a ring, Let's catch up with your father first!"

Ruge was stunned for a moment, "Ring? Lin Wan'er (Alani)? Could it be that Willie discovered Lin Wan'er (Alani)'s ring? Or, Lin Wan'er (Alani)'s ring is on the man in black?!" Just as

Ruge When Song was terrified, a large group of people chased out of the villa again!

After these people chased them out, they saw that the man in black and Willie had already rushed hundreds of meters at top speed, and they didn't know what to do for a while.

Seeing these people, Ruge was even more surprised, "An's family is still alive?! Before the man in black arrived, Willie went in for at least a minute, such a long time Time, why didn't he attack the An family?! With his strength, it will take no more than half a minute to kill the An family..."

At this moment, the An family who chased them all the way out were all anxious.

They were not fools, so they knew that charlie deliberately said those seemingly heartless words just now, in fact, to lure away the murderous old man and save their lives.

The old lady was in a hurry, just after wiping her tears with her sleeves, her eyes filled with tears instantly, she grabbed the old man An Qishan's hand, and cried, "Qishan, what if something happens to charlie... ..I don't have the face to meet Lydia (Ava) (Charlie's mom) and bruce in the future!"

The old man was also crying uncontrollably, and said with grief and remorse, "It's all my fault... It's all my fault... If I could let go of my face, bruce might not have been so stiff with An's family in the future; Lydia (Ava) (Charlie's mom), if she and bruce came out of wade's house, they wouldn't end up in Jinling..."

Then, the old man said again, "charliee has been avoiding us for so many years, naturally because he couldn't forgive us... But even so, charliee is still three years old. Standing up twice to save us from fire and water, I, as a grandfather, am really ashamed, regretful, regretful!"

Li Yalin said with a very firm expression at this time, "Uncle An, Mr. wade has supernatural powers, I believe nothing will happen. Yes! The top priority right now is to move you to a safe place first!"

The old man asked in shock, "What did you say? Mr. wade?! Ya Lin, you bastard has known charliee for a long time, But you just haven't told me, have you?!"

Li Yalin said in shame, "Uncle An, it's a long story, I'll explain it to you slowly in a while!"

Just as he was speaking, the deafening whistling sound came again .

Everyone looked up and saw another helicopter galloping from the other side of the mountain!

The Amazing Son In Law Chapter 5878 -

This helicopter is obviously bigger than the one just now. The helicopter dived all the way and landed very quickly in the open space in front of the villa. Before the fuselage stopped, a middle-aged man opened the cabin door from the inside and rushed outside desperately. wave.

This middle-aged man is exactly Don Albert.

As early as when charlie told Li Yalin what he said about Lin Wan'er (Alani), he had already thought about his plan for tonight.

He first asked Isaac Cameron to call the public surveillance of Wanliu Villa, and sat in the helicopter to monitor the movement of Wanliu Villa in real time.

And it only takes two or three minutes for him to fly from the Champs-Elysees Hot Spring to Wanliu Mountain Villa. In these two or three minutes, Anjia's bodyguards and nurses can help delay part of the delay, and the rest will be handed over to Li Yalin, and The "life-saving mantra" he gave Li Yalin.

He believed that as long as Li Yalin uttered the life-saving mantra, he would be able to delay the other party for a while, and in this case, he would definitely be able to arrive!

And charlie is also very clear that even if he arrives, he can't fight to the death with the other party, because if he does something in the villa, the An family and Li Yalin will undoubtedly die, so he must use that ring to attract all the attention of the other party. This gave An Jia and Li Yalin a chance to evacuate.

And Don Albert's task is to take off and rush to the villa of Wanliu Villa to pick up An's family three minutes after charlie took off, without waiting for any news or notification.

Now it seems that every step of the development of the matter is developing according to the direction charlie imagined!

At this time, under the roar of the huge propellers, the An family couldn't hear what Don Albert was saying at all, but they understood Don Albert's gestures and told them to get on the helicopter quickly.

Just when the An family was still somewhat hesitant, Li Yalin shouted loudly in everyone's ears without thinking, "This must be arranged by Mr. wade, let's go!" Immediately afterwards,

he pulled Asher and Homula together to support him. Guided by the An family, the two elderly people boarded the helicopter.

In less than a minute, everyone boarded the plane, and the helicopter violently pulled up immediately, and quickly disappeared into the night in a swooping posture.

At this time, Willie heard the huge roar behind him from far to near, and then from near to far, and probably guessed what happened behind him, but he had completely ignored it at this time.

From the moment he decided to chase charlie out, he no longer cared about the life and death of An's family.

For him, it doesn't matter to him even if the An family has run away, he only has the ring on charlie's hand in his eyes, as long as he gets it, he doesn't care what the An family and wade family are, he is the second leader of the Qing Dynasty!

However, he never dreamed that charlie could run so fast! I have tried my best to catch up with him, but I still can't shorten the distance with him, and there is even a faint tendency to be thrown further and further away by charlie.

An exasperated Uncle Willie yelled behind charlie, "Boy, if you f*cking run away again, I won't be polite!"

Hearing Uncle Willie scolding behind him, charlie laughed and said, "Come on, I'll take care of you!" Let's see what other abilities you, an old dog, have besides howling and barking!"

Willie said coldly, "Boy, you will die today!"

The Amazing Son In Law Chapter 5879 -

Ruge sighed inwardly, "Looks like Willie got hit The man in black's plan to lure the tiger away from the mountain, maybe the man in black not only wants to save An's family, but also wants to prolong Shengbo's life!" Thinking of

this, she was so anxious that she took out her mobile phone again, and saw the message displayed on the phone. The word "no service" made me anxious for a while.

...

The time went back to five minutes ago.

Before Charlie arrived at Wanliu Villa, Ruge was on the mountainside, and saw Willie enter the villa all the way.

Ruge saw Willie as if he had entered the land of no one. At that time, he thought that Willie would be able to easily kill An's family and make a great contribution tonight, and he only needed to observe in the dark and tell the truth to the British Lord later. The report can be handed over.

But she never expected that just as Willie entered the villa, a helicopter roared from the other side of the mountain at an extremely fast speed and flew directly to the center of the villa in the center of Wanliu Villa. above.

Just before she figured out who would come to Wanliu Villa by helicopter at this time, a black shadow jumped directly from the roaring helicopter.

The point is, at that time the helicopter was still in a state of rapid dive and descent, its own speed was very fast, and it was still tens of meters away from the ground, but unexpectedly, after the person jumped down, his body could still stabilize. Land firmly on the ground!

The moment the man landed, the helicopter immediately pulled up with all its strength, and the black shadow rushed into the villa without even half a buffer!

Just seeing the person's jumping action and his unaffected performance after landing, Ruge immediately decided that this person must be a master, and a master who is proficient in aura!

At that moment, her heart was suspended, and the first thought that flashed in her mind was that Jinling still had a strong enemy, and she had to warn Willie immediately.

But soon she thought that she was ordered by the Lord of England to monitor Willie secretly, if she warns Willie at this time, it would be tantamount to betraying the Lord of England.

So, at that time, she subconsciously took out her mobile phone and planned to report to the Lord Ying immediately.

But when she took out her mobile phone, she realized that her mobile phone was in an empty mountainside, and there was no signal at all!

What she didn't know was that at this moment, the helicopter that had been lifted to an altitude of one or two kilometers and was hovering directly above Wanliu Villa had turned on the high-power jamming equipment prepared in advance.

With it continuing to interfere at a high place, not to mention the mere Wanliu Villa, even within a radius of one kilometer, the mobile phone signal is subject to strong interference, and no network can be connected.

At the same time, the little brother arranged by Don Albert has already cut the communication cable of Wanliu Villa at the foot of the mountain, cutting off the wired telephone and wired network of the entire Wanliu Villa.

This was a special arrangement by Charlie. He didn't know if there was a one-way connection between the Earl of the Qing Dynasty and their hero. Transmitting audio and video is a potential threat to oneself.

But Charlie didn't expect that it was this arrangement that made Ruge, who was hiding in the dark, suddenly fall into a passive position.

She could not report to Willie on her own initiative, nor could she report to the Lord of the Kingdom or ask for instructions on the Lord's decision, so she could only suppress her nervousness and decided to observe in the dark first.

And just when she was in a dilemma, the hero who was thousands of miles away was also staring at the positioning information transmitted from thousands of miles away.

On the screen in front of Yingzhu, the high-definition satellite map of Wanliu Villa was displayed. Relying on the latest data from Google, the satellite map that Yingzhu saw was just taken and updated last month. The satellite photos were taken during the day, and the definition is extremely high, and even every tile on the top floor of the villa can be seen clearly.

The Amazing Son In Law Chapter 5880 -

Relying on the high-definition satellite map, coupled with the precise satellite positioning of Williebo and Ruge, two eye-catching coordinate points, one red and one yellow, are clearly displayed on the map in front of the Lord Ying.

Among them, the yellow coordinate point stopped motionless on the mountainside on the west side of Wanliu Villa, while the red coordinate point

approached step by step from the periphery of Wanliu Villa under the watchful eyes of the British Lord until it reached the place where the An family lived. In that villa.

These two coordinate points are the real-time positioning of Willie and Ruge.

The coordinate point flashes twice per second, and each flash represents the update of the latest coordinates.

In other words, the real-time location of the two of them will be updated twice a second to the monitoring terminal where the British Lord is.

Moreover, their positioning system uses the most professional high-precision map today, with positioning accuracy at the centimeter level, and the actual error does not exceed ten centimeters.

When the Lord Ying saw Willie's red punctuation entered the gate of the villa, he knew that Willie had already entered.

And the British Lord at that time also believed that within a few minutes, An's family would become Willie's innocent souls.

But when Lord Ying was waiting for Willie to send back the good news of victory, these two coordinate points that had been blinking all of a sudden went out!

This sudden turn of events surprised the British Lord, but he also felt a sudden thump in his heart.

The extinguishing of the coordinate point indicates that the information transmission between the other party and oneself has been interrupted.

However, both of their mobile phones have been specially modified, and their stability is comparable to military equipment.

As long as the mobile phone has power, it can simultaneously transmit signals to the base through the communication network and the satellite network.

If there is no satellite signal indoors, real-time transmission can be guaranteed as long as there is a communication network;

if there is no communication network in the wilderness, as long as there is satellite signal, the transmission effect can also be guaranteed.

It can be said that as long as you don't take your mobile phone into a mountain tunnel or underground bunker that doesn't even have a mobile phone signal, the transmission between it and the base will never be interrupted.

But the current situation is that as soon as Willie entered the gate of the villa, the signal was terminated.

That's all, because it is also possible that the other party has just entered the room and lost the satellite signal, and at the same time the mobile phone has temporarily lost the signal.

However, Ruge has been outdoors the entire time, without even moving!

And her signal also ended at the same time, which is obviously not right!

Uneasy Ruge guessed that the signal might have been tampered with by the helicopter in the sky, but she was completely powerless against the helicopter at a height of one thousand meters.

She also thought about whether to leave here as soon as possible, run out of the range of the helicopter interference as much as possible, and then report to the British Lord.

But when he thought that Bo Willie might have fallen into someone else's trap, if he left at this time, if the British Lord thought he was running away, it would be hard to explain.

It is precisely because of this that she has been waiting until now.

At this time, seeing Uncle running after the man in black and getting closer and closer to her, she couldn't help thinking to herself, "I can't contact the British Lord right now, and I don't know the strength of the man in black, so I can't." If you rush to help Uncle Willie, it seems that you can only quietly follow in the dark and wait and see what happens!"
