

The Amazing Son In Law Chapter 5881 -

At this moment, charlie galloped all the way, leading Willie to gallop towards the mountains.

The speed of the two is extremely fast, even on hills with dense trees and undulating terrain, they can walk as fast as they are walking on flat ground.

At this time, Willie had exerted all his strength, biting charlie tightly, and while running, he had to keep his eyes wide open and concentrate on avoiding the surrounding trees and rocks under his feet, and ran for one or two kilometers. At that time, the whole person was in a panic.

However, even though he tried his best, charlie always kept a stable and safe distance from him. This distance made Willie very depressed. He could only chase after charlie, but he couldn't take the opportunity to attack charlie .

Because, no matter whether he used the wooden sword given by the British Lord or the lightning strike wood he bought from Zhang Ermao (Cade) to attack, he needed to calm down to run the aura and activate the formation, and if he was a little distracted, his previous efforts might be wasted.

Therefore, it is still possible to fight while walking. Although it is more difficult to fight while running, it is not impossible.

But if you imagine yourself like this now, while running cool in the mountains like a monkey, exerting all your strength, and at the same time concentrating on sacrificing magic weapons to cast spells, it will be as difficult as heaven for Willie.

Seeing charlie running towards the mountains, although Willie knew that charlie wanted to lead him to a place where no one was around, and then fight him to the death, but he had no other choice at this time, so he could only chase him to the end.

charlie directly led Willie to an uninhabited valley three or four kilometers away. This was the place he had chosen for the final battle. The place itself was far away from the urban area, and the surrounding area was uninhabited. Don't worry about attracting outside attention.

When charlie rushed to the center of the valley, he suddenly stopped, turned around abruptly, fixed his eyes on Willie who was approaching, and said coldly, "You old dog has good physical strength." !"

Willie stood still at a distance of about 20 meters from charlie, looked at charlie's face through the mottled moonlight, and said with a grinning smile, "I never expected that bruce's son would die in just twenty years." Mastered the aura! It seems that the Lord Ying guessed it right, your short-lived parents really discovered the secret of longevity!"

charlie frowned slightly, and asked, "You think my parents also understand aura?"

Uncle Willie I was stunned for a moment, then laughed and said, "It seems that your parents died too early, and they didn't have time to tell you many things. Back then, they entered the land of longevity and took away the secret of longevity. I realized that it was fortunate that I killed both of them early, otherwise, if they were given another few decades, maybe even the hero would not be bruce's opponent."

charlie was horrified in his heart!

He never thought that his parents were also related to spiritual energy!

At this time, a sneer appeared on the corner of Uncle Willie's mouth, and he said, "It's really double happiness today. Since you have mastered the spiritual energy, you must have obtained the secret of longevity left by your parents. If you don't want to die in too much pain, you can send Lin Wan'er (Alani) to death." Hand over your ring together with the secret of longevity!"

The Amazing Son In Law Chapter 5882 -

charlie stared at Willie and asked, "Old dog, what is the secret of longevity?"

" Dazed, do you think I'll be fooled by you?"

charlie's eyebrows were like swords, his eyes were like torches, and he said word by word, "You must die by my hands today! Why should I pretend to be stupid to a person who is destined to die? Let me tell you, I am the one who killed you!" Means are no more benevolent than you! If you tell everything you know today, I might be able to give you a good time!"

Willie suddenly remembered the words charlie blurted out just now subconsciously, so he asked suspiciously, “You Since you don’t know that your parents are proficient in spiritual energy, where did your spiritual energy come from?! Who led you into the Tao!?”

charlie said coldly, “I led myself into the Tao!”

Uncle Willie laughed contemptuously “What a joke! I have lived for more than a hundred years, and I have never heard of anyone who can enter the Tao by himself!”

charlie said lightly, “Then you will see it today!”

Willie gritted his teeth, and said coldly, “Boy, I will let you know today what will happen if you disrespect me!”

After finishing speaking, he immediately swung his wooden sword, Infuse spiritual energy into it, slash towards charlie’s void, and said coldly, “Don’t you know how to run? I’ll cut off your legs first!” In an instant

, a spinning invisible sword edge shot out from the wooden sword.

charlie could clearly feel the powerful energy contained in that sword edge, like a helicopter flying at high speed, suddenly throwing the propeller out! charlie knew that he was not capable and experienced enough in actual combat, so he didn’t dare to slack off at all. Seeing the whirling sword edge smashing all the way and cutting off countless branches and leaves, he immediately found the right time and shouted

loudly, “You think you are the only one who can cut?!”

, a soul-piercing blade shot out rapidly, like an invisible giant crossbow, the soul-piercing blade went towards the spinning sword at an extremely fast speed!

In the blink of an eye, the two forces collided together, and immediately there was an explosion in the air between the two of them, and the trees within a radius of tens of meters were still lush, but in the next second all the green leaves were pouring The heavy rain is generally pouring down!

The huge impact force even made charlie and Willie retreat several steps uncontrollably!

Willie's expression suddenly became horrified!

Even Yun Ruge, who was watching secretly from a distance, was too shocked to add anything!

Uncle Willie stared at Charlie dumbfounded, and exclaimed, "You...you still have a magic weapon?!"

Charlie sneered, spread his palms to reveal his soul-piercing blade, and said disdainfully, "What? What do you think? Only you are worthy of possessing a magic weapon?!"

Willie was very depressed at this moment!

The Amazing Son In Law Chapter 5883 -

As the saying goes, if you compare people, you will die, if you compare goods, you will throw them away!

Before I came to Aurous Hill, I only had a magical weapon all over my body, which was lent to me by the British Lord to carry out the mission!

But the young man in front of him, who is less than thirty years old, not only has mastered spiritual energy in the past twenty years, but even possesses a magical weapon that is not inferior to the wooden sword in his hand, which immediately makes him feel extremely dissatisfied balance!

He couldn't help gritting his teeth and said, "Boy, even your short-lived old man doesn't have such a powerful magic weapon! Where did you get it from?!" Charlie said coldly, "I said I made it myself, do you believe it?"

"

Willie felt that his IQ had been humiliated, and he gritted his teeth, "Even the Lord of England can't do it, let alone you are a mere thief! Since you don't tell the truth, don't blame me for being rude!"

" Well, Uncle Willie flicked his wrist, and the two swords shot out towards Charlie again. This time, the two swords were like two boomerangs advancing in an arc, one left and the other right to double-team Charlie!

charlie didn't wait for the two swords to get close, and immediately used the soul-piercing blade, and suddenly shot three times in a row towards his left, right and front. Bo gallops away!

Uncle Willie originally thought that if two swords pinched charlie, even if he couldn't kill him, he would definitely injure him severely, but he never expected that charlie's two successive strikes would match his own two swords again. Fronts collide together!

Two thunder-like sounds came, and countless fallen leaves on the ground were instantly shaken and danced all over the sky.

But at this moment, Bo Willie felt an extremely fast and strong force coming straight to his face, and suddenly realized that at that moment just now, charlie had not only hit two strokes of strength, but three strokes. !

And this third way is coming straight to him!

Willie backed away quickly in a panic, and at the same time transported the aura to his arms, and blocked his arms in front of him, preparing to resist this force.

He originally thought that with his own strength, it would be no problem to resist an opponent's attack, but when he put his arms in front of him and greeted the soul piercing blade, he realized that he had underestimated charlie's strength, and the strength of charlie's magic weapon!

Hearing a bang, a huge force hit his arms suddenly, that feeling, as if a heavily loaded train crashed into him at an extremely fast speed!

The spiritual energy gathered by Willie on his arm was almost completely crushed by this huge force in an instant!

And his arms also felt a sharp pain, as if broken, and this is not over! The huge impact force caused Willie's body to retreat tens of meters one after another before he managed to stabilize his figure.

Willie, who had just stood firm, spat out a mouthful of blood in the next second. His two arms had almost lost feeling, and his entire chest was almost shattered, suffering from a lot of internal injuries.

The Amazing Son In Law Chapter 5884 -

But how could Willie have imagined that charlie could barely stand still on his side, and charlie rushed to his face at an extremely fast speed!

He was astonished, and was about to try his best to resist, but felt charlie suddenly twitch his arm towards him, and before he could react, a slap was loudly slapped on his face!

In fact, at the moment when charlie rushed over, he could directly attack his face with the soul piercing blade. If he couldn't stop it, he would be cut off from the sky. If he could stop it, he might have to cut off half of it. Life!

However, charlie still gave up this good opportunity to injure Willie!

He doesn't want Uncle Willie's life yet, for one thing, he still needs to ask Uncle Willie what he wants to know, and secondly, he doesn't want Uncle Willie to die so easily!

Unexpectedly, Uncle Willie would have thought that when charlie rushed to his face, he suddenly changed his style of play. Instead of using spells or magic tools, he slapped himself solidly!

The key point was that charlie used all his strength in this slap. This slap full of aura was so powerful that he was slapped three times in the air before falling heavily to the ground!

Willie let out a painful wail, forced himself to cover his face and climbed up, already furious in his heart!

In the past hundred years, when has he ever been slapped in the face by others? ! charlie's slap in the face made him more uncomfortable than killing him! He gritted his teeth and pointed at charlie, coughing up blood, and asked, "You...cough cough...you are only in your twenties, how could... how could you have

such strength?!"

Holding the wood in his hand, he forced himself to pour the aura into it, wanting to give charlie a fatal blow!

In terms of power alone, the power of Thunder Strike Wood to summon sky thunder is much stronger than the wooden sword given to him by the hero.

Willie failed to attack charlie with the wooden sword one after another. In his opinion, there is a high probability that the edge released by the wooden sword can be sensed by the opponent. In this way, this attack cannot deal a sudden blow to the opponent!

But the sky thunder summoned by Lei Strike Wood is different. That day the thunder fell suddenly, without giving the other party any chance to react! As long as he hits charlie with a thunderbolt, charlie will lose half of his life if he doesn't die!

charlie had noticed his small movements a long time ago, but now he deliberately pretended not to see it, and said with a sarcasm, "To tell you the truth, although I am already twenty-eight years old, I haven't been practicing spiritual energy for a long time. It's been two years!"

Willie was taken aback, and blurted out, "What?! Less than two years?!"

charlie smiled and said, "That's right, I don't know how many years you have practiced?"

Willie gritted his teeth, "Old man from It has been more than a hundred years since the beginning of Taoism! Boy, there must be a big secret hidden in you, hand it over obediently, and I will spare you! Otherwise..."

charlie asked back, "How about otherwise? Can you still use lightning strikes? Me?"

Uncle Willie felt that the formation in the Thunderbolt Wood had been completed, so he grinned grinningly, and shouted to the sky, "Boy! I really made you guess right! Thunder~~Come on!!!"
