

The Amazing Son In Law Chapter 5885 -

Willie thundered, shouting with full momentum and majesty!

At this moment, according to the picture envisioned in Willie's mind, after he heard thunder, the sky must be covered with dark clouds and thunder billowing. Immediately afterwards, a thunderbolt as thick as a bucket would fall from the sky and hit charlie's head directly!

And he also firmly believed that even if this thunderbolt could not kill charlie directly, it could completely make him lose the ability to resist. At that time, he would have ten thousand ways to torture him and force him to tell all the secrets!

However, just after Willie yelled thunder, there were no dark clouds in the sky like last time, and there was no roar like lightning and thunder.

The night in Aurous Hill is very clear tonight. In addition, there is no light pollution in the mountains. You can see a crescent moon and a sky full of stars when you look up. Seeing that the dark clouds and lightning had not yet arrived, Uncle

Willie couldn't help feeling puzzled. He looked at the thunderbolt in his hand and murmured, "What's the matter? Where's my thunder?"

The array also stopped functioning.

Afterwards, the aura he entered into it was released by the formation in the lightning strike wood and returned to his body.

It's a pity that in the "Nine Xuantian Jing", there is no record of any formations that consume spiritual energy out of thin air. Otherwise, Willie only needs to try it twice, and the spiritual energy in his body will be exhausted.

Willie was also very puzzled at this time, because the aura had returned to his body, so he did not suspect that there was fraud in the lightning strike tree, and thought it was because he had failed to activate the formation just now.

At this time, charlie also asked curiously, "Yeah, old dog, where is your thunder? Is the lightning wood in your hand dead? Forgot to charge it before going out?" Uncle Willie knew that

charlie was mocking him , said in a cold voice, “Boy, when you are about to die, you are still uttering wild words! I think you really don’t know how to write the word for death!”

After that, he gritted his teeth, while re-activating his aura and operating the formation of lightning strike Muli, Pointing at charlie, he said loudly, “Boy, watch me come again!”

As soon as the voice fell, the formation was completed, but there was still no trace of dark clouds in the sky.

Immediately afterwards, Lei Jianmu returned Willie’s aura.

This feeling is like when a child dies when playing a game machine just at the critical moment, he hastily took out the game coins to continue, but just put the game coins in through the coin hole on the top, and then the machine is thrown from the bottom hole. The coin hole spit out.

Willie suddenly panicked, staring at the dark lightning strike wood in his hand, and murmured in disbelief, “This... what’s going on, it was successful last time, why didn’t it work this time?”

Seeing that he was at a loss, charlie couldn’t help laughing loudly, “Old dog, it seems that your Thunderbolt is not very useful!”

Willie frowned and asked, “What Thunderbolt?!”

The Amazing Son In Law Chapter 5886 -

charlie laughed and said, “That’s right. That magic weapon in your hand! That is the Thunderbolt!”

“You know this magic weapon?!” Willie widened his eyes in shock.

charlie nodded, and said with a serious face, “I don’t just know each other. To tell you the truth, I also have the same thing.”

Willie gritted his teeth and said, “Joke! I am lucky to meet such a magic weapon. , How could you be so coincidental that you have one too?!”

charlie smiled and said, “Look, you still don’t believe me if I tell you the truth.”

After finishing speaking, charlie immediately took out his Thunderbolt and showed it to Uncle Willie. , and said with a smile, "Look, mine looks much more exquisite than yours! Yours is just a piece of broken lightning wood, and it hasn't been well decorated. Look at me again. The color is round and the lines are beautiful. It's covered in patina, and it's a lot stronger than yours at first glance!"

Willie saw the Thunderbolt in charlie's hand, and immediately recognized that it was also a magic weapon made of lightning strike wood, and although he didn't know how to Refining magic tools, but he still knows the quality of the raw materials. The piece of lightning strike wood in charlie's hand has a very long history at first glance, and it is definitely the top lightning strike wood.

He blurted out in horror and asked, "What the hell is going on here? Where did your magic weapon come from?"

charlie sneered, "To be honest, our two pieces of lightning strike wood are actually both It was made by Taishang Laojun, but the one in my hand is my son, and the one in yours is my son. Although the son is usually arrogant and domineering, but when he sees Lao Tzu, he still has to be honest, so naturally he will be dumb Already!"

Uncle Willie cursed angrily, "F*ck you! You have never read Journey to the West when you are so old?! Will I believe you in this kind of nonsense?!" charlie laughed and said, "Don't believe it? Don't believe

it If so, I'll show you a demonstration!"

After finishing speaking, before Willie could react, charlie suddenly put away his smile, as if standing on the top of the five mountains, and shouted "Thunder!" As soon as the words fell, he only

heard A large black cloud was quickly raised in the sky, and lightning and thunder thundered in the cloud, so scary!

Willie is very familiar with this scene, although the dark cloud is not as thick and scary as when he used the Lightning Strike Wood that day, but the feeling is exactly the same!

charlie suddenly summoned the sky thunder, which shocked him as if he had been struck by lightning. He thought to himself, "Damn it, is it true that, as this kid said, my thunderbolt won't work when I see him?!"

" At this point, he hastily backed away quickly, trying to avoid the coming thunder.

However, Tianlei is controlled by charlie's mind, how could he easily dodge it!

charlie fixed his eyes on Willie's figure, and then, a thunderbolt came, directly hitting the top of Willie's head!

The Thunderbolt that charlie tampered with can only be used once, and as long as it is used, it must consume a lot of spiritual energy to activate it, and it is extremely powerful, it is a super-sized Thunderbolt.

But charlie's own Thunderbolt is to be frugal and flexible, to be as big as you want, to be as small as you want!

The Amazing Son In Law Chapter 5887 -

He didn't want Willie's life to be killed so soon, so he specially controlled the release of aura, and this thunder did not cause Willie much damage.

But even so, Willie's hair was blown into a chicken coop by the thunder, his face was black, and even his Taoist robes became ragged, his whole body was painful and numb, and he stood there uncontrollably Twitching.

Seeing his embarrassment, charlie asked with a smile, "How is it? I didn't lie to you, did I?"

At this moment, Yun Ruge, who was hiding in the dark twenty feet away, was already pale with fright. Thinking that this man in black could actually control Tianlei! And she never expected that the powerful Willie would be so vulnerable in front of the man in black!

And she couldn't help but wonder in her heart, what should she do next.

If I rush out to help Uncle Willie, I am afraid that I am no match for the man in black at all. Besides, Uncle Willie has always looked down on the other three earls, and she has no friendship with Uncle Willie. At this time, there is no need to desperately help.

But she didn't know, if she didn't come forward to help, how would she explain it when the Lord Ying turned around and questioned her?

After thinking about it, she decided to continue to observe secretly for the time being. She has the method of hiding the breath taught by the hero, so she should be able to hide it from being discovered.

If Uncle Willie unfortunately died at the hands of the man in black tonight, he would report the truth to the British Lord. Even if the British Lord blamed him, it could not be a capital crime. It was much better than going out to die rashly!

If Willie could escape by chance, he would simply use the signal to be blocked and find the signal by himself as an excuse. Even if the British Lord blamed him, at most he would be punished for leaving his post without permission, which is harmless!

At this moment, Willie, after being hit by a thunderbolt, was naturally startled and frightened. He knew that he had tried his best to hide, but in the end he was struck by the thunderbolt. This shows that, Charlie's control over Tianlei is already extremely precise!

Moreover, Willie also knows that the only spell he can cast from a distance is the blade of the hero's wooden sword, and Charlie's spell is not only the invisible blade similar to the blade, but also the blade that falls directly from the sky. Tian Lei, his wooden sword can't hurt him, and his Tian Lei has nowhere to hide. If this continues, he will definitely be consumed by Charlie. The only way is to fight him hand-to-hand!

Thinking of this, Willie gritted his teeth, and shouted in a cold voice, "Boy! Either you die today, or I die!"

After that, he poured his spiritual energy into his legs, and displayed the method of changing shape and changing shadow taught by the Lord Ying, with Strange speed, rushing towards Charlie like a space jump!

The biggest advantage of this technique is that the trajectories are erratic and difficult to find patterns. Not only can it make it difficult for the opponent to hurt yourself, but it can also take the opportunity to shorten the distance with the opponent.

Although the magic weapon is at a disadvantage, Willie firmly believes that with his physical body that has been cultivated for hundreds of years, and with his spiritual energy that has been refined for decades, once he gets close to him, Charlie, a brat, is absolutely impossible to be his own opponent!

However, at the moment when he was attacking charlie with extreme speed, charlie suddenly shouted again, "Thunder comes again!"

Then, with a bang, Uncle Willie, who had just leaped a foot away, was caught by a sky again. Lightning strikes!

The huge power turned Willie's white hair, which was originally messed up, into toner in an instant, and his ragged Taoist robes almost disappeared, leaving only a pair of tattered red underpants.

The Amazing Son In Law Chapter 5888 -

charlie looked at him, and said with a contemptuous sneer, "You are a coquettish old man, you are over a hundred years old, and you still wear a pair of F*cking red pants, how shameless you are?" Although Willie was struck to death by lightning,

but Still bracing his body, he cursed hysterically, "You...you bastard! Poor...poor...poor is this year of birth!"

"Natal year?" At such an advanced age, do you still believe this?"

Uncle Willie couldn't help but gritted his teeth and said, "I don't believe it or not, it's none of your business!"

When he said this, Uncle Willie's brain was already running fast.

He didn't expect that even if he used the technique of changing shape and changing shadow, he still couldn't escape charlie's thunder!

And this feeling of being struck by lightning is extremely painful, pain and injury are secondary, the key is the electric energy in the thunder, which makes the body muscles twitch uncontrollably, and the body will completely lose control in a short time.

It was also at this moment that Willie understood that he was not charlie's opponent.

At least, I can't beat charlie tonight!

Not only is he far behind charlie in magic weapons, but more importantly, when he tried the lightning strike wood two days ago, he consumed one-third

of his aura at one time. The magic technique consumes a lot of spiritual energy at a faster rate, and after being struck by lightning twice, there is no chance of winning!

Thinking of this, he made up his mind that he must escape as soon as possible!

In his opinion, charlie has already exposed his identity, and also exposed his magic weapon and strength, but now his magic weapon is at a disadvantage, and he can't fight hand-to-hand. There is no chance of winning tonight. After reporting to the hero, wait for the hero to personally come and take charlie's dog's life!

So, after a burst of violent convulsions, Willie suddenly straightened up with a carp, turned over and jumped up from the ground, and then he immediately shot two swords at charlie, and then ran away!

What he thought was to run away while charlie was distracted.

However, he didn't know that although charlie didn't get close to him, he was always watching his every move. Seeing him make two sword strikes, turn around and run, charlie immediately caught up without thinking!

The sword's edge was right in front of him, but charlie didn't plan to use the soul-piercing blade to resist it. He shouted loudly and circulated the spiritual energy around his body. The spiritual energy wrapped around his body and spun rapidly, creating a gust of wind!

charlie flew sand and rocks all the way, and branches and leaves flew horizontally! At the moment when the two sword edges were about to slash towards him, he turned his hands into fists and slammed towards the void on both sides!

Hearing only two very close explosions, those two sword edges were smashed into ashes by charlie's fists!

And Willie, who only had a pair of red underpants all over his body, had just ran ten feet away. Originally, he ran for his life frantically without turning his head when he used his sword, but after hearing two explosions, a sudden flash in his heart A touch of excitement!

The Amazing Son In Law Chapter 5889 -

These two explosions are obviously different from the explosions when the sword's edge was collided with the soul piercing blade just now. These two explosions are more like the sound made by the sword's edge hitting the target's body!

"Could it be...Could it be that charlie didn't dodge my sneak attack?!"

Willie was overjoyed when he read this!

He subconsciously looked back to see if charlie had been injured by the two swords. If so, he might be able to decapitate charlie by taking advantage of the victory and chasing after him!

However, the moment he turned his head back, he suddenly discovered that charlie's sharp-edged and incomparably cruel face was only less than two battles away from him!

charlie actually caught up!

At this moment, Uncle Willie was so frightened that he was scared out of his wits. He turned his head and tried to escape with all his might, but he heard charlie yelling "Thunder is coming!!

" It hit the top of his own sky spirit cover!

His legs suddenly went limp, and his running body lost his balance in an instant. After staggering a few steps, his body fell to the ground uncontrollably.

This thunder smashed his red underpants into powder, and even chopped all the hair on his body into ashes, and there were large burn marks on his skin!

Since Uncle Willie ran back ten feet and rolled back several times, he was less than ten feet away from Yun Ruge who was hiding in the dark.

Seeing Willie's disheveled appearance, Yun Ruge subconsciously closed his eyes and dared not look any more.

And Willie, who was sitting on the grass with his butt naked, only felt a sweetness in his throat at this moment, and spit out a big mouthful of blood with a wow.

Although his body was not fatally injured, it was already on the verge of collapse, just like a weightlifter who has exhausted his physical strength. It is difficult for his body to exert any more strength in a short period of time.

Now Willie, how can he still be as energetic as before?

His limbs were still twitching constantly due to the electric current, and with no clothes on, he looked like a wretched old pervert.

And the wooden sword in his hand even fell to the ground because of uncontrollable trembling.

Seeing his embarrassed appearance, charlie couldn't help thinking to himself, "said I was in danger, but this old dog is not my opponent at all. Could it be that she made a mistake?" Thinking of this, he stopped thinking about

divination , but walked up to Uncle Willie, looked down at him, and asked in a cold voice, "When you killed my parents twenty years ago, did you ever think you would have today!"

Uncle Willie stared blankly at the man in front of him. charlie, seeing that his face remained unchanged and did not see any changes, suddenly felt great panic and despair in his heart.

For the first time in his hundred years of cultivation, he felt the fear of death.

He suddenly had an intuition in his heart that his century-old practice might be in charlie's hands.

Twenty years ago, I killed his father. Is it true that I am really going to die by his hands twenty years later? !
