

## The Amazing Son In Law Chapter 5919 -

Although Charlie Wade coveted Lin Wan'er (Alani)'s Lightning Strike Wood in his heart, he was really embarrassed to ask for it for a while.

After all, this thing has been treasured by Lin Wan'er (Alani) for more than three hundred years, so it must have an extraordinary meaning to her.

However, Charlie Wade knew that there was no need for him to be too anxious. In the current situation, even if Lin Wan'er (Alani) gave him the lightning strike wood, he would not be able to refine it at all.

So, Charlie Wade looked at Lin Wan'er (Alani) and asked a question that he was very curious about, "Miss Alani, I really want to know, how did you come here for more than three hundred years?"

"Proficient in aura, she is no match for Sara, so the slave family has been running for their lives for more than three hundred years."

said, Lin Wan'er (Alani) said, "But the first two hundred years were fine, At that time, after all, the transportation was inconvenient and the communication was not well developed, so it was not so easy for Sara to catch me." Speaking of

this, Lin Wan'er (Alani) tilted her head, recalling, and said, "After finishing my father's funeral, my slave's family, because of their young age, , and have no ability, can only live in several remote places in southern Yunnan for decades, because the face of the slave family is too young, in order not to be suspected, the slave family usually lives in one place for five or eight years, and will change Another place;"

"It was also during that time that my family fell in love with Pu'er tea;" "

During that time, my family traveled to many places, and took this opportunity to learn and experiment with Pu'er tea making methods, and then in southern Yunnan I lived by the Tianchi Lake for several years and taught local tea farmers how to make Pu'er tea better;" "

After witnessing the failure of the Pu'er mother plant to survive the catastrophe, the slave family felt that they had lost their spiritual sustenance, and after decades of fleeing Life, the slave family has accumulated some money, and learned a lot of life and escape experience, and stayed by the

Tianchi for a few years, and it was time to go, so the slave family left South Yunnan...” “After leaving South

Yunnan , I didn’t dare to go to the mainland, so I went all the way south to Jiaozhi, and from Jiaozhi all the way to Nanyang, lived in several countries in Nanyang, and finally lived in Penang for a while;”

“Later, my family went to Brunei, went to Indonesia, and then took a boat from Indonesia to India, and from India to the Ottoman Empire through the Middle East;” “After that, the industrial revolution began in Europe, and my family was very amazed at that

time With their rapid development in science and technology and academics, they began to travel to European countries, and used different identities

to study in many universities in Europe; But it didn’t take long before the British invaded China. Seeing the British who usually call themselves gentlemen, the slave family began to use the power of the whole country to colonize and sell opium all over the world, and provoked the first Opium War in China. I hated it in my heart, so I left England and went to North America by boat; “”

It’s just that my family didn’t adapt to the environment in North America at that time. There was no order in North America at that time. The white people there were busy staking land and enslaving black people every day. , and frantically massacred the aborigines there, and everywhere they went, there was blood and chaos, so the slave family went to Japan on a merchant ship after the Civil War began

; In the stage of rapid cultural impact and rapid integration, I wanted to see where Japan’s national situation would develop, so

I stayed in Japan for a while ; Come, seeing the rapid development of Europe after the Industrial Revolution and the rapid transformation of Japan after the Meiji Restoration, I really wanted to return to China and do my part for China. So I went to Hong Kong Island from Japan, and I will do my best to join Xinghua Club;”

charlie Wade was so shocked that he couldn’t speak.

I thought that Lin Wan'er (Alani) might have been living in an inaccessible place for so many years of fleeing to avoid being hunted down, but I didn't expect that she has been walking on the cusp of the whole world.

Even in the process of escaping, she herself wanted to do her part for Huaxia, which is highly consistent with Aasif, and she really is a tiger father without a dog daughter.

At this time, Lin Wan'er (Alani) continued, "The Nu family just arrived in Hong Kong Island, and through some previous relationships, they got in touch with the Xinghua Society, but when the Nu family was about to meet them, they were ambushed by the dead men from the Qing Society, and they narrowly escaped death." Just escaped from the tiger's mouth;"

charlie Wade asked her, "Someone leaked the secret at that time?"

"Yes." Lin Wan'er (Alani) nodded, and said with emotion, "The slave family didn't know at the time that Sara's people had already begun to infiltrate Xinghuahui." Said

, Lin Wan'er (Alani) continued, "After that narrow escape, the slave family realized that Sara had already begun to infiltrate and deploy from Asia to all over the world, so he went to the relatively backward South America;" "On the eve of the First World War, the slave

family Hearing that Xuanton had abdicated, he was so excited that he could not close his eyes for three days, so he ventured back to Huaxia; ""

After living in Eastcliff for a period of time, my family traveled to the north for a period of time until Japan launched the 9.18 Incident in the Northeast; "

After September 18, the Nu family felt that the situation in the north had changed suddenly, so they returned to Eastcliff again;" "

After the July 7 Incident in 1937, Japanese fascists invaded China in an all-round way. There were still some children who needed to be taken care of during the war, and they couldn't take them to escape the war in the country, so they had to take them to the United States and didn't leave until after the end of World War II;" charlie Wade asked in surprise, "You have been running away all the time

. , How can there be some children to take care of?

Lin Wan'er (Alani) said seriously, "The slave family fled and traveled all over the world. It was really hard for one person. Sometimes I accidentally broke my leg, and there was no one who could give me a sip of water. So later, the slave family began to adopt some people who were taken in by others." Abandoned abandoned babies and displaced orphans, the slave family will keep them by their side to raise them, teach them to read and study

; Not good, before the slave family leaves the local area, they will also leave some money for them and find suitable people to entrust them

; The secret of their slave's immortality, after all, the slave's family raised them from childhood, even if the slave's family doesn't tell them, they will be suspicious because the slave's appearance remains unchanged; A lot of wealth and a lot of property have been accumulated around the world, so when these children who have passed the test, when they become adults, the slave family will give them some wealth and opportunities, and even entrust them with some businesses. Over time, it can be regarded as blooming everywhere.

charlie Wade asked in amazement, "Are they all your adopted sons and daughters?" "

" Not counting. "Lin Wan'er (Alani) shook her head and said, "I don't want to be too sad when they die, so I never forget to establish a clear sense of boundary with them. They have been called Miss Nu since they were young, and some people have been called Miss Nu since they can talk, and when they arrive At the dying age, she is still called Miss Nujia. "

charlie Wade was surprised and couldn't help asking her, "At that time in Northern Europe, you were accompanied by an old man. You called him Grandpa in front of me, but he was actually an orphan raised by you, right?" Lin Wan'er (Alani) smiled slightly

. "The old man you are talking about is Lao Zhang. He is the last abandoned baby adopted by my family in Eastcliff after the July 7th Incident and before leaving for the United States." After a pause,

Lin Wan'er (Alani) continued, "In fact, most of these children, after the age of 20, they will set up their own businesses with the help of the slave family.

Some assets are said to be entrusted to them to take care of them, but in fact it is equivalent to a gift from the slave family. I don't know how much wealth is given away; “

“Only a very small number of children like Lao Zhang, who have a deep relationship with the slave family and are willing to stay with the slave family, will always be taken by the slave family. After all, the slave family is a girl and has no means of self-defense. , when fleeing around, you also need someone to take care of you;”

“In addition to Lao Zhang, there is also an American girl born in 1942 who has been following the slave family. But she died of cancer a few years ago.” “

The owner of this house was adopted by the slave family before the July 7th Incident, when he was still a baby, and the slave family later took him to the United States, where he was admitted to the After graduating from Yale University, I let him go to Southeast Asia to take over some of my businesses there. Over the years, he has managed well and has become the richest man in the area

; Sun, was also adopted by the Nu family before the July 7th Incident. He had been studying in the United States before, and came back to build the motherland in 1963, and he developed very well in the following years.” Speaking of this, Lin Wan'er paused slightly, and said, “The Nu

family After arriving in the United States, I also adopted several orphans in the United States. However, after the end of World War II, technology became more and more advanced, and the strength of the Qing Dynasty became stronger. The slave family became more cautious, and moved to some island countries in the South Pacific and Indian Ocean. For decades, I didn't dare to continue to adopt. A few years ago, I went to Northern Europe again, and finally met the son in Northern Europe...”

charlie Wade listened to Lin Wan'er (Alani)'s narration silently, and his heart was already filled with turmoil.

Lin Wan'er (Alani) understated the experience of more than three hundred years, but in this understatement, I don't know how many thousands of miles of journeys and hardships are included, and I don't know how many times of great changes in the world are included.

Thinking about her past three hundred years, it must have been extremely bumpy and full of tribulations.

After Lin Wan'er (Alani) finished speaking, seeing Charlie Wade remained silent for a long time, she smiled and asked, "Master, you know that my family has lived for so long, are you envious?" Charlie Wade looked at her, shook his head slightly, and said from the bottom of his

heart "I'm not envious, I even feel a little distressed..."

"Painful?" Lin Wan'er (Alani) was startled, and subconsciously asked, "Does the young master feel sorry for my family?"

"Yes..." Charlie Wade looked at her and nodded slightly.

Lin Wan'er (Alani)'s eyes became hot, she quickly turned her face away, and said with a forced smile, "What's so distressing about my family, if the story of my family is told to outsiders, I don't know how many people will envy them to death..." Even though it is said so,

even she looked up at the ceiling, but tears still came out of her eyes uncontrollably and flowed down her cheeks.

Lin Wan'er (Alani) wiped away her tears in a hurry, with tears in her eyes, but she smiled and asked Charlie Wade, "By the way, why do you feel sorry for my slave?" Charlie Wade said with emotion, "Although I have not lived forever, when I think that

I may live to be two hundred years old, I was already terrified, and now I heard you say that you, a little girl, have lived alone in this changing world for nearly four hundred years, and it was the most turbulent four hundred years in human society. How much pain and suffering, it really hurts to think about it..."

## **The Amazing Son In Law Chapter 5922 -**

At this moment, Lin Wan'er (Alani) looked at Charlie Wade, and just wanted to cry in front of him.

For more than three hundred years, she has never been happy and happy for her longevity. On the contrary, she has long been tired of this kind of hiding.

In the past three hundred years, she had thought of ending her life countless times, but when she thought of her father's own life in exchange for her own longevity, she had no choice but to give up the idea of suicide.

After all, she knew in her heart that before her father died, her greatest wish was to keep herself alive.

He hoped that his precious daughter would live a long life, even a hundred years was not enough, five hundred years would be the best.

But his own life was always fixed at the age of forty-one.

Because of this, Lin Wan'er (Alani) gritted her teeth and persevered on the verge of collapse countless times.

However, her heart has already been tortured and devastated by immortality.

charlie Wade really felt sorry for the little girl in front of him, even though she was really almost four hundred years old.

At this moment, Lin Wan'er (Alani) sighed, and with red eyes choked up, "My family, thank you for your love..."

After finishing speaking, Lin Wan'er (Alani) said again, "My family has investigated your past, and I know that you have a deep hatred with Po Qinghui ( Benn ). Starting today, the slave family is willing to do their best to help the son kill Sara, and by then, the slave family will be able to end the three hundred years of fugitive life and live a normal life..." charlie Wade nodded lightly and said

firmly "Don't worry, Ms. Alani, I will kill my parents if I break the law, and I have repeatedly tried to kill my grandparents and the whole family. I will definitely let Sara pay for this revenge!" After saying that, charlie Wade said a little dejectedly, "It's just that

this Sara's strength is sure to come true." Very powerful, among other things, when Willie blew himself up, he scolded the hero for being cruel, thinking that the powerful energy he blew up was all the means left by the hero, In this alone, I am far beyond my reach, not to mention that she has lived more than three hundred years longer than me, and has much more experience than me in all aspects. I am not sure whether I can beat her..." Lin Wan'er (Alani)

comforted Said, “Young Master, don’t be depressed. Although Sara has lived more than three hundred years longer than Young Master, she definitely doesn’t have such a chance as Young Master;

” Entering the sea, looking at it this way, the young master must be ordered by Long Ge, which Sara will not be able to catch up with

if he lives for another thousand years; “

charlie Wade sighed, “Then I don’t know how many years later...”

Lin Wan’er (Alani) looked at charlie Wade, and said solemnly, “No matter how many years it takes, the slave family believes that the son will be able to kill the enemy with one hand, and the only wish of the slave family is to be able to kill the enemy in his lifetime. See that day come for yourself! “

charlie Wade raised his right hand with some difficulty, looked at the ring on his finger, and said with a self-deprecating smile, “If Sara doesn’t get this ring, then she only has a hundred years to live. , if I can’t kill her, she will die of old age...”

Lin Wan’er (Alani) laughed and said, “My lord, there is no need for too much pressure. It is not unacceptable for Sara to die of old age. After all, whoever lives the longest is the real winner.

charlie Wade shook his head, and said with a bright gaze, “No way! ” If Sara were allowed to die of old age naturally, it would be too cheap for her! I must kill her with my own hands! “

As he spoke, he suddenly remembered something, and blurted out, “By the way, when Willie blew himself up just now, I saw a woman hiding nearby. The woman had been hiding before, but at the last moment her aura was exposed. A monk, maybe another earl of the Qing Society, and she is ten feet away from the center of the explosion, so maybe she is still alive! “
