

The Amazing Son In Law Chapter 5991 -

charlie originally planned to go to Zijin Villa to meet Lin Wan'er (Alani) after having dinner with his grandparents, so he was not in a hurry to ask Lin Wan'er (Alani) about the details of Shenglong's fate.

Deep down in his heart, he was still in shock at what happened to his parents.

When he heard from his uncle that his parents had studied something similar to the prologue of the Nine Xuantian Jing more than 20 years ago, charlie felt that his understanding of his parents had changed drastically.

He never thought that his parents would also be deeply involved in cultivation.

What's more, they didn't expect their parents to have obtained the prologue of "Nine Xuantian Jing" more than 20 years ago.

For charlie, the impact was comparable to a nuclear bomb explosion!

My father got the prologue of "Nine Mysteries of Heaven" by accident, that is, "Preface to Nine Mysteries of Heaven", but I bypassed this prologue, and got "Nine Mysteries of Heaven" by accident in Jiqingtang twenty years later ...

Is there really such a coincidence in the world?

If these two books are not a coincidence, is there some inevitable connection?

Thinking of this, while charlie was shocked, he couldn't help but feel a chill down his back.

So many years after my parents passed away, I happened to walk on the road that they didn't finish. Could it be that God arranged this way to let me inherit the legacy of my parents?

But if this is really the case, then why didn't my parents mention a word to me back then?

As for the doubts, he couldn't help asking Asher, "Uncle, did my parents say that they messed with someone or what organization?"

Asher said, "A year before your mother passed away, once she brought you When I went back to the United States to visit your grandparents, she once

told me that she and your dad offended a very old organization because of exploring a very important matter.” charlie asked quickly, “What is the name of this organization?

“

Before Asher could answer, the old man An Qishan said, “charlie, your mother said back then that the organization she and your father offended was called the Poqinghui. The organizations that have been established at the end and have been developed to modern times are very powerful;” “

However, I didn’t take it too seriously at that time, because the Qinggang and Hongmen, these organizations have a history of hundreds of years, but they are only famous. It’s just a little older, and I don’t have any hard power that can really be shown. Moreover, your mother said at the time that the leader of this organization may have lived for more than 300 years. I think this is nonsense and I don’t take it seriously. Come on...”

At this point, the old man said regretfully, “If I had taken what your mother said seriously at the time, maybe the situation would have been different...”

Asher couldn’t help sighing, “Yes... At that time, we didn’t take my sister’s words seriously. We always felt that she might be following her brother-in-law to study those things, and she was a little crazy. It came true.”

charlie saw that the old man looked very remorseful, and most of the previous complaints were relieved in an instant, so he comforted him and said, “Grandpa, you don’t need to blame yourself, in order to break the strength of the Qinghui, if the entire Anjia If it is involved, it is possible to suffer disaster more than 20 years ago. The strength of the Icebreaker Association is far beyond your imagination. It is easy for them to deal with Anjia.

The Amazing Son In Law Chapter 5992 -

” I have already experienced it when I was in New York. I really didn’t expect that they would spend so long installing an undercover agent beside us. What’s even more frightening is that her acquaintance, love, marriage, and childbirth with your third uncle, everything Everything is so logical, and there is no flaw at all. When I think about it now, I still get chills. Who would spend such a long time planning a conspiracy? Besides, they have already With our hands and eyes open to the sky, how can we settle down and be remembered by them for so long.”

charlie said seriously, "I don't understand this matter either. With their strength, if they want to kill all the people in the An family, they can easily do it by sending out one or two real masters. But in the past 20 years, They haven't done anything for twenty years, and I don't understand why they suddenly attacked the An family recently."

charlie's second uncle Homula said at this time, "Could it be that the An family has something they've been thinking about?" What do you want to get?"

The old man asked back, "If so, what would it be?"

Homula shook his head, and said helplessly, "Dad, I didn't even think about what it was, but I just proposed a possibility, let everyone see if there is any. The clues can be added."

The old man frowned, thought for a long time, and said, "When my condition deteriorated, I can't remember what happened after your sister died, but the memories of the years before your sister died are in my memory. But it became clearer in my mind, so I carefully recalled every detail of my meeting with your sister from the time your sister followed your brother-in-law to China to the few years before your sister passed away. ..."

"In those years, your sister basically lived in Huaxia, but she brought charlie back to visit relatives every year during the holidays. During this period, your sister didn't tell us anything strange, and she didn't entrust us with any advice. She kept things in custody until she returned to the United States for the last time one year before her death. She only told us about the situation of the Qing Dynasty. But she didn't give us anything..." "So what I don't understand is that

, The Poqing Society has been watching us for twenty years, what exactly are they watching?"

charlie's third uncle, Olin, had been silent for a while, and then asked with some doubts, "Dad, could it be that they thought my sister would give us something?" What to leave behind, and it took them twenty years to finally confirm that my sister didn't leave us anything useful to them, so they became angry and wanted to kill us." An Qishan thought for a while, and

said "The things you said are theoretically tenable, but I don't think they should be so stupid. They are so powerful, how could it take twenty years to confirm such a small matter?"

“According to charlie, there is a huge disparity between their strength and ours. They have been observing us secretly for 20 years, just like squatting on the ground with nothing to do, staring at an ant for 20 years, just to pass the time. The time is the same, completely illogical, so there must be a motive behind this that can match the twenty years of time and energy they have invested.” Olin nodded lightly, and said, “

Dad, what you said makes sense... “

An Qishan looked at Li Yalin and said, “Yalin, you are a famous Chinese detective. What do you think about this matter?”

Li Yalin said, “From my experience in solving cases for so many years, the bigger the case, the more time is needed to do preliminary preparations, just like the analogy you just made, Uncle An, the possibility of a person staring at ants for 20 years just to pass the time is very slim. If he really studied ants for 20 years, then His purpose is probably to study a method to completely exterminate the ants, so I agree with you, they must have a great motive.” After speaking, Li Yalin said again, “As for why they are attacking

Anjia now, I will I think there are two possibilities, one is according to their plan, that is to do it now to achieve their real purpose, and the other is that they didn’t think to do it now, because of other reasons, they are forced They started ahead of time.”

charlie pondered for a moment, and asked Asher, “Uncle, have you read the “Nine Mysteries”?”

Asher shook his head and said, “I was not interested in these things at all, so I didn’t pay attention.”

The Amazing Son In Law Chapter 5993 -

charlie asked again, “Then do you know where this book went?”

“I don’t know...” Asher continued to shake his head, “After your parents studied that book, they went to Huaxia, I know why, and I don’t know exactly where the book went.”

charlie nodded, it seems that his parents left the United States and returned to China, which was not what he thought before.

Before, because in Charlie's memory, his grandfather was relatively indifferent to his father, he always thought that his parents were all kinds of pressure from his grandfather, so he resolutely returned to Eastcliff, laying the groundwork for his future murder.

But now it seems that they should have obtained the "Preface to the Nine Mysteries" by accident in the United States. After studying this book, the two made the decision to return to China, and their real motivation for returning to China should be to explore "Nine Profound Scriptures". The mystery of the Preface to the Nine Profound Sutras.

The secret of longevity mentioned by Uncle Willie before his death may be related to the clues drawn from the Preface to the Nine Profound Scriptures.

Thinking of this, Charlie suddenly thought of a detail, so he asked An Qishan, "By the way, Grandpa, before my parents left Eastcliff for Aurous Hill, they had a lot of trouble with the Wade family. It is said that it was because of the relationship with the Rothschild family. There has been some conflict, have you heard of this matter?" "

Yes." An Qishan said, "Your father did have some troubles with the Rothschild family back then, and the widely rumored version is that the Rothschild family wanted to take root in China, to expand interests in China, so he has been fighting openly and secretly with the major families in China. At that time, your father gathered many families to declare war on the Rothschild family. After fighting with the Rothschild family for a few rounds, the Ross The Childe family withdrew from Huaxia, and at the same time held a grudge against your father."

Charlie frowned and said, "You said it was the version widely rumored by the outside world, but what about the actual situation?"

An Qishan smacked his lips and said, "The actual situation is very subtle, as far as I know, the Rothschild family didn't want to target those big Chinese families at first. They originally wanted to form joint ventures with domestic families in several hot fields, and even took the initiative to show their favor to your father. As a result..." "

Speaking of this, An Qishan sighed, and said helplessly, "As a result, your father gave them a financial intrusion label as soon as he came up, and then relied on his own influence to gather a lot of financial and material resources to give them a big blow." Later, the person in charge of the Asia-Pacific region

of the Rothschild family took the initiative to visit him in Eastcliff, but he didn't say anything, and was slapped by your father, and finally came out of your father's office, covering his face After leaving Eastcliff Airport, I flew directly back to the United States to complain to the person in charge of the Rothschild family.”

charlie was dumbfounded, and blurted out, “If the negotiation is not good, the other party will be slapped in the face. This should not be my father's style of behavior, right? “

An Qishan nodded, “It's really not your father's style, but the slap was indeed slapped by your father himself.”

charlie was even more confused, and murmured, “In my impression, my dad is still a very gentleman, how could he fight with him?” Everyone was also confused, and

An Qishan smacked his lips and said, “At that time, the head of the Rothschild family , all the complaint calls have come to me, and I can't figure it out, why did your father do this.”

Li Yalin asked curiously at this time, “Uncle An, you said that bruce slapped the head of the Rothschild family's Asia-Pacific region. What year was the slap in the face?”

An Qishan thought for a while, and said, “It must have been a few months before their accident, and bruce was kicked out of the house by the Wade family because of this incident.”

Li Yalin said suddenly “Did he do this to annoy the Rothschild family on purpose, deliberately create opportunities for himself, and let himself be kicked out by the Wade family? I think he may have sensed the danger at that time, and deliberately used this method to talk to the Wade family.” Draw the line!”
