

The Amazing Son In Law Chapter 6036

When Lin Wan'er (Alani) returned to Shuanglang after more than three hundred years, the place had long since lost its original appearance.

Although Erhai is still the same Erhai, the development of hundreds of years has greatly changed the appearance of Erhai's waters from more than 300 years ago.

Standing on the lively and bustling Shuanglang Street, Lin Wan'er (Alani) could no longer match the memory in her mind with the reality.

Fortunately, the changes in the mountains are not that great. Rao, several mountains have been mined before, but the changes to the landscape are not that big.

According to Lin Wan'er (Alani)'s identification, her father's tomb is located in the northeast direction of the current Shuanglang Township, over the first mountain peak that has been mined for less than a half, and the mountain behind it that looks like a turtle's back is there.

charlie Wade and Lin Waner left the car in the town, then put on the couple sneakers prepared by Lin Waner, and put on the couple models prepared by Lin Waner in advance. Hike towards the mountains.

When setting off, charlie Wade began to run his mind silently, and the aura fluctuations on his body were instantly reduced to the minimum. It seems that this mind is really effective.

The mountains near Shuanglang are not high, and the altitude difference between the peak and the ground is only a few hundred to more than a thousand meters. The difficulty of climbing is very small. In addition, the scenery along the way is beautiful and you can overlook the entire Erhai Lake, so this place has become a place now. Great trail for many young hikers.

On the way charlie Wade and Lin Wan'er (Alani) headed towards the mountain pass, they encountered many outdoor sports enthusiasts wearing hiking equipment one after another. When they reached the foot of the mountain and the road narrowed, more people went hiking.

Lin Wan'er (Alani) kept looking left and right, and when she approached the foot of the mountain, her expression was already a little excited.

When she saw the mountain pass going up the mountain, she whispered to Charlie Wade, "I went up the mountain from here more than three hundred years ago. At that time, there was a small road here, which was stepped on by the local people. I didn't expect that it would be here more than three hundred years later." The road is still there."

Charlie Wade smiled and said, "Mountain climbing is different from walking. Mountain climbing relies on the best route. Once the best route is found, as long as the mountain does not change, this route will not change."

"Yes." Lin Wan'er (Alani) nodded lightly, and said, "The route hasn't changed much, but the taste is no longer the same as before. Now there are traces of artificial repair everywhere, even the road has been specially hardened and steps have been repaired. There are also a lot more people than before, there were not many people here before, and the nearby mountains are the ancestral graves of the surrounding villagers, and those who walk up the mountain on this road are basically to worship their relatives." Charlie Wade looked around, smiled and said, "

Artificial Repairing also has the advantage of manual repairing. It seems that there are indeed a lot of people who enter the mountain on weekdays. There are surveillance everywhere, and there are many forest fire prevention surveillance. , when the time comes, we can ask Mr. Sun to think of a way to get a permission to view all monitoring information, maybe we can find Sara's trace."

Lin Wan'er (Alani) asked him, "If you can really lock Sara's trace here, then you How do you plan?"

Charlie Wade said confidently, "From here to the Hundred Thousand Mountains, there is still a thousand kilometers to go. For this thousand kilometers, it is impossible for Sara to walk, and it is naturally impossible for her to sneak into China by plane or train. The biggest possibility is to drive, as long as you can find her trace and lock the vehicle she is driving, you can basically capture her real-time dynamics." Then,

Charlie Wade said, "Nowadays road monitoring is everywhere, as long as you can walk There must be traffic cameras on the pavement of motor vehicles. I heard that the traffic department has big data. Most of their surveillance probes across the country can identify the license plate number of the vehicle. As long as you get their data, you can understand it in real time. The time and specific location of each car that appeared under the surveillance probe last

time. With this information, Sara's trajectory can be outlined in real time. Where did her car finally disappear? I'm afraid it's not far away."

Lin Wan'er (Alani) nodded and reminded, "Master, before Sara leaves Huaxia, you must not enter the Hundred Thousand Mountains. You are not her opponent yet, so you must avoid her sharp edge. "

charlie Wade smiled and said, "Don't worry, I'm not a reckless man, I still have this bit of self-knowledge."

Lin Wan'er (Alani) breathed a sigh of relief, "That's good..."

After the two climbed over the first mountain on foot, they climbed up the turtle-like mountain.

Because this is the second mountain on the hiking route, there are no fewer people here than the first mountain.

Lin Wan'er (Alani) introduced to charlie Wade, "This mountain is shaped like a turtle's back, and its name is Turtle Back Mountain. It is a rare geomantic treasure in the vicinity. When my grandfather was a chieftain, it took a lot of thought to choose this mountain as my ancestral grave. " charlie Wade asked curiously, "Is the whole mountain the ancestral grave of

your grandfather's lineage?"

One kind, the ancestral grave is chosen here, which can bless future generations with prosperity, wealth and wealth, but it is a pity that the dragon veins of the Ming Dynasty were destroyed and the fate of the country changed drastically. Implications, the original treasure land of geomantic omen also loses the effect of being a descendant of the shade."

As she spoke, Lin Wan'er (Alani) took charlie Wade's hand, and suddenly left the mountain road paved with stone steps, and took charlie Wade directly to the mountain road halfway up the mountain. A place of peace.

At this time, traces of camping can be seen everywhere on this flat open space. There are many tent holes on the ground, and the shapes of several tents can be seen. charlie Wade speculates that this place should have become an outdoor space. A camping base for enthusiasts.

Lin Wan'er (Alani) looked around and found a luxuriant Diannan pine not far away. She was overjoyed and said to Charlie Wade, "My lord, that Diannan pine is my grandfather's ancestral grave, my father's tomb." , at the northwest corner of the Diannan pine."

Charlie Wade looked around, but there was no grave near the huge Diannan pine, so he asked Lin Wan'er (Alani), "Did your grandfather leave no stone monument? "

Lin Wan'er (Alani) said quietly, "Originally there were tombstones, and I carved one for my parents, but later it was said that all the tombstones of my grandfather's family were smashed into powder by force, and even my parents' graves were dug up. Well, it should be Sara who did it, she hated my parents to the bone, so it is not surprising that they dug up their graves."

As she spoke, Lin Wan'er (Alani) continued, "I speculate that she must have dug up my parents' tomb out of anger and found that the bones were gone, so she must have known that she had been tricked by me, so she vented her dissatisfaction with other members of my grandfather's family. "

Charlie Wade couldn't help sighing, "This woman is so temperamental. She obviously hurt your father seriously. It stands to reason that your father should hate her, but she still insisted on it." Lin Wan'er (Alani) said, "

Sara is very grudge, she I'm afraid part of the reason for coming to South Yunnan this time is because I hate me to the bone, so I want to vent my dissatisfaction here." As she

spoke, she couldn't help sighing, "I don't know if she will show mercy to this tree."

Charlie Wade looked around, couldn't help pointing to the top of the mountain, he sighed, "Look, Miss Lin, if I can hide a few close-in defense guns on those boulders, wouldn't I be able to solve Sara once and for all?"
