

The Amazing Son In Law Chapter 6111 -

After Sara's special plane arrived at Yongzhou Airport, it was ready to fly directly to Australia without much preparation.

According to the flight plan, they will fly to Buenos Aires in one go after refueling in Australia as they did when they came.

When Sara's plane was taxiing to take off from the right runway of Yongzhou Airport, Charlie Wade and Lin Wan'er (Alani)'s private plane landed on another runway of Yongzhou Airport.

A Mercedes-Benz off-road vehicle has been parked in the airport parking lot. Charlie Wade and Lin Wan'er (Alani) went straight to the parking lot after leaving the airport. After finding the off-road vehicle, Charlie Wade touched a car from the inside of the left front wheel. Key.

Afterwards, he unlocked the door with the key, got into the car with Lin Wan'er (Alani), and drove straight towards Shiwan Dashan.

Lin Wan'er (Alani), who was in the co-pilot, was always a little uneasy. She felt that Sara left Shiwan Dashan in a hurry, which proved that Shiwan Dashan must have risks that neither she nor Charlie Wade had encountered.

However, Lin Wan'er did not persuade Charlie Wade to give up.

Because Lin Wan'er (Alani) knew very well that ever since Charlie Wade met his grandparents, he had always wanted to know what his parents discovered and experienced back then, and what was the inevitability of his obtaining the Nine Profound Heavenly Scripture later. Connect.

Therefore, for Lin Wan'er (Alani) herself, since Charlie Wade wanted to find out, she would accompany him without hesitation.

At this time, Charlie Wade was somewhat worried.

However, the relationship between parents and the secret of longevity and the Nine Profound Scriptures is the key that he has always wanted to explore, and he can't wait to figure out everything hidden in it.

And the Hundred Thousand Mountains is very likely to be the source of all this.

Therefore, even if it is dangerous, he must go to Shiwan Dashan to find out.

Sara came to Shiwandashan by car yesterday, and the car disappeared when she left, and there was no video record of the car leaving the high speed, so charlie Wade deduced that she was probably at a certain node on that section of the expressway, The car is stashed while the person leaves the highway from that node.

Therefore, charlie Wade's plan is to drive to the section of the highway where Sara disappeared first, to see if he can find the trace left by Sara.

When approaching the section of the highway where Sara disappeared, charlie Wade began to release aura to sense the surroundings, especially the valley under the viaduct.

A car weighing two to three tons cannot disappear out of thin air. The most likely possibility is to hide in a valley.

After passing through countless tunnels, charlie Wade suddenly slowed down the speed of the car, he leaned the car on the emergency lane after exiting the expressway, pointed to the reverse lane opposite, and said to Lin Wan'er (Alani), "Sara should have gone down there. Lin

Wan'er asked curiously, "How does your master know?"

charlie Wade said, "Her car is below."

Lin Wan'er (Alani) was slightly startled, and said, "Did she jump from here?"

charlie Wade nodded, "It should be the car first." Throw it down, and then people will jump down again."

Lin Wan'er (Alani) hurriedly asked, "Sir, should I jump from here too..."

charlie Wade smiled and said, "No, otherwise, you drive out of the highway at the next exit. Wait for me in the town, I'll go down here."

"No..." Lin Wan'er (Alani) grabbed charlie Wade's hand subconsciously, and said nervously, "I want to be with you!"

The Amazing Son In Law Chapter 6112 -

charlie Wade smiled helplessly, opened the map on the central control, pointing at the two people. The location, and the location of the town where Sara appeared again, said to Lin Wan'er (Alani), "Now I only know that Sara went down from here, and then appeared from the town, but the actual place where Sara went is still uncertain. If she goes to If the place is closer to these two ends, it's okay to say; if it's farther away, then her route is likely to be an acute angle with a long side, and the area to be searched will become very large. If you really follow me Go on, I'm afraid you won't be able to bear it."

Lin Wan'er (Alani) said firmly, "I'm going! It's just that the hardworking young master may need to take care of the slave family and accommodate the slave family a little bit, but the slave family still wants to be with the young master..." Lin Wan'er (Alani)

sipped mouth, said in a low voice, "I'm afraid that if the old master is still alive, the young master will disturb him to clean up, and it will cause disaster. Although the slave family has never met the master, but if we do meet, the slave family can still use my father." The relationship is close to that of his old man..." charlie Wade was silent for a moment, looked at her and asked, "Do you think Meng Changsheng (Willie the 1st) is still alive?"

Probability, the probability of being alive and dying, is about 19 to 28 at most;"

Speaking of this, Lin Wan'er (Alani) said in a very serious tone, "But now I feel that the possibility of Master living and dying is about seventy-three, or even eighth." Two."

charlie Wade asked in surprise, "Why do you believe that he is still alive now?"

Lin Wan'er (Alani) said, "Because my family has watched all the surveillance videos at the airport, watching Sara arrive at the airport, go through security checks, and pass customs, and then watch As she waited and boarded the plane, Sara in the camera had a flustered expression all the time. It was obvious that she must be terrified. From the perspective of the slave family, there should be no one in this world who can make Sara so afraid, except for her master. There is a second person."

charlie Wade frowned, and said, "Although Sara left in a panic, at least he was able to retreat. If Meng Changsheng (Willie the 1st) is still alive, how can

Meng Changsheng (Willie the 1st) come to Sara this time?" Let her retreat completely?"

Speaking, charlie Wade said again, "Besides, whether it is from you or from the descendants of Meng Changsheng (Willie the 1st)'s earliest named disciple, his life can be confirmed. He was born in 664 AD and died in 1663. Thousand years;"

"If he is still alive now, doesn't that mean that he found a way to make Yangshou break through a thousand years more than three hundred years ago?" "

If that's the case, his current strength may have already reached perfection People can reach him, Sara sent him so many people, and he was able to form a huge Qing Dynasty, how could he be willing to hide in a hundred thousand mountains?" Lin Wan'er (Alani) said with a worried face, "I can't figure out what the young master said

. , Many of these things, the slave family can't figure it out, so the slave family is worried."

Lin Wan'er (Alani) thought of something, looked at charlie Wade, and said nervously, "Master, think about the mother of Pucha. More than three hundred years ago, the slave family was in the I watched her fail in the tribulation by Tianchi. For more than 300 years, the slave family has firmly believed that she has disappeared, but who would have thought that she could leave a glimmer of life for herself, and then find her after more than 300 years. Opportunity to be reborn?"

charlie Wade's complexion sank, and he asked in surprise, "You mean, Meng Changsheng (Willie the 1st) might also be looking for such an opportunity?"

Lin Wan'er (Alani) said seriously, "I'm not sure, but I think that since Pucha If your mother can do it, maybe your master can do it too. My son, don't underestimate people's desire to survive. The older a person is, the stronger the desire to survive. A person who has lived for a thousand years must have an unimaginable desire to survive. In order to survive, I don't know what kind of efforts he will make..."
