Matilda said without hesitation: "That must be Lydia (Ava) (Charlie's mom) from the An family. She is about the same age as us. When we were still expanding our customer base bit by bit, she was already an angel investor for half of the Silicon Valley companies. Many of her classic cases are textbook examples in business schools. It's not just talk that she is the female version of Buffett."

Matilda said, "Lydia (Ava) (Charlie's mom) should be your schoolmate, right? I remember you mentioned her when we were chatting before."

"Yes." hank said with emotion: "Lydia (Ava) (Charlie's mom) is my classmate and the idol of our generation."

Matilda asked in surprise: "Aren't we talking about charlie Wade's investment in the automotive industry? How did we get to Lydia (Ava) (Charlie's mom)?"

hank looked at Matilda and said very seriously: "Wife, I want to tell you a secret, but you have to promise me that you can't tell this secret to anyone except Paul."

Matilda nodded without hesitation and said: "Don't worry, since it's a secret, I won't even tell Paul."

hank said: "In fact, Paul also needs to know. After all, we have obtained a marriage certificate. From a legal point of view, he is my stepson and we are a family." Matilda

nodded and said: "Since you want to share the secret, it is up to you to tell or not tell anyone."

hank nodded slightly and said to Matilda: "Aren't you curious why charlie Wade can afford to invest in a new energy vehicle company worth hundreds of billions? That's because charlie Wade is Lydia (Ava) (Charlie's mom)'s son."

"What did you say?" Matilda's eyes widened, and she said in shock: "charlie Wade is Lydia (Ava) (Charlie's mom)'s son?! Old He, wait a moment, the charlie Wade you are talking about is the charlie Wade who just sent you back, Chang Kun's son-in-law charlie Wade, right?"

hank nodded and said: “Yes, it’s him!”

Matilda continued to ask: “This charlie Wade, is he the son of Lydia (Ava) (Charlie’s mom)? The grandson of the An

family?!” hank nodded again, and said: “He is not only the grandson of the An family, but also the current head of the Wade family in Eastcliff. You have lived in the United States for many years, and you may have only heard of his mother Lydia (Ava) (Charlie’s mom)’s name, but you don’t know his father. His father was bruce Wade, who was very famous in China back then.”

“bruce Wade...” Matilda exclaimed: “Is he the bruce Wade who dared to challenge the Rothschild family, and had a back-and-forth with the Rothschild family and never lost the upper hand?!”

hank said very confidently: “Yes, it’s him! The charlie Wade you know, the charlie Wade who just sent me back, Jacob’s son-in-law charlie Wade, is the only son of bruce Wade and Lydia (Ava) (Charlie’s mom). Not only the Wade family belongs to charlie Wade, but also the Dihao Group in Aurous Hill belongs to charlie Wade.”

Matilda was almost dizzy, and asked subconsciously: “The Dihao Group also belongs to charlie Wade ? ! This is the largest local enterprise in Aurous Hill!”

hank smiled and said, “It’s not just the Dihao Group. You know, Yisu Shipping where Ziva Hank works is now one of the largest shipping companies in the world. In the past one or two years, shipping prices have risen sharply, and Yisu Shipping’s profits are frighteningly high. On the surface, this company seems to be a joint venture between the Banks family and the Ito family, but in fact, charlie Wade is the real major shareholder behind the scenes.”

Matilda rubbed his temples and sighed, “My God... This... This is too exaggerated...”

“It’s very exaggerated.” hank smiled and continued, “Oh, by the way, you should have heard of the Wanlong Palace that is now providing armed escort for Yisu Shipping, right?”

Matilda looked at him and asked tentatively, “Are you going to tell me that Wanlong Palace also belongs to charlie Wade?”

Facing Matilda's question, hank nodded gently: "Wanlong Hall is also his."

"Oh my God..." Matilda murmured: "This... this news is really shocking... Lydia (Ava) (Charlie's mom)'s son, An's grandson, wade's grandson, is actually charlie Wade..."

At this point, she asked puzzledly: "charlie Wade has such a strong background, why did he settle in Aurous Hill... Why... Why did he marry into Jacob's family? Does Jacob know his identity?"

"Of course he doesn't know." hank said: "The reason why charlie Wade married into Jacob's family in Aurous Hill is that he had no choice. His identity is still very sensitive now, so I asked you not to tell anyone except Paul, and this is under the premise that Paul can keep the secret and not tell anyone else. If you are not sure that Paul can keep the secret, then don't even tell Paul." Matilda is very smart.

She almost immediately thought of the crux of the problem and asked hank: "The reason why charlie Wade wants to hide his identity should be related to the murder of his parents back then, right?"

"Yes." hank said: "He has his revenge plan. My ability is limited and I can't help him with this issue, so I didn't ask in detail."

"I see." Matilda nodded heavily and said: "Don't worry, I will keep it a secret."

Then she asked: "You said you wanted to resign just now. Could it be that charlie Wade and the An family invested in car manufacturing and need your help?"

"Yes." hank said apologetically: "I should have asked you for permission before agreeing to them, but this opportunity is really rare. I really can't find any reason to refuse, or even hesitate..."

Having said that, hank said again: "charlie Wade and the An family have very strong financial strength, and they are wholeheartedly trying to do this well and build a local automobile company that can truly be famous all over the world. If this company can be established, it can at least contribute hundreds of thousands of high-quality jobs to China and vigorously promote the

development of Aurous Hill. I also want to be a part of this project and contribute to the development of China.”

After that, she was silent for a moment, and asked hank: “Do you think I can do it?”

hank said without hesitation: “I think you have absolutely no problem!”

Matilda sighed and said: “We all went to study abroad when we were young, and did not choose to come back to build the motherland when we were young, but stayed abroad. Thirty years have passed, and we have returned to China at the same time, hoping to do our best for the development of the motherland. Now there is such a good opportunity, I naturally should not refuse.”

At this point, Matilda said: “It’s just that many large companies have policies to avoid relatives. Not to mention legal couples, many companies require that if employees fall in love internally, one of them must resign. What’s more, we have obtained a marriage certificate and are legally married. If we are in the same company, would it be inappropriate? Moreover, once we set this precedent, it will be difficult to manage the company in the future. Ask the people below to implement the requirement of family avoidance. Since you are going to be the CEO in the future, you should think about this issue clearly. “

hank said: “Many companies require family avoidance. The main reason is to avoid mutual connection and grabbing corporate interests. Although this has a certain preventive effect, it is also a double-edged sword. It will make people feel that the company is too inhumane and stifle the natural emotions of employees. “

hank continued: “Besides, we are different from those Internet companies. The main force of our future employees is the production end. Most of them do not have core production materials and core resources, but they spend most of their time between factories and dormitories. In this case, there is no negative impact on the existence of family relations. “

Matilda smiled and said: "Such a good opportunity, I don't want to miss it just like you. If Charlie Wade has no problem, you have no problem, then I have no problem. "

"Great!" Hank said excitedly: "I will reply to Charlie Wade right away!"

At this time, Charlie Wade was on his way home. He was particularly happy to hear Professor He personally say that Matilda agreed to serve as the legal director.

Both Hank and Matilda are professional talents who have been working in a field for decades. With their joining, Bruce Automobile will definitely bring great help.

At this moment, at the edge of Antarctica, Jadiel, the heir of the Wu family, quickly came to Sara's room. He knocked on the door carefully and said respectfully, "My Lord, I have something important to report!"

Sara did not speak, but the heavy wooden door slowly opened with an invisible force.

Jadiel walked in and saw Sara sitting cross-legged on the floor of the huge front hall, circulating her spiritual energy.

At this time, Sara did not open her eyes, and slowly asked him: "What's the matter? Tell me."

Jadiel hurriedly said: "My Lord, there is news from China that the An family wants to cooperate with the Wade family to invest in new energy vehicles."

Sara slowly opened her eyes and said lightly: "What's the big deal?"

Jadiel hurriedly explained: "My Lord, I am not making a fuss, but I think it's quite sudden that the two families suddenly announced their cooperation, so I came to report to you as soon as possible."

Sara said: "I tried to kill the An family several times but failed. The An family dare not return to the United States now. They decided to invest heavily in China to seek protection from China. I think they will definitely regard China as

a new direction for future development. Didn't they invest in many projects in one go some time ago? It's not strange to cooperate with the Wade family now. After all, in China, the Wade family can be regarded as the host. For their own development in China, the An family will definitely show goodwill to them."

Jadiel nodded and said: "My Lord, the An family has returned to China, so will we not take action against them?"

Sara said coldly: "We will have to take action sooner or later, but we can't do it now. They are now the largest source of foreign investment for China. If we touch them on Chinese territory, wouldn't we offend China to death? The reason why I want to kill them is nothing more than to force Lydia (Ava) (Charlie's mom) to show up so as not to get into trouble. If we become the public enemy of China, China will never let us go!"

The Amazing Son In Law Chapter 6810

Sara has been talking about the conspiracy theory of Lydia (Ava) (Charlie's mom)'s body double for twenty years.

Although Jadiel confirmed through multiple investigations that the woman who was killed with Bruce Wade that day was Lydia (Ava) (Charlie's mom) herself, regardless of age, body shape, and bone characteristics.

But Sara just didn't believe it.

She always felt that the disappearance of Bruce Wade and Lydia (Ava) (Charlie's mom)'s son indicated that Bruce Wade had been prepared.

And Bruce Wade would never save his son but not his wife. In addition, Lydia (Ava) (Charlie's mom)'s body could no longer be recognized, so she felt that something was fishy. In

the past twenty years, Sara has been keeping a close eye on the An family, and even planted two carefully selected "scholars" in the An family at once, just to find an opportunity to find out whether Lydia (Ava) (Charlie's mom) was faking his death or whether he had escaped.

Unfortunately, these two "scholars" have now been completely killed, and she no longer has any spies in the An family.

At this time, Jadiel still didn't quite believe the assumption that Lydia (Ava) (Charlie's mom) was not dead.

He said to Sara respectfully, "Lord Ying, I think Lydia (Ava) (Charlie's mom) should have died at the hands of Earl Changsheng long ago. Otherwise, if she is still alive, it is impossible that she has no contact with her family for the past twenty years. Who can survive alone after her husband's death and even dare not contact her family?"

"Moreover, our two scholars have infiltrated the core circle of the An family for many years and have conducted an analysis and investigation on the An family for more than ten years. They even gave Olin your special medicine many times when he was unconscious, and asked about the whereabouts of Lydia (Ava) (Charlie's mom) and her son. Over the years, Olin's answer has been the same. Lydia (Ava) (Charlie's mom) is dead and her son's whereabouts are unknown."

Sara said coldly, "If a person can't control the need to contact her family when she is alive, then Lydia (Ava) (Charlie's mom) is not the same Lydia (Ava) (Charlie's mom). This woman is different from other women. Her strategy and forbearance are probably only comparable to that little bitch Lin Wan'er."

At this point, Sara clenched her fists and shouted angrily with hatred: "I have more than 100,000 people under the command of the Po Qing Society and stations all over the world. After more than 300 years, we still can't catch Lin Wan'er! They are all a bunch of damn good-for-nothings!"

Jadiel hurriedly knelt on the ground and said tremblingly: "My lord, calm down. That Lin Wan'er is extremely cunning. Sometimes she doesn't see strangers for decades. It's really not that easy to catch her. Last time we almost succeeded, but we didn't expect Lin Wan'er to run away alone."

Sara said viciously: "Lin Wan'er's escape that time must be related to the mysterious person who saved the An family. Think about it, the cavalry guards sent that time were temporarily transferred from Cyprus to capture Lin Wan'er. After Lin Wan'er escaped that time, the cavalry guards sent were also missing, but not long after, Nakul was ambushed at the death squad station in Cyprus, and his body was nowhere to be found. This must be the work of that mysterious person;"

"And the An family. He almost wiped them out twice, but he interfered both times. Even Willie didn't survive the last time. This man killed the four earls of

the Po Qing Society one after another, and we haven't found any clues so far! I have taken over the Po Qing Society for more than 300 years, and I have never suffered such losses and humiliation! It's really absurd!"

Jadiel said doubtfully: "Lord Ying, this man saved the An family from danger twice, he must have a close relationship with the An family, could he be an old subordinate of Bruce Wade and Lydia (Ava) (Charlie's mom)?"

"Impossible!" Sara waved her hands and denied it flatly: "He can force Changshengbo to self-destruct, his strength must be far above Bruce Wade. How could Bruce Wade have such powerful subordinates? Without a hundred years of hard work, his strength would never reach this level! Even if he is a genius, it would take at least fifty years!"

Jadiel said: "Then should we move the An family again to see if we can force that mysterious man out?"

Sara shook her head and said: "No! The An family is no longer what it used to be. The last time we asked Changshengbo to go to Aurous Hill to kill them, we were just killing a Chinese-American family that temporarily settled in China. If we killed them at that time, it would not cause us too much trouble, but now they are the largest foreign family in China in the past thirty years. "If we move against them in China, we will inevitably be counterattacked by China. The Poqing Society has no nationality. As long as we take action in China, China can legitimately classify us as stateless pirates and mercenaries and launch military operations against us."

After that, Sara pointed to the ground and said to Jadiel: "This place is the result of my hundred years of hard work. It took a hundred years to build it, and it may only take a few missiles to destroy it. So don't provoke the An family now. Let them live a few days in peace in China. If you want to kill them, you must first get rid of the mysterious man. Only by getting rid of him can you rest assured in the future. Otherwise, even if you send people to kill the An family now, you may not be able to get any benefits from him."
