The amazing son in law - The Amazing Son In Law Chapter 7078

Jadiel nodded: “ is indeed Morocco, the video subordinate has seen it, and the station has been completely destroyed. ”

Sara Angry Road: “ It must have been done by that person again! He didn’t go to Nigeria?!”

“No. ” Jadiel Road: The subordinate of “ asked Shu Tong. The three elders have been concerned about the situation around Nigeria these days. No one has ever found a person in control of Reiki. If you want to come to the other party, you should have insight into our intentions, so you deliberately avoided Nigeria and chose Morocco to do it. ”

Sara’s face was iron-faced, and he was full of murder. He kept his voice: “ This person saw that Nigeria was a trap, and he deliberately chose Morocco not far away. This is to provoke me on purpose! Show me! ”

In this case, Jadiel did not dare to say good things to comfort Sara, but said very seriously: “ British Lord, not to hide from you, the subordinates think so, this person is far stronger than we expected, It’s not just that the individual is strong and the combined strength is very strong. It can be seen that the situation we do is nothing, but it’s a bit incredible to find another station. My subordinates don’t know now, how many of our station information he has! ”

Sara’s gritted teeth: “ You are right, I underestimated him! I originally thought that the station in Cyprus was exposed because the last time Xiaoqiwei went to catch Lin Waner (Alani) fell into his hands, but those Xiaoqiwei must not know any information about other stations. Now, it seems that he must have Other information access channels! ”

Jadiel is busy: “ British Lord, there are two more things to report to his subordinates. ”

Sara cold voice: “ said! ”

Jadiel Road: “ The first thing, the Song Ruyuxong Xu thing, which happened to be in Morocco, is now alive and dead; ”

Sara was trembling, and his expression was terrified, but he still forced himself to calm down and open his mouth: “ What about the second one? ”

Jadiel Road: The book “ was reminded to his subordinates on the phone just now. If that person had been concerned about Nigeria long ago, then the Nigerian station must have been exposed. Now the book and the three elders are there, and they will probably be The other party is staring, so the book also wants to ask you, where should he and the three elders go now? ”

Sara’s black face: “ Wu Shu and this waste not only lost the station in Morocco, but also lost Song Ruyu together. Song Ruyu was talented and well cultivated. Maybe the three elders will

become the next four. Now that life and death are uncertain, even if it is alive, I am afraid it will be difficult to find it back! Breaking me will bring such a big loss, let him stay in Nigeria all his life, don't go anywhere! "

Jadiel is busy: " British Lord, his subordinates dared to say the same thing as the book. There is no real monk master under the book. The other party wants to move Morocco. Even if he knows, he can't stop it. He's really wrong. Song Ruyu passed by, but in the end, he sent Song Rouyu in the past and had no process problems, Since Song Ruyu is a matter of the right army governor's office, it is normal to perform tasks. "

Speaking, Jadiel said again: " If you let him stay in Nigeria, the Right Army Governor's Office lost a station and a certain event, and their Most Governors are gone again and again. This successive blow will make the right army. The governor's army is distracted. At that time, there may be more problems. Please ask the British Lord to think twice! "

Sara fell into contemplation at once.

She knows that Jadiel made sense. Although she was angry with Wu Shutong, the problem is not because of Wu Shutong. The immediate priority now is how to evacuate people from Nigeria. The three elders cannot stay outside. However, if the whereabouts are exposed, there will be great hidden dangers in the future.

Thinking of it here, she said coldly: " passed on my order. Since Nigeria has been exposed, it sent Nigeria's Xiaoqi to Morocco. Morocco's station is in the hinterland, not close to the coastline. More than 10,000 people want to withdraw. It's not so easy for them to go to the carpet search for Morocco and dig three feet to find their clues! "

Jadiel immediately said: "Good British Lord, the subordinates will immediately notify! "

Sara said again: " Also, to the three elders, let them leave Nigeria immediately, but remember not to go directly to Argentina by plane. It is best to go to the neighboring country by land and then go back a few times. Warn them to stay vigilant at all times and not be followed. "

"Okay! Understand! "

Sara continued: " As for Wu Shutong, you told the three elders to cut off his left hand to be effective, and then told him to immediately move away from the station of the governor's house of the right army. People find it! "
