

The amazing son in law - The Amazing Son In Law

Chapter 7085

It is impossible for a normal person to keep his left hand hidden in the sleeve all the time even if he is wearing a long-sleeved shirt. However, when charlie Wade saw many photos of Wu Shutong taken by AI, he found that Wu Shutong's left hand never showed from the sleeve from beginning to end, which was a bit surprising.

Song Ruyu also came over to take a look, and said in confusion: "Strange, the Grand Admiral has never been like this before, it feels like there is something wrong with his hand and he doesn't want people to see it."

Li Yalin on the side frowned and said: "Could it be that his left hand is gone? I saw his normal walking posture, and he didn't deliberately shrink his left shoulder and left arm. His symmetrical right hand was exposed normally, but his left hand was not exposed at all. It must be abnormal."

Song Ruyu murmured: "It shouldn't be. I met the Grand Admiral a few days ago, just before he left for Nigeria, and I didn't see anything unusual at that time. What's more, he has three elders in Nigeria, and it is impossible for him to encounter any danger and lose his left hand."

Li Yalin said: "But based on my experience, judging from the video, his left hand should really be gone."

charlie Wade said lightly: "The left hand is gone, maybe not because of danger, maybe because we took down Du Duke Mining, Sara was furious, and he had to find someone to take responsibility. As the first person responsible for the Right Army Governor's Office, he was the first person responsible. With Sara's style of doing things, cutting off his left hand was a bargain for him. "

Song Ruyu exclaimed: "This... this can't be blamed on the Grand Governor, right? It was the Lord's intention to lay a trap in Nigeria, and the Grand Governor was also ordered to go to Nigeria. Duke Mining had problems, how could it be blamed on the Grand Governor..."

Li Yalin smiled and said: "In any group, as long as there is a big problem in the business, someone must take responsibility. You can't let the group leader take responsibility, right?"

Song Ruyu couldn't help but feel a little cold on her back. She had been in the Right Army Governor's Office for two years and had a better understanding of the cause and effect. In her opinion, Wu Shutong's fault was definitely not on his head, but if Wu Shutong really lost his left hand because of this incident, it was really unreasonable in her opinion.

charlie Wade said at this time: "A commander-in-chief of the Right Army Governor's Office suddenly had his left hand cut off. I think he must be very upset. Maybe we can use this

opportunity to do something about it in the future.” Li Yalin remembered something and hurriedly said: “Mr. Wade, since Wu Shutong is coming to Morocco, can we find a chance to control him?”

charlie Wade thought for a moment and said: “Whether we can touch him depends on whether the three elders in Nigeria have left. If they haven’t left, then Wu Shutong is just a bait. Regardless of whether they have the intention or not, there are more than 10,000 people waiting for us to evacuate safely. It is best not to contact him for the time being.”

Then charlie Wade said: “There is no rush to contact Wu Shutong. It won’t be long before all international airports in the world will be covered by our vending machines. Maybe they are not of the same brand or the same operating company, but in the end all their monitoring data will be uploaded to our Ai system in real time. By that time, as long as Wu Shutong goes abroad, he will inevitably be exposed to our sight at the first time. If you want to contact him, there will be plenty of opportunities in the future.”

...

That morning in Morocco time.

Hundreds of cavalry guards have already arrived in Casablanca.

Arriving before and after them, there are more than 300 Tiger Guards from the Right Military Governor’s Office.

The Tiger Guards are the true confidants of the major governor’s offices. Those who can enter the Tiger Guards have a cultivation level of at least the Great Perfection of the Bright Realm, and more are warriors who have successfully entered the Dark Realm.

Abbas’s master once voluntarily joined the Tiger Guards in order to break through his cultivation level.

Wu Shutong arrived a little later than these people. After arriving, he and Yuan Chengze went straight from the airport to the headquarters of Moore Trade.

In order to unify the deployment, Wu Shutong had already asked everyone to gather at the headquarters of Moore Trade after landing.

Moore Trade has been providing Duke Mining with assistance in the import and export of materials over the years, and it is also the link between Duke Mining and the Right Military Governor’s Office. For convenience, they have their own four-story office building in Casablanca, as well as a warehouse for storing imported and exported materials.
