

The amazing son in law - The Amazing Son In Law

Chapter 7087

Hearing that the Grand Commander had arrived, Dong Mingchao quickly shut up and waved to his deputy, and the two of them went out to greet him.

Wu Shutong also happened to walk in at this time. When the two met, Dong Mingchao's men bowed 90 degrees, facing Wu Shutong with their palms, and said to Dong Mingchao: "Sir, this is the Grand Commander!"

A

Although Dong Mingchao was a special envoy, his level was far from being able to meet the Grand Commander. Even the Tongzhi, whom he usually met, he only heard his voice but never saw him.

Now that he saw Wu Shutong, he was not sure of Wu Shutong's identity, so he said respectfully: "I am Dong Mingchao, the last general, to meet the Grand Commander. Please show me the tiger head token."

Wu Shutong didn't waste any words. He took out a token made of pure gold from his pocket with his right hand. There was no text on it, only a lifelike tiger head. Wu Shutong pointed his finger at the hair on the tiger head, and then the tiger head on the tiger head token seemed to be alive, shaking its head and roaring.

There are only five tiger-head tokens in the entire Po Qing Society, and they are in the hands of the five grand commanders of the Five Military Governors' Office. This token was refined by Sara with spiritual energy, and it contains an illusion formation. Only when the person who recognizes the owner touches the hair on the tiger's head will the formation be triggered and the tiger will come to life. If the token falls into the hands of other people, there will be no such effect. This is also the key for the grand commanders of the Five Military Governors' Office to prove

their identities.

Although Dong Mingchao had never seen the tiger-head token before, he had heard about its existence and characteristics. Now that he saw it, he naturally did not dare to have any doubts, so he immediately knelt on one knee and said loudly: "General Dong Mingchao, I will obey the orders of the Grand Commander in everything!"

Wu Shutong hummed, put the token back into his pocket, and then said: "Are all the others here?"

"All are here!" Dong Mingchao responded respectfully, and then said: "Please ask the Grand Commander to move to the warehouse for a lecture!"

Wu Shutong said coldly: “Lead the way.”

“Yes!”

Dong Mingchao bowed and led Wu Shutong all the way to the warehouse.

Hundreds of Tiger Guards from Naples and hundreds of Cavalry Guards from Nigeria were already waiting in line here.

The Tiger Guards were Wu Shutong’s direct troops, and the Nigerian Cavalry Guards had already seen him, so when he came in, everyone knelt down immediately and said respectfully: “Welcome, Grand Commander!”

Wu Shutong gestured to everyone to stand up, and then said coldly: “The situation is urgent, so I won’t beat around the bush with you. I have mobilized you to Morocco today to investigate what happened in Duke Mining last night, as well as the whereabouts of Duke Mining’s Cavalry Guards, death squads, and their families.”

After that, he looked at Dong Mingchao and said: “Since you are the special envoy here, you know the situation here best. Tell everyone the clues you have.

The amazing son in law - The Amazing Son In Law Chapter 7088 -

Dong Mingchao nodded apprehensively, quietly wiped the cold sweat off his forehead and said, “To be honest with the Grand Commander and all the brothers, I am also confused about what happened in Duke Mining. What I can share with you now is some of my general understanding of Duke Mining.”

Dong Mingchao added, “Duke Mining only produces one product, which is finished phosphate. All their phosphates are transported by the Moroccan National Railway directly from Duke Mining to the railway freight station at the Casablanca Port. The trading company I manage has a transit warehouse there. All imported goods that have been cleared and goods to be exported that have not been cleared will be stored there, and then our employees will be responsible for the customs clearance procedures;”

“Duke Mining has a train full of phosphate shipped to Casablanca every afternoon. Since the last production line upgrade and resumption of production, it has been unshakable for more than three years without any abnormalities. Yesterday afternoon around 6:10, the last train of phosphate arrived at the station, and no abnormalities were found. The quality and quantity of the goods were also in line with the usual practice. After the incident yesterday, we immediately found a way to get the driving record of yesterday’s train and compared it with the previous driving records. From

the time the train arrived at Duke Mining to the time it loaded the goods and left the station, no abnormalities were found;”

“Last night, I followed the established plan of the big blood exchange and led a convoy to Duke Mining, intending to transport the first batch of people participating in the big blood exchange to the airport, but an explosion occurred when we just arrived at Duke Mining.”

Wu Shutong said coldly: “Let’s talk about what happened after the explosion. What is the current state of the Moroccan government?”

Dong Mingchao hurriedly said: “The explosion has attracted the attention of the local police in Morocco last night. Because the matter is indeed very serious, they immediately reported the matter to the national level. The capital Rabat urgently dispatched an investigation team, which arrived at Duke Mining early this morning. They conducted a rough investigation and inspection on the scene. At present, there is no sign of casualties, so they temporarily define this incident as a production responsibility accident. They are now looking for the person in charge of Duke Mining,

because in their opinion, the entire enterprise was reduced to ashes, and everyone disappeared at the same time. It is really a bit weird, but they did not take this matter as an accident. Disclosed to the media, the media thought it was just a major safety accident. “

Wu Shutong asked him: “Who is the person in charge of Duke Mining? Is it one of the missing cavalry guards?”

Dong Mingchao said: “There are six people in charge who reported to the local government, five of whom are among the cavalry guards, and the other one is here, but we dare not let the nominal person in charge come forward to communicate with the government, because we are worried that the government will detain people to investigate the whole matter.”

Wu Shutong nodded and said: “We must not deal with them now. You said that yesterday afternoon, the video shot by the train showed that everything was normal, but after 11 o’clock in the evening, the entire Duke Mining was empty. In a few hours, no one could transfer more than 10,000 people from such a place. The only reasonable explanation is that the other party has already begun to transfer quietly, but in order to prevent you from noticing, their daily supply of goods is still continuing. “

Dong Mingchao hurriedly said: “What the Grand Commander said is very true, I think the facts should be as you said.”

Wu Shutong said: “So next I will divide you into three teams, each team is responsible for one direction of investigation. “

When everyone heard this, they immediately stood up straight and said in unison: “We will follow the orders of the Grand Commander!”

Wu Shutong said: “The first team should use Duke Mining as the key point to investigate whether anyone has been to Duke Mining in recent days, check all the cameras that can be found along the way, and check whether there are any satellites that have taken pictures of Duke Mining in recent days, and compare them with previous satellite pictures to see if there are any obvious abnormalities;”

“The second team should investigate all the personnel and vehicles that have come out of Duke Mining in recent days. The movement of tens of thousands of people, even if divided into multiple batches, can never be completely concealed. If you look carefully, you will definitely find clues. I want to know the movements of everyone who came out of Duke Mining;”

“The third team will be responsible for conducting a carpet search with Duke Mining as the origin and spreading to the surrounding areas. It is impossible for tens of thousands of people to be evacuated immediately. They must be hiding somewhere in Morocco. Even if we have to dig three feet into the ground, we must find them for me!
