

The amazing son in law - The Amazing Son In Law

Chapter 7096

Li Yalin smiled and said: “No, I dare not let it invade the airport casually. Although it has strong computing power, computing power cannot replace technology. It can generate realistic videos, but it may not be able to train itself into the most powerful hacker. The protection capabilities of the civil aviation system are still very strong. Almost all of them are provided by top Internet security companies. If we invade, we may leave clues and be tracked.”

Li Yalin said: “Ai’s method actually sounds stupid, because we have deployed enough vending machines, and the wide-angle cameras inside cover a wide range. So we covered almost all the boarding gates at Naples Airport, and we were able to take pictures of the information boards in front of the boarding gates. So what flights are there at each boarding gate and where they are going, Ai had accurate answers by analyzing the video, and because the video was recorded throughout the entire process, Ai also counted the passenger flow information for each destination city and country. Yesterday and today, all the planes from Naples to Spain were full, and all the tickets to any city were sold out or even oversold, and there were two business jets in the business jet building heading to Seville, Spain. “

charlie Wade murmured, “Suddenly so many people went to Spain, it’s really a bit strange, could it be that the Right Army Governor’s Office is going to change its station?”

“It is very likely.” Li Yalin explained: “Oh, we also analyzed the facial information of all passengers going to Spain. In the past, 70% of the passengers going from Naples to Spain were European and American faces, that is, Caucasians, but in the past two days, the number of yellow people with Asian faces accounted for 60%, which means that most of the new passengers going to Spain in the past two days are Asian faces. So this further confirms your speculation that the Right Army Governor’s Office should be moving, and their destination is Spain!”

charlie Wade couldn’t help but exclaimed: “Ai turns out to be useful in this way. Simply analyzing the video can get so much information and detect the anomalies. This thing is really useful.”

Li Yalin smiled and said, “This thing is strong because its computing power is unparalleled. If we let it do calculations, it will be stronger than the computing power of people all over the world holding handheld calculators at the same time. If we let it analyze videos and watch surveillance videos, it is equivalent to distributing the surveillance videos to 100 million people to help us analyze them. The efficiency and meticulousness are not comparable to human power. “

charlie Wade nodded and said with a smile: “In fact, it is still the inspector Li who trained it well. Once it has criminal investigation awareness, it will be able to help us find more problems. When we have all the key hubs in the world under control, the members of the Poqing Society will be nowhere to hide!”

charlie Wade said, “By the way, since so many of them are going to Spain in batches, I feel that the group of people who left on the business jet should be more important people in the Right Army Governor’s Office. You let AI sort out the high-definition facial images of these people. I will invite Song Ruyu over and let her take a look. “

“Yes, yes.” Li Yalin smiled and said, “Miss Song is the assistant of the Right Army Governor’s Office. She must know the senior officials of the Right Army Governor’s Office!”

...

Song Ruyu had not received the departure notice at this time. Seeing that the female relatives around her had almost left and she was the only one left in the temporary rest area, she felt a little panic in her heart, not knowing how charlie Wade would deal with her next.

While she was nervous, a female soldier from the Wanlong Hall came over and said to her, “Miss Song, Mr. Wade has something to do with you. “

Song Ruyu said quickly: “Oh, OK... Where is Mr. Wade?”

The female soldier said: “Mr. Wade and Inspector Li are in the factory director’s office.”

“Okay, I’ll go over there.” Song Ruyu quickly stood up, walked out of the isolated female rest area, and came to the factory director’s office.

After knocking on the door, she heard charlie Wade say from inside: “Come in.”

Song Ruyu pushed the door open and asked carefully: “Mr. Wade, are you looking for me?”

charlie Wade nodded and said to her: “I have a batch of portrait information here. Can you help me check if they are members of the Right Army Governor’s Office?”

Song Ruyu asked in surprise: “How did Mr. Wade get the portrait information of the Right Army Governor’s Office? And it’s a batch...”

charlie Wade smiled and said: “Take a look first, and I’ll tell you after you finish reading.”

Chapter 7097

Song Ruyu curiously browsed the pictures charlie Wade gave her. These portraits were basically selected by AI. It first presented the facial details of the passengers on the two business jets, and then all the Asian passengers going to Spain at other boarding gates. As

soon as Song Ruyu opened it, she was stunned by the photos in front of her.

All the passengers on the business jets were high-level officials and their families of the Right Army Governor's Office!

Among them, the two Tongzhi adults and their families were also among them!

She couldn't help asking charlie Wade: "Mr. Wade... How did you get these photos? All the people on them are core members of the Right Army Governor's Office. More than half of them are from the Wu family. There are also two Tongzhi adults, who are almost the highest level of the Right Army Governor's Office except the Grand Governor and General Yuan."

charlie Wade and Li Yalin looked at each other and couldn't help but smile. It seems that this AI is really amazing. Through the monitoring of the airport, it accurately identified the big move of the Right Army Governor's Office.

So, charlie Wade said to Song Ruyu, "Look at the background of these photos, they are all at the airport. These people have left Naples by plane in the past two days, and their destination is a city in southern Spain. Do you think they are migrating?"

"It's possible." Song Ruyu nodded and said, "I heard that the Right Army Governor's Office has to change its headquarters every once in a while. If there is an emergency in the meantime, it may be temporarily changed. As for where it will be moved to, I really don't know. Since so many people are going to Spain in a short period of time, it is very likely that the new headquarters is there."

After listening, charlie Wade nodded slightly and said, "Such a large-scale personnel transfer in such a short period of time should be an emergency order. It is very likely because of their defeat in Nigeria this time and your disappearance, so they are worried about exposing the location of the Naples Governor's Office."

After that, charlie Wade said, "But they probably never dreamed that such an urgent personnel transfer would leak out."

Song Ruyu Yu couldn't help but exclaim: "Mr. Wade's intelligence efficiency is really amazing. The Governor's Office has always been cautious. Everyone has many legal identities with different backgrounds. Normal investigations can't find any problems at all. You found it just as it started to move."

charlie Wade smiled slightly. Song Ruyu's thinking logic is completely different from Ai. Sometimes people have too strong logical thinking and think of the most direct solution first. It's like solving a math problem of chickens and rabbits in the same cage. Chickens and rabbits are locked in a cage. There are thirty-five heads and ninety-four feet. To calculate how many chickens and rabbits there are in total, people always have to find the simplest and most efficient way to calculate it. They have

to use a set of algorithms to hit the key points. After finding this method, when you encounter the same problem in the future, you can directly apply that solution to calculate.

But Ai doesn't care about you. Ai's computing power is so strong that it doesn't require any skills at all. Chickens and rabbits are locked in a cage, aren't there thirty-five heads? There are at most 35 chickens and rabbits in total, so we start from one rabbit, and if one rabbit is wrong, we count it as two. It may seem stupid, but relying on powerful computing power, this method can calculate tens of thousands of similar problems in milliseconds.

Not to mention 35 heads, even if it is 3.5 million or 35 million heads, for Ai, it is just a workload within one millisecond.

The amazing son in law - The Amazing Son In Law Chapter 7098

Therefore, Ai will not stick to the ways and methods that humans rely on, it will just do it hard. With so many airports, so many passengers, and so much video data, it is a frame-by-frame and pixel-by-pixel analysis, so the breadth of thinking about problems is much broader than that of humans.

Now, a large number of members of the Right Army Governor's Office have been marked by Ai. In the future, as long as these people appear in Ai's sight, they will be marked out immediately, and no one can escape.

So, charlie Wade asked Song Ruyu to continue to identify the appearance of other suspects. Although Song Ruyu did not know some of them, she could still judge that they were members of the Right Army Governor's Office by relying on her memory. Therefore, at least 80% of the hundreds of people marked by Ai were confirmed by Song Ruyu. The remaining 20% was not necessarily a mistake by Ai, but it might be that Song Ruyu had not seen those people when she was in the Right Army Governor's Office.

Then, charlie Wade said to Song Ruyu: "Thank you for your help, Miss Song. I originally wanted to take you to Naples, but now it seems unnecessary. The last batch of people will evacuate later, and you can go with the car."

Song Ruyu was waiting for charlie Wade's arrangement for her. She did not want to leave with these people and go to an unknown place. She hoped to stay with charlie Wade to prove her value, because she knew very well that she had no ability to remove the poison left in her body by Sara, and she could only hope in charlie Wade.

However, if she had no value to charlie Wade, he might not have the motivation to help her.

A year had passed in the blink of an eye. If she didn't get the antidote, she would surely die in a year.

So, when she heard charlie Wade ask her to evacuate with the others, her mood instantly plummeted. She was afraid that charlie Wade would just ignore her. Now her cultivation was sealed, her freedom was restricted, and there was a time bomb of poison in her body. Once charlie Wade abandoned her in a corner of the world, she was afraid that her life would be over.

charlie Wade saw the struggle and depression in her expression, and said, "Miss Song, everyone who has set out does not know the destination they are going to. It is not intentional to conceal it, but I am afraid that some people will encounter some accidents on the way. Once the destination is leaked to the Poqing Society, it will not only affect these more than 10,000 people, but also the thousands of people I went there from Cyprus before. So it is the same for you. You don't know where you are going next, and you may have some doubts and worries in your heart, but I can promise you that you are going with them to a temporary place. I still have this matter to finish. After I finish my trip, I will return to China, and I will also have someone send you to China. I promised you before that I would let you meet Yun Ruge, and I will naturally do what I say."

When charlie Wade said this, Song Ruyu was relieved. She felt like she had survived a disaster. With red eyes, she said to charlie Wade, "Thank you, Mr. Wade, thank you!"

charlie Wade nodded slightly and said, "Okay, go and get ready, we'll be leaving soon."

"Okay!" Song Ruyu said immediately, "Then I won't disturb Mr. Wade and Inspector Li."

After that, Song Ruyu bowed to charlie Wade and Li Yalin respectively, and then carefully walked out the door.

After Song Ruyu left, Li Yalin asked charlie Wade, "Mr. Wade, are you planning to go to Spain?"

"Not for now." charlie Wade said, "Our ancestors have an old saying that goes, don't chase a desperate enemy. These people evacuated in such a hasty and anxious manner, which is no different from a desperate enemy. There is not much point in chasing them now. Anyway, their movements are under our control, so let them breathe a sigh of relief first."

"That's right." Li Yalin smiled and said, "It's really meaningless to chase these people now. After all, their commander-in-chief is still in Morocco."

charlie Wade nodded and said, "Speaking of their commander-in-chief, I really want to find an opportunity to meet him."

Li Yalin asked hurriedly, "What is Mr. Wade's plan? Capture the king first?"

charlie Wade smiled and said, "There is no point in capturing him, but I can lend him to Sara to put some eye drops on him."

Then he asked Li Yalin, “By the way, Inspector Li, do you think the factory director will come tomorrow?”

Li Yalin said, “Tomorrow, or the day after tomorrow at the latest.”

“Okay.” charlie Wade said, “Restore this place and clean up the scene before the last group of people evacuate. The two of us will stay here and find a hidden place to wait for him!”
