

The Amazing son in law Chapter 7796

At the same time, in order to prevent himself from guessing wrong and causing a large loss of spiritual energy in the two women, charlie wade also prepared two Qi-Nourishing Pills. If the spiritual energy in the two women's bodies was damaged, he would use the Qi-Nourishing Pills to help them recover.

In short, we cannot let them suffer losses because of us.

Only then did he teach the two the complete set of hand seals from the first time.

In order to avoid triggering the hand seals and absorbing a large amount of spiritual energy from his body, charlie wade deliberately reversed the order of the hand seals. Only after the two of them had learned them did he tell them the correct order.

There were eight handprints in total for the first time. When charlie wade taught them, he deliberately used the order of 1234 and 8765.

When he finished making the first four hand seals, the golden pagoda in his sea of consciousness couldn't wait to emerge from it, ready to absorb spiritual energy. But unexpectedly, charlie wade's hand seals went awry, causing the golden pagoda's light to go out instantly. After a moment, it seemed to plunge back into his sea of consciousness with resentment and frustration.

charlie wade cautiously demonstrated the eight hand seals in a scrambled order. Finding no change in his spiritual energy, he finally breathed a sigh of relief and then said to the two, "Have you both memorized those eight hand seals?"

They both nodded simultaneously: "Understood."

charlie wade nodded and said, "Now you change the order. The first four handprints are in the same order, but the last four handprints are repeated in reverse order."

The two were completely confused, but fortunately they trusted charlie wade, so they tacitly refrained from asking why. Instead, they immediately rearranged the order in their minds and then made the eight hand seals in the correct sequence.

charlie wade had been observing the changes in the two women. After they completed the eight hand seals, he didn't seem to notice any significant loss of spiritual energy within them. So he asked, "Do you feel anything?"

Yun Rugo shook her head: "Mr. wade, this set of hand seals seems to have no effect."

Song Ruyu echoed, "Yes, Mr. wade, I don't feel anything either."

charlie wade then asked, "Has there been any subtle changes in the spiritual energy within your body?"

Yun Rugo replied, "No, the spiritual energy has neither increased nor decreased."

charlie wade nodded, already having the answer in his heart.

First of all, the reason for all of this lies within oneself.

Secondly, although it is still unknown what it is, it is certain that it is not the ring that Lin Wan'er (Alani) gave him.

As charlie wade's doubts gradually cleared, he came to a reasonable guess as to why the creature showed him its handprint.

The first time he showed his hand gestures, it was probably to absorb his own spiritual energy.

The second display of the handprints was more like a way of returning the favor, a way of repaying the spirit that had been given to it.

However, people say that a drop of kindness should be repaid with a spring of gratitude, but this guy is doing the opposite, draining his own spring and squeezing out a few drops to return.

Of course, charlie wade understood the principle of perseverance, and this set of hand seals was actually of great significance in the Dharma-ending Age.

If it really does have even more powerful effects later on, then it will truly be a blessing in disguise!

Thinking of this, charlie wade's unease about the unknown thing lessened considerably. He smiled and said to the two of them, "Since this set of hand seals has no effect on you, then don't worry about it. Focus on practicing the second set of hand seals you learned last night!"

The Amazing son in law Chapter 7797

Night falls.

The aurora borealis reappeared on the horizon, a dreamlike spectacle.

charlie wade once again led three beautiful women towards the aurora.

This time, Lin Wan'er (Alani) packed a huge travel bag and asked charlie wade to carry it for her. The weight of several dozen kilograms was negligible for charlie wade, but it was still a bit strenuous for her to carry it through the snow.

Yun Rugo and Song Ruyu moved with the lightness of swallows. The thought that they might receive even stronger Buddhist hand seals tonight filled them with excitement.

charlie wade also harbored expectations. Yesterday's handprint could indeed solve the breakthrough of spiritual energy from zero to one in the Dharma-ending Age, but it seemed rather useless to him. He could temporarily accept that Claire would leave him temporarily so that he could better take revenge, but how long she would leave depended entirely on his own fate.

If he is unable to break through and open the Niwan Palace for a long time, then the revenge plan may not be completed for decades.

Although charlie wade knew that Claire still loved him, he wasn't sure how long that love could last after they separated.

One or two years might be manageable, but three, five, or even eight or ten years is probably an unknown.

Therefore, charlie wade desperately wanted a way to quickly improve his cultivation level. He hoped that all his hatred with the Po Qing Society and Sara could be completely resolved within the next five years.

Under the aurora, the three sat cross-legged, looking up at the sky. Lin Wan'er (Alani) stayed by charlie wade's side, taking out a folding egg roll table and a folding moon chair from the travel bag charlie wade had brought for her. After

setting them up, she took out a small charcoal stove and a cast iron kettle, using the lid of the kettle to shovel the snow that no one had touched on the ground into the kettle little by little.

Then, she took out a handful of charcoal made from olive pits, dropped a small piece of solid alcohol into it, and lit a small fire by striking the night sky with a match.

With water boiling on the stove, she took out a travel tea set and carefully placed it on the table.

It's clear she intends to use snow to boil water for tea.

charlie wade admired her; she was always calm and composed, and she never forgot her beloved leisure and elegance.

A pot of snow melts and boils, and the boiling water then brews a piece of Pu'er tea, releasing its aroma. Meanwhile, the aurora in the sky shows no sign of changing into a handprint.

charlie wade was surprised. Could it be that this mysterious thing only had that set of hand seals that were useful last night?

Yun Rugo and Song Ruyu were also somewhat puzzled, but they both knew that opportunities could not be forced or spoken of recklessly, so they remained silent.

Lin Wan'er (Alani) broke the silence first. She poured four cups of tea and then said softly, "Young master, the handprint has not appeared today. Has something happened?"

charlie wade's face turned extremely ugly, and he muttered, "It shouldn't be anything unexpected. I suspect that this bastard won't act until he sees something."

Lin Wan'er (Alani) asked, puzzled, "Why do you say that, young master?"

charlie wade sighed and said, "The first time, it suddenly conjured eight hand seals, which drained almost all of my spiritual energy. The second time was yesterday, after I cast those eight hand seals again and consumed most of my spiritual energy, the aurora conjured a second set of sixteen hand seals. So I suspect that it wants me to give it spiritual energy first, which is to say, it wants me to pay first before it will deliver the goods."

The Amazing son in law Chapter 7798

As he spoke, charlie wade told her, “When I was in seclusion with Miss Yun and Miss Song today, I deliberately passed on those eight hand seals to them the first time. After they used them, they didn’t experience any effect. However, every time I fully circulated those eight hand seals, a large amount of spiritual energy was lost from my body. Therefore, I am even more convinced that the thing is inside my body. Moreover, the first time it passed on those eight hand seals to me, it was to make me pass on my spiritual energy to it. Yesterday, I also gave it spiritual energy first before it passed on the useful hand seals to me. I think this is a transaction.”

“This...” Lin Wan’er (Alani) was taken aback for a moment, then said, “If that’s the case, then the thing inside your body also needs a lot of spiritual energy.”

At this point, she added with some confusion, “But if this thing is really inside your body, and can absorb spiritual energy from it, why doesn’t it absorb it directly? Why does it require you to make a specific hand seal to absorb it? And what’s strange is that it taught you this hand seal. It’s as if it could take it directly, but it insists that you give it to it. How strange.”

charlie wade pondered for a moment and said, “Thinking about it this way, it really is a bit unnecessary.”

Lin Wan’er (Alani) suddenly remembered something and said excitedly, “Young Master, do you still remember that during the first aurora, the aurora initially transformed into the Buddhist swastika?”

“Of course I remember.” charlie wade nodded and said, “I even joked at the time that if you looked at it from the sky, the mirrored swastika would look just like the Nazi symbol.”

Lin Wan’er (Alani) said excitedly, “So it seems that no matter who or what the thing inside the young master is, it must be related to Buddhism! Since it comes from Buddhism, it must follow the rules and regulations of Buddhism. Just like monks begging for alms, they can only accept alms if the donor gives them to them. If the donor leaves it there unattended, they would rather starve than take it without asking. It seems that the thing inside the young master is the same. Even

if it can directly absorb spiritual energy from the young master's body, the rules of Buddhism also prohibit it from doing so. So it can only take a roundabout way and get the young master to give it to it voluntarily."

charlie wade complained, "They didn't explain the numbers four, five, and six clearly to me the first time, causing me to lose so much spiritual energy without even knowing it. That doesn't seem very fair."

Lin Wan'er (Alani) said helplessly, "What else does the young master want from it? It can't speak. The only thing it can do is change the aurora to convey information to the young master. And it doesn't just take."

charlie wade nodded: "That's true."

Lin Wan'er (Alani) sighed, "If it's really as we speculated, then this thing might have a spirit..."

charlie wade said dejectedly, "Whether it really has spiritual power or not, we'll know once we try it."

After saying that, he took out a Qi-Nourishing Pill and reluctantly put it into his mouth.

After the Peiyuan Pill released its surging spiritual energy, charlie wade calmed down and began to circulate the eight hand seals once more.

Like hand seals, they must be in the correct order to be effective. Today, he used the sequence 1234 and 8765, which disrupted the ending of the hand seals and therefore had no effect.

When he made the first four hand seals again, the golden pagoda in his sea of consciousness resurfaced. Unfortunately, charlie wade could not sense its existence, nor could he see the mottled cracks covering its body.

If you ignore its proportions, this pagoda looks like an ancient building that has been weathered by time and looks somewhat shaky and on the verge of collapse. If it stood in an ancient temple, it would probably have been reinforced and protected as a cultural relic long ago.

When the pagoda surfaced, it paused slightly, seemingly worried that charlie wade would trick it again, so it subconsciously paused for a moment.

Immediately afterward, as charlie wade correctly executed the entire set of hand seals, the spiritual energy in his sea of consciousness surged into the pagoda.

At that moment, the pagoda burst forth with dazzling golden light, and the countless cracks on its body began to repair themselves at a visible speed. The pagoda's overall size also seemed to have increased slightly as a result.

However, charlie wade's spiritual energy was also limited. After nearly 90% of the spiritual energy in his body was absorbed by the pagoda, there were still many cracks on the pagoda that had not been repaired.

charlie wade's spiritual energy was rapidly depleted, and he broke out in a cold sweat. He was originally not afraid of the cold at all, but when the cold wind blew, he couldn't help but shiver.

However, this also made him more clear-headed.

So he looked up and stared intently at the aurora in the sky, hoping that the mysterious thing would give him some fair feedback.

Just then, the aurora that was swinging wildly in the sky suddenly changed. The light spots that were like particles quickly converged, and a pair of giant hands reappeared in the night sky!

The Amazing son in law Chapter 7799

Everything was as charlie wade had predicted.

The mysterious entity within you is making a silent deal with you.

After it took away ninety percent of the spiritual energy in its body, it displayed its new hand seals one by one in the sky.

This time, the sixteen hand seals were still displayed, but they were more complex than yesterday's sixteen hand seals.

After memorizing all the handprints, charlie wade tried to reproduce them completely.

What puzzled him was that after the entire set of hand seals was completed, the spiritual energy within his body did not change at all.

Yun Rugo and Song Ruyu, who were standing to the side, were not as fast or as skilled as him. They completed the hand seals a little over a minute later. Their feelings were the same; the spiritual energy neither increased nor decreased, and there was no change whatsoever.

Lin Wan'er (Alani) inquired with concern, and after learning that the new handprint was invalid, she couldn't help but fall into deep thought.

charlie wade suddenly seemed to be in a daze and said, "Perhaps, today's sixteen hand seals are from the same group as yesterday's sixteen hand seals."

After saying that, he immediately said to Yun Rugo and Song Ruyu, "Try to connect yesterday's handprint with today's handprint and run it once."

The two agreed that this made a lot of sense, so they both entered a meditative state and began to practice the obscure Buddhist hand seals.

charlie wade was the first to complete all thirty-two hand seals. Immediately afterwards, spiritual energy flowed into his sea of consciousness from all directions, at least three or four times stronger than yesterday.

This made charlie wade overjoyed.

Yesterday there were sixteen hand seals, today there are thirty-two. Although the cycle time for each movement has doubled, the spiritual energy has increased by at least three or four times. The two cancel each other out, which means that the overall cultivation efficiency of the thirty-two hand seals is more than double that of before.

That's more than doubled! That's a huge improvement!

Of course, since the base number was already minuscule, even if the efficiency was doubled, the speed of acquiring spiritual energy would still be very slow. But this gave charlie wade great hope. If there were more to this set of hand seals, if sixteen more hand seals, or even thirty-six or seventy-two hand seals were added later, the efficiency might increase tenfold or even dozens of times.

If that's the case, the speed at which spiritual energy is replenished will be quite impressive. You won't need to rely entirely on pills to tough it out; you can

replenish your spiritual energy in just a few days. At that time, everything will enter a completely new world.

A moment later, Yun Rugo and Song Ruyu also opened their eyes. Compared to yesterday, they were even more excited and burst into tears.

They all clearly felt the huge increase in efficiency. This cultivation speed was far more efficient than the time it used to take them to get a small Qi-Nourishing Pill from Sara. In the past, they would be grateful to get a small Qi-Nourishing Pill in one or two years, but with the efficiency of the thirty-two hand seals, they could get the same amount of spiritual energy in one or two months.

Seeing the uncontrollable joy on the faces of the three of them, Lin Wan'er (Alani) knew that Charlie Wade's attempt had been effective, and she was also extremely gratified.

Upon learning that the overall efficiency of the thirty-two hand seals had more than doubled, she was pleasantly surprised and couldn't help but exclaim, "I just observed that the speed at which you, Miss Yun, and Miss Song performed the thirty-two hand seals was different. I imagine that if you can memorize the hand seals thoroughly and further improve your hand speed, then the efficiency of your cultivation will continue to increase."

The Amazing son in law Chapter 7800

Charlie Wade was suddenly reminded by her and said excitedly, "Miss Lin is right. Buddhist hand seals are obscure and difficult to understand. Even copying them is not easy. It takes me at least ninety seconds to perform one. But everything is subject to a law, which is what the oil seller said, 'practice makes perfect.' If you can really make your hands familiar with each hand seal, it is not impossible to double your speed."

After saying this, he couldn't help but sigh: "When I was young, my mother taught me to play the piano for a few years. At that time, no matter what instrument people played, they liked to play a piece called 'Flight of the Bumblebee' as fast as they could. When I was young, it took me at least five or six minutes to play the whole piece, but top masters could complete the whole performance in one minute. The speed difference was seven or eight times. Buddhist hand mudras are like a musical score. In addition to talent, diligent practice is also very important for how fast you can play them."

Lin Wan'er (Alani) nodded: "That's what I think too. Young Master has to expend a lot of spiritual energy every day to exchange for hand seals. In order to replenish spiritual energy, he has to take precious pills. If this continues, the pills will soon be exhausted, which will lead to the depletion of medicinal materials for alchemy. Such precious pills should be saved for crucial moments to play a crucial role, rather than being wasted on daily cultivation. If we can replenish spiritual energy through hand seals, that would be perfect."

charlie wade agreed, saying, "That makes sense. However, I plan to make another deal with it to see if there are any new handprints. If so, how much will they improve my overall cultivation efficiency? If the improvement is still doubled, then investing some pills is worthwhile. If the improvement speed is not that fast, I'll slow down for a while, go back and cultivate in seclusion, otherwise my pills really won't be able to hold up."

Currently, charlie wade only has ten Qi-cultivating pills left, and the raw materials for refining Qi-cultivating pills have run out. Although Lin Wan'er (Alani) instructed Lao Zhang to help find them, raw materials cannot be obtained simply by having money; they also depend on opportunity and fate. Therefore, before the raw material problem is resolved, charlie wade plans to keep five pills for himself as a safety net to deal with unforeseen circumstances.

Therefore, he only had five pills left to trade with the mysterious entity within his body.

...

Upon returning to the villa in the early morning, charlie wade, Yun Rugu, and Song Ruyu began their seclusion.

During this period of seclusion, the three of them focused their main efforts on how to perform the thirty-six hand seals more skillfully.

However, it's not easy to memorize all thirty-six hand seals clearly. You also need to think about them beforehand when performing them. So improving efficiency is not something that can be done overnight. Just like a difficult piano piece, you have to develop strong muscle memory before you can significantly improve and break through in speed.

This muscle memory is a long process. For pianists, it may take more than ten years of hard practice to reach the pinnacle.

charlie wade remained in seclusion until evening when his alarm clock rang. When he opened his eyes, Yun Rugo and Song Ruyu had also been awakened from their meditation by the sound of the alarm.

charlie wade told the two to prepare to go out, and then pushed the door open and came out first.

In the living room, Lin Wan'er (Alani) and Helena were having a pleasant conversation.

Helena initially harbored some wariness and a competitive spirit towards Lin Wan'er (Alani), but after talking with Lin Wan'er (Alani) more, she discovered that this young girl's personal charm was beyond her comprehension. Not only were her IQ and EQ incredibly high, but her knowledge was also frighteningly broad. So when charlie wade and the other two were in seclusion, she would chat with Lin Wan'er (Alani), and before long, they became best friends.
