

The Amazing son in law - The Amazing son in law

Chapter 7980

4-5 minutes

Even with the convenience of quick access to the airport, the entire journey would still take at least four hours.

Two hours would be by plane, and one by car.

Heming Mountain is located in the suburbs of Chengdu; while a few dozen kilometers isn't far, the complex road conditions mean an hour is already considered ideal.

And this was just at the entrance to Heming Mountain. With Lin Wan'er (Alani)'s pace limited, the path into the mountain would take at least an hour.

However, if Chengdu had a helicopter, the situation would be much easier; the hour-long drive plus the hour-long walk could be completed in twenty minutes.

After getting out of the car, the two hiked into Heming Mountain, walking for an hour on unlit mountain paths until they finally reached the hillside where the teleportation array was hidden.

charlie WADE, holding Lin Wan'er (Alani)'s hand, moved with a thought, and they entered the cave leading to the main chamber.

Although it was pitch black outside, the cave, like the underground city, emitted a soft, comfortable light, making it feel like daytime.

charlie WADE, worried that Lin Wan'er (Alani) had just finished traversing the mountain path, naturally slowed his pace considerably. However, Lin Wan'er (Alani), preoccupied with the Mother of Pu-erh Tea, was impatient and pulled charlie WADE along, running at full speed.

charlie WADE led her to the teleportation array, silently reciting the incantation. Their vision blurred for only a moment, and when it returned, they were already inside the Four Directions Pagoda in the underground city.

Afterward, charlie WADE teleported Lin Wan'er (Alani) to the plaza once more. Lin Wan'er (Alani) looked around, unsure of what to do, and asked charlie WADE, "Young Master, where do you think is the most suitable place to plant the Mother of Pu-erh Tea?"

charlie WADE thought for a moment and said, "Let's plant it in the plaza." Lin Wan'er (Alani) said with a worry, "This place is all bluestone, it's difficult for us to fix the soil in place so that the Mother of Pu-erh Tea can take root."

charlie WADE smiled and said, "It's alright, there are still a lot of bluestone in the storage space. We can use them to build a large enough pool, put the soil we brought in, and then plant the Mother of Pu-erh Tea."

Lin Wan'er (Alani) breathed a sigh of relief and smiled, "That's great!"

The Mother of Pu-erh Tea is, after all, a mother tea with a spirit. According to Lin Wan'er (Alani), it was already like a towering tree when it underwent tribulation. Such a large plant has roots that extend at least ten meters into the soil, so it must have a large enough space to fill the soil so that it can continue to grow.

There are a lot of bluestone in the ring space, so charlie WADE planned to use those bluestone to build a cube with sides of five meters by five meters and a depth of ten meters. This size should be enough for the Mother of Pu-erh Tea to grow slowly for several years.

Although each of the bluestone slabs weighed a thousand pounds, retrieving them from the storage space only required charlie WADE to use two thoughts: one to issue the command to retrieve them, and the other to specify their placement.

Once this was done, the bluestone slabs could be completely cleared out in an instant and neatly stacked in a corner of the plaza.

Faced with thousands of bluestone slabs, charlie WADE suddenly had another idea. Retrieving all the stones would mean arranging them one by one.

While he had enough strength, moving so many bluestone slabs would be time-consuming and laborious.

What if he could simply use his mind to visualize their stacking? Could these bluestone slabs be instantly stacked neatly as he desired, forming a rectangular space?
