The Amazing son in law Chapter 8061

Meanwhile, Rachel's mother also received a promise.

Her family could choose another person to receive a dragon-patterned bronze token and another six-month supply of the antidote. However, this would have to wait until she selected a suitable candidate and informed Cheng Yanni. Cheng Yanni would then come again to personally hand over the dragon-patterned bronze token and witness the candidate taking the six-month supply of the antidote.

For Rachel's mother's scholarly family, this honor and reward was almost unprecedented.

In terms of scale, only the two scholarly families that infiltrated the An family back then could compare, but they both lost at the last step. Unlike them, they had not infiltrated an enemy family, but the Rothschild family, making the subsequent security much better.

To highlight his regard for Rachel's family, Wu Yongzhen unprecedentedly hosted a banquet at one of his private residences to entertain Rachel and her mother.

This was unprecedented for the scholar family, and Wu Yongzhen dared not make a fuss. Therefore, he kept the matter private at his residence in the Los Angeles Bay Area, entrusting it to his trusted confidants to avoid leaks. Otherwise, if Sara learned that a powerful military governor's mansion was hosting a banquet for members of the scholar family, she would surely become suspicious.

Wu Yongzhen risked suspicion by inviting the mother and daughter to the banquet to win their hearts through his actions.

Rachel's mother, upon hearing the news, was naturally overjoyed and immediately flew to the Bay Area to meet her daughter at Stanford.

Wu Yongzhen also took only Cheng Yanni with him, departing directly from Miami for the Bay Area.

At this moment, Wu Yongzhen was completely trapped in charlie's scheme. His mind was now consumed with how to turn his billion dollars into ten billion. He knew it would take years to accumulate that much money through constant embezzlement, so his only hope lay with Rachel.

When Rachel learned that Wu Yongzhen was coming to the Bay Area to invite her and her mother to dinner, she immediately understood his intentions. Rachel was equally excited, but her excitement stemmed from the fact that Wu Yongzhen was on the verge of falling into a deep pit, only one step away from plunging in.

At this private family dinner table, only Wu Yongzhen, Rachel, and her mother were present. Both

Rachel and her mother were understandably nervous in front of Wu Yongzhen. Aside from Rachel's current cooperation with charlie, a scholar before a Grand Commander was like an ordinary person meeting a powerful lord—the difference in social status was simply too great.

Wu Yongzhen intended to use this self-deprecating tactic to raise Rachel's expectations, making her feel flattered and thus more loyal to him—or more precisely, to find ways to make money for him.

Facing Rachel, Wu Yongzhen looked at her with the kind smile of a caring father, like a concerned elder in a family, and asked with concern, "Rachel, how are your studies going? Have you encountered any troubles or problems?"

Rachel respectfully replied, "Reporting to the Grand Commander, my studies are going quite smoothly, and I haven't encountered any troubles or problems. Thanks to the Grand Commander's care and guidance, and after receiving the Dragon Pattern Copper Token and the six-month supply of the antidote, I have much more freedom in my life and relationships."

After speaking, Rachel looked at her mother beside her and respectfully said to Wu Yongzhen, "I also want to thank the Grand Commander on behalf of my mother. If it weren't for your kindness, my mother wouldn't have had the opportunity to receive these things."

Wu Yongzhen was very satisfied with Rachel's attitude and said with a smile, "Oh, I've always been considerate of my subordinates. Your scholar family hasn't had it easy these past few years. To put it bluntly, there have been too many constraints. But things will get better in the future. As long as you work hard, I believe that before long, your family will only receive more and more resources!"
