Chapter 1311

"Our master has not accepted any disciples for a long time. This person might be powerful."

The people around him kept chattering. At this moment, Gu Shaoyang had also woken up. When he saw the branches around him, he couldn't help but feel moved in his heart.

Since Nowadays, Lin Dadu has been able to come to the outer world where he is, which means that the other party must have successfully advanced. Looking at Lin Er and Lin San who were thrown half to death in the audience, Gu Shaoyang couldn't help but feel cold. He looked at them and smiled:

"Don't think that I don't know what you did just now. If this matter is revealed, I guess the teachers in the hospital will not be able to step down. It does not mean that the teachers in the hospital are still yours. Elder?"

Anyway, the three people in front of me have already fallen off the duel platform. This means that these people have already been completely defeated. However, Lin Da refused to admit defeat at all:

"Our competition this time did not say that you can bring your spiritual pet with you. Why did you summon your spiritual pet out of nowhere? It's obviously you who cheated and cheated. If it weren't for you cheating and cheating, I'm afraid you wouldn't know what you would be like now!"

The voice sounded particularly angry, and after hearing this, Gu Shaoyang just gave him a cold look. It seems that the man in front of him really will not shed tears until he sees the coffin, and will not give up until he reaches the Yellow River:

"Obviously you were the first to cheat before. If you still feel aggrieved, then I can give you another chance. Think carefully about whether you can beat me, right?"

The people around them were discussing them crazily. Naturally, it can be seen that at this moment, Gu Shaoyang has already far surpassed the three people in front of him.

Lin Da was furious. When they came to the duel stage again, the people around them couldn't help but began to ridicule, and a few people even said openly:

"Obviously I was defeated just now, and now I have the nerve to continue going up. If it were me, I would have already felt shameless."

The people around him looked a little gloating, but Lin Da simply didn't care what they said, because the most important thing for her now was to quickly think about how to defeat Gu Shaoyang.

Originally, she was the one who started this final. If she lost to the man in front of her again, , then it is estimated that there will be no way to gain a foothold in the family.

The duel began again. Due to the experience from the previous time, Gu Shaoyang paid special attention to Lin Da's small movements in front of him from the beginning. There was absolutely no way that he would let The other party used those crooked ways to succeed again.

In less than two minutes, Gu Shaoyang had directly pressed Lin Da on the stone in the duel field. He looked at the man under him coldly:

"I thought you were so capable, but it turns out that you can only yell. If everyone in the world could yell like you, then there would probably be nothing in this world!"

The voice sounded very sarcastic, and after hearing this voice, Lin Da still refused to admit defeat, but he had been beaten by Gu Shaoyang just now with a bruised nose and face, and there were several scars on his legs.

"You'd better admit defeat quickly. I've been merciful to you from the beginning. If you don't admit defeat, you will probably lose your life on this duel stage today."

The spectators around him obviously couldn't stand it at all, but Lin Da still refused to admit defeat. Just when he was struggling to stand up, a majestic voice suddenly came from behind:

"Damn you, why don't you admit defeat quickly? Haven't you seen that people have been merciful to you from the beginning? What else do you want?"

An old man with gray hair walked over outside. After seeing this old man, several students who had been practicing in the academy for several years hurriedly bowed beside him:

"Hello Teacher Lin, they were really making a fuss, so we immediately pulled them both off the stage."

The old man in front of him is the elder of the Lin family, and he is also an elder with certain authority in the college. Now he can't stand it anymore, so he takes action to stop Lin Da from continuing.

Of course, those people from the Lin family are They were unwilling, but after struggling for a while, they also discovered Gu Shaoyang's powerful strength.

If it weren't for the sake of the teacher, Gu Shaoyang would not have been merciful to these people from the beginning, but But the group of people in front of him were so ignorant.

Chapter 1312

Lin Da was already beaten to the ground and unable to get up. At the same time, the elder next to him stopped them again:

"Vicious competition is prohibited in the academy. If you two don't stop immediately, then I will implement the rules in the academy. Please stop it quickly."

Anyway, the elders have already said this, and Gu Shaoyang is not willing to continue fighting with the man in front of him. In the end, he may still be punished by the dean. Before leaving, Mr. Lin still looked unyielding. But now Lin Dalian can't even stand up, and Gu Shaoyang also deliberately mocked and said with a sneer:

"If you really want to provoke, please find someone who is almost as strong as yourself and see what you look like now. Don't you think what you are doing is embarrassing?"

The ridicule in the tone can naturally be heard at once, and after saying this, Gu Shaoyang left the duel stage directly, and the elder soon knew what happened today.

In fact, the elder of the Lin family usually She didn't make much contribution in the college when she was young, but just because she was senior, the teachers in the college would deliberately let her go.

After hearing that Gu Shaoyang had defeated Lin Da without any effort, That night, the dean happily called him into his study.

I thought that the dean would definitely disapprove of his fighting in private. What I never expected was that the dean did not criticize him, but instead continued to criticize him. There he praised and said:

"This matter was handled very beautifully this time. After what happened this time, I believe that no one else will question your strength. Sure enough, I didn't choose the wrong person?"

Seeing the dean in front of him smiling proudly, Gu Shaoyang suddenly felt a little embarrassed. Shouldn't ordinary teachers stop fights? Why doesn't this dean seem to care at all? It seems that he has already seen through Gu Shaoyang. Thoughts in his heart, at the same time, the dean happily put the brush on the table:

"Don't worry, I know you must have been forced to do something this time. If it weren't for the aggressiveness of those people from the Lin family, you probably wouldn't be able to get along with them."

The old dean has not spoken about closed disciples for a long time. Now he has accepted a closed disciple inexplicably. I am afraid that the group of people in the college will feel weird in their hearts.

And after this battle , , everyone in the college has realized how powerful Gu Shaoyang is. In this way, no one will deliberately think that the dean is unfair.

Strong people should have more resources, and this Once the dean even specially called Zhi Zhi over:

"Your spiritual pet is completely different from others. I think your cultivation level is almost catching up with yours, right? You are really powerful. It is not easy to conquer such a powerful spiritual pet."

The old dean really admired his disciple very much. After hearing this, Gu Shaoyang touched his head quietly in embarrassment. He would scratch his head when he was embarrassed:

"In fact, I am not a qualified master at all, and there is nothing I can do to help him practice normally. I can only help him find spiritual veins everywhere, and then let him practice on his own."

Think about it. I really didn't play a big role in Zhi Zhi's advancement. On the contrary, the other party saved my life today. If the other party hadn't arrived in time, I would have really been beaten by Lin today. The big poison killed him.

Time continued to go down like this, minute by minute. The next day, the old dean took Gu Shaoyang to a secret room. There were countless secrets of cultivation in this secret room? And there were also Some of them are things that others would never think of:

"You can use the information here at will in the future, but you must not tell others about this place. If you tell others about this place, be careful that I will destroy all your cultivation."

Since it is already a famous training place in the outer world, then the academy must have its own magic weapon. Looking at the big secret room in front of him, Gu Shaoyang seemed to understand something in his heart.

Because in the previous time He won the competition, so the people in the academy these days all discussed Gu Shaoyang's matters, and every time they discussed, their tone sounded particularly envious:

"No wonder he became the old dean's closed disciple. You don't even know how powerful that person is. He just used three moves to kill all the Lin family members. Do you think he can't be powerful?"

Chapter 1313

The voice sounded very excited, and after hearing this, Gu Shaoyang felt strange in his heart. He didn't want such a big honor, he just hoped that he could practice well in this academy safely. That's it.

As the saying goes, extreme joy can lead to sadness. In just a few days, Gu Shaoyang's prestigious reputation has spread to every corner of the college, and this naturally caused dissatisfaction among some people.

As a newcomer who just came to the college, the limelight has even surpassed the seniors before, which naturally made those seniors unable to swallow this breath.

The training time passed very quickly, and in the blink of an eye it was already the beginning of the annual task meeting in the academy, and the main task of this meeting was to observe the progress of all students during the year.

Seeing that more and more people have signed up for this conference, Gu Shaoyang originally didn't want to be in the limelight at this conference, but the old dean asked him to attend.

Moreover, the old dean directly gave Gu Shaoyang a fatal order this time, asking him to win the first prize of this conference no matter what. If he failed to win the first prize, then the secret book of the secret room would not be available in the future. Give him whatever he wants.

After hearing this, Gu Shaoyang felt a little emotional. He had no choice but to sign up for this mission conference. But what he didn't know was that since he signed up for this mission conference, he had become a person that countless people wanted to conquer. Object.

Maybe the things faced by capable people are very special and unusual, so now Gu Shaoyang has already unknowingly become the target of others.

Since he has decided to participate in this training conference, Gu Shaoyang must do his best. Besides, the old dean had already given him a death order when he came this time, so Gu Shaoyang naturally had to work hard. Fight for the first prize.

This time, the mission conference requires a team to be held, and most of the students in the college are all.

Although many people know that Gu Shaoyang is particularly powerful, but no matter how powerful he is? They are just students who have just enrolled in school for a while, so there are still no famous families coming to invite them.

In addition, Gu Shaoyang had too much limelight among these student groups before, so now he has become the person those rich kids deliberately want to target, and naturally it is impossible to draw him into their team. go.

Without those people from prominent families pulling her into a team, Gu Shaoyang felt a little more relaxed in her heart. What she hated most was dealing with those messy people. Dealing with those people was really tiring.

There are also some people in the academy who have no family background and have worked hard on their own. These people naturally formed a pair, and Gu Shaoyang also joined their team by the way.

Gu Shaoyang usually only practiced in that secret room, so he didn't know many of the famous figures in this academy, but she saw familiar figures in her team.

I think there were three people who entered this academy in the same batch as me. Apart from Lin Er, there was only Lei Fang, and now the other person was sitting next to him with an indifferent expression.

Maybe it's because the two of them belong to the same group of people who entered the academy, so Gu Shaoyang has a special affection for Lei Fang. He watched everyone around him discuss the next countermeasures lively, but the other person sat alone in Xiaozhu. When they were on the chair, Gu Shaoyang couldn't help but walked over and said:

"Do you think we have any competitors this time? I think their previous team seemed to be pretty strong, and the team of rich kids probably had a lot of good equipment."

The expression on Lei Fang's face seemed unhappy, but after hearing this, the other party snorted coldly:

"What's the big deal? It's not like money is everything in this world. So what if they have really good equipment? As for those crooked people, I don't believe they can really become powerful."

Lei Fang is originally a person who is cold on the outside and hot on the inside. In addition, there are too many people around her now, so her whole aura is cold, which makes the remaining few people unwilling at all. Come here.

Everyone's team formation has almost been successful, and the teacher that day also called them directly into a large auditorium. This time he was going to announce the rules of this task conference.

Chapter 1314

"Classmates, I believe that you have all participated in the task conference before. I also believe that everyone knows that the task conference requires certain strategies. Now that you have found your

respective companions, I hope you can continue to interact with each other. Trust, cooperate with each other, and finally achieve perfect success."

The teacher's voice sounded very sweet, and after hearing this, Gu Shaoyang quietly pulled Lei Fang's sleeve next to him, then pointed at a bald man in front of them and said:

"Have you seen that person? I remember that person was already in our college before. He was very strong, and it seemed that few people in the college dared to mess with him."

All the people in this academy were selected through various selections, and there are also many geniuses among the people in front of them. After hearing this, Lei Fang frowned. He was concerned about the bald man. The man really had no impression at all.

Before the real mission this time was announced, Gu Shaoyang specially said hello to the members of his team. After all, they were going to work together next, so of course they hoped to be able to. The mutual cooperation continued.

Gu Shaoyang had already gained some prestige in the college before, and the people around him especially admired him. One person even whispered in her ear:

"You are already a famous figure in our school now. I believe you will be particularly powerful this time. If we can win the first prize, then I will definitely treat you out for a big meal. meal."

These people look very warm, at least hundreds of times warmer than those disciples from rich families. After hearing this, Gu Shaoyang also smiled happily. He didn't care about this.

As for this Can he win the first prize this time? Gu Shaoyang didn't know in his heart, because he didn't know what task he was going to participate in this time?

The teachers on the stage prepared in a hurry, and then announced it The first task of this task conference.

The first task is to obtain the egg of the fire phoenix bird outside the sky. The egg of the fire phoenix bird outside the sky is a famous thing, and this thing is also very good for cultivation..

But when they heard that the first mission was to obtain the eggs of the Fire Phoenix Bird? The companions around them couldn't help but wilt, and one of them even said angrily:

"Is the teacher really too bad? How can we be asked to find the eggs of the fire phoenix? This thing is obviously just for fun."

Gu Shaoyang has heard others talk about the Fire Phoenix Bird before. Although the eggs of the Fire Phoenix Bird are indeed particularly beneficial to cultivation, the Fire Phoenix Bird has always paid special attention to protecting its eggs.

Although everyone has felt a little strange, but they still came to the volcano together, and the heat around them was almost swallowing them up.

In order to complete the task as soon as possible, Lei Fang was the first to climb to the outside of the volcano, just as he was walking forward At that moment, he suddenly felt that his feet slipped and he almost fell down.

Seeing that the other party was about to slip out, Gu Shaoyang immediately tightened the rope on his hand, and finally pulled Lei Fang out.....

After finally dragging Lei Fang up from the volcano, both Gu Shaoyang and Lei Fang were breathing heavily.

If it weren't for Gu Shaoyang's help, Lei Fang would have been there by now He has fallen into the bottomless abyss. There should be nothing left now, right?

Lei Fang has been a cold-faced and warm-hearted person from the beginning. Although he is very grateful in his heart, On the surface, he still deliberately pretends to be very calm.

"You must be careful. If we really fall this time, there won't even be anyone to collect our bodies."

Gu Shaoyang naturally knew that the person in front of him was not good at words, so when he faced the other person's indifferent expression, he didn't feel that bad.

At the same time, Lei Fang finally nodded. I never say any words of thanks, but this time even though I blushed, I still said these two words:

"I'm really sorry to trouble you this time. Since you saved my life, I will definitely return the favor to you in the future."

The two of them are in the same team now, so Gu Shaoyang doesn't care at all whether the other party will return his favor? He just hopes to end this mission as soon as possible. The so-called volcano is naturally a very hot place. If it really fell down, the consequences would be disastrous.

Chapter 1315

If he fell, he would probably become a part of it, and not even a whole body would be found.

Looking at the lava below that was constantly bubbling, Gu Shaoyang was also thinking about other things in his mind. If they wanted to get the eggs of the Fire Phoenix Bird, they had to pass through this magma.

In fact, Gu Shaoyang did not expect that the first mission assigned by the academy would be so dangerous. Fengniao has always lived in the center of the volcano, and the environment they live in is particularly dangerous. Ordinary people simply cannot accept it. Come on.

The reason why no one has regarded the Fire Phoenix as their pet for so many years is because the environment in which the Fire Phoenix lives is so harsh, and it is impossible for ordinary people to get close to it.

Just when Gu Shaoyang here was about to gather all the remaining people and discuss his next steps, Lin Er's voice suddenly came to his ears at this moment. :

"You are the most powerful freshman in our entire college. If even you can't do anything, what else can ordinary people like us do? Now all hope is on you, you must come up with a way for us."

After hearing this, Gu Shaoyang was really speechless. He was not the most powerful new student he claimed to be. Besides, the old dean hadn't had time to teach him anything yet. Why should he put all the important responsibilities on him? On his body?

And just when Gu Shaoyang here was about to refute, several other teammates nodded at the same time. They all thought that Gu Shaoyang had extremely powerful power? So this time it was natural to put their hope Relying on him:

"Isn't that right? We have already heard that you are very powerful. If you can really win the special prize this time, you will definitely be able to prove your strength. You must think of a way quickly. , we can't stay in this damn place forever, can we?"

The people around him sounded very urgent when they spoke, and after hearing this, Gu Shaoyang felt that his whole body was not well. He was not sent by God, and there was no way he could time travel like this. Hot lava.

Just when Gu Shaoyang here had no way out, the Lei Fang in front of him suddenly said calmly:

"I believe that all of you here are the best of the best. If we can work together to complete this mission, we will definitely be able to receive awards from the academy. Are you really not willing to let your instructors look at you with admiration? ?"

The voice sounded a little strange, and after hearing this, the people around him finally stopped talking. At the same time, Gu Shaoyang breathed a sigh of relief. It seemed that Lei Fang was still standing. On his own side.

Although Lei Fang usually refuses to say too much, he has always been a very reliable person, and Gu Shaoyang also thinks that this person is better than those around him. How many times more.

Since branches are more afraid of flames, they have been obediently staying in Gu Shaoyang's space ring during this period. Several times, Gu Shaoyang even put the ring directly in his pocket.

They had already heard It was said that Gu Shaoyang had a very powerful spiritual pet, so Lin Er kept saying:

"Don't you have a particularly powerful spiritual pet? You can summon your pet now. Besides, if that pet can really help us, then you haven't cultivated it in vain for so many years."

Obviously knowing that branches are most afraid of flames, but Lin Er in front of him always provokes him so much. Gu Shaoyang can naturally see what is going on in this man's heart?

In order to be able to protect his spiritual pet. At the same time, Gu Shaoyang didn't care about what the people around him said. He looked directly at Lin Er in front of him coldly and said threateningly:

"We all have to complete the task this time, so I don't intend to be an enemy of anyone. If you really want to stir up trouble, then you should carefully consider the consequences."

Gu Shaoyang's tone was very fierce when he said these words. After hearing this, other people naturally did not dare to speak, and Lin Er could only go to the small corner next to him.

Everyone was there People kept watching at the entrance of the volcano. They wanted a way to enter safely, but they didn't know what to do.

Chapter 1316

Just when Gu Shaoyang here was carefully observing the volcano in front of him, Lin Er suddenly rushed out from behind and pushed him down.

If it weren't for Gu Shaoyang's tight grip on the branch next to him, he would have rolled into a large volcano by now.

A very strong heat surged up under his feet. He watched Lin Er in front of him looking down at him. At the same time, Gu Shaoyang felt extremely angry in his heart:

"You are the most powerful in our academy. If you can't enter this volcano, then it's even more impossible for us to enter this volcano. Stop pretending. Your talent is so powerful. Enter this. The volcano will definitely treat you well."

The people around them all looked at each other. They felt that such a threat must be bad, but no one dared to stop them. They only heard Lin Er sneer over there:

"I'll give you half a minute to think about it. If you don't jump off the lava quickly to find the fire phoenix within half a minute, then don't blame me for carrying out some extraordinary measures on you."

Nowadays, Gu Shaoyang only has one hand holding Yanbian tightly, so he can not be transferred to this volcano. After hearing this, she looked at Lin Er quietly.

From the beginning of the selection, From now on, the man in front of me has already been eyeing him. Before he could cause much trouble, this man came over and stared at him again.

If he had known earlier that the man in front of him was so despicable and shameless. If so, Gu Shaoyang must have killed him and his fellow disciples long ago, and there would be no chance for them to come here to practice unscrupulously. The current situation is really difficult for Gu Shaoyang. It was too unfavorable. Several disciples had already gone to the side to look for clues. Looking at Lin Er's angry eyes in front of him, Gu Shaoyang could only pretend to agree.

Fortunately, he had already observed what was under his body just now. There seems to be a small recessed place. If you can jump down at a clever angle, you should be able to jump to that recessed place just right. After thinking of this, Gu Shaoyang jumped down suddenly. , taking advantage of the fact that Lin Er in front of him didn't see clearly at all, he hurriedly rolled into the recessed place on the stone wall. The whole space was extremely hot, even though it was extremely hot in this space. It has exceeded the highest temperature in the outside world, but it is much better than jumping into the magma.

After thinking of this, Gu Shaoyang finally poked his head out, and it was already difficult to see clearly above, and the huge steam made it difficult to see clearly. He couldn't see anything clearly, and the magma tunnel underneath was steaming.

In the past, Gu Shaoyang didn't want to meet Lin Er and others at all, but this time this group of people went too far. At the same time, he also Quietly climbed up on the other side

"You must have jumped into the magma just now, right? The magma is so hot and stuffy, I guess Gu Shaoyang will definitely die this time."

When Gu Shaoyang sneakily climbed up on the other side, the people around him were discussing happily. Lin Er, the leader, looked beaming:

"If it weren't for this man, one of my senior brothers should be able to come in to practice. It's because of this man that only one person in our family came. They are all this man, this man. The senior brothers in our family have been punished."

Lin Er's voice sounded very angry, and after hearing this, Gu Shaoyang just rolled his eyes. If he could be blamed for these things, it would be really unfair. Is it one o'clock?

While Lin Er in front of him was not paying attention at all, Gu Shaoyang directly kicked the man down. Originally, they were relatively close to the volcano, and in addition, Lin Er was accidentally kicked just now, so Lin Er He rolled straight towards the lava of the volcano.

There was a cry in his ears. Just when Lin Er was about to roll down, Gu Shaoyang reached out his hand and held on tightly. Lin Er, who was about to fall:

"You are really awesome! , I should have let you go many times before, right? I have obviously given you so many opportunities before, why do you have to come over and provoke me again and again?"

After saying this, Gu Shaoyang pretended to throw Lin Er in front of him.

Under Lin Er's body was hot magma.

Chapter 1317

At this moment, Lin Er really could no longer maintain his dignity:

"I was wrong, I was really wrong this time, Gu Shaoyang, even if I am begging you, please pull me up quickly, I promise that I will never cause you any trouble again."

Now Lin Er is only supported by one of Gu Shaoyang's hands. If Gu Shaoyang accidentally let go, the man would have rolled into the magma below.

"Our ability to enter this school to practice is due to our personal abilities and nothing else. Moreover, I don't have much support. Don't you think what you did before was too much? ?"

Gu Shaoyang was actually very angry in his heart. When he found out that the person in front of him actually wanted to push himself into the magma, he already knew that the matter was beyond his imagination. Time continued to slow down like this. Walking down, Lin Er was about to cry after hearing this. Now there was bubbling lava boiling under her body!

"I know that everything I did in the past was all prejudice. I also know that the things I did to you in the past were too much. I beg you to give me a chance to make up for my mistakes. If I really fall, If not, then our group will not be able to win the special prize. I believe you don't want to see such a lose-lose situation."

This sentence is true. Of course, Gu Shaoyang cannot really throw Lin Er down. He just feels that the person in front of him is too arrogant:

"I advise you to think it over carefully. The two of us are not in the same team at all now. At most, the two of us are in the same college."

After saying this, Gu Shaoyang directly pulled the man in front of him up on the cliff. He would not let this man really die. If he really let this man die, it would probably not be possible even in the academy. None of the teachers would let him go.

The reason why he did what he did just now was because Gu Shaoyang wanted to keep the people in front of him alert. If it weren't for the fact that he didn't want this person to make some mess, If it was something else, he might not pay attention to this person at all.

After directly pulling Lin Er up coldly, Gu Shaoyang left without looking back, while Lin Er on the other side was filled with tears in his heart. He felt aggrieved and aggrieved.

Lin Er had always felt particularly aggrieved in his heart. He didn't know why he was unexpectedly attacked by that man. He had already watched the man fall into the volcano. Why? Maybe he suddenly came out outside?

After finally waiting for Gu Shaoyang to leave, the few followers around Lin Er finally helped their eldest brother up in a panic. One of them even deliberately He said flatteringly:

"If it weren't for this man's shameless sneak attack, the eldest brother would definitely not have been fooled by him this time. It was because of this man's shameless sneak attack that the eldest brother was accidentally attacked by him."

The few boys around him naturally wanted to do everything possible to please Lin Er, but Lin Er never took them seriously. He just stared in the direction where Gu Shaoyang disappeared just now. He originally thought he wanted to take advantage of it. This was an opportunity for him to show off his power in front of Gu Shaoyang, but he didn't expect that he would be defeated by someone else. This made Lin Er start to become more dissatisfied.

Gu Shaoyang had already returned to his own team. To be fair, in fact, The overall strength of the team she led was relatively weak, and it was also equivalent to the group at the back:

"Our equipment cannot be compared with their equipment at all. Their equipment is too powerful, and I heard that one group even spent a lot of money to buy equipment that can go into lava.."

A member of the team couldn't help but complain. There are very, very rich members in other teams, and the rich members must have some treasures in their homes, so the treasures taken by those members must be very rich. Awesome baby.

The other team members also felt very aggrieved. If it weren't for the fact that they lost in family matters, they would never be worse than those so-called rich kids.

Because they are like this Bian can only rely on himself for hand-to-hand combat, so at this moment, the progress of Gu Shaoyang's team is much slower than that of other teams.

Even Lin Er's team has already surpassed it. Gu Shaoyang is a long way away.

Chapter 1318

At the same time, Gu Shaoyang looked at the brothers around him, and he suddenly found that there seemed to be a path that he could walk on:

"Brothers, I want to come over and ask for your opinions. If we continue on this itinerary, we will definitely not be able to keep up with the teams in front of us."

Gu Shaoyang began to analyze his current environment very objectively. If they really continue to follow the previous path, there is absolutely no way they can catch up with the previous teams:

"I have checked here carefully just now. If you want to fight, we can take the small road. The small road is definitely closer than the main road, but I am not sure if there are any on this small road. Danger?"

Gu Shaoyang had already checked around the area just now. He found that there was indeed a path around him, and the path was covered by weeds. At first glance, it seemed that no team had ever entered.

One of the team members around him Everyone looked at each other in confusion. This choice was indeed very difficult. If they chose to stick to the rules, they would probably end up in last place.

But if they really took the risk and took that kind of narrow path, they would probably be in trouble by then. They encountered some dangers on this road, and at that time they didn't even have time to escape.

Their hearts had already become extremely uneasy, and these brothers here didn't know what to say at all. At that moment, Lei Fang stood up directly at the same time:

"Our equipment is simply not as good as theirs. If we had been walking along the main road, we would definitely be in last place this time. I think we should rush forward and go to the small road to see if there is anything there. No hope of winning?"

Actually, a large number of people think this way, but they are also a little worried about the dangers on those winding trails. But since they no longer have any great hope of winning, they decide that they have to take a gamble in the end.

Everyone has reached an agreement. At this moment, Gu Shaoyang is already serving as a pioneer, preparing to go to this small intestine path, and they have not encountered any danger at all along the way.

Gu Shaoyang here feels When he seemed a little tired from walking, Lei Fang suddenly pulled his sleeve gently, pointed in a direction in front of him, and said in a low voice:

"I saw the monster in the interview. Without that monster, it would be the legendary fire phoenix. As long as we can lure that monster out, I believe we will be able to find their balls."

Looking in the direction pointed by the other party, he saw a little bird as expected. This little bird was completely different from what Gu Shaoyang had imagined. He thought that the fire phoenix bird was like a phoenix, but he didn't expect that the fire phoenix bird was like a phoenix. The bird turned out to be extremely dark.

The people in your team immediately started a plan. The others were responsible for escaping the fire phoenix bird, while Gu Shaoyang was responsible for taking out the eggs from the fire phoenix bird's nest.

Those good brothers around you They had already lured the Fire Phoenix Bird away, and at the same time, Gu Shaoyang was also preparing to go to the nest to get the egg back.

But just as he was about to go there, the people in Lin Er's team on the other side also The fire phoenix bird here has been discovered.

In fact, the fire phoenix bird can be regarded as a semi-social creature, so Gu Shaoyang was very careful at the beginning, for fear that his actions would attract the attention of other fire phoenix birds.

Watching helplessly, Gu Shaoyang was about to run away with the Fire Phoenix Egg. At the same time, Lin Er also directly threw the stone in his hand towards the Fire Phoenix Bird in another nest. This time But it really poked the ant's nest, and the fire phoenix flew up all of a sudden.

When Lin Er led a few people in his team to the crack next to the volcano, he happened to see Gu Shaoyang had already put out the fire The phoenix bird picked up the egg.

In order to prevent the other party from completing this task first, Lin Er deliberately threw a stone towards the fire phoenix bird at this moment, and this stone just happened to directly light up the fire bird. The phoenix bird woke up with a start.

Lei Fang felt frightened in his heart. When he found that the fire phoenix bird was running straight towards Gu Shaoyang, he immediately joined the battle. Then he stepped back a little. Little by little, maybe some of them might fall off the cliff. At the same time, Gu Shaoyang was also holding the egg in his hand tightly.

He had obviously been very careful just now, but he didn't expect that The fire phoenix bird was still alarmed. Gu Shaoyang originally planned to fight with the fire phoenix bird, but he didn't expect that he happened to see Lin Er and others next to him.

Chapter 1319

The expression on Lin Er's face looked particularly arrogant. Even if he couldn't complete the task, there was absolutely no way he would let Gu Shaoyang complete the task directly.

Looking at the evil smile flashing across the other person's face, Gu Shaoyang finally understood. No wonder the fire phoenix bird suddenly woke up. It seemed that the man had done something inexplicably, right?

Other teammates nearby were also fighting against the Fire Phoenix Bird in front of them, but because they were not familiar with the environment here at all, they felt that their physical strength was almost exhausted.

"Everyone, please hold on. There is already a cliff behind us. If we don't hold on quickly, we will all end up in this magma."

The voice of a teammate came from beside me, and the others who heard this voice felt particularly panicked. Seeing that the fire phoenix bird in front of them was about to attack them, at the critical moment. , at the same time, Gu Shaoyang in front of him threw the egg directly to Lin Er.

Since it happened so suddenly, Lin Er subconsciously reached out and took the fire phoenix bird's egg. When he came back to his senses, When they came, the fire phoenix bird had already rushed towards them.

Lin Er and the people in his team were really panicked when they came. They were just thinking about it. I just came here to join in the fun, but I didn't expect that nowIt became the key target of this fire phoenix bird.

"Damn it, hurry up and throw away the egg of the fire phoenix in your hand. If you don't throw it away quickly, I guess we will all be thrown into the lava by these fire phoenix birds.."

At this moment, the teammates around them all looked very flustered. When seeing this group of people looking flustered, Gu Shaoyang cheerfully reminded him carefully:

"I advise you to better protect the egg in your hand. If you really throw the egg away, the fire phoenix will think that you are the enemy who killed his child. , I will stay with you for the rest of my life."

Gu Shaoyang just said it casually. He didn't know whether the Fire Phoenix Bird would hold grudges, but the group of people in front of him really took what Gu Shaoyang said into their hearts. Now they are holding their hands None of the Fire Phoenix eggs inside knew what to do next.

If the Fire Phoenix eggs were really thrown out, then the Fire Phoenix eggs would probably It is very likely that they will regard them as enemies, and maybe they will never let them go in this life.

Anyway, their mission here this time is to bring back the egg of the fire phoenix bird. Thinking of this, Lin Er finally made up his mind.

While the group of people in front of him kept fighting with the fire phoenix bird, Gu Shaoyang once again led his team members to sneak into the fire phoenix bird's nest. It was still quiet inside. There were two or three eggs on the ground.

She put one of the eggs into her backpack, and then Gu Shaoyang took her team members and sneaked away again. Before leaving, she looked at the people over there with some pride. Lin Er fighting with the fire phoenix:

"You must protect the egg in your hand well. If you cannot protect the egg well, I guess you will not be able to complete the task at all."

After saying this, Gu Shaoyang slipped away directly. At this moment, they were all very excited, especially when they thought about Lin Er being forced to fight the fire phoenix bird just now, they couldn't help but He kept laughing there:

"Fortunately, we were a little smarter this time. If we were really deceived by that person, we probably wouldn't be able to get out of that damn place this time."

In fact, everyone feels a little lucky in their hearts, because they know that the Fire Phoenix Bird is very powerful, and the current environment is even more unfavorable for them.

If they are not careful, say no The Fire Phoenix Bird will most likely push them into the magma. If they really get into the magma, it's really impossible for even their bones to be left.

At this moment, Gu Shaoyang is leading the way with a smile on his face. , their team was the first team to complete the mission. No one had ever been optimistic about them before, but they did not expect that this time they would be the first to complete the mission.

When they happily took the fire phoenix When the bird's eggs came to the teachers, the teachers couldn't help but praise them:

"Your group can be said to have the fastest time, and you are also very special!"

Chapter 1320

"It's a long time faster than our teachers imagined. You are indeed the most powerful group."

Being able to get praise from the teacher, the people around were very excited, but Gu Shaoyang didn't care about these praises at all. She also wanted to know whether Lin Er and the people in his team had defeated the Fire Phoenix Bird. What?

Time continued to rush down like this. After about four or five hours, Lin Er and the members of his group finally appeared at the entrance in a very embarrassed state.

Of course, several other teams came back during this period, and the situation of Lin Er's team was undoubtedly the worst. Several people even had their clothes burned to the point where there were only a few pieces of fabric left. Looking at the people in front of them, the group of people came back from outside in despair. At this moment, Gu Shaoyang couldn't help but burst into laughter. It seemed that these people were really asking for trouble!

Even if the first mission was successful like this it was completed, and the team led by Gu Shaoyang was naturally far ahead. They were also the team with the highest degree of completion in the entire competition.

This time, several teams failed to complete the task. Although Lin Er's team was said to have completed the task, however, several members of the group were burned, and it is estimated that it will be difficult to participate in the competition.

The competition will definitely have a certain impact, and it is precisely for this reason that at the same time, these teachers do not care about them at all. Injury, but directly announced the second mission:

"Everyone performed very well in the first task. I also believe that everyone will be able to achieve good results in the future. Since you have passed the first level, I will announce the second level. Mission, the mission of the second level is to go to the deep sea to find lantern fish."

The shadow of the lantern fish he saw last time flashed through his mind, and at the same time, those around him couldn't help but start to get anxious:

"Oh my god, how could the teacher give such a task? Is this really too much? Lantern fish can only be found in the deep sea. We have to go to the deep sea to find this thing!"

Although they rarely saw lantern fish before, they have actually heard of lantern fish. Lantern fish is a valuable medicinal material, but the consciousness of lantern fish lives in the depths of the deep sea, so ordinary people it is rare to encounter lantern fish.

The people in Gu Shaoyang's group couldn't help but frowned tightly. They had heard that lantern fish live in the deep sea before. If it is true, if they live in the deep sea, how can they get into the deep sea?

Seeing that the people in the group in front of them have become extremely anxious, and at the same time, the teacher in front of them is also Shaking his head gently, he had already guessed that his classmates would definitely have this attitude:

"Now that you have successfully completed the first task, I believe you will definitely be able to complete the second task. The team that brings back the lantern fish first will be the winning team in this link."

After saying this, the teacher left directly. After hearing this, the surrounding students who participated had already exploded. They didn't know how to enter the deep sea at all.

Gu Shaoyang was in the previous He already had some experience by that time, and it was precisely for this reason that before setting off to the deep sea, he directly called all his brothers over:

"I know that everyone must be very worried now, but don't worry. I have seen lantern fish before, and I have some experience. I called you here today just to give you some instructions. A few things."

Things like lantern fish cannot be moved casually, and this kind of thing is particularly dangerous. I think several of my brothers died from this lantern fish:

"From a distance, the lantern fish looks like it is holding a lantern in the deep sea, so as long as we can enter the deep sea, we will naturally know where the lantern fish is, but you must not touch it, this thing is evil Very."

Originally, everyone felt a little worried in their hearts, but when they heard that Gu Shaoyang had some experience, several people at this moment immediately became happy.

"No wonder you are a closed disciple who was accepted by our dean himself. You are really amazing!"

"I also think you are really awesome. I have long heard that lantern fish in the deep sea are valuable medicinal materials, but no one has ever been to the deep sea."
