Chapter 1471

The scene in front of him was so familiar. He was almost defeated by him before, but this time it was different. When he fought with the opponent, he actually turned defeat into victory, because he had just defeated the opponent in this place. , so he is a person who gets up wherever he falls. He truly and seriously fulfilled this sentence.

After a while he stood up and said to the person in front of him

"Very good, this time I will definitely beat you until you cry for father and mother, and the clan leader opposite was dumbfounded after hearing what he said. You can talk big words when it comes to young men, but some big words cannot be said easily, otherwise you will definitely get into trouble. Troublesome."

After hearing this, Gu Shaoyang didn't take her words seriously at all, because in his eyes, this guy must be the loser. He had a certain belief in his heart, and he fought hard towards this belief for a while. , the other party suddenly discovered that Gu Shaoyang's methods were ever-changing, and he figured it out this time. But the next time it was the same, it was really amazing. No wonder the two little guys around him said they should be more careful. , but he ignored it at all. Is there already a small board now? The answer must be yes, because it is now at the last moment.

At this last moment, Gu Shaoyang said to him

"If you admit defeat, I will spare you. If you don't, I will let you have a very miserable end and make you lose very humiliatingly."

At this time, the other party didn't believe what he said at all.

"She thought he was just scaring herself, but Gu Shaoyang actually did it in the end."

In the end, he lay miserable at Gu Shaoyang's feet. When his disciples saw this scene, they were simply shocked. When did the master who was always aloof become so humble? What can be done

? Anyway, everything has already happened. It happened, and he had no choice but to let it continue.

Soon, the war was over. After a while, he stood up. He felt very embarrassed and did not stay on the field for long and then After leaving, only Li Zhou and Liu Chengmin were left in charge of the overall situation. At this time, Gu Shaoyang walked up to them generously and said

"Have you already agreed before that you will never bother us again from now on, and we can go as far as you want?"

Although Li Zhou was very reluctant, he still nodded and agreed.

"Yes, this is indeed the case, we have already promised you."

Okay, great, if that's the case, then I'm relieved.

Soon at this time, the King of the Daughter Kingdom and Wu Yi came over from the other side. Originally, there was no end for them. Why? Because Gu Shaoyang and Tianci said Waiting for news from them, he waited until he gave him a signal to let the two of them take action, so the two of them kept waiting outside.

However, they found that there was no signal, but they could not act rashly for fear of damaging them both. It was a personal action, so he kept waiting outside. While waiting, he found a sound of fighting coming from inside. He thought he had been discovered, but when they were about to go in, they found that it was already over. This action was simply It was too fast.

After Gu Shaoyang and Tianci took their father out at this time, not to mention how happy they were. They returned to the academy together and asked the doctor to take a look at his father, fearing that there would be something bad.

Afraid that they They would treat their father cruelly. After an inspection, they found that they had not touched their father's branch. This made them feel a little confused. Then they asked their father why they did not torture you. Didn't he regard you as a thorn in his side? How could he let you go so easily? He has passed us.

But at this time, his father said

"Son, I don't know what's going on. They said it was a pity that I was a scholar, so they didn't do anything to me. But I am also very grateful to them, otherwise I would have lost my life now."

After Gu Shaoyang heard what he said, he didn't expect that these people really still have some humanity and have not reached the point of being inhumane.

You are right. Although they are a group of treacherous and evil people, sometimes He is very particular about what he does. Take me for example. He has never done anything that hurt me. I am very grateful to him for this.

"Father, I have one thing to ask you. Did Li Zhou really not kill you or say anything resentful to you?"

When talking about this person, my father sighed and said

"This child is also pitiful. In fact, she cannot be entirely blamed for some things. She has already told me that the reason why he became obsessed is entirely because of. Even when Kevin Rudd doesn't want to, sometimes he does things out of his control, and sometimes he doesn't. I don't know what happened, so he is quite pitiful."

"Don't worry, don't be deceived by her appearance. Sometimes she may use sweet words to deceive you."

Chapter 1472

But you must not believe this guy. We have been in contact with him for the longest time. Don't we still know what kind of person he is? So don't listen to him, otherwise you will be deceived by him.

"Don't worry, kid. I can see that my father is not stupid. He is a pretty good person. He was just delayed because of certain things. But believe me, he is not such a treacherous and evil person. We should give him some advice. his chance"

"Father, Father, you asked me to say something good about you. It's not that I don't want to believe him, it's just that sometimes the things he does are really too unacceptable."

"Well, if he changes his ways in the future, I will still accept him, but if he continues to be stubborn, there is nothing I can do about it."

After the child said this, he was finally relieved. He didn't want his son to always have hatred in his heart. There should also be some other things in existence, such as a magnanimous heart. In this way, his father's body was not too big. After a few days, he was finally able to come and go freely. After seeing this scene, Gu Shaoyang was extremely happy, but at this time they discovered one thing, that is, the king of the daughter country was depressed every day..

Seeing him like this, Tianci found him one day and asked him if he wanted to deal with the affairs of his country. Unexpectedly, his daughter's aunt nodded and said

"Yes, my mother handed the country into my hands. I didn't expect that in just a few years, I would be in a bad situation. If he doesn't do it, how do you think I can see my father and mother after I die?

I really didn't have the face to see them, so I wanted to either take back the country or die in front of my father and mother's graves to apologize to them.

After hearing this, Tianci became nervous and said

"You must not have such thoughts. If you have such thoughts, you might as well fight for it. If you want to take over the country, you can tell me and Gu Shaoyang, and we will definitely help you."

"If you can really help me, I'd be really grateful to you."

"Well, you must cheer up from now on. Only in this way can you have a chance to make a comeback, you know?"

"Of course I know, but I don't know how to take this step. I don't even know if there is a chance."

"Then whether your people will accept me again, all of this is unknown to me, so this matter is really not easy for me."

Who knew there was a voice coming from behind, and he couldn't help but say

"You are not even afraid of death, are you afraid of anything else?"

They looked back and saw that it was Gu Shaoyang who was talking behind them, so they nodded to him and said

"So do you have any good ideas? If you have a good idea, you can tell us and let us hear it. Maybe we can actually adopt it."

"Okay, okay, if that's the case, then just listen to me and I will definitely help you."

Okay, since that's the case, let's do it.

Soon he returned to the room and they started to make the next plan. They hope to make this plan quickly, and then try to take back the daughter country as soon as possible.

When After they saw the plan that Gu Shaoyang helped them make, they were very happy. At this time, Gu Shaoyang's image in the king's mind became even taller. He was thinking that if he was his own model, he would definitely govern the entire country. It's very good, it's a pity, it's a pity that he will never do something of his own.

After hearing this, he sighed, and at this time, Gu Shaoyang had already guessed her heart when she saw him like this. I believe what and then talking about

"You must stop your thoughts. I will never be your subordinate. I like to live a free life and don't like to be restrained at all. So your thoughts must not be on me, otherwise I won't do anything. It will succeed, but it will only increase your troubles. This is my advice to you, and I hope you can adopt it."

At this time, the king's face was full of black lines after hearing Gu Shaoyang's words. He never said it. He just thought about it in his heart. Unexpectedly, she discovered it. It seems that this guy is really powerful. He was too smart, so he decided not to become an enemy with this person, otherwise he would not know how he would die.

Fortunately, he and she were friends. This was the most fortunate thing for her. After thinking of this, he said with a smile.

"how can that be possible? You misunderstood me. I would never have such an idea. Besides, don't I still know what kind of person you are? How could I embarrass you, right?"

"If you want to think this way, that's right. Anyway, don't let yourself do something that will embarrass you."

"Don't worry, how could I do this? I absolutely won't."

So from this moment on, we should make a good plan on how to take back the daughter country as quickly as possible.

Chapter 1473

At this time, Gu Shaoyang couldn't help laughing after hearing what the other party said.

"Of course, we really have to think of a way now, how can we snatch your daughter country back from the other side? You must know that the other side is also a very powerful country. If you don't have a better plan, I believe You will definitely not be able to get this back. As long as your product has not succumbed to them, then you have hope.

But if your subjects have yielded to the other party's notice, then all their efforts will be in vain."

After hearing this, the king of the daughter country suddenly felt very decadent. Why? I don't know why she always felt that the king of her daughter country was very incompetent.

A good country was taken away by others, and He didn't have the ability to take it back, so he had to rely on his friends to come up with a plan to take it back. At this moment, he was very humble. Seeing the king of the daughter country like this, Goddess felt a little distressed, and then said

"Don't think too much. He didn't say anything. He just asked them to think about their plan."

"Do you know how to get these things back better?"

After hearing this, he couldn't help but said, couldn't he?

"We should think of a better plan now to get these things back, otherwise everything will be in vain."

After hearing this, Tianci felt that what he said was very right, and then said to her

"Thank you, if this matter can be completed, we will be very grateful to you."

At this time, Gu Shaoyang suddenly laughed and said

"What does it have to do with you? You said I'm not yours. If you want to thank me, it's the king who thanks us, right?"

After saying that, Wu Yi was also making noises next to him. At this time, Tianci suddenly felt a little embarrassed, wasn't he? Although the two of them had already held a wedding at the King of the Daughter Kingdom, it was still illegal for them to go here. He lowered his head in embarrassment.

How could the king of the daughter country let his husband suffer such ridicule at this time? Then he said

"No matter what, he is my husband. We are one from beginning to end. Do you care?"

After saying that, he took Tianci's hand and showed off his affection in front of them.

After a while, they came to each other and said

"Okay, okay, please stop irritating us. Let me tell you, we must find a good way to take the daughter country back from the other side. Otherwise, there will be no place for you as king.."

After hearing this, the king of the daughter country nodded seriously and said

"What you said is true. This place was left to me by my mother. How could I lose it in my hands? So no matter what the cost, I will get it back. This is my ultimate goal."

"Well, let's sneak into the Daughter Kingdom starting tomorrow. I believe there should be your old subjects there, and he should be able to cooperate with us inside and outside."

After hearing this, the king of the daughter country nodded and said

"Yes, you are right, there are indeed some of my old subjects there, and they will help me. Just like that, a few of them set off on the second day, leaving a letter to their father, telling him where they were going.."

But when they left, a layer of protection was set up here because they were afraid that after leaving, the other party would use very despicable means to deal with their father.

So his father would also listen to them quite easily and easily He will not go out of this protective layer, otherwise if he is caught by the other party, he will become a burden to his son. He will not do such a thing.

After seeing this, he couldn't help laughing and said

"If that's the case, well, let's start from now on, and I can help you handle all this matter."

At this time, they have now reached a place 300 kilometers away from the daughter country. They thought it was very safe here, but they did not expect that their troops would be attacked halfway.

Seeing these guys, Gu Shaoyang smiled coldly, thinking that these small soldiers can do it, don't we? It's like hitting a stone with an egg. After saying that, he started to kill the opponent in all directions. In one breath, he had knocked down all the opponent's soldiers in a short time. Some were killed by him, some were disabled by him, and some were beaten to the point of dying. There were all kinds of situations. Then he came to the opponent's commander and said in front of him

"Tell you about the emperor of the Jin Kingdom. If anything comes to me, don't let my friend get into trouble. Doesn't he like to take other people's countries? Then let him protect his country from now on. Maybe one day I will take his country and give it to the king of my daughter's country."

Chapter 1474

"It's best to go back and tell him exactly what I said, otherwise you will too."

After saying that, the commander quickly fled with the few remaining soldiers. Then he returned to the palace of the Jin Kingdom and told the emperor about the matter. Unexpectedly, the British Emperor Said with a cold smile

"This time you dared to say such words to me in such a loud tone."

And the soldier who came back at this time said

"Don't look down on him. He is indeed very powerful. Otherwise, why do you think we only came back with these few soldiers? It's all because he was killed by him. If I can come back, I will definitely bring them back. , but you see that there will be very few life-saving soldiers when we come back.

We already know how powerful the opponent is, so from now on we should take a serious look at the strength of the king of the daughter country, otherwise we will lose sooner or later, completely."

Originally, these words were all well-intentioned, but in the eyes of the King of Jin, they were tantamount to destroying his prestige and boosting others' ambitions, so he committed the crime of collaborating with the enemy and treason. Soon, after he finished speaking He was dragged down and beheaded by the little soldiers he called. This man's death was really unjust.

When Gu Shaoyang knew the news, not to mention how interesting it was, he didn't expect that he was just sending a message to himself. It would be a great injustice to kill the other party, but even if he knew he would do it, because his subjects had nothing to do with him.

So they can do whatever they want, they are just pretending Just a passer-by. At this moment, the king of the country spoke. What do you mean by the king of the Jin Kingdom?

Why are you calculating along the way? Is he afraid that I will take the opportunity to take the place back? He is afraid. , so be prepared in advance and intercept me on the way.

"You are absolutely right, it is very likely to be like this, but you have to believe me"

"I will definitely handle this matter well for you. No matter what the price is, since I have decided to help you, I will definitely help you to the end. I will not give up if I don't take your country back."

Hearing Gu Shaoyang swear here, he believed it very much. After all, he knew Gu Shaoyang's character very well. She is the kind of person who can't follow her promise. As long as she makes a promise, she will definitely fulfill it.

After seeing this scene , he couldn't help but laugh

"Okay, okay, Gu Shaoyang, I know what kind of person you are, so you don't need to swear in front of me that we are best friends. I will believe whatever you say, as long as you can help me think of ideas to give this daughter country to me. Take it back for me, I am very grateful to you."

After hearing this, everyone laughed. Soon, they came to the territory of the Daughter's Kingdom, but they did not go in directly because this place no longer belongs to the original Daughter's Kingdom. There are rulers of other countries here. If they find out, it will definitely become a trigger for the other party.

So he will never become like this. They carefully climbed up from the city wall while it was dark, and he carefully returned to his original Imperial Preceptor. At home, where the Imperial Master was sleeping at the moment, he was surprised to see the king suddenly appear in front of him.

But he was more happy. He thought that the princess lost her teeth during the last incident. He fell to death. I didn't expect him to come back. It was really great. After thinking of this, he couldn't help but exclaimed.

"Great, you're finally back."

At this time, Gu Shaoyang spoke.

"Okay, okay, stop talking nonsense and say something useful quickly, otherwise the other party will find out, and then neither of you will be able to eat and walk around."

After seeing this scene, the people nearby began to ask the king

"How did you stay? The last time I saw you, falling from such a high cliff really didn't break you."

After you finished speaking, you looked up and down and found that he seemed to be exactly the same as before. You were not injured at all, and then you said

"Don't worry, my life is very lucky. I met my friend and my friend cured me."

Don't mention how surprised I was when I got here, and then said

"If that's the case, that's really great. Please tell me quickly what happened during this period. Why was a good country robbed? I'm still confused until now, you don't know"

"Should I know? Don't forget, wasn't I seriously ill some time ago? I was on bed rest for three months. When I recovered, I found that the owner had changed. I thought you were the one who sent me back. I didn't come online mainly because you were raped by someone. Defeated and absconded.

Then the country was occupied by others, is that what you mean? Can I understand it this way?

You're absolutely right, and that's exactly what you mean."

Chapter 1475

"In fact, I don't know what happened. Anyway, I always felt that there was a serious problem within our daughter's country. I was ready to start a thorough investigation, but I didn't expect that I encountered such a thing halfway. No need to guess that it must be Some people were afraid that I would taste something, so they started to harm me like this."

After hearing what the other party said, he couldn't help but laugh.

"How is that possible? This guy and the princess were born on the same day, and you both appeared on the same day, so all this is either a coincidence or destiny."

At this time, the other party couldn't help but laugh after hearing Gu Shaoyang's words.

"is not that right? It's really such a coincidence. Tell me what you have to do when you come to my place. If you can do it, I will definitely help you. If you can't do it, I don't have any solution."

At this time, he couldn't help but say

"I came here just to check on you and see if you are okay."

The main purpose is to partner with you and ask you to help me cooperate inside and outside, so that I can expel the other party and let them leave this daughter country.

After hearing this, the man said nothing. Just say it well, I will cooperate with you how you ask us to cooperate with you. As long as you can say it, I can do it, but someone must lead me. If so, I don't know what to do. Hear this Then he couldn't help but laugh and said

"Of course, I will take you well."

After saying that, they turned around and left, leaving a letter to each other when they left. After she read the letter, she knew what to do. At this moment, they had come to the place where they lived before. place, the boss here has become their friend.

So when the boss saw Gu Shaoyang Tianci and the others coming back together, not to mention how surprised he was, but he didn't see clearly. The king's appearance, because at this moment The king was trying to save face and didn't let others see what he looked like. At this time, the store owner didn't make any unexpected moves. He didn't force him to take it off. Anyway, the boss was very happy that Gu Shaoyang had given them a gift to come back. Yes, after all, they had a very pleasant time before.

When Gu Shaoyang Tianci and the others left here, they specially came to see the boss. He didn't expect that he would be able to do it again in his lifetime, which really surprised him.

Right here The king has spoken. Is the boss here reliable? Will we be exposed if we come here to rest? After hearing this, Gu Shaoyang said with a smile.

"Don't worry, he can definitely be relied on. Once again, he saved us. If it hadn't been for him, how could we have escaped so quickly."

After hearing this, the princess had a great change in her view of the landlord.

"So tell me quickly, what should we do next, and how can we get this matter done? I don't know what method I have come up with at the moment. Please tell me."

After hearing this, he couldn't help but said

"In fact, I have no clue until now. Let me think about it carefully. Maybe the pressure during this period is too great, and I don't know what to do for a while."

At this moment, Tianci next to him spoke.

"That's it. How about we follow the same method as last time?"

"No, no, absolutely not. How could such a thing happen? I will never let such a thing happen. Just give up. But other than that method, what else can we do? Think about it for me."

When they knew they were thinking about something, the door was knocked from outside.

At this time, Gu Shaoyang came to the door very cautiously and took a look outside. It turned out to be this old man, and then he raised his head very politely. glanced at it, and then said

"It turned out to be the boss."

After a while, they opened the door. Seeing the boss at this time, he even smiled.

"I didn't expect you to come in. We can come in and talk about anything."

After saying that, he opened and closed the door. At this time, Gu Shaoyang looked at the boss in front of him with a serious look and said

"Tell me, who sent you here? Don't think that I don't know that you have been there for a long time, so you want to hear what we have to say, right?"

After hearing you, the boss didn't expect that Gu Shaoyang was so accurate in breaking up the circle. He was indeed sent in by others, but he didn't want to do anything to hurt them. After hearing this, he would smile and say

"Don't worry, I didn't promise them to hurt you. I just wanted to hear some things I wanted to know, and I didn't want to use this or any income for this."

After arriving here, he chuckled.

Then he said

"You are right, it is indeed like this."

Chapter 1476

"I was sent by others to find out information, but I can swear to you that I never wanted to hurt you. I just wanted to do it without anyone noticing."

Then report the situation to the other party, and then everyone will be happy.

After hearing this, Gu Shaoyang couldn't help laughing and said

"Do you think I will believe what you say? Now I don't even know which side you are from. I didn't expect that after knowing you for so long, you would betray me in the end. I am such an unlucky person. I have made many friends in my life, but almost every friend Doing hurtful things to me.

Only the two in front of her can't do it now, but she doesn't know what it will be like in the future."

After hearing this, he couldn't help laughing and said

"If that's the case, then don't ask anymore, maybe you can taste some other things."

After jumping here, he couldn't help laughing and said

"Well, if that's the case, let's leave."

After saying that, he led Tianci and Gu Wang to leave this place, but the other party stopped him all of a sudden.

"No, no, actually you don't need to be powerful, I just need to pass on some false news to them."

But Gu Shaoyang raised his eyebrows at this time and said

"If you give him false news like this, won't they cause trouble for you when they find out? In fact, I very much disagree with this approach, but Gu Shaoyang is talking about you at this time, how can it be possible for him to suffer some hardships, so what are you going to do now?"

After hearing what the other party said, he chuckled and said

"It doesn't matter, leave this matter to me, and I will definitely give you a satisfactory answer. Although I am now forced to deliver daily news to them, there is no other way, and my heart still scares you.

Although I don't know what you are doing here now, and I don't know if we will be able to help you in the end, but please. You have to believe me, I will definitely give you a good answer."

After listening to her words, Gu Shaoyang didn't know what to do for a moment. It was better to believe it or not believe him. After all, their relationship was still very good before. At this time, Tianci heard a very important message, and then ask her

"Then can you tell me who forces you to deliver messages to others every day, especially outsiders like us." After hearing this, the boss suddenly sighed and said

"What else could it be, but the guy who just robbed this country ordered each of our stores to hand over everyone's description and language system to them every day, so that they can take precautions before it happens, but you know I don't know that if I do this, I can only do what they said. That would be really incredible."

At this moment, Gu Shaoyang spoke.

"Don't worry, I know this matter well. Since he said he can give us a satisfactory answer, let's wait and see how he answers us now."

Just like that, on the second morning, suddenly a group of soldiers came upstairs. After seeing this scene, they immediately remembered that the man must have arrested them. Why didn't they believe each other before? But now they look at it. It seems that this is not the case.

What is going on?

At this time, the soldiers have come to Gu Shaoyang and the others. Seeing that they have unfamiliar faces, they say, you guys have never Where are you coming from, where are you going, and what is the purpose of being here? After hearing what the other party said, Gu Shaoyang didn't wait for Gu Shaoyang to speak.

I saw the boss walked up to them with a smile, and gave them a certain amount of gold and said

"It's like this. They are some of my relatives who chose a room. They just arrived here last night and they were met by you before they were familiar with everything here.

They are also very afraid, so just spare them and don't bother with them."

At this time, the commander of the soldier saw the heavy gold in his hand and couldn't help but say

"Well, I'll let you go today, and I'll start tomorrow. If they don't obey, I will definitely make them pay the price."

At this time, Gu Shaoyang saw that the few soldiers were actually deceived by the boss's smooth tongue. She had to look at the boss with admiration. Then she looked back at Gu Shaoyang, and they said with some embarrassment.

"I'm sorry, I didn't know these kids would come here to check up on him. If I had known earlier, I would have prepared you and almost been scared by them."

After hearing his words at this time, they couldn't help but nodded and said

"is not that right? We were just about to go out, but unexpectedly we were caught by a few of them, so we spared no effort to fight against them."

Chapter 1477

I didn't expect this. In the end, the child was solved by you. It seems that you have to take action, otherwise this matter will be really difficult to solve.

After hearing this, he couldn't help laughing and said

"is not that right? Just because you don't know this, how many wrong things have I done?"

After hearing this, they felt very puzzled, so they asked the boss what happened and why he said this?

The boss knew that this was actually the case before, and we didn't know that it was such a thing, but what? After all, it has happened, and I have no ability to change it, so I can only let it develop. However, with you here, I have full confidence. Although I don't know why you appear in this place.

But I know that there is something certain in you. There is something very important. If you can, just ask. I think I will be able to help you. At this time, the king suddenly became cautious after hearing what the other party said. He didn't expect that this guy was so smart and could actually It is guessed that they came here to do something big, but looking at the whole country, it can be seen that the only big thing is the king's problem.

So they must now realize that everything they have here has something to do with the king.

Listen here Then he couldn't help but laugh and said

"If that's the case, well, I will definitely spare no effort to help you get this done, otherwise I really don't know how to face you."

"Don't worry, leave this matter to me, and I will definitely help you solve it properly. By the way, if you need anything, just tell me. After all, we are still old friends. You can't help others. Believe me, are you still afraid of believing it?"

"Soon, they came to each other, glanced at Tianci and Wu Yi, and then left. The boss was a little confused about what they did.

They didn't know what this group of people were here for, but he had a premonition that something big would happen. She just hoped that this matter would not involve them. He knew Tianci and Gu Shaoyang very well, and knew This kind of thing should never happen to her.

Even if there were things that were difficult to talk about, she estimated that Gu Shaoyang would not send them to her like this.

At this moment, he couldn't help but laugh.

"I know why you do this, but I can tell you that there are only two conditions for them to do this. One is to be quick and participate in everything they do so that you can detect what they are doing.

The second thing is to keep it well. This is all said and done so that you can know the purpose of doing this.

But for some reason, there was a voice in his heart telling him not to get involved, otherwise the consequences would be serious. In short, training him is very contradictory. He is a combination of contradiction and reality."

At this moment he said with a smile

"If that's the case, well, don't be like this, otherwise I will be very uncomfortable. I don't want you to be on the opposite side of me. Then they turned around and left. Seeing their leaving figures, the boss suddenly He felt that what they said was not joking with him, so he had to assess the situation."

This is what we need to do to be beneficial to our future and to eliminate all those rebellious officials and traitors.

What did Gu Shaoyang God send them to do at this moment? They didn't go anywhere, they just came to the palace. On the periphery, they wanted to know what was going on in the palace.

So Gu Shaoyang said to Tianci and the king at this time

"You guys were waiting for me outside the door. I went in alone and took a look. It was going to be dark soon. It was a very good time for him to take action.

Sure enough, it got dark after a while. After it got dark, he said to them next to him

"You must remember to wait here. I must not go in, otherwise the consequences will be disastrous. After getting the consent of several of them, he finally took action."

Soon, he jumped into the palace by himself, because the city wall was not very high, and the moon was dark and the wind was high, so no one could see Gu Shaoyang clearly. He was like an elf in the dark night. It was made in the dark night.

Not long after, he came to the emperor's former palace. Sure enough, he guessed correctly. There was a man standing and lying there. If he guessed correctly, this should be the invader who stole the daughter's kingdom. That guy.

After seeing this, he couldn't help complaining. He was such a worthless guy. He could snatch other people's things away so easily. After he got the things back, he would definitely not spare them.

Chapter 1478

After seeing this, he couldn't help but said

"He's really a guy who enjoys himself."

At this moment he couldn't help but said

"In the near future, I will definitely pull you down from this position. When the time comes, you will become the ancestor who everyone shouts and scolds, and you will definitely avenge them."

After seeing this scene, he couldn't help but laugh. At this moment, someone came outside. She came gently and came to the window ready to attack the other person. Gu Shaoyang was very curious at this time. Who is this person?

How could he possibly attack this guy? At this moment, the man lying on the bed woke up. When he saw someone attacking him, he immediately reacted and kicked the opponent fiercely. This kick was enough to prevent him from being kicked.

Only Seeing that the other party was lying on the ground in great pain, the king of the game in front of him stood condescendingly in front of the other party and said

"Who are you? Why does this happen? I have no enmity with you, why would you treat me like this?"

I saw the other party laughing loudly at this time and saying

"No grievances, don't you know where you are standing now? This is my daughter's country, because we, the subjects, are all blind? Let me tell you, even if you arrest me today, there will still be tens of millions of subjects of the Daughter Kingdom who will fight back against you, and you will definitely become the target of public criticism."

After the other party's explanation, the man finally understood who this woman was. It turned out to be a remnant of the Daughter's Kingdom. If this is the case, and he is so interested in the Daughter's Kingdom, then she must keep him well and see how he goes. How to rule the daughter country? After thinking about this, he said to this woman

"Don't worry, I will never kill you now, because there are still many good things waiting for you to see, so now I will keep you alive, so that every day you live, you can see the rule of your country. How powerful and rich he has become, he is always much stronger than the king of your original daughter country."

And at this time the woman suddenly spat at him and said

"Delusion is simply a dream. This doesn't belong to you in the first place. You have to get involved."

Although this man was very angry, he didn't do anything to him. He quickly put it into people's minds and told them in a good voice that they must entertain him well and never let him go. He suffers physical pain, and then let him live well and watch how their daughter's country is governed by them every day.

Suddenly, you will feel that this man is very scary, it should be said that he is calmly scary, like Like a poisonous snake, it will bite people inadvertently, so for him, the whole person is very scary.

Just when he was about to leave with me, he was suddenly discovered by the other party, and then said

"Who is this monster? Hurry up and show up. Otherwise, don't let us be rude to you."

After saying that, he drove in the direction of the other party fiercely. But this time, he did not beat him to death directly, but took care of her body, because Gu Shaoyang wanted to leave him alive

and let him see. How did the king of this daughter's country take back the entire country from his hands?

So after thinking about this, he said to the people in front of him

"Maybe I know you have a lot of doubts in your heart about why such a thing happened, but I can tell you."

The appearance of these things is reasonable. Just like me, although I defeated you, I can't directly take the country back now.

Because that is what some people should do, and I have nothing to do with it. Relationship, she must personally save the country, which is why they are inseparable.

After seeing this scene, he couldn't help laughing and said

"Okay, if that's the case then don't blame me for being rude to you."

After he finished speaking, he saw his opponent launching an attack, and this time he hit the opponent's stomach without any bias. This hurt the opponent badly, and Gu Shaoyang suddenly felt very sorry. He didn't want to hit him this time. It was on the opponent's stomach, and I just wanted to hit him on his calf.

Then he suddenly jumped up and landed on his leg. So at this time, you must not let everything come out in a mess, otherwise it will be easy. All gone.

Gu Shaoyang left in front of the other party in a big way again. Although the other party's acupuncture points were tapped by Gu Shaoyang, his thoughts and head were able to move. After seeing this scene, he couldn't even mention how angry he was.

He also thought that sooner or later, one day He will catch the other party, then cut him into pieces, and let him be such a rogue. He must take good care of giving this daughter to me. He took it back with great difficulty.

How could he be taken back by them so easily? ? It's simply a fantasy. After she recovers, he must mobilize more troops around, so that they will have no more opportunities to invade everything here.

Chapter 1479

After thinking about this, he suddenly felt that he was very smart, but he forgot that everything here did not belong to her in the first place. If someone took it back, at best, it would just return it to its original owner, not what he said was taken away.

So this person is such a strange animal. After taking other people's things as his own, he has an illusion that everything becomes his own.

At this time, Gu Shaoyang had returned to Tianci and the others. He was afraid that he would tell them about the situation inside, but he didn't expect that it would be really interesting to tell them about this guy.

How do you feel about actually turning something that was owned by you into a daughter's country and its past? When the king of the daughter country heard this, not to mention how angry he was, this guy was so shameless, because this thing became his, and he would never let him go.

At this moment, he couldn't help but said, if this is the case, then I must give him a severe lesson and let him remember it.

At this time, after Gu Shaoyang came back and told Tianci and the others what he had heard, Tianci and the others were not to mention how angry they were. This guy was really interesting. He actually had such an idea. After the time came to take back the country, He must let them take a good look at what kind of face this guy is like, and then he must torture this man for actually taking other people's things as his own.

It seems that he must use some means for him, otherwise he really doesn't know the north, south, east, west, and west. After thinking of this, he began to make a good plan on how to get back all the things here. Since it is If this is the case, then he must think carefully about what to do.

At this time, Tianci saw the king become so silent, and felt heartbroken for a moment, and then said

"If this is the case, we will definitely help you well. This time, we are here together to help you get this daughter back to me. Don't put too much psychological burden on you. You will be fine with our help. of."

After hearing this, he couldn't help but said

"Well, from now on, I will definitely listen to your arrangements. After all, I am a woman, and you men have the most accurate intuition on certain things, so I will definitely listen to you."

In fact, after Gu Shaoyang heard the other party say such words at this time, he didn't know why, but he felt a very bad feeling in his heart.

He no longer had the original feeling of superiority, or maybe what happened during this period was really He must have been made like this by magic.

But to a certain extent, this can be considered a good thing. At least it will allow him to grow quickly. He is still very satisfied with this. After hearing this, he couldn't bear it. Live said

"If this is the case, then you should listen to our arrangements. Don't worry, we will definitely help you get the place back."

After hearing this, he couldn't help but said

"If that's the case, then okay, we will definitely listen to you, so they started to make plans, hoping to get things back within a certain period of time, including the entire daughter country."

Unexpected events occurred in the sky. Just when they were preparing to implement their plan, the accident happened. Why? Because people from the demon clan also entered this world unexpectedly, which made Gu Shaoyang and the others feel very troubled. Why? I don't know how this other party called the demon people here.

Anyway, they are all connected together now. In short, if they want to take back the daughter country now, it should be a very difficult thing. Let them fall into In an unprecedented situation, after they came back at noon that day, Gu Shaoyang told them about the matter.

At this time, Tianci frowned and said

"What does this demon mean? At this time, Gu Shaoyang frowned and said, I don't know what it means. In short, he is involved in this matter again, which means that this matter is no longer simple. Maybe this is in this whole matter. , there's no telling what benefits they can get.

Maybe they came for some purpose. In short, this matter has become very complicated, so we must deal with this matter with 120,000 points, otherwise we will be eaten by them."

At this time, Tianci saw that the king suddenly turned around and left in a very disappointed manner. He was also very distressed when he saw him like this, and then followed him silently, but he did not speak to the king along the way, just He followed him silently.

After a while, the king suddenly looked back and was surprised to see Tianci Zheng and him following behind him. Then he walked up to Tianci with great concern and spoke.

Chapter 1480

"When did you come to me? How come I didn't know?"

At this moment, Tianci Hehe said with a smile

"Just when you left the hall, I followed you. To be honest, I was very worried when I saw you like this. Seeing that you were so desperate, why did you become so angry when you heard that demons were entering? Don't you have confidence in us?"

"I tell you not to do this, it will make us lose face."

After he finished speaking, he chuckled. In fact, he said this on purpose.

"In order to make her happy."

How could the king at this time not know Tianci's thoughts? So he smiled at him and said

"You don't have to worry about me so much. I'm just a little unfounded. In fact, it's nothing. I know you will definitely make the decision for me and help me. How could I be so worried? Don't worry. I definitely won't."

After hearing what the king said, he finally felt at ease. Then he came to the hall. At this moment, they had been discussing there for a long time. When he saw Tianci coming back, he just said

"God has just mentioned you, come and listen quickly, so in the next time, they began to arrange a series of plans."

The plan on their side is in full swing, and the other side is also planning on how to catch them all. At this time, a soldier next to him spoke.

"How about we do this? Let's search the whole place to find them. Wouldn't this eliminate the possibility of them being in the city? This will prevent them from counterattacking. After he said this, the emperor next to him heard it. I was very happy after that, and then I said, okay, let's make such a plan from now on.

It's best to drive them all out of the Daughter's Kingdom. This way we can save a lot of trouble. They got the support of the demon clan leader, and then they quickly started to implement this plan, and soon they appeared on Kung Fu Street. Many officers and soldiers searched Gu Shaoyang Tianci and several of them everywhere with portraits.

At this time, the owner of this store ran in in a panic and said, "You should leave quickly. There are many people outside looking for you. There is a lot of fanfare and chaos. If you are not careful, you will be caught by them." , the consequences can be imagined, and you will be unable to do anything.

At this time, he didn't have to worry about these things during the afternoon and day, and then he looked back at Gu Shaoyang

"Gu Shaoyang, what should we do? Will they leave the Daughter Country like this? If you leave like this, there will be no chance at all."

But at this time, Gu Shaoyang frowned and said

"There is no other way, we can only leave here now."

After a while, the king of the daughter country said, "I'm sorry, it's all because of me. I'm so sorry to make you suffer like this.

If it weren't for me, this wouldn't happen to you."

But at this time Gu Shaoyang said

"Don't say that. We are here just to help you solve your difficulties. Unexpectedly, they are superior to us and drive us out of here. But don't be discouraged. Even if we are not here, I still have a way to help you drive them away. Take it back."

At this time, after the other party heard his words, he couldn't help laughing and said

"Well, I will listen to you from now on. We can be expelled to a daughter country now. Then I will find a place for you. There, they will never think that this is my secret base, except for me. No one knows." Soon, a few of them said goodbye to the boss, and said thank you to the boss before leaving. Then the little king took them to his secret base, which turned out to be a dungeon. He had his own group here. Mercenaries, and then they saw their king coming here, not to mention how happy I was. Although they were a group of women, Gu Shaoyang could tell that they were a group of well-trained soldiers.

Seeing that the king was surrounded by a group of men, They frowned for a moment and asked the king, who are they? Why are they following you? Are they not in danger? At this time, the king said

"Don't worry, there is no danger. Now they are ready to help me get my daughter back, how about it? Do you have the confidence to work with them?"

These soldiers and generals were relieved after hearing the king's words.

"King, we are also confident that we can help you get your daughter's kingdom back. This is our belief all along. Don't worry, no matter how you send us, we are willing to do it."

At this time, Gu Shaoyang took a look. The people here found that they were really loyal and the quality of each person was very good. After they walked in for a while, they suddenly discovered the magnificent side.
