Chapter 1571

When the young man in white was slapped by Luo Zishan, his shoulders dropped. He felt that Luo Zishan's hand was really strong.

But he still smiled and said to Luo Zishan: "Hello, hello brother, you are really very powerful, you have jumped in from outside the hospital all at once." After all, this boy in white is really As a scholar, he didn't know anything about these techniques. Luo Zishan felt that these trivial skills could actually make others say that he was powerful. He had never heard of such a thing.

He laughed hahaha. At this time, his mood seemed to be really much better. He felt that this silly-looking boy in white was really interesting. If he wanted to be friends with him in the future, he would definitely be very happy. It's interesting.

Luo Zishan looked at the boy in white and said to him: "I like you very much. If there is a chance in the future, we can meet again in the Kingdom of Jin. I hope to become friends with you." Although the young man in clothes looks very polite and gentle. But looking at Luo Zishan's appearance, he really felt that the two of them were not in the same boat.

But he had always been educated and said to Luo Zishan: "Okay, I hope we will meet in the future."

Then he turned his head and confirmed the identities of several people at this time, and they should be the people mentioned by the national master.

He looked in the direction of Gu Shaoyang and Li Zhou, clasped his hands and said to them: "Jin Qiuming has told me that the people I am looking for this time are you two, and the appearance described is very similar to you."

Lizhou is really anxious at this time.

He immediately looked at it with great excitement. The young man in white said to him: "Jin Qiuming finally brought us one this time. Please tell me any news." The young man in white felt that he had found the right one this time. Got people.

So he cleared his throat and said to several people: "Our Imperial Master Jin Qiu Ming has already told me that he knows the specific location of Li Zhou's parents."

Then he started groping on his body. He stood up, took out a very small note, and put it on the stone table next to him.

Several people quickly looked in the direction of the stone seat. After Gu Shaoyang looked at it, there was no He thought it was a map.

But Gu Shaoyang was not particularly familiar with this country, so he didn't know what this place was referring to, but Qian could definitely tell that there was no Huashan Mountain in this place. There is no water.

So it should be a very flat place, or a topographic map of a very closed place.

Gu Shaoyang looked at the boy in white and said to him: "Where is this place."

The young man in white shook his head slightly and said, "I don't know either. Jin Qiuming just told me to give this map to a few of you, and then you will go find it yourself."

Gu Shaoyang felt that Jin Qiuming was really too smart. After all, he didn't even know a landmark or geographical location just based on this map. It would be very difficult to find it.

And since he didn't tell this young man in white, the specific geographical location may also be for the sake of safety. Gu Shaoyang felt that the mind of this national master was really not simple, and he was really very strategic. At this time, Lizhou had already looked in the direction of the map. , the more he looked at it, the more he felt that this thing was very familiar, as if he had seen it somewhere before. After all, Lizhou could be regarded as a royal relative of this country, and he had a certain understanding of some things. The more Li Zhou looked at it, the more familiar it became, so he never left his eyes, but held the topographic map in his hands. The boy in white felt that his goal this time, Everything was done, so he stood up.

With his hands clasped in his fists, he faced Gu Shaoyang and Luo Zishan very politely and said to them: "My task has been completed, so if you bother me, I'll take my leave. Tianci stood up and looked at the boy in white and said to him: "In that case, I really want to thank you very much this time. I'll go out and see you off."

Luo Zishan really likes this young man in white. He thinks this guy is so stupid and silly. He is really very interesting.

He looked at Tianci and she said: "No, there is no need for me to send this young man off.."

The boy in white was stunned. He didn't expect that Luo Zishan had such a good impression of him. He really didn't like this guy very much, but he still had his own politeness and could only clasp his fists with both hands once.

Towards Gu Shaoyang and Tianci directed a few of them and said to them: "Okay, let's say goodbye."

Chapter 1573

Moreover, Gu Shaoyang also looked at the bottom of the map. As expected, the map was intricate and complicated. There were many various traffic roads in it. This possibility really existed.

Gu Shaoyang looked at Li Zhou and said to him, "Are you really sure?"

When Gu Shaoyang finished saying this, Li Zhou was really not sure.

He shook his head slightly, then looked at Gu Shaoyang and said to him: "I'm not particularly sure. This thing is just that as senior members of our country, they all have a share of each other. I remember this defensive plan. It should be that I went into my father's study when I was young, so I have seen these pictures, but I am not particularly sure whether they are too old."

Gu Shaoyang was not particularly sure when he heard Li Zhou say this. , but Gu Shaoyang was absolutely certain in his heart that they should be inseparable, otherwise, Li Zhou wouldn't have such fresh memories.

And this kind of thing must be something other than the country and those particularly important people. No one should have the opportunity to see such a picture, so Jin Qiuming was able to know this place and draw it, just to let Gu Shaoyang and the others. Several people guessed that Li Zhou must have seen these things before.

After he thought about it, he looked at Li Zhou and Luo Zishan and said to him: "Whether it's true or not, let's go take a look tonight to see if there is anything like this in the imperial tomb of the Jin Kingdom." Don't Li Zhou's parents know?"

Luo Zishan is always a very anxious person. He feels that what Gu Shaoyang said is really correct, and for more than half a month, they have been like headless flies. It seems like they are running around everywhere, but there is no news at all.

It was just a night exploration of the imperial tombs of the Kingdom of Jin, which was not a particularly difficult task for them.

He immediately nodded in agreement to Gu Shaoyang, and said to Gu Shaoyang this time: "Yes, yes, yes, have a good rest now, and tonight, we will all go and take a look at the imperial mausoleum of the Jin Kingdom. What's it like? I just haven't been to this place yet."

Li Zhou really didn't expect that their friends would make up their minds so quickly.

He looked at these people and said to them: "Thank you very much, but that place is very dangerous. I can just go and investigate alone at night."

Luo Zishan directly put his arm around Li Zhou's shoulders and looked at Li Zhou. He said to her: "How is that possible? As I said just now, I have never been to that place. You can accompany me."

When he said this, it was as if he was joking with his friends. , Li Zhou knew that several of them were worried about him at this time, fearing that he would be in trouble when he went.

She nodded and said to them: "Okay, let's all take a rest. I will study this picture carefully, and I will think about the specific structure inside, and then we will set off after dark."

Gu Shaoyang looked at Tianci and the others. Several people said to them: "This matter is settled like this. Let's all be careful tonight."

Then they looked at the little girl Tianci. She should be scared to death if she went out at night.

He looked at Tianci and said, "You are weaker than the rest of us, so you don't want to go tonight."

Tianci was immediately very negative and stood up, looking at several people talking about them. Said:"That's not possible, I must go with you."

Gu Shaoyang did not expect that Tianci was very determined this time and expressed his thoughts directly, so Gu Shaoyang looked at Tianci's very determined eyes, Not denying either.

Instead, he looked at Tianci and said to him:"Okay, you go with us in the evening, but no matter what happens, you first take care of yourself and take care of your own safety."

Tianci knew a few of them. She was worried about herself, and knew that she would be a drag on them. After all, she was a girl, and there was indeed a certain gap between her and the others in terms of physical strength.

She nodded with certainty and said to them:"Don't worry, I won't hold you back."

They hit it off immediately and stopped talking about it. After all, they were afraid that the walls had ears, so they were very worried. of insecurity.

Gu Shaoyang looked at Li Zhou and said to him:"Take this thing to your room and study it carefully. The rest of us will go back to rest and prepare."

After all, they will take action tonight, for sure You need to change into night clothes, and you also need to prepare all your weapons.

Tianci, Gu Shaoyang and others, after explaining everything, they all returned to their rooms.

Night came slowly, and Gu Shaoyang and the others were all ready.

Chapter 1574

Gu Shaoyang had already changed into night clothes in his room, and also found a scarf to wrap around his face.

Gu Shaoyang even found some gunpowder. These things can be used by the few of them when they escape. They have already used many of them last time. Without these fireballs, they will feel that they want to escape. But it's not an easy thing.

So this time he brought many such life-saving magic weapons.

When he walked out, he had already seen Luo Zishan in the yard, already wearing a purple robe quietly, with a scarf already wrapped around his face, and he saw Gu Shaoyang coming out.

She looked at Gu Shaoyang and said to him: "I didn't expect that you are really well prepared. I have rarely seen you wearing a black robe, and it looks really good in it."

Gu Shaoyang Seeing Luo Zishan joking with him, he had already taken off the scarf on his face.

Looking at Luo Zishan, he said to him: "Everything is ready."

Luo Zishan patted himself and said to him with a dagger on his side: "There is nothing to prepare. After all, we, the Qilin Beast Clan, are originally. My defensive ability is very strong, and if it doesn't work, I will half-transform back to my own body, which is my strongest offensive weapon."

Gu Shaoyang heard what Luo Zishan said and felt that what he said was really true. Very reasonable.

He walked to the stairs and patted them. Luo Zishan's shoulder said to him: "Li Zhou and Tianci haven't come out yet." At this time, the two people had already walked out when Gu Shaoyang had just finished talking about the painting.

Tianci was wearing black night clothes. When he saw Gu Shaoyang and Luo Zishan, he said to them, "I didn't expect you two to be ready so soon."

Tianci even carried a baggage behind him. Gu Shaoyang didn't know what kind of weird ideas this little girl would have. After all, Li Zhou's father was the dean of the academy, but his father had a bigger hobby, which was to study some weird weapons and some strange things. Qimen hidden weapons and the like.

But Tianci inherited it from his father, who has been very interested in these things since he was a child. Gu Shaoyang feels that taking Tianci this time is really a very right choice. Maybe when they are in danger, it is really God's gift that can save the lives of several of them.

When Li Zhou came out, he looked at several people very solemnly and said to them: "I have studied all the maps, and I also have some information about the imperial tombs of the Kingdom of Jin at home. I have them all." It has been arranged, so I believe that we will be able to come out safely this time, don't worry."

After hearing what Li Zhou said, Gu Shaoyang was of course very relieved.

He patted Li Zhou on the shoulder and said to her: "Of course we trust you very much. Come on, brother, let us see what the imperial tomb of the Kingdom of Jin looks like today."

Luo Zishan also He was really very interested. He had already stood up and said to them: "Let's go, we will definitely succeed this time."

Just when a few of them were about to set off, they did not think of this matter. They never thought about it. He told Lingdang that he was afraid that Lingdang would be very worried about them, but this little girl had already opened the door in her room and stood behind them.

Gu Shaoyang had already seen the bell, and the corners of his mouth raised slightly. Looking at Gu Shaoyang, several of them said to them: "I will make breakfast for you early tomorrow. I hope you can come back in the morning."

Gu Shaoyang saw Lingdang's very worried eyes, but he said so relaxedly The topic really touched her heart.

He nodded, looked at the little girl and said to her: "Don't worry, we will definitely come back for breakfast tomorrow morning. Go back and sleep well, and practice hard tomorrow."

Because the exercises that Gu Shaoyang told him last time, how to cause Regarding how to practice when entering the body, Lingdang has begun to practice gradually at this time. The little girl's progress is also very fast. She has almost learned the preliminary skills, so Gu Shaoyang feels that Lingdang is really a child to teach.

Lingdang nodded very obediently, and Tianci also waved his hand.

She looked at the bell and listened to him say: "Go back to bed quickly. Tomorrow morning, Sister Tianci will buy you delicious food." The little girl nodded and it was true. She seemed to be very

well-behaved and had already closed the door of her room. He closed it, but as soon as he closed the door, his tears had already fallen down.

Lingdang really felt that she was too weak. Gu Shaoyang and the others had always been taking care of her. If she could grow up.

Chapter 1575

If I could be stronger, I would definitely be able to help Gu Shaoyang and the others.

So he did not go back to bed immediately to sleep. Instead, he went back to his bed and sat cross-legged, and he began to practice very seriously. He must make himself stronger as soon as possible.

Gu Shaoyang and others have already arrived. The location of the Jin Kingdom's Imperial Tomb is located on a mountain in the suburbs. There are many royal soldiers guarding the periphery of this mountain, so Gu Shaoyang and others want to enter. This place also took some effort, but luckily a few of them managed to sneak in.

When they saw the huge entrance of the imperial mausoleum, Li Zhou pointed to that place.

He said to them very carefully: "That place is the entrance. There are people guarding it all year round. They will change the guard after a while, and then we will move the tiger away from the mountain and think of a way to get in."

Gu Shaoyang nodded and looked at the current time. , it is already midnight, this time is exactly when people are tired and horses are exhausted, and these people have been guarding the country and the imperial mausoleum all year round, so they have slowly begun to slack off about this place.

For these people, they are just guarding a group of coffins, and there is no place to guard, so they are even more slack.

Just when they were about to start changing their posts, Gu Shaoyang was already looking at those people. Everyone was in a bad mood.

Then he threw a stone in the direction to the side.

Someone heard this and said, "Who dares to come in and out of the Royal Mausoleum?"

After one soldier said this, another soldier looked at him and said to her, "What on earth happened?"

Then the soldier said to him: "There seems to be a sound over there. I don't know what it is. The two of us went over to take a look." I really didn't expect that the branches over there actually had a sound, so the two of them He had already walked in that direction, and the other two soldiers standing guard, who were very lazy at this time, were already at that place preparing to take over.

At this time, Gu Shaoyang and the others looked at the two soldiers standing guard and wanted to transfer them away. It was very easy for them.

Gu Shaoyang looked in the direction of Luo Zishan and motioned to Luo Zishan with his eyes to lead the two of them away.

Luo Zishan immediately transformed into the appearance of his own Qilin beast, but it didn't look particularly big. Then he started to shuttle in the nearby forest, and there was a sound of rustling trees.

Sure enough, the two soldiers standing guard suddenly opened their eyes and looked in the other direction.

The soldier said to him, "Is there a sound over there?"

One of the soldiers immediately began to nod his head and said, "Yes, I heard a sound over there, too. Let's go over there." Let's take a look.

Sure enough, the two people had been led away in the direction of Luo Zishan and had already looked over.

Gu Shaoyang and Li Zhou really didn't expect that it would go so smoothly, so they immediately jumped to the door of the imperial mausoleum, and then Gu Shaoyang very quickly took it out in his hands. With the dagger, it was very easy for him to open door locks and the like. After opening it, he pushed the door and carefully opened a crack.

He and Tianci and the others had already entered. Gu Shaoyang left a little door open for Luo Zishan. When Luo Zishan saw them entering, he had already used his Qilin hand and quickly He had already changed back, and then he turned into a small Qilin beast, and he quickly ran into the crack of the door, and was soon pushed up by Luo Zishan, as if no one had ever Looks like he's been here before.

, when the guarding soldier came back, it was really strange.

Looking at another man, he said to them:"Did we see an animal just now, but we don't know where it went."

The other soldier sighed and said to him:"This It is very normal to encounter some cats and dog teeth in the wilderness. There is nothing strange about it. It may be some kind of wild beasts coming to this place to look for food."

Because in their golden country, the emperor Things like this often happen in the mausoleum, so without arousing any suspicion, Gu Shaoyang and the others were allowed to enter the national imperial mausoleum very smoothly.

When you enter, it is really dark inside, but it is very well built. As soon as you enter, you have a very glorious feeling.

Gu Shaoyang held a small fire stick in his hand and lit a little fire.

Chapter 1576

It has already been illuminated towards the inside.

Li Zhou had already studied this place very clearly. He pointed in the direction directly in front of him and faced Gu Shaoyang.

Several of them said:"That place is where some kings of the Jin Kingdom hid after their death."

Then they pointed to the place to their right and said to several of them:"That side is where some waste is hidden, so we Several people have to search separately. I don't know where they will hide my parents."

Gu Shaoyang nodded. He knew that it was very wrong to disperse all their friends at this time.

He looked at Li Zhou and Luo Zishan, and they said to them: "Let's all go first. Look for those kings' places, but don't scatter, be more careful."

A few people were following Gu Shaoyang without saying anything. They were already walking towards the inside with the help of the very small light.

Li Zhou pointed to one of the forks in front of him and said to Gu Shaoyang. : "Turn left at this place."

Gu Shaoyang immediately turned his direction, and then walked towards the left direction.

Several people turned around, and after walking for about a quarter of an hour, they received Li Zhou's instructions and came to a A very large space.

There are two coffins placed in this place. It really looks like the place where the kings were buried. Li Zhou has already walked in and saw the fonts on it. It should be a king and queen from several generations ago. The place where two people were buried.

But this place is clearly visible. Except for those gold, silver, jade and other things, there is nothing to be found.

Gu Shaoyang looked at Li Zhou and said to her: "There is no secret passage."

Because Gu Shaoyang has already explored this place, up and down, and has found nothing suspicious now.

Li Zhou nodded and said to them: "That may not be in this place. After all, their entire Jin country, It has been hundreds of years old, so the tombs of kings in this place and several generations of kings have begun to expand, and the space inside is getting bigger and bigger. If you want to go out and find someone, It's really not easy."

A few of them continued to search for another place.

But they still didn't find anything.

So Gu Shaoyang and the others, without giving up, continued to search, and found a Place after place, the time has come, early in the morning.

If we don't arrive early at this time, it may be almost dawn outside. It seems that it is impossible for the few of them to go out this morning. , so at this time, both Gu Shaoyang and Tianci were really anxious.

Li Zhou was even more anxious and sweating profusely at this time. After all, they were wandering around this place, why did he feel as if he had returned to this place again? What?

Li Zhou looked at Gu Shaoyang and the others and said to them:"Do you feel that we have been to this place just now and are you lost?

Because in this place, every direction or every space is similar, and the gap is not particularly big.
Gu

Shaoyang nodded and said to him:"It is indeed the first few places we have visited. We have just arrived at this place. Have we already walked around and searched all the places?"

Li Zhou was really very decadent at this time. He didn't expect that if he wanted to find his parents, would he soon be defeated? Are his parents really not here? What they are doing now Inside a mausoleum, there is the tomb of a king, but their walls are a little different from other places. There are some Qimen gossip and even some books. It seems that this king used to be really. An arty person.

Tianci has been influenced by the dean of his father's academy since he was a child, so he has always been very interested in these books, especially these ancient cultural books. What's more, the king of the Jin Kingdom has already They have been dead for hundreds of years, and these things are even more valuable for collection.

Tianci had already stretched out his hand in the direction of the book and began to read it very seriously with a little light.

At this time, Gu Shaoyang and the others were still discussing what they should do next, but what they didn't expect was that Tianci looked more and more seriously. He felt that he was a little tired.

He wanted to lean on a bookshelf at the back and lean on it slightly. At that time, the bookshelf suddenly made a loud noise.

Gu Shaoyang was startled, and immediately turned around and looked in the direction of Tianci. Tianci immediately looked at several people very nervously.

Chapter 1577

They were afraid that when a few of them moved, they would attract others' attention.

But fortunately, this area of the imperial tomb passing through the country must be because it is heavily guarded outside, so it has always been felt that the inside is very safe, and no one is in this place.

Gu Shaoyang looked at Tianci and said to him: "Are you okay?"

Tianci shook his head slightly, but when he was shaking his head, several people were silent. When it was very quiet, he heard three clanging sounds and knocking on the wall. Or the sound of something being knocked.

Tianci immediately stopped breathing, his own voice and breathing, looking in the direction of the few of them, a little unbelievable, then he continued towards the direction of the wall, and had already leaned over and pressed against the wall, his ears When attached to the wall, you can hear clearly from a long distance.

As soon as Tianci pressed it up, he immediately heard the ding-dang sound again, as if he was picking up the wall. He was really in disbelief. They all opened their eyes wide and said to Gu Shaoyang and the others: "Someone is knocking on the wall."

Gu Shaoyang and the others were discussing something. When they heard Tianci say this, they immediately walked towards Tianci's direction..

Gu Shaoyang said to Tianci: "Really, you really heard it clearly, someone is really knocking on the wall."

Tianci nodded and said to him very definitely: "I am very sure that someone is really knocking. I have heard it for the second time."

Li Zhou was in disbelief and said to Tianci: "Could it be that my parents heard the sound, so they are sending out a distress signal at this time."

Gu Shaoyang and the others I think this is really possible.

Gu Shaoyang said to them: "I'm going to try knocking on it."

Gu Shaoyang was already holding a dagger in his hand, pointing towards the wall, and knocked out three ding-dang sounds. After the three sounds, they all held their breath and waited for the other party's response.

Sure enough, after Gu Shaoyang finished knocking, a while later, he heard the sound of his big partner knocking on the wall. At this time, each of them could not help but have their eyes widen. got up.

Gu Shaoyang looked at a few people and said to them: "Quickly, look for it. There must be a secret passage next to this place, and someone must be imprisoned here."

Luo Zishan started to act immediately after hearing what Gu Shaoyang said. I got up on the bookshelf and wall next to me and started to explore. Since there is a secret passage, it must not be very far from this place.

Gu Shaoyang is not particularly anxious. He is also exploring, but there are certain methods for these things. Gu Shaoyang has learned them from the dean of the academy before.

So Gu Shaoyang, who still knew a little bit, touched the porcelain bottles and slowly rotated them one by one, and then touched the jade articles, touching them one by one carefully, for fear that any of them might be their trap or danger. s things.

Tianci is much more proficient in these things than Gu Shaoyang. He immediately moved towards a crack in the wall and saw that the place seemed to be a little different. Tianci took his own fire and walked towards it. That place was photographed.

Then you can see Tianci walking towards that place very quickly. Knowing that Tianci must have discovered something, he immediately stopped what he was doing and followed behind Tianci to see what this little girl was like. It's weird, have you discovered it?

After all, Tianci has always followed the dean of the academy, so Gu Shaoyang is indeed much more proficient in these matters than Gu Shaoyang. If he only has a superficial understanding, then what Tianci should know is very accurate.

Sure enough, when the little girl Tianci stopped at a wall, this wall was on the opposite side of that wall. Gu Shaoyang really didn't expect that there would be a secret passage in the mechanism, and there would be its switch on another wall. ?

She looked at Tianci in a low voice and said, "Do you think the switch of this thing is on this wall?"

When Tianci just took the firelight in his hand, he had already shined it in the direction of that wall, and felt that that place seemed to be emitting light. With a little cold light, she felt that there must be a reason for this.

He nodded, took the torch in his hand, and pointed it in the direction of the wall.

While taking the photo, he said to Gu Shaoyang: "I think this place, there was a cold light that flashed into my eyes just now. I think this place should have an agency." When

Gu Shaoyang heard what Tianci said, he was really serious. It has also begun to grow around this wall. It looks like this wall is bare.

Chapter 1578

There are no mechanisms, and there are no decorations in the secret passage. How could it be where the real switch is?

But Gu Shaoyang's photo didn't matter. When he took the photo very carefully, he really found a silver-like clue that went all the way to the opposite side. Gu Shaoyang felt that this thing was really amazing. If you don't look at it carefully yourself, this thing is attached to the wall, you really can't find it at all.

Gu Shaoyang stopped at that position, looked at Tianci and said to him: "Come and see if this is the place."

Tianci heard what Gu Shaoyang said very quickly and walked towards Gu Shaoyang's direction.

Sure enough, he held his torch very seriously and shone it bit by bit. It was really like a hair-like silver thread, already emitting a little light in that place.

But the silver thread stuck to the cracks in the stone wall and extended little by little to the other wall.

Tianci said to him: "It should be this place. Let's study how to open it."

At this time, Luo Zishan and Li Zhou had already seen Gu Shaoyang and Tianci. They were studying another wall and knew that The two of them were very knowledgeable about these things, such as Wumen Bagua and Qimen Dunjia, so the two of them also walked in their direction.

Luo Zishan was very confused. He looked at the two people and said to them: "What's wrong? Did something happen? Or did they find some clues?"

Gu Shaoyang whispered to Luo Zishan: "This There should be a switch on the opposite side of the place. Let's all look carefully, but be careful, it is very dangerous."

Because Gu Shaoyang felt that since this room is so special, it proves that this place is very safe. I am sure this place, There will be some secret passages and the like. It will definitely be very dangerous if you come down.

But what he didn't expect was that as soon as Gu Shaoyang finished speaking, Luo Zishan had already seen it. There was a silver thread on the wall. He immediately took it and pointed his dagger in that direction, and he had already touched it. , but I didn't think about the silver threads. It's not a switch that turns on a mechanism, but a switch that turns on a machine puppet.

Immediately, he saw a wall that looked like a stone man, and he walked out with a clang.

Gu Shaoyang was really in disbelief. He didn't expect that this place was really very organized, and it was really different from other secret rooms.

Gu Shaoyang looked at Luo Zishan and said to him: "I let you touch it blindly. I really encountered some very strange things."

Luo Zishan was very interested. Looking at the machine puppet, he had already walked out. The stone puppet was already waving its huge stone arm in the direction of Luo Zishan.

Luo Zishan didn't dodge at all. He stretched out his unicorn arm and fell towards the stone arm. The rock cracked into pieces.

But how could he know about the machine puppet? It was painful and once again stretched out its other stone arm in the direction of Luo Zishan. Luo Zishan raised the corners of his mouth slightly, and then blocked it again.

I saw the machine puppet attacking one after another, and then slowly shattered into a pile of broken stones.

He looked at Luo Zishan with a smile, and Gu Shaoyang and the others said to her: "It's just such a chaotic thing, and it can't cause any danger to me."

Gu Shaoyang felt that Luo Zishan, He is really arrogant, but he really has such ability. For ordinary people, it is not easy to resist the machine puppet with the stone arm. After all, it is a huge stone. When it swings at you, it has a very strong force. Even if it doesn't flatten you directly, it will break your bones.

Gu Shaoyang was very helpless and looked at the pile of broken stones on the ground. He said to a few of them: "Be careful in the next thing, you will definitely touch these things accidentally." At this time, Li Zhou was thinking about some historical records he had read before, and he remembered that there must be such a King, he likes to study these weird things.

He looked at several people and said to them: "If what I remember is correct, this should be the third generation king of our Kingdom of Jin. He just likes to study these things, so he may bury these things with himself. How many of us are there?" Please be careful."

Luo Zishan was really interested and said to several of them: "Okay, then let me take a look at how powerful the things this king has studied are. Let me crush all of their things in one go."

Chapter 1579

Tianci had been silent all this time, but was studying those things very seriously, but as he studied and studied, he came to the side of the king's coffin.

Although Gu Shaoyang and the others didn't know what Tianci was doing, they did know that this little girl Tianci was very smart. As soon as Tianci surrounded the coffin, she began to explore it very seriously. After a while, Tianci He was already pressing the top of the coffin, which looked like something decorated with emeralds, and then he pressed his fleshy little hand on it.

Just listen to the stone wall on the other side, crackling slowly, and it has begun to open. Gu Shaoyang and the others really did not expect that this little girl Tianci is really very smart, and it has already opened so quickly. Found the key.

Gu Shaoyang walked very quickly in the direction of Tianci, looked at Tianci and said to him:"It was you who opened it."

Tianci didn't hesitate at all, nodded, looked at a few people, and said to them:"So, but I still have a certain use, am I very smart?"

After Shimen slowly opened his fist, Gu Shaoyang looked at Tianci and rubbed Tianci's hair.

He said to him:"He is indeed very smart. It seems that all the dean's Qimen Dunjia and weird things have been discovered. You studied hard and found the method so quickly. Tianci was really unconvinced. Seeing Gu Shaoyang walking towards the stone gate, he said to her,"My father doesn't study things as well as I do.""

Luo Zishan no longer wanted to look at the two people flirting in that place.

He said to the two people:"The stone door has been opened. Don't talk nonsense. Come in quickly."

Li Zhou on the other side couldn't wait for a long time. He took the lead and walked to the side of the stone gate. He went in directly.

Gu Shaoyang and the others really didn't expect this place. It really is a different world. It seems that The few of them, whether it was luck or skills, were really good. They had all followed behind Li Zhou.

At this moment, they had already walked in from the direction behind the door.

Unexpectedly, the Jin Kingdom National Imperial Tomb , this place was already built underground. After opening the stone door, they still walked in the direction of the underground, and it seemed to extend very far.

Li Zhou didn't hesitate and walked in the direction inside. Although there is a map in his hand, but it is completely useless to hold the map in his hand at this time. After all, even if this place is in his hand, the map does not appear at all.

When Gu Shaoyang followed Li Zhou, he looked at Li Zhou's appearance at this time also showed that Li Zhou was very worried about his parents.

She reminded Li Zhou in a low voice and said to him: "No matter you are worried, you must first ensure your own safety and don't go too far." Soon, be careful."

After Li Zhou received Gu Shaoyang's warning, he stopped slightly. He said to Gu Shaoyang: "Don't worry, I will be careful."

At this time, several people were walking down bit by bit. After walking dozens of steps, they stopped. There was a piece of water below, and all the water had reached their ankles.

It seems that this place is really very deep. Maybe the underground water has begun to slow down, or this place is a water prison.

Because Gu Shaoyang and the others can see that although the space below is not particularly large, it is still enough. Duoping's appearance.

Gu Shaoyang looked at Li Zhou, Tianci and the others and said to them: "Everyone, be careful. If there is something under the water, it will be very dangerous."

Because they don't know anything about these unknown things, so they have to be careful next time.

After Gu Shaoyang finished speaking, Luo Zishan quickly changed back to his own body and became a Qilin Beast, who was the first to take the lead, was already standing in the water.

He looked in the direction of these people and said to them: "I will clear the way for you first."

Gu Shaoyang really didn't expect that Luo Zishan was really very responsible at this time. He actually opened the way for several people first. But look at Luo Zishan's Qilin Beast body. It looks very hard. , Gu Shaoyang thought of Luo Zishan leading the way, and they would take the lead to open the way, which would definitely have better results. After all, the Qilin Beast's body armor is very hard. When a few people walked down, Gu Shaoyang held a torch in his hand and already took a light. After lighting up this place, this place looks really very simple, and there are huge diamond iron railings in every place. They really look like cells one after another.

Gu Shaoyang, really. I never thought there would be such a place.

Chapter 1580

But they had just heard the sound of tapping on the wall, which was very close to her. What on earth was going on?

Could it be that it was very easy to transmit this sound in the upper and lower spaces, or that the sound was coming from the place directly below Gu Shaoyang and the others? The more Gu Shaoyang thought about it, the more he felt that there was such a possibility.

Gu Shaoyang looked at Tianci behind him, carefully stretched out his hand, and already took Tianci's soft, boneless hand in his own.

Looking at Tianci, he said to her:"Be careful, this place is very cold."

After all, all the places are already underground, so it is really very cold, and Tianci is a little girl, Li Zhou heard When the two people were talking, they had already turned back to look at Tianci.

Tianci was very concerned about him and said to him:"Otherwise, how about you go back to the door and wait for us?"

Gu Shaoyang actually wanted to say this just now, but he felt that if Tianci left their sight, he would He was also afraid that any accident would happen. When the time came, he would not be able to save the nearby fire, which would be a very dangerous matter, so he did not make such a request.

Tianci shook his head with certainty. Seeing how Luo Zishan, Li Zhou and others cared about him, he felt really happy to have such good friends.

He looked at a few people and said to them: "No need, I can still overcome this small difficulty."

Because Tianci felt that a few of them really cared about him a lot of the time. Tianci suddenly thought of the voice he heard before.

He said to Gu Shaoyang and the others: "We all turned our heads to the left, and then walked in that direction."

Because this cell is like a maze, and there are so many dozen square meters in each cell. , but there was indeed no sound at all in this place. Gu Shaoyang really didn't know what Tianci said when he heard it.

So he said to Tianci: "Why?"

Tianci explained to several of them: "The sound I heard just now was very loud, and now that a few of us have descended to this place, there is a certain distance from the wall just now. distance, so if we turn back, that place should be the place where we heard the sound directly."

After hearing what Tianci said, Li Zhou believed in Tianci's ability to research these things.

He immediately looked at Luo Zishan in front and said to him: "Let's turn to the left."

Luo Zishan received the order and when he reached the front position, he had already turned to the left and made a decisive U-turn. They almost When I walked, I didn't lift my feet. Although I was very careful, there was still the sound of water, and it slowly splashed out.

Soon Gu Shaoyang heard a very weak voice, saying: "Is there anyone? Can you save us?"

This was a girl's voice. When Gu Shaoyang heard it, he immediately stopped his steps.

Li Zhou and Tianci, who were behind and next to him, immediately stopped in their tracks.

Luo Zishan didn't know why. When he heard no sound from behind, he had already returned to the stage and stopped to look at them. Why were they all motionless?

Just when several people stopped, they heard a voice again saying: "Is there anyone here? Can you save us?"

Gu Shaoyang was really in disbelief and said to them: "There are really people talking in this place. It's right in front of us."

When Li Zhou heard this familiar voice, he became even more excited.

It didn't even care about whether its feet were in danger or not. It raised its feet very quickly and ran forward in the direction ahead.

About 10 meters away from them, Li Zhou had already rushed to the front. When he saw the diamond iron railings in front of him, there was actually a person inside.

Gu Shaoyang and the others immediately followed Li Zhou to Li Zhou's side. They did not expect that in this place, there were actually two people lying inside, and one of them was standing in the water. Their faces were very expressionless. He was pale and looked very embarrassed, his hair was messy, and his clothes were dark.

Li Zhou's tears suddenly fell. His voice was very choked, and he said to him in the direction: "Is this you, mother?"

When he heard this voice, the woman really didn't expect it. , did you actually hear your son's voice?

He immediately said to the other party: "Are you Li Zhou? Have you really come to see me?"

Li Zhou immediately stepped forward and held the woman's hand. She thought she had been dreaming all this time. , but when I touched that cold hand, I felt that I had really found my mother.
