

Beast 311

Chapter 311 The Next Generation of Dragon Palace City (1)

However, for some powerful creatures, because they had trained the proficiency of various skills to an extremely high level when they were at the commander rank, their microscopic control of energy might be even more proficient than monarch-level creatures. Because such creatures were too genius, they could use the perfect energy control to slow down or even stop the microscopic energy in their bodies to integrate and strengthen the basic units of the body, thereby achieving the pressure effect.

Apart from that, it was very difficult to suppress it. It might have to rely on contracts and other methods to restrict its growth.

In the Sea Dragon King's eyes, Shi Yu's Beast Taming level was enough, and the strength of the pets like the Butterfly of Imagination was also enough, but they had yet to break through to the monarch level. They were definitely suppressing their levels. That Iron-eating Beast must have experienced similar stages. Only through this method could the Iron-eating Beast's strength be so ridiculous.

In fact, the Sea Dragon King's judgment was also right. Before Eleven broke through to the monarch level, all the skills, be it racial skills or teaching skills, apart from super skills, were basically at the maximum proficiency. Its control over energy was completely incomparable to creatures of the same level, so it naturally easily held back its power to a low level.

In fact, during the breakthrough, it would also rely on its powerful energy control. Not only would it use the energy in its body to change its body, but it also borrowed the power of the natural heavenly lightning to strengthen its body. If not for its exaggerated lightning control, it definitely wouldn't be able to achieve such a breakthrough that exceeded the limit.

"Huh???"

At the same time, when it heard that its father wanted it to accept the test too and enter the Environmental Protection Department openly, the little white dragon's face immediately fell.

Many overlords also looked at the little white dragon.

The White Azure Dragon was one of the commander-level dragons in Dragon Palace City. Creatures like flood sharks were completely unable to defeat the little white dragon.

Perhaps... the little white dragon had a chance...?

"It's inferior to me at the same level. If I pass the test, it won't look good!" However, the Thunder Dragon Crown Prince knew in its heart.

Moreover, the little white dragon's response confirmed the second prince's words.

"I think I should stay out of it..." The White Dragon looked at the Sea Dragon King with a bitter expression. At the same time, it looked at Eleven, Chi Tong, Buggy, and Baby Ginseng.

It couldn't tell its father that they had met and fought before... Just the deterrence skill alone was enough to scare it silly. It originally thought that it was very impressive for it to train its dragon might to perfection at the commander level, although it had used a pile of resources.

But these four guys were all transcendent-level deterrence. It was very ridiculous, alright!!!

It estimated that in Dragon Palace City, there were definitely less than 20 people who had mastered transcendent deterrence, including nine totems!

What was it supposed to do?! None of Shi Yu's pets were simple.

"Actually... I've interacted with Senior Shi Yu's pet before. I... might not be his match. Haha... Ha..." The little white dragon said awkwardly.

It didn't tell its family about being fished up and beaten up at all...

Sea Dragon King: "?"

"Huh???" The Sea Dragon King widened its eyes and looked at the little white dragon. "You've come into contact with it??"

"Which one?"

"All, all..." The little white dragon said in embarrassment. In any case, it didn't want to fight again here. It would directly admit defeat. It wasn't like it didn't see what the Second Prince was like. When the time came, it would directly be insta-killed by a deterrence. It would be even more awkward.

As the little white dragon finished speaking, everyone fell silent. Many sea beasts looked at the little white dragon in disbelief and at the butterfly, Baby Ginseng, Chi Tong. Did the Third Prince mean that its strength was inferior to every pet here??

How was this possible!!!

It was a son of two totems! It couldn't defeat a supplement? As a divine dragon, it couldn't defeat a worm?

"Cough, cough. Third Prince, you're too polite. It was also very difficult for them to win back then." Seeing the little white dragon directly self-destruct in a silly manner, Shi Yu was also embarrassed. Was it stupid? If it didn't care about looking good then its father did! He quickly made it look better.

"No, no," the little white dragon said guiltily. "In any case, I've already fought. I'm indeed a little inferior to the standard of a core member. Why don't I start from an ordinary member? After all, even the 'invincible second prince with strength, talent, and potential to dominate Dragon Palace City' is an ordinary member."

The Primordial Lightning Dragon: "?"

The Sea Dragon King was silent for a moment. Below, the gem cat's expression was the most strange.

Alright.

At this moment, as the Sea Dragon King and the little white dragon self-destructed, the commander-level sea beast below who wanted to become a core member and obtain the Time Fruit felt even weaker.

It was cold.

At the same time, countless commander-level sea beasts began to panic. Their gazes kept jumping on Buggy, Chi Tong, Baby Ginseng, and the Slime. For a moment, they actually had difficulty choosing!

Which one... should they choose?

It was not easy to choose at all!

Obviously, at this speed, the recruitment of the Environmental Protection Department might take a long time. After all, there were too many sea beasts who wanted to join. Shi Yu scratched his cheek and thought for a moment before saying with a smile, "Why don't the next recruitment of the Environmental Protection Department be carried out in an independent space? Those who are willing, come here to queue for the assessment. It won't delay everyone's banquet time. You can come over at any time during the entire Dragon Palace banquet stage."

Then, Shi Yu waved his hand, and a spatial ripple appeared below. This was a spatial portal to the ruins space of Shi Yu. Next, he planned to slowly give these sea beasts a test in the ruins. For this test, he had gotten Baby Ginseng to prepare supplements for a long time in advance. The goal was to let Buggy and the others fight for a few days and nights to sharpen their will.

Although there might not be a life-and-death battle, apart from the overlord will, the other stages of will, such as low and intermediate will, didn't have such high requirements. The confidence of victory accumulated from fighting thousands of sea beasts for several days would definitely be able to help their will increase.

Usually, they underwent various difficult training. Now, it was time to sublimate their willpower through continuous victories.

"Alright..." The Sea Dragon King agreed to this. Many monarch-level sea beasts and commander-level sea beasts also sighed softly when they saw this.

Great!!! There was no need to be beaten in front of so many big shots. Good, good, good!

If it was a test in a private space, it was alright to die.

As Shi Yu made a decision, the Thunder Dragon Crown Prince, the young Wyrn Shark, and the others revealed bitter expressions. Holy shit, why didn't he make this decision earlier? Why did they have to do this!!

Then, under the strange expressions of most sea beasts and under the silent gazes of Yin Zhengfan and the others, the Dragon Palace Banquet and the Environmental Protection Department began to move in sync. However, no matter how one looked at it, this Dragon Palace banquet still changed.

In the outside world, the Dragon Palace banquet was in full swing.

However, from time to time, there would be overlord cubs that walked out of the testing space almost suspiciously.

"Freak, a freak, what the hell... Wuwuwu, that butterfly can summon the illusions of the Ice Dragon King and the Sea Dragon King!!"

"What, it even used an illusion to hit you? I was directly insta-killed by Psychic power."

“Ahhh, the ginseng baby I chose is the strange one. It insta-killed me with one deterrence.”

“Why did I receive a fruit that would explode! I thought it could be eaten, but it exploded in my mouth! My teeth!”

“That sword spirit is clearly the most ridiculous, alright? It can also expand. At the start of the battle, I realized that the other party wasn’t to be trifled with, so I quickly retreated 39 meters. It directly turned it into a 40-meter-long sword and cut me down!”

“Ah, I’m dead. Yours was a 40-meter long sword. It hit me and directly separated 100 clones. The clones will even become phoenixes... Do you know what despair is?”

“Wu Wu Wu Wu, I was punched to the ground by Minister Shi Yu...”

Many sea beasts surprisingly discovered that everyone had lost, and it was not so awkward anymore. They even discussed how they had lasted for a few seconds and actually became the capital for the sea beasts in Dragon Palace City to show off. In the outside world, many overlords looked at the Dragon Palace banquet that was gradually becoming ridiculous with the discussion and fell into deep thought. They kept feeling that the next generation of Dragon Palace City was going to collapse.

Three days later! A human figure with dragon horns floated in the sky above the Dragon Banquet Island. When it arrived, the Sea Dragon King, the Ice Dragon King, and the other totems didn’t sense anything

The Dragon God of the Dragon Palace City listened to the discussion of the next generation at the Dragon Palace banquet in silence and fell into deep thought.

Chapter 312 The Dragon God Is Here

In Shi Yu’s ruins space.

After fighting for three days and three nights, Shi Yu and the others had already killed countless sea beasts.

During this period, countless sea beasts entered.

Among them, the commander-level test of Buggy, Chi Tong, and Baby Ginseng was relatively easy. No sea beast could force them to use their full strength.

Shi Yu easily won the tests below the transcendent level.

The only ones who felt a little uncomfortable were Susu and Eleven.

Some commander-level sea beasts... Susu had to rely on the power of the Time Fruit to win. Although the power activated each time was not much, it was very tiring to be unable to withstand it many times.

As for Eleven, it was purely because it had encountered too many powerful sea beasts.

Under commander rank, no matter how strong it was, it wouldn’t be that strong. It basically hadn’t cultivated super skills.

However, the upper and lower limit of monarch-level sea beasts was too big.

Some monarch-level sea beasts had just broken through. Their super racial skill proficiency was only at entry level, proficient, or just proficient. They were very weak. However, some monarch-level sea beasts couldn't be said to be the younger generation.

They had already trained their super skills to an extremely close to perfect proficiency. They were just short of breaking through to the overlord level.

If the skill proficiency was divided into numbers, entry level was 1, proficiency was 2, expert level was 4, and perfection was 16. The closer a super racial skill was to a perfect monarch, the more terrifying its strength would be. It might be several times the battle power of a weaker monarch.

There was basically no weak sea beast like this, so every time they fought, Eleven had to explode and explode.

Compared to Buggy and the others who could easily deal with the test, Eleven was simply teary-eyed. It would overload every time. After three days, even if Shi Yu had prepared a bunch of recovery methods in advance, it was straining.

Fortunately, most of the sea beasts here were water-element, and they were still countered by Eleven. Moreover, no Beast Tamer gave them strengthening talent. Otherwise, it would be really difficult for Eleven to maintain a perfect victory.

Therefore, Eleven should be the one to collect the most gains this time.

It was mainly because Eleven had yet to reach the peak of the monarch level. The proficiency of super skills was still not high, and it wasn't even proficient yet, so there was still a lot of room for growth.

It purely relied on high-level races+a pile of low-level, mid-level, and high-level racial skills to survive. The battle experience gained this time was not something Buggy and the others could compare to.

"Uh."

"No more?"

In the ruins space, after sending away another Red Prawn, Shi Yu and the others waited for the next candidate.

However, a minute passed this time. No next candidate came in for a long time. Shi Yu calculated the time.

It had been three days, and the Dragon Palace banquet was almost over. Although it was tiring this time, the gains were indeed not small.

Among the sea beasts that entered, Shi Yu even discovered three sea beasts that had mastered the overlord's will!!

Unfortunately, these three had all reached the monarch level. Otherwise, if it was a transcendent or even a commander rank, he would definitely directly abduct it. It would be a second team. Shi Yu had long started to have the intention of nurturing the second team.

But thinking about it carefully, apart from a will reincarnation like Susu, it was indeed not easy to master the overlord's will at a low level.

Below the monarch level, the highest batch of wills Shi Yu had seen was only medium-level. He had never encountered anyone with overlord will.

On the other hand, among the group of ocean overlords in Dragon Palace City, there were several overlord-level sea beasts with overlord will.

It seemed that the will of the Dragon mom and the gem cat was indeed on the side that was weaker.

"There's really no one else," Shi Yu muttered. Eleven, Baby Ginseng, and the others shrunk and rested.

So be it. However, what was with this overly quiet and oppressive atmosphere...

"I'll go out and take a look," Shi Yu shouted at Eleven and the others before leaving the ruins space.

At the Dragon Palace banquet venue.

Shi Yu had just come out when he suddenly fell silent.

Because he suddenly realized that the outside world seemed to be equally silent.

Although most of the ocean forces were still around, every life form seemed to be looking at the sky in awe, not daring to breathe.

Even the Sea Dragon King totem looked at the sky with respect. Shi Yu also subconsciously looked over and saw a humanoid figure in an ancient white dress.

She had fair skin and dazzling white hair that naturally fell down, like a sparkling sea waterfall under the light. Her expression was emotionless, as if she was a high and mighty god overlooking everyone. When Shi Yu saw the complicated white dragon horns on her head and the green and white dragon ball the size of a glass ball on her forehead, his heart immediately skipped a beat. He understood why no one suddenly went in to take the test. "Lord Dragon God!!! You're finally awake!!!"

Upon seeing this, the Sea Dragon King's expression turned to joy.

At the side, the ice dragon was a little silent with an obedient expression. Although it was a senior and might even have more experience than the Dragon God of Dragon Palace City, this was a world where strength was respected. Facing the Sea Dragon King and the others, it could still pretend, but facing a half-god, a powerful existence who controlled Dragon Palace City, it couldn't not be obedient. Half-gods fighting ordinary totems was like a mother fighting her daughter.

Demigod, yes, it was the legendary Beast Tamers in history.

As for ordinary totems, they were labeled Titled Legends. The two were not of the same level.

Emperor Wu contracted nine totems with pretty good strength, and together with their top-notch Fusion Talent, although it could suppress a half-god like Yun An, it was still beaten by the other party in the end. From this, one could see the power of a half-god.

Chapter 313 The Dragon God Is Here (1)

"Yes." The Dragon Palace City's Dragon God floated in midair. Not only did it attract the attention of all the sea beasts, but it also shocked and silenced Yu Shu and the others in the human area.

Shit, shit, shit. Wasn't the Dragon Palace banquet usually presided over only by a totem? Why, why did the Dragon God of Dragon Palace City run out! They glanced at Shi Yu, who had also just come out of the ruins, and immediately felt a chill in their hearts. Could it be that Shi Yu had caused a huge commotion at the Dragon Palace banquet and woke the Dragon God? Ah, it was over. Shi Yu was going to die...

Similarly, the gem cat, who was calling a group of overlords sisters and eating and drinking, was also guilty for a moment when it saw the appearance of the Dragon Palace City's Dragon God. After all, it had just finished gossiping about the relationship history of the Dragon God with Shi Yu.

"Lord Dragon God!!"

After the Sea Dragon King finished greeting, countless sea beasts spoke respectfully. Many devout believers knelt down to worship. In the face of these voices, the Dragon God in the form of a Dragoness did not pay too much attention. Instead, she looked at Shi Yu, who had just come out of the ruins.

Shi Yu : "..."

"Is the Dragon Palace banquet over?" The Dragon God's gaze stopped on Shi Yu for a moment before she asked the Sea Dragon King.

"It's over!" the Sea Dragon King immediately said.

Even if it wasn't over, it was over now.

Listening to the Dragon God's instructions was the most important.

"Well, then let them go back and reflect on themselves," the Dragon God said.

Many sea overlords were shocked.

The expressions of the Dragon Palace City elites who were discussing how they had lasted for a few seconds in Shi Yu's hands gradually froze.

Holy shit.

The Dragon God... When did she come!

What did she hear!

Many heirs of Dragon Palace City's overlord couldn't sit still.

[Apart from that human and the Ice Dragon Totem, everyone else, disperse.]

"Then, let's get down to business." After instructing the Sea Dragon King, she looked at the frost dragon. There had to be something important for the Dragon Kings to awaken the Dragon God in seclusion. The reason why she was awakened this time was because of the Blue Sea Sprite Reincarnation Body and the addition of the Ice Dragon Totem.

In her eyes, the Dragon Palace banquet was not important at all.

In fact, the reincarnation of the Blue Sea Sprite was not important in the eyes of the Dragon God.

She looked at the Ice Dragon. At the moment, what concerned her the most was the Ice Dragon Totem that followed the Time Emperor.

Ice Dragon: "Huh?" (*

*)***

"Yes!!"

Upon hearing the Dragon God's instructions, the Sea Dragon King immediately glared at the many ocean overlords. These ocean overlords directly took their leave listlessly.

(Tyrannical Sea, you should leave with them first.)

[Ice Dragon and I will take care of Shi Yu.]

(The Dragon God must have something to say to him.) Upon hearing the Sea Dragon King's telepathy, the Tyrannical Sea Legend was expressionless and didn't say anything. Since the Dragon God didn't plan to let him stay, he would take Yu Shu and the others back to Heaven Green Island.

As for whether Shi Yu would be in any danger, he shouldn't be. After all, in the subsequent totem battles, the Dragon God was an ally who helped Dong Huang. If it weren't for the Dragon God, even if Dong Huang still existed, it wouldn't have grown so smoothly. It could be said that the significance of the Dragon God to Dong Huang far exceeded that of any titled legend.

A moment later, only the Dragon God, the Sea Dragon King, the Ice Dragon, and Shi Yu were left on the huge Dragon Banquet Island.

The gem cat also left with the Tyrannical Sea Legend and the others.

On the island, Shi Yu sensed the awkward atmosphere and thought about how to cozy up to Senior Dragon God.

After all, this person could be said to be the top big boss and rich lady in the entire Blue Planet.

A ceiling-level figure!

Shi Yu thought for a moment. Perhaps among the women he knew, only the legend leader in Tingxiang the one in the seven islands could compare! "Lord Dragon God, do you want to see Lord Blue Sea Sprite's reincarnation?"

The Sea Dragon King asked the Dragon God.

The Dragon God glanced at Shi Yu and shook her head. "We'll talk about the Blue Sea Sprite Reincarnation later. I'll leave it to you to nurture it. There's no need to ask for my opinion if the Abyss Sea doesn't come out."

"Yes!" the Sea Dragon King immediately said. It knew that the Dragon God would respond this way.

Since controlling the Dragon Palace City, apart from cultivation, this Dragon God basically didn't care about the affairs of the Dragon Palace City.

Now, as expected, even the reincarnation of the Blue Sea Sprite didn't matter much.

However, those overlord heirs could actually make the Dragon God rebuke them and reflect. Looks like their negative energy made the Dragon God speechless... The Sea Dragon King muttered in its heart.

"Senior Ice Dragon."

After speaking to the Sea Dragon King, the Dragon God looked at the Ice Dragon. This honorific melted the ice and snow on the Ice Dragon's body. The Ice Dragon hurriedly smiled in embarrassment and said, "Lord Dragon God is too polite, too polite. I can't be called a senior..."

"I heard that you followed the Time Emperor. Is that true?"

The ice dragon's heart skipped a beat. It cursed Shi Yu for digging a hole for it. It said, "Sort of. I have indeed fought a few battles with Emperor Shi, but most of the time, it's protecting the number one general under Emperor Shi, the Ice Dragon General Mu Huiyin."

The Dragon God smiled and said, "I've heard that Emperor Shi used the power of the Space-time Dragon Vein to travel through time to the totem era tens of thousands of years ago. I wonder if it's true."

"Ah, this..." Ice Dragon was stunned. It, it didn't know. Where did she hear about this?

Even if there was, it was probably after they retired and went home... In any case, during the totem battle, Emperor Shi had basically been fighting. Beside him, Shi Yu was also at a loss. Emperor Shi had transmigrated through time and gone to the totem era??

"This, I've indeed never heard of it, but Emperor Shi has studied the past and the future. This indeed exists!!"

"Is that so?" The Dragon God couldn't help but show a regretful expression when she heard that Ice Dragon didn't know either.

At this moment, Shi Yu was still wondering why the Dragon God kept him here since she didn't care about the Blue Sea Sprite.

However, in the next moment, he understood. The Dragon God then turned to Shi Yu and said, "Are you very knowledgeable about the cracking of the ruins space?" Shi Yu: "This... Sort of. I've indeed cracked a few ruins spaces."

The Dragon God nodded and said, "Since ancient times, you're the first human to be able to communicate with the Blue Sea Ruins. Human, I want to entrust you with something to help me do."

"What is it?" Shi Yu was stunned.

"I know of a spatial dragon vein. Legend has it that the spatial dragon vein is the habitat of the Mythical creature, the Time Sprite. Every spatial dragon vein has a spatial ruin that has the power to transcend time. I want you to help me find and crack the spatial ruins."

The Dragon God looked at Shi Yu and said, "I want to use the power of the Space-time Dragon Vein to return to 1,000 years ago."

Chapter 314 Black Hand from the Mythical Era

"This, this, this, this."

After the Dragon God finished speaking, the Ice Dragon King and the Sea Dragon King were shocked. Especially Ice Dragon.

No wonder the Dragon God suddenly asked if Emperor Shi had transmigrated.

So the Dragon God also wanted to transmigrate through time?

A thousand years ago? It seemed to be the node for the rise of the Dragon Emperor after the collapse of the empress dynasty and hundreds of years of chaos?

"This..."

Shi Yu also completely didn't expect that the Dragon God wanted him to stay behind because she wanted to entrust him to help crack the ruins.

Almost instantly, Shi Yu recalled the gossip between Teacher Cat and him that day.

The Dragon God was Dragon Emperor Long Qingyun's soulmate.

However, both parties couldn't be together due to race and other reasons.

After that, the Dragon God, who was a divine dragon of the Heavenly Sea, even began to study its bloodline in a bid to change its race. In the end, it evolved into a humanoid dragon-type dragon life dragon girl.

However, although the Dragon God succeeded, the Dragon Emperor died for some reason.

Could it be that the Dragon God wanted to return to a thousand years ago to find the Dragon Emperor?

Shi Yu immediately imagined love that crossed a thousand years in his mind.

How nice.

Shi Yu immediately felt speechless.

"If it's to explore ruins, I might be able to give it a try."

"However, I can't guarantee success..."

The spatial ruin mentioned by the Dragon God should be a Mythical ruin.

The Blue Sea Sprite could already be considered high-level in the Blue Sea Ruins transmitted from the various seas of the blue planet. As for the Mythical Ruins, their levels were even higher.

They were all ruins left behind from the Mythical Era. They weren't that easy to come into contact with.

"It's alright. After failing for so long, I don't mind failing again. In any case, I don't have much confidence in you," the Dragon God said.

Shi Yu: "?"

This person also knew how to goad people?

Go to the ruins yourself.

"Can I take the liberty to ask what you want to do when you return to a thousand years ago?"

Shi Yu couldn't suppress his curiosity and asked.

If she only went to date, Shi Yu felt that cracking this ruin would be very boring.

The Dragon God glanced at Shi Yu and said, "I want to do something."

Everyone : "..."

Who didn't know that it was to do something? What else could it be, tourism?

"I want to verify something. I want to kill a certain Mythical life form."

The green and white dragon ball on her forehead lit up, and her beautiful hair fluttered.

As soon as she finished speaking, Sea Dragon and Ice Dragon were shocked.

Shi Yu was also shocked.

Wasn't she going to date?

"Mythical life form? Could it be that there are still living Mythical lives?" Shi Yu hurriedly asked. When it came to Mythical life forms, including the previous Time Sprite, he was instantly not sleepy.

This was much more exciting than the Dragon Emperor's love history. "To be precise, it's a Mythical remnant soul."

The Dragon God said calmly.

"Ah."

"Wuu?"

"Myth?"

The Sea Dragon King, Ice Dragon, and Shi Yu immediately turned into spectators.

"Before Long Qingyun rose, he had once obtained the recognition of a dragon mythical ruin. He also relied on this mythical ruin to lead to the legendary domain."

Shi Yu and the others knew about the description of the Dragon God.

In history, the Dragon Emperor was completely known as the Son of Luck. It was said that he had endless good luck in his life.

In the beginning, this Dragon Tribe Mythical Ruins was the start of all good luck.

This ruin made him grow into a legendary emperor comparable to Emperor Shi, Emperor Wu, and the empress as an ordinary person with a very common strengthening talent.

After all, Emperor Shi's time talent, the top-notch fusion talent of Emperor Wu, and the empress's phoenix bloodline were all top-notch powers. However, the Dragon Emperor was different. His strengthening talent was too common. Even in the Icefield High School where Shi Yu graduated, there were many types.

Without special luck, it was indeed very difficult for such a Beast Taming Talent to grow into a legendary Beast Tamer.

Of course, it was very difficult for powerful talent to grow without a certain amount of luck. For example, although the first-generation principal of the Imperial Capital University also had a time talent, in the end, he only cultivated the Prediction Owl...

"He is indeed a person with great luck, but this luck also has a price."

"In this Mythical Ruins, a dragon soul from the Mythical Era is sleeping."

The Dragon God said, "The Mythical Ruins only acknowledged Long Qingyun as their master under the interference of this dragon soul."

"And the goal is to use Long Qingyun's power to nurture dragon sacrifices to revive it."

"The Dragon Emperor and his nine Great Beasts you mentioned died under the possession of the dragon soul."

After the Dragon God finished speaking, the Sea Dragon King and the Ice Dragon opened their mouths wide. This was the first time they knew such a thing.

After all, the legend didn't record the cause of the Dragon Emperor's death at all.

"Where's that dragon soul?" Shi Yu asked.

The Dragon God said, "It's what I want to verify. Long Qingyun discovered a certain conspiracy hidden in this Mythical Ruins a long time ago, so he wasn't surprised by the arrival of this day. He even made many preparations."

"Why did you still use this Mythical Ruins when you discovered it early and nurture pets according to the resources and information provided by the ruins?" Ice Dragon asked.

The Dragon God said, "He said that even if this power was destined to have a price, he had a reason to use this power in that totem world. Otherwise, with his own power, he couldn't end the totem world at that time."

"After realizing the possibility of the mastermind behind the Mythical Ruins, he was already prepared to deal with all changes."

Chapter 315 Black Hand from the Mythical Era (1)

"In order to not affect the Dong Huang Dynasty that had just recovered peace, he even chose to deal with it alone."

"I don't know the final outcome. I only know that Long Qingyun died, but I can't confirm the final outcome of that Mythical remnant soul."

"Perhaps Long Qingyun killed it, or perhaps Long Qingyun sealed it again, or maybe it successfully escaped. But what's certain is that the Mythical remnant soul didn't successfully possess Long Qingyun and his pet. But no matter which it is, I want to personally return to the past to verify it."

"At that time, I didn't have the strength to assist him, but now, my strength should be stronger than any of his companions."

After the Dragon God finished speaking, she observed Shi Yu again and said, "But your strength seems to be a little weak. With your current strength, without my protection, I'm afraid you can't move freely in the power of the dragon vein."

"Uh."

"There's still time. There's a chaotic spatial tide in the core of the Space-time Dragon Vein. At this stage, even demigods can't come into contact with it. It's a forbidden zone for life. Only at a specific time will the spatial tide recover its stability. At that time, it's the only chance to enter the core area of the Space-time Dragon Vein. Since you've agreed to explore the Space-time Dragon Vein with me, quickly increase your strength before you can enter."

"It's best to reach the Legendary level."

"When the time is right, I'll look for you."

"Ah..." The current Shi Yu was like the group of little sharks that had been beaten up by him. He stopped thinking.

After hearing so much from the Dragon God, he suddenly calmed down and regretted a little.

Although exploring Mythical spatial ruins was a fatal attraction to Shi Yu, it did sound very dangerous.

He was a noob... Could he do this?

However, since it wasn't a request for him to go right now, Shi Yu could still accept it.

At this moment, Ice Dragon and Sea Dragon were completely numb.

So that was how the Dragon Emperor, the Son of Destiny, died.

It turned out that the Mythical Ruins the Dragon Emperor had obtained had a remnant soul from the Mythical Era!

"Since you can torment Dragon Palace City to this state, it means that your talent potential is not bad."

"Even the Blue Sea Sprite was contracted by you. With your potential, it should be very easy for you to become a legendary Beast Tamer."

“Help me explore the spatial ruins. Whether it succeeds or not, I’ll pay you enough.”

“I can give you some help now to help you increase your realm as soon as possible.” “Sea Dragon King, in the report previously, you once said that a pet he contracted absorbed the Dragon God’s Dragon Ball, right?”

“Yes,” replied the Sea Dragon King.

The Dragon God nodded and looked at Shi Yu. “If I didn’t hear wrongly before, your pet grasps the power of illusion. Moreover, it can also rely on various dragon-element power to strengthen itself.”

Before coming out, the Dragon God had heard a lot of descriptions of Buggy from the young cubs of Dragon Palace City.

For example, summoning an extremely realistic Ice Dragon Phantom.

For example, releasing dragon might at once.

For example, suddenly becoming a dragon.

Or perhaps it was still a butterfly form, but it had obtained the dragon attribute in an instant. Its physical fitness was even more terrifying than the dragon attribute.

Through these, it was not difficult for the Dragon God to determine that Buggy had mastered the power of illusions and could strengthen itself with the power of the Dragon of Imagination.

“Can you summon it and let me take a look?”

“Alright.” Shi Yu never expected that the first thing the Dragon God wanted to see was not Susu, but Buggy.

Shi Yu quickly summoned Buggy.

In the next moment, accompanied by an empty ripple, Buggy, which had shrunk to the size of a palm and was recovering its strength, appeared in the outside world.

After coming out, Buggy looked at the noble Dragon God and was immediately cautious, not daring to say a word.

It was a super big boss!

“Show me the ability you displayed to the Sea Dragon King back then.” The Dragon God looked at the little blue butterfly.

“Buggy,” Shi Yu instructed again.

“Wu!” Buggy immediately nodded.

In the next moment, a huge dragon-shaped body covered in blue and white dragon scales kept condensing, floating and circling behind Buggy!

“Roar...” Then, with a roar from the divine dragon, it instantly flew towards Buggy and fused into its body. At this moment, Buggy’s strength directly changed, and its aura increased greatly.

Skill: Dragon of Imagination

(Level]: Super level

< Introduction > It's a combination of spiritual, spatial, and dragon skills. Through the power of imagination, it can transform its physique into the body of a divine dragon. It has true attributes, physique, energy, life force, and dragon might that are comparable to dragons. It's an ability to compare to and surpass dragons.

"As expected..." At the same time, the Dragon God saw this scene and understood everything

Her white finger pointed at Buggy. In the next moment, Buggy immediately became huge. The divine dragon phantom on its body was ejected and wrapped around Buggy's back again.

Buggy was shocked. Under its observation, the characteristics and colors of the divine dragon it imagined began to quickly disappear. Soon, it became an illusory divine dragon that was almost gray. After understanding the characteristics of this skill, the Dragon God said, "Not a bad skill. This is an evolution skill. Through the power of imagination, it simulates the power of the divine dragon and then transforms the power of the divine dragon into its own power."

"When trained to perfection, it can evolve into a dragon and break through the limit of the skill. It will surpass the dragon and reach the extreme, walking its own path."

The Dragon God's words revealed the nature of the Dragon Skill of Imagination, making Shi Yu nod.

"The most important thing about this skill is to make up for its racial flaw through the racial merits of the dragons."

"The imaginary divine dragon phantom core is equivalent to an empty shell. It's extremely malleable. The process of increasing skill proficiency is the process of filling this shell through different divine dragon advantages. Its real training method shouldn't be limited to one dragon for its imagination."

"Even dragons have their own racial advantages according to their race. If you want to train this skill to the extreme, you have to imagine and absorb the merits of many dragons. The stronger and more divine dragons you visualize, the faster the skill proficiency increases, and the higher the upper limit of the skill you can reach."

"It's not much different from what I thought In that case, I'll let you visualize the wills of the past Dragon Gods in the Dragon Palace City's Dragon God Ruins." The Dragon God made a decision.

When she finished speaking, the Sea Dragon King was shocked.

Shi Yu was also stunned.

The Dragon God continued, "If I remember correctly, compared to using cultivation resources to meditate, the fastest way for human Beast Tamers to increase their strength after stepping into your level should be to increase their own level through the increase in the strength of their pets. If you can visualize the figures of the past Dragon Gods, its path of advancement will be very clear and fast. In this way, under its lead, you can also guarantee that you can quickly advance to legendary."

After the dragon's words fell, at the side, Buggy was completely stunned. Then, it was even a little touched. Weren't the generations of Dragon Gods in Dragon Palace City all demigod-level dragons? It... could it visualize them all?

If it imagined them, even if each illusion only had one ten-thousandth of their power, how strong would its Dragon of Imagination become!

At this moment, Buggy, who had returned to its junior position in the team, suddenly saw an incomparably dazzling path. If it weren't for the Ice Dragon already, it would have to acknowledge another mother!

Chapter 316 Returning to the Dong Huang

Dragon Palace City.

On an island located deep in the mystic realm of Dragon Palace City, Dragon God Island.

With a thought from the Dragon God, a violent wind wrapped around Shi Yu, Buggy, Ice Dragon, and Sea Dragon King.

When they reacted again, they had already appeared on a wide land.

What entered their eyes was a huge rock ruin that looked like a mountain range.

When the Dragon God decided to let Buggy visualize the figure of the Dragon God's will, she teleported Shi Yu and the others over with a thought.

"This!"

"Wuu." After being teleported over, Ice Dragon was shocked.

Was this the Dragon God Ruins?

On the island, there was an endless mountain that stretched out like a dragon's back, filling the vast land. In every mountain, under the lingering white mist, there were ghost-like statues. They were lifelike divine dragons. Just from their appearance, they emitted an earth-shattering domineering aura, as if they were ancient gods sleeping in ruins, waiting to wake up at any time.

Just looking at the stone statues themselves, they even felt stronger than overlords like cats.

After Shi Yu and Buggy arrived, they looked at the Dragon God Stones one after another and gulped.

"Senior Dragon God, is this the statue of the will of the past Dragon Gods?" Shi Yu asked.

"Wu!"

Buggy's eyes lit up.

"To be precise, it's the will of the past Dragon Gods who were willing to leave their traces." The Dragon God said, "These stone statues were all left behind by the former Dragon Gods in order to let the future descendants of the Dragon Race who came to the Dragon God Ruins see their heroic bearing."

“When the dragons sense and look at the stone statues with all their might, they can hallucinate and see their former power...”

“In the end, they’re just a bunch of guys who show off too much.”

“Although it’s not a dragon, your pet can temporarily transform itself into a dragon through that skill. It shouldn’t be a problem to visualize it...”

“...” Hearing the current Dragon God’s evaluation of the previous Dragon God who had left behind the will statue, the Sea Dragon King was stunned, but it seemed that it really made sense.

There was no rule that forced the Dragon God to leave a will statue in the Dragon God Ruins. For example, the current Dragon God didn’t carve her own stone statue.

However, these wills looked really handsome.

The Sea Dragon King sighed.

When it first came to the Dragon God Ruins, it had almost looked at them one by one, and its knowledge increased.

In its opinion, the Dragon God represented by every stone statue here was stronger than its master’s black dragon.

At the thought of this, the Sea Dragon King gritted its teeth. It was clearly not much worse than the black dragon.

In the end, because it wasn’t a female... and because the Divine Feather Butterfly wasn’t a female, it wasn’t contracted.

When remembering that the nine pets Lin Feng had contracted were all female, the Sea Dragon King felt a wave of hatred. Why wasn’t it a female? Why did Beast Tamers still favor girls over boys?

“Senior Dragon God, why is there a broken Dragon God statue there?”

As Shi Yu observed, he suddenly discovered a blind spot and saw the statue of the Dragon God’s will that had been smashed into pieces.

“That?” The Dragon God looked over and said, “That’s the statue of the previous Dragon God. I didn’t like it much, so I smashed it.”

Shi Yu, Buggy, and Ice Dragon : “...”

“Next, the Dragon God Ruins will be open to you. If you have needs, you can come at any time. Unfortunately, your pet is not a totem and can’t enter the interior of the ruins space. Otherwise, you can gain more. Forget it.”

The Dragon God said, “Senior Ice Dragon is at the totem level and can enter the interior of the ruins to accept the trial of the ruins.”

“As for you and this butterfly, you should visualize these statues of the Dragon God’s will outside. However, although they’re just dead things, the ones who left them are, after all, the previous Dragon

Gods. Your pet's strength is still too weak. During the visualization process, it might cause a huge burden on its body and mind, so be mentally prepared. Of course, if you can successfully visualize them, it should have a good effect on its will tempering."

"Wu?!"

What!

When it heard that visualizing the statue of the Dragon God's will had side effects that could also temper the will, Buggy's eyes immediately lit up.

There was such a good thing?

Not only could it train the Dragon of Imagination skill, but it could also train the overlord's will. This was a win-win situation!

"Yes, I'll make it pay attention," Shi Yu replied.

At the same time.

Ice Dragon asked eagerly, "Lord Dragon God, can I just go directly to the trial of the Dragon God Ruins?"

"Didn't the Sea Dragon King say before that there was a need to carry out some joining ceremony? It only joined after swearing in the ruins under the witness of you and the many Dragon Kings."

The Dragon God said, "Forget about formalism, just go in. When the time comes, let the Sea Dragon King inform the various Dragon Kings and let them know."

"Ah, this." Ice Dragon didn't expect it to be so simple.

"Alright." Seeing that the Dragon God was so casual, the Sea Dragon King nodded speechlessly. Speaking of which, the last time it joined Dragon Palace City, the Dragon God seemed to have only sent a clone to deal with it. In any case, it felt that it didn't look like its real body.

"That's all I have to say." After instructing, the Dragon God looked at the Dragon God Ruins and then at Shi Yu. She didn't continue speaking. After taking two slow steps, he disappeared in front of everyone.

Seeing this, the Sea Dragon King revealed an envious gaze at Shi Yu.

"I think the Dragon God Island and the Dragon God Ruins can only be accessed if you pass through Lord Dragon God's chambers. Generally, without special circumstances, even the Dragon Kings can't come over casually. You're very lucky. You're one of the few humans who came to the Dragon God Ruins, and you can actually come over to visualize the Will statues of the Dragon Gods. With its skill, maybe you can really have a big harvest. The Dragon God's judgment is definitely not wrong."

"Has anyone else been here?" Shi Yu asked curiously.

"I heard that the Dragon Emperor also came a thousand years ago. I'm not sure about the ones before and after. In short, you have to grasp this opportunity." The Sea Dragon King's gaze was complicated. It didn't expect that Shi Yu could actually be thought of highly by the Dragon God.

Therefore, in the end, it was its son who wasn't worthy of Shi Yu?

After all, it would be fine if Shi Yu only had one outstanding pet, Susu. The key was that every one of them was so outstanding.

The Sea Dragon King sighed.

“By the way, it’s about what was mentioned last time. Senior Ice Dragon, after you enter the interior of the ruins, you can carefully search for the will of the Sea Serpent Dragon. Inside the ruins, at some special checkpoints, most of the Dragon Gods also left traces of their own existence.”

“Ah, alright.” Ice Dragon nodded and looked at Shi Yu and Buggy.

“But you guys are visualizing this now, so you shouldn’t be in a hurry to find clues related to the dragon ball, right?”

“There’s no hurry,” Shi Yu replied. “That’s good!” Ice Dragon said. “Cough, I think I should prepare to go to the Dragon God Ruins again. I’m not ready yet.”

After all, it was a trial-type ruin. Although it could have huge gains, it was probably not simple. The Ice Dragon planned to stabilize itself and recuperate for a while. At least, it could stabilize its totem power first. After all, it had just broken through not long ago.

“Then can we start...”

At this moment, Shi Yu rubbed his fists. He wondered if observing the will statues of the previous Dragon Gods could let Buggy’s will reach medium willpower.

If possible, he would really make a killing.

“Wu!!! (Perfect proficiency, evolution into a dragon!)” Buggy shouted in anticipation. It still felt that the butterfly’s body was too weak and needed to evolve again.

You have a lot of ideas... Shi Yu curled his lips.

However...

Its body strength was inferior to Eleven, its life force was inferior to Baby Ginseng, and it couldn’t become stronger like Chi Tong. Its affinity for the power of nature was also inferior to an elemental life form like Susu. The worm-type creatures were indeed miserable, and it was at the extreme opposite of the dragon race.

Generally speaking, when bugs had the advantage in nature, they basically used the worm sea strategy and relied on numbers to win.

However, although that was the case, Shi Yu still reminded Buggy.

“Proficiency is secondary, and evolution into a dragon is also secondary. What you need to do is train your willpower. As long as your willpower is strong enough, your race can be ignored. Even if you’re still a green worm, you can still kill dragons.”

“In short, although these Dragon Gods are strong, you don’t have to pursue imitating their power too much. After visualizing their power, just strive to walk your own path. Strong will is the foundation.”

As long as it had the overlord's will... Once the super skill was maxed out, the Green Silkworm could also become a demigod.

Or myth.

At that time, a strand of silk could instantly kill everything

"In short, give yourself the thought that even if you're a Green Silkworm, you can defeat the Dragon God and visualize it," Shi Yu said telepathically.

"Wu!!" Buggy was shocked. It sounded good, but was this scientific?

Forget it, Shi Yu wasn't scientific in the first place. It was definitely right to listen to Shi Yu.

Three days later.

As they had to wait for Shi Yu, after the Dragon Palace banquet ended, Tyrannical Sea Legend and the others had yet to leave Dragon Palace City.

This also gave Yin Zhengfan and the others more time to find their favorite pet.

At this stage, apart from White Brook, all the young people who came to Dragon Palace City had contracted their favorite pets. It wasn't that the beast-eared girl didn't have a chance, but she was actually still thinking about the Iron-eating Beast. It was mainly because she had a water-type pet. Compared to another one, White Brook still liked the Nine Li Battle Beast and wanted to be a panda mother.

"What exactly did Shi Yu do?"

After basically everyone contracted their pets, Yu Shu and the others began to do nothing on Green Sky Island. They wanted to know what exactly Shi Yu had been pulled by the Dragon God for.

At the thought that not only could Shi Yu be chosen by Ice Dragon, but he could also be chosen by the Dragon God now, they were envious and jealous.

Green Sky Island.

The few people who were free often fought in pairs.

For example, Yu Shu went against Yin Zhengfan and fought several times in the past two days.

After subduing the new dragon pet and awakening a super skill, Yu Shu's battle power increased greatly.

He naturally wanted to challenge this young genius who he couldn't defeat in the vocation assessment again.

As for Shi Yu, he had completely given up on chasing after him.

"Yo, you guys are dueling?"

Boom!

On the arena, Yu Shu's Ancient Sea Horse and Yin Zhengfan's desert monarch were colliding. At this moment, a figure suddenly appeared nearby through Instant Transmission. Shi Yu and the worm on his shoulder looked at Yu Shu and Yin Zhengfan in the battle.

"Shi Yu?"

"Shi Yu..."

Seeing Shi Yu suddenly appear after disappearing for three days, Yu Shu and Yin Zhengfan were stunned. Yu Shu almost subconsciously said, "Why were you called by the Dragon God?"

Shi Yu scratched his cheek. Was this something he could tell him casually?

"The Dragon God saw that I bullied the younger generation of Dragon Palace City too ruthlessly and called me over to beat me up."

"Wu!!" Buggy cried. The past Dragon Gods had beaten it up.

"Huh?"

Upon hearing Shi Yu's words, Yu Shu and Yin Zhengfan were stunned.

No one would believe Shi Yu!

They looked at Shi Yu's smile. How could he smile so brightly after being beaten??

"Eh, you're back!"

Not long after Shi Yu returned to Clear Sky Island, the gem cat also ran over with an Instant Transmission.

It wasn't very puzzled. It and the Tyrannical Sea Legend had already known what Shi Yu was doing through the ice dragon.

"How is it?" The gem cat asked about Shi Yu.

"Thinking about it... is much harder than we imagined. It might have to digest for a while before continuing. We plan to prepare for the National League first." Shi Yu scratched his head and smiled.

"I see. Alright, let's go back." The gem cat nodded. It had indeed stayed in Dragon Palace City for a long time. It was tired of eating fish. Ugh.

However, it was quite a pity to leave now. Ice Dragon, this good sister, was too slow. The gem cat still wanted to wait for it to see if Ice Dragon could take out some legendary gemstones from the Dragon God Ruins. In the end, Ice Dragon didn't dare to enter the Dragon God Ruins after a long time. Where was its breakthrough opportunity...

Chapter 317 A Big Change in 100 Years

Inatella.

This island had the title of the World Root.

It was the habitat of the World Tree, the embodiment of the planet's will, and its guardian.

In the center of Inatella, on a huge tree that reached the sky, countless small, cylindrical green bugs separated from it.

Their forms were very similar to single-cell protozoa Grass Treadworms, but every one of them was clearly visible with the naked eye. After these green tree bugs separated, they quickly moved in all directions.

Their destination seemed to be all over the world.

The number one country in technology, Shenfeng, the country of snow plains that was covered in snow all year round, the country of glory Rongguo that believed in the power of light, the Ancient Kingdom of Ming Hua that was covered in undead, the seven islands of the Nation of Ten Thousand Islands...

The figure of this green tree worm could be seen even in the country led by the elven queen, who was now half human and half elf.

And Dong Huang.

In a courtyard in the headquarters of the Dong Huang Association, a young man put down his teacup. He looked at the departing figure of the tree worm and then at the endless blue sky.

"Is this a sign of some kind of disaster?" He revealed an aura that didn't match his appearance and age, and a towering tree was gradually reflected in his eyes.

East Sea, Dragon Palace City.

Tyrannical Sea Legend looked at the 12 young men in front of him and nodded.

This trip to Dragon Palace City could be considered a perfect end.

"Prime Minister Turtle, there's no need to send me off."

Then, the Tyrannical Sea Legend looked at the Tortoise Prime Minister who was holding a banner beside him.

"It's alright, it's alright. Have a safe trip, everyone," the Turtle Prime Minister waved the banner.

It mainly looked at Shi Yu and smiled. "Lord Shi Yu, come again next time."

"Yes, yes." Shi Yu smiled. Besides, that day wouldn't be far.

After all, he was now the minister of the environmental protection department of Dragon Palace City.

Although the Environmental Protection Department was only in the initial stage and the department's operation had yet to enter the right track, it would definitely be used appropriately in the future.

Apart from that, the Dragon Palace City mystic realm with the Dragon God Statue and the Blue Sea Ruins was also closely related to the growth of Buggy and Susu.

Tyrannical Sea Legend said to Shi Yu and the others, "Are you all ready? If you are, let's set off."

Shi Yu, Yu Shu, and the others nodded. Then, an incomparably huge blue Giant Leviathan covered in dense white hair was summoned by the Tyrant Sea Legend.

The first time was unfamiliar, but the second time was familiar.

This time, Shi Yu and the others didn't feel uncomfortable being swallowed by the Giant Leviathan into the body. They quickly returned to the water-element world.

In the water-element world, there was still a huge water screen that allowed everyone to share the Giant Leviathan's perspective and see the situation outside.

However, this time, just as they left Dragon Palace City, Shi Yu and the others discovered a strange phenomenon.

"What's that?"

Not long after leaving Dragon Palace City, Yu Shu pointed at the big green fish swimming slowly on the water screen and showed a stunned expression.

This green big fish looked very strange. At least in Yu Shu's impression, he didn't know this kind of sea beast.

He wasn't the only one. The others also cast curious expressions before shaking their heads. They didn't know it.

"There are more underwater creatures than land creatures. It's not surprising that we don't know them." Shi Yu realized that there was no information about this guy in the index.

"It looks pretty nutritious. Green food." This time, without Ice Dragon's space, the gem cat was also in the Infinite Devour space. It looked at the green fish that had just swam over and said.

Everyone grinned. That thing clearly looked like a mutated fish species that had been contaminated.

Many young people present didn't know this green fish, but Tyrannical Sea Legend, who had come into contact with some secret legends before... After arriving in the Giant Leviathan's inner space, he received the Giant Leviathan's feedback and fell into deep thought.

By the sea.

At the Binhai Training Hall.

When they left Dong Huang, everyone left. When they returned, they naturally returned here. In a huge pool in a room in the Dao field, a deep sea whirlpool teleported Shi Yu and the others out.

"Teacher, you're back!"

While Shi Yu and the others were still adjusting, the disciple of the Tyrant Sea Legend, the sect master of the Dao field, Zheng Hai, quickly came to welcome them.

He looked at the still expressionless teacher, as well as Shi Yu and the others, whose expressions had changed drastically. He knew that the gains from this trip to Dragon Palace City would definitely be pretty good.

“Yes.” The Tyrannical Sea Legend nodded and said, “Treat them well.”

With that said, he walked out of the room step by step. At the same time, Zheng Hai looked at Heavenly King Zou and the others happily.

“You’ve been gone long enough.”

“Did you gain something big?”

“By the way, what pets have you contracted? Tell me.”

“Overlord dragon species, black flood dragon,” Zou Yun said with a chuckle.

“Holy shit.” Zheng Hai was shocked. You really contracted it.

With another new overlord race divine pet, Heavenly King Zou would probably be on the trending list again.

This time, Heavenly King Zou was the only one who had contracted a cub of an overlord race, so he was pretty smug.

As for the others, although they had contracted their favorite pets, they were basically all high-level monarch races or quasi overlord races. They weren’t that lucky.

Generally speaking, overlord races still wouldn’t follow people easily. Only Beast Tamers like Zou Yun and Lu Qingyi, who were super geniuses themselves, had a chance of being recognized by overlord creatures.

After all, the probability of an overlord race growing to the overlord level was very, very high. On the contrary, if humans didn’t have the potential to grow to the legendary level, why should an overlord race ever follow you? Everyone was in a different position.

Chapter 318 A Big Change in 100 Years (1)

“Ancient Sea Dragon.”

“Dragon Claw Battle Prawn.”

“Dragon-Eyed Jellyfish.”

Then, under Zheng Hai’s questioning, the others also mentioned what pet they had contracted.

However, after asking Shi Yu, Shi Yu immediately couldn’t answer Zheng Hai.

“Water Slime.”

Zheng Hai: “?”

He looked at the most talented Shi Yu among the few of them and was stunned. This was a super genius who researched the evolution of the Iron-eating Beast and the evolution of the Green Silkworm overlord race, but he contracted such a thing?

Even if he couldn't obtain the recognition of an overlord race, he had to contract a quasi overlord dragon. Slimes were ridiculous.

"Although it's a Slime, it's still pretty strong. Sort of a mutant."

Before Shi Yu could finish, Heavenly King Zou, Yu Shu, and the others hurriedly stopped him.

"Sect Master Zheng, don't listen to him, Versailles. That thing can't be called a Water Slime anymore. Have you seen a Water Slime that instantly killed the Third Crown Prince of Dragon Palace City, White Azure Dragon, and the shark of an overlord race!?"

Zheng Hai: "?"

Wait, wait?

At a private room on the beach.

Returning to the ground, the Tyrannical Sea Legend sorted out his gains in Dragon Palace City and took out a communication tool.

Dragon Palace City had no signal, so just as he took out his communication tool, Tyrannical Sea Legend saw many messages from Principal Feng and President Ye.

They were concerned about Shi Yu's situation. After the Tyrannical Sea Legend returned, he would inform them first.

Initially, the Tyrannical Sea Legend was prepared to directly report the situation of Dragon Palace City to the Dong Huang chairman. However, when he saw Shi Yu's two recommenders, especially since Shi Yu was an orphan, Principal Feng could be considered half an elder of Shi Yu. The Tyrannical Sea Legend still chose to explain the situation to them first.

He opened a group call and called Principal Feng and President Ye at the same time. A moment later, the two of them picked up.

A light screen popped up on the Tyrannical Sea Legend's communication device. A three-dimensional holographic projection directly projected the half figure of Principal Feng and President Ye in mid-air.

"Legend of the Tyrannical Sea, you're back? Did it go smoothly?"

After being called by the Tyrannical Sea Legend, Principal Feng and President Ye were stunned.

"It's pretty smooth. Why did you send me so many messages?" Legend Sea Tyrant asked.

Principal Feng and President Ye's projections looked at each other and smiled. "It's already calmed down now. It's not a big deal. We also sent Shi Yu a lot of messages, mainly to ask about your situation in Dragon Palace City."

"Shi Yu, did he contract an impressive existence?" the two of them probed.

Tyrannical Sea Legend was stunned. "How do you know..."

"As expected! What exactly is it?" Upon hearing Tyrannical Sea Legend's words, Principal Feng and President Ye's expressions turned solemn. Holy shit, the owl's prophecy was indeed correct.

"I happen to want to talk to you," said the Tyrannical Sea Legend.

"Is it a totem reincarnation!!" Principal Feng and President Ye asked.

In Principal Feng and President Ye's opinion, it was impossible for Shi Yu to contract a totem with the owl's prophecy. After all, Shi Yu was only at the master level. This level was not enough to support him contracting a totem.

However, when they thought of Zhong Xuan in the ruins of the Emperor Wu and remembered that it had already been reincarnated, other totems could also be reincarnated. After analysis, they determined at that time that Shi Yu was definitely a reincarnation of a certain totem.

This was super big news.

However, in fact, they quickly calmed down. When they recalled that Shi Yu's Iron-eating Beast, Butterfly of Imagination, Baby Ginseng, and Sword Spirit were all super overlord races, they were relieved. Even if it was a totem reincarnation, it still wouldn't surpass an overlord race. Its race might not even be as high as Shi Yu's pets. They had already been shocked so many times, so there was no need to continue making a fuss. After all, it wasn't a totem at its peak. Growth still required time.

"Yes." Legend Sea Tyrant nodded, making Principal Feng and President Ye tear up.

"It's really the totem reincarnation of Dragon Palace City."

As expected, Shi Yu could surprise them every time.

F*ck, this was too ridiculous. Even if it was a totem heir, they would feel better. Contracting a totem reincarnation was ridiculous.

"Wait, this totem might be different from the totem you imagine," said the Tyrannical Sea Legend. "It's not a certain totem dragon king in Dragon Palace City, nor is it the former totem of Dragon Palace City."

"Uh?"

"You know the guardian of the sea, the Blue Sea Sprite, right? It's a demigod-level ocean elemental sprite that once destroyed the Western Abyss Sea and was born because of the faith of the ocean creatures. To be precise, it shouldn't belong to Dragon Palace City."

"Shi Yu successfully communicated with the Blue Sea Ruins in Dragon Palace City and found the reincarnation of the Inner Sea Sprite that didn't appear again in 3,000 years. He successfully contracted it."

Principal Feng and President Ye were stunned and couldn't react for a moment.

"Apart from that, he also established some Ocean Environmental Protection Department with the four dragon kings of Dragon Palace City through his relationship with the Sea Sprite. He became a minister and befriended 52 ocean overlords, inviting them to become core members of the Environmental Protection Department. Apart from that, he also invited thousands of powerful monarchs and commanders to join. Among them, there was no lack of overlord heirs. Well, the second and third princes of Dragon Palace City also became ordinary members of this Environmental Protection Department."

"In the past few days, I, the Dragon Kings of Dragon Palace City, and the overlords have established a preliminary agreement between Dong Huang and Dragon Palace City to further cooperate around this environmental department."

Chapter 319 A Big Change in 100 Years (2)

"In short, it's because of these things that we delayed a little. We might be busy next." Legend Sea Tyrant looked at the two of them.

At this moment, Principal Feng and President Ye's mouths were already agape. Their eyes were about to pop out as they looked at Tyrannical Sea Legend in disbelief.

"Holy shit," they shouted in shock.

Their brains were a mess.

They suspected that the Tyrannical Sea Legend was talking nonsense.

This...

The Blue Sea Guardian that hadn't appeared in 3,000 years had been contracted by Shi Yu?

Shi Yu cracked the Blue Sea Ruins?

And with this relationship, he had plotted against almost the entire Dragon Palace City and become the superior of many ocean overlords?

Wait, wait, it was a little messy!!!

Are you sure this isn't another novel?

"Oh, there are also a few things. The Dragon God of Dragon Palace City saw Shi Yu and seemed to have reached some agreement with Shi Yu. I'm not sure about the specifics," said the Tyrannical Sea Legend. "Apart from that, there's also a mutated Poison Dragon Totem affected by the forbidden radiation that invaded the sea area of Dragon Palace City and was sealed by the Dragon Kings. Its power fluctuations are suspected to be from Yun An, and this Poison Dragon Totem is said to have come from the direction of the seven islands. Aren't you guys looking for Yun An? Perhaps you can explore in that direction to see if you can gain anything." "F*ck..."

At this moment, Principal Feng and President Ye were completely numb.

Dragon God?

Yun An?

Poison Dragon Totem?

Was the Dragon Palace banquet so explosive?

"I'll take my time..."

"Damn, there's been a lot of shocking news recently..." President Ye's expression was messy.

“Why do I feel like a storm is brewing?”

“Did anything else happen recently?” Legend Sea Tyrant asked.

Principal Feng and President Ye, who had yet to recover from their shock, looked at each other.

Then, Principal Feng sighed.

“Too much.”

re

“The president has recently issued a notice to the thirteen bureaus. Look carefully, you should have received the news too.”

“The World Tree has awakened. Soon, a new World Tournament will begin in about a year.”

Tyrannical Sea Legend was stunned.

World competition?

He took a deep breath, very surprised.

The World Tournament was a huge competition between young Beast Tamers under the age of 30.

The champion of the World Tournament would obtain the title of “World Legend” and the blessings of the World Tree. He would almost definitely become a legendary Beast Tamer.

However, the difficulty of this competition was also very terrifying. The title of world legend required the strongest legend under the age of 30. Basically, only legendary-level Beast Tamers under the age of 30 had the qualifications to fight for the championship title. If they didn’t reach the legendary level, they were equivalent to cannon fodder in the world competition.

Dong Huang’s last Beast Tamer, Lin Feng, who had obtained the title of “World Legend”, had obtained this title by consecutively defeating legendary elites under the age of 30 in the other six countries.

“In the entire Dong Huang, can there be five legendary Beast Tamers under the age of 30?” Tyrannical Sea Legend fell into deep thought.

“Regardless, it’s related to the blessings of the World Tree. We have to prepare for battle with all our might. There should still be a period of time. Geniuses like Lu Qingyi and Zou Yun who haven’t grown up will probably receive important support next.”

“Unfortunately, that kid, Shi Yu, might not be able to make it in time.” Principal Feng thought of Shi Yu, who had contracted five powerful overlord races. Shi Yu’s potential was completely not inferior to those super geniuses who became legends under the age of 30 in Dong Huang. He might even surpass them, but the date of the World Tournament was so uncertain. It would begin in a year. Although Shi Yu’s growth speed was already very fast, the hope of him becoming a legendary Beast Tamer in a year was almost zero.

Otherwise, this would almost definitely become a legendary opportunity. No matter what profession a Beast Tamer was, be it archeology or feeding, they were all very worth competing for. This competition concerned the fate of the country.

Until now, there had been no sign of the next legendary Beast Tamer appearing in Dong Huang. Therefore, this world competition was very important to Dong Huang, or to every country.

“This is indeed a big deal.” Legend Sea Tyrant fell into deep thought again.

Principal Feng smiled bitterly and said, “If that’s all, perhaps President Ye wouldn’t be so worried. It’s said that the rules of this World Tournament might be a little different from the previous ones.”

“Huh?”

“It’s said that the envoy of the World Tree of Initiation not only informed the seven-nation alliance, but also went to many totem countries. If I’m not wrong, this World Tournament might turn into a world battle to compete for the blessings of the World Tree, divided into multiple camps. Perhaps the human Beast Tamers of the totem countries can also participate. If that’s the case, it’s too chaotic. Indeed, the World Tree has never been just the guardian of the seven-nation alliance.”

As soon as Principal Feng finished speaking, the expression of the Tyrannical Sea Legend immediately changed. In history, the competition between the seven countries in the world competition was already tragic. If the totem faction joined, it would probably be impossible to end every battle without determining life and death. Just by listening, he could already imagine the tragic world battle scene.

“What do you think, President?” Legend Sea asked.

“The country will organize the Sequence Battle and choose ten young Beast Tamers under the age of 30 to participate in the World Tournament. Beast Tamers can freely register. If nothing goes wrong, this news will be announced soon. At that time, be it the National League or the Heavenly King Tournament, all the domestic competitions will become the foil for this competition. It’s said that in order to respond and publicize the World Tournament, there will also be some changes in the rules of the National League.”

“It’s indeed a storm that’s about to happen... Even a huge change that hasn’t happened in a hundred years.” The Tyrannical Sea Legend was solemn. The World Tree was the embodiment of the planet’s will. It was said that only when Blue Planet was threatened would it awaken. An existence that could be regarded as a threat by Blue Planet... Even a demigod had no right. As for the Blue Sea Sprite, it was the guardian of the sea. It also chose to follow humans at this time. Although the level of the Blue Sea Sprite was very far from the World Tree, when these things collided, it was indeed very easy for people to feel that a big event was about to happen.

Chapter 320 World Tree’s Game

At the Binhai Training Hall.

After Shi Yu and the others returned, Zheng Hai, the sect master of the Binhai Training Hall, immediately welcomed them.

No matter what, he had to treat Shi Yu and the others in the venue before letting them leave.

Shi Yu and the others didn't mind a meal, so they naturally agreed.

Moreover, after returning, they had yet to officially thank the escort of the Tyrannical Sea Legend

AS

Dragon Palace City was in the deep sea. Even if it was a top-notch master proficient in water-element, it was very difficult to go to Dragon Palace City alone. Therefore, the escort of the Tyrant Sea Legend was quite necessary.

"When can your other pets break through to the monarch level?"

In the hall, White Brook whispered to Shi Yu.

During this trip to Dragon Palace City, although the batch of Beast Tamers accompanying them had not seen many battle scenes regarding Shi Yu, judging from Shi Yu's battle results, it was already very terrifying

After fighting the sea beasts of the Dragon Palace for three days and three nights, he maintained a complete victory. Even if he had sufficient replenishment, it was an unimaginable battle result.

In addition to the shock of the Iron-eating Beast crushing the Second Prince of Dragon Palace City, basically no one treated Shi Yu as a normal master.

Therefore, White Brook immediately became restless. Her goal was the throne of the champion of the National League.

Shi Yu from Ancient Capital University was with her. She felt that it was alright!

"But there shouldn't be a need for the National League, right?" Shi Yu muttered.

There was Eleven in the solo battle, and there was the Time Fruit in the team battle. What was there to be afraid of?

"Don't look down on Gao Xuan. He's not the Thunder Dragon Crown Prince that you can restrain. Mechanics are the most sinister. Even if he doesn't have forbidden weapons, he still has various methods. We gotta be more stable," White Brook said. "Don't forget, he has been focused on upgrading the Ultimate Holy Dragon Beast. There are still a few contract spots that he hasn't contracted. This time, Yin Zhengfan, this little kid, has also seen your strength. He'll definitely tell Gao Xuan when he goes back..."

"Previously, he only focused on nurturing a machine because he thought that there were no opponents, but if you show a threat..."

"At that time, even if he doesn't have to use a forbidden weapon, if he suddenly contracts a bunch of machines that counter you... It won't be safe!"

"Can you not plot loudly?" Yin Zhengfan held a cup of water and looked at Shi Yu and White Brook, who were plotting loudly, with a red face.

Heavenly King Zou, Yu Shu, and the others, who were sitting on the sofa and browsing their cell phones and reporting the situation to their relatives, were also speechless.

el

"It's so good to be young," the blue-haired girl and the other Beast Tamers who had already graduated from university sighed.

The National League this year was not going to be peaceful.

Was Ancient Capital University about to counterattack???

Shi Yu's pets were indeed monsters. They were even fiercer than Lu Qingyi back then.

"That's true."

Upon hearing White Brook's words, Shi Yu was immediately stunned. He had almost forgotten about this. Because he was too invincible, Gao Xuan had never contracted other mechanical pets. It was still a little difficult to modify a pile of explosive babies that could counter him at the last minute.

He still remembered clearly the scene of Gao Xuan using a forbidden weapon to destroy the Ice Dragon Snow Mountain. This guy's Beast Taming Talent was very strange.

"Be it Gao Xuan or Shi Yu, they're both pretty threatening." Heavenly King Zou glanced at Shi Yu. Fortunately, these two weren't from the club system, so they wouldn't snatch his rice bowl and resources from him. He would just watch the two of them have fun and kill each other in the National League for the time being.

As long as he didn't come to snatch his trending topic for no reason! This was all traffic! Flow was money and resources! As long as he used it well, it wouldn't be any less than the profits from the research results of Shi Yu and Gao Xuan's research.

Thinking of this, Zou Yun photoshopped the selfie of himself and the overlord dragon species, the black flood dragon, and posted it on the Internet. He also informed his subordinate companies to operate as soon as possible.

No one should snatch his spot on the trending topic this time, right? Although Shi Yu was in the limelight in the Dragon Palace this time, Shi Yu shouldn't be so high-profile... If he revealed his experience, the others wouldn't be so crazy as to publicize it.

"Dinner's ready. Everyone, let's go eat. Master is also here." At this moment, Zheng Hai, who had gone to see the situation, returned to his room and smiled at everyone. "You've worked hard!"

"Alright!"

Everyone responded.

Soon, everyone arrived at the dining location of the training hall. Perhaps because they knew that everyone was tired of eating the food there in Dragon Palace City, the training hall by the sea specially prepared the special dishes based on land.

Soon, everyone sat at a table happily.

A moment later, the Tyrannical Sea Legend also sat down.

However, modern young people still couldn't change the bad habit of holding cell phones at the dining table. Dragon Palace City had them cooped up for several days. They could only watch novels and videos that had already been downloaded. When it came to land, there weren't so many things to pay attention to. They could swipe whatever it wanted.

"This." Not long after they sat down, the blue-haired girl from the elemental family said in disbelief, "Quick, look at the news number one on the trending list."

Upon hearing the blue-haired girl's words, Zou Yun, who was not far away, chuckled. Eh, I was accidentally discovered. It's so embarrassing...

"What's wrong?" The blue-haired girl's surprise confused White Brook, Xia Qingwei, and the others.

"It's the World Competition. The official media said that Dong Huang is about to start the battle teams for the World Competition. A total of ten Beast Tamers under the age of 30 are to be chosen according to their strength. Wuuah, I didn't expect that I could actually catch up to the World Competition in my lifetime."

"What?" The blue-haired girl's words stunned everyone and also stunned Zheng Hai. Legend Sea Tyrant was also a little surprised.

The others were stunned by this news, but the Tyrannical Sea Legend didn't expect it to announce the news so quickly.

Among the crowd, everyone was attracted by the word world competition. Zou Yun was no exception. However, after he reacted, he quickly took out his cell phone and looked at the news of the world competition on his news. His expression immediately darkened. Ah, this...
