

## Beast T 561

Chapter 561: The Third Super-Rank Skill: Zhou Tian Wu Xing Physique!\_2

These battle skills from other branches of the Five Elements were mostly just additional, not essential. They were somewhat different from the three core skills of the Heart of the Sun formula, which Old Sha had once considered indispensable.

So, what exactly is the ultimate form of this Super-Rank Skill?

In such anxious anticipation, an hour and a half passed as slowly as if each second were a year. Atop the Five Elements Paper Diagram, the swirling, five-colored radiance seemed to dim slightly at this moment.

But then, in its place, manifest characteristics appeared on the body of the Five Elements Paper Diagram. Flame, dew, rock, grass, metal. These five elements manifested not as the light of energy fluctuations, but as real substances, densely covering the body of the Five Elements Paper Diagram.

Not only on its body, but in the laboratory—which resembled ruins from the destruction wrought by the Five Elements Paper Diagram—the plane of the entire world took on a pentagonal shape.

The entire world was divided into five distinct parts, consisting of flame, dew, rock, grass, and metal. The world seemed to be filled with these five elements, somewhat reminiscent of when Old Sha had fully comprehended the Heart of the Sun, gathering myriad rays of sunlight upon himself. And this time, the central point of this pentagonal world of elements was the Five Elements Paper Diagram!

Simultaneously, an indescribable aura emanated from the body of the Five Elements Paper Diagram.

Eventually, before the eyes of the three onlookers, everything converged and then vanished. The Five Elements Paper Diagram appeared unchanged, yet Liu Fuhai, Zhu Hong, and even Su Ping sensed a difference.

It was complete!

At this moment, Su Ping didn't care if he exposed his possession of the Eye of Truth to the other two. He unabashedly gazed at the Five Elements Paper Diagram before him. This Paperman, which they had researched day and night for two full months, was finally complete.

[Five Elements Paper Diagram (Paperman · Five Elements Perfection Joint State)]

[Attribute: Undead, Five Elements]

[Current Level: Commander Ninth Rank]

[Racial Potential: Commander Ninth Rank (Special Form, determined by joint quality)]

[Skills: Paper Body Joint (Proficient), Paper Body Folding (Proficient), Super-Elemental Heart (Proficient), Super-Zhou Tian Five Elements Body (Beginner)]

Zhou Tian Wu Xing Physique!

Su Ping's eyes lit up. According to Old Liu's theory that the longer the name, the more effects a skill possessed, the Zhou Tian Wu Xing Physique would likely have numerous effects. Of course, Su Ping still found this theory nonsensical. Master Zhu Hong had later mentioned that while Old Liu had a point, numerous effects didn't necessarily equate to strength. He cited a past example: a Hall of Fame level Super-Rank Skill called "Enter Dream." It was a Mental Category Super-Rank Skill that allowed one to silently enter another's dream, and any abilities or influences caused within the dream would largely affect reality. It was an exceedingly terrifying Mental Category Super-Rank Skill.

Therefore, a skill's power and effects shouldn't be judged solely by its name. However, generally speaking, it was true that the longer a skill's name, the more effects it tended to have. And at this moment, the Super-Zhou Tian Five Elements Body certainly met this criterion:

[Super-Zhou Tian Five Elements Body: A supreme skill that gathers the complete abilities of the Five Elements; it is the pinnacle of the Five Elements' generating and overcoming cycle!]

Five Elements Generating: By utilizing the generating principle of the Five Elements, for a period, one can enhance their own energy to more than ten times its normal strength! Additionally, energy recovery speed is greatly increased during this state, but one must generate corresponding elemental energy according to the Five Elements' generating cycle.

Five Elements Overcoming: Against any enemy attacks using Five Elements energy, provided the attack does not exceed the user's maximum tolerance established by Five Elements Generating, such attacks become completely ineffective and can be converted into the user's own energy!

Metal Elemental Control: Possesses control over all basic applications of Metal Element energy.

Wood Elemental Control: Possesses control over all basic applications of Wood Element energy.

Water Elemental Control: Possesses control over all basic applications of Water Element energy.

Fire Elemental Control: Possesses control over all basic applications of Fire Element energy.

Earth Elemental Control: Possesses control over all basic applications of Earth Element energy.]

(Note: Prolonged activation of the Five Elements Generating skill increases the user's burden; the duration is variable. However, each time the Five Elements Generating ability reaches its peak, the user's Five Elements Body will be permanently enhanced and adapted.)

A supreme skill of Five Elements perfection! The pinnacle of the generating and overcoming cycle!

If Su Ping were only looking at the initial description of this skill, he might still have harbored some doubts, even though he had watched it develop step by step. However, after truly seeing its capabilities and effects, Su Ping had no doubts whatsoever.

He couldn't even imagine any other skill based on the Five Elements that could surpass this one!

None at all!

At this moment, Su Ping truly possessed such absolute confidence!

The Heart of the Sun might have raised some questions about its eligibility for Hall of Fame level status before its full effects and power were displayed, as Master Zhu Hong and Liu Fuhai had suggested. But the Super-Zhou Tian Five Elements Body faced no such uncertainty.

Chapter 562: The Third Super-Rank Skill: Zhou Tian Wu Xing Physique!\_3

Su Ping seldom said anything was perfect, but at this moment, he had to admit, the Zhou Tian Wu Xing Physique was indeed perfect!

Su Ping closed his eyes. His primary thought upon truly witnessing this Five Elements Body, aside from shock, was that the noblewoman from the Xue Family, from 613—or perhaps now 614—years ago, could finally rest in peace. The heroines of the Xue Family must have their names recorded in history! This Zhou Tian Wu Xing Physique, too, must be remembered by all Beast Tamers, forever etched among the Hall-level Superior Skills!

After his moment of contemplation ended, Su Ping finally opened his eyes.

At that moment, after a pause, Master Zhu Hong finally let out a slow sigh, "Our Dragon Nation, at last, adds another Hall Skill."

These simple words spoke volumes about this Dragon Nation's Elemental Cultivation Master's astonishment and acknowledgment. Indeed, it was the case.

Not to mention anything else, simply the ability of the Five Elements to generate and overcome each other seemed somewhat similar to the effect of 'Haina Baichuan' from that Dragon Nation's Genius Breeder, Nie Chuan. Of course, 'Haina Baichuan' could be activated without one's own Energy and also had a rebounding effect. Moreover, 'Haina Baichuan' could absorb all types of Energy, while the Five Elements Body was limited to just the Five Elements.

But the Five Elements Body possessed other abilities as well! These included absolute control over Five Elements Skills and the perpetual motion effect of the Five Elements generating one another. When

these abilities were considered together, their combined effect was unequivocally stronger, not weaker, than the relatively passive 'Haina Baichuan'!

Clearly, Old Liu did not possess the Eye of Truth Skill and thus was unable to completely comprehend the abilities of the Five Elements Body. He anxiously looked to Master Zhu Hong, who shared the same Talent: the Eye of Truth.

Zhu Hong's spiritual power slowly coalesced. All the information about this Five Elements Paper Body gathered and then appeared before Liu Fuhai's eyes.

"This..."

Then, Su Ping and Zhu Hong witnessed Old Liu's delayed shock.

Su Ping could understand; he had already sensed the potential of the Paperman beforehand.

However, what truly excited him—aside from having a real trump card for his upcoming trip to Beiyuan Province to attend the Heavenly Tomb selection—was something else of even greater importance!

Even the Five Elements Paper Diagram can still be pieced together! The Five Elements Paper Diagram, besides the Five Elements Body, also contains the Heart of Elements! If these are applied to little Paperman Qian Yi in sequence, what will happen? After all, isn't the ultimate outcome of cultivating these Pet Beasts ultimately for my own core soul Pet Beast?

However, it seems the Five Elements Paper Diagram cannot be folded into Paper Swords. But if it can't be used for a sword, clothes and a cloak should still be fine, right?

Su Ping blinked. It seems I've found the right path!

Instantly, the dissatisfaction he'd felt when Qian Yi was promoted to Commander Level—because Qian Yi hadn't grasped the Super-Rank Skill 'Sword Intent' as described in the Spirit Saint Level resource, Sword Intent Origin—completely vanished.

'Sword Intent'? Bah, just a low-level Super-Rank Skill of merely two words! Now, if the Five Elements Paper Diagram is combined with Qian Yi, allowing Qian Yi to simultaneously control both the Heart of Elements and the Five Elements Body, who would dare to show any insubordination? Anyone who dares will be thoroughly thrashed!

Before its completion, the three of them—Su Ping, Liu Fuhai, and Zhu Hong—had endless topics to discuss regarding this project, with countless research directions and speculations to explore.

Now that the final result lay before them, all three fell silent.

They were savoring the fruits of their victory, enjoying the astonishingly high returns and the feedback. They were also relishing this, one of the most gratifying moments for Breeders.

However, Su Ping's experience was different from Liu Fuhai's and Zhu Hong's.

Because at that moment, just as he had anticipated, the Myriad Spirit Beast Atlas slowly unfurled, and a unique log prompt appeared in his mind, resonating deep within his soul:

[For personally cultivating a Super-Rank Skill: Zhou Tian Wu Xing Physique, you have been awarded 5,000 Origami Man Record Experience Points and 1,000 Universal Experience Points.]

Feeling the feedback from the Myriad Spirit Beast Atlas, even Su Ping's eyes widened. I never expected the Experience Point reward for the Five Elements Body to be so substantial?!

Chapter 563: Perfecting the External Incarnation!

One thousand Universal Experience Points!

Five thousand Paperman-exclusive Experience Points!

What did this mean?

This meant the Paperman Record's experience points had leaped close to the Forest Wolf Catalog's, not far from LV4.

It meant that if the exchange was completed, he would gain one thousand five hundred Universal Experience Points. This was half the experience needed to complete the External Incarnation skill—one of the TOP2 Hall-level Advanced Skills lost in the Ancient Times!

Combined with the Experience Points earned from previously cultivating the Heart of the Sun and the Heart of Elements, even without the exchange, he was very close!

Thinking of this, Su Ping glanced:

[Universal Experience Points: 1,800 points!]

These were the Universal Experience Points currently displayed.

Su Ping then took another look at the two Records providing the most Experience Points:

Forest Wolf Catalog: LV3 (17,850/20,000)

Paperman Record: LV3 (14,582/20,000)

They really weren't that far apart now.

The Forest Wolf Catalog's improvement had been substantial. However, Su Ping had also helped perfect the Crown Wolf Emperor's Evolution Law and analyzed the reason for Xiao Qing's Poison Type mutation. This took considerable effort and resources. Moreover, he often didn't interact with those Forest Wolves, so the Experience Points earned from them weren't substantial.

But he was in contact with this large group of Papermen day and night.

Furthermore, the previous evolution of the Advanced Level Elemental Papercraft Person, the cultivation of the Heart of Elements, and the five thousand experience points from the Five Elements Body this time all contributed to the Paperman Record's logical progression.

Su Ping blinked, falling into deep thought.

He currently had 1,800 Universal Experience Points. Considering the ten-to-one conversion ratio for normal Catalog Experience, he would need 12,000 Catalog Experience points to gather the full amount required for External Incarnation.

Su Ping still preferred to use the Paperman experience.

The Paperman's Experience Points weren't particularly useful. Even after the Record was upgraded to LV3, the Mind's Eye chain combat ability wasn't applicable to the Paperman army. Once the Papermen completed assembly and existed via a soul connection, they essentially shared energy and bodies.

In such a case, why bother with the extra effort?

No one knew what the LV4 effect would be, not even Su Ping. Using experience from both Records felt like it would slow down the Myriad Spirit Beast Atlas's Catalog Level advancement, which wasn't ideal.

Thus, Su Ping's goal suddenly became very clear.

Use the Paperman Record experience!

With a thought from Su Ping, the Myriad Spirit Beast Atlas responded:

[Convert 12,000 Paperman Record-specific Experience Points into 1,200 Universal Experience Points. Confirm?]

Yes! Su Ping silently affirmed in his heart.

Xiao Qing had been sidelined for far too long.

The previously mentioned Dragon Nation Youth Professional Assessment Competition was scheduled for mid-year. This particular competition was special, heralding reforms in professional assessments and attracting heightened attention.

Of course, Su Ping wasn't in it for fame. The primary reason was the many benefits!

Zhu Hong had mentioned that the Crystal Dragon was one of the prizes for this professional assessment, though it wasn't clear which rank would receive it. This temptation, coupled with Su Ping's constant exposure to Da Huang and his growing yearning for Dragon Pets, was undeniably irresistible.

The Crystal Dragon, a Space Element being. Su Ping planned to research the Space Element and create some form of spatial transportation for his home!

Therefore, it was crucial to strengthen his abilities as much as possible before the professional assessment.

Previously, no one seemed to have considered Su Ping participating in this competition; only Qin Xiaoxue had mentioned it to him once.

As a Beast Tamer who had awakened only a year ago, it would be incredibly difficult for him to compete against top geniuses like Qin Xiaoxue, Ye Zhou, and Dong Muxuan. They had already heard about the assessment and had been at the Commanding Rank for many years.

But Su Ping had never given up.

It might be difficult for Feifei to increase her combat power sufficiently for the mid-year Beast Tamer assessment. However, Su Ping had to do his utmost to enhance Xiao Qing's and Qian Yi's abilities before the deadline. He had to make these two little ones as strong as, if not stronger than, the Pet Beasts of Qin Xiaoxue and the others. After all, in a group fight, his two would be facing three!

Qian Yi might now have the potential to achieve this, so next up was Xiao Qing.

The 12,000 Paperman Record-specific Experience Points were swiftly depleted, and his Universal Experience Points reached 3,000.

If he wished, Su Ping could instantly perfect the External Incarnation skill, but he preferred to check the online forums first. He wanted to see what changes would occur after perfecting External Incarnation and how it differed from the analyses and research conducted by other Breeders on the world forum.

So, Su Ping took a deep breath and turned to look at the two individuals still in a daze. "Teachers, I'll go rest for a bit."

'Rest for a bit.' The sentiment resonated deeply with the two of them.

They both clearly needed time to digest and accept that they might have witnessed history in the making. They might be remembered for eternity because of this skill.

Chapter 564: Perfecting the External Incarnation!\_2

So, they too needed to take a moment to process.

Su Ping waved his hand dismissively and returned to his study, where he turned on his computer and logged directly into the back end of the Breeder Association's website, clicking on the section for Hall Skills.

He didn't rush to activate and perfect the "External Incarnation" thread.

Instead, he took a leisurely and enjoyable glance at the 97 Super-Rank Skills listed there.

One day in the future, the Zhou Tian Wu Xing Physique will become one of them, and my name will also be among those who have attained the title "Hall-level Beast Tamer." Such a sense of achievement made even Su Ping feel almost elated beyond this world. This accomplishment would signify recognition and remembrance by all Beast Tamers on Blue Star.

However, Su Ping did not wallow in this sentiment for long. It seemed he remembered something, and he continued to search within this Super-Rank Skills section.

The Skill he searched for was the one he had discussed during a casual conversation with Master Zhu, the Super-Rank Skill consisting of just two words: "Enter Dream."

At the time of their chat, Su Ping had been quite interested in this Skill. Now is a good opportunity to take a closer look.

[top91: Enter Dream (Psychic Element Super-Rank Skill), Hall-level Breeder: Meng Huangliang (Dragon Nation), Pet Beast used: Dream Butterfly]

[Enter Dream: A Psychic Element Super-Rank Skill that allows one to freely enter and leave the dreams of others. Once inside a dream, as long as there isn't too great a disparity in Realm, one would be in an 'absolute power suppression' state. In the dream, one can expend spiritual power to change the appearance of any object, playing god.

Moreover, based on the difference in spiritual power between both parties, upon exiting the dream, anything that transpired within can be freely brought into reality. Activation distance is unlimited, but a psychic medium is required to establish the connection.]

HISS! This Skill is indeed too outrageous! Doesn't it mean that if I were entered into a dream by an opponent, my life and death could be completely controlled by them in the dream encounter? Absolute power suppression? It means that any attack of my own would fail to affect the opponent, but their attacks not only have the ability to directly kill me but can also carry over into reality, causing me to die there too. This ability is much like something from a classic horror film. Marvelous, yet terrifying.

However, to Su Ping's relief, the holder of this ability was actually from Dragon Nation! He felt quite fortunate that such a powerful ability was possessed by someone from his own nation.

So, he clicked to open the detailed information about this Super-Rank Skill.

Yet, the content made him pause slightly.

'Meng Huangliang, originally named Meng Yan, was also known in Eagle Country as 'Dom Cobb.' He was a hidden spy for Dragon Nation and an Emperor-level Beastmaster. For twenty years, he remained deeply undercover within Eagle Country, using the Enter Dream Skill to obtain numerous state secrets. These secrets included Advanced Level development forms of mechanical Pet Beasts like 'Mechanical Devastator' and 'Space Shuttle,' as well as research secrets for mechanical weapons such as the 'Space Compression Projectile.' After one such theft, he nearly blew his cover and quickly disengaged from Eagle Country, returning to Dragon Nation territory.

However, due to prolonged periods spent in the state of dreaming, his mental state deteriorated, causing an inability to distinguish dream from reality. He was forcibly confined to a psychiatric care facility for treatment. He is on the hit list of Eagle Country, which has claimed multiple times to have successfully assassinated him, thus his current living status is unknown.'

Spy? Seeing those two words and considering the capability of the Enter Dream Skill, Su Ping came to a realization.

Respect then welled up within him. Such individuals, who venture into the deepest heart of the enemy—even at the cost of mental breakdown—yet contribute to Dragon Nation, deserve respect.

It was uncertain if Meng Huangliang were still alive now. If possible, Su Ping wanted to witness the capabilities of this Enter Dream Skill for himself. If I could learn the Cultivation Method for this Skill, that would be even better.

After taking a look, Su Ping regained his focus and reopened the familiar "External Incarnation" forum thread.

In his spare time, he had frequently reviewed the capabilities of External Incarnation. Now I can finally begin.

Having reviewed the summaries of the research findings yet again, Su Ping no longer hesitated. In the Myriad Spirit Beast Atlas's universal breeding options, he locked onto a particular choice:

[Discovered 'External Incarnation' Cultivation Method in incomplete state. Do you want to spend 3,000 Universal Experience Points or 30,000 specific Catalog Experience Points to perfect the 'External Incarnation' Cultivation Method?]

"Yes!"

In an instant, three thousand Experience Points vanished like flowing water!

「Meanwhile, elsewhere.」

Master Zhu Hong, still somewhat bewildered, returned to his own room.

The Super-Rank Skill of the Five Elements Paper Diagram was so astounding that even for this Elemental Breeding Master, the shock had not quite set in.

For Breeders of his level, the only further goals and dreams were to elevate their cultivated Skills to the Hall of Fame level and to raise their own Beast Tamer Realms. Beyond that, there wasn't much else he aspired to in life.

But now, he had witnessed a miracle.

This young man, Su Ping, is filled with miracles.

The Heart of the Sun, he had thought, possessed the potential to become a Hall-level Advanced Skill. This potential would be realized once the Pet Beast carrying it reached a certain Realm, thereby unleashing effects sufficient for the Heart of the Sun to qualify.

Chapter 565: Perfecting the External Incarnation!\_3

Although it's not certain, just having this opportunity is already quite good.

However, it's only been two months since he returned from Magic Capital, and this brat has actually developed an entirely new Super-Rank Skill!

Moreover, this time, once this Super-Rank skill is discovered and announced, a demonstration of its effectiveness in battle would suffice to ensure it's recognized as a Hall of Fame level skill.

Even he, despite considering every possible outcome after completion, had not imagined that it would reach this level.

So much so that this time, Zhu Hong himself was somewhat at a loss.

He hadn't reported anything to the president of the Breeder Association, and while his relationship with Old Feng was also decent, Zhu Hong, as a Breeding Master, had one particularly impressive contact in his network.

After some thought, Zhu Hong decided to give this person a call.

Concerning Su Ping's situation, Zhu Hong also felt it necessary to let this person know early on because, in his view, Su Ping's potential was probably no less formidable!

On the contact list of his phone, Zhu Hong came to a number without any remark, lightly tapped it, and dialed out.

The phone rang four times before it was answered.

From the other end of the phone, a magnetic but surprisingly delighted voice came through:

"Hello?"

"Holy Dragon!"

"MM. Is that Elder Zhu? What's the matter? Is there a problem with the evolution of your Yellow Dragon? Do you need me or Dragon City to give you some help? HEH HEH. I already told you, you should have let your Da Huang attempt evolution in Dragon City. Although Bing'er from Dragon City has always been rather forceful towards your Da Huang, it's still a good thing, isn't it? You..."

The voice on the phone, apparently well-informed about Zhu Hong's affairs, including the cultivation details of Da Huang's evolution, kept on talking.

Zhu Hong pursed his lips, and seeing that the person was about to ramble on, he quickly cleared his throat to interrupt, "COUGH COUGH, uh... Holy Dragon, it's not about Da Huang's evolution; it's another matter. You know, regarding Su Ping Su Cultivator, the first-place winner from this Jianghai breeding conference."

The interrupted speaker didn't get angry but quickly picked up the conversation, continuing, "MM, I know that. Aren't you looking for the essence blood of Ah Sang's Mu Long? As for Su Ping, Ah Sang mentioned him to me a few days ago. Damn, where did this kid pop up from? You have no idea how much trouble he's caused. Of course, it's not his fault for that matter. Eh? You should know about this too, right? Sadly, this can't be disclosed carelessly, otherwise it could lead to trouble..."

"Holy Dragon!"

Zhu Hong wished he could slap himself right now. Why can't I just finish my piece and stop letting this person continue? He quickly interjected, "It's like this. Su Ping has found a new Super-Rank Skill cultivation plan since he returned. During these past two months, while I was accompanying Da Huang through its evolution, I've been studying it with him. Just now, we successfully developed this Super-Rank Skill, and I've determined it has the potential to become a Hall of Fame level skill."

"What? Elder Zhu, I won't hold it against you since you took the initiative to chat with me, but if you're just shooting the breeze, let's not take it seriously. You're a Breeder, and I too started as a Breeder..."

Zhu Hong sighed and interrupted again, finally telling this person about the Five Elements Body.

"The Way of the Five Elements? Paperman? Someone has researched the evolution of this thing? Interesting. Speaking of which, isn't my Er Gou of the Five Elements Attribute too? Oh, Er Gou currently has five more attributes: wind, thunder, ice, Darkness, and light. I wonder if he could..."

"Holy Dragon, how should we deal with Su Ping?"

For a moment, the two seemed to be talking past each other on the phone, but undoubtedly the topic was steered back again.

"MM, if it's as you say, and Dragon Country can once more produce such a talented Breeder, naturally we must give it some importance. Currently, there are two options. First, we could directly award him the title of Breeding Master from the Breeder Association. Additionally, we would grant him the highest level of access and provide full support for any research direction he chooses. However, to ensure his personal safety, his freedom of movement would be somewhat restricted."

"The second option is for everything to proceed as usual, but with increased permissions. However, no information about him would be disclosed to the outside world or any other individuals. He would be secretly granted the Dragon Emblem as a reward for developing this Super-Rank Skill and would also enjoy some privileges equivalent to Spirit Saint Level treatment. By the way, what are this kid's views on this cultivation method, Paperman, and Dragon Country?"

Regarding this question, Zhu Hong assured him with confidence, "Holy Dragon, Su Ping is absolutely devoted to Dragon Country! At the same time, he is a Breeder truly sincere and dedicated to the art of cultivation! Regarding Paperman, he mentioned that due to certain considerations, he won't disclose it for the time being. However, judging from his attitude, he definitely doesn't intend to keep it a secret. Furthermore, his family background is clean..."

"I'm aware of his family matters... A fine young man. In that case, you should ask him which of these two options he leans towards."

How could this person know about his family? Zhu Hong was baffled but didn't press further, saying, "Yes, but I think he would probably choose the second option."

Chapter 566: Perfecting the External Incarnation!\_4

"Tsk, young people... I don't want to be surrounded by a bunch of old fogies day and night in Dragon City. It would be inconvenient to travel and such. Let's forget about that and just go with the second option. Send the Dragon Emblem to him when the time comes. As for the rest, we'll discuss it when he arrives in the Imperial Capital."

The speaker mulled it over, seeming to realize the first condition was somewhat foolish.

Zhu Hong scratched his head. He had grown accustomed to this esteemed figure acting on whims in these minor matters. As long as it didn't concern major issues affecting the overall direction of Dragon Nation, this person had always been impulsive.

"This kid is quite interesting. Keep talking, tell me more about him..."

「Thirty minutes later.」

Zhu Hong, parched and tongue-tied, had finally managed, after numerous attempts, to extricate himself from the speaker's numerous tangents and hang up the phone. That was terrifying.

This Holy Dragon had risen like the sun in the east over the past few decades, shocking nations, intimidating countless covetous figures, and instilling fear in numerous beings within Dragon Nation. Some feared him for his icy demeanor and forceful, cold methods. Others, like Zhu Hong at this moment, dreaded his incessant chatter that couldn't be casually interrupted—a real trial for subordinates.

Meanwhile, at the very heart of Dragon Nation, within the Imperial Capital, a peculiar structure—existing between reality and virtuality, the tangible and the Secret Realm—flickered in and out of existence within the void. It was a pavilion entwined with dragons, exhibiting ancient architectural styles. Amidst this illusory, flickering presence and an aura as if surrounded by True Dragons, it appeared exceptionally sacred and ethereal.

At the top of the pavilion, a figure stood at the summit. Gazing at the Imperial Capital—which also lay suspended between illusion and reality—and at another world overlapping it on a different spatial plane, a faint smile touched the corners of his lips. His earlier chattiness from the phone call was gone, replaced by a concise manner of speech. Even with immense excitement bubbling in his heart, he merely said softly, "A great era is coming!"

No sooner had the words left his mouth than a vague shadow began to slowly form in the sky above. Without a second thought, the figure reached out and shattered the materializing entity with a single slap.

Then, he squinted slightly and said, "Throughout Blue Star, there are always those said to be born under a propitious sign. Now it seems that the national destiny of my Dragon Nation is no less powerful. To have such cultivation prowess at such a young age is indeed interesting..."

Before he could finish speaking, a shadow slowly materialized in the sky once more. If Su Ping were here, he would undoubtedly recognize the illusory figure slowly materializing in the sky—conjured by the speaker's very words—as himself. However, this illusory Su Ping was enveloped by a Golden Dragon, lifelike and vivid.

The speaker looked helplessly at the image forming in the sky due to his words, his face a mask of resignation. Then, as if recalling something, he instantly regretted it and slapped himself hard across the face.

This individual, standing at the pinnacle of Dragon Nation, contemplated bitterly for a moment. Then, he decisively took out his phone, scrolled through his contacts, and found someone suitable for a good, long chat.

BEEP. BEEP. BEEP. BEEP...

The call was disconnected.

The speaker's face turned cold as he redialed.

BEEP. BEEP. BEEP. BEEP...

'The number you have dialed is busy...'

The figure, silent, then sent a text message: [Answer the phone!]

This time, the call connected. Leng Ye's resigned voice came from the other end, "Legendary Lord, what are your instructions?"

"I just missed you, that's all. How have you been lately? Are you well?"

"Mm-hmm... Thanks for asking. I'm in tip-top shape, good appetite and all! Do you have any other instructions?"

"How are the preparations for the Heavenly Tomb coming along?"

"Mm-hmm, all good. Any other instructions?"

"Leng Ao, I'm trying to have a proper conversation with you!"

"Mm-hmm, any other instructions?"

"..."

Chapter 567: A Novel Method for Skills Cultivation!

"Phew..."

Having stepped out of the room once more, Su Ping felt that the sky was exceptionally blue and the clouds above were so beautiful. All things in this world seemed incredibly wonderful. Yes, when you're in a good mood, everything looks good. Undoubtedly, at this moment, Su Ping could not be in a bad mood.

After a long absence, Su Ping came to the Heart of Woods' training field. He smiled as he watched the Forest Wolves before the trees—some playing, some chasing and frolicking, and some lazily basking in the sun. A few of the evolved Elf Wolves stood elegantly atop the canopy. With each leap on the jungle's branches, their figures swayed gently, a sight of extraordinary beauty.

Three people were standing here. Two of them were none other than Li Shu and Guan Lili. They were responsible for the Cultivation of the Forest Wolves. Now, through practicing on their own Forest Wolves and with guidance from Su Ping and even Liu Fuhai during their leisure, both had achieved rapid progress in their Cultivation Skills. Therefore, the Evolution and Cultivation of several Elf Wolves were completed by them.

Beyond them, there was another person: a man in a camouflaged uniform of the Heart of Myriad Spirits. He stood tall and sturdy with thick eyebrows and large eyes, likely in his thirties. His name was Lu Heng, a retired Camp Commander from the Forest Wolf Troop and a First Rank Monarch Level Beast Tamer.

If it were in the past, his Heart of Myriad Spirits could not have afforded to hire such a trainer. But now, according to Zhang Lie and Lin Lei, this man seemed willing to work for free. Of course, Su Ping would not let him work without pay.

"Camp Commander Lu, how are your thoughts progressing regarding the distribution of members for the Forest Wolves' formation into a Legion?"

Lu Heng was the main trainer from the Legion responsible for the Forest Wolves this time. For the future Forest Wolves, and even the Forest Legion Su Ping envisioned, to become a fighting force, such training and distribution were essential.

"Yes, Breeder Su. Based on the training these past few days, my thoughts are similar to yours. However, the specific class allocations for the Forest Wolves and the Pet Beast squadrons have not been fully detailed. Please give me a few more days."

"Mm, no worries. These things take time. When the time comes, my Heart of Woods will be responsible for Cultivation, and for combat training, I'll still need your help with adjustments. How have you been adapting these past few days?"

"Very well, haha! To be able to come here is something my comrades envy!" Lu Heng chuckled heartily.

Su Ping also smiled. "That's good to hear. If there's anything you're lacking in your daily life, you can come to me or speak directly to Uncle Guan."

Lu Heng acknowledged. Seeing that Su Ping had nothing more to say, he turned and left. Su Ping slightly squinted, watching those lively Elf Wolves.

Initially, these Elf Wolves were just ordinary Forest Wolves. But now, their bodies had become translucent and dreamlike, as if they were fantasy elves hiding in the jungle.

Su Ping had acquired the method for creating the 'Illusionary Heart' Magic Potion from these Elf Wolves, and from this, the concept of Elementalization evolutionary Cultivation was born. And from what he could see now, that ancient Hall-level Advanced Skill seemed to be closely related to Elementalization.

On the world forums, with tangible data, information, and even specific research processes and failed cases shared by some researchers, Su Ping gained a thorough understanding of External Incarnation. This was also why the Myriad Spirit Beast Atlas, relying on such a vast amount of Experience Points, had been able to forcefully analyze it.

It was true—there were countless talented individuals in this world. Indeed, some people had stumbled upon Cultivation Methods akin to true External Incarnation independently. Yet, neither they nor Su Ping, without the Myriad Spirit Beast Atlas, would have thought that the Cultivation for External Incarnation could be so incredible. Even the perfection of this Super-Rank Skill's Cultivation Method had given Su Ping an entirely new perception and understanding of Skill Cultivation. It showed him that the Cultivation of Pet Beasts could be handled in such a way.

With that in mind, Su Ping watched the Elf Wolves hop around leisurely, his consciousness re-entering the Myriad Spirit Beast Atlas to look again at the novel Super-Rank Skill Cultivation Method that had shaken his understanding of Cultivation:

"External Incarnation: An ancient Shadow Clone Technique whose exact origins are unknown. The Myriad Spirit Beast Atlas has restored it, suggesting it is a Skill possessed by Elemental Type Pet Beasts. The Cultivation Method is as follows—"

"Phase One (Preparation): The Pet Beast must be in the 'Oviparous' unhatched stage, or undergoing its first 'Evolution' stage only! Note: For the oviparous stage, the unborn Pet Beast's Racial Potential Level must not be lower than Emperor Level! For the Evolution stage, the Pet Beast's pre-Evolution stage must not be lower than Commander Level!"

(Note: This Cultivation can only be performed when 'Oviparous' conditions are met and during the first use of the Evolution state. Once the first Evolution is completed or the shell is broken, subsequent Cultivation is no longer possible.)

"Phase One (Preparation) Stage 2: Prepare one Spirit Saint Level resource 'Soul Guiding Wick,' 300ml of Emperor Level 'Ethereal Spirit Water,' and assistance from the Spirit Saint Level Pet Beast 'Mirror of Reflecting Heavens.'"

(Note: Soul Guiding Wick, a Spirit Saint Level resource of the Necromancy Series/Psychic Element, can guide souls and maintain Life indefinitely. If any living being is protected by a Soul Guiding Wick upon Death, its soul can be ensured not to perish. Beast Tamers can also use this.)

(Note 2: Ethereal Spirit Water, an Emperor Level resource of the Necromancy Series/Psychic Element, can solidify souls, allowing even low-level souls to ignore the assault of sunlight, strong gales, and even lightning Energy.)

(...)

"Phase One (Preparation) Stage 3: For the oviparous state, prepare three eggs of the same Race. For Evolution state Cultivation, prepare Monarch Level resource materials 'Monarch Slime Core,' 'Advanced Level Soul Fragment,' and 'Fast Reproduction Spore'!"

Indeed.

Just the preparation for Phase One alone was more complex than any Pet Beast Cultivation and Evolution Su Ping had ever seen! The required materials were also of extremely high Levels. And although titled a universal Cultivation Method, the requirements were exceptionally stringent. He had originally thought about trying it on Xiao Qing, and then wondered if it could also be applied to the little paperman, Qian Yi. Unfortunately, the preparations for Phase One had already eliminated this possibility. Attempts at Cultivation could only be made during the oviparous unhatched state and before the first Evolution. The fact that this Skill's Cultivation was so closely related to a Pet Beast's Evolution also shocked Su Ping.

"Phase Two (Oviparous): Directly integrate the Soul Guiding Wick into the main subject of Cultivation."

"Phase Two (Evolution): Before the Pet Beast evolves, bring it to a critically wounded, near-Death state right before the final step of Evolution. Then, have it consume the Monarch Slime Core along with Advanced Level Soul Fragments and Fast Reproduction Spores."

(Note: This Cultivation step will cause the Pet Beast to enter a semi-Elementalized state after Evolution, which will have a certain impact on the Pet Beast's Evolutionary Body form!)

This step was similar to the evolutionary step of the Elf Wolf, just that the required resources were even more substantial.

"Phase Three (Oviparous): Once the soul Energy has completely enveloped the being, place three other eggs of the same Race around the main body in a triangle, and then shatter the unhatched eggs."

"Phase Three (Evolution): After completing all stages of the Pet Beast's Evolution, envelop it in the Light of Evolution to begin the Evolution process! At the same time, wrap it with the Soul Guiding Wick."

From this point on, Cultivation in the oviparous state was one thing, but the Evolution state began to use the Light of Evolution for Cultivation.

What kind of Cultivation required the Power of Evolution, the greatest Rule on Blue Star? Su Ping didn't know. He only knew that this Cultivation and Evolution had given him entirely new inspiration and insight. And it wasn't even finished yet; there was still a lot left.

"Phase Four (Oviparous): After the soul egg absorbs the souls of the same Race, it hatches. Use the Mirror of Reflecting Heavens to create reflections, splitting the soul into three shadow clones. Simultaneously, have each of the three shadow clones consume Ethereal Spirit Water. After the soul returns to its place, the Cultivation is complete!"

"Phase Four (Evolution): After Evolution is complete, use the Mirror of Reflecting Heavens for reflection, splitting the soul into three shadow clones. Simultaneously, have each of the three shadow clones consume Ethereal Spirit Water. After the soul returns to its place, the Cultivation is complete!"

The steps might seem numerous, but in reality, this was a Cultivation process based on Evolution. The steps of this Cultivation were not difficult. What was truly hard was the preparation. The Level of Evolution and the oviparous state were the biggest constraints. Even more daunting were the required materials: a Spirit Saint Level Soul Guiding Wick! A Spirit Saint Level Pet Beast, the Mirror of Reflecting Heavens! These were not items ordinary people could procure. The difficulty of using these for Evolution was immense. But if these were all that was needed to complete the ancient and historically powerful External Incarnation, touted as the strongest shadow clone Ability, probably no one would refuse. Neither would Su Ping.

Besides, for him, these conditions weren't actually that difficult. Because in the vaults of the Breeder Association, Soul Guiding Wicks were available. He hadn't yet used his exchange slot from the Breeder competition, and now was the time! Moreover, with this External Incarnation Cultivation method, Su Ping could finally go all out in truly cultivating Xiao Qing!

Thinking of this, Su Ping did not rush. Instead, he took out his phone and called Dong Muyun. He had been busy lately and hadn't contacted her for a long while.

"Has Young Master Su finally remembered this humble one? What can I do for you?" Dong Muyun's voice teased.

"Hmm... indeed, I do have something to ask. I want you to help me look into something. Do you know about the Xue Family from the Liang Dynasty era?"

"The Xue Family? The one that produced five generations of Saints?"

"Exactly!" Su Ping nodded.

"In the late Liang Dynasty, this Family gradually declined. By the new era, they couldn't even be considered a prominent Family anymore, and most traces of them were lost. Why are you asking about them?"

"I have a favor to repay the Xue Family. Help me ask around, use your contacts, and find the current descendants of the Xue Family—preferably direct descendants."

"Alright! Does Young Master Su have any other orders?" Dong Muyun's voice continued.

"No, that's all. You're dismissed."

Su Ping hung up directly, much to Dong Muyun's irritation on the other end of the call.

Su Ping let out a long sigh. Finding the descendants of the Xue Family and offering them some compensation would somewhat count as repaying the great favor Xue Hongluan had done for him regarding the Five Elements Body. Although others might not know, Su Ping simply sought a clear conscience. Having decided this, he felt a great weight lift from his shoulders. Before he started Xiao Qing's Cultivation, he could test Qian Yi's control and adaptability with the Five Elements Body! He just wasn't sure where to test it this time. For some reason, Su Ping thought of Lord Sang Sheng, who had not yet left Linzhou...

Chapter 568: Su Ping Returns to the Secret Realm to Test His Skills!

"Hey? Xiao Ping!"

Qin Erlong picked up the phone. After seeing the name on the other end, he spoke with a laugh.

Qin Xiaoxue and Sang Sheng, standing beside him, turned to look at the old man.

"HEHE, aren't you busy with that new Pet Beast Cultivation project with Old Liu? What's up, got some time to spare for this old man?"

The two exchanged glances. However, Qin Erlong did not put the phone on speaker, and there was some distance between them. They also did not bother using spiritual power to eavesdrop.

"Well done! Congratulations to you then! Has Old Liu returned to the city? I might as well find an excuse to go there and get a pot of tea from him."

Qin Erlong had a beaming smile, appearing not at all surprised by Su Ping's words over the phone. As always, no one understood Su Ping better than he did.

What the hell is so difficult about this Cultivation? It's just that these Breeders' skill levels are lacking. All that talk is useless.

"HMM HMM! Sure, that's nothing! No problem at all! If you want to come over, just do it! Once you arrive, I'll find you, and we'll go try it out together."

"HAHAHA, don't worry, that's not a big deal. The Beast Master Association has the most professional equipment and grounds... Oh? You want something more advanced? That might be a bit of a hassle...

But there's no need to find some empty space. Within the Beast Master Association, there's a sustainable Secret Realm we can use! If nothing else, I can take you there. That should be enough, right?"

Qin Erlong gestured grandly, appearing very straightforward. He patted his chest as if making a guarantee. Meanwhile, Qin Xiaoxue turned to Sang Sheng and pursed her lips, "The old man is probably up to something again!"

Sang Sheng gave Qin Erlong a sideways glance. However, since it involved Su Ping, she wouldn't refuse.

Indeed, as expected, Qin Erlong was extremely magnanimous, telling Su Ping over the phone, "No trouble at all! What could possibly go wrong? I'm here, and so is Ah Sang! Listen to me, if you're so confident, then just come to the Beast Master Association. I'll wait for you at the entrance, and then we'll go to the Myriad Flowers Secret Realm together! I want to see what kind of Skill it is!"

"HAHAHAHA! Although the Myriad Flowers Secret Realm doesn't have Time Series traits, it features Emperor Peak Level and even quasi-Spirit Saint Level Emperor Peonies. With the Myriad Flowers Queen presiding, what could possibly happen..."

"MHM MHM MHM, come on over. I haven't seen Old Liu and Master Zhu Hong in a while either."

After hanging up the phone, Qin Erlong shook his head and mused, "When did this brat start being so polite?"

However, at this very moment, Sang Sheng had picked up on a piece of information. Even though she hadn't actively used her spiritual power to eavesdrop, she had clearly heard everything her husband had said!

It involved a Secret Realm? Especially with this kid and a Secret Realm?

After thinking for a moment, Sang Sheng decided to ask, "Erlong, what's up with Su Ping?"

Qin Erlong stood up from the sofa with a jovial expression. "What did I tell you? It's just that Old Liu isn't up to the task! Look at Su Ping, how quick is his research progress? Old Liu tries to launch a project, and every time it takes him half a year to come up with something new.

That Icefang Whitewolf's Super-Rank Skill Cultivation has been going on for years without a hint of a breakthrough.

And what happened? Xiao Ping talked to them both before the New Year, and now, just over half a month after the New Year, it's all done! If you ask me, Old Liu is just getting old..."

Qin Erlong kept rambling on, but Sang Sheng's eyelids began to twitch rapidly. "So, the kid came to you for..."

"What else? He wants to test out the power and effectiveness of this Skill, looking for a suitable situation to do so."

Qin Erlong had already put on his coat.

Sang Sheng pressed further, "So you agreed, and you're going to try it in the Myriad Flowers Secret Realm?"

Qin Erlong gave his wife an odd look. "Yeah. Mainly, the brat thinks some of the test equipment at the Beast Master Association won't measure the effects accurately, so he insists on a field test. But this little thing is nothing, and Old Liu and Master Zhu are coming along too..."

Sang Sheng fell silent.

Nearby, Qin Xiaoxue also blinked. "UH... Grandma, Su Ping will definitely exercise restraint."

Sang Sheng turned to look at her granddaughter.

That kid would definitely exercise restraint. Sang Sheng believed that. But she didn't believe in what this kid had cultivated!

Especially since she had heard from Qin Erlong that when Su Ping had invited Liu Fuhai and the others, even Master Zhu Hong had said that this could be a research project on par with the Heart of the Sun.

Completing such a project in such a short amount of time—she was, of course, astonished and happy for the brat.

But when she heard that he was coming to experiment with the Skill's effects and power—and, dammit, entering the Myriad Flowers Secret Realm, one of only two sustainable Secret Realms in Linzhou—Sang Sheng felt a bit overwhelmed.

It wasn't that she had any particular opinion about Su Ping in this aspect; it was really about the incident in the Linhai Secret Realm last time, and before that in the Mysterious Snake Secret Realm too.

Snow Field Short-haired Dogs were known for tearing apart houses, but this kid was different; he was tearing apart Secret Realms!

Qin Erlong, looking at his wife's and granddaughter's expressions, was also somewhat baffled. "What's wrong?"

Qin Xiaoxue didn't hide anything for Su Ping's sake and recounted the incident in the Linhai Secret Realm.

Chapter 569: Su Ping Returns to the Secret Realm to Test His Skills!\_2

Hearing this, Qin Erlong laughed heartily and waved his hand, "That's the issue? Ah Sang, you're being too sensitive! I've heard about what happened last time. That kid's Heart of the Sun is indeed strong, but another reason was the strength of that Wanmu Wolf, right? That Wanmu Wolf had already reached Monarch Level, and with the enhancement of a Super-Rank Skill, plus the power it had accumulated over time, it's only natural that it would create such an explosive force. This time, the youngster mentioned that what he had cultivated was applied to his Paperman, which is merely at the Commander

First Stage. Besides, with the Queen of Myriad Flowers there, the Myriad Flowers Secret Realm won't have any problems!"

Clearly, Qin Erlong wasn't the least bit concerned.

After all, the only time he had seen the brat's cultivation talent in action was during that fight in the Sword King Secret Realm. But as he said, in the Sword King Secret Realm, the one Su Ping had urged on was Old Sha. Although Old Sha's strength was unquestionable, Old Sha wasn't Su Ping's Contracted Beast.

Indeed, upon hearing this, even Sang Sheng, who had felt something was off just moments ago, reconsidered and nodded slightly. Perhaps there really was some truth to it?

Nevertheless, adhering to a cautious mindset, Lord Sang Sheng pondered and then said, "I'll go take a look with you, just to see what kind of mischief this kid has managed to stir up during the winter break!"

"I'll go too! I'll go too!" Qin Xiaoxue jumped up, eagerly raising her hand.

"Let's go!"

After quickly getting ready, the trio left home and headed to the Beast Tamer Headquarters in Linzhou City Center.

They didn't have to wait long before the other trio also arrived.

Strictly speaking, this was Su Ping's first visit to the Beast Tamer Headquarters in Jianghai Forest Province.

Compared to the Breeder Association, which occupied a vast campus, the towering building at the very center of Linzhou—the heart of the city and even the province—seemed somewhat inconspicuous.

As Su Ping got out of the car, he immediately spotted the trio of grandfather, granddaughter, and their elder companion leisurely chatting at the gate.

"Sorry to keep you waiting!"

Su Ping also greeted them with a smile.

Qin Erlong shook his head; they were already quite familiar with each other, so formalities were unnecessary.

After exchanging greetings, they entered the Beast Tamer building.

"Um... Senior Qin, aren't we going to the Myriad Flowers Secret Realm?" Su Ping quickly asked as he saw them enter the large building and head for an elevator.

"Yes, the Myriad Flowers Secret Realm is inside this Beast Tamer building. This is top secret; don't you go blabbing about it to others!" Qin Erlong said in a teasing tone, then stepped into the dedicated elevator and pressed the button for level -3.

Underground? Su Ping was slightly surprised but didn't dwell on it.

Previously, at Magic Capital Academy, he had seen many secret realm entrances gathered in one place. From this, Su Ping guessed there were likely abilities or mechanisms capable of drawing such entrances together. Therefore, it made sense for an 'Earth'-level recyclable Secret Realm—one not visible on the Qintian Monitor's official backend website—to be located at the Beast Tamers' core headquarters.

It had to be said, Su Ping was very interested in such an ability. If, in the future, there was any Secret Realm that could be moved to his own place, he would definitely want one too. But for now, that opportunity clearly hadn't arrived.

Upon reaching the third basement level, it was evident this was no ordinary place. Not only did they have to pass through numerous corridors that required Qin Erlong's personal authorization, but

mechanical security checks were also omnipresent. After traversing a lengthy passage, a vista Su Ping had never imagined unfolded before him.

It was like an underground garden. There was no stuffiness or darkness, only an indescribable natural aura filling the air. At the far end of this garden was a spinning entrance to a Space Secret Realm. The natural energy sustaining this underground garden flowed continuously from this Secret Realm.

"Here we are, this is the place!"

Qin Erlong took the lead, marching straight into the open, recyclable Secret Realm.

The Myriad Flowers Secret Realm.

It was slightly different from Magic Capital Academy's Linhai Secret Realm.

True to its name, the Linhai Secret Realm was filled with endless jungles and various forest-type Pet Beasts and Ferocious Beasts. It was a place for Magic Capital Academy students to test themselves.

But the Myriad Flowers Secret Realm was clearly different.

Within this Myriad Flowers Secret Realm, at least at first glance upon entering, Su Ping didn't see any Ferocious Beasts.

Even if there were some Pet Beasts, they were harmless, spiritualized Resource Type Pet Beasts. These were cultivated Pet Beasts capable of continuously producing resources.

More abundant still were the various fresh flowers and plants, and an omnipresent, soul-refreshing floral fragrance.

In a place like this, if powers were unleashed, wouldn't it damage all these delicate flowers and plants? Su Ping was a bit worried.

"Hua Hua!" Qin Erlong called out.

No sound came in response, but before their very eyes, the various flowers on the ground arranged themselves into a staircase made of blossoms.

Chapter 570: Su Ping Returns to the Secret Realm to Test His Skills!\_3

The group slowly ascended.

Each time they stepped onto the staircase, the scene before them inevitably changed.

So this so-called Queen of Myriad Flowers is also proficient in illusionary abilities?

Su Ping was somewhat enlightened.

Finally, they arrived atop an incredibly huge platform made of tree leaves.

Below the platform, rows of flowers—some tens of meters high, others even dozens—stood tall, resembling the garden of gods or giant Titans.

Among them, a colossal peony flower swayed gently and appeared before them.

"Hua Hua, we will borrow your garden for a moment to test the power of these Skills."

RUSTLE RUSTLE~

The giant peony flower nodded slightly, seemingly not minding at all.

However, Su Ping didn't quite understand.

"Su Ping, didn't you say you couldn't find a suitable place to unleash your power?" a voice explained. "Hua Hua is connected to the entire Myriad Flowers Secret Realm, and all these flowers are part of her. Though not as strong as her main body, they each possess extremely strong defensive capabilities. As long as the Origin of the Secret Realm is not damaged, any flower can be restored. Moreover, these flowers have various effects and different Attributes. If you feel the Advanced Level skill power testers at the Beast Master Association cannot measure your Paperman's Skill strength, then just strike these flowers!"

Su Ping's eyes lit up.

A place where he could cause destruction without concern was the very Skill-testing laboratory he'd been dreaming of.

The gigantic peony flower, standing like the Emperor of this vast garden, seemed indifferent to their arrival.

And Su Ping, too, couldn't wait to summon his mutated Paperman, Qian Yi.

"YIPPEE!"

The Paperman, having not accompanied its master for a long time, was extremely excited to appear. Of course, the main reason for its excitement was probably because its master had given it new gear, making it stronger.

The current Qian Yi was somewhat different from before!

Behind it, the huge Sword Box was like a coffin lid. It had become several times larger than before. And on its body, it was no longer wearing a short robe and cape. Instead, it now wore a colorful long coat draped over its frame.

Such attire on a Paperman seemed a bit odd and comical.

But upon seeing this gear, both Liu Fuhai and Zhu Hong couldn't help but show a hint of anticipation.

What kind of chemical reaction would occur with this mutated Paperman coupled with the familiar Five Elements Paper Diagram?

"Little guy," Su Ping instructed, "try activating the Five Elements Paper Diagram on your coat. Perfectly harness the generative and destructive energy of the Five Elements, and unleash your Swordsmanship at the same time!"

"YIPPEE!" Qian Yi excitedly cried out.

Su Ping nodded and slowly backed away. If possible, he really wouldn't want to cause trouble here. One reason was that he dared not act recklessly on a large scale in the suburbs. Furthermore, Master Zhu Hong's Yellow Dragon, Da Huang, was extremely wary of this mischievous lad. Da Huang had decisively refused the idea of fighting the Paperman, which was undergoing Evolution.

The Divine Dragon would not stand beneath a wall on the verge of collapse, even if the wall was made of paper!

At this moment, someone else shared Da Huang's sentiments. Sang Sheng suddenly spoke up, "Su Ping, testing a Pet Beast's combat ability should be a comprehensive evaluation, not just the strongest strike released after accumulating power for a long time. In a battlefield and a Pet Beast duel, no opponent will give you that much time to prepare, understand?"

Su Ping understood his concern and quickly nodded. "Don't worry. This time, I want to see Qian Yi's practical combat ability and its capacity for prolonged combat! Qian Yi, go!"

"YIPPEE!"

In an instant, Qian Yi's two-dimensional face turned into that familiar poker face.

The garden's central peony flower didn't care in the slightest. To this Queen of Myriad Flowers named Hua Hua, such an insignificant Paperman wouldn't even merit a glance if not for her master's command.

What threat could such a Commander Level being possibly pose?

So, it curled its enormous pistil slightly and then just gently made a pale-yellow rose in front of Qian Yi sway, clearly indicating its first opponent.

The weakest control flower in this vast Myriad Flowers garden already possessed the power of Peak Command! Was it more than enough to deal with a Paperman?

Meanwhile, Qin Erlong looked with great interest at Zhu Hong and Liu Fuhai. "From your attitudes, it seems you've come here full of confidence?"

Zhu Hong, smiling, spoke for the first time since his arrival, "Of course, we are confident. I've already reported the matter of this Skill to the Holy Dragon. To acknowledge Su Ping's contributions to Dragon Nation's cultivation world, He has bestowed a Dragon Emblem. It should be delivered in a couple of days!"

Hmm?

At these words, the three people present—apart from Su Ping, who was directing Qian Yi at the forefront, and the oblivious Qin Xiaoxue—looked at Zhu Hong in disbelief.

Master Zhu Hong had never mentioned this before! A Dragon Emblem? What about this Skill makes it worthy of the Holy Dragon's award? Su Ping hasn't formally become a Breeding Master or a Spirit Saint Level, right? So, it's because of this Skill?

This kind of recognition and honor was one of Dragon Nation's most valuable distinctions. Many present, except Sang Sheng and Master Zhu Hong, had never received it! Including Liu Fuhai and Qin Erlong, none were eligible. It was one of Dragon Nation's most coveted honors!

Suddenly, Qin Erlong turned towards Hua Hua, the Emperor Peony and Queen of the Myriad Flowers Secret Realm. Old Qin suddenly felt that his wife's caution and vigilance might indeed have a point!

But at this moment, any objections were already too late.

Because the little Paperman Qian Yi had already drawn its sword!
