

ANCIENT TEARS BLOODLINE

Chapter 10 - VISIT 1

A Few days later.

Mr James came to visit Zack at his orphanage, He dressed formally not in his usual Army attire, He took the day off Because he got an appointment from Dr Mearov at his Private Research Facility at Whitesnow City!

A few years ago.

I once helped Dr Mearov to acquire certain ore, Which I got from exploring an unmarked area, At first, I thought it was an ordinary ore so I placed it as a collection in my home, Who would have that one day Dr Mearov would ask about the details about the exploration.

Since it is confidential, I didn't tell him anything related to the core of the expedition! But he used his connection to find out about the unidentified ore mine we stumbled upon! But mine was confiscated by the Army Federation! It

is unidentified metal, we found that it has unique properties, later then all the info about the mine has been sealed since we were the first one to discover the mine.

The Federation rewarded our team with the piece of ore, which is not even the size of the thumb! We were dissatisfied, My rewarded ore was even more horrible it looks like an ordinary stone though it faded, like they casually toss off some left-off waste materials from the ore, at least they should reward us with high-tier equipment.

Later I placed it in my home as a collection!

One day Dr Mearov called me to say that he wanted my small thumb ore for his research, by doing that he would owe me a favour! At First, I hesitated, later when I thought about Zack, It would be a good opportunity for Zack to use his research Facility at the time of selection, So I agreed.

So today I got an appointment from him, I will take Zack with me to visit his facility.

Mr James thought inwardly.

When he spotted Zack in his room, He smiled and said

"Zack, I hope you have been doing well".
