

BloodLine 1001

Chapter 1001: Part 1: Dark Pond

From MC's Perspective:

The nearby bugs were all gone.

While the remaining bugs were disoriented, I slipped away quietly.

But not long after, I stepped on something suspicious.

Crack!

The next second, the ground beneath me exploded.

I find myself inside a sand hole.

The black sand is dragging my feet inside.

My expression changes drastically.

I immediately used the lightning power to explode the sand covering me.

Then I got space to move around my body.

I immediately used the movement technique to escape from the place.

Just as I thought the dark barren land had no end.

I finally spotted a green cover from a distance.

For a second, I thought I was hallucinating.

Then I took a few seconds to observe again.

There is indeed some green cover on the land.

Swoosh!

The next second, I started moving towards the place.

When I got closer to the place.

The view becomes more clear.

Trees and plants are growing in this particular place.

The world energy in this place must be rich.

Otherwise, there must be some kind of treasure hidden here.

It could be the source of the vegetation.

When I finally reached the green cover area.

I finally confirmed the situation with my very own eyes.

The Trees, plants and other vegetation growing here are releasing rich world energy.

My eyes sparkle.

I activated the perceptual ability.

The area around me appears in my mind.

Follow new episodes on the "N0vel1st.c0m".

I began to observe every minute detail.

“Hmmm,” I raised my eyebrows as I saw something interesting.

I walked towards the spot and saw a narrow path leading somewhere.

This can't happen.

Unless someone before us came to the place.

The path is likely to be created by a warrior.

I started following the path.

As I continued to walk on this narrow path.

Finally, it led me to a giant green tree.

Under the tree, I spotted 3 old graveyards.

Swoosh!

I rushed to the place.

Then I saw the graveyard has traces of old times.

It's certainly not a new one.

I sighed inwardly.

For a second, I thought it's the graveyard of fellow faction warriors.

I hope nothing bad happens to them.

After removing the thoughts, I shifted my attention to the old graveyard.

A hint of curiosity appeared in my eyes.

Now, I can confidently say that we were not the first visitors to this place.

"Should I dig it open?" I thought.

Then I shook my head.

It's not appropriate.

So I decided to leave without disturbing the graves.

While looking around, I saw another path.

But this time the path was covered by overgrown weeds.

Seeing that it's leading somewhere deep inside this place.

I started following this new route.

A few minutes later,

I arrived in front of a cave.

There is a skeleton leaning against the walls of the cave at the entrance.

The bones were visible.

My gaze immediately fell on the rotten clothes.

From the cloth material, I can confirm that it was from an old era.

Probably, this person must have placed those graves before dying here.

Sigh!

A small sigh escapes from my mouth.

As I casually looked around, my gaze fell on the cave walls.

There are some markings drawn on the cave walls.

Seeing that,I walked towards the wall and observed what was drawn on the wall.

The markings appear to be some kind of map.

There are four human-like sketches surrounded by trees and plants.

I guess that place is here.

Then I saw something more interesting.

There is another new path leading in the direction of the south.

But at the end of the path, there is a huge "X" Mark.

"This Mark represents something important or dangerous.

I wonder which one it is," I muttered.

Then I noticed that "X" Mark is surrounded by long snakes.

I can now forget about the danger.

The "X" Mark represents something important that may be a treasure.

After memorizing the route, I gave a proper burial to the Skeleton right next to the 3 old graves under the tree.

After doing that I swiftly left the place.

Time passed in the blink of an eye,

When I arrived at the end of the southern route.

I was shocked by the scene in front of me.

The following path is occupied by snake monsters of different sizes.

Then, I used the flight ability to walk in mid-air.

I continued following the route in the mid-air.

On the ground, the number of snakes increases.

It feels like I'm entering the nest of snakes.

But the "X" Mark attracted me.

I want to see what it is.

If it's a treasure, I must get it.

Shortly afterwards,

I reached the end of the route.

A small pond filled with dark liquid is located at the end of the route.

The snakes of different sizes lurked inside the dark pond.

"F@ck," A foul word left my mouth.

Of all the things, I didn't expect the same dark liquid to appear here as well.

This Dark liquid seems to be much thicker and purer than I found on my previous trip.

Seeing that snake monsters are taking a dip in it.

I felt jealous inside.

Those old warriors must have come here.

But they ended up dead for some reason.

Suddenly, an ominous feeling rose in my heart.

My perception is still active.

I'm searching for any dangerous monsters lurking here.

Now, I understand that old warriors might have been injured or killed by snake monsters here.

Hiss!

The next second, a loud hissing sounded.

Hearing that my gaze immediately fell on the pond.

Because the hissing sound comes from one of the snakes.

As my eyes wander around to find the source.

Swoosh!

I felt something flying towards me.

I was able to view it due to my perception.

It's a flying type of snake monster.

I immediately used the movement technique to leave the place.

While moving, I noticed that the flying type of snake alarmed other snakes in the vicinity as well.

The other snakes joined in the chase as well.

Chapter 1002: Part 2: Dark Pond

From MC's Perspective:

After leaving the territory of the snakes, I got a sigh of relief.

The Flying Snake Monster turned around to leave with the others.

Their behaviour made me even more confused.

Normally, they should have continued to chase back their enemy.

Instead, they don't want to leave their nest.

My eyes flash with a sharp glint.

I want to enter the black pond to experience the power of the Dark liquid.

If it's truly the one that I benefited from back in the Ant Colony.

Then I must go back.

But the presence of these snakes does pose a problem.

The feeling of danger back in that time was real.

I don't know what else hiding in the pond.

It could be another Class-9 Monster.

If it's true, then the risk of getting out unharmed would be difficult.

What to do?

For a moment, I stood here and pondered.

A few minutes later,

I made a crazy decision.

I have decided to go back and enter the dark pond at any cost.

But this time, I won't fly over their head openly.

It would expose me directly.

So, I decide to follow a different route.

Where I can hide myself from the snake monsters.

Then, I left the place and started to observe the surrounding areas to find a good route to the dark pond.

About 25 minutes later, I was able to find a place where there were no trees and vegetation was growing.

But this route is a long path.

I have to circle before reaching the dark pond.

One good thing, though, is that there aren't many snake monsters sleeping on this track.

So my risk of exposure is less.

After going through the plan once again, I used the flight ability to follow this new path.

Most of the snake monsters were gathered around the dark pond.

Follow new episodes on the "N0vel1st.c0m".

So there aren't many lurking in the outer area of their territory.

All the snake monsters are greedy.

They all wanted to get inside the dark pond.

But because of the strength difference, the lower-class monsters are lurking outside the dark pond.

The truly dangerous ones and high-class monsters are getting benefits inside the dark pond.

A 20 minutes later,

I reached the dark pond area.

Instead of flying over there, I landed on the ground.

I activated my perceptual ability.

The surroundings became clear in my mind.

I slowly started approaching the dark pond.

Snake monsters are resting on the ground and tree branches.

Anything can happen if one of them awakes.

So, I carefully moved past them without disturbing anyone.

Hiss!

The snakes which are not far away are hissing.

But they didn't spot me.

Soon, I reached closer proximity to the Dark Pond.

Hiss!

A green colour snake near the pond turned towards me.

The next second, it started hissing before rushing towards me.

This monster's sudden action alarmed the nearby snakes.

I took the black sword out.

In the next second, I used the lightning movement technique.

Thunder!

A purple lightning arc covered my legs.

The next second, I burst out at full speed.

I easily slipped past the green snake monster.

It was caught off guard by my sudden burst of speed.

The other snakes were stunned as well.

They froze for a second before they started chasing me down.

In the blink of an eye, I reached the dark pond.

Without thinking further, I dived inside the pond.

Splash!

The liquid splashed.

But it only rose a few metres.

On the other hand, I'm feeling a burning sensation all over my head.

My heart set off storms.

I'm feeling overwhelmed by the power of dark liquid.

So much so that I started running the blood element method.

The dark blood energies enter the body.

I started to guide them according to the blood element method.

This dark liquid is many times stronger than the one inside the Ant Colony.

The Ant Queen had a small pond compared to this one.

But the Ant Queen was able to break through faster.

I don't know what other terrifying monsters are hiding here.

Right now, I need to find a place to settle down.

I can't stay under the dark liquid for a long time.

I continued to dive deeper and to go to the depths of the pond.

I'm feeling that dark liquid is coming from somewhere.

Otherwise, it's impossible to fill this level of pond with the Dark liquid.

Swoosh!

Suddenly, I felt something rushing towards me.

I immediately tried to move faster.

Yet the monster was so fast.

It reaches me in the blink of an eye.

Boom!

All of a sudden the monster hit me from behind.

The strike was so strong that the impact force directly sent me even deeper inside the pond.

I'm feeling pain.

Yet, I was not in a position to check my injuries.

The snake monster might attack again.

So I started looking for an exit.

Then, I found a small path that might lead to air pockets.

Seeing that I started moving towards it.

Once I entered the path.

I felt the threat from behind disappears.

After reaching the end, I was able to walk out.

This small air pocket gives me a temporary haven.

The snake monsters can invite other monsters.

Before something like that happens, I must use the dark liquid here to practise.

Otherwise, all of my efforts would end up in vain.

Then I took a deep breath and relaxed.

Then I walked near the dark liquid and submerged myself in it.

After dark liquid covered my chest level, I started practising the blood element method again.

Outside,

The Flying Type Snake Monster is hissing at other monsters for letting intruders enter the dark pond.

The Flying Snake Monster was enraged.

It couldn't believe a weak enemy managed to get into the pond.

Shortly afterwards,

A huge snake comes out of the dark pond.

It hissed at the flying snake.

The two monsters communicated.

After knowing that, the intruder manages to find a small airpocket to hide.

The flying snake monster ordered small snake monsters to get inside the pond.

Chapter 1003: Destruction Bead

From MC's Perspective:

As the dark energy coursed through my body.

A red light appears above the bloodstream, beginning to cover this Dark energy with mysterious white energy.

At this moment, I felt the power of the dark energy overwhelming the blood element method.

If I don't convert it, then it might cause irreversible damage.

So I continued to focus on the blood element method.

Slowly, the violent dark energy gets converted into white energy.

Then the white energy drills into bones all over my body.

The next second, I felt gut-wrenching pain.

The pain is beyond what I had experienced before.

This tells me that the origin of the Dark Liquid is something special.

I could tell that by feeling how my bones are being strengthened from small amount of white energy.

I continued to repeat the process.

The dark energy is not only strengthening the bones but it also strengthens the flesh and organs during the circulation.

Outside,

The flying snake monster led the small snakes inside the dark pond to find the intruder.

Yet some of the snakes were greedy.

Instead of looking for the enemy.

They are busy swallowing the dark energy inside the dark pond.

The Flying Snake's eyes flash with a human intellect.

It immediately killed those monsters who were not following the order and led others to find the enemy.

The other monsters were all intimidated by the Flying Snake Monster.

They obediently followed the orders to find the enemy.

Not long after, the huge snake monster guides others to the air pocket.

Where the enemy has escaped.

The Flying Snake knows about the air pocket.

It wants to take down the enemy by itself.

But the human level intellect made it to think differently.

It decides to use others.

It ordered the small snake monsters to get into the air pocket.

Boom!

All the small snakes rush towards the path leading to the air pocket.

Follow new episodes on the "N0vel1st.c0m".

But only a few of them were able to get inside.

Others were restricted by the size.

On the other hand, my cultivation process was interrupted by the sudden disturbance.

I opened my eyes to look at the situation.

I tried to see through perception.

Then I was shocked.

I didn't expect the snake monsters to come so soon.

And that too are in large numbers.

The only way to escape the situation is to use deadly items.

Then I immediately thought of a destructive bead given by Federation Head Ben for my safety.

I still haven't used it.

The destruction bead can cause injuries to Silver Mark Warrior.

Using the destruction bead on these monsters would be too much.

But I don't have any choice.

I immediately took the destruction bead from the storage ring.

Looking at the black head, my heart palpates.

Then I poured a small amount of lightning essence into it before throwing it into the passage.

The destruction bead falls to the passage, which connects to the dark pond.

At this moment, the destruction bead glows, which alarms the small snake monsters in the passage.

These monsters sensed danger before they could run out of the passage.

Ka#boom!

The destruction bead explodes.

The power of the destruction bead is the same as the output elemental power of Silver Mark Warrior.

The destruction beads contain the power of flame elements.

It immediately destroyed the passage and all the surrounding structures.

The small snake monsters fell instantly.

Including the big ones which are near the entrance of the passage.

The Flying Snake Monster has fled already after sensing the danger from the bead before its destruction.

But unfortunately, the huge snake monster failed to escape with it.

The elemental flames instantly roasted the monster and vaporised it into the air.

Including other snake monsters in the pond.

The elemental power that can threaten the Silver Mark Warrior vaporises the big dark pond.

The big dark pond which was full rick dark liquid before.

Now it's left to dry.

This was all happened within seconds.

The flying snake monster was last to escape.

This time, it didn't even turn back.

It wants to flee from this territory.

The flying snake monster was terrified by the enemy.

It mistook the power of destruction bead as the paper of the enemy.

If it knows the true strength of the enemy, it won't flee in panic.

At the same time, the snake monsters lurking near the pond were caught off guard by the explosion.

They also saw the death of snake monsters in the dark pond.

These monsters started to flee after experiencing the dangers.

On the other hand, I was swept by the aftermath of the explosion.

The Silver Mark Elemental Power almost fried me to death.

But thanks to the cave structure under the dark pond.

I was able to escape from the direct explosion.

Yet the aftermath sent me to an unknown place.

There is a cave structure inside the dark pond.

Fortunately, there are passages linked to the surface.

Because of it air is circulating fine inside.

It made me think about exploring the cave structure, which is spreading like spider webs everywhere.

I'm sure that the source of the Dark Liquid is somewhere here.

Sigh!

But thinking about the destruction of the dark pond.

A sigh left my mouth.

I don't think Dark liquid would be left there.

After pushing down these thoughts, I started to explore this place.

On the way, I'm also keeping an eye on the surroundings.

I don't want to get surprised by unknown monsters.

The experience of fighting against the unknown dark bugs has raised my alertness.

Not long after,

I heard some movements.

The sound was so low.

It made me observe for a few minutes.

Then I heard the same sound again.

It's like something moving in one of these passages.

I have a strong feeling that it could be monsters.

My eyes flash with hesitation.

I don't know whether it's good to explore first or if I should find the exit first.

Chapter 1004: Mysterious Well

From MC's Perspective:

I started to look for the exit.

As the time passed, I discovered more and more tunnels.

All these tunnels' ground was dry and had black sand.

I immediately guessed the black sand must be the result of the dark liquid.

The dark liquid must have passed over here.

But for some reason, the passage has become dried.

Yet the traces of dark liquid can be spotted.

A curiosity appears in my heart again.

At the same time, I'm afraid of meeting a Class-9 Monster.

This time, I don't have any more destruction beads with me.

Then I finally decided to enter one of the tunnels where a bright light can be seen inside.

The bright light must be coming from the surface.

So I began walking inside the tunnel.

The tunnel path is getting brighter.

The lights are coming from deep inside.

There could be a big opening above which could lead to the surface.

Swish!

Seeing that, I sped fast inside the tunnel.

When I reached the end.

Something else awaited me.

Old ruined structures were scattered everywhere.

At the same time, the ground was stained black with traces of dark liquid.

I paused my movements.

Then I started observing the place.

There is a big opening in the ceiling of the cave.

The opening connects to a surface where the light and fresh air come from.

Instead of getting happy by finding the path back to the surface.

My gaze shifted to the old structure ruins.

Now, I have finally seen some clues connected to the source of the dark liquid.

I have decided to investigate this old ruined structure.

Follow new episodes on the "N0vel1st.c0m".

When I'm walking through the age-old debris.

I noticed that the broken structure has a Mark of dark liquid.

As if they were submerged in the dark liquid some time ago.

"Don't tell me this place was flooded with dark liquid," I said to myself jokingly.

Then I went deeper inside to explore the place.

After passing through several ruined structures, I came to the middle of this place.

I saw a well.

I immediately sped fast to reach it.

After arriving in front of it, I immediately used the purple lightning.

I dropped a purple lightning ball inside the well.

The purple lightning illuminates the well as it goes down below.

Now, the view has become more clear.

But there is no sign of reaching bottom so far.

Just as I was worried.

The purple lightning ball reaches the bottom.

Then I saw a Colossal skeleton, the Head of an unknown monster, half submerged inside a pool of dark red liquid.

The view gave me goosebumps right away.

“Is it the source of the Dark liquid?” I asked myself.

Then why does the liquid look different?

It now has a mix of red colours as well.

Then a terrific thought comes to mind.

Maybe it’s the blood of the Colossal Monster.

Which has its skeleton Head submerged in the blood pool.

Just as I thought I had lost my chance to Breakthrough in that previous dark pond.

Now, I think I have more precious resources.

I used the flight ability to get down inside the well.

When I finally reached the bottom.

I felt an ancient aura from the Colossal Skeleton Head.

I tried to find other parts.

But it's not there.

This well has only the head of the unknown monster.

Then I couldn't help but wonder where the actual source of the previous dark pond came from.

I don't think this place has anything to do with that.

Since it's already dried.

The previous dark pond must have a source from other passages.

After pushing down these thoughts, I finally entered the dark red liquid.

The next second, I felt a powerful heat coming from the dark red liquid.

This time the power was many times stronger than the previous dark pond.

I sat cross-legged on the ground.

The dark red liquid covers up to my stomach.

Then I started running the blood element method.

As the blood rune in my consciousness flickers, I manage to attract the dark red energy into my body.

After the circulation, I focused on the important process.

The red blood light appears.

It begins to convert the dark red energy into the mysterious white energy.

Strangely, this time, I didn't meet any resistance with the dark red energy.

It immediately got converted into white energy.

The white energy starts spreading into the bones in all parts of my body.

My skeleton and body organs are getting strengthened as time passes.

I have a feeling that I will soon reach the barrier.

Meanwhile,

There are numerous passages under the surface spread across like a spider web.

Some of the passages have mysterious wells with skeleton parts of ancient monsters.

It's not one and two, but many wells with hundreds of monsters.

Like someone had used this place to farm the blood in ancient times.

Among the wells, many of them were dried.

Only a few of them are left untouched.

Some of the untouched wells have naturally formed passages connected to the surface.

Which leads to the formation of natural dark ponds over hundreds of years.

On the other hand, other Thunderflame Faction Warriors came across weird monsters.

Remi and Rayon joined up as a team to defeat all those weird monsters.

But most of their time has been wasted fighting these monsters.

They wanted to find the resources as well.

Yet the secret land is full of danger.

They both encountered a few Class-9 Monster groups.

Which made them retreat earlier.

Right now, they want to rest before starting their journey.

They don't have all the time to explore the place.

Dean Jerome could use his power to call them back at any time.

Remi and Rayon decided to not fight against monsters anymore.

At the same time, the Ice and Fire Palace warriors met with similar challenges as well.

The presence of many strange monsters posed a serious threat to them.

They managed to kill them.

Because of it they have only found a few resources all this time.

Chapter 1005: Body-Commander Rank, Early Stage (Forced Breakthrough)

From MC's Perspective:

Time passed in the blink of an eye,

I completely forgot the outside noise and was immersed in the cultivation.

Shortly afterwards,

Something unexpected happens.

Deep inside the body, the ancient spirit slumbering inside the blood of the ancient guardian god awakens after a long time.

The ancient spirit has no form right now.

It started scanning the body of the Inheritor.

It had instructed the Inheritor before going to slumber previously.

The requirement was to raise the standard of the physique.

So that the Inheritor can accept the inheritance without any problem.

When the scan was completed.

[Requirement was not met.]

[Detected lower quality blood energy around the Inheritor.]

[Forcibly using the blood energy to raise the Physique of the Inheritor.]

A sudden voice sounded in my mind.

Which immediately set off huge storm waves in my heart.

How long has it been since I heard this voice?

At that time, the ancient spirit gave me the task to raise my Physique level.

But I haven't reached the level yet.

So I opened my eyes abruptly in shock.

The next second, more shocking things take place.

A strong sucking force appears in the body.

It started to suck the surroundings dark red energy from this dark red pool.

A hint of fear appeared in my eyes.

I know what would happen if I forcibly absorbed this energy into my body.

The body would explode.

When I tried to stop it.

I found that the body was out of control.

The dark red blood liquid is disappearing into the body in the blink of an eye.

The next second, a sharp pain shot through my body.

My whole body started itching.

It feels like someone is tearing up every inch of the body.

Including the flesh, bones and organs.

The pain is making me go insane.

At the same time, I tried to remember the exact words that sounded in my mind just a moment ago.

Follow new episodes on the "N0vel1st.c0m".

“The ancient spirit said it’s going to forcibly increase my physique level.

But how?” I uttered in my heart.

The next second, I felt my consciousness go blank.

Slowly, I fell unconscious.

On the other hand, the dark red bloods became dormant in front of the drop of ancient guardian god blood.

Compared to before, the golden colour returned a lot more in the ancient guardian god’s blood drop.

The ancient spirit is using the power of the god’s blood to wipe away the violent nature of the dark red blood.

And also diluting the power of dark red blood to several lower levels.

So that the diluted dark red blood won’t overload the Inheritor’s physique.

This diluted red blood starts to spread across each part of the body.

Skin, flesh, veins, meridians, inner organs and bones are improving at an alarming rate.

The blood element method was running automatically.

This forced improvement caused the Inheritor to fall unconscious.

Yet the ancient spirit is focusing on the task.

Within a few seconds, the Peak Stage Barrier (Physique -SSS-ELITE Rank) was reached.

It didn't even take a few seconds for the barrier to shatter.

Click!

The dark red energy flooded the barrier and broke it the next moment.

Then, the level of physique rose further to the Peak Stage of SSS-ELITE Rank.

Yet the Ancient Spirit didn't stop it there.

It continued to suck the dark red blood in the pool.

10 minutes later,

The barrier to the Commander Rank was reached.

The ancient spirit once again used the diluted dark red energy to break the barrier.

This time the barrier was tough.

Since it's a path to the next big rank.

The level of resistance is high.

But in front of the power of the ancient guardian god's blood drop.

These Dark Red blood energy continued to bombard the barrier.

It didn't take another 10 minutes for the barrier to crack.

With the continuous bombardment.

The crack starts to expand in the blink of an eye.

When the crack was fully formed.

Click!

The next bombardment shot the barrier to pieces.

The new profound energy starts to pass through the path, raising the Physique to the level of Commander Rank in the blink of an eye.

The passing of dark red energy hadn't even stopped yet.

It continuously strengthens the foundation.

So that the Commander Rank would be stable.

A few minutes later,

Physique – Commander Rank (Early Stage) base becomes solid.

The flowing of dark red energy stopped at this moment.

Because the rest of the dark red energy was absorbed by the ancient spirit.

Outside, the pool of dark red blood was left to dry.

Not even a drop was left.

The ancient spirit once again scans the Inheritor's body.

Shortly afterwards,

[Requirements not sufficient.]

[No energy detected nearby.]

The next second, the ancient spirit fell back to slumber again.

Next time, it would awaken sooner as it has absorbed the energy from the dark red pool.

One hour later,

I opened my eyes after I didn't know how long.

But for some reason, I'm not feeling tired.

Instead, I felt my body was stuffed with overflowing energy.

Slowly, the memory returns to my mind.

It took me a couple of minutes to digest everything that happened to me.

“Before going unconscious, I remember the spirit mentioning raising the physique level,” I muttered to myself.

Then I started to observe my body.

A pungent smell attacked my nostrils.

Then I saw something that took me aback a little.

A thick layer of black impurities has come out of my body.

I’m feeling abnormally stronger than before.

But when I saw the condition of the pool around me.

My heart set off storms again.

A terrific thought comes to mind.

“Don’t tell me the ancient spirit has caused a forced breakthrough,” I asked myself.

Then, I started observing internally.

My skeleton has undergone terrific changes.

The Red Skeleton has become Dark Red in colour.

The small ancient runes have turned a dark colour as well.

Then, I started observing other parts of my body.

A few minutes later,

“Commander Rank,” I uttered in a shock.

Before, I was at Mid- The stage of the SSS-ELITE Rank.

I know the difference between a small breakthrough and a big breakthrough.

Compared to before, my veins have become stronger.

The meridians are wider and tough.

I feel like the inner organs have an extra layer of protection.

It’s an overall change brought by a big breakthrough.

So I’m Commander Rank (Early Stage) Physique Warrior right now.

Chapter 1006: Return

From MC’s Perspective:

This sudden turn of events surprised me.

Especially the awakening of the ancient blood spirit.

I have a feeling that I might have to experience it again.

Having forced a breakthrough without any drawbacks or flaws in the foundation brought me a sigh of relief.

But essence cultivation is a whole rank lower than physique cultivation.

Next, I have to focus on essence cultivation.

After clearing my thoughts, I decided to leave.

I used the flight ability to get outside of the well.

Then I returned to the entrance area where the opening to the surface was present.

Then I exited the underground area.

When I appeared outside.

It's already dark.

Seeing that I immediately thought of the black token.

Only a few hours left before the token takes me out.

So I decided to rest here until then.

When I looked around.

I found that place was another remote place in the secret land.

While observing the place, I suddenly thought of something important.

“What should I do if the dean asks about my body cultivation strength?” I muttered.

It’s impossible to hide my strength when he sees me.

Then I shook my head.

If he asks me, I’ll tell him about the dark liquid.

The ancient spirit is something of a personal secret of mine.

If I think about it carefully, it has saved my life multiple times.

It’s also doing it for my good so my body can grow fast to accept the inheritance.

The General Rank Peak Stage Warriors undergo trials for the inheritance.

I don’t know what will happen to me.

Shaking my head, I pushed down these thoughts.

The ancient spirit won’t let me die.

Then, I started waiting for the mission to end.

Follow new episodes on the "N0vel1st.c0m".

A few hours later,

The black token in the storage ring reacted.

I took the black token out and held it in my hand.

The next second, a layer of energy covered me.

Before I knew it, I felt strongly attracted.

Outside,

Dean Jerome opened the metallic black door again.

Swish!

One by one everyone appeared outside.

All the Thunderflame Faction appeared.

Not a single one of them is missing.

Faction Leader Clifford sighed in relief.

He was worried that secret land might pose a danger to others.

Seeing that everyone has come out.

He can take them back to faction with peace.

On the other hand, I noticed that it was nighttime outside as well.

I don't know how many hours I spent exactly inside the secret land.

But it feels great to be back.

Especially after facing the weird tree monster, unknown bugs and flying snakes.

"Oh, you are alive," Remi said to me.

Hearing that, I remained silent and didn't react.

But I noticed that Rayon and him were worn out.

They suffered skin injuries as well.

"Looks like they had some terrible encounters," I said in my heart.

"Zack Lockwood, you are good.

The secret land was not easy to survive," Aby said.

I turned towards her.

I saw she and the healing palace girl and the dark flame faction girl were all fine.

Then I saw the Ice and Fire Palace duo were a bit bruised.

But there is no serious injury.

There is also this Black Flame Guy who seems to be unscathed as well.

“Are you Zack Lockwood?”

Suddenly, I heard someone calling me out.

When I turned around, I found Dean Jerome standing before me.

The old man’s face is full of smiles.

“He saw through me,” A thought appeared in my heart.

“Yes, it’s me.

Dean,” I replied.

Jerome is still smiling.

At the same time, he was shocked in his heart.

He knows that the kid’s strength was only Mid-Stage SSS-ELITE Rank before.

Now he has risen to the Commander Rank Early Stage Warrior.

He can only think of one thing which is opportunity.

“So I was right, this secret land is not ordinary,” He thought.

Because he found Zack Lockwood’s foundation was solid.

If not for him seeing Zack earlier, he wouldn’t have believed it.

He then returns to his place and turns towards Clifford.

“Faction Leader, Clifford.

I want everyone’s report by morning.

I hope you guys won’t hide any details.

Because this secret land is important to our Star University,” Jerome said in a strict tone.

Hearing that, everyone agreed and nodded to him, including me.

Why do I feel that words were directed at me?

I guess he must have figured it out.

Instead of asking me directly, he gave orders indirectly to report without hiding anything.

“Don’t worry, Dean, our members won’t hide anything,” Clifford answered.

But his heart was in turmoil.

Old man Clifford stood in shock.

He didn't notice it earlier.

Because Dean Jerome was standing in front of Zack.

Now that he can see him.

He saw what had changed.

"This kid has become Commander Rank Warrior," Clifford said in his heart.

He can understand why the dean wanted the reports by morning.

There are several resources in the secret land.

Otherwise, it's impossible to explain Zack Lockwood's change.

Only rare resources can help warriors break through quickly without affecting the foundation.

He can see that Zack's foundation was rock solid.

It doesn't appear as if he broke through recently.

"Alright, everyone.

I'm leaving.

Clifford, you can take them back to your faction," After saying that, Jerome disappears.

On the other hand, my heart skipped a beat.

I realised that Faction Leader Clifford figured it out as well.

He didn't say it.

But I can see his glowing eyes while looking at me.

The rest of the warriors didn't find anything.

For them, the conversation appeared normal.

Then we returned to board the aircraft.

Shortly afterwards,

The aircraft appears in mid-air and starts flying back to the campus.

"Zack, did you find any Monsters?" Aby asked.

Hearing that I looked at her.

Then I found everyone turned towards me as well.

Including Rayon and Remi.

Seeing that my mouth twitches.

From the outside, these guys showed no reaction.

Now they are interested in knowing my experience.

Chapter 1007: Teaching Painful lesson

From MC's Perspective:

I looked at others and said, "No, I found a safe place to hide.

I didn't encounter any single monsters the whole time."

"Ha...Ha...Ha..., I knew it," Remi said with a laugh.

He was quite jealous and suspicious after seeing Zack Lockwood remaining unscathed.

Now that he knows the reason.

He couldn't control himself from making fun of Zack.

"Harumph, no wonder.

You look fine," Rayon said in a mocking tone.

Aby felt embarrassed.

She was expecting some adventurous experiences to listen to.

The warriors from other palaces turned their heads as well.

But their faces showed complete disappointment.

The Healing Palace Female Warriors were surprised.

Because they have heard something different from Elder Ann.

That Zack Lockwood was a lot stronger than what he appears to be.

Now, they couldn't help but doubt her words.

On the other hand, old man Clifford sighed inwardly.

He can hear everything.

He doesn't know why Zack Lockwood is hiding his strength.

But he thinks it's much better.

If other Faction learn about this, they might do something.

But still, Zack Lockwood's Commander Rank's Physique Strength shocked him.

20 minutes later,

The aircraft landed on the airfield inside the Thunderflame Faction.

Everyone then begins to step out one by one.

Old Man Clifford then looked at them and said, "You can go back to your residence.

But the main elders will summon you later for the reports."

After saying that he disappears from the spot.

The other palace warriors left the place immediately.

Only the Golden Lightning Palace Warriors remained here.

"Hey, loser.

Don't come follow us," Remi said with a sneer.

"I don't know how he got fame," Rayon said as well.

Follow new episodes on the "N0vel1st.c0m".

Only Aby felt helpless.

Because they are from the same Monster Hunting Squad.

"Looks like I have to teach them a lesson," I said in my heart.

Three of them are standing in front of me.

Remi and Rayon glared at me.

“What are you looking at us?” Remi said with an anger.

Hearing that I decided to teach them a lesson.

Swoosh!

I disappeared from the spot and started charging towards Remi.

“Zack, what are you doing?” Aby was shocked.

Rayon was shocked as well.

He didn’t expect the newcomer to charge forward.

But he has confidence in Remi’s strength.

He can’t wait to see the newcomer getting bruised.

Remi grinned evilly.

He was truly controlling himself from beating a trash from the 20th Monster Hunting Squad.

On the other hand, I used the blood energy power.

When the power reached my fist.

I threw a punch at Remi’s face.

Remi is showing the same wide before throwing a similar punch to match.

Aby is looking at them with shock.

She doesn't know how to stop them.

If Elder Austin learns about this, then everyone will be punished.

Rayon stood cross-armed, imagining the broken arm of the newcomer.

At the same time, our two fists come in contact with each other.

Argh!

The next second, blood energy-covered fist immediately overwhelmed Remi.

The brute force broke the bones of Remi right away.

Remi let out a painful cry before retreating backwards, holding his arms.

Blood drops can be seen dropping on the ground.

"This?" Aby widened her eyes in disbelief.

Remi is Commander Rank Warrior.

But SSS-ELITE Rank Warrior broke his arm like this.

She turned towards Rayon to see his reaction.

But Rayon's jaw dropped in shock.

He couldn't believe the scene playing in front of him.

There is a big gap between the SSS-ELITE Rank and the Commander Rank.

It's big watershed.

Once you reach the Commanded Rank, the warrior will get a lot of improvements.

He would be many times stronger than the Previous Rank.

"It's impossible," Remi uttered in shock, holding his blood-dripped right hand.

"There is nothing impossible.

I thought you were strong, seeing how you were boasting about your strength earlier.

But it appears your words are false."

"So what about you?

I hope you are as weak as him," I said to Rayon.

"No, I don't think you are that strong," Rayon collected his thoughts before saying.

He felt Remi was careless.

Otherwise, he wouldn't be like this

"Since you are unconvinced.

Let's test each other strength, " After saying that I started charging towards Rayon.

Swoosh!

Rayon used a casual punch with brute force.

He still doesn't think it's necessary to use power of element.

Aby wanted to stop again but things were happening before she could think properly.

At the same time, I channelled the blood energy into my right fist again.

It's a simple control without using the actual blood fist technique.

If I used the blood technique, his arm would smothered into pieces.

Pfff!

This time my fist comes in contact with Rayon's fist.

The next second, the brute force behind the attack stunned Rayon.

He felt terrible pain.

Before he could retract his hand.

The force power reached his right-hand bones.

Crack!

The next second, Rayon's right hand bones suffered a fracture as well.

Argh!

Rayon let out a scream before holding his right arm.

He ended up with the same condition as Remi.

Both of them are looking at each other in disbelief.

Seeing the condition of two of them, I said, "You two don't seem to be that strong.

I think you guys are most suitable for the title trash."

"You," Remi gritted his teeth in anger.

"We will tell Elder Austin about this," Rayon said in a threatened tone.

"You can try.

But I don't think he will punish me.

Because you guys arrogant from the beginning," I said to them before leaving the place.

Aby stood stunned.

Then she remembers the question she asked him during the flight.

“He must have hunted a lot of monsters.

His earlier statements were a total lie,” Aby said to herself.

Aby finally realised why Elder Austin included Zack Lockwood’s name for this trip.

Because he was strong from the beginning.

They underestimated him.

If other palace warriors learnt about this, then they wouldn’t believe it.

Chapter 1008: Report

From MC’s Perspective:

I glared at Remi and Rayon before leaving the place.

I think this lesson would remind them and others to stay away from me.

Remi and Rayon were still in a state of shock.

Even after Zack Lockwood was gone from the place.

They couldn’t believe what just happened.

It was Aby who took them to the infirmary.

The broken bones can be cured within an hour with the latest technology.

30 minutes later,

I returned to the residence.

After entering the room, I quickly went to the bathroom to take a shower.

The bath lasts for 15 minutes.

Then I walked out of the bath and changed into casual clothes.

I have a feeling that the beating of those two guys must have reached the ears of Master Austin.

I'm wondering whether he would call me or not.

After pushing down these thoughts, I went to bed to sleep.

Meanwhile,

Master Austin is looking at Aby.

He couldn't believe what is he hearing.

"Zack has defeated Remi and Rayon single-handedly," Austin asked.

"Yes, elder.

I'm not lying.

It fault of Remi and Rayon.

They both provoked Zack Lockwood first.

I tried to stop them.

But before that, the fight broke out," Aby said.

"So, the faction leader is not bluffing.

Zack Lockwood did gain some opportunity to raise his Physique to Commander Rank," Austin thought.

He knows it's not easy to become Commander Rank quickly.

Unless there is a rich powerful resource to consume.

Such resources are only available at the top forces.

The top forces use such resources to train their next heir.

So it's not something available in the public market as well.

Follow new episodes on the "N0vel1st.c0m".

Austin can undertake that it's a big discovery.

If Zack Lockwood can tell about the opportunity, it would be useful to their ThunderFlame Faction and Star University.

But he doesn't know whether it's good to ask Zack Lockwood.

It's someone else's secret.

He can convince the faction leader.

But it's impossible to say not the Dean Jerome.

He must have seen Zack's strength as well.

Especially about Zack's three elements.

Austin then looked at her and said, "Okay, Aby.

You can go.

And ask them not to cause trouble anymore."

"Yes, elder," After saying that Aby left.

Austin tapped his desk.

He decides not to trouble Zack at this time.

He will summon him tomorrow.

The following day,

After getting out of bed,

I started doing my morning routine.

I still couldn't believe that I had reached the Commander Rank in physique strength.

Fortunately, I was able to control the new profound strength in time.

Otherwise, the uncontrollable strength would cause problems.

One hour later,

I left the residence and made my way towards the Golden Lightning Palace.

When thinking about the Golden Lightning Palace, I immediately thought of Remi and Rayon.

I don't know whether they have told anyone.

They are from the 6th Monster Hunting Squad.

My eyes flash with a glint.

I'm not afraid.

If things were to go bad, Master would intervene.

Shortly afterwards,

I reached the entrance.

Upon sensing my presence, the gate opened automatically.

Seeing that I walked inside.

Boom!

The next second, I found fierce gazes on me.

The Palace Warriors who were going to the training courtyard stopped upon sensing my presence.

They are looking at me right now.

“Hey, it’s the newcomer who wrecked Remi and Rayon”

“It’s impossible!”

“The rumours are false”

“Harumph, they spent a few hours in the infirmary last night.”

“The whole faction knows about this.”

“No way.

How can a comer have the power of Commander Rank”

A heated discussion started immediately.

No one believed it when they learnt last night.

But the evidence was there.

Remi and Rayon didn't deny the rumours as, well.

On the other hand, I could hear their conversation.

But I ignored them and started walking towards Master's residence.

Dean Jerome has said that he wanted reports this morning.

I should not delay reporting it to Master Austin first.

I have already prepared what to tell in my mind.

There will be questions about the Commander's Rank.

No one would believe it if I said I broke through naturally.

I guess the faction leader and the dean must have suspected it already.

Only some powerful resources can help warriors to break through ranks this quickly.

So I decided to tell them about the dark liquid and blood element method.

I'm not going to tell them about the ancient spirit.

Since I'm the one who has the blood element.

No one will suspect my words.

Shortly afterwards,

I arrived at the residence.

I went forward to knock on the door.

Master Austin opened the door the next second.

"You are here on time.

I was just going to call you," Austin said.

Then he greeted me inside.

But I noticed that Master's piercing gaze on my body.

He is checking whether I have reached the Commander Rank or not.

It appears the faction leader has told him.

"Ha....Ha....Ha...."

"It's true, you have become the Commander Rank Warrior in physique cultivation," Austin said with a laugh.

“Yes, Master,” I replied.

“Good, take a seat first,” Austin said.

Hearing that I sat opposite to him.

Austin sat on the sofa.

His eyes sparkle.

He continues to stare at Zack Lockwood before saying, “The Faction Leader told me yesterday.

But I find it hard to do below.

But when Abu told me about your fight.

I completely believed it.”

“Master?” I said.

Austin raised his hand to stop.

He said, “I know it’s not your fault.

The 6th Squad is made up of unruly warriors.

They only recognise strong people.

Since you have defeated them.”

“They won’t create a problem for you.

But you have to be careful of other Squads.

Some of them might want to test your strength,” He added.

“Master, it’s their fault.

I had thought of letting them go.

But they continued their arrogant attitude,” I answered.

“Just forget about them.

You can start reporting now.

The dean must be waiting for the report,” Austin said.

Chapter 1009: A good news

From MC’s Perspective:

I started reporting about the experience that I had in the secret land.

Especially about the weird monsters.

Including the Tree Monster and Unknown Bug species.

After doing that, I told about the snake monster's lair.

Where I found an opening to the secret underground.

I thought of it multiple times before telling him about the dark liquid.

Which is the reason for my physique breakthrough to Commander Rank.

A few minutes later,

"Dark Liquid, you say," Austin uttered in a surprise.

The next second, he remembers something similar.

"If it's that liquid then nobody can use it except Zack," Austin thought.

Now, he understands why Zack was able to do it.

All because of the blood element and blood element method.

If others consume the blood energy of ancient monsters, it would poison their body.

"Zack, you have hit a jackpot.

If I'm right, then the dark liquid is something not useful to others," Austin said with a smile.

"What?" I blurted out of curiosity.

I was having a struggle in my mind.

But he didn't react at all.

"I guess the dark liquid is the condensed blood of the ancient monster.

Blood becomes dark in powerful monsters.

If they are Class-9 and above."

"I don't know what Class level of the monster blood you have consumed.

But I think it's not definitely below Class-9," Austin said in a serious tone.

Hearing that, I sighed inwardly.

At the same time, I felt relieved.

Apart from me, no one can consume that resource.

Which means I can use it in the future.

Austin saw through Zack's thoughts.

He smiled and decided to say something to the Faction Leader later.

If the dark liquid is what he is guessing.

Then he would ask him to bring it for Zack.

Follow new episodes on the "N0vel1st.c0m".

"Alright, Zack you can leave.

If someone troubles you, you can always fight back.

But don't cripple them," He said.

"Okay, Master," I said before leaving the residence.

Then I started walking towards the essence chamber.

I'm going to focus on improving my essence to cultivate the Commander Rank.

But to reach the essence chamber facility.

I have to go through the training courtyard.

If I'm not wrong, others might be waiting for me.

When I go there.

I see more warriors than before.

Some are standing inside the platform.

While many of them are standing outside to watch others train.

"Hey, Zack Lockwood is here"

Suddenly, someone shouted my name.

Gasp!

A small exclamation sounded.

The Male and Female Seniors, everyone's gazes turned towards me.

Their gazes were piercing as they wanted to find out my real strength.

I ignored their gazes and slowly started walking on the footpath towards the essence chamber facility.

"It's indeed him"

"What is he doing?"

"Look at the direction he is going.

He is going to the essence chamber."

I'm hearing everyone's murmur.

No one is on the way.

Suddenly, someone jumped up and landed on the footpath in front of me.

He is blocking my way forward.

“Commander Rank,” I immediately felt the other party’s strength.

After beating Remi and Rayon, I can guess others’ rank.

The person in front of me is Commander Rank.

Looking at his smiling face, I can tell that he wants to confirm something.

“My name is Blake.

I’m from the 8th Monster Hunting Squad.

I heard you thrashed people of the 6th Squad.

I don’t believe it.

Why don’t you show your strength in front of us?” The muscled warrior asked.

I shook my head before replying, “I have better things to do.”

After saying that I continued to move forward.

But the warrior named Blake continued to stand.

Not moving away from the spot.

Looking at him, I feel that there is no need to expose the body’s strength.

My purple lightning power is above 1000°C.

His skin and flesh won't be able to withstand such power.

"Look at him.

He does not respect the seniors at all.

He should have agreed to Blake."

"Someone should teach a lesson to the arrogant junior."

"Blake is going to kick his @&&!"

"He might be the next one to be admitted to the infirmary."

The warriors around us were chatting and laughing.

I'm looking forward to their expression in a few seconds.

I appeared in front of Black.

He simply stood cross-armed before me, carrying a wide smile.

Not budging away from the place.

"Since you are that confident.

I'm going to test you a little," I said.

In a flash, I shot a purple lightning bolt at him.

Blake was shocked.

Since there is no gap between us.

The purple lightning bolt quickly struck his body.

Argh!

A muffled grunt left from the mouth of Blake.

The purple lightning power starts to paralyze and burn his whole body.

He is experiencing the two torture at the same time.

This all happened within seconds.

Smoke starts coming out from him.

Everyone was shocked.

A complete disbelief can be seen on their faces.

Blake's friends stood from their seats.

They shut their mouths.

Their joyful mood is replaced with fear.

On the other hand, I was stunned by the power of purple lightning as well.

I noticed the power of purple lightning was stronger than before.

“Don’t tell me the Commander Rank breakthrough had some effect on purple lightning seed,” I thought.

Because the person in front of him was completely paralyzed.

Those who can join the Golden Lightning Palace can fight across ranks.

The person named Blake is not an average warrior.

So I can tell that Purple Lightning had a huge improvement.

Without technique, the purple lightning bolt can put a warrior in this condition.

I felt immense joy.

Under the shocking and dumbfounded gazes of everyone.

I walked past him and made my way towards the essence chamber facility.

None of them dared to stop me.

Including the General Rank Warriors who were training separately.

I can see their faces were solemn.

Everyone here has a lightning element.

But my purple lightning element is more powerful than them.

When I reached the Essence Chamber facility.

I nodded to the female senior sitting behind the desk.

Then I saw the available essence chamber before entering inside.

Chapter 1010: Expectations

Golden Lightning Palace:

Austin, as usual, observed the whole fight secretly.

He thought Zack would use his body strength.

To his surprise, Zack shot a purple lightning bolt to beat his Commander Rank Senior.

“Was I wrong?”

“His purple lightning appears to be stronger than before,” Austin said to himself.

After glancing at the Warriors in the courtyard.

He disappears from the spot.

He needs to send the report first.

When he returned to his residence.

He immediately typed the need for dark liquid for Zack Lockwood's body cultivation.

After doing that, he sent the report to the Faction Leader, Clifford.

Faction Leader Clifford was being asked by Dean Jerome about the reports.

Elder Austin's report arrived on time.

He immediately read it before sending it to Dean Jerome.

At the same time, old man Clifford was able to learn about the reason behind Zack Lockwood's Commander Rank Body Strength.

But the finding of dark liquid left bittersweet in his mouth.

It's not something that can be used by everyone.

Clifford knows better than Austin.

Only Blood Element warriors can observe the condensed ancient blood.

Even for a Blood Element Warrior, you need someone to protect them from danger.

There are chances of energy overload after consumption.

He was surprised by the fact that Zack Lockwood was able to do it by himself.

It shows that Zack Lockwood's blood element talent is not inferior to the Purple Lightning Element.

He also saw Austin's request to collect Dark Liquid for Zack Lockwood's body cultivation.

But it was something only Dean Jerome could decide.

If other Factions learn about this, they won't let the Thunderflame Faction have any advantage.

Especially Zack Lockwood's talent regarding three elements no other faction knows about this.

Even if they want, they can't reveal the reason.

Old man Clifford decided to request Dean Jerome later.

Time passed,

The Other Faction Leaders are curious about the Thunderflame Faction Expedition to the newly discovered secret land.

Dean Jerome has promised that he would send a second batch after the Thunderflame Faction.

Follow new episodes on the "N0vel1st.c0m".

But it was something decided by the Dean.

So they are patiently waiting for the news.

Dean Hall,

Old man Jerome, in his place, is going through the report.

The kid named Zack Lockwood has deeply impressed him.

Especially when he saw the kid was SSS-ELITE Rank Body Strength before the Trial.

But when he returned, his body strength had reached the Commander Rank.

He obviously knew that there was some opportunity behind it.

When he saw the reason behind this in the report.

His eyes flash with disappointment.

Then he sighed inwardly.

He was neither happy nor sad.

He can now see why the body was able to break through quickly.

“Condensed Monster blood,” He muttered to himself.

He quickly connected the dots.

He is aware that the kid has a blood element.

So, this condensed blood can be said to be a perfect resource for the blood element.

“There are no other warriors in our university who have blood elements.

Except for the kid.

If the secret land has more dark liquid, then it will be useful for the kid," He thought.

He was surprised by the fact that no one bothered to hide information from him.

Despite knowing that Zack Lockwood needs dark liquid resources more than anyone.

Old man Jerome pondered.

He knows that other faction leaders are waiting for his answer.

If others knew such a liquid existed, they wouldn't allow the Thunderflame Faction to have it.

So the old man Jerome decides to collect liquid before sending the 2nd team.

When it comes to other resources.

He was confident there might be other resources in the secret land as well.

This was the first team that went on the expedition.

Later, he plans to send more from other factions as well.

Then, he will know for sure whether other resources are present in the secret land.

Shortly afterwards,

Secret warriors under the command of Dean Jerome arrive at the secret land.

Dean Jerome opens the secret land to send the secret warriors inside.

These secret warriors will collect resources from the location mentioned in the report.

...

Virtual Training Lab:

Old Man Daniel is watching the virtual duels happening between the warriors from the Elemental Factions.

Ever since Zack Lockwood participated in virtual duels some time ago.

Many warriors from other Factions have started to come as well.

Everyone has challenged Zack Lockwood's avatar.

But they failed miserably in the end.

Old Man Daniel knows that these warriors are real top warriors in the faction.

If those top warriors come to his place, then he would create their avatar as well.

Right now, the warriors defeated by Zack Lockdwood's avatar have started to train here.

He is not interested in their duels.

If not for their Elders order, he would not have allowed them inside.

Suddenly, the image of Zack Lockwood comes to mind.

“I wonder what the kid is up to these days,” He muttered to himself.

Even the staff working here became less interested in virtual duels of other warriors.

But they are working to update their database.

Creak!

Suddenly, someone walks into the room after opening the door.

Old Man Daniel, who was bored, was startled upon seeing the person.

“Ronnie Seth, what are you doing here?” Old Man Daniel asked.

“Did he come to practise here?” Ronnie asked.

His eyes sparkle with excitement.

He got some improvement in his skills.

So he has come here to fight against Zack Lockwood’s avatar.

Old man Daniel showed a bitter smile.

He can understand the enthusiasm of Ronnie Seth.

But Zack Lockwood has said that he won't come here unless he gets some major improvement in his strength.

"Ronnie Seth, he won't come here.

Bloodline warriors have managed to defeat his avatar.

He will return after getting some improvement in his strength," Old Man Daniel said.

"Bloodline Warriors," Ronnie uttered.

He heard the news at that time as well.

But he was not interested in them.

He is more keen to fight against Zack Lockwood because of the purple lightning element.
