Chapter 101 - Part 2: Passage Way

The squad is being led through the passageway by Mr. James. Mr. Paul, Ms. Emma, The Twins, and finally Mr. Craig Dawson followed him in order. The two leaders took up positions on opposite sides of the room to deal with issues.

Hearing about poisonous plants is alarming. Mr. Paul's imagination was filled with wacky ideas. He's already been tense recently. Now I'm noticing the poisonous plants. He quickens his steps.

He is hesitant to express his viewpoint. It will be considered a violation of the order. Furthermore, based on their findings, this investigation is ongoing. He had no choice but to take part.

He wants to get out of the probe. Instead of two teams, he desired one. To find the tracks, everyone should spit separately. Then he'll be able to hide in the safest place possible. He knew it deep down in his heart. He was well aware that it was a level 4 monster.

Mr. Dawson was informed of the situation by him and Emma. I'm hoping to enlist the help of an Elite warrior to cope with the matter. But now the administration has dispatched a man named James. He leaned in close to him.

Seeing Mr. James clears the path, I take a step forward. His eyes were filled with anger. In his heart, hatred is raging. This is because he is only a Peak Trainee Warrior.

It's nothing more than a suicide mission, he reasoned. If they stumble across a Level 4 Monster. It will quickly kill them. Mr. Paul returned his gaze to Ms. Emma. She had a gloomy expression on her face. Mr. Paul shook his head when he saw this. He then kept following Mr. James.

Ms. Emma was thinking about that day the whole time. In her thoughts, the strange Monster's appearance was recreated. She wants to know what's going on. However, she still felt the same fear in her heart.

It's difficult to get out if the level is Level 4. Don't even think about leaving. The Monster's aura will be enough to press us. She will occasionally observe Mr. James' behavior.

So far, he appears to be a decent individual.

There's nothing wrong with his logic. His strength level, however, is insufficient to deal with level 4. She hopes it's nothing more than a false alarm.

"The odd Monsters were the product of mutation," she consoled her in her heart. Something must have gone wrong along the way of its evolution." She pursued them with her fists clenched.

On the other hand. The twins were composed. They were unconcerned about the probe. They're just doing what they're told. Instead of pondering about the investigation, they were completely focused on their surroundings.

Mr. Craig Dawson, who was trailing them. Would occasionally peek behind him to check for monsters. Mr. James is someone he trusts. Mr. James didn't get a breakthrough, but he knew. He'd already surpassed the Elite level's weakest strength. As a result, he was unconcerned about level-4.

As a result, people had differing viewpoints on the continuing probe. They carried on with their journey. They safely climbed down to the other side a few hours later. They took a little pause to unwind.

"It took a half-day to get here," Mr. Craig Dawson said, looking at his Sci-Fi watch.

"I'm glad we didn't get delayed by those Monsters," Mr. James replied with a smile. We'll have to spend the night here at the passage if that doesn't work out."

Mr. Craig Dawson nodded when he heard that. However, one person had a disgruntled expression on his face. Mr. Paul is so tense that he doesn't feel the need to conceal his expression. Mr. James is aware of his response. His lips bent slightly as he realized this. He has been watching everyone from the start.

He needs everyone's help with this probe. Following the investigation, based on everyone's input. He will conclude. If they don't come across any Monsters, it will happen. That's why he pays attention to everything. They will have to deal with the ramifications. If they do not cooperate with the investigation.

Everyone is taking a break at the moment.

"Watch out!" Ms. Emma screamed.

She makes a gesture to the ground with her finger.

Everyone who had been notified had moved away from the area. The ground begins to crack, and the crack spreads out until a massive level 2 Monster appears. Its huge body is wriggling to reach the surface. It ascended from the depths of the earth to the surface.

The Worm Class Monster had a height of 10 feet and a length of more than twenty feet. It possessed a circular mouth that was full of razor-sharp teeth. They were whirling.

Mr. James had sensed something was wrong with the ground a few minutes before. If the monster is a level 3 monster. He could have easily sensed it by sensing its aura. The Monsters traveling underground, on the other hand, do not have the same aura. As a result, he became more relaxed.

He intends to put his squad to the test in this situation. To determine who is sane and who is prepared for this journey.

With a gloomy smirk, Mr. Paul remarked, "It's the Worm Monster."

When the twins noticed Monster's presence, they spent no time acting. They went on the offensive.

Mr. Mike Hopkins commanded, "SPIKE ATTACK."

Mike summoned three long spikes from his palms. While directing them towards the Monster, using the earth element. They were four feet long.

The nailing sound of "Puch... Puch" resonated. Each spike nailed the worm's wriggling body one by one. It made a large hole in its body.

Due to the agony, the Monster attempted to move its body. From its wound, a yellow acidic liquid flowed out like water. This Monster's level 2 ability is acidic blood.

Mike, launched a swift attack. Leroy took his time forming a massive boulder out of the soil. He pointed to the top of the Worm Monster's head. A 5-foot-tall boulder crashed down on the Monster's head.

"Boom..." a loud crash resonated throughout the area,

The Worm's head has been smashed. More acidic blood gushes out like water as a result. The level 2 Worm bleeds to death a few minutes later.

Mr. Craig Dawson wore a broad grin on his face. He is awestruck by the twins' reaction time.. And, more significantly, their attack choice.
